Local Family Hosts Exchange Student Who Will Graduate From Coleman High School

When the Coleman High School graduates walk across the stage to receive their diplomas, among them will be Mishca Zeller, a foreign exchange student from Germany, who has been making his home this school year with Jean and Ray Findley of Santa Anna. Another of the graduates will be his "host sister" Kasha Cupps. The Findleys were living in Coleman at the beginning of the school year but have since moved to Santa Anna. Mrs. Findley will be remembered here as the daughter of the Robert Robinetts.

Mischa, who speaks fluent English, has been an active student at Coleman High School. He kicked field goals for the CHS football team, earning a letter jacket which he is very proud of. He was also a member of a tennis doubles team that advanced to the regional tournament. At the time of our interview he was looking forward to completing his drivers education course while here since it is a lot less expensive than in Germany where its costs the equivalent of \$2000 in American money. Among

While talking with Mischa it was easy to see that he has a keen sense of humor, as do his parents who were enjoying their visit with their son's host family. They indicated that they were pleased their son had

the opportunity to come to Texas as they had heard so many good things about the state and the hospitality of the people here. And they said, in limited English, they "felt very good about the family he was staying with."

The Zellers had earlier sent the Findleys a traditional tapestry as a gift and when arriving for their visit on Easter weekend brought their hosts a lovely Easter centerpiece Receives and pictures of Mischa at the age of six. The group attended church on Easter Sunday at First Baptist Church. The older Zellers did not understand all that was said, but indicated they enjoyed the services very much.

Texas Lottery Game To Create 'Millionaire A Week'

"Once the first Texas Lottery tickets go on sale Friday, May 29—seven weeks ahead of schedule— Texas will have a new millionaire every week for 12 consecutive weeks," State Comptroller John Sharp says.

"Those 12 winners will get their million dollars in cold cash, not in a long-term payout like some other states. That's something no other lottery has been able to offer in its first game," Sharp said.

"With an independent auditor on hand to ensure absolute fairness, the Texas Lottery's first instant Grand Prize millionaire will be picked on June 18 in Dallas", Lottery Director Nora Linares said.

Seven contestants will vie for the \$1 million cash Grand Prize in the first of 12 drawings that will create an instant Texas millionaire every Thursday through September 3. The rink at Americas Ice Garden in the newly renovated Plaza of the Americas in Dallas will provide the backdrop for the biggest giveaway in Texas history," Linares said. Subsequent weekly Grand Prize drawings will take place at Lubbock on June 25; Corpus Christi, July 2;

Lottery Tickets Go On Sale Friday; Locally At H&H And Allsup's

The seven finalists' path to the skating rink begins with their purchase of one of 500,000 entry tickets in "Lone Star Millions," the Lottery's first game. Those ticket go on sale at 6 a.m., Friday, May

Locally players will be able to purchase their lottery tickets at Allsup's and H & H Food Mart.

In the first game, Lone Star Million, you can win \$2, \$5, \$10, \$20, \$50, \$100, \$1,000 or \$10,000 instantly or the chance to enter the weekly drawing for \$1 million.

"Texans will find this first game Fort Worth, July 9; El Paso, July esasy to play, said Linares. If Victoria, August 20; Laredo, three dollar amounts match, then August 27; Houston, September 3. you win that amount of money.

For example, if you uncover three \$5 symbols, then you win \$5.

If you uncover three ENTRY symbols, vour ticket qualifies as an

entry in the weekly million dollar drawing. Fill out the information on the back of the qualifying ticket and mail it to GRAND DRAWING, P.O. BOX 149777, AUSTIN, TX 78714-9777.

Prizes of less than \$1,000 can be redeemed instantly by the retailer. Prizes of \$1,000 and \$10,000 must be claimed at any one of the 24 Lottery claim centers across the state, or by mail using a form provided by the retailer.

Before turning in your winning ticket, you are advised by Lottery officials to make a complete copy of your ticket, front and back. Be sure to keep your copy.

You must be 18 years of age or older to play. All winnings are subiect federal income tax. Winners receiving more than \$600 will receive a W2G form from the Texas Lottery. Winners receiving \$5,000 or more will have 20 percent of their winnings withheld for taxes.

how much tax is to be paid. Concerning all classes of land (rural), the land will be assessed on ag use value for land that qualifies for this category, and about 95 percent of land in Coleman County does qualify.

No exemptions will apply in this election. Normal homesteads and over 65 exemptions will not apply. The only way these exemptions could apply is for another election to be called later.

There has been some concern be increased in years to come. Under state law the rate could not be increased without another election. However, the rate could be decreased.

Hearings have not been held yet to determine and certify the total tax roll, but it appears at this point the figure will be \$199,703,191.00. The 24 cent tax rate on that value would bring in \$479,287.00. Of that amount the 20 cents for hospital would total \$399,406.00 and the four cents to support ambulance service would provide \$79,881.00.

The Storms of Life

"and, behold, there arose a great tempest in the sea, insomuch that the ship was covered with the waives: but he was asleep." Matthew 8:24

Storms may arise even when we are in the plain line of duty. We should not be discouraged by the difficulty or trouble that comes, and conclude that we are in the wrong path. Christ's presence with his disciples does not keep the storms away. There are no promises in the Bible that Christian people shall not meet trials. Religion builds no high walls about us to break the force of the winds. Troubles come to the Christian just as surely as to the worldly man. There are the storms of temptation, these sweep down with sudden and terrific power from the cold mountains of this world. Then there are the storms of sickness, of disappointment and adversity, of sorrow, that make the waves and billows to roll over the

On the Sea of Galilee travelers say that a boat will be gliding along smoothly over a glassy surface, unbroken by a ripple, when suddenly, without a moment's warning, a tempest will sweep down, and almost instantly the boat will be tossed in the angry waves. Thus many of life's storms come. Temptations come when we are not looking for them. So disasters come. We are at peace in a happy home. At an hour when we think not, without warning, the darling child we love so much has died in our arms. The friend we trusted, and who we thought could never fail us, proves false. The hopes cherished for years withers in our hands in a night, like flowers when the frost comes. The storms of life are nearly all sudden surprises. They do not hang out danger signals days before to warn us. The only way to be ready for them is to be always ready.

May God Bless You.

The animal worshipers are threatening to land another blow in their fight against animal agriculture. The Sierra Club has filed suit in federal district court here to block predator control activities in areas that supply habital for "endangered" species. Concerned live took industry spokesmen say that label could be applied to virtually the entire American West.

The American Sheep Industry Assn. says the suit, filed officially by Sierra Club's Legal Defense Fund, charges that animal damage control activities kill "more than just predators, including endangered species such as bald eagles."

The group thus contends that ADC operations violate the Endangered Species Act, and it demands a halt to the program.

Most such suits stand a strong chance of success because groups like the Sierra Club have more than enough experience in "shopping" for judges to know within reason which ones can be expected to share their highly politicized point of

We received almost two inches of rain on Monday and lots of high wind accompanied the electrical storm that blew in Monday morning. We have been unable to find out if there was any serious wind damage in the area, however I can account for at least one lightening fatality. that of my T.V. set

Lucky for us, tornado season has just about passed with none in this area, at least none to my knowledge. But we are all aware of the destructive path one can leave. A twister can also perform some mysterious things, and we have run across some of these unusual occurrences.

In Kansas, a tornado passed close to a farmhouse and slid the bedclothes and mattress from under one of the farmhands. leaving him safe and sound, still asleep in his bed.

An Iowa twister popped a full grown rooster into a narrownecked two gallon jug. The rooster was stunned, but alive and well without a feather ruffled.

In 1955, a nine-year-old was riding her pony in South Dakota. A tornado suddenly sucked the girl and pony into the sky, carried them for a mile and set them down unharmed. The girl was still on the horse, sitting square in the middle.

Another account tells us that a tornado once sheared the wool off an entire herd of sheep, leaving the animals grazing in the pasture.

Record Wheat Crop Expected

By Kerry Shropshire, CEA-AG

Although the rain has put a temporary damper on the harvesting, time is drawing near for wheat producers in Coleman and surrounding counties to start reaping the benefits of this year's wheat crop. This years growing season has been different from those in the past from several different production points.

One of which is the amount of rain we received during the growing season. The wheat crop this year was not hurt from lack of rain like we've seen in many years and although this was good the amount of rain did cause problems that we normally don't see.

Some of these problems related to waterlogged soils all the way to having to a big problem with diseases. All of these can reduce the amount of yield farmers receive. Another problem he experiences with the heavy rains was leaching of soil nutrients which the small grains need to produce a healthy yield. So you can see that it's not just a simple matter of needing rain that influences yield production. One of the bright spots in this years harvest will be the prices passed on to the farmer. Although they are not what we hoped for, the price is better than in years past. According to the Texas Agriculture Statistical Service? the price for wheat in April was quoted at "3.63" per bushel. So as you can see there are pluses and minuses to any farm-

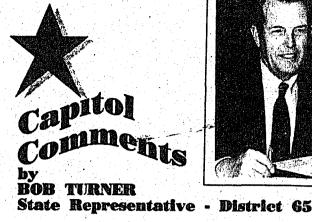

ing or agricultural venture. Now, let's look at production and acreage in Coleman County. Much Hensley and Shyler Robinett. of our wheat acreage is planted evyear solely for the purpose of winter livestock grazing. This acreage will probably increase this year due to some of the diseases and other problems mentioned earlier. Another problem with the amount of harvested acres is that we planted less acres also due to rain producers simply couldn't get it planted. With this I estimate that out of our estimated 41,000 acres plant 65 percent or 26,000 acres will be harvested and sold. From these acres, the overall average yield will be 20-25 bushels/acre. We can see this generates an estimated 2.3-1.8 million dollars which will be paid to producers of wheat grown in Coleman County. As stated, this is higher than the past years due mainly to the increase in wheat

Lovelady-Smith Reunion To Be Held June 7

The Lovelady-Smith Reunion will be held June 7 at the Rockwood Community Center. All family members and friends

are invited to attend.

Dear Fellow Texans and residents of the 65th Legislature District:

make my position public concern- diversity of background, the freeing the announced intent of the Ku Klux Klan to rally in Brownwood the evening of June 26th. We all realize that every American citizen has the right to public assembly, and in view of this freedom, this organization must be permitted to gather and express their views without fear of interference from others. I personally vehemently oppose the viewpoint held by this or any "supremacy" group, for I fell we should all work together to solve the almost unsurmountable problems, including that of race, that we face in this country at the present time. Any organization that has been founded simply to promote hate, where cooperation should and must exist is no organization I could ever, ever, condone. However, I urge all persons of reason and understanding to refrain from any Act that could in an y way create a disturbance or confrontation. If all concerned exercise wisdom and restraint, I am sure that all trouble can be avoided. At this point, I want to broaden my statement beyond the issue of this rally or any single event.

It is my honest and humble belief that the greatness of Texas and of Let me take this opportunity to the United States of America is our
