## Senate Approves Bill Regulating Trucks

### HOME TOWN TALK

By BETTY

The plan announced by the board of city development for construction of a city hall, auditorium and central fire station building should receive unbiased consideration of every citizen.

If Big Spring can build such a structure—one that is needed worse than most any town we know of needs anything—without adding anything to the tax bill of property owners, then Big Spring would be administering to itself a little extra salt if she turned down the proposition.

Frankly (and in spite of the very obvious need of the building) we had no favored attempting to build it at this time until we learned financial condition of the citizens, such that the project could be handled without adding to the tax evaluations and rate.

At this particular time it would be useless, as well as unwise, to attempt to vote a bond issue that would add to any tax rate.

We have always figured that as soon as we can get a fellow gear more pecuniary for the money we pay as taxes than for anything else, we spend money for not psychological comission of the public is not even aware just now to raising taxes.

Assuming just now, and for the past year, has been consideration of our country in the most progressive city in all the mountains, one of the most progressive in the entire nation.

Let Amazons get that way again, that way by delaying important improvements, waiting for good times. Whatever the true condition of good times may be.

No, no! Amazons gained, so some very successful business men speeded up municipal improvements, gave more men profitable employment, practically eliminated the charity problem, stimulated retail trade, whipped the devil out of depression, whatever that may be.

Any town that has gone through such a convulsion of growth within five years as Big Spring just naturally finds itself, as we have often said, faced with many municipal problems. As said in the past, you can solve these problems just so rapidly and no faster. Everything can't be done at once.

We all know scores of good citizens are without employment.

We all know Big Spring sorely needs a decent place in which to transact business of the municipality that she has the most unduly inadequate first station extant in this section of the country; that she is without a community meeting place.

You can no more operate a community without a meeting house than you can operate schools or churches or other smaller groups without one.

Benefits of an auditorium are too numerous to be listed in full.

It would be foolish, we believe, to try to build the largest auditorium in the country. Some cities have made that mistake. But the town that skimped, much sooner or later—if she has the good prospects of future growth that our bars pay dearly for its shortsightedness.

An auditorium of 2,500 or more seating capacity, however, is not needed. One that would seat 1,000 to 1,500, as is proposed in the board of city development's program, is needed and should be built.

We need this building. Our citizens need to be given the approximately \$10,000 worth of labor that would be created. The board of city development's program calls for MINIMUM wages of 40 cents per hour for unskilled and \$1 per hour for skilled labor. Financial condition of the city is such that additional funds would not be created.

Therefore, you tell what you earth could be substantiated as a sound argument against rapid completion of this structure?

**C. T. ROGERS TO AUSTIN**

C. P. Rogers, local attorney, left today for Austin where he will argue the appeal of Jim Martin, given a 99 year sentence in this county for the murder of LaVelle Chapman, before the board of criminal appeals.

The appeal is based on errors allegedly made by District Attorney George Mahon in his argument of the case.

### Large Crowd Is Expected At Mass Meeting

#### Philips Urges All Local Organizations To Be Represented

Shane Phillips, chairman of the board of city development, today predicted a large crowd would attend a mass meeting to be held in the district courtroom Tuesday night at 7:45 o'clock, for the purpose of discussing plans for construction of a city hall, auditorium and central fire station.

Mr. Phillips urged that representatives of every organization in Big Spring attend the meeting. He especially urged members of various women's organizations to attend.

The board of city development recently approved the plan for construction of the building. The recommendation to the city commission, however, will be carried to the people.

Tuesday night we want to get absolute approval or disapproval of the plan," Mr. Phillips said today.

In proposing that the building be erected, the board recommended a minimum wage scale of forty cents an hour for unskilled labor and \$1 an hour for skilled labor.

It is the opinion of the board, Mr. Phillips said, that expenditure on the part of the city at this time for the erection of such a building would aid materially in solving the prevailing unemployment problem.

It was found by the board, in studying the proposition, that the building can be erected without raising either the tax rate or the present valuations.

The auditorium would have a seating capacity of approximately 1,200. The building would house all city offices, a central fire station, and a city jail.

#### Inspection For Fokker F-10 Ships Ordered By U. S.

WASHINGTON, May 4 (UPI)—Assistant Secretary Young today announced the commerce department aeronautics division had ordered disconformance in passenger service of all Fokker F-10 planes in use by four air strips pending inspection.

The strips are the same kind in which Knute Rockne, Notre Dame coach, recently met death.

The department said the order concerned only the planes' condition and not their basic construction.

A representative of the traffic department of American Airways Inc., which operates the Atlanta-Dallas-Big Spring-El Paso-Los Angeles mail passenger line, said at the local airport that no order had been received here except that no passengers were to be carried until further notice. The Fokker F-10 planes used on the route are continuing regular schedules for transporting mail.

Included in the disconformance were damage suits against the City of Big Spring, brought by Beulah Bell and Harrel Bailey.

The following cases were removed from the civil docket:

Doyle Millhouse vs. W. B. Day, Harrel Bailey vs. City of Big Spring, damages.

Beulah Bell et al vs. City of Big Spring, damages.

**Indispensability  
Of Free Press Is  
Connally's Topic**

AUSTIN, Texas, May 4 (INS).—A free press is indispensable to the people in the discharge of their duties as citizens, in the opinion of U. S. Senator Tom Connally.

Addressing Texas writers attending the Southwestern Journalists Congress yesterday, Senator Connally declared the function of the press was the solution of problems facing the people today.

If the United States is to be saved from socialism, he said, means must be found to cure at the source the evils for which socialism is offered as a remedy.

The accumulation of a per cent of the wealth of the United States in the hands of four per cent of the peoples of this country is not a healthy or promising state. Income tax returns and federal statistics on the payment of estate taxes reveal that the very rich are becoming richer and the great middle class are becoming poorer. In 1925 small taxpayers received 20 per cent of the total investment income, where in 1929 they received only 26 per cent.

Senator Connally criticized, severely in the senate in discussions involving the confirmation of officials and treaties.

RARE FIND

AACHEN, Germany (INS).—Workmen excavating for the foundation of a building in the small city of Simplicien, near Aachen, unearthed a Roman sarcophagus of slate of sandstone containing the skeleton of a young woman. The sarcophagus, one of the most beautiful yet found in this district, contained also three gold rings, an earring, an enamel pendant and a silver mirror.

**Alleged Forger of  
Fees Released; Losses  
May Aggregate Million**

AUSTIN, May 2.—(UPI)—John W. Bowen, Dallas loan man under indictment here on nine counts alleging forgery in connection with the state's investigation of alleged frauds in witness fee claim payments, was released Saturday under bond. He made bond of \$1,500 on each count.

Bowen and Ted Monroe of Dallas, his attorney, planned to leave for Dallas this afternoon. Monroe declined to comment on his client's case. He came here to arrange his bonds.

No date had been set today for Bowen's trial. It will be in Judge J. D. Monroe's 8th district court, which does not convene until June 1. Monroe said he thought the cases might be postponed until September.

Bowen was arrested yesterday in Dallas by Coley White, sheriff of Travis county, and brought to Austin last night.

Further developments in the state probe of witness fees were expected today. Assistant State Auditor T. M. Markham returned to Austin today and was in conference with Assistant Attorney General Albert Hooper. Markham corrected radio reports that another instance of forged warrants had been discovered.

Assistant Attorney General Hooper said, however, that as only two counties have so far been checked it would be strange if more instances are not found. He estimated possible losses to the state at \$1,000,000.

It would be useless for county auditors to start checks in efforts to assist him, Mr. Hooper said. If the claims are forged they will not appear in the county records, he pointed out, but would be sent directly to the state auditor.

Under article 306 of the code of criminal procedure it is provided that the comptroller shall upon receipt of the claim and a certified copy of the minutes of the court where the witness was supposed to have been summoned, carefully examine the same, and if correct draw his warrant on the state treasurer for the amount due the witness.

With such an examination, Hooper pointed out, a forged warrant would be brought to light. He admitted that this has not always been done. All blame however, is not put on the comptroller's remissness for failure to make such a check.

In conclusion, says the court opinion, "we will say that we believe the interests of the state are safe with the district judges as they would be with an executive officer. **Bishop Cannon's  
Son Is Bankrupt**

LOS ANGELES, May 4 (UPI)—A voluntary petition in bankruptcy by Rice M. Cannon, son of Bishop James Cannon Jr., of the Methodist Episcopal Church South, was filed today.

Cannon and his wife swore to a pauper's oath prior to filing the petition.

Liabilities were listed by Cannon at \$41,221 and assets at \$1,840, of which \$1,068 is held by Mrs. Cannon.

The court ruling does not prohibit the checking called for in article 1036, but if both the court minutes and witness claims were forged, the comptroller could not question the justice of the claim.

NELLY DON WEEK

**Junior Hyperions  
Vote To Give Two  
Social Functions**

The Junior Hyperion Club met in a called session at the home of Misses Jena and Dorothy Jordan Saturday afternoon for a short business session.

The members voted to have a bridge-luncheon May 16 at the Jesters Hotel for members only and give a tea for the Senior Hyperions at the home of Miss Agnes Currie on May 11.

The club voted to study modern problems in sociology next year. The course will be one prepared by the West Texas Technological College.

A refreshment snack was served by the hostess.

Those present were: Misses Mary H. Elbert, Patsy H. A. Starnes, T. C. Young and Miss Agnes Currie.

**Simons & Brock  
Stake Scurry Test**

Locally far in the lead in the Stake Scurry Stake is Mrs. E. C. Simons, Brock's sales manager, who has been in the Brock office since 1926. She is followed by Mrs. W. F. Starnes, Mrs. L. C. Wilke, Leader of Texas Day Program.

The Hyperion Club met Saturday afternoon with Mrs. Bruce Frazier at her ranch west of town.

Mrs. Wilke had charge of the program which was devoted to Texas. The following program was presented: Albert Fisher, junior gave a description of the new Mrs. Homer McNew, real estate dealer with Texas shined. Albert Fisher read an account of the needs of Texas and asked for their contribution. Mrs. H. H. McNew, accompanied by Walter at the piano, sang "You Ever Been to Texas Is Seeing."

The program was closed with a meeting of the Texas underwriters representing the various counties. Wiffling Pin, Mrs. Mary Alice Wilkes, Mrs. Nancy Bell Phillips, Mrs. Cunningham, the manager, Handley, the United States Virgin Islands, concluding the conference.

Mrs. Barnes read the story of Texas with Mrs. O. L. Thomas of Dallas, playing appropriate air while the girls danced as they sang. Texas costumes of various represented.

The business session followed the program. Plans were made to study for the next year and for the annual Hyperion picnic. The picnic will be held Friday evening June 15, at 6 p.m. at the City Park.

Members who were not present at the meeting may obtain details from Miss Barnes.

The hostess gave each guest a small gift from the Chinese Mountains as favors.

The following members were present: Misses J. D. Biles, Janie Brooks, C. W. Cunningham, E. C. Simons, H. S. Faw, Albert Fisher, H. H. McNew, Mrs. W. H. Martin, Mrs. Phillips, Robt. T. Price, V. Van Giesen, Geo. L. Wilke, J. M. Young, Ruth H. Parsons and G. E. Johnson and Miss Verbenia Barnes.

This was the last meeting of the year.

997 AN INSTANT, STATE-WIDE SUCCESS**

997 day at typical Humble station. This big parade, all getting quick service, proves that Texas drivers sure know a good number when they see it!

Special Dispatch to Humble Announcer, Houston, Texas, May 4.

Early reports from all over Texas indicate a phenomenal success for 997—the new-type motor oil put out by the Humble Oil Company. At last report, everywhere motorists and oil men were saying "that 997 Motor Oil's a hit." One well-known Texas sportsman and car-owner is being quoted as having said, "Hit? It's a home-run. When you can feel the difference the first time you use a crankcase full of a new oil, that oil's knocked the opposition right out of the box."

This year's winning number is 997—or I never drove an automobile.

Nothing like the success of 997 has ever been known in Texas, early check-ups of sales figures show. At some points there has been a regular run on the tanks, and Humble has had to unlock them and put-in-hurry calls for new supplies.

There has been an entirely unprecedented demand by many people for reprints of those little cartoon-like ads, "Humble officials say. These ads showed animals and such, saying and singing that '997 is a good number.' And, although the Company is offering free reprints by mail from Houston, there has been such a demand for them at Humble stations that the Company is sending out collections to all stations. They advise the public that if you can't find these reprints in your neighborhood you can drop a post-card to 997, Humble Building, Houston, and they'll be glad to mail a book to you.

But over and beyond the interest taken in the novel way the Humble Company took to announce its new product, shrewd observers say, is the interest in the quality of the oil itself. And the consensus of opinion is that Humble has done. Texas motorists a real service in creating that good number—997.

Estimates based on figures put out by the Automobile Chamber of Commerce show the Nation's annual car-repair bill reaches the staggering sum of million dollars a year. 75% of these repairs, mechanics agree, are due to faulty lubrication, and could be avoided.

Roughly, 1/23 of the Nation's automobiles are owned and operated in Texas. Not far short of a million and a half, all together. And the owners of these vehicles pay pretty close to 43 million dollars every year in repairs. That's over 30 dollars a year paid out per Texas car-owner in repairs, three-quarters of which are unnecessary. Correct, regular lubrication and the use of a modern oil like 997 would prevent them, before they start.

Remember, say Humble officials, the premium on 997 is in quality, not price.
