Santa Anna CITY POUND

The above picture is the Santa Anna Dog Pound. Though not the best, the small structure is on a concrete slab with three separate stalls, open front and running water. It was brought up at the previous City Council meeting that Mayor Hartman had received a letter from the Humane Society regarding the condition of our pound, the manner in which the animals are kept and the manner in which

they are destroyed. It was noted by Chief of Police Russ Ellis at the meeting that the letter was instigated by a citizen of Santa Anna. Some of the complaints in the letter were justified, regarding improving the structure of the pound. Materials to improve the shelter have been purchased and work should begin this week. A second phase of the complaint was overcrowding. It should be noted that when the present structure is improved, there are

future plans to build a second set of kennels to isolate sick or dangerous animals.

Volunteer donations of time and or material would be appreciated in order to complete this project in a more timely manner.

Santa Anna has a 'Dog at Large Ordinance'. This means that your dog must be chained or penned at all times, must have a city tag and rabies shots. If a dog is picked up and not claimed in three days, he will be destroyed. If the dog has a dog, though not required, the procedure at this time is to check out the dog's tag with the vet's office and see if an owner can be traced. If these records are kept the owner can be traced and notified. This is a courtesy and not a requirement of the Pound.

Animals kept in the shelter are fed once a day. Mr. Joe Salazar is Santa Anna's 'Dog Catcher'. If you love your dog, fence him in and keep his shot records current.

SANTA ANNA'S NEW POLICE OFFICER

Our new police officer began his duties October 1. Bill Allen, who moved here from San Angelo where he was doing woodwork on his own, said that he was drawn to Santa Anna because it reminded him of home. The home he spoke of is Christoval, where he was born and raised.

After high school graduation in Christoval, Mr. Allen proceeded to Texas Tech and Lubbock Christian College. From there he was a Deputy of Public Safety patrolman for approximately 5 years in the Wichita Falls area. Then back to Lubbock with the Sheriff's Department for a year and a half. Other experience

includes seven and a half years with the Texas Alcoholic Beverage Commission.

Though Mr. Allen appears to be a very private person and would like to remain that way, we managed to find out that he is divorced and has two grown daughters. His hobbies include fishing and woodwork.

Ex-Student of the Year Named for Homecoming

Carmilla Flores Baugh, a graduate of the Class of 1934, will be honored as Ex-Student of the Year at the 1984 Santa Anna Homecoming next week. The Santa Anna native is a life-long resident and has been a part of the community as a civic and church leader. She and her husband, Dick Baugh, are parents of three daughters, all graduates of Santa Anna High School.

Mrs. Baugh will be introduced at the Friday night football game and presented at the Saturday, October 20, meeting and program.

The Homecoming events will get underway with a parade on Friday, October 19, and continue through the Homecoming dance on Saturday night. Classes from years ending in the numeral 4 will be honored.

High School Homecoming Queen will be crowned during halftime

ceremonies at the Friday night football game. They are Leshia Eubank, senior; Toni Yancy, junior; Marsha Brown, sophomore; and Rosa Castillo, freshman.

Also to be honored during the weekend is Karen Jones Glidewell of Lewisville, the 1984 Coming Home Queen. Mrs. Glidewell is a graduate of the Class of 1964.

The executive board of the Santa Anna Ex-Student Association will meet Friday, October 12, to complete plans for the weekend. Terry McIver is president of the group this year. Other officers and directors are serving as committee chairmen for the weekend events.

In addition to the Ex-Student activities, reunions are planned by a number of classes during the weekend. All former students and teachers are encouraged to attend the events and enjoy the festivities.

Class of 1974

The Class of 1974 will have their 10 year reunion on Saturday, October 20, 1984. A barbeque dinner will be held that evening but folks will gather about 2:00 p.m. to visit. The dinner will be at M. L. Guthrie Jr.'s at the end of Crockett Street.

Class of 1926

Homecoming for the Classmates of 1926 is set for October 19 and 20th. Friday, October 19, at approximately 5 p.m. there will be a spaghetti supper at the home of Mae Blue, 308 North 5th Street. Don't forget on Saturday, October 20th, there will be coffee, a business meeting and lunch.

Santa Anna City Council

The Santa Anna City Council met in regular session on Thursday, October 4, 1984. The pattern of large attendance was reduced to 19 citizens apparently because of rain.

It was read in the minutes (which were approved as read) that a special session was held on September 24 at 4:30 in order to issue a permit to Jack Hardin for drilling purposes.

Lone Star Gas Company representative, Joyce Wilkerson, came before the council to appeal their previous denial of a rate increase. He explained that the company would settle for 75 percent of the original requested increase rather than going to the Railroad Commission because surcharges would be added to the customer's bill (in addition to whatever increase the commission added) to cover lawyers fees and travel expenses.

The council denied Lone Star again. Mr. Wilkerson explained that the company would now rework their increase request and present it

one more time. It refused a third time, the company would go to the Railroad Commission.

The council voted to give Bill Allen, the new police officer in Santa Anna, a \$30 a month uniform expense in addition to his salary.

A request was made by the city office workers to delay the delinquent water notices until the 15th instead of the 10th, as many citizens are paid on the 15th and always pay their bill on that day. The council approved this request.

The use of the Nutrition Center room at the Armory was brought up by Mrs. Donham. At the previous meeting Mrs. Donham, who presided as mayor pro-tem in the absence of Mayor Hartman, allowed the council to vote upon another group using that room for a Bingo game during the Back-To-School Carnival.

It was later brought to her attention that Mayor Hartman had signed a letter giving the Nutrition Group exclusive rights. Mayor Hartman agreed that there had been a signed letter but that he did not think it implied exclusive rights. A copy of the

letter is being obtained.

The council excused themselves into executive session, after which the accounts payable were approved to be paid and the meeting was adjourned.

On Monday, October 8 at 4:30, the council presented the 1984-85 budget at a public hearing. A copy of this budget may be viewed at City Hall, or you may obtain a copy for 10 cents a copy.

Many questions were asked during the hearing. The most important of these was if the budget was prepared to accommodate the tax increase or if the tax increase was made to accommodate the budget. It was further asked if the citizens were expected to pay the 3 percent tax increase even though by law the budget should have been prepared first.

The meeting which lasted an hour and a half, and had a citizen attendance of approximately 40, was ended abruptly by the mayor who adjourned the meeting.

TRAVEL, TRAVEL, TRAVEL...

Bruce-Benge

Mrs. C. D. Bruce was in Paintrock on Saturday for the annual convention of the Edwards Plateau Historical Association, and was re-appointed chairman of the Publications committee for the upcoming history book. A past president of the Edwards Plateau group, Mrs. Bruce also participated in the business session which followed the noon lunch. Due to a heavy rain, the tour to the famous Painted Rock Cliff and the Barrow Museum had to be canceled. The Indian pictographs on a cliff of the Concho River are said to be the most spectacular in the United States, and the Barrow Museum is a group of four huge buildings containing extensive pioneer relics.

Mrs. Charles Benge accompanied Mrs. Bruce to the Paint Rock meeting, and won first prize in the door-prize drawing, a hand-woven wool rug made in a craft shop there. She was welcomed as a Concho County native, daughter of the first doctor in Paint Rock, and wife of a well-known pioneer family in the county.

Bible's

Mary Ellen and Wilburn Bible just returned from a lengthy four week vacation. They first visited Shelby, Mississippi, where Mr. Bible was stationed in 1943 in the Army Corp. of Engineers. He was part of the team that built the lake there. While there they saw many friends they hadn't seen since 1943.

After visiting a few places in Florida, they went to Ozark, Alabama where they visited Mr. Bible's sister. From there to Plains, Georgia, the home of former president, Jimmy Carter.

Before leaving Alabama, they visited in Montgomery where Governor George Wallace lives.

In Louisiana they visited a nephew of Mr. Bible's. While visiting they watched the LSU and AZ game, then drove to New Orleans and saw the Saints and the St. Louis Cardinals game.

On the way home they visited in Lockhart and Odessa, Texas, with relatives.

It was a beautiful trip.

Eubank's

Mr. and Mrs. Max Eubank were in Chicago last week attending the HIDA (Health Industry Distributors Association) Convention and Equipment Exhibits.

Mr. Eubank is associated with ConvaQuip Industries Incorporated, a manufacturer of medical durable equipment consisting of a full line of convalescent equipment featuring the only weight certified equipment manufactured for the obese patient.

Mr. Eubank stated that negotiations are underway to export this equipment to foreign countries, in addition to the regular dealers in the United States.

Brown-Walters

Mrs. Claudine Brown and Mrs. Era Walters have just returned from a 15-day tour through 19 states and Canada, traveling just under 5,000 miles. The fall foliage in New England was gorgeous. They enjoyed seeing the arch in St. Louis, Niagara Falls, a boat trip on the St. Lawrence River and sight-seeing in Boston and New York City. They enjoyed seeing Luther and Janet May in Littleton, New Hampshire and Bill and Selma (Radle) Russell in Grantsville, Maryland. Fred Oakes drove them home from Dallas and spent the weekend with his sisters, Era Walters and Veva McClellan.

I am writing these words in a remodeled study. The paint is dry, the carpet is down and the books are back in their shelves.

I would like to dedicate this article to two special people who helped tremendously in the remodeling. Mr. and Mrs. Preston Purifoy have to be two of God's prized possessions, so to you Mr. Purifoy, thanks so much for all you did, and to you Mrs. Purifoy for letting Preston spend so much time this past week at the study.

This week was the celebration of Columbus Day. You know Columbus has come under some hard times in the last few years. Some say he never reached America but discovered the West Indies. Some say the year 1492 was not the right year even if he discovered America.

There are a few discoveries in our lives that make life and living exciting and livable.

The joy of discovering the mean-

ing of life is one. My family thinks I am a little strange sometimes. One of my hobbies is people watching, I enjoy going to a shopping mall, just sitting on a bench and watching people. As people come and go I can see fear in their eyes, a furrowed brow of worry, a walk that speaks of unsteadiness. I sometimes want to reach out to them and say, I know you are hurting, I know you must be worried.

I ask myself, what makes John Doe do the things he does? What brings meaning to his life?

As we discover the meaning of life then we can instill meaningful living into an existence.

One way we find meaning in life is to discover God, another way is to love our families and still another is to enjoy our work.

Another joy of discovery is the discovering of our need for no man is another. It has been said, no man is

an island. How true this is. None of us lives to ourselves. We affect those around us either positively or negatively in every interaction we have.

We need relationships. 'Americans move around more than most people. In an average year 40 million Americans will move. Put it another way every ten years, between 40 and 60 percent of an average American town's population leaves.' This quote is from Robert Kenigel in Human Behavior, 1979. We need relations that will last. Some of our best friends are hundreds of miles from us, but the relationships made in college and graduate school skim the miles.

We need relations that have meaning. As we interact in talk or action we need to be real. The sin of pretending in relationships is so real in our society today.

The joy of being used is another great discovery. Being used is not being stepped on, but being a stepping stone to help someone. A popular song by the Statler Brothers has a line in it 'if I could help somebody everyday'. That needs to be an American motto, 'Help Somebody Everyday'.

Charles Dickens once said, 'No one is useless in this world who lightens the burdens of another'.

Think about it: Write your name in kindness, love and mercy in the hearts of thousands you come in contact with year after year and you will never be forgotten. Thomas Chalmers.

The most efficient, the most economical heating and cooling system for your home.

THE Electric heat pump.
It's part of "the plan" — the Energy Saving Plan
Here's how it works:

For Winter Heating

1. Heat is absorbed by refrigerant in the outside coils.
2. The compressor pressurizes the refrigerant and sends it to the inside coils.
3. The heat from the inside coil is circulated through the house by the fan.
4. The refrigerant flows outside and the cycle is repeated.

THE ELECTRIC HEAT PUMP: It can save you money on your home energy bills. And when it's used along with other WTU-recommended energy conservation measures according to the ENERGY SAVING PLAN, you can save even more. WTU will pay YOU money when you install an electric heat pump to meet the E.S.P. requirements that add to your home's comfort and energy efficiency. That's where the ELECTRIC HEAT PUMP comes in — it's part of "the plan" because it's the most efficient system for heating and cooling. During the winter it removes heat from the outside air and pumps it into your home. In the summer it reverses the process and becomes an air conditioner, so you get even comfort year-round. CALL YOUR LOCAL WTU OFFICE OR A FACTORY-TRAINED ELECTRIC HEAT PUMP DEALER TODAY TO FIND OUT MORE ABOUT SAVING ENERGY AND MONEY ON YOUR HOME ELECTRIC BILLS.

American Heart Association in Texas

It seems like yesterday that you watched her wobble down the sidewalk on her first bicycle. Now she's 12. She smokes every day. But she's lucky. Someone in your community is working hard to see that she isn't hooked at 20. Or dead at 50.

Each year, cigarette smoking contributes to the deaths of over 300,000 Americans. And heart disease, the nation's #1 killer, is the culprit two-thirds of the time.

At the American Heart Association, we know that in order to keep children from reaching for that first cigarette, we've got to reach them early.

And with your help, we're able to do it. Through programs that give your children, your friends and your neighbors a fighting chance against heart disease.

Here in Whon we had hail Saturday night. It wasn't damaging to building but quite a few mesquite leaves on the ground. Mrs. Floyd Morris reported her young garden was greatly damaged.
