One of the main attractions will be the National Championship Dove Cook-off held Saturday morning.

Cash prizes of \$900 will be given the top three chefs, and a plaque and \$100 will be given the most unique cooksite. Last year more than 20 contestants prepared their favorite

dove recipes.

Other events during the day will be an art show, beauty pageant at which the Miss Fiesta will be crowned with the traditional huge som-

brero, a flea market, arts and crafts booths, jeep rides, trap shooting contest and horseshoe pitching.

Other attractions will be the home foods, sewing, quilting and craft exhibits, commercial displays, a carnival and many food and drink concessions.

A dance Saturday night will feature Bandana, a country music group, from 9 p.m. to 1 a.m. A free matinee concert by the group will be at the pavillion at 5:30 p.m.

There is no admission to the fiesta, and everyone in the area is urged to attend and enjoy the family fun day. Information on the home arts division and prizes to be awarded is listed on Page 2.

Two Performances on Saturday

Ranch Rodeo Scheduled As Fiesta Special Event

For the second year, the upcoming Fiesta de la Paloma will feature the Fiesta Ranch Rodeo, sponsored by the Coleman Rodeo Association.

The popular event will prove very exciting for county and area rodeo fans as it is limited entirely to eight Coleman County teams, and the field is already complete with teams of four cowboys representing the

following county ranches: J-Z Ranch, Walking 3 Ranch, T-K Cattle Co., Indian Creek Ranch, Rafter X Ranch, Duvall Ranch, Blackwell Hill Ranch and R Bar Ranch.

There will be two performances on Saturday, September 24, at 10:00 a.m. and 7:00 p.m. Admission will be \$3.00 for adults and \$1.00 for children ages 3 to 12.

Events for the cowboy teams include team roping, wild cow milking, team penning, team branding, team trailer loading, and bronc riding.

Another crowd-pleaser will be the goat scramble for youngsters 10 years of age and under, with a \$5.00 prize to each winner.

Judges for the rodeo will be Tom Kingsbery of Santa Anna and Paige Baize of Wingate.

Special awards will be made by First Coleman National Bank, including belt buckles to members of the first place ranch team, and plaques to members of the three top placing teams.

Rodeo Association officials invite the public to attend the performances and support the efforts of their favorite ranch team.

City Sales Tax

Reported for July

The City of Santa Anna has received the sales tax receipts for July, the money coming from the office of State Comptroller Bob Bullock after being collected along with the state sales tax.

The current payment totaled \$716.67 which is under the collection for the same month last year when \$1,188.43 was collected here.

The payments to date for 1983 are \$18,683.63, which is 15 percent under the 1982 total at this time, \$22,140.65.

Checks totaling \$41.1 million were returned last week to 974 cities that levy the one-percent city sales tax. The current payment is only one percent behind the September 1982 collection that was the highest single month sales tax collection in history.

UMC Lord's Acre Project Scheduled Here October 1

Members of Santa Anna United Methodist Church are busy preparing for the annual Lord's Acre event that will be held Saturday, October 1.

The site of the project will be the School Cafeterium, with the doors to open at 10 a.m. for the games, entertainment and activities.

A major fund-raising event of the year, the project involves every member of the church as they col-

lect items for the sales, work on quilts, arts and crafts and prepare canned goods and produce for sale.

A barbecue supper from 5 - 7 that evening will be catered this year by 3-K's Barbecue of Coleman. The final event will be an auction, with Charlie Jordan, popular television weatherman from K-TAB in Abilene, to be auctioneer.

Everyone in the area is invited to attend the event on October 1.

JAIMIE MILLER, five-year-old daughter of Jim and Jena Kay Miller, is not old enough to show stock in the 4-H Club events, but does her share of the work with the Miller family projects. She is always on hand

to carry water, comb and brush the steers and encourage her older brothers and sister with their successful projects. See story and other pictures Page 6.

JHS CHEERLEADERS this year will be leading the yells at the Thursday football games. Standing from left are Rhonda Fleeman, Stacie Gunter, Christy Casey and Patricia Taylor, and kneeling, Laurie Powers, the Mountaineer mascot, and Bertha Garza, Pep Squad mascot. Santa Anna College Student Takes Part in ROTC Camp

Jody Naron, the son of John T. and Juanita Naron, is back at Tarleton State University for his senior year after attending a summer training session with the U. S. Army.

Jody, a Santa Anna High School graduate, received practical training in military leadership at the U. S. Army ROTC advanced camp in Fort Riley, Kansas.

The six-week camp, attended by

cadets normally between their third and fourth year of college, included instruction in communications, management and survival training. Successful completion of the advanced camp and graduation from college results in a commission as a second lieutenant in either the U. S. Army, Army Reserve or National Guard for the cadet.

Jody is in the ROTC group at Tarleton State University.

SAHS Football Team Wins Game Over Rising Star Wildcats 22-0

Despite the penalties, fumbles and mistakes that marred the Friday night football game with Rising Star, the Santa Anna Mountaineers won the game by a 22-0 score. The contest was the district opener and left the Mountaineers with a perfect 3-0 record for the season.

The Wildcats were playing without their starting quarterback and had several injuries during the game, giving the Mountaineers some advantage but adding some surprise to their defense.

Chris DeLeon scored the first Santa Anna touchdown in the first quarter and during the evening led Mountaineers offense with 105 yards in 16 carries, plus the second touchdown. Ramon (Bebe) Vasquez was close behind with 102 yards on 12 carries, and James Bass accounted for 69 yards on 12 carries and made the final Mountaineer TD.

Santa Anna had 18 first downs to eight for the Wildcats, with a total of 359 yards offense. Only 53 yards were on passing where they completed four of nine passes, with one interception.

The Wildcats had 128 total yards, with 37 yards from six of ten passes, with one interception.

Santa Anna lost four of five fumbles, while Rising Star lost none

of four fumbles. The local team had 13 penalties for 135 yards. Rising Star had six penalties for 55 yards.

Maurice Castillo, James Culpepper and John Casey did a superior job defensively, and the offensive line played very well.

Santa Anna will host the Lometa team Friday night in a 7:30 p.m.

game. The Yellowjackets lost to Gorman Saturday night 41-16 after playing a close game until the halftime. Lometa has a large and good team and the game should be close.

Captains for the Gorman game will be Rodney Guthrie and Paulie Vasquez.

Extension Agent Is Resigning

Linda Parsons, a Coleman County 4-H Agricultural Agent, has resigned effective September 30. Linda will be returning to her home in Virginia after serving here with the Extension Service the past three years.

Miss Parsons has been especially effective in coaching the 4-H livestock judging team, sheep projects, record books and working with the 4-H Youth Committee.

The County Extension Staff will host an open house for Miss Parsons on Tuesday, September 27, from 10 a.m. to 12 noon at the County Courthouse. All friends are invited to attend.

Balloon Release Planned As PTO Membership Event

Jane Gustavus, president of the Santa Anna Parent Teacher Organization, presided at the Monday, September 19, meeting of the group, opening the new year. Principal Charles Brewster introduced the elementary teachers to the group attending.

Discussion opened with the use of money raised last year. Each teacher from kindergarten through fifth grade was given \$25 to be used for class projects, and two physical education canopies and records provided for junior high grades. Other purchases with PTO funds included one volleyball net, a 15-foot metal picnic table with benches and one long metal bench for the playground. Teachers were asked to complete a questionnaire

on projects for the present year. Mentioned were film screens, projectors, books, puzzles, globes and maps.

Gay Abernathy, vice president, explained the new membership drive. To be called "Up, Up and Away," it will feature Balloon Day, with the colorful balloons to be released on Friday, October 14, during Homecoming weekend.

For each \$1 membership enlisted, children will be given a balloon with a post card listing their name and address. The balloons will be released, and a prize will be given the child whose balloon travels the farthest distance and the card received.

It is very important that those finding the balloons return the card with the location where the balloon

was found.

Businesses who will assist with the purchase of the balloons are Alderman-Cave Co., Henderson Funeral Home and Santa Anna National Bank, and Bradley Lumber Co. will furnish string for the balloons. Other businesses or individuals wishing to contribute to the cost of helium and post cards are urged to contact Charles Brewster or Gay Abernathy. Also needed are volunteers to help inflate the balloons for the release.

Meetings planned during the year and programs are the following: October 27 - Fourth Grade; November 17 - Fifth Grade; January 26 - Junior High; February 23 - First Grade; March 22 - Third Grade; April 19; Second Grade; and May 21 - Kindergarten.

PEP SQUAD LEADERS for the school year are from left, Christy Morrow and Stephanie Hartman. Brandi Martin, center, is mascot. The Pep Squad will be performing at the Junior High football games this season.

Our first cool weather of the season arrived Tuesday -- along with a blustery sand storm. Rain was forecast, but it only sprinkled as the cold front passed through our community.

Our area is in great need of rain -- as usual.

Local football fans will want to attend the Friday night game and support the Mountaineers. They have had the last two games away from home, so this is an opportunity to see them in action at the local stadium.

The weekly pep rally will be at 8:30 Friday morning at the school auditorium for those who wish to attend.

Reserved seat tickets are available for the home football games, with the cost being 50 cents for each game. Judy Hartman, school secretary, is at the games and will help those who wish to have the special "50 Yard Line" vantage point.

Social Security Update

"Notch Years" Information

By Congressman Charles Stenholm

A number of folks have contacted me with reference to a recent 'Dear Abby' column in which a reader commented on the social security 'notch'. Unfortunately, some of the information contained in that particular column was incorrect and misleading, and I think it is necessary to discuss this issue in some detail.

The 1972 Social Security Amendments indexed Social Security benefits to the cost-of-living, providing beneficiaries with a cost-of-living adjustment (COLA) every year. Every time retirees received a raise, the amounts in the benefit table also increased; these amounts would be used to compute benefits for new and future retirees.

At the same time that the benefit tables were increasing, many workers in the labor force were receiving wage increases. The result was that new retirees were compensated twice for increases in the cost-of-living during their working careers (through higher benefit tables, and higher wages upon which their benefits would be based). If this system had been left in place, many people would have received retirement benefits higher than their salaries had been while they were working.

In 1977, Congress established a new benefit computation formula which affects all those born

after 1916. The new formula went into effect in 1977, and lowered overall benefit levels by about 5 to 7 percent. Everyone who turns 62 after 1978 is going to get lower benefits than they would have received under the previous formula. Contrary to current rumor, however, there will not be a \$100 difference in benefits between those born in 1916 and 1917 except in a limited number of cases at the maximum benefit levels.

In order to ease the transition into the new benefit computation, Congress made provision for a five-year phase-in of this new formula. Thus, people who turned 62 in the period 1979-1983 came under the transition provision which allowed them to get the higher of two benefits: EITHER a benefit using the old law benefit table (frozen at 1978 levels, and thus not increased for inflation) but using only earnings before age 62; OR a benefit using the new formula and using all earnings both before and after age 62.

As a result of this provision, individuals born during the years 1917 - 1921 receive benefits which are somewhat greater than

they would have been under the new formula. The "Dear Abby" column implied that the folks born during those years would receive less in social security benefits and others would not be affected. This is simply not true. The 1977 Social Security Amendments affected everyone born after 1916.

If this issue had not been addressed by the 1977 Congress, benefits to retirees would have far exceeded the ability of the social security trust funds to pay them. The alternatives were steeper tax increases or a bankrupt system. A line had to be drawn somewhere, and any delay would have made the problem worse.

Earlier this year, the Congress made certain reforms of the Social Security Program and addressed the financial crisis facing the trust funds. The Congress determined that

increased payroll taxes were necessary to meet the needs of today's social security recipients and the needs of future generations. Given the fact that the use of the old benefit computation formula would be prohibitively expensive, it is highly unlikely that the Congress will make any further changes in this particular provision of the law.

MR. AND MRS. LENDALE WIDNER
Wed In Home Ceremony

Granddaughter of S-Annans Married in Kermit Ceremony

Becky Haynes and Lendale Widner exchanged matching gold wedding bands in a double ring ceremony at 2 p.m., July 16, in the home of the bride's parents in Kermit, Texas.

Rev. David Matkins, pastor of First United Methodist Church, officiated before a white brick fireplace centered with an arched brass candelabra which was flanked by spiral brass candelabra, all holding votive candles. The candelabra were decorated with greenery and peach carnations and satin bows. Twin brass stands held arrangements of fern. Elizabeth Horner played piano selections.

The bride is the daughter of Mr. and Mrs. Lyndon Haynes, and the granddaughter of Mr. and Mrs. J. R. Haynes and Mrs. E. E. McClintock of Santa Anna. The bridegroom is the son of Mr. and Mrs. Clint Widner.

Presented in marriage by her father, the bride was attired in an all ivory lace gown designed with sweetheart neckline edged with seed pearls and sheer lace sleeves buttoned at the wrists. The tea-length skirt was scalloped at the

hemline. Her tea-length veil of ivory illusion was outlined with tiny re-embroidered pearls and gathered to a silk-flower wreath headpiece. She carried a bouquet of ivory roses and peach carnations tied with peach streamers and arranged on cascading greenery.

For something old, the bride carried two handkerchiefs belonging to her great-grandmothers. Something new was her wedding ensemble, and she wore a diamond necklace and earrings belonging to her aunt, Mrs. Jess Walls. The bride wore two blue garters, one new and one which was worn by the bride's mother at her own wedding.

Matron of honor was Kay Warren of Wink. She wore a peach, street-length dress overlaid with lace and carried a miniature version of the bride's bouquet. Bert Widner served his brother as best man.

The mother of the bride wore a lavender, street-length dress featuring white accents. The bridegroom's mother was attired in a smoke-colored, street-length dress. Both wore corsages of ivory carnations.

At the reception which

followed the ceremony, the serving table was laid with white damask and featured a three-tiered wedding cake iced with peach flowers and topped by a miniature bridal couple. A silver coffee service and a crystal punch service complemented the setting.

The bride's cousin, Dawn Nickerson of Rifle, Colorado, registered guests. Aunt of the bride, Mrs. Jess Walls of Levelland, served punch, coffee and champagne, while Mrs. Terry Bender of Baytown served the wedding cake.

For the wedding trip to Cloudcroft, N.M., the bride's travel ensemble

was a blue denim skirt with a white blouse.

Texas Department of Public Safety

Most Traffic Accidents Result from Alcohol and Speeding

BROWNWOOD, Texas, August 23, 1983 - Last year 41 persons were killed in the 9-county area of District 23, according to Lawrence Schulz, District Engineer for the State Department of Highways and Public Transportation.

'Alcohol and speeding continue to be our greatest problems,' said Schulz. 'Here in the Brownwood district, which includes the counties of Brown, Coleman, Comanche, Eastland, Lampasas, McCulloch, Mills, San Saba and Stephens, we had 3010 traffic accidents.'

The number of accidents and fatalities in this area is cited as the reason the State Department of Highways and Public Transportation (DHT) will be working more closely with local traffic officials, police departments, and the schools.

To help combat the DWI problem, DHT has provided funding for increased enforcement programs, intoxilyzer instruments which measure alcoholic level content of drivers, rehabilitation programs, and workshops for prosecutors, judges, and probation officers. (The local Selective Traffic Enforcement program recently received a grant from the department. These funds

will be used to enforce the DWI law.)

'We also firmly believe in education as a way to relieve future problems,' Schulz said. The Department recently previewed a new alcohol education kit, called 'NO, Power', which will be made available to schools free of charge, while quantities last. 'NO, Power' is designed to help young students resist the peer pressure to drink and to educate them on the dangers of the drinking and driving combination.

The department will also be supporting programs to increase the use of safety belts and child safety seats. Workshops and loan programs will be generated throughout the state, according to Schulz, with special emphasis on making child safety seats accessible to those who might have difficulty in purchasing them for themselves.

'We have the tools to reduce our traffic problem and save lives. If people would obey the speed laws, wear safety belts and eliminate drunk driving, our fatalities would drop by at least 80 per cent,' said Schulz. 'We build our highways with every safety precaution. Our motorists need to drive with that same kind of precaution. Our chances of being in a traffic collision are 1 in 4. Those odds are too high to gamble with lives.'

Local Family Involved in Stock Showing

Show Time is Big Time!

When most people attend a livestock show, they have no idea about the planning, preparations and work that have taken place during the previous months. And for one local family, the time and work is paying off.

Livestock showing is a family affair for Jim and Jena Kay Miller and their children. Wade, a sophomore at Santa Anna High School, Jena, an eighth grade student, and Shawn, in the sixth grade, have all been active in the youth show circuit since their first days in the 4-H Club at the age of nine. Since that time they have had many winners to their credit, and are already into a successful season for 1983. The three children have eleven steers which they exhibit in the shows.

Although they will have lambs in the fall and winter shows, the family is spending most of their time now with the calves, and have had a busy summer taking part in the Texas Club Calf Association that provides opportunities to show and exhibit their calves in preparation for the regular show circuit.

Exhibitors from other states join the Texas youths for the shows that draw several hundred entries and must have as many as 150 to be sanctioned by the association.

Highlight of the circuit for the Miller children was the Saddle & Siroloin Prospect Steer Show at Texas A&M University during the Labor Day weekend when they won awards that included cash prizes of \$1,000 for Wade's grand champion market steer and \$500 for Jena's grand champion prospect steer. Jena also exhibited the reserve champion Simmental steer at the show.

Starting the show circuit in early June at Cleveland, Wade had the champion Limousin steer that also won the reserve championship of the show. Shawn exhibited the champion red Angus steer. The following week Wade's steer was chosen champion Limousin at the Jefferson County Prospect Steer Show at Beaumont and Shawn's red Angus was reserve champion and his Brangus steer the champion of that breed.

At San Antonio Wade's Simmental won reserve champion and Shawn's Brangus steer was champion. At Plainview the last week of June Wade's en-

tries included champion Simmental and reserve champion market steer. He also exhibited a Chianina heifer that won first in its class. Shawn's Brangus steer was champion of its division.

In July at Fredericksburg, over 700 entries were exhibited, with Wade again winning grand champion market steer. Shawn had the reserve champion Brangus, and Jena had the reserve champion Simmental steer.

In August the Miller family were in Carthage for the Panola County Prospect Steer Show where Jena's Chianina steer was grand champion market steer and reserve champion prospect steer and Shawn's Simmental was grand champion prospect steer. He also had the reserve champion Brangus entry. Most recent wins have been at Hondo where they had the grand champion market and prospect steers, grand champion Brangus and Chianina and reserve champion Limousin.

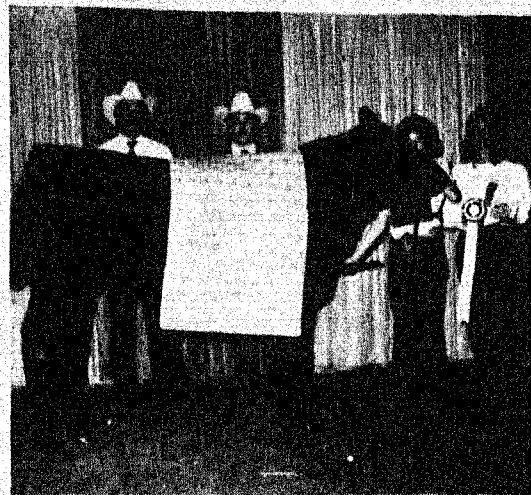

The Miller youngsters have the support and help of their parents, who serve as 4-H adult leaders, and assisting 4-H'ers from all over the county with their club calf projects. Also taking part in the family activity is Jaime, aged five, who is always on hand to carry water and feed to the calves and to assist with the combing and brushing and other chores.

The youngsters had show pigs last year, but are narrowing their competition to steers and lambs this year. About 100 lambs are on feed at the present time, with ten or 12 to be chosen for the show circuit. The rest will be sold to finance the show project.

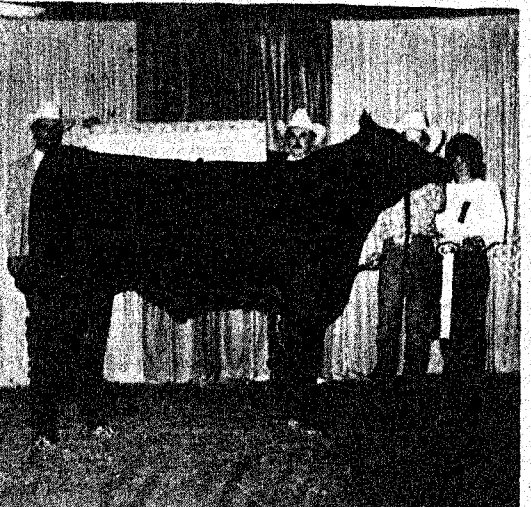

The regular show circuit will begin with the West Texas State Fair at Abilene this week, then the State Fair at Dallas in early October. Other shows will be in Lubbock and Odessa before the local and county stock shows in January.

Breeders of the steers used by the Miller children are Glen Pope, Newman Cattle Co. and Tim Ohlde.

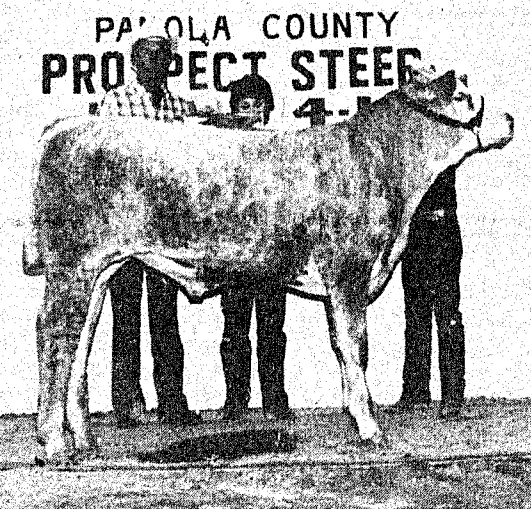

The Miller family has lived in our community four years, coming here from Stanton. They currently live on the former Gustavus ranch on Home Creek, where Miller is manager for a ranch

CHAMPION PROSPECT STEER at the Texas A&M University Show recently was shown by Jena Miller. Prizes for the winner included a blanket of \$10 bills. Jena is in the eighth grade and a member of the Santa Anna 4-H Club.

GRAND CHAMPION MARKET STEER at Texas A&M University was awarded a blanket decorated with \$10 bills. Showing the steer was Wade Miller, a sophomore at SAHS. Parents of the active 4-H'ers are Jim and Jena Kay Miller who live on Home Creek south of Santa Anna.

PROSPECT CHAMPION at the Panola County show last summer was shown by Shawn Miller, almost hidden behind the tall show steer named 'Steamboat.' Shawn is a sixth grade student at Santa Anna Elementary School and a member of the 4-H Club.

company. When livestock shows well expect to see the local are held, local people may winners among the winners.

Years Ago in the News

The following stories are from the Friday, October 23, 1925 issue of the NEWS

The most important event of the week was the ball game pulled off Tuesday afternoon at the tabernacle park. The ladies of the Methodist Missionary Society and the Parent-Teachers Association played the game. There was a great deal of interest manifested in the game and a large crowd was present.

The Methodist ladies were dressed in bloomers and carried out the Halloween idea in their color scheme as well as the clowns in their make-up. The Parent Teachers Association wore Khaki trousers and shirts. There was some good playing done. The P. T. A. won the game, the score being 18 to 14.

The proceeds which amounted to \$73.00, was divided equally among the contestants.

S. W. Childers & Company has sold their entire stock of furniture to W. D. Taylor, the stock being transferred to the Taylor store this week.

According to information at hand, the Childers & Company store will only

sell groceries and hardware in the future. Mr. Taylor will specialize in furniture and his will be one of the best furniture stores in the county.

Miles Wofford, City Water Commissioner, went out first of the week and thoroughly inspected the new reservoir erected on the east Santa Anna Mountain. The old reservoir was

also repaired, and Santa Anna now has storage capacity sufficient to meet her needs for some time to come.

For two weeks previous to last Sunday, the Baptist church of this city advertised a "Big Trial" at the church for the morning hour Sunday. The verdict was a victory for the church.

The membership of the church has been undergoing a trial for several years, during which time they have built a church building that has cost approximately \$40,000. Two years ago, at a rally the church raised \$13,000. This done to liquidate the building debt. After several campaigns to raise large sums to build the new church, the house was only

partly finished and the campaign was continued toward completing it. Again one year ago, another rally was held and about \$4,000 was raised to liquidate a debt which had accrued during the year for repairs. The church was clear of debt but still unfinished.

In the early part of this year, the church decided to complete the building and authorized the building committee to proceed. The work was done in the basement, several hundred dollars being raised at the time, and another \$3,000 debt incurred. Last Sunday, altho it had been a hard year and short crops, prayer was answered and those faithful ones raised another \$3,000, and the church is again out of debt.

In so far as we know, the church building is now finished, out of debt, no one is hurt, and the building will be dedicated soon.

Proper Humidity Warms Wintertime Homes

If you try to conserve energy this winter by lowering your thermostat, but every one complains about being chilly, then maybe your home has a humidity problem.

A recommended room temperature of 68 degrees can be a comfortable setting during the cold months — if the indoor relative humidity is maintained at a proper level.

However, if your home doesn't have proper humidity, dry air steals moisture from everything in it, including you. This thirsty air evaporates moisture from your skin, a cooling process that makes you feel chilly even at high thermostat settings.

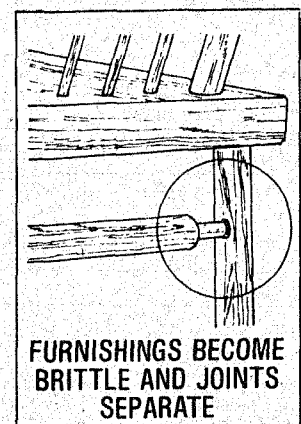

What really happens in the wintertime to alter the moisture content of the air?

Whenever outside air is heated by any method, its capacity for holding moisture increases rapidly. Air heated to 70 degrees can hold 22 times as much moisture as air at 0 degrees.

The term "relative humidity" is the amount of moisture actually present in the air, compared to the maximum amount it can hold at that temperature. Relative humidity of 50 percent means that the air is only half-saturated.

Most heated homes without a humidifier have an average relative humidity of about 13 percent all winter long, compared with the recommended 30-35 percent.

It's understandable, then, why so many families feel chilly, even when their thermostats read 72 or even 75 degrees. The dry air is evaporating the water from the skin too quickly.

Perhaps you've noticed other clues to low humidity in your home. Loosening of glued joints in furniture, cracking of walls and ceilings, excessive static electricity, unusually dry noses and throats... all are signs of a humidity problem.

Wood framing around doors and windows will

shrink, causing open spaces which let cold air in and heated air out. The result: drafts and increased fuel costs.

If any of these complaints sound familiar, you should consider installing a central humidifier.

If you have a forced air heating system, you will want a central unit that is installed on the furnace and sends humidified air through existing ducts.

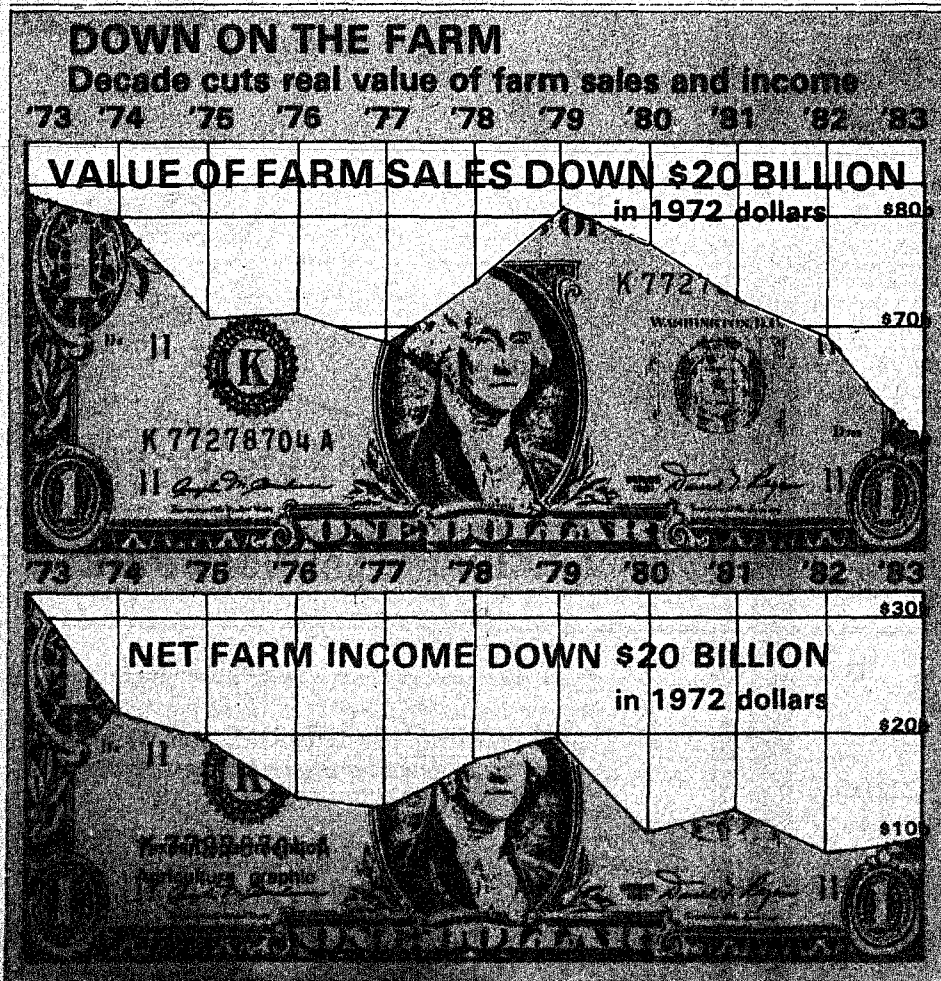

A typical model for use in a home without forced air heating is installed out of sight on the basement ceiling, or in a closet, crawl space or utility room.

Before selecting a humidifier, check with your local heating and air conditioning dealer on five key points: capacity, control, operational efficiency, ease of maintenance, and ease of installation.

For your copy of an informative booklet on relative humidity in the home and how to choose a humidifier, call toll free: 1-800-356-0650

Statistics that shape Agriculture, from the Texas Dept. of Agriculture

"Even though the past four years have been the most productive in U.S. farm history, the real value of U.S. farm sales has declined 25 percent since 1973," says Texas Agriculture Commissioner Jim Hightower. "The major cause of this decline is directly responsible for the crisis in net farm income. It is the result of the low prices received for farm products except a fair price for farm products."

The Self Culture Club has been trying to develop civic pride in our beautiful little town. We are so pleased the City Council passed an ordinance, a copy of which was published in the Santa Anna News on September 15, 1983. This is a great step toward cleaning up our town. After it is cleaned up, then we can begin beautifying it.

We do appreciate this ordinance, and commend the Council for this action. You have our support on this and any other steps toward cleaning up our town.

BRIEF EXPLANATORY STATEMENTS OF PROPOSED CONSTITUTIONAL AMENDMENTS SPECIAL ELECTION NOVEMBER 8, 1983

PROPOSITION NO. 1 ON THE BALLOT

House Joint Resolution 91 proposes a constitutional amendment which requires a county with a population of 30,000 or more to be divided into not less than four nor more than eight justice of the peace precincts. A county with a population of 18,000 or more but less than 30,000 shall be divided into not less than two nor more than five justice of the peace precincts. A county with a population of less than 18,000 shall be designated as a single justice of the peace precinct or, upon a finding of necessity by the commissioners court, shall be divided into more than one justice of the peace precinct but not more than four. The amendment provides further, that in any precinct in which there is a city with a population of 18,000 or more, two justices of the peace shall be elected. The amendment allows a justice of the peace, constable or commissioner to continue in office until the expiration of his term, although a change in precinct boundaries results in the officer no longer being a resident of the precinct for which he was elected or appointed and allows a justice of the peace or constable to continue in office until the expiration of his term even though a change in precinct boundaries results in the abolishment of the precinct or more than one justice of the peace or constable serving the precinct. Vacancies in the office of justice of the peace or constable that result from a precinct boundary change shall be filled by the commissioners court until the next general election. The amendment would take effect on January 1, 1984, and counties with populations of less than 30,000 and with more than four justice of the peace and constable precincts would have until January 1, 1987 to comply with the amendment.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment authorizing fewer justice of the peace and constable precincts in counties with a population of less than 30,000 and providing for continuous service by justices of the peace, constables, and county commissioners when precinct boundaries are changed."

costs of administering the fund and issuing the bonds.

The amendment provides, further, that if there is not money in either the Veterans' Land Fund or the Veterans' Housing Assistance Fund available for payment of principal and interest on the general obligation bonds issued pursuant to the amendment, then money coming into the Treasury in each fiscal year is appropriated in an amount sufficient for payment of principal and interest due in that fiscal year.

As you are probably aware, I have written several articles regarding our State's public education system. I am sure you have also been reading articles concerning meetings occurring around the state which are being conducted by the Governor's Committee on Education. Since I have sent letters requesting suggestions from all the teachers in our district and have been receiving their responses, I thought I would share their suggestions and concerns with you.

One of the most commonly mentioned concerns was the time spent on "extra" teaching and subject matters. Let me explain my use of the term. "Extra" refers to bi-lingual education and remedial tutoring simply because while this added help may be needed for some, it is not necessary for the majority of students. Yet students are leaving the classrooms during regular class times for these special subjects and missing other lessons during the regular school day. "Extra" refers also to the times spent for athletics and pep rallies which also cut into classroom teaching of the basics. (I realize this will be a highly controversial area among coaches and other sports-minded individuals.)

Lack of interest from parents and lack of motivation on the part of students were also mentioned quite often by teachers as a serious handicap for excelling in scholastics. The students knew they would be passed to the next grade whether they put in time and effort or not. Many students seemed to put forth the minimum amount of effort needed to eek by. Pride in one's work and "learning for the sake of learning" were not conscious objectives of students anymore. Obviously, in this atmosphere, mediocrity, as opposed to excellence, prevails.

The third most noted suggestion or concern was discipline, or rather lack of it, in the schools. Teachers felt they had little recourse or back-up from families

The Mail Box Changes In Brucellosis Program Are Vast From Year

Dear Barbara,
Enclosed is a check for the renewal of the Santa Anna News. I also wish to subscribe for the Santa Anna News and have it sent to my sister and brother-in-law, Mr. and Mrs. Richard Jennings, in California. They were both born and raised in the Cleveland Community, as I was also, and lived in Santa Anna many years.
I have enjoyed the Santa Anna News all the years I have been away from Santa Anna. I think I read it through several times, as it's like a letter from home. I am especially enjoying Sylvia Herring's series about the Whon Community as we lived there about two years and remember the school and churches and things she writes about.
Sincerely,

Re: Picture of Simpson Gin in Santa Anna News August 11, 1983

This is a picture of the Simpson Gin. It was built about 1900. The location of the gin was across the highway south from the Burton-Lingo Lumber Company and across the railroad track from the West Texas Utilities.

About ten to fifteen years later the gin was doubled and remodeled, and then became Turner Gin, operated by J. Frank Turner, Mr. Simpson's partner.

The gin burned to the ground in 1932, and was not rebuilt. The red office was moved to the new gin north of the elementary school.

The tank shown had water to the boiler to supply the steam engine from a well. During drought conditions the tank and well were used to supply water to the city.

As J. D. Simpson was my father, I would very much like a copy of the picture of the old gin. Please let me know how I may obtain a copy. Also, I would like to see some of the old pic-

Austin—Basic changes in the Texas brucellosis program during the past three years are resulting in increased producer participation, according to statistics from the Texas Animal Health Commission.

"The Texas brucellosis program now in effect is vastly changed from what it was just three years ago. It is geared now to helping the producer with his problem, not aggravating it," Dr. John W. Holcombe, executive director, Texas Animal Health Commission, said.

"Before revisions went in effect in 1980, the Texas brucellosis program was primarily one of regular testing without an emphasis on vaccination," Dr. Holcombe explained.

Under the revised program, a producer has the opportunity to develop a herd plan that incorporates the use of adult vaccination and testing to fit his normal working schedule. This results in an immune herd once the disease is

eliminated. About producer acceptance, Dr. Holcombe noted:

1. Vaccination of heifer calves has almost doubled since 1980;
2. Certified free herd numbers have skyrocketed from a total of 62 in 1980 to more than 800 this year to date.

The card test was formerly the official test for brucellosis; now, the card test is a presumptive test only. The TAHC lab routinely runs additional tests to determine actual infection. The high dosage of Strain 19 vaccine was used which caused problems with vaccine induced test reactions. Reduced dosage of Strain 19 virtually eliminates this.

Herd plans were inflexible for individuals whose cattle were infected; testing of such herds was to be conducted every 30 days.

Now, testing is done to name from a manufacturing chemist of Edinburg, who, in 1823, patented the first process for waterproofing garments.

Herd owners also now have the right to protest procedures; under the old plan this was not allowed.

The new program also provides for incorporation of private veterinarians, and improvements in surveillance methods to detect brucellosis.

Recently passed legislation gives the TAHC administrative and legal authority to enforce its rules and to meet minimum federal guidelines.

Whon News

By Mrs. Tom Rutherford

In my letter this week I would like to say a few things in memory of Mr. Warren (Doc) Gill who was laid to rest Sunday afternoon in the Greenleaf Cemetery in Brownwood following services at Coggin Avenue Baptist Church in Brownwood and such a sweet service and a large crowd.

Doc passed away Friday afternoon, September 16, at 6:30 p.m. at Brownwood Regional Hospital following ill health for several years.

He was born January 1, 1903 to the late Mr. and Mrs. Earl Gill Sr. on the Gill Ranch in the Whon Community. In October of 1926 he was married to Miss Louise Kemp at Post, Texas, and they lived on the Gill Ranch for years where their children were born, and were ranchers here.

Some 29 years ago Mr. and Mrs. Gill moved to Brownwood where he served as a deacon at Coggin Avenue Baptist Church for years and was instrumental in the progress of Brownwood.

I do hope that each one will understand why I love and appreciate Doc and Louise so much. Before I married my father and I lived and worked on the Gill Ranch for two years or more. I helped Louise with her children and with her household. And I also love the children.

As you may not know, Doc was teacher for the Downtown Sunday School Class for a number of years.

On a Sunday morning not long after my father passed away in January 1969, Doc talked on "Home Missions" to the Sunday School class. The following are remarks Doc made concerning my father's life:

"I fell sure there are people here who know or have heard of Bro. Sammie Shields. We buried Bro. Sammie recently in the Whon Cemetery. Some 50 cars drove the distance

to the Whon Cemetery. Such a thing would have done honor to someone as the Mayor of a large city.

"Bro. Sammie never had much wealth in his life and never accumulated much money. But I really felt Bro. Sammie has a glorious mansion which Jesus went to prepare for his own. No person ever came in contact with Bro. Sammie but that his life was encouraged and inspired to dwell on a higher plain. For this reason, I say, 'He was the greatest home missionary I have ever known!'"

I hope you understand why I appreciate the memory of Doc Gill and his family so much. We deeply sympathize with each member of his family and brother, Jim and Fay Gill of Coleman.

Mr. and Mrs. Floyd Morris visited late Sunday afternoon with Mr. and Mrs. Charles Zable out of Brownwood a ways. Mr. Zable was just freshly home from the Brownwood hospital where he was quite ill a few days.

Hilary Rutherford and son Rocky of Coleman and Loyd Rutherford and son Todd were with their parents, Mr. and Mrs. Tom Rutherford, Saturday assisting with working the cattle.

Herschel Wynn of Granbury visited with his aunts, Mrs. Fannie Alsop and Mrs. Pearl Avants in Santa Anna on Sunday afternoon. Herschel had spent the weekend with his mother, Lorene Wynn at Leisure Lodge in Coleman and was enroute to Granbury.

Mr. and Mrs. Niel Fitzpatrick and children of Odessa were guests of his parents, Mr. and Mrs. Graham Fitzpatrick, during the weekend. Mr. and Mrs. Don Fitzpatrick and children of Santa Anna visited with the family Sunday afternoon.

Mr. and Mrs. Tom Rutherford and Tom Vinson of Whon attended the Rockwood Homecoming on

Sunday. A large crowd attended and enjoyed seeing friends of yesteryears. Lots of food was enjoyed by all and a wonderful day for all.

Loyd Rutherford and son Tod visited with Mr. and Mrs. John Dockery and son during the weekend in the Trickham Community.

Mr. and Mrs. Lee Abernathy, Mr. and Mrs. Graham Fitzpatrick, Tom Vinson, Mr. and Mrs. Tom Rutherford attended the memorial services for Mr. E. W. (Doc) Gill in Brownwood Sunday afternoon.

Always love to have your news, it really does help.

We say a special "Thanks" to Mr. and Mrs. Graham Fitzpatrick for the donation to the Whon Cemetery in memory of Mr. Doc Gill.

Household Employees

People who employ household workers should be aware of their responsibility to deduct Social Security taxes and to report the wages paid, Priscilla Ely, Social Security branch manager in Brownwood said recently.

"An individual who pays a household workers - whether a maid, cook, gardener, or even a baby sitter - at least \$50 in cash during a calendar quarter must deduct Social Security taxes. Failure to do so may mean having to pay a penalty in addition to the overdue taxes."

A calendar quarter is a three-month period that ends on March 31, June 30, September 30, or December 31. "Therefore," Ely said, "the payment of wages that average as little as \$4 a week would amount to more than \$50 for a calendar quarter and would have to be reported."

Additional information about Social Security and household employees may be obtained from any Social Security office or from the Internal Revenue Service Center for the State. The Brownwood Social Security office is located at 300 North Main and the telephone number is 646-7533.

A representative from the Brownwood office visits in Santa Anna on the first Wednesday of each month, officing at the Mountain City Center from 10 to 12 noon.

Len Clawson Attends TSTI

Bobby Clawson, a student at Texas State Technical Institute at Sweetwater was at home for the weekend to visit his parents, Mr. and Mrs. Bobby Clawson.

Len entered TSTI this fall to study electronic technology. He is a 1981 graduate of Santa Anna High School.
