Clean-Up Week March 29 to April 5

Austin, Texas, March 17.—The State Department of Health will sponsor a Clean Up Week, Mar. 29 to April 5, according to Dr. John W. Brown, State Health Officer. He urges that every citizen in the State cooperate in this campaign to improve the appearance of the property, and promote the general welfare of the citizens.

This is Centennial Year and thousands of persons will visit Texas and Texas will be on parade for the approval of these visitors. If all property owners maintain their buildings, and replace all weeds and rubbish with flowers and shrubs, a more favorable impression will be made on our visitors. Every effort should be made to have the best sanitation possible under local conditions.

The Centennial visitors will be in all parts of the State. City officials can help in this sanitation program by having a pure milk and water supply and by applying all known methods of preventing the spread of communicable diseases.

During this week special campaigns will be held to prevent fires, and to promote health among the Mexicans, and among the Negroes. All should join together and make Texas the healthiest and most beautiful, and the cleanest State in the Union.

FORMER PASTOR DISCOVERS NEW STOCK REMEDIES

Rev. W. B. Holland, a former pastor of the Baptist church in Santa Anna, now living in Balinger, Texas, called at this office Monday and placed an advertisement in this paper, advertising a newly discovered screw worm killer and preventive. The new product is called HOLLAND'S GETS 'EM and is, according to Rev. Mr. Holland's statement, a very effective remedy for all it is recommended to do. This writer read some of the testimonies from Runnels county stockmen who have used HOLLAND'S GETS 'EM and they were loud in their praise of the remedy. It also has the unqualified endorsement of the Veterinary surgeons, druggists and others in authority.

MISS BARNES ENTERTAINED BY HOUSTON FRIENDS

Miss Beth Barnes, daughter of Mr. and Mrs. Ford Barnes, and a freshman in Baylor University at Waco, was the guest of Miss Dorothy Bond of Houston during the Baylor University mid-term holidays, where she was honored with a number of social courtesies.

Her hosts entertained Thursday evening with a theatre and slumber party. Friday evening Mrs. W. B. Vaughn entertained a number of guests with a buffet supper, honoring Beth and Miss Bond. Miss Margaret Strozler, daughter of Dr. and Mrs. W. M. Strozler, formerly citizens of Santa Anna, honored Beth with a mid-night matinee party, followed by a supper at the Tootle House, after which Miss Ethel Jewel Kennerly further extended the courtesy with a slumber party at her home.

Steep Pastures

A National Missions Motion Picture portraying your Presbyterian Church at Work in The Southern Mountain Field. This picture will be shown next Tuesday night, March 24, at 7:30 at the Presbyterian Church. No admittance will be charged but a free will offering will be taken. The public is cordially invited to attend.

What You Will See

A sweep of the Southern Appalachian mountains. Pastures clinging to the hillsides. Cabins tucked up in the coves. Hand culture in the mountains, the making of pewter spoons, the dipping of candles. A mountain boy at home. The family saying goodby as he leaves for Farm School. Life begins at Farm School. Shops and laboratories, landscape artists and musicians in action. Boys earning tuition by doing work of the school, baking bread, repairing lines, painting buildings, taking care of the laundry. Boys learning by actual work on projects, constructing a building for the school, going out in a truck for special team programs. Graduation. Back to the mountains.

Mason Man Dies In Road Accident

W. F. Wooten, 49, rancher of Mason, was killed Saturday morning on highway 16 five miles south of Santa Anna when his truck, being towed by another, broke loose from the connection and plunged into a borrow pit.

Returning to Mason from Fort Worth, Wooten was stopped on the highway with his stalled truck when Gariand Hillard and Foster Jowers of Lohn, coming upon him, took the disabled machine in tow, with Jowers at its wheel. Wooten rode in the truck with Mr. Hillard through the night and when daylight came got in his truck with Jowers. He had been riding the truck for only three miles when the accident occurred. The two parties were en route to Lohn.

Wooten was dead when Hillard reached the Sealy Hospital with him. Jowers was slightly injured.

Mr. Wooten's body was prepared for burial by Hosh Under-takers, and carried to Mason Saturday afternoon.

ACKNOWLEDGEMENT

This is the best paper the Santa Anna News has put out so far this year, and we are very grateful for the splendid cooperation from the merchants and business houses of Santa Anna who made it possible. We are glad beyond expression to see the business people of our town again getting down to business in a more cooperative spirit. Cooperation among business people has a direct bearing upon the citizenship in the trade territory, and the bigger the circle the better the town.

Most every business in town is now patronizing the Santa Anna News, and this is as it should be. The management recently spent a considerable sum of money canvassing the territory and soliciting subscriptions, and we are proud to say that our paper now goes into more homes in the Santa Anna trade territory than ever before in its history. May it continue so to be.

CARD OF APPRECIATION

We wish to express our thanks and sincere appreciation to the doctors, nurses, friends, and neighbors who helped us watch over and care for our loved one, Mrs. Irma Wheeler, in her recent illness. She is now well on the road to recovery, and for the many words of comfort and kindness we thank all of you. Her Family.

TRY TO PREVENT TYPHOID FEVER

Austin, Texas, March 18.—"High up on every health officer's list of 'Disease Prevention Duties' at this time of the year, is the reminder, 'Typhoid Fever Immunization,' stated Dr. John W. Brown, State Health Officer. "Through the protection of public water supplies from contamination, the pasteurization of milk supplies, vaccination against the disease, improved sanitation of homes not served by protected water supplies, sanitary supervision of sources of food supplies and other protective measures, typhoid fever can be controlled.

"Here are the facts: As somebody has aptly said 'Nobody catches typhoid—he swallows it.' Typhoid is a fifth-borne disease. It causes great suffering and many deaths. That is not all. It is like an endless chain. A certain number of the people who have the disease and recover from it, become 'carriers.' They continue to pass the typhoid-producing germs in the discharge from the bowels and kidneys. If the discharges are not disinfected before they are disposed of, the germs spread into the soil and pollute it, or they may be carried into an unprotected water supply and contaminate it. A carrier may also spread typhoid when he handles or prepares food and is not careful to wash his hands.

"In vaccination against typhoid we have an effective means of protection which lasts for a certain period and then must be renewed. If you have not been protected against typhoid within the last two or three years, go to your doctor and have it done now. The disease is both preventable and curable."

W. O. W. Meeting Saturday Night

Mr. B. G. Kirk, District deputy for the Woodmen of the World, and son Leon, and Mr. Jarold of Abilene have been here for several days in the interest of the Woodmen organization, and have written several new applications.

A special meeting has been called for Saturday night of this week, March 21st, to introduce the new candidates and initiate them into the order. The Drill Team from the camp at Abilene will be here to put on the work, and we hope to have every member of Mountain Camp No. 43 present. This will likely be the most enthusiastic meeting held in the local hall for several years, and should be the starting of a new day, so to speak, in woodcraft in Santa Anna. About 25 new applications have been written to date, Thursday, and several more in prospect.

Refreshments will be served. Anyone who can, bring a cake, some pies or a dish of salad. Bring it along to supplement the other dishes.

LIONS CLUB TO ENTERTAIN CERTAIN GROUP MEETING

The local Lions Club will entertain a group of Lions Clubs from over this district Thursday night, March 26th. Clubs will be invited from Coleman, Brady, San Saba, Richland Springs, Llano, Goldsmith, Loreta and Winters.

The Club will also foster an Easter Egg hunt on Easter Sunday afternoon. A committee was appointed to locate the place for the hunt and report back soon.

MONDAY A NASTY DAY

Monday of this week was just the kind of a day we don't like. A stiff norther blew up early Monday morning and continued throughout the day. No material damage has been reported in these parts, but it was surely disagreeable to be out.

We are due several more similar days this spring, but this editor obeyed orders and had the garden planted, also planted our sorghum and sudan patch. It may have to be done over, but if it does get by that much of it will be done. You see, our strawboss was out of town, our left orders to have the garden planted. We don't know much about this garden stuff, just what to plant and where to plant it, but we planted a little of everything we could find, and then had the boys to set out another lot of onion plants. If we don't have plenty of garden sauce this year it will not be our fault, for everything we had planted was highly recommended for garden planting seeds, and the products, if any, are highly recommended for table use and human consumption.

FRITCHARD-SMITH

Wyatt Smith, son of Mr. and Mrs. J. W. Smith of this city, and Miss Juanita Fritchard, daughter of Mr. and Mrs. M. A. Fritchard, were united in marriage last Friday evening at the U. S. A. Presbyterian manse, with Pastor M. L. Womack officiating.

The happy young couple were accompanied by several friends, whose names were not furnished.

We extend our best wishes for a long and happy life together.

Notice Of Trustee Election

Notice is hereby given that an election will be held at the City Hall in Santa Anna, Coleman County, Texas, Saturday, April 4th, to elect two trustees to succeed Emmett Day and J. G. Williamson, whose time expires on the Board of Education for the Santa Anna schools.

J. S. Gilmore, John Lowe and W. E. Ragsdale are appointed judges for said election. All names to be placed on the ballot must be filed with the Secretary, Hardy Blue, on or before the first day of April, 1936.

Done by order of the Board of Trustees, Santa Anna Independent School District, March 7th, 1936. J. F. Turner, president. Hardy Blue, Secretary.

Mrs. Henry Cook returned to her home in Lorena Wednesday after a visit with her parents, Mr. and Mrs. Chap Beds.

Field Meet For Scientists Will Be At Gonzales

Gonzales, Texas, March 18.—(SP)—The Centennial celebration field meet for scientists will be held at Palmetto state park near Gonzales on March 26, 27 and 28.

Widespread interest has been shown in plans for the meet which is sponsored by the Texas Academy of Science and which will be directed by the Gonzales Palmetto Park board in cooperation with the Texas State Park board, the National Park service, and Fort Sam Houston officials.

Field trips and auditorium programs will be important features on the three day program. The first wild flower show in Texas was sponsored by the Gonzales Women's Study Club in 1926.

SPECIAL PAGE STARTS THIS WEEK

We are printing a cooperative page, starting in this issue of the News, as a tie-in to our Trades Day each second and fourth Wednesday. Space on this page was sold to 24 merchants and other business houses in Santa Anna, and we want every reader of the Santa Anna News to read the special messages printed in the advertisement, also read the names of those who made this page possible. Each of them extend to you a special invitation to visit their places of business when you need something in their line, and offer you the very best merchandise they can purchase to sell at the prices asked. We believe in Santa Anna, believe in our merchants and believe in our faithful readers. Any time an advertiser fails to carry out his promise or deliver the goods as advertised, the editor would like to know it. Be sure to read the ads in the Santa Anna News each week; and we believe you will profit by looking up the advertisers when you need merchandise.

All the world is a stage and the number of exits is constantly being increased.

Little Girl Killed In Wreck Tuesday

Funeral services were held at the cemetery at high noon for little Ethel Auden Davis, daughter of Mr. and Mrs. Ray Davis of Trickham. Little Auden was killed Tuesday morning in a car wreck near the Stewardson community when the Davis car turned over and pinned the little girl underneath. Mrs. Davis also received several painful injuries, but was not seriously hurt. Other occupants of the car were not badly injured.

Ethel Auden Davis was born August 13, 1933 near Santa Anna. Her age was 2 years, 7 months and 4 days. She is survived by her parents, Mr. and Mrs. Ray Davis and one little brother, all of Trickham, and two grand-mothers, one grandfather and one great grandfather.

Rev. R. Elmer Dunham conducted the funeral, with Hosh Funeral Directors in charge. John Haynes, J. R. Haynes, J. E. York and Jack Cole were pallbearers.

Interment was made in the Santa Anna cemetery.

INSTALLS NEW EQUIPMENT

The W. C. Ford & Company garage received a valuable piece of machinery this week they treasure very highly. It is a new type Van Norman Boring Bar, perfected to the most perfect precision of re-boring and refitting pistons in rebored blocks that has ever been on the market. See their announcement elsewhere in this issue of the Santa Anna News.

OUR FIVE-CENT PIECE

It would be hard to do business without the five-cent piece, and that little coin, most commonly known as the nickel, has an interesting bit of history behind it.

It is the second smallest coin in use in America, but it passes current at face value more often than any other coin ever minted unless it should be the dime. Of course, the value of silver dollars used in exchange exceeds the value represented by nickels, but in numbers of individual coins, the nickel leads.

Up until 1866 this coin was unknown, its place being taken by the silver half-dime. The latter was the first coin struck by the mint in Philadelphia and was first made in 1792. Its coinage was discontinued in 1873. Many will remember the small thin silver pieces, which were of equal value but not nearly so convenient as the larger nickels which succeeded them and which are so popular today.

The nickel has been made in several designs, but the weight and material has remained the same as in the original—77.16 grains, 75 per cent pure copper and 25 per cent pure nickel. The penny being made of all copper, is sometimes called a "copper," so the coin succeeding the half-dime was called a nickel. Approximately 40,000,000 nickels are coined annually and almost two billion have been turned out since they came into usage.

WEDNESDAY BRIDGE CLUB

Seven tables of guests and members were present last Wednesday afternoon when Mrs. Dr. L. O. Garrett entertained with contract bridge and forty-two.

A profusion of spring blossoms furnished a charming decoration for rooms where games were played. High score prizes were won by Mrs. Judge Woodruff in bridge, and Mrs. Andrew Schreiber in forty-two.

At the refreshment hour the hostess carried out St. Patrick's motif in brick ice cream, cake and mints and punch.

The following guests and members were present.

Mesdames C. M. Rush of Fort Worth, Tommy Starnes of Coleman, Lemm Brown, Jodie Mathews, S. W. Childers, E. D. McDonald, R. R. Lovelady, Ed Baxter, Ogden Brown, Mildred Simpson, Andrew Schreiber, H. Johnson, Judge Woodruff, and the hostess.

Allred To Present Silver Trophies

DALLAS, Texas, March 17.—Governor James V. Allred of Texas has announced that he is offering five special silver trophies as awards in the National Dairy Show which will be held at the Texas Centennial Exposition here October 10 to 18.

These silver cups will be given to the winning sweepstake herds in Ayrshire, Brown Swiss, Guernsey, Jersey and Holstein-Friesian classes. The Governor of Texas will present the trophies personally to the winning dairy herd owners.

The National Dairy Show which comes to the Southwest this year for the first time in history will be staged in a magnificent new Exposition building. More than 1,000 head of the finest dairy cattle in the world will be on exhibition during the show according to Professor W. L. Stangel of Texas Technological College who is in charge of arrangements for the show. The Texas Centennial Exposition, the first World's Fair ever staged in the Southwest, opens in Dallas June 6.

MORTUARY

Funeral services were held at four p. m. Wednesday in the Hosh Funeral Home for Robert Henderson, who passed away Tuesday.

Deceased, according to data furnished this office, was born in Stochel, Scotland, in 1853. He was educated in Edinburgh, Scotland, where he grew to manhood. He came to the United States at the age of 19. Located in Santa Anna in 1882, worked several years for the Santa Fe Railway company, later purchased a farm north of the Santa Anna Mountain, and spent the remainder of his life there. His wife, also a native of Scotland, died March 19, 1931, leaving two days of being five years prior to the death of Mr. Henderson. They had no children, and no relatives, insofar as we know, living in this country.

Rev. Elmer Dunham conducted the funeral, with Hosh Funeral Directors in charge. Pallbearers were Thurman Beaver, Hector Holmans, W. F. Stapleton and Burgess McSwain. Interment was made in the local cemetery.

Tarleton To Hold Judging Contest

Stephenville, Texas, March 3.—Plans for the twelfth annual Tarleton Future Farmer judging contest have been announced by A. J. Spangler, contest superintendent and director of the School of Agriculture, John Tarleton College.

The judging contest, to be held on the Tarleton campus beginning at 8:15 a. m. April 4, will include seven divisions, as follows: livestock, dairy cattle, poultry, soil conservation, plant production, horticulture, and a farm shop. Each Future Farmer chapter may enter three teams of three members and two alternates each.

Awards will include an official F. F. A. trophy given by the Tarleton faculty as sweepstakes prize, fourteen trophy cups, forty Tarleton banners, an official gold-filled F. F. A. watch fob to the high man in each main contest except dairy cattle, American Jersey Cattle Club methods to the three high men in dairy cattle, and F. F. A. pins, F. F. A. manuals, F. F. A. metal project markers, and certificates of merit to other high-ranking contestants in main contests and sub-contests.

Attendance at the contest usually totals about 500, but last year it reached nearly 600. Preparations are being made to care for as many as 600 contestants this year. Camping facilities are provided for those who arrive in Stephenville Friday afternoon or evening preceding the contest.

NOISE DOESN'T COUNT NOW

The person with the loudest voice or the most brazen impudence was once able to drive the best bargain. But bartering, dickering and haggling over prices have gone out of date. The time has passed when the buyer will waste valuable time trying to save a few pennies.

There is a reason for this change in business methods. The modern method of advertising has revolutionized merchandising and buyers have learned that by consulting the advertisements they can determine where to buy most advantageously.

Simply by glancing over the advertisements in this paper, you can see where to get what you want and where to go for the best buys. You can compare values and check up prices without stirring from your easy chair. You can know in advance just what you are going to get and just what it will cost. And you can have the satisfaction that comes from knowing your money is wisely spent.

In this day everyone is given an equal opportunity to buy shrewdly. But there are still a few—and they are rare—who fail to utilize the advertisements. Don't be one of them.

YOU CAN'T GET AWAY WITH IT

Fake accident racketeers are an insidious threat to every honest business and every individual. Fortunately, agencies of justice are bringing them to book and can continue to do so with your help. The following is one of a series of articles describing some of the tricks of the racketeers—showing that these tricks do not work against organized business. Watch out for them yourself.

Hattie Green, "Flopper"

Hattie Green, colored, was one of the most accomplished "floppers" that ever faked an accident and collected damages on a fraudulent claim.

Hattie, it appeared, simply couldn't maintain an upright position. Regularly, Hattie fell on banana peels, usually in department stores. If there weren't any peels around, she brought one along or tripped over something else. Of course, she usually managed to collect damages for her falls. She had a friendly doctor who certified to her "injuries"—injuries whose nature must often have amazed Hattie herself. The doctor said they were there, but she couldn't feel them.

Then, the searchlight of the Index Bureau System, maintained by the National Bureau of Casually and Surety Underwriters, swung on Hattie's falling proclivities. Her real downfall came as a result of her over-strong imagination. A "runner" who kept Hattie posted on things about town, hurried to her one day and told her that there had been an explosion in the service garage of a bus company. Hattie immediately fell into an awful state of pain and ache. She had an ambulance called, and at the hospital said she had been passing the garage when the explosion occurred. A short time later she filed a claim for damages against the bus company.

What Hattie didn't know was that she was now a marked woman and that the suspicious records of other explosions caught up with her. Hattie never collected any damages from that explosion. She went to the penitentiary instead.

QUIZZING THE LAYMAN

(By Jeff D. Ray)

Questions from the preacher to the layman:

1. Have you had a definite experience of grace in which you were led to trust Jesus Christ as an all-sufficient Savior from sin? Affirmative answer to this question does not imply an explosive emotion back yonder in the far away past when you felt bad about your sins and then felt better. Genuine religion in many cases produces a display of deep emotion. But a manifestation of deep emotion is not an essential element in true religion. Furthermore an affirmative answer to this question does not presume a thorough knowledge of all the theological implications of Christ's atonement for sin. There are many theories of the atonement. All of them have an element of truth in them. Perhaps no one of them has all the truth. Your salvation does not hinge upon the fact that you understand, accept or reject any or all of these theories about how Christ saves. Your salvation is not a matter of theology. It has to do with a person. My question to you is: Have you a vital touch with the Matchless Person whom we call Christ and, realizing your need of a Savior from sin, have you yielded yourself to Him as Lord and Master, asking Him to do for you, and in you, and by you all that He came to do for sinful men? Have you done that? If not, will you wholeheartedly do it now?

2. During the time since that experience, if you have ever had it, have you habitually recognized the presence of Jesus as a living personal friend?

3. Have you ever tried the experience of solving all of life's problems in the white light of the question, "If He were in my place what would Jesus do?"

4. Have you ever studied the Sermon on the Mount to see whether or not you could accept its principles and seriously practice its precepts?

5. Has your religion been of vital help to you in the storm of temptation, the gloom of disappointment or the anguish of a broken heart?

6. Do your religious activities give you joy or do you discharge

them reluctantly and mechanically like the quarry slave at night, scourged to his dungeons?"

7. Is there any indulgence of yours, secret or overt, that neutralizes your joy in salvation and paralyzes your freedom and power in religious activity?

8. Are you so absorbed in the matter of making a living for your children that you are not vitally concerned in their religious life? In other words, is there in your home daily formal recognition of God's lordship over you and your family? To be perfectly plain, do you maintain daily family prayer in your home?

9. In your business have you ever realized that it is not really yours, but that you are simply God's steward, managing a little of God's property for him?

10. Do you seriously admit that, even though you are not a church member, all God's requirements for a moral life and holy living are just as binding on you as on the preacher whom you most admire and trust?

\$500,000,000 SOIL CONSERVATION SUBSIDY BILL SIGNED BY PRESIDENT ROOSEVELT

College Station. — The Federal Government will make grants of money to farmers, conditioned upon the actual evidence of good land use. President Roosevelt announced last week upon signing the new \$500,000,000 "Soil Conservation and Domestic Allotment Act." The new law authorizes up to \$500,000,000 for use in any one year to pay farmers for soil conservation. Grants will be made to farmers for this work.

President Roosevelt, after signing the bill on February 23, issued the statement that the new soil conservation and domestic allotment act represents an attempt to develop, out of the AAA efforts, a long-time program for American agriculture.

Three chief aims of the legislation were listed by the President as tied up with the national welfare. Conservation of the soil itself was named as the first of the three to be attained by wise and proper land use.

"The second purpose is the re-establishment and maintenance of farm income at fair levels so that the great gains made by agriculture in the last three years can be preserved and national recovery can continue. The third major objective is the protection of consumers by assuring adequate supplies of food and fiber now and in the future."

The President also strongly pointed out that there would be no contracts with farmers. Such contracts constituted one of the Supreme Court's objections to the AAA. While saying that such absence of production control might make impracticable the attainment of parity prices, Mr. Roosevelt said he is "confident that the farmers co-operating with the Government will work hard within the existing legal limitations to achieve the new law's goal, which is parity

not of farm prices but of farm income."

The money to carry on the plans will be allotted to each State after the State agency has been set up. The Act further reads that the Secretary of Agriculture shall apportion, on or before November 1 of each year, such funds as shall be necessary to carry out the State plans.

Farmers in preparing for the new program are planting soil improving and soil erosion prevention crops. Because planting time is so near, it is impossible for farmers to lay definite lines as to the acreage of such crops. However, Texas farmers, to profit by the new law, are planting sufficient crops of such nature as to meet the demands of the new law which was enacted for the purpose of building up the Nation's land.

Following the signing of the bill by the President, plans to speed the new program were immediately taken up in discussions by officials in the Department of Agriculture.

Calls for four regional meetings of farmers and farm representatives were issued. The

meal, the house was called to order by the State President, Tison Barnes, from Kemp, Tex.

The first thing on the program was to raise four boys who had attained the degree of Future Farmer to the degree of the Lone Star Farmer. There were also several honorary members raised to this degree. Each was presented with a solid gold key, representing a Lone Star Farmer.

The introduction of editors and state officials followed. Texas Centennial Cowboy Hats were presented to some of the boys that have done the most for the state Future Farmers. They were as follows: State President, Tison Barnes of Kemp; State Vice President, Emmet Lehr of San Angelo; State Secretary, Roy Martin of Cotulla; State Treasurer, Fred Turner of Sylvester; State Reporter, James Shultz, Grapeland; State Parliamentarian, Kirtley Dupree of Dublin; State Farm Watch Dog, A. D. Payne, Tulla; State Historian, Meredith Anzlin, Gilmer; State Advisor, J. E. Rutland, Austin. The National President, Bill

Shaffer of Maurestown, Virginia, was then presented with a gavel and a gavel base for his own use where ever he may be.

Speeches were then made by men from all over Texas and the national F. F. A. Chapters which concluded the program for the evening.

The meeting was closed with the regular F. F. A. ceremony.

DEMONSTRATOR STORIES

The work on the yard of rural homes is progressing rapidly. At this time of the year there are many things to be done in order to get the yard ready for spring. Yards are being filled in and sodded with bermuda grass; rose gardens are being prepared and planted; shrub beds worked and being planted; and many other things are being done.

In Coleman County there are 38 yard demonstrators at work on their yards. As 1936 is the Centennial Year much more interest is being shown in yards than ever before so as to make Coleman county as attractive as possible this spring and summer. The following list of women are the first year yard demonstrators and are at work for the first time on their yards this year: Mrs. Cecil Horne, Bowen; Mrs. Melvin Snider, Brown Ranch; Mrs. A. J. Koenig, Comal; Mrs. Arnold Ragsdale, Buffalo; Mrs. E. M. Whitley, Concho Peak; Mrs. Oscar Ward, Coleman Independent; Mrs. V. E. Sprutell, Gouldbusk; Mrs. V. K. Jarveson, Indian Creek; Mrs. R. E. Allison, Live at Home; Mrs. E. W. Marshall, Liberty; Mrs. Leo Hess, Leaday; Mrs. Alfred Williams, Junction; Mrs. T. O. Nalley, New Central; Mrs. Johnnie Steward, Rockwood; Mrs. Virginia Dibrell, Rae-Echo; Mrs. Carl B. Ashmore, Santa Anna; Mrs. Ben McIver, Trickham; Mrs. Clyde Crenshaw, Valera; Mrs. J. E. Bryson, Voss; Mrs. Will Smith, White Chapel; Mrs. Raymond Rehm, Whon. All of these women expect to make many improvements on their yards this spring and have more attractive yards and homes for the Centennial.

Making a rose garden is such fun, says Mrs. R. E. Allison, yard demonstrator of the "Live at Home" Home Demonstration Club. She has started her rose garden by setting out twelve year-old radiance rose bushes.

For this county Mrs. Allison tells us that the radiance roses are the best as they are hardy, bloom well, and require a minimum of care and cultivation. In the radiance variety one can have red, pink, or salmon colors and a bed of mixed colors is most attractive.

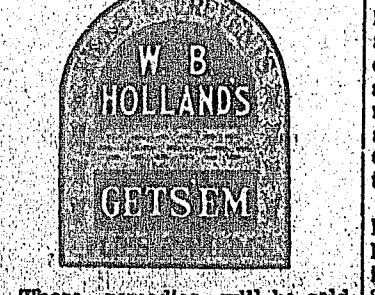

Mrs. Allison states that if you want other colors of roses that the K. A. Victoria is a good white rose, while the Lady Hillingdon and the Luxembourg are the best yellow roses to use. Other good red roses for this county are the E. G. Hill, Francis Scott Key, and Etoile de Hollande.

She thinks that anyone can have beautiful roses if they are chosen from the above named varieties and well cared for and carefully cultivated.

I want my bedroom to be as attractive and comfortable as possible, says Mrs. A. F. Martin, bedroom demonstrator of the Voss Home Demonstration Club. Mrs. Martin is planning to do several things that will improve her room and make it much more liveable.

As the floor is rather old Mrs. Martin is planning to paint it with light brown floor paint. Painted floors that are not too dark are easy to keep and add to the appearance of any room. The woodwork is to be painted in a warm cream tone to blend with the creamy wall paper, brown furniture and floor. The light woodwork and wall paper will do much toward making the room lighter and more cheerful.

Mrs. Martin plans to add ecru colored curtains and bedspreads made of heavy natural colored cotton cloth to her room. The entire color scheme of her room is to be built around cream and brown accents of two or three other colors added thru pictures, pillows, rugs, and flowers. She will have a pleasing restful room that the entire family will enjoy.

These remedies will be sold, according to the manufacturer, on a positive guarantee of satisfaction, or money refunded without argument. It will be sold for the present, direct to the consumer, until its worth in this war on screw worms is substantiated and they have their permanent containers. Then it will be sold by retail dealers throughout the entire country. Rev. Holland expressed his desire to move back to Santa Anna and establish a factory here for his recently discovered products.

Texas Woman Helps Edit Big Magazine

MRS. BEN C. BALL OF DALLAS

SHE has been selected as a "typical American housemaker" by the Woman's Home Companion, and is spending two weeks in New York as one of the editors of the magazine. Her selection is part of a plan to keep the contents of the magazine closer to its average readers. Twelve "reader-editors" are being selected, each from a different section of the country. They will each spend two weeks in New York, where they will

work with the regular magazine staff on problems which confront any woman in her home, particularly in the kitchen.

Mrs. Ball went to Texas as a baby, graduated from the Hillsboro High School and then from Baylor University. In 1925 she married Mr. Ball, a banker. They have two children. Her indoor hobbies are cooking and sewing; outdoor hobbies, golf and swimming.

Investment or Speculation?

Every time you buy something you are either speculating or making a definite investment. Few people can afford to speculate, yet many do it continually in making their everyday purchases. And it is so unnecessary. The advertisements make it easy for anyone to avoid speculation.

The merchant who advertises realizes that the good will of his customers means money in the bank to him. He knows that public confidence in his merchandise and public respect for his own character are as valuable as his credit at the bank.

So he makes the individual satisfaction of his patrons, their loyalty and their friendship paramount issues in his business.

When you buy an advertised product, you can know in advance what to expect in return for your money. You can count on its being right. You are making an investment.

Put when you buy nameless merchandise, that has never known the light of publicity, you are taking a chance — you are speculating.

Read the advertisements in this paper every issue and place your faith in the merchants who advertise and the products which are advertised.

LET'S MAKE SANTA ANNA GROW!

The following merchants and business interests of Santa Anna want you to join us in making Santa Anna one of the most outstanding business and trading centers in Central Texas. MONEY SPENT IN YOUR HOME TOWN helps to develop greater industries, pay wages, pay taxes, support churches and schools, and create business volume upon which communities prosper. These Santa Anna merchants offer standard goods and courteous services at reasonable prices. Besides, they offer to share the profits with their customers on the second and fourth Wednesdays of each month, our designated Trades Days for 1936. Every dollar spent away from Santa Anna for Dry Goods, Bread, Meats, Groceries, Drugs, Gasoline, Tires, Tubes, Furniture, Hardware, Notions, and suchlike decreases the opportunities of Santa Anna merchants and other industries to grow and better serve you; causes the depreciation of stocks and industries in your home town and community; also lowers your property values and lessens your opportunities. The following Santa Anna merchants and other business people entreat you to join us in promoting a bigger and better community.

CHAPEL HELD TUESDAY

The extemporaneous speakers practiced their speeches in chapel Tuesday. They will have their tryout Thursday night. Those entering are Dorothy Sumner, Vesta Evans, Adaloids Newman, Raymond Holland, and H. W. Kingsbery.

INDIAN PROGRAM IS GIVEN

Dr. Newsom, from Oklahoma City, spoke to the teachers and students of Santa Anna High School Friday afternoon from one until two o'clock. Dr. Newsom lived with the Indians from the time he was five years of age until he was twenty-two. His talk was very interesting.

CORRECTION

Gale Collier's name was inadvertently omitted from the Soph Honor Roll in the Mountaineer last week.

RUMORS

Margaret Jones always saying "Wal." Jack Price has a date with a junior girl for the banquet. The juniors are going to give a banquet in honor of the dignified seniors.

Spanish Club Entertains In Brownwood

The Spanish Club went to Howard Payne Tuesday morning and gave a very interesting program in the assembly. There were various numbers on the program as songs, jokes, a short play, stories and poems. Sarah Frances Moseley, the club sweetheart, sang a song, and many other numbers were enjoyed.

SAHS In Search Of An Education

Many high school boys and girls have the idea of getting a diploma instead of an education. The phrase "In search of an education" holds a great challenge to be accepted by thousands of young people. But what is an education? For what are you searching?

Education means more than attending classes, more than handing in work on time. Getting an education means work! It means burning much "mid-night oil." It means having an alert and receptive mind. Education is sometimes thought of as being able to enjoy classic literature; as being able to solve difficult geometry problems. Education means more than that! It means being able to face the world squarely, and to adapt oneself to the conditions of the world. In no part of the world are those people who "cherish the poetic realities." The world is real. You must, therefore, make your education real so you will be fitted to take a stand in the world.

WHAT WE'VE LEARNED

That the students can be quiet in the halls. That Interscholastic League is drawing near. That the Dramatic Club is going to present a play in chapel soon. That the teachers are eager to give demerits. That new rules are always being read.

SAHS

Johnny: Father, how do you spell "high"? Father: H-I-G-H. Why do you want to know? Johnny: 'Cause I'm writing a composition on the high-ena.

WHAT IF

Exams weren't over! Margaret Jones did not say "well."

Veoma Newman had the mumps. There were only three more months of school. The seniors were freshmen.

The eighth period study hall did not have to pick paper off the floor. The scribblers did not have rallies.

Jane Burden could not have fun. Allene Hardy did not worry (about whom?)

Irene Stiles did not have a sweet disposition. Rodney Dean got to home room on time.

Some people couldn't act silly. Mr. Dean were good to students. Quinten Hudler didn't like Irene Stiles.

Marjorie Pope didn't like Bill Early. Eva Nickens couldn't look sad. Annie Nickens couldn't giggle.

Georgia F. Barlett wore lip stick. The Dramatic Club didn't get up plays.

M. L. Guthrie didn't like Louise Oakes. Louise Oakes couldn't blush. Gene Adams and Lenora Goldston couldn't run together.

JOKES

Mr. Lock: What is half of eight, Willard? Willard Wilson: Which way, sir?

Mr. Lock: What do you mean, which way? Willard: On top or sideways? Mr. Lock: (bewildered) What difference does it make?

Willard: Well, the top half of 8 is zero, but half of 8 sideways is three.

Miss McCreary: Buddy, give me a sentence using antitoxin. Buddy: My aunt talks in her sleep.

Mr. Womack: My uncle can play the piano by ear. Bob W: That's nothing. My uncle fiddles with his whiskers.

Mr. Prescott: Can you give me an example of wasted energy? Alice Jane: Telling a hair-raising story to a bald-headed man.

Father: (to Julian Kelley, coming home in a bedraggled condition) Great Scott! How you do look! Julian: Yes, pa. I fell in a mud hole.

Mr. Kelley: Wha-a-a-t! And with your new pants on! Julian: I-I-I didn't have time to take them off.

Lenora Oakes: What sweet sounds come from the water tonight! J. T. Oakes: Yes, the fish are probably running through their scales.

"Mother, I've a stomach ache," said little Jack Howard. "That's because you haven't had any lunch yet," answered Jack's mother. "Your stomach is empty. You'll feel better when you have something in it."

That afternoon the minister came to call and, in the course of the conversation, he remarked that he had been suffering all day with a severe headache. "That's because it's empty," piped up little Jack brightly. "You'd feel better if you had something in it."

Mr. Scarborough: And so this is the fifth car you have run into this year. Dorothy Patton: Pardon me, the fourth. One of them was the same one twice.

Carson Horner: Oh! Teacher, lookit de bold! Miss McCreary: No, not bold, but bird. Carson: Well, anyhow, it sings just like a bold.

Mr. Gregg: Did you ever write anything before? Anita K: Oh, yes. I wrote a confession story once. Mr. Gregg: Did the editor send it back. Anita: No, he came all the way from New York to meet me.

Sunday School teacher: What parable do you like best. E. W. Folk: The one about the multitude that loafs and fishes.

Bill Early: Mama, what becomes of a car when it gets too old to run? Mrs. Early: Somebody sells it to your father.

Louise Oakes: It must be three years since I saw you last. My, how you've changed! I hardly knew you, you've aged so much. Charlotte Moseley: Well I wouldn't have recognized you in a thousand years. It was the dress that identified you.

Saturday, March 7, the track boys entered a tournament at Winters. Several other teams entered: Coleman, Talpa, Avalon and Santa Anna. It rained before the meet was over and therefore, could not be completed that day. The remaining part of the meet, javelin and broad jump, was postponed. At this time Winters had 36 points and Santa Anna 32. The meet was completed at Coleman the following Saturday. Winters won the meet with 42 points, Santa Anna 40, and Coleman 28. Jack Price was high point man with 23 points.

Saturday, March 14, another track meet was held at Coleman. The following teams entered: Brady, Melvin, Brownwood, Winters, Ballinger, San Angelo, Rochelle, Coleman, Talpa, Brownwood Jr. High, Bangs, May, and Santa Anna. Brady won the meet with 36 points, Melvin 23, San Angelo 17, and Santa Anna 16 1/2. Jack Price was high point man, 14 1/2 points. Brady won the two trophies, one for the meet and one for the mile relay.

Mr. Dean, the coach, plans to take some of the boys to the Fat Stock Show at Fort Worth Friday.

Jim Jones: Ah wins. Todd Oakes: What yuh got? Jim: Three aces. Todd: No yuh don't, Ah wins. Jim: What yuh got? Todd: Two nines and a razor. Jim: Yuh sho do. How come yuh so lucky?

Lewis Evans: Dad, what was your great ambition when you were a kid? Mr. Evans: To wear long pants. And I've got my wish. If there is any body who wears his pants any longer than I do, I'd like to see him.

Hollas Watson: Is a ton of coal very much, Papa? Mr. Watson: That depends, my son, on whether you are shoveling or buying it.

James: Professor, how long can you live without brains? Mr. Prescott: Well, that remains to be seen.

Mr. Womack: John, what is the shape of the world? John Gregg: Well, dad said last night it was in the worst shape he'd seen it in for a long time.

Mr. Prescott: Buddy, what's raised in countries that have wet climates? Buddy Lovelady: Umbrellas.

Mrs. Lock: Here's an advertisement of a new kind of shirt that hasn't any buttons. Mr. Lock: Huh? I've been wearing that kind for years.

Mr. Womack: Why can't you keep those dates in your head? Ara Belle: I have too many of my own to remember.

Miss McCreary: You may hand in your papers now. A. L. McGahey: Do you want me to endorse it, or just write my name on it?

King Cotton's Price Depends on Supply and Amount Used

COTTON consumption and industrial production move together. The rate of cotton consumption in this country is influenced more by the general business situation than by cotton prices. Cotton consumption in the United States was the highest for this November than for any November since 1932. This increase in consumption reflects an increasing industrial and retail demand, Government purchases, and the existence of a large volume of reserve orders. The chart in the lower right corner shows that excessive world supplies of American cotton depress prices and that prices recover with reduced supplies. The supply in 1932-33 was 25,961,000 bales with that large supply on the market, cotton prices could not recover. An estimated 20,270,000 bales, and prices improved. Insanity may be a cause for divorce, but it might better be applied to marriage. A bachelor never knows what a reckless driver he is because there is no one to tell him.
