

Dallas Man Kidnaped, Left Bound In Church

HOME TOWN TALK

By BEDDY

Approval by the people of Big Spring of the city hall-auditorium bond issue...

After news had flashed from here Tuesday evening that the city had shouted "yes" to the motion...

One paper wired your humble servant thus: "Confidence expressed in election there important. Please rush story giving background your issue and plans for building."

Hilo Hatch told his fellow Kiwanians Thursday that he knew what had caused the present economic state of affairs. Increase in inflation and decrease in deflation...

In another Kiwanis club address of Thursday Rev. R. L. Owen gave his fellow club members something to think about. Citing Roger W. Babson's prediction of this week...

Mr. Owen also presented definitions. One is a pessimist is one who finds a difficulty in every opportunity...

Those who find comfort in pain and thrive upon misery are about to be confronted with great grief insofar as the oil industry is concerned...

GIRL INJURED Virginia Newborn, who lives with her parents near Caden Refinery, was injured Wednesday when thrown from the running board of a car.

1-2 Inch Rain Falls; Small Area Covered

Hail Accompanies Downpour; Another Shower To Eastward

Although Big Spring received a heavy rainfall, accompanied by a hail storm, Wednesday afternoon, the change in the weather did not alter blistering temperatures...

Only 28 of an inch was registered at the experiment farm. At least one-half inch fell in the business district, while between three-quarters of an inch and an inch flooded the south part of town...

Howard county farmers are working in their fields this week, trying to salvage something from crops totally destroyed Sunday by a terrific sandstorm...

Bullet Victim Interred Here

Jack Jones, 17-year-old high school freshman, who was fatally wounded near Knott Tuesday when shot with a small calibre rifle, was buried Wednesday in Mt. Olive Cemetery.

Gas Rates In 42 Towns To Be Cut

LUBBOCK, June 18 (UP)—A voluntary reduction in gas rates will be offered by the West Texas Gas Company to 42 cities of West Texas before cold weather next winter...

BEER LORD CAPTURED

NEW YORK, June 18 (AP)—Dutch Schultz, known to police as the beer lord of the Bronx, was arrested and a henchman, Dan Amadio, critically shot in a street fight with two detectives today.

Wild O. C. Well Sprays City Hour; Conquered

OKLAHOMA CITY, June 18 (UP)—The wild oil well, No. 1 Rajah, sprayed part of the town for an hour today, but was brought under control before serious damage was done.

Heads Medics

Dr. Edward Henry Gary of Dallas, Texas, dean emeritus of Baylor university college of medicine, is the resident-elect of the American medical association. He was chosen spring Philadelphia convention.

Sandstorm Ruins Crop

10,000 Acres In County To Be Replanted, Mostly In Feeds

Howard county farmers are working in their fields this week, trying to salvage something from crops totally destroyed Sunday by a terrific sandstorm...

Mexican President Receives Protests On Proposed Statute

MEXICO CITY, June 18 (UP)—President Ortiz Rubio is receiving a stream of protests against the proposed anti-religious law in Vera Cruz State, allowing only one priest per hundred thousand inhabitants.

Oil Industry Gradually Getting Its House In Order Says Leaders

TULSA, Okla., June 18 (UP)—The oil industry, in the views of its leaders, gradually is getting its house in order and should be in a position to reap every advantage from the expected upswing in general business conditions.

Submission of Municipal Building Sites Asked By City Commission; Half Block Needed; Speed Is Urged

In an effort to select a site for the municipal building, to be erected and furnished at a cost of \$200,000, the city commission has called for proposals from Big Spring real estate owners.

Three To Die Tonight For Texas Crimes

HUNTSVILLE, June 18 (INS)—Unless Governor Ross Sterling intervenes at the eleventh hour, the state's thunderbolt, the huge golden oak electric chair, will strike three early Friday morning and "final" will have been written across the careers and records of three Mexicans—Otilio Herrera, Nicandro Munoz and Victor Rodriguez.

Hall Trial Opens In Crane County

CRANE CITY, June 18.—One of West Texas' most sensational murder trials of recent years got underway here this afternoon, when selection of a jury to hear the case of the State of Texas against Jack Hall, former Sonora resident and cowboy was begun.

Kiwanis Trio In Addresses

Blomshild, Hatch and Owen Before Club Men Thursday

Under direction of J. L. Webb the Kiwanis club conducted one of the year's best programs Thursday at the Crawford hotel.

Detective Accused Of Killing Woman

LOS ANGELES, June 18 (UP)—Mrs. Grace Dunham, 25, mother of two children, was beaten to death in a hotel room with a pistol. Detective Lieutenant Edward Nolan, 35, was held as the slayer.

AMELIA'S "WINDMILL" CRASHES

This shows the wreck of Amelia Earhart's autogyro plane at Abilene, Texas. The machine was badly damaged, but the aviatrix escaped unhurt. The accident interrupted her cross-country flight from California back to New York.

Sterling Believes Texans Will Be Given Opportunity Eventually To Vote On Highway Bond Issue

AUSTIN, June 18 (INS)—Governor Sterling today had indicated his belief that eventually the people of Texas will be given an opportunity to vote on issuing bonds for highway construction.

Threats Had Been Received By Preachers

Supply Pastor Left Hanging To Chandeliers; Rope Stretches

DALLAS, June 18 (UP)—B. F. Brown, supply pastor and hotel employe, was kidnaped while walking home early today. Four abductors stripped him and left him tied to a chandelier in the North Dallas Baptist Church. Cries brought help about 4:30 a. m.

Christian Ships Horses To Reno

Dave Christian, well-known Howard county race horse owner, is shipping his string to Reno, Nev., after a successful meet at the Riverside Park track in Kansas City, Mo.

Tom Green Officers Stop Here Enroute For Escaped Prisoners

Sheriff Bob Hewitt, and two of his deputies, stopped in Big Spring Wednesday night. They were enroute to Abilene, Texas, to return to Texas J. D. Connor, alias J. B. Connor and Clint Powell, who escaped from the San Angelo jail a month ago.

The Weather

Texas: Partly cloudy tonight and Friday.

Sees First Time

Woman of 31, Blind From Birth, Points to Father As Sight Comes To Her.

MERCHANTSVILLE, N. J., June 18 (UP)—A world never more beautiful and vivid than that conjured upon in the mind of the blind, but strange in its conglomeration of colors, distances and dimensions, was unfolded today by Miss Mary Morley, who has been given sight for the first time by an operation.

Ocean Flights Already Planned Crowd Aviation Calendar For Summer Months

By OSCAR LEIDING (Associated Press Aviation Editor) NEW YORK (UP)—Aviation raises the curtain on another ocean flying season with plans to rival the dazzling feats of 1927. Not since Lindbergh blazed his lonely trail to Paris and the aeronautic world was swept into a mighty wave of daring flights have so many ventures been projected. Three round-the-world flights, by Wiley Post with Harold Gatty, and Clyde Pangborn with Hugh Herndon, Jr., near the time when only favorable weather will decide the actual starts.

The Post-Gatty venture is the most ambitious, with a goal of ten days or less in a race against time over a 16,000 mile route. The other pair is intent on breaking the 20-day record of the Graf-Zeppelin. Hernt Balchen, pilot on Admiral Byrd's trans-Atlantic and South pole flights, has said he intends to fly around the world. But he has announced no details. A fourth projected round-the-world flight, by John Henry Mearns and Vance Breese, was called off in face of Russian objection to flight over its territory. The Green Flash, monoplane

wrecked by Roger Williams and Lewis Vance in the takeoff for a trans-Atlantic flight, is being rebuilt by Ben Zabus and Emil Burgin for some venture, depending upon what targets are available when the plane is in flying trim. Eight airplane flights over the Atlantic, besides the round-the-world flights, are in the spotlight with Otto Hillig and Holgar Horris in a contemplated Newfoundland-Denmark trip and Ruth Nichols planning a solo hop to Paris as the nearest to being ready. Miss Nichols, society woman and sports flier, may find a rival in

Edith Elizabeth McColl, of Galt, Ontario, who has announced preliminary plans to fly the Atlantic alone. But her plans seem uncertain. Women Active Laura Ingalls, who won her pilot's license while working as a secretary in St. Louis, has announced she will attempt a flight across the Atlantic, probably from New York to Paris, in the latter part of the summer. She has given out few details regarding her plans. A plane owned by Capt. George Endres and Alexander Mayyar is

at Roosevelt field. They plan to fly to Buenos Aires. Mrs. Geraldine Grey Laffredo, wife of a Buffalo photographer, has announced that she will attempt a Rome will flight from Buffalo to Rome with Renate Donati, Italian war ace, as co-pilot. Two flights "with a purpose" are planned by Comm. Donald B. MacMillan, noted Arctic explorer, and Col. James Fitzmaurice, Irish co-pilot of the German monoplane Bremen, conqueror of the Atlantic in westerly flight. MacMillan, with C. F. Rocheville as pilot, hopes to make a round

trip flight from Boston to London to survey possibilities of using a northern route for regular transoceanic travel. Fitzmaurice, accompanied by A. S. Stanford, Jr., plans to fly with a payload of mail and light express from New York to London by way of Newfoundland and Dublin. Capt. Roy Anmel, Chicago broker, has announced plans to fly the Atlantic in a low-wing monoplane with a retractable landing gear. He made a nonstop flight from New York to Panama last year after abandoning a projected trip to Europe.

Another south Atlantic flight is planned for the veteran German aviator, Graf Zeppelin, which is scheduled to fly to Brazil in late summer or early fall. Earlier, the airship is to be flown to Spitzbergen and then to the North Pole for a tryout with the Nautilus, submarine in charge of Sir Hubert Wilkins. Two German airplane flights westerly over the Atlantic are scheduled, one by the DO-X, monster flying boat now at Portuguese Guinea, and the other later by the summer by Capt. Wolfgang von Gronau with the same men who

flew across with him a year ago. Von Gronau's flight, to start from Iceland, will be made to study weather conditions and determine the feasibility of an air line from Europe to America by way of Greenland. Two fliers promise to fly the Pacific. Thomas Ash, Jr., an American, has taken over the City of Tacoma used by Harold Gronow for a nonstop journey from Japan to the United States. Seiji Yoshikawa, young Japanese, plans to carry on in a flight by easy stages from Tokyo with the ultimate goal at Washington, D. C.

Debate Arises On Price-Cutting In Drug Convention DALLAS, June 18—Sharply divergent views on the part of the Federal Government should play in halting price cutting in the retail merchandising field were laid before the annual convention of the Texas Pharmaceutical Association here Tuesday in an unexpected debate between Jules H. Riemschneider, Chicago, president of the National Association of Retail Druggists, and Herbert C. Mays, New York, editor of the American Druggist.

Want Laws Enforced "If this bill finally passes both houses it will be of great value to the retail drug trade and will have the virtue of showing us who among the manufacturers are our real friends," said Mr. Riemschneider. "Too long have certain manufacturers tried to carry water on both shoulders, making one price to one set of druggists and selling to others at a different price."

### Mexico Gives Boy, 15, Soldier Escort

LAREDO, June 18. (UP)—The Mexican army provided me a military escort from Mexico City to the border at Laredo, said smiling Roy Polino, 15, American boy from Perth Amboy, N. J., after his deportation from Mexico because of lack of passports after living over three years in Mexico City with his brother and brother-in-law. Polino was brought to the border by Mexican secret service men and soldiers June 9 and put across the line soon afterwards at Laredo.

"In Mexico City they took charge of me, a whole crowd of detectives and soldiers, and took me to the commandancia," he said. "Then they decided I had no right in Mexico because I had no papers, and so they started me on my way. I was under guard of ten soldiers on the train from Mexico City to San Luis Potosi, then 10 others took their places and guarded me until we reached Monterrey, and there another squad took charge of me. Sure I did not try to escape, but was a good boy all the way through."

A day or two after his arrival at Laredo young Polino appeared at the sheriff's office and told of his experience in Mexico and that he wanted somewhere to stay until he could get back to his old home in Perth Amboy, N. J., and the sheriff's department offered him a home in the sheriff's quarters at the county jail.

"Gee, you know it is great to have a military escort," he said mischievously. "I often heard of President Hoover and the like being escorted here and there by the military, but I'm telling you he has nothing on me now. I am sure glad though that the Mexican soldiers didn't have to end up with blowing taps over me before the Texas border was reached, so I just behaved myself on the train and gave them no cause to not like me."

### GOLDEN GATE AQUARIUM HAS RARE 'DAMOGEL'

SAN FRANCISCO, (INS)—The Stainhart Aquarium in Golden Gate Park here may soon be the largest and most completely equipped in the United States, and perhaps in the world, in the opinion of Alvin Seals, aquarium superintendent. It is admirably equipped for collecting rare species of fish, he says.

The Stainhart aquarium is the only one in the world which has specimens of the tiny, brilliant blue fish known as the South Sea Damogel. They were acquired through naturalists in the Samoan Islands. Because of its extraordinary collection of brightly colored fish the aquarium is visited annually by more than a million people.

There are three other great aquariums in the United States New York has probably the largest in point of area. In Chicago the Shedd aquarium is being constructed at a cost of \$3,000,000. St. Louis is noted for its \$700,000 aquarium.

### DRUGS IMPERILS 12 MILLION IN ONE CHINESE PROVINCE

PEIPING (UP)—The 12,000,000 inhabitants of Shansi province are threatened with extinction inside of 20 years because of drug habits, says a report by Chinese social welfare workers.

"Pai-mien," a mixture of heroin with other opiates, is consumed there to the extent of \$15,000,000 annually.

Sinching village, near the Shansi-Honan border is named as the center of the traffic. Women and children operate "white powder" factories and the men smuggle the product to addicts.

Fortified approaches have rendered the village impregnable to police, munitions having been collected by disarming stragglers from last year's civil war armies.

### Mexican Policy Change Protects Large Landowner

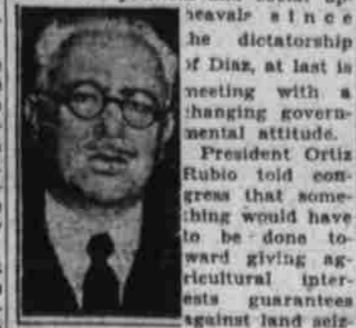

MEXICO CIT (UP)—The 20-year-old agrarian issue, mainstay of all successful political and social upheavals since the dictatorship of Diaz, at last is meeting with a changing governmental attitude.

President Ortiz Rubio told congress that something would have to be done to ward giving agricultural interests guarantees against land seizures.

A few years ago such a proposal might have caused the peasants to rise in arms.

Proof of the fact that Mexico has calmed down is to be found in congress' rapid approval of a corrective measure presented by the president.

The measure exempted most re-

PASCUAL ORTIZ RUBIO.

Decreased production was attributed to two principal results of the agrarian law: that large landowners hesitated to plant in view of the possibility of losing their land before the crops could be harvested, and that peasants, to whom land has been distributed in small parcels, either could not finance crops or lacked initiative to work the lands efficiently.

### MINE WORKERS OFFER AID

LEIGHTON, Pa. (INS)—In order to provide employment for more men, anthracite mine workers in this region have decided to ask the operators to eliminate overtime except where necessitated by emergencies.

### DUCE FEARS BOMBS, KEEPS PLANS SECRET

ROME (UP)—Mussolini's daily movements have become a greater secret than ever.

Italian newspapers are learning that they must refrain from giving advance notice of the Duce's whereabouts.

A few days ago the Lavoro Fascista, an ultra-fascist newspaper, was sequestered because it gave the exact time when the Duce was expected to attend the world grain conference.

In order to forestall possible clock bombs, Mussolini never arrives exactly on time. At the grain conference, scheduled to be there at 11 a. m., he came a half hour early, and began to talk at 10:35.

On the contrary, scheduled to speak at the recent meeting of the Association of Stock-Companies at 3:30 o'clock, he arrived at 4:05.

No advance information of any kind is given as to whether Mussolini will be present at various functions.

Even on occasions like the recent celebration of the twelfth anniversary of the Fasci, the beginning of the Fascist party, when it could be taken for granted that the Duce would attend the Rome

### U. OF CALIFORNIA MEETS GEORGIA TECH DEC.

BERKELEY, Calif. June 18. (INS)—With the addition of an inter-sectional game with Georgia Tech on December 26 in Atlanta, the University of California's 1931 football schedule is complete. The Georgia Tech game will mark California's first invasion of the South.

The game will be the second between teams of the two institutions. The first, the 1929 New Year's Day game at the Pasadena Rose Bowl, was won by Georgia Tech, 8 to 7.

The Golden Bears will travel to the Northwest during the regular season, meeting Washington State, 1800 Conference champions at Portland, Ore., October 17. The complete schedule: September 26, Santa Clara at Berkeley; October 3, St. Mary's at Berkeley; October 10, Olympic Club at Berkeley; October 17, W.S.C. at Portland; October 24, Southern California at Berkeley; October 31, Nevada at Berkeley; November 7, Washington at Berke-

### IMPROVE FLORIDA BEACON

WASHINGTON, June 18. (INS)—Fowey Rocks, one of the series of primary coastal lights marking the dangerous Florida Reef, is now being equipped with an intermediate power radiobeacon, which will go into service about August 16, according to the lighthouse service, of the department of commerce. The new radiobeacon will be particularly valuable to ships during fog or low visibility, when objects along the shore and light-houses are obscured from view.

### DROP IN CHEMICAL OUTPUT

OTTAWA, Canada, June 18. (INS)—Chemical production in Canada during 1930 showed a decline of 12 per cent in value from the total for the preceding year, according to preliminary figures of the Dominion bureau of statistics of Ottawa. The output value in 1930 was \$122,266,852 as compared with \$138,545,221 in 1929. However, the 1930 total was only slightly below the corresponding value for 1928 and exceeded the average for the past five years by \$1,379,150.

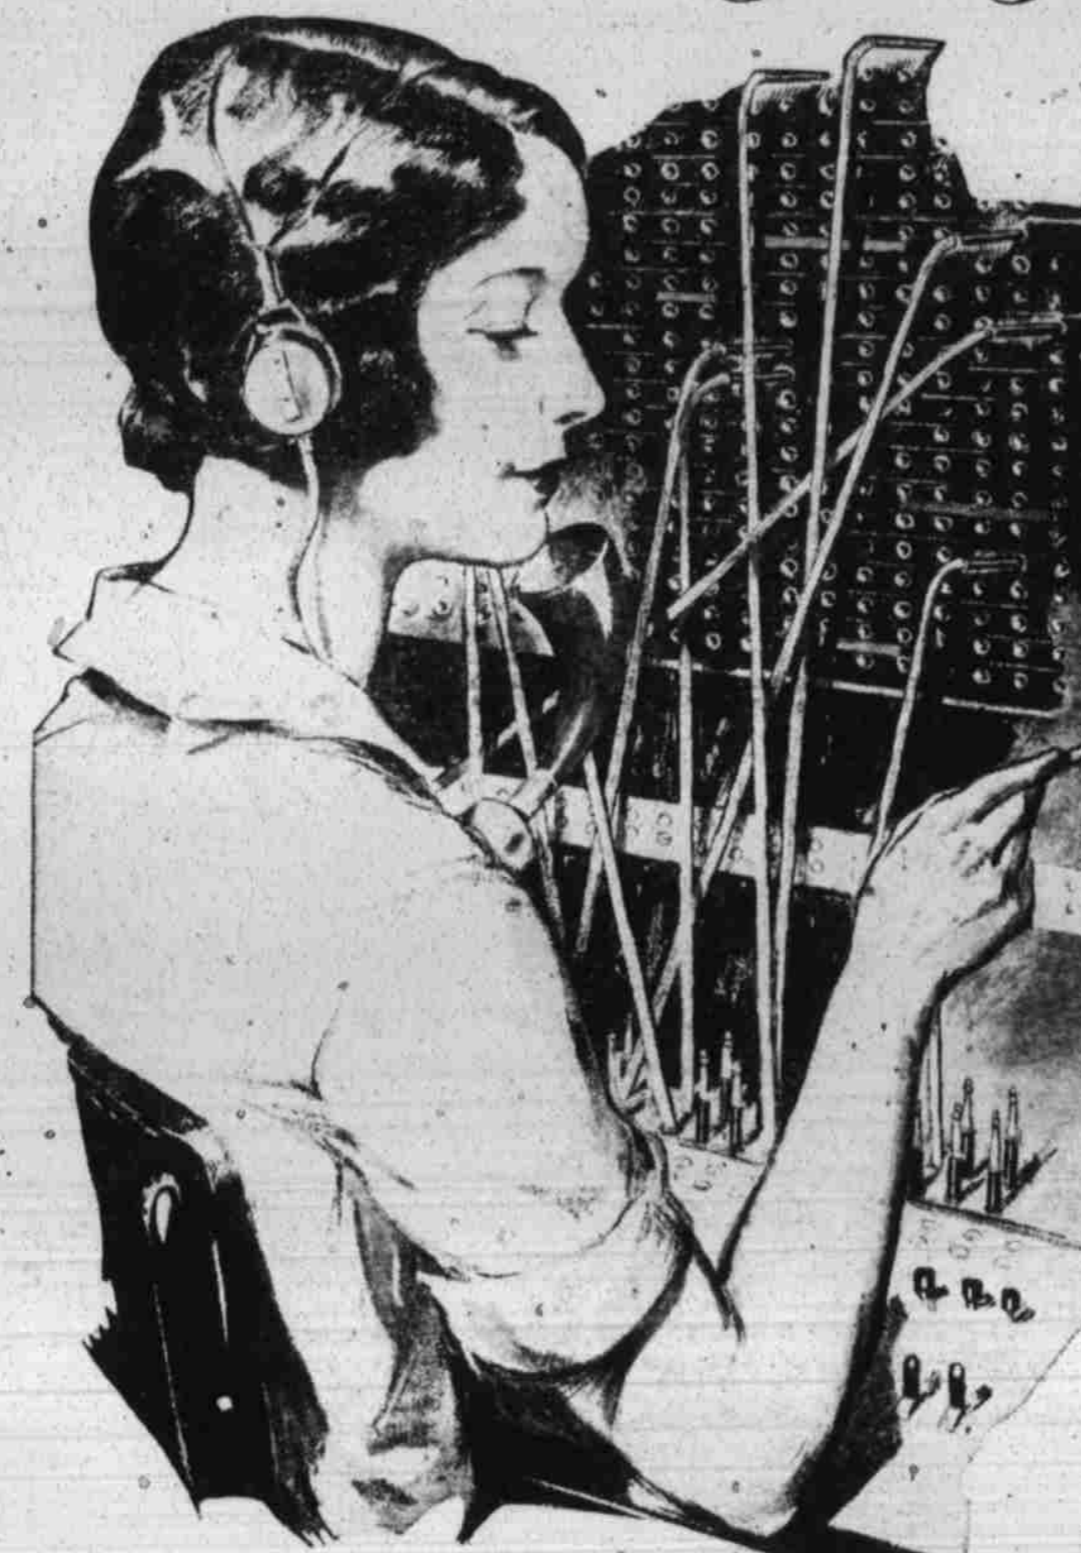

### A CORNWALLIS STAMP

YORKTOWN, Va. June 18. (INS)—A special stamp commemorating the surrender of Lord Cornwallis one hundred and fifty years ago will be issued by the postoffice department on July 1, advises from Washington report. The stamp, of same size as the Vincennes and George Rogers Clark stamps issued two years ago, will bear the likeness of Washington, Rochambeau and DeGrasse, leaders of the French and American military and naval forces at the siege of Yorktown. The stamp is said to be one of the handomest and most attractive ever issued by the postoffice department.

### New Face Powder Stays On Longer

If you have large pores use a face powder that will not clog them. A new French process called MELLO-GLO makes the skin look young, stays on longer, furnishes a youthful bloom, does not irritate the skin or make it look pasty or flaky. Spreads smoothly. Try this new wonderful Face Powder MELLO-GLO.—Cunningham & Phillips—Lade.

## Junior Health Club Studies First-Aid

### Simple Remedies Given In Lecture By Mrs. M. R. Showalter

The West Side Junior Health Club met at the West Side Baptist Church Wednesday at 1:30 for a session conducted by Mrs. M. R. Showalter, public health nurse, on first-aid treatment.

Mrs. Showalter first advised exposure in an accident to prevent exciting the patient unduly. She then demonstrated the advantages of triangular bandages for setting up a broken arm, around a knee or a hand and around the head.

She suggested the use of stockings for tourniquets instead of tearing up dresses or petticoats.

For fainting, she told the club that to lower the head and allow the blood to rush to it was all that was necessary to revive anyone.

Mrs. Showalter told the members that when babies had convulsions, which were usually caused by intestinal disorders, there were things to do, while waiting for the doctor: first, immerse the child in a warm bath without even waiting to remove his clothes; second, give it an enema; third, give him a dose of castor oil. Usually, she said, this is all that is needed to make the child well.

She insisted that all first-aid kits should carry snake bite remedies which can be obtained from any druggist and follow directions. She suggested that if no one had a knife to cut the skin after the bite had occurred a broken piece of glass could often be secured and would do the work.

For fractures she advised taping the limb to a board or making splints of corrugated cardboard before taking the injured person to the doctor.

She reminded her listeners that a person whose clothing had caught fire should be rolled in a quilt, or something heavy, commencing with the head instead of the feet, so that he would not inhale the smoke and then rolled on the ground. This would put out the fire quickly and often prevent serious burns.

She also offered to answer any questions concerning first-aid which the club wanted to ask.

The following were present: Misses J. I. Brazzell, E. L. Tate, D. R. Tate, M. H. Tate, B. G. Richmond, L. F. Rice, E. L. Whitaker, May Ashely, G. O. Murphy, G. E. Covey, L. E. Craig, Misses May Wright, Opal Mae Williams, Juanita Campbell, Willie G. Watts, Wilfred Richbourg, Vada Lack of Cleco, Ruth and Vera Frances Cotton.

## Leaders of First Baptist Sunday School Meet For Study and Discussion

The Sunday School teachers and officers of the First Baptist church met and organized Wednesday evening at the church before prayer meeting. Representatives of each department were present. After meeting in departments to study department problems and the coming Sunday's lessons, the members met together for discussion of the work as a whole.

In the absence of the superintendent and assistant, Miss Catherine Sangster was the leader. The meeting will be held every Wednesday hereafter at 6:45, preceding prayer meeting at 8. All teachers are urged to attend.

## Entertain Four Tables Bridge for House Guest

Mr. and Mrs. Gary Young were host and hostesses to four tables of bridge Wednesday evening at their home, honoring their house guest, Mrs. Van Peltrey, of Colorado.

Mrs. J. Eckhaus won high score for the evening. Delicious refreshments of ice cream and cake were served to the following guests: Mr. and Mrs. Joey Fisher, Mr. and Mrs. Bernard Fisher, Mr. and Mrs. E. M. LaBef, Mr. and Mrs. Ed Young, Mr. and Mrs. Tom Coffee, Mr. and Mrs. W. O. Thompson, the honoree and Mrs. Eckhaus.

## Miss Bernice Chapman Married to Mr. Colbert

Mr. and Mrs. H. C. Chapman announce the marriage of their daughter, Bernice, to Lester Colbert, in Lovington, New Mexico, Wednesday.

The bride is a popular young woman who has grown to womanhood in this city. The groom is the son of Rev. and Mrs. A. R. Colbert, of Pampa. He is agent for the Singer sewing machine for this section.

Mr. and Mrs. Colbert will make their home in this city, at 400 Galveston Street.

## AT MEMORIAL MEETING

Jim Bob Hatch, C. A. Johnson Jr., and Gerald Liberty are representing the local De Moxley chapter at the convention at San Antonio. They left Wednesday. The convention opens Friday and continues through Saturday.

## BIRTH NOTICE

Mr. and Mrs. R. L. Southard announce the birth of a daughter Tuesday. Mr. Southard is a Texas & Pacific railway employe.

## American Cheese Demonstrations

### How To Make This Cheese and Mrs. Allgood's Recipes For Using It After It Has Been Cured

Eight cheese making demonstrations have been given in the county within the past few weeks. The ten women's clubs have been reached by these demonstrations. Reports show that these demonstrations are being followed up by women in all ten clubs.

Mrs. J. W. Wooten reported that she had made cheese three times since the agent made it in her home. Mrs. C. A. Burks of Hiway, has included in menus with cheese cheese every Monday. This amount of milk makes approximately 5 pounds of cheese. At present it is impossible to give figures on the number of pounds made in the county, but that information will be given later.

Cheese is very nutritious, and should be served frequently, but due to its high concentration, it should be combined with bulky foods. Raw vegetable salads should be included in menus with cheese dishes. Cooked vegetables may be used in cheese combinations, thus adding bulky cooked vegetables to the cheese.

The following recipes for cheese dishes may be helpful to women who are making a quantity of cheese. While eggs are so cheap and plentiful, the following recipes for using eggs might also be useful.

### AMERICAN CHEESE DISHES

**Cheese Fondue**  
1 cup scalded milk  
1 cup soft stale crumbs  
1 1/2 lb. mild cheese in small pieces  
1/2 tsp. salt  
2 egg yolks  
3 egg whites  
1 tsp. butter  
Mix all ingredients excepting eggs. Beat yolks well and add. Cut and fold in well beaten whites. Pour into a buttered dish. Bake 20 minutes in a modern oven. Serve at once.

**Baked Potatoes and Cheese**  
6 large baked potatoes  
2 cups American Cheese grated  
1/2 cup hot milk  
2 teaspoon salt  
1-2 teaspoon paprika  
Cut potatoes in half lengthwise and scoop out the centers. Mash thoroughly. Add a heaping spoonful milk and heat with egg beater until smooth. Mix with the potatoes, add seasoning and whip until light and creamy. Refill the potato shells, return to a hot oven and bake until brown on top.

**Potatoes O'Brien**  
2 tbsp. butter  
2 tbsp. flour  
1 1/2 cups milk  
1 cup American cheese grated  
1/2 small onion  
1/2 small green pepper  
1 pimiento sliced  
3 or 4 medium sized boiled potatoes  
Salt  
4 hard cooked eggs  
Melt butter, stir in flour, add milk, cook 2 minutes, add season, stir until cheese is melted; season to taste. Add onion, green pepper, a layer of diced eggs and pimiento. Place layer of diced potatoes in buttered baking dish, then a layer of sauce, repeating alternately, putting sauce on top. Bake 20 minutes.

**Scrambled Eggs with Cheese**  
8 eggs  
2 cups American Cheese grated  
1/2 cup cream (or milk)  
1 tablespoon chopped parsley  
Salt and pepper to taste  
Beat eggs slightly and add remaining ingredients. Pour into a well buttered skillet and cook very slowly, stirring constantly so the eggs will be melted by the time the eggs are cooked. Serve on toast.

**Cauliflower and Cheese**  
Place a whole cooked cauliflower on a dish for serving. Pour over and around the cauliflower 2 cups of:  
Cheese Sauce  
2 tbsp. butter  
4 tbsp. flour  
2 cups milk  
1/2 tsp. salt  
Few grains pepper

1 cup American Cheese grated  
Melt butter in saucepan, add flour mixed with seasonings, and stir until well blended; pour on the milk and stir constantly, cooking until thick. Then add the cheese which has been carefully grated, and stir slowly until the cheese is melted. Additional cheese grated and sprinkled over the cauliflower makes an attractive garnish.

**Squash au Gratin**  
2 cups mashed squash  
2 tbsp. melted butter  
Salt and pepper  
2 eggs  
1 cup American Cheese grated  
Buttered crumbs  
To the squash, add the melted butter and season to taste with salt and pepper. Add beaten eggs and mix thoroughly. If squash is very dry a little cream may be added. Put in small ramekins, sprinkle with grated cheese and cover with a thin layer of very fine buttered crumbs. Bake in a moderately hot oven until crumbs are browned.

**Stuffed Tomatoes and Cheese**  
6 medium sized tomatoes  
1 1/2 cups fresh bread crumbs  
1 cup American Cheese grated  
Salt  
Pepper  
Paprika  
Celery salt  
Cut a small slice from the top of each tomato; scoop out the centers and fill the shells with a mixture of the tomato pulp and remaining ingredients with seasoning to taste.

Top with a generous sprinkling of grated cheese and bake in a moderate oven until the cheese is melted.

**Creamed Eggs**  
1 cup milk  
4 hard cooked eggs  
1-3 tsp. salt  
2 tbsp. butter  
2 tbsp. flour  
1-8 tsp. pepper  
Separate whites from the yolks of the hard cooked eggs. Make a sauce and add to this the yolks which have been pressed through a strainer. Cut whites into small pieces and add to the sauce. Creamed eggs are particularly nice when served on toast.

**Shirred Eggs**  
Cover the bottom and sides of a small baking dish, preferably an earthen one, with fine bread or cracker crumbs. Break each egg into a saucer and carefully slip it into the dish. Cover with seasoned buttered crumbs and bake in a moderate hot oven until the whites are firm and crumbs are a golden brown.

**Baked Eggs**  
Let eggs stand for 20 minutes in boiling water or until yolk and white are hard. Slice the eggs. Sprinkle one layer of bread crumbs on bottom of baking dish, and then a layer of white sauce (see white sauce recipe in chart) and eggs. Another layer of buttered bread crumbs and a tiny bit of grated cheese. Bake in hot oven 10 minutes or until buttered bread crumbs are brown.

**White Sauce**—For one dozen eggs use 2 cups white sauce.

## Chic For Golf

Utter simplicity is the charm of this golf dress of light weight mesh from Saks-Fifth Avenue. The tuck-in blouse buttons down the front, with the button line repeated in the skirt. A narrow brim Panama hat and short white pigskin gloves are accompanying features.

## Connellee Ranch Sold, But Foreman Stays On

SAN ANGELO, June 15.—The 5,000-acre Connellee ranch near Carlsbad is in the hands of new owners, Mrs. Elizabeth Flunck of Eastland and Mrs. Rose Graves of Dallas, but the same foreman, J. W. Snyder, who was associated with the late C. U. Connellee, Eastland capitalist, is still on the job.

Snyder has not taken a vacation in 25 years. A few years ago Connellee gave him \$3,000 and he bought a home in Jones county. When Connellee died he asked that Snyder not be moved from the ranch.

Mrs. Kuykendall and her four visitors, Mrs. B. C. Neal and daughter, Marjorie, of Kerrville, Miss Mary Dorothy and S. J. Kuykendall, of Paris, spent Wednesday in Abilene.

The Miriam Club was incorrectly scheduled for Wednesday in the Sunday club calendar. Its meeting date is Friday.

O. F. Wiggins, North Johnson street, underwent a tonsillectomy at the office of Dr. L. E. Parney Tuesday.

**LIGHTS TIRE MOTORISTS**  
TOLEDO, O., (INS)—Three times as much energy is needed to regulate the eyes to meet automobile lights in night driving as is needed to properly manipulate the automobile at 60 miles an hour in daylight. Dr. William A. Mendelsohn of Chicago, told delegates to the Ohio Optometrists convention here. He is chief of staff of the Post Graduate Eye Institute.

## Mrs. Dee Hilliard Hostess to Justamere Bridge Club Members

The Justamere Bridge club met with Mrs. Dee Hilliard in her lovely home in Washington Place for a delightful session of bridge Wednesday.

Mrs. Bennett made high score for club members and Miss Torbett made high for visitors.

The visitors were Misses J. E. Fisher, J. Eckhaus, J. D. Biles, George Garrette and Miss Drush Torbett, of Marlin. The members were Mrs. W. H. Bennett, J. B. Young, V. Van Gieson, R. C. Strain, E. O. Ellington, John Clarke and H. W. Leeper. Mrs. Leeper will be the next hostess.

## Rebekahs Plan For Social Hour and 42 Party At Next Meet

The Rebekahs met in regular session last night at the Odd Fellows hall.

They plan to follow the next meeting with a 42 party and social hour. A short program has been arranged consisting of a dance by Jean Kuykendall, a reading by Mary Dorothy Kuykendall, of Paris and a violin solo by Marjorie Neal, of Kerrville.

## Two Visitors Who Are Taking Prominent Parts In The Eastern Star School Of Instruction Here

Mrs. MAUDE RIPLEY, Member Grand Examining Board

Mrs. MAUDE RIPLEY, Member Grand Examining Board

Mrs. HATTIE GROSS, Deputy Grand Matron

Mrs. and Mrs. I. F. Pettay and family moved today to McCamey, where Mr. Pettay has been transferred.

Mrs. A. Natras of Fossil and Miss E. P. Ivey and son Cecil Roy of Ennis were visitors in the city Wednesday.

## Big Spring Study Club To Continue Study of Texas In Coming Year

The program committee of the Big Spring Study Club met at the home of the president, Mrs. Ada Ramsey, Wednesday and decided to continue the study of Texas next year. The club will take up writers, musicians, poets and outstanding Texans who have contributed to modern-day Texas. The course is obtained from extension department, University of Texas.

Mrs. Charles Koberg and Mrs. Felton Smith are the program committee.

## Guests Enjoy Merry Bunco Evening Party

Lena Kyle entertained with a bunco party at her home on Lancaster street Tuesday evening. Bunco was the game of the evening.

Delicious refreshments of punch sandwiches, cake and nut rolls were served.

Cecil McDonald made high score for the boys and received a tie; Hugh Willis Dugan made low and received a silk handkerchief. Emma Louise Freeman made high for the girls and received a sports handkerchief. Polly Webb made low and received a scarf tie.

The guests enjoying this delightful hospitality were Misses Eva Mae House, Maxine Thomas, Emma Louise Freeman, Margaret Moore, Mary Pettay, Inez Matthews, Jamie Barley, Polly Webb, Margaret Betler, Messrs. Cecil McDonald, Jimmie Spillman, Gerald Liberty, Hugh Willis Dugan, Burma Barley, Tommy and Cecil Neal, Keely Burns and Bill Gordon.

The Tah-le-quah Club has postponed its meeting from today until tomorrow.

Miss Mary Dorothy and her brother, S. J. Kuykendall, of Paris, are visiting their uncle and aunt, Mr. and Mrs. J. E. Kuykendall.

## Wesley Memorial Methodist Church Holding Revival

Rev. Berry Baker, of Lamasas, has been conducting a very successful series of revival services at the Wesley Memorial Church, according to those who are attending the meetings.

He is assisted by Adrian Roy, of Lawa, who sings the old gospel songs in the good old spiritual fashion.

This is a regular oldtime revival. The crowds have been good and the services have the spiritual flavor of the early gospel meetings.

# To smokers who are hard-to-convince

WE LIKE nothing better than to induce hard-to-convince smokers to switch to Camels for just one day.

For we know that after they have made a real test, it will be mighty hard to lure them away from this famous brand.

It's not easy to smoke parched-dry cigarettes once you have known the delights of perfectly conditioned Camels.

After inhaling the cool, soft fragrance of the Camel Blend of choice Turkish and mellow Domestic tobaccos protected by the Humidor Pack, your throat protests against the

bite and sting and harsh hotness that comes from crumbly, dry tobacco.

No matter where you pick them up, in any land, in any climate, Camels are the same fresh, factory-prime cigarettes.

For the Humidor Pack of moisture-proof Cellophane air-seals all the flavor in and keeps out weather, dust and germs.

This is no mere advertising story. It is a recitation of fact that has made the whole country conscious of a new superiority in Camels.

If you are hard to convince, won't you switch to Camels for just one day? Then leave them—if you can.

Tune in CAMEL QUARTER HOUR featuring Morton Downey and Tony Wons Columbia Broadcasting System—every night except Sunday

# CAMELS

NO CIGARETTA AFTER-TASTE

Don't remove the moisture-proof Cellophane from your package of Camels after you open it. The Humidor Pack is protection against sweat, dust and germs. It delivers fresh Camels and keeps them right until you smoke the last one.

# Moon's Effect On Potatoes Is Murray Topic

### Plant 'Em In Dark of Moon,' Chief Executive Advises

OKLAHOMA CITY, June 18. (UP)—Like his predecessor-former Governor Henry S. Johnston-Gov. William H. Murray has great faith in astrology and their influence on man's every-day life.

Unlike the impeached governor, however, Murray refuses to admit the connection between heavenly bodies and politics. To him planetary influence is confined to such tangible things as "spuds" and fence posts.

Governor Murray cited pertinent observations on the effects of the moon's phases in an interview with the United Press today.

"If you must plant potatoes, shingle a house or set fence posts, consult the moon before going to work," was the governor's advice in brief.

"Potatoes must be planted in the dark of the moon if a good yield is to be obtained. Plant them in the light of the moon and the bugs will get them and they will go to waste."

"Now don't ask me why. All I know is that it is so. Maybe it's the same principle as the moon's effect on tides," Governor Murray speculated.

Take fence posts for instance. Set them in the dark of the moon and in a few months they are leaning as all sorts of crazy angles.

The governor was equally adamant that houses shingled at any other time than in the dark of the moon will look like the roof has a permanent wave.

"I had a house shingled by one man from shingles made from one tree and done in the same unchanged weather. Most of the work was done in the dark of the moon but one side was finished in the light of the moon. You can drive by the house today and see where the moon came up. Those

shingles are curled up while the others lie flat and tight to this day."

The governor said his study of astrology had not progressed past the moon. He did not indicate that it would.

Governor Murray's remarks recalled one of the highlights of the impeachment session of former Governor Johnston when the governor replied to a question regarding his fortunes in the impeachment court.

"The stars tell me of fair sailing ahead and that I am crystal clear."

Johnston was impeached.

## Two States Debate Custody of Connor

ALBUQUERQUE, N. M., June 18. (UP)—Texas and Arizona today debated the custody of J. D. Connor, captured here after his escape from the San Angelo jail.

Connor was convicted at San Antonio on charges of extortion and escaped at San Angelo.

He is wanted in Phoenix, Ariz., on a charge of wounding a traffic officer.

Clint Powell, another prisoner who escaped at San Angelo, also is held here. They were picked up Sunday as suspicious characters and identified late last night.

## Bus Line Officials Agree to Cut Rates

KANSAS CITY, June 18.—Representatives of ten bus companies agreed here to reduce transportation rates July 1 to meet an expected cut in train rates.

H. H. Morgan, vice-president and general manager of the Pickwick-Greyhound lines, with headquarters here, as spokesman for the group announced the reduction in some cases would range as high as 20 per cent. The amount of the cuts would vary in proportion as the various lines are affected by the contemplated rail cuts, he said.

The lines that will participate in the reductions are the Dixie Greyhound Lines, Memphis; Teche Transfer Company, New Orleans; Southwest Transportation Company, Texarkana; Southland Greyhound Lines, San Antonio;

Greyhound Management Company, Cleveland; Missouri Pacific Transportation Company, St. Louis; Pacific Greyhound Lines, San Francisco; Tri-State Transit Company, Shreveport, La.; Interstate Transit Company, Omaha, and the Pickwick-Greyhound Lines here.

Morgan said the bus line representatives believed the rail cuts were unjustified but that bus cuts were necessary to meet the new competition.

Announcement also was made that a new plan had been worked out for bus transcontinental trips permitting optional routings.

The officials present were: E. J. Bomer, Dixie Greyhound Lines; T. W. De Zonia, Teche Transfer Company; C. B. DeBerry, Southwestern Transportation Company; P. T. Jackson, Southland Grey-

hound Lines.

L. D. Koller, Greyhound Management Company.

H. H. Butler, Missouri Pacific Transportation Company.

I. G. Markel, Pacific Greyhound Lines.

J. N. Campbell, Tri-State Transit Company.

L. R. Burton, Interstate Transit Lines.

H. H. Morgan, vice-president, Pickwick-Greyhound Lines, Kansas City.

A. F. Baldus, traffic manager, Pickwick-Greyhound Lines, Kansas City.

W. L. Wimberly, secretary, Greyhound National Tariff Association, Kansas City.

AT 76, SHE GETS DIVORCE DENVER, Colo. (INS)—Judge G. A. Lufford recently terminated a marriage of 32 years standing when he granted a divorce decree to Mrs. Bertha Sorling in district court here. Mrs. Sorling, past 70 years of age, said that she had waited 18 years for the return of her husband, Jonas, before filing a petition for divorce.

MEMORIAL TO FORESTER PORTLAND, Conn. (INS)—A road that winds throughout the great space of the Meshomake forest here is to be a memorial to Walter Mulford, the first state forester in Connecticut and who was the first man in the United States to hold the position of state forester. When the road was dedicated on June 8, the chief speech was made by Dr. Edward H. Jenkins, director emeritus of the state agricultural station. The station

was the first of the sort in the nation, and Dr. Jenkins established it.

A group of duck-raising farmers near Springfield, Ohio, have provided steam-heated quarters for their fowl.

**PENSIONED FOR LIFE**  
HAITFORD, Conn., June 18. (INS)—Robert T. Hurley, commissioner of state police, was the only office holder in Connecticut who failed to secure some other position when a Democratic governor refused to reappoint many men to offices they had long held. So the commissioner, whose term expires July 1, asked the state board of finance for a pension and he was voted \$2,900 a year for the rest of his life.

**NEW LANDMARK ALTERED**  
NEW HAVEN, Conn., June 18. (INS)—Children, Linsly, and Brothers and Lincoln, the three old Yale library buildings have been passed into the hands of the building trust, and in another fall they will be put into use for class rooms and as a college Christian association building. Linsly dates from 1888, Children from 1888, and Brothers and Lincoln from the 1820's.

Mr. and Mrs. Jim Currie left today for Temple. Mrs. Currie is returning to the sanitarium there. Mr. Currie is taking her down.

**The Water Bucket**  
BY BOBBY CAMPBELL

**SPORT SLANTS**  
By Alan Gould

The retirement of Edward Trowbridge Collins, once the king of second basemen, puts a final touch to the passing of the one-time American league's "big three"—Collins, Ty Cobb and Tris Speaker. For nearly a quarter of a century they were contemporaries in compiling some of baseball's great all-time achievements. Cobb broke into the big show in 1905, Collins in 1906 and Speaker in 1907. Their active playing careers closed simultaneously after part-time work in 1928. Collins has been on the active list in name only since then.

Cobb's final batting mark for 1928 was 323 as compared with his record life-time figure of 367. Collins as a pinch-hitter, closed his book with a mere 303 and a life-time average of .333. Speaker hit only 267 with Washington in 1928 as compared with a life-time mark of 344.

They had Jackson, Lajolie and Sluder as rivals for all-around honors in earlier days, before yielding crowns to Hellmann, Ruth and Simmons of newer generations. They battled against a long line of sharpshooters from Johnson, Bender, Joss, Walsh, Donovan, Plank, Wood and Combs down to the group featuring Bagby, Hoyt, Coleskie, Penneck and Grove.

**ONE PAIR NEEDED**  
It was over the beautiful Inverness course at Toledo in 1920 that the British professional club, represented by Ted Ray, last won the honors that go with the American open championship.

If this is a good omen, the golfing sons of John Bull hope to make the most of it this July at Inverness to offset the embarrassment of having their own open trophy brought back to this country ten times in the past 17 years.

The trouble is that Britain has produced no pair to carry on with the consistency of Harry Vardon and Ted Ray. Vardon won the American open in 1900, tied with Ray and Francis Gulmet in 1913, when the 19-year-old American amateur captured the playoff, and was runner-up to Ray in 1920.

As Mitchell and George Duncan failed in several attempts to break through. Now the principal threats are Archie Compston and Henry Cotton, the young Englishman who was barred from the Ryder Cup team because he objected to having his program of activity restricted.

"I might win the U. S. open," Cotton told the Ryder team selectors, "and in that case I would naturally want to barnstorm the states."

It will be the biggest sensation of the year, if Cotton or any one of his countrymen can break through the ranks of the home forces, led by Hagen, Samzen, Farrell, Armour, Mac Smith, Horton Smith and Diegel.

**CAN THIS BE TRUE?**  
"It will doubtless chagrin the proverbial p.d. graduate," notes the Carnegie Foundation's Bulletin 26, "to learn that occasionally young athletes, faced with a choice between completing an interesting piece of elementary research and taking a trip with an intercollegiate team, elect to finish the research."

If Doubtless, too, the old grads will investigate this.

**Wandering Cowboy**  
Hunting Autographs

SAN ANTONIO, June 18. (AP)—E. J. Hickey, wandering cowboy from the University of Texas who has the big autographed signature, is off for new fields to conquer.

He left here with his eye on the midwest where he hoped to obtain more famous signatures for his broad-brimmed hat. Among those who signed on the brim and the crown during Hickey's first 45,000-mile hike were President Hoover, Commander Byrd, Will Rogers, Al Smith and Bobby Jones. The autograph hat came into prominence via radios and newspapers during the American Legion convention at Boston.

**Cooney Twirls Spudders To Victory**

DREAMTOWN, June 18 (AP)—Bob Cooney guided Muleshoe Vaughn in a great mound battle Wednesday and the Spudders took the series final 1-0. Cooney allowed three hits and Vaughn five. In the eighth inning, with two down, Cooney singled to right. Garms walked on four pitched balls and Aliday singled to center, scoring the only run of the game.

**BUFFS & PANTHERS 2**  
HOUSTON, June 18 (AP)—Tex Carleton held the Fort Worth Cats to 3 hits Wednesday night as the Buffs won, 8-2 and climbed within half a game of the lead. Carleton walked seven and hit one, but he fanned nine and bared down in the pinches.

President Fred Ankenman announced that Joe Spritz, veteran catcher now in St. Louis, had agreed to terms and probably would join the Buffs this week in Shreveport.

**Korea-Trained Tennis Player New Coach of Columbia Squad**

NASHVILLE, Tenn. (AP)—Donald Cram, who learned his racket in far-off Korea, has been appointed tennis coach at Columbia, the largest university in America.

Cram, still a boy of 25, began playing the game at 15, while his father, Dr. W. G. Cram, of Nashville, was a missionary of the Methodist Episcopal church, south, in Korea.

Donald, or "Don" as he is better known, ranks 25th among this country's tennis players. His achievements this year—as well as numerous others—without the benefit of coaching and in spite of only a moderate build physically.

Cram is five feet five inches tall, slightly tanned and still has the slimness of a 18-year-old boy.

Off the court he's a friendly, soft-spoken young fellow, rather modest.

On the court, though, he is not so easy going. As tokens of his aggressiveness and alertness he holds awards showing he was southern intercollegiate champion in 1927, state champion three times in succession, city champion several times and foremost in his club on many occasions.

Not all of Don's time, however, is devoted to tennis. He found time while taking his A. B. degree at Vanderbilt university here to captain the basketball team one year and do well enough academically to be elected to Phi Beta Kappa, honorary scholarship fraternity.

It was natural, enough that he should captain the Vanderbilt tennis team. He did so every year he was there except his freshman year.

Most of Don's spare time, his father said, is spent on the court. "Tennis," Dr. Cram said, "if you are to get anywhere with it, takes lots of time. When he's not playing he's usually around home. He reads a great deal."

Cram's taste in literature runs to "solid stuff," his father said. He reads everything he can get on tennis. That, the doctor declared, and playing with good tennis players was about the only way he had of picking up pointers.

Donald is working toward his M. A. degree at Columbia, majoring in commerce and statistics.

**Country Club To Qualify Players**

Another qualifying test for places on the Big Spring Country Club ladder will be held, according to a letter mailed to members of the organization by the tournament committee. J. E. Kuykendall, G. H. Porter and Robbins.

Members are asked to turn in medal score for 18 hole play sometime before Monday.

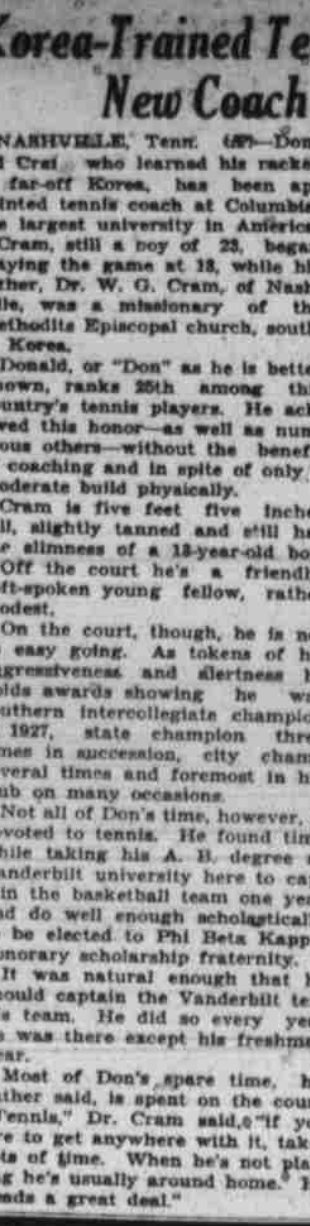

Qualification cards can be obtained from the groundskeeper. They should be turned back to him after the eighteen holes are finished. This will be played off.

**WILLED HIS DOG \$500**  
SAN FRANCISCO (INS)—Queenie, a Boston terrier, has inherited \$500 from her master, Dr. Paul Osting who recently died here, leaving an estate estimated to be \$100,000. The will said: "I bequeath the sum of \$500 for the maintenance and care of my dog, Queenie. Let her be given every possible comfort. Would suggest that she be kept in the house at night as she is very sensitive to cold."

**NEW MEXICO OIL FIELD**  
VERA CRUZ, Mexico (INS)—A vast new oilfield has been discovered on the boundary of the states of Tabasco and Vera Cruz. The first well brought in an initial production of 180 cubic meters daily. The new field is known as "El Pinar."

reads everything he can get on tennis. That, the doctor declared, and playing with good tennis players was about the only way he had of picking up pointers.

Donald is working toward his M. A. degree at Columbia, majoring in commerce and statistics.

**The Movietest**  
A Game of Skill for Everybody!

The Greatest and Most Fascinating Newspaper Creation in Many Yers

At last, the perfect contest—evolved after years of test and experiment. The contest that every member of the family can understand—can enjoy—can master.

At last, rules you can fathom in one reading.

At last, an engrossing game that is won on native intelligence—a pastime which the college graduate has no better chance to master than one who has not been so favored.

THE MOVIESTEST is also a matter of skill in the use you make of your memory.

Can you remember the titles of movies you have seen advertised in newspapers and magazines or on billboards?

If you have a good memory, THE MOVIESTEST IS MADE FOR YOU. At last, a contest where genius is not necessary.

## Sterling

(CONTINUED FROM PAGE 1)

financing was evolved when road building by the state was an adventure and an experiment. We have all concluded that a complete system of paved highways must be perfected; it means the difference between a poor, undeveloped state and a prosperous empire. Yet we still have the makeshift system of financing.

"With the tremendous amount of highway mileage that Texas has to improve, it cannot be completed rapidly enough at the present rate of financing to meet state progress. My intimate contact with the problem as chairman of the highway commission brought this fact home with inescapable force. If the great majority of the people of Texas do not now realize it, they will sooner or later, and the later the realization, the more dearly they will pay for it in delayed progress.

"You people served by the new Trinity river bridge are indeed more fortunate than many other sections that must wait years before they can enjoy similar advantages under the 'pay as you go' plan of financing.

ply and demand, faulty ignition, subnormal thyroid excretion, too many red charts, too many black charts—these are a few of the causes.

"There has been a decrease in inflation and an increase in deflation. The fall in silver reduced purchasing power, especially in the far east, where lozenges are legal tender.

"Among remedies I would mention abolition of greeting cards, auto buses and gin, and orange juice highballs. Money is going to be less scarce. I'm talking about the money you and I use, not the 'cheap' money the banks can get—the kind we've heard about. I always had to pay five dollars for a \$4 bill. To me five dollars is five dollars, \$100 is a godsend. I'm working on a plan whereby we'll start over. I'm going to get \$10,000 in the bank and straighten out my own affairs. Then, I believe, world affairs will take care of themselves.

Rev. Owen said Hilo's last sentence carried a good deal of weight. He recalled the recent statement of Roger W. Babson, the noted economist, that a moral collapse, rather than the stock market, overproduction of raw materials and manufactured products, and cornering of silver, had caused existing economic conditions.

"We have gone far in inventing things. But we have forgotten human relationships. Every nation has stood or fallen not on its bank accounts but on character of its people. Men who earned millions during the era of prosperity should take care now that the laborers who helped them earn their riches

are cared for. Otherwise, they may kill the goose that laid the golden egg. Present conditions form a challenge to the manhood of the world."

## Sterling Laughs With Newspaper Reporters

AUSTIN, June 18 (AP)—Gov. Ross Sterling enjoys a laugh as well as anyone and his frequent interviews with capital newspapermen are spiced with witty remarks. On one occasion, a secretary interrupted a press conference to ask the governor to approve the expense of sending to New Mexico for an escaped convict. The man had a 25-year term to serve and the cost of getting him would be \$25, the governor was informed.

"That's a good deal for the state," Governor Sterling remarked, as he authorized the trip to New Mexico. "We ought to be able to get 50 worth of work out of him in 25 years."

This reminded the governor of a man he had been inspecting some of the prison farms near Houston. A convict trustee drove him back to Houston. Governor Sterling went on to continue to his bayshore home, but he qualified his request because the trip to the bay would cause the convict to be so late getting back to the prison farm.

"Oh, that's all right," Governor Sterling was quoted as replying. "I have seven years to get back to that farm."

The man has since been given a parole.

## HURT IN FALL

ST. CLAIREVILLE, Ohio, June 15 (AP)—Eight men were injured in a fight between mine guards and pickets of the National Miners Union at the Florine mine of the Youngblood and Ohio Coal Company.

Deputy sheriffs used tear gas bombs when three hundred pickets tried to march to the mine.

## VANDERBILT MUM

RENO, Nevada, June 18 (AP)—Cornelius Vanderbilt Jr. had nothing to say on the rumored rift with his wife over attention paid her by Peter Arno, noted cartoonist, here for divorce.

It was reported Vanderbilt went gunning for Arno, but changed his mind.

Chief of Police J. M. Kirley said Arno came to him Tuesday asking for protection from Vanderbilt.

The Vanderbilts married here in 1927 after each had obtained a divorce.

## 77 VICTIMS BURIED

NATES, France, June 18 (AP)—Seventy-seven victims of the St. Philbert sinking were buried today.

## MRS. HAMMOND DIES

WASHINGTON, June 18 (AP)—Mrs. John Hays Hammond, wife of the noted engineer, died today after a long illness. Her husband and four children were at her bedside. Mrs. Hammond was a close friend of Queen Victoria of England and had traveled with her famous engineer husband over the world.

## Speed Race Winner

Associated Press Photo  
Louis Schneider of Indianapolis won the annual Memorial day 500-mile auto race at the Indianapolis speedway, averaging 55 miles an hour.

## STORE TAX TO SCHOOLS

INDIANAPOLIS, Ind. (AP)—Through operations of Indiana's new chain store tax law, recently declared constitutional by the United States supreme court, Hoosier state officials hope to garner approximately \$500,000 a year and to collect \$1,000,000 in back taxes. Under this law, stores are taxed from \$3 to \$25 each, depending upon how many establishments are maintained by the same ownership. Most of the proceeds of the tax will go to the state school aid fund.

## PLAY POSTPONED

The play announced for Friday evening by the Royal Neighbors of America, has been indefinitely postponed, according to a Thursday announcement.

## GERMAN SMOKERS PAY A TREMENDOUS TAX BILL

BERLIN (INS)—German smokers pay about one half of the republican annuity for the government collects approximately one billion marks in tobacco taxes and duties.

According to statistics available for 1929, Germany puffed thirty-three billion cigarettes, seven billion cigars, 72 million pounds of pipe tobacco and used up four and a half million pounds of snuff. Altogether one quarter million workers are employed in the tobacco industry, which means that about two and a half million Germans including the retail dealers, make a living through smoking.

Relatively speaking Germany still smokes more cigars than the United States. The consumption of cigarettes was tripled within the last 25 years, while it was increased seven-fold in America.

The growing consumption of tobacco has little or no effect on employment figures, because the tobacco industry has become mechanized with growing rapidly.

## SOLDIERS' MASCOT

SAN ANTONIO, June 18 (AP)—Alamo Belle, a combination Spanish jack mule and Shetland pony, was presented to the Second division at Fort Sam Houston by William E. Krenplau, secretary of the Pioneer Freighters' Association on behalf of that organization.

The animal, bred on the ranch of Judge James Luby, president of the Pioneer Freighters, is 3 years old and is only 28 inches high—no larger than a new-born colt. Johnny Schaffer, grandson of Judge Luby accompanied the mule to San Antonio to attend the presentation ceremonies.

Colonel W. E. Walsh, chief of staff, accepted the odd mascot for Second division headquarters.

## SOLONS SHAVE

AUSTIN, June 18 (AP)—The decline of mustaches is depicted in the pictures hanging in the hall of the House of Representatives.

Fifty-six men with hirsute adornments are included in the pictures of the 1905 house of representatives. By 1911, the number had dwindled to 26, in 1921 it was 22 and this year all except 11 were clean-shaven. The membership of the house is 150.

## Designations Made By U.S. Roads Bureau

AUSTIN, June 18 (INS)—The state highway department today had received notification from the American Association of State Highway Officials of new designations of United States highways in Texas, according to Gibb Gilchrist, state highway engineer.

The association's executive committee extended U. S. Highway No. 377 from Fort Worth to Stephenville.

The highway between Dallas and Jacksonville was designated a U. S. route. Highway 62 was extended from Carlisle, New Mexico, to El Paso.

The road from Metcalf Gap to Abilene, via Albany, was designated U. S. Highway 59, and approval was given to a route from Al

buhy through Apartment and Brownfield to Rowell, New Mexico, and Socorro. A route from Brownwood to Norton, Kansas, also was approved.

## MEXICAN KNOCKED OFF TRESTLE BY TRAIN; DIES

DALLAS, June 18 (AP)—An unidentified Mexican was killed when a train knocked him off a Trinity river trestle near here today. An unidentified white man was found critically injured in the switch yard.

## CHANGE OF AFFECTION

PITTSBURGH (INS)—Once as proof of deep affection, Harrison B. McCready telephoned his wife from Barcelona, Spain, the cost of the call being \$225. Now, Mrs. McCready, charging cruelty, is suing her husband for divorce.

## in deciding on Electric Refrigeration

Make a small first payment. Get your refrigerator right away... then pay balance of purchase price on easy terms while you enjoy this new convenience.

MILLIONS of Electric Refrigerators in actual use have proved their high efficiency. Friends of yours own one. Ask them what it saves, how convenient it is, how delightfully clean, and how easy to keep clean. Also how simple it is to maintain temperature (electrically controlled) at 50 degrees or lower. Learn about ice cubes and new frozen salads and deserts that, perhaps, you've never enjoyed before.

These are the things that count in Electric Refrigeration—the things that are practical and that give you lifelong satisfaction. But let your friends speak for this method of refrigeration. Decide for yourself on what they say. Then ask a dealer to tell you about the small first payment and easy terms that will bring one of these beautiful new refrigerators—the type and size you like—into your home at once on a plan that anyone can afford. Do it today. Don't miss another week of this food-saving and convenience.

All kept fresh and wholesome—Milk, cream, butter, vegetables, meats, eggs, fruits and other perishable foods stay fresh for days in an Electric Refrigerator. Also makes ice cubes and new frozen salads and deserts.

## "I know my Baby's Food is Free from Harmful Bacteria"

Most mothers know that fresh, pure milk is one of the essentials in preventing the illness of babies during summer months. They are aware that on many occasions, illness at this time of the year can be traced directly to their food. The first precaution they take is to buy milk that is fresh and pure; and the second precaution is to see that the milk is kept wholesome after it is in the home.

Proper refrigeration is the only means of keeping baby's milk free from harmful bacteria, and the modern mother knows that her electric refrigerator with its automatically controlled temperature—always below 50 degrees—will keep baby's milk and other foods for the family at safe temperatures.

Drop by our office and see the new models of electric refrigerators, a size for every family. Refrigerators may be purchased for a small cash payment and convenient monthly payments.
