Work Continuing At New City Park

Work is getting underway this week on playground equipment at Santa Anna's new City Park, according to Glenda Cook, a member of the Park Board. Work by the Santa Anna Lions Club on fencing and landscaping has been completed, and the supervision of the facility has been turned over to the City of Santa Anna and the recently appointed Park Board of which Carmen Donham is chairman.

Materials are being purchased this week for the playground equipment, using funds from the Campfire Girls donation and the Park Fund donations. However there is need of used pipe for the equipment, and donations of any amount are needed.

Gary and Ruby Fleeman, Mrs.

Cook and Mrs. Donham will be at the park this week supervising the work, and they are also seeking volunteers with welding equipment to help with the work.

The City employees will be mowing at the park this week, and other work started to make the facility an attractive and usable site for picnics and family groups. It is conveniently located behind the Civic Center (former Army), and open to the public at all times.

Many people have made donations for the landscaping and picnic tables and benches that are already at the site.

Members of the Park Board will welcome any donations of money, materials or labor to help complete the park and continue its upkeep.

Winters Native is Chosen Youth Minister at FBC

Chuck Evans, a student at Howard Payne University, has been chosen as Youth Director at First Baptist Church and assumed the position last Sunday.

A native of Winters, Chuck is the son of Bo and Jo Evans. A 1979 graduate of Winters High School, he played varsity basketball, track, golf, tennis and football. He was quarterback and captain of the Bliz-

ard team his senior year and elected Class Favorite.

He is married to the former Lori Watkins of San Angelo. He and his wife are students at HPU where he is studying for the ministry. He is also employed at Howard Payne with the construction crew building the new Bible chapel building. The couple have been members of Brownwood First Baptist Church.

Meals on Wheels to Continue

Despite rumors that the program is to be stopped or changes made in its operation, the Meals on Wheels program in Santa Anna is to continue operation as usual.

Mayor Edd Hartman said this week that the City Council chose to continue with the locally-operated program and will not be accepting any federal funding or supervision for the project.

The Meals on Wheels project provides the noon meal for local senior citizens and shut-ins, with volunteers from several local churches making the deliveries to the homes five days a week. The meals are prepared at W. B.'s Cafe, with the cost paid by the recipients and supplemented by donations from churches and individuals.

The conflict of information on the program was

caused by the change in the Senior Citizen meals program, whereby Santa Anna people will have meals served in Santa Anna instead of being transported to Coleman to the Senior Citizen Center. The service, provided three days each week, is funded by a West Central Texas Council of Governments program and donations from local people. The local Senior Citizens van has transported from eight to 12 people to Coleman each Monday, Wednesday and Friday for the meals, but with the new arrangement it is expected 20 or more will take advantage of the program.

A coordinator for the local meals project is to be named this week from several applicants who applied for the position. The coordinator will also supervise the Meals on Wheels project.

Mrs. Joe C. Barnes has been coordinator for the program, but resigned this month. She did not want to assume the extra responsibility that the new program would entail. Her job also included coordinating the twice-monthly blood pressure clinic as well as assisting with Chamber of Commerce correspondence.

Mayor Hartman said the City Council wanted no change in the Meals on Wheels program that has been so successful for the past several years. Although it would have been possible to have the food service prepare the meals the three regular days, the Council preferred to keep it under local supervision and operation.

Mayor Hartman also said the Senior Citizens meals program should be in operation by the first week in August.

The downtown area of Santa Anna should look somewhat better soon, as more renovation is underway.

Bob Runyan, who lives northwest of Santa Anna, has recently purchased the old Howard Barber Shop building from the Cheaney Estate and is repairing the damage of the recent fire with plans to have a business opened there in the future.

Work is continuing on the Opera House, with passers-by noticing for the first time the beauty of the old building.

Plans for rebuilding the old newspaper office have been discussed, or some disposition made to improve that smoke-damaged "eye-sore" on the main street.

The old telephone office building on North Second Street was recently purchased by Carol Kingsbery of Austin, who plans to repair and remodel the building to be rented as offices, while looking toward returning to Santa Anna in a year or so to open her law office. She is currently a hearings examiner with the Texas Railroad Commission.

Grazing, Fencing Seminar Scheduled In Brownwood

One of the two Controlled Grazing and Fencing Seminars to be held in the United States this year will take place in Brownwood on Monday, July 26, at the Holiday Inn. The seminar is sponsored by Snell Systems, Inc. of San Antonio and Nelson Wholesale Service of Brownwood.

Developed in France and New Zealand, controlled grazing is a flexible system of rotational grazing that is being used throughout the world to double and even triple forage production. Also known as the wagon-

wheel system, the Rhodisian grazing method or the paddock system, Controlled Grazing utilizes New Zealand-type Power Fence to divide pastures into smaller units, or "paddocks." Concentration and rotation of livestock through these paddocks result in desirable plant growth and soil conditioning.

The seminar is free and will feature a look at Controlled Grazing in New Zealand by Vaughan Jones, an international grazing

consultant from New Zealand who is also scheduled to speak at the Grasslands Conference in August; a demonstration of Snell Power fencing; a presentation of Controlled Grazing in the United States and a tour of a local ranch utilizing controlled grazing.

The Brownwood seminar begins at 9 a.m. with registration at Holiday Inn and will end at 5 p.m. For more information, all area ranchers are invited to attend the seminar on Monday.

Area Library Leader Visits in Santa Anna

Ada Howard of Abilene, coordinator with the Big Country Library System, was in Santa Anna Monday to visit at Santa Anna City Library. She showed a new film presentation on services available through the area libraries, with pictures of each of the 40 libraries in the 32-county area.

Control of Fleas Possible With Proper Methods

DALLAS - Fleas seem to be making it big in Texas.

Over the last five to seven years, fleas seem to have become more and more of a problem, particularly in urban and suburban areas.

Cat fleas which infest dogs and cats and readily attack humans are the most common, says an urban entomologist with the Texas Agricultural Extension Service, Texas A&M University System.

Flea bites are extremely annoying and generally become increasingly sore and irritated over a period of a week or more, explains Dr. John M. Owens. Fleas most often bite people about the legs and ankles.

A small red spot with a light colored center appears where the mouthparts of the adult flea enters the skin. Applying cooling preparations such as carbolated vaseline, menthol, camphor, calamine lotion or ice will help relieve itching. Severe allergic reactions or infections should be treated promptly by a physician.

How do you control these irritating pests?

Flea control must include treatment of the pets and thorough treatment of the entire premises - indoors and outdoors. These three areas should be treated simultaneously to break the "flea-cycle" and get effective control, emphasizes the entomologist.

Insecticides containing carbaryl, (Sevin), dichlorvos (DDVP), pyrethrin, rotenone, malathion, methoxychlor or propoxur

(Baygon or Sendran) are labeled for use on animals. Dusts or powders are generally preferred over sprays for treating pets and should be used at three to four-day intervals when infestations are heavy.

Rub the dust into the animal's fur by hand. Be especially thorough around the ears, between the legs and around the tail. Try to avoid getting dust in the eyes, mouth and nostrils. Flea collars which contain propoxur or naled (Dibrom) appear to be superior to those which only contain dichlorvos. Be sure to read the label before using any of these products and consult a veterinarian if questions arise.

Spray all infested outdoor areas such as the yard, porches, garages and outbuildings with chlorpyrifos (Dursban), diazinon, propoxur or carbaryl. Be sure to treat areas used by pets, and let the spray dry before pets or children are allowed to use treated areas, Owens said. Repeat the spray at two-week intervals until fleas are controlled.

Inside the home, begin control measures with thorough cleaning. Vacuum all floors and upholstery and dispose of sweepings immediately to prevent flea escape and subsequent reinfestation. Also, launder all pet bedding.

Apply an insecticide spray of chlorpyrifos (such as "Rid-A-Bug or Raid "Home Insect Killer") to all floor areas, under and around upholstery

cushions, and to pet bedding areas. Also spray moldings, baseboards and draperies to a height of one foot above floor level. Try to avoid further vacuuming and cleaning for 10 - 14 days after treatment.

While this insecticide should give three to four weeks of effective residual indoors, it will not rapidly knock down adult fleas. In conjunction with the residual spray indoors, homeowners might use a non-residual insecticide applied as a total-release aerosol or fogger, suggests the entomologist. Products containing pyrethrins, resmethrin and dichlorvos are available to provide quick relief from indoor fleas. Again, be sure to read and follow all label directions and precautions with these products.

One final place which may require insecticide treatment is the family car, especially if your pet is a frequent rider, adds Owens.

MRS. DAVID WAYNE THOMPSON

Miss Seider, Mr. Thompson Married in Brownwood

Michelle Denise Seider, daughter of Mr. and Mrs. Charles Seider of Brownwood, and David Wayne Thompson, son of Mr. and Mrs. David Thompson of Coleman, were married Saturday, June 26, at Coggin Avenue Baptist Church in Brownwood with the Rev. Leon Aduddell, pastor, officiating.

Two tree candelabra flanked a heart-shaped candelabra at the altar, with an arrangement of white mums, daisies and white ribbon bows flanked by potted palms. Bows of white satin and fern marked

the family pews.

Given in marriage by her parents, the bride was escorted to the altar by her father. She wore a floor-length gown of silk organza with silk Venice lace accenting the Queen Anne neckline. The full sheer sleeves, empire bodice and chapel-length train were highlighted with appliques of silk Venice lace. Wide rows of lace edged the gown and train, and her

veil of bridal illusion was also edged in lace.

She wore diamond jewelry, gifts from her parents and the groom, and carried a cascade bouquet of white and pink roses.

Sherril Shoemaker was maid of honor.

Bridesmaids were Mrs. Carl Squyers of Santa Anna, sister of the groom, and Sheila Krischke.

The attendants wore formal gowns of organza in shades of mint, pink and yellow, with matching picture hats. They each carried bouquets of mums and daisies in spring colors, tied with ribbon matching their dresses.

Hillary Hopper, cousin of the bride, was flower girl and wore a peach dress and carried a lace basket filled with peach flowers.

Terry Fleming of Santa Anna was best man. Groomsmen were Danny Thompson of Coleman, brother of the groom, and Carl Squyers of Santa Anna, brother-in-law of the groom.

Jeremy Stegemoller, cousin of the bride, was ring bearer.

Wedding music was provided by Mrs. Ruby Striepe, organist, and Sue McCoy, soloist. Registering guests was Janet Kaye Franke, cousin of the bride.

Ushers were Tommy Harris of Santa Anna and Terry Day of Lake Brownwood. Timothy Seider, brother of the bride, and Brad Windham were junior ushers and candlelighters.

A reception was held following the ceremony at the fellowship hall of the church. The bride's table was laid with lace over white linen and held a three-tiered cake trimmed in spring colors and topped with a miniature bride and groom.

An arrangement of white, yellow, pink and mint mums and daisies surrounded a candelabra on the table.

The groom's table was covered with peach linen

Alarms Recommended For Best Fire Protection

COLLEGE STATION- Smoke detectors can provide an early warning of fire that should cut deaths in half.

Estimates show that an early-warning fire detection device could save from 40 to 50 percent of the people that die in home fires, points out Dr. Gary Nelson, safety engineer with the Texas Agricultural Extension Service, Texas A&M University System.

Nearly 7,000 persons die each year in almost 700,000 home fires in the U. S. Since most of these deaths occur while people are asleep, an early-warning device such as a smoke detector can be a life-saver, contends Nelson.

The engineer believes a smoke detector is more suitable than a heat detector because most home fires start by smoldering. Thus smoke will likely be one of the first combustion products.

Smoke detectors are self-contained units that can run on batteries or can be plugged into existing electrical systems. Cost

averages \$20 to \$50 per unit. Get two or three price estimates, and be sure the units bear UL of FM labels.

Test units as you install them or have the installer test them in your presence, suggests Nelson. Be sure you get an instruction booklet on their operation, testing and maintenance.

A single smoke detector installed outside the bedroom area on the ceiling or wall will provide minimum protection for the average home, says Nelson. For a two-story dwelling with bedrooms on both floors, he recommends two units, one outside each bedroom area.

According to the engineer, ceiling-mounted units have proved superior to some mounted on walls because smoke rises and more readily enters the ceiling detection chamber.

Just as important as an early-warning fire detection device is an evacuation plan, emphasizes Nelson. Be sure there are alternate methods of escape in case doorways are blocked by fire.

Social Security Notes

Farmers: Will you have hired help this year? If so, remember that most farm workers are covered by Social Security and their wages must be reported.

If you pay a worker \$150 or more cash wages in 1982, the wages are covered. If the individual works for you 20 or more days and is paid on a time basis - by the hour, day, week or month - that counts, too.

It is important to employees that wages be properly reported. Entitlement to and the amount of monthly disability, survivors, and retirement benefits depend on reported earnings.

A "farm worker" includes anyone who helps plant, harvest, process or deliver a crop. It also includes someone who does domestic work in a farm home or cooks for a farm crew.

As a farm employer, your responsibilities include:

1. Keeping a record for each worker - Record the worker's full name and Social Security number (copy it directly from the person's card.) Keep track of wages paid and taxes withheld. If you pay on a time basis, note the exact days worked and wages for each day.

2. Collecting and paying Social Security taxes - The tax rate for 1982 (for both employee and employer) is 6.70 percent on earnings up to \$32,400. Generally you pay this tax periodically during the year, using Federal Tax Deposit Form 511, available from the Internal Revenue Service.

3. Preparing required forms - Early next year, you must complete IRS forms 943 (Employer's Annual Tax Return for Agricultural Employees) and W-2 (Wage and Tax Statement). These forms and instructions for completing them are available from any IRS office.

There are special rules if you have migrant farm

workers during the year. Either you or the crew leader might be the "employer" for Social Security reporting purposes, depending on the circumstances. For more information, ask any Social Security office for a free copy of "Social Security information for crew leaders and farmers."

Almost all social security matters can be handled by phone. For general information or to report a change, call toll free 800-392-1603. Medicare questions or filing of medicare claims can be taken care of by calling toll free 800-442-2620. You may file an application to establish your eligibility by calling Brownwood, 646-7533.

A representative of the Brownwood office visits Santa Anna once each month on the second Thursday from 1 - 2 p.m.

Patty Ford Speaker At Women's Fellowship

Patty Ford of Abilene will be speaking at the meeting of Women's Aglow Fellowship on Saturday, July 24, at 10 a.m. at the Adams Street Community Center in Brownwood. Patty is treasurer of the Abilene Chapter, and the wife of Dave Ford, a used-car dealer. She is the mother of two children.

Local chapter president Rebecca McKee invites all interested women to come and hear Patty tell about how the Lord has changed her life. "Patty's life today is one of stability and joy, although this was not always true. After much heartache and suffering as a child, she turned to alcohol, which brought her even more unhappiness. In 1978, through receiving the love of Jesus Christ into her heart, she was set free from alcohol and her

life completely changed," says Mrs. McKee.

Women's Aglow Fellowship is a non-denominational Christian women's organization. This will not be a luncheon meeting. Nursery facilities are available at 2719 Elizabeth Drive, the home of Becky Campbell. Arrangements for the use of these facilities may be made by calling 643-4908.

HERE FOR WEEKEND Mr. and Mrs. Pascal Hosch, Jill and Sam of Tulsa were weekend visitors with his parents, Mr. and Mrs. Pat Hosch. On Saturday they celebrated the fourth birthday of Sam Hosch with a picnic. Joining the group were Patrick and Sandy Hosch.

Never work on a car if you're tired, sick, intoxicated or on drugs.

Never run the engine unless the work area's well ventilated. Better still, never run the engine unless the car's outdoors.

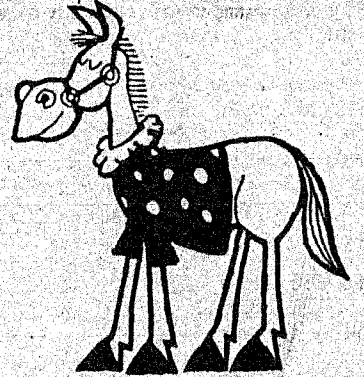

Don't work near hot exhaust manifolds, mufflers, pipes, hoses, radiators or other car parts that run hot.

There's satisfaction in a job well done. There's also satisfaction in giving a good book. One, like the Complete Car Care Manual, can help the do-it-yourselfer do it safely. Available at your bookstore.

Cowboy Camp Meeting a Success

Coleman Woman Has Report of Event

By Carrie Howard

The 18th Annual Cowboy Camp Meeting under the direction of Evangelist George Havens, got underway at the Flying H Acres between Santa Anna and Coleman on June 18, and continued through June 27. Despite the adverse weather a good meeting was enjoyed by all who attended, and there were several campers for the entire time and some there for a shorter time.

The Aquila and Priscilla Tent Company of Waco,

owned by Charlie Rogers, had the big tent up early and took it down at the close of the meeting. The big tent stood through all the weather, but the cook tent went down the last Saturday night of the severe weather.

Dr. Bill Wood, Business Director of Irving Christian Academy, was in charge of the music program. One interesting aspect were scriptures set to music by Dr. Wood.

Special music was rendered by local people and others. Truman Justus and wife Cleo had special music the first three nights, and Coleman First Baptist Church Choir under direction of Wayne Sewell, had special music one evening. A musical group from Brownwood under the direction of Gerald Green, and "The Master's Men" of Santa Anna First Baptist Church, composed of Donnie Neff, Patrick Hosch, Marty Donham and Dickie Horner, sang one night.

On the last Saturday, a group of 18 girls from Victory Village Home for Girls in Hutchinson, Kansas, under auspices of "The Heart Ministries" directed by Bro. Bill Cowell, had special music. Mr. Cowell is a well-known radio preacher. The Christian home is for delinquent girls in the order of the Roloff Homes in Corpus Christi.

Guest preachers included Bro. Buck Hatfield,

pastor of Faith Baptist Church in Snyder; Dr. Marvin Sheffield of Brownwood; Dr. Bill Wood; and George Havens. Dr. Sheffield was presented an award of appreciation for his 16 years of cooperation in the Cowboy Camp Meeting.

A chuck wagon supper was served both Saturday nights, with the meat, sour dough biscuits and drinks furnished by the Camp and local people bringing other food. A good crowd was there both evenings despite the weather.

As in years past, the campers and guests gathered around a campfire some nights to sing and play their instruments.

Among some of the campers who were there for the entire time were Leroy Beinhorn and wife Linda and daughter Billie of Moscow, Texas (near Lufkin). Leary worked on the grounds to get them in good shape. The May and early June rains added the beautiful spring flowers and green grass.

Rev. Jack Pediford and wife Charlotte and son Larry of Dallas, neighbors of the Havens, helped in many ways around the campground.

Other people there for shorter times were Rev. and Mrs. R. J. Sjolander of Huffman; Billy Gillis of Pochontas, Tenn.; Joe and Dena Justice and children of Houston; Gerald Myers and wife of Mesquite.

Mr. Myers is now a blacksmith. In previous years he was well known as a bull rider and bareback bronc rider in rodeos.

Another visitor, M. D. Gordon and wife Tula from Baytown, were in in 1980. They are missionaries to Honduras, C.A. His work is with the military and in prisons. A number of people passing just came in for a short visit, and the Havens received numerous telephone calls.

The log cabin housing the Pioneer Preachers Museum is completed and housing items of historical interest and memorabilia of pioneer days. Additional information or items for the museum are still wanted.

Some of the campers took advantage of the Flying H at the Coleman Airport Saturday morning. Bro. Jack Pediford was there. He is a private aircraft pilot and has an organization known as "Gospel Wings Fellowship" where private pilots get together and distribute gospel tracts, medical supplies and clothing to evangelical churches along the Mexican border.

So time marches on, and again we report that the friends of the Cowboy Camp Meeting enjoyed "roughing it" a few days this year. I feel sure Bro. George and Sister Lucy are looking forward to next year when their friends meet again at Flying H Acres near Santa Anna.

Whon News

By Mrs. Tom Rutherford

Seemingly the weather is our basic topic for our community. And we all realize summer has arrived and it is very hot. We could use a good rain on the pastures and late feed. Since this is Coleman County, we realize this is type of pranks the weatherman usually pulls on us. Trusting better times will soon arrive.

Joe Floyd Morris and a friend, Harold Huetto of Oklahoma were guests of Mr. Morris' parents, Mr. and Mrs. Floyd Morris, during the weekend. Joe Floyd's children, Jeffery and Jennifer, returned home with their dad for an extended visit.

Hilary Rutherford and son Rocky, Mark Ham-bright and Bobby Boat-right of Coleman and Loyd Rutherford and Son Todd were with the Tom Rutherfords Friday. The men were working cattle. Todd spent Friday night with the Hilary Rutherfords in Coleman and attended the rodeo.

Mrs. Graham Fitzpatrick and granddaughter Michelle who is visiting here, visited with Mrs. Fitzpatrick's mother, Mrs. Mary Snowden, in Leisure Lodge Rest Home in Brady Friday afternoon. Mrs. Snowden was reasonably well.

Mrs. Mary Avants and daughters Viola and Oleta of Hamlin were dinner guests with Mrs. Pearl Avants in Santa Anna Thursday. Viola and Oleta also visited with Lily Fox.

Mr. and Mrs. Floyd Morris and grandchildren, Jeffery and Jennifer, visited in Coleman with her brother, Mr. and Mrs. William Perkins, Thursday afternoon.

Miss Michelle Bullion, who is visiting her grandparents, the Graham Fitzpatricks, visited a few days the first of the week with her grandmother Bullion in Brownwood. The Fitzpatricks were transacting business in Abilene Wednesday.

Mr. and Mrs. Tom Vinson attended the Vinson family reunion at Coleman City Park on Sunday.

Mr. Duvone Jones of San Angelo was in our community Saturday afternoon and chatted quite awhile with Tom Rutherford. He was looking the community over since he with his parents, Mr. and Mrs. Ed Jones, were former residents of the community. His parents are deceased, and also is his brother Mr. Elzie Jones. He asked about a lot of "used to be's" of the community.

Mr. and Mrs. Niel Fitzpatrick and children of Odessa were with his parents, Mr. and Mrs. Graham Fitzpatrick and granddaughter Michelle. Mr. and Mrs. Don Fitzpatrick and children of Santa Anna were also here

with the group and all attended the Coleman Rodeo Saturday night.

Mrs. Johnny (Ruth) Fivesash and two of her sons from Ballinger and Eola community stopped by Friday morning and visited with me briefly. They had been to the Fivesash Cemetery near Trickham and were enroute home when they stopped by. Was so good seeing them. The youngest son I do not remember, but kind of grew up with the older one - when we were very young.

Etoile Cozart was on his farm here during the week and chatted with the Tom Rutherfords.

HOME FROM TRIP

Mrs. Modora Gilmore, Mrs. Era Walters and Mrs. Lucile Wylie are back at home after several days at Canyon Lake with a niece, Helen and Pete Nichols. They met a sister, Sally Stewardson of Georgetown, at Canyon Lake and the group enjoyed visiting and sightseeing in the area. They took Mrs. Stewardson back to Georgetown enroute home.

Recent visitors with Mrs. Gilmore were her son and his wife, Mr. and Mrs. Pat Gilmore of Mobile, Ala. Mrs. Pat Gilmore had visited the past month in Coleman with her parents, Mr. and Mrs. Arthur Casey, with her husband joining her recently for a vacation trip to Albuquerque, N. M. and other points of interest.

METRIC MEASURES
Helpful Information From The U.S. Metric Board

Q. How much will conversion to the metric system cost?
A. No one knows for certain. Individual decisions must balance long-term benefits against initial costs. Costs will vary in different sectors of the economy. By converting gradually as new products are developed and equipment wears out, some companies are finding that the actual changeover costs are less than expected. Since metric usage is voluntary, businesses will convert if it's profitable to do so; if not, they won't.

Swiss Visitors in Santa Anna

Foreign Young People Aided, Entertained During Stay in Community

FOREIGN VISITORS stranded in Santa Anna last weekend with car trouble were entertained and aided by Santa Anna people. The four Swiss youths from left are Annina Bonorand, Markus Kaufmann, Reto Calonder and Andre Kahlin, who are on a tour of the United States.

By Montie and Sandra Guthrie

A recent incidence of bad luck turned into an experience in Texas hospitality last Friday for four young Swiss tourists while traveling through Santa Anna on their way to Orlando, Florida. A wheel bearing on their 10-year-old Ford went out.

The young people, Annina Bonorand, Markus Kaufmann, Reto Calonder

and Andre Kahlin, were able to make it to a local service station where they soon gathered a small crowd of on-lookers and "shade tree" mechanics. In the course of a four-hour search for parts and repair work, the quartet made several friends.

After the repairs were finished, the four had dinner, complete with an introduction to Texas roasting ears, with Sandra and Montie Guthrie and boys. Gerry Hensley arranged for Helen Turner Goodloe to meet the young people, and she arranged for them to spend the night on the lawn of the historic Fred Turner home.

After a visit with Mrs. Kathleen Turner Mitchell, they pitched their tent and settled in for the night. The next morning, the group were guests of Mary and Wilburn Bible for breakfast at W. B.'s Cafe before continuing on their trip.

The four young people have been in the United States approximately five months and have another four weeks here. One of the young men, Reto, had been in San Francisco for a two-month language study, the other three bought their Ford car in New York City and drove to California to pick him up. They have put over 14,000 miles on the car, stopping where ever

they wish, staying in their tent at night.

In their native Switzerland, Annina, 21, is a nurse's aide; Markus, aged 22, is a delivery van driver for a department store; Reto, 22, is an electrician; and Andre, 26, is a seaman and truck driver. Because Switzerland has no native tongue, all four speak different languages, depending on the part of Switzerland where they were raised. Annina speaks Romanish, Markus speaks German, Andre is most fluent in Italian and Reto was raised with French. Annina, Andre and Reto also speak German since it is taught in school. They all speak English very well although they have had very little formal instruction.

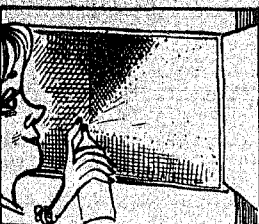

The four young people were a welcome break in a

long hot Texas day, and hopefully a little of Santa Anna will return to Switzerland with them.

Former S-Annan New President Of Rotary Club

Pascal Hosch has recently been installed as president of the Rotary Club at Tulla. The Santa Anna native is Vice President in Charge of the Trust Department at First National Bank at Tulla.

Hosch is the son of Mr. and Mrs. Pat Hosch of Santa Anna and a graduate of Santa Anna High School and Texas A&M University. He started his banking career with First Coleman National Bank, moving to Tulla about three years ago.

UPS Application to be Heard In Austin and Dallas

AUSTIN- Hearings on the application of United Parcel Service for authority to transport packages from point to point within Texas are to begin September 21, according to an order issued last week by the Railroad Commission's Transportation Division.

UPS presentations will be given four days each week starting September 21 in Austin by UPS personnel and public witnesses who live in the area. The hearings will then move to Dallas, resuming October 26, where the remaining six weeks of testimony on behalf of the UPS application will be heard.

Truck and bus companies who oppose the UPS application will present their evidence following UPS.

The Commission's Transportation Division had originally planned to begin the hearings May 11. They were postponed after

parties in the case asked to present oral arguments on procedural matters to the Railroad Commissioners. Those arguments were heard May 3.

Carol Kingsberry, formerly of Santa Anna, an attorney with the Railroad Commission of Texas, will be examiner for the hearings in Austin and Dallas.

Disaster Relief Loans Available for Texans

AUSTIN- Gov. Bill Clements announced last week that the federal government will provide disaster relief to West Texas farmers. The announcement followed the Governor's request that 26 counties be declared crop disaster areas by U. S. Department of Agriculture. Clements said \$350-\$400 million dollars will be available to those farmers with weather-destroyed crops.

The area includes Coleman County and 25 other counties to the west and

north. The governor also asked for disaster designation for 32 counties in the High Plains of West Texas, seeking help for victims of the disaster caused by heavy rains, hail and tornadoes during May and June.

Total cotton loss is expected to exceed \$487 million or 60 percent loss, and other crops that suffered damage include wheat, grain sorghum, corn, sugar beets and vegetables. The impact in terms of dollars can be into the billions of dollars con-
