

UN Assembly Meet Set To Open Tuesday

By A. I. GOLDBERG UNITED NATIONS, N. Y. (AP)—Secretary of State Dean Acheson and the U. S. delegation to the U. N. Assembly shape up their work program to meet expected Russian opposition to Korea and other Assembly items in their first organization meeting today.

Acheson, his five fellow U. S. delegates and their four alternates were to gather at the U. S. mission's headquarters in Park Avenue this afternoon about the same time Soviet Foreign Minister Andrei Vishinsky and high-ranking Russian helpers were to land from the Queen Elizabeth.

The U. N. seventh Assembly opens here at 11 a. m. tomorrow in the modern new domed Assembly Building adjoining the U. N. glass and marble Secretariat skyscraper—first permanent headquarters of the United Nations.

Two top delegates in the U. S. group this year are Sens. Theodore Francis Green (D-R.I.) and Alexander Wiley (R-Wis.). They are the senior members of their parties on the Senate Foreign Relations Committee, appointed under the Truman bipartisan policy in U. N. matters.

Wiley threw a political bombshell into the U. N. picture Saturday night. He announced in Washington that he had called on Acheson and the State Department a week ago to push a purge of U. S. Communists he said were employed by the U. N. Secretariat.

His charges that American Communists were on the U. N. payroll came just before the McCarran Senate Internal Security Committee hearings were scheduled to open here on a hunt for such persons.

Two local Democrats hang up a sign reading "But We'll Vote For Stevenson" to the end of a Republican "We Like Ike" banner in Williamstown, Mass. The poster battle started when the Democrats rented one side of the vacant building for a headquarters. Local Republicans, hearing of the move, quickly rented the other half and put up the big "We Like Ike" banner before the Democrats set up shop. The GOP's hastily tore down their sign and held a huddle to plan the next move. (A.P. Wirephoto).

Ike Says GOP Seeks Ordinary Business Methods In The Govt.

By DON WHITEHEAD ABOARD EISENHOWER SPECIAL, Oct. 13 (AP)—Dwight D. Eisenhower declared Monday the Republicans are fighting to get "just some ordinary business methods" installed in government.

Speaking to a chilled crowd at the Casper, Wyo., airport, the Republican candidate hit at federal agencies "sticking their hands" into management of western land resources.

"There are 59 different and separate government bureaus which had a hand in the pie of western resources," Eisenhower said. He added there must be greater efficiency in handling the people's business.

At Casper, the general made his first stop in resuming his campaign trip which was interrupted by a two-day blast at Denver.

Again he raved at what he called "the whole hog theory" of government which, he said, was trying to run things from Washington rather than working in cooperation with the people.

Stevenson—the only real "doubtful" state on the Mt. "They even tell me we are going to carry Massachusetts, although I can't believe it," he added.

Brownell said he believed both California and Ohio would go for Eisenhower, which would give him the electoral votes which these states gave to Truman four years ago.

Brownell went on to say he had talked to Gov. Dewey before coming to Denver and that both he and Dewey believed "things are going exactly as planned."

Stevenson said he and Dewey were due to join the walkout today, boosting to about 5,000 the number of idle. The strike started Friday when several hundred miners at a Peabody Coal Co. mine near Harrisburg, Ill., walked out.

South Koreans Control Crest Of White Horse; Reds Try Suicide Drive

John L. Lewis Vote Decision Is Due Today

By NORMAN WALKER CINCINNATI (AP)—John L. Lewis was expected to make known his stand on the presidential political race today at sessions of the 41st United Mine Workers Convention.

A slowly growing strike of coal miners and police were the chief subjects ticketed for comment by the union's president before convention adjournment next Wednesday.

The men refused to work when given paychecks lacking the \$1.90 a day pay raise Lewis recently negotiated for the miners.

The Wage Stabilization Board in Washington is considering the increase, which brings the basic miner's wage to \$18.25 a day, but probably won't decide for several days yet whether the increase is inflationary or not.

The increase was effective Oct. 1 and it seemed clear more and more miners will join the strike when their paychecks appear without the added money.

It was taken for granted by union delegates that a full industry-wide strike could be expected if the WSB turns thumbs down on the pay raise, or approves only a part of it.

Lewis was represented as wanting it stressed the walkouts were in no way to be considered as union pressure on the government.

Subordinates said Lewis regarded the stabilization problems as one between the employers and the government and that, without the pay raise, the employers simply were not living up to the terms of their new contracts.

As for politics, Lewis made a series of speeches at convention sessions last week lambasting Sen. Taft (R-Ohio) and anyone whom Lewis said may "wear Taft's collar."

JOHN NANCE GARNER

Garner Backs Demos' Slate

By DAVE CHEAVERS DALLAS (AP)—A pencil-scribbled note from rugged old John N. (Castus Jack) Garner today bolstered Texas Democrats battling to keep the state in line for Adlai Stevenson.

The former vice president, one-time power in national and state politics, wrote House Speaker Sam Rayburn here that he would vote the Democratic ticket Nov. 4 from top to bottom.

Rayburn released Garner's scribbled announcement one day ahead of Dwight D. Eisenhower's invasion of this Democratic stronghold.

The Garner statement was quickly discounted by Republican leaders busy with last-minute plans for Eisenhower's campaign swing through his native state starting tomorrow.

"John Garner is a brass-collar Democrat. That's what he always has been and will be," said Alvin H. Lane of Dallas, chairman of the Republican State Executive Committee.

Ben Guill, Eisenhower's Texas campaign manager, said he respected Garner and was sorry he felt that way.

"Dear Sam," Garner wrote his old crony Rayburn from his home in Uvalde. "Thank you for your interesting letter. You can say that I will vote the Democratic ticket straight from top to bottom."

Van Fleet Believes Fight To Taper Off

By GEORGE A. McARTHUR SEOUL, Oct. 13 (AP)—Frenzied Chinese suicide troops with demolition charges tried to blow a hole in the Allied defenses on White Horse Mountain tonight. South Korean gunfire mowed them down short of their target.

A front line officer said about half a dozen fanatical Reds with satchel charges and bangalore torpedoes charged up the north slope in complete disregard of their own lives.

They fell with their charges unexploded. At the same time, two Chinese platoons jumped off in a furious attack. The South Koreans drove them back, then launched an assault of their own.

As the savage battle for White Horse entered its eighth day, the South Koreans were in firm control of the commanding crest.

The "stay! fight!" troops of the Republic of Korea 9th Division prepared bunkers and threw up entrenchments in confident anticipation of renewed Chinese assaults.

A front-line officer said ROK positions were in better shape than they had been since the big battle started almost a week ago.

Gen. James A. Van Fleet, commander of the U. S. Eighth Army, predicted the savage fighting for the vital high ground commanding the sprawling Chorwon Valley may taper off.

Van Fleet told AP correspondent Milo Farnett the Chorwon area has been a sensitive part of the front "but I don't think it will be any longer."

South Koreans estimate the Reds have lost more than 10,000 killed or wounded. Elements of three Chinese divisions have been used in the bitter struggle.

Van Fleet praised the South Korean troops and said they had done "a beautiful job" against "about the best" Chinese army on the front.

Van Fleet Believes Fight To Taper Off

And he lauded Maj. Gen. Kim Chong Cho for "as fine a job as any divisional commander I have ever seen."

Van Fleet made his comments at a divisional command outpost while touring the Western Front.

The fighting on and around White Horse was still the main action along the 155-mile battle front.

To the east, a smaller but still bitter fight raged over possession of an outpost position. Chinese took the position in savage hand-to-hand battle last night. U.N. troops stormed back this morning.

Details were sketchy and conflicting but indicated the fighting was still going on at mid-day. Only patrol clashes were reported elsewhere.

The Chinese on White Horse braved the withering fire of an Allied artillery barrage in regaining part of the ground they lost earlier to the bayonets and hand grenades of the South Koreans.

They launched three company-sized attacks about 3 p. m. and won the three knobs in 30 minutes of fighting. The South Koreans withdrew and set up a defense line about 300 yards down the north slope from the crest.

Fighting broke off about 4 p. m. Earlier in the day the South Koreans held grimly to the crest despite seven savage attacks by the frantic Chinese. Then they

cause of "disillusionment" with the general's campaign tactics. This "disillusionment," he said, is "based on the compromises, the shifts of position and the abandonment of principles that they felt before were emphatically held by him."

Gov. Stevenson, in a radio speech sponsored by volunteers seeking \$3 contributions for his campaign, said he is deeply concerned over the high costs of campaigning.

MISSING U.S. BOMBER Soviets Claim B-29 Shot At Red Plane

By THOMAS P. WHITNEY MOSCOW (AP)—Russia has charged that a U. S. B-29 bomber shot at Soviet fighter planes over Russian Far Eastern territory Tuesday and said the Red pilots returned the fire. The incident occurred the same day the U. S. Air Force reported one of its Superforts missing off Japan.

A Soviet note to the United States, formally protesting the alleged border violation, said the American plane "disappeared in the direction of the sea" after the Russians shot back. The text of the note was published by the Communist party newspaper Pravda and was broadcast by Moscow radio.

(In Tokyo, a U. S. Air Force spokesman said the missing American plane "carried no guns and no bombs" among its crew of eight. The Air Force previously had announced the bomber, flying a training trip, was last seen on a radar screen within Japanese waters. It disappeared from the screen when its path crossed that of an unidentified plane approaching from the Russian-occupied Kurile Islands, officers said.)

The Soviet note charged that the U. S. bomber "violated the Soviet state frontier" Oct. 7 (Yuri is one of the Kurile Islands, 18 miles from the northernmost Japanese island of Hokkaido.)

The American craft fired on two Soviet fighter planes that ordered it to land, the note continued, "when the Soviet fighters returned the fire, the American plane disappeared in the direction of the sea."

Deputy Foreign Minister Georgi Pushkin handed the note to Elim O'Shaughnessy, acting U. S. charge d'affaires, on Sunday.

The note said: "The Soviet government lodges a determined protest against this new case of violation of the Soviet state frontier by American military aircraft and demands that the government of the U. S. A. adopt measures to prevent violation of the Soviet state frontier by American aircraft."

Two Persons Injured In Car-Truck Mishap

Two persons were hospitalized Sunday morning as a result of injuries suffered in a traffic accident at Third and Gregg.

Police Patrolman Jack Shaffer said the mishap occurred after brakes failed on Sherrod's truck, a 1950 Dodge loaded with milk.

Shaffer said Sherrod apparently was unable to stop for the traffic light and attempted to turn west on Highway 80 (West Third) to avoid vehicles in the intersection.

The truck was in collision with Witt's car, a 1950 Ford, then struck a light pole and rolled across a vacant lot.

Ten-gallon milk cans and the Sherrod boys were thrown off the vehicle at the intersection, and one of the containers knocked over a gasoline pump at the Jenkins station, said Shaffer.

Front of the Witt car and side of the truck were damaged, the patrolman reported.

Four Nabbed For 'Plot' By Iranians

TEHRAN, Iran, Oct. 13 (AP)—Premier Mohammed Mossadegh's government arrested four men, one of them a retired Army general, early today and accused them of plotting with certain members of Parliament "in the interests of a certain foreign embassy."

An official announcement did not identify the embassy, but such references by the aged premier's Nationalist government generally mean the British.

Unofficial reports said the plotters planned to oust Mossadegh and install as premier retired Gen. Faziollah Zahedi, an outstanding Army officer for many years and now a member of the Iran Senate.

Four Nabbed For 'Plot' By Iranians

The announcement said those arrested were retired Gen. Mohamed Abdulhosein Hejazi, head of the National Military Academy until Mossadegh retired him last month; Assadullah Rashidian, a wealthy Tehran merchant, and two of the latter's brothers.

Official sources reported, however, that Zahedi's home was under police guard.

The announcement said those arrested were retired Gen. Mohamed Abdulhosein Hejazi, head of the National Military Academy until Mossadegh retired him last month; Assadullah Rashidian, a wealthy Tehran merchant, and two of the latter's brothers.

Chest Workers Slate Meeting

Community Chest workers are being reminded again of a survey and re-evaluation meeting to be held Wednesday afternoon.

Campaign leaders stress importance of the session and points out that attendance of all workers is needed to map plans for winding up the lagging Chest drive.

All workers, team captains and division chairmen are urged to be present for the session at 5 p. m. Wednesday in Chest headquarters, 1174 Runnels.

Workers also are reminded of a general report meeting at 4 p. m. Tuesday. They will again be asked for latest reports Wednesday.

Remaining solicitation will be evaluated and workers will be asked to roll up sleeves and push the drive past its goal of \$49,052.

Approximately two-thirds of the 1952 quota already has been attained. Reported through last Friday were gifts totalling \$31,909.19.

Chest Workers Slate Meeting

Five Community Chest agencies, which annually combine their finance drives in the concerted Red Feather effort, are YMCA, Salvation Army, Boy Scouts, Girl Scouts and a local servicemen's center.

THE WEATHER BIG SPRING AND VICINITY: Fair this afternoon, tonight and Tuesday. Cooler Tuesday. High today 82, low tonight 60, high tomorrow near 80. Highest temperature this date 84 in 1951; lowest this date 49 in 1949; maximum rainfall this date 2.33 in 1929.

New Aid Program For Yugoslavia Is Told

BELGRADE, Oct. 13 (AP)—The U. S. Britain and France announced today agreement on a new economic aid program for Communist Yugoslavia. This was regarded as a demonstration of Western confidence in Yugoslavia's ability to contribute to the common defense against Soviet aggression.

Truman Readies For Tour Of New England

WASHINGTON, Oct. 13 (AP)—President Truman, who just returned last night from a 90-speech, cross-country campaign tour, announced today he will make more than 30 speeches in a three-day swing through New England starting Thursday.

Truman Readies For Tour Of New England

The trip will take him into Connecticut, Massachusetts, New Hampshire, Rhode Island and New York.

INDEPENDENT SUPPORT SEEN Jubilant Stevenson Backers Think Party Has Ike 'On Run'

By JACK BELL SPRINGFIELD, Ill. (AP)—Associates of Gov. Adlai E. Stevenson believe the Democrats have Gen. Dwight D. Eisenhower on the run and will win next month's election with a great surge of support from the independent voters.

This view, sketched publicly by Campaign Manager Wilson Wyatt at a news conference yesterday, is shared privately by almost all of the Democratic presidential nominee's advisers.

He made it plain he thinks the Democrats are beginning to harvest "extremely substantial" support from the independent vote.

INDEPENDENT SUPPORT SEEN Jubilant Stevenson Backers Think Party Has Ike 'On Run'

He told reporters that National Committee members and volunteer workers indicate there is a wave of desertions from Eisenhower's cause.

He said that "I Used to Like Ike" groups were being formed be-

cause of "disillusionment" with the general's campaign tactics. This "disillusionment," he said, is "based on the compromises, the shifts of position and the abandonment of principles that they felt before were emphatically held by him."

# Inseparable---The Talk-Happy Teen-Ager And The Telephone

**'YA SAY THERE'S A DANCE TOMORROW NIGHT'**  
... poor old Alexander Graham Bell would probably be clapping his hands with glee if he could see to what extent his foremost invention is being used today. Among the most devoted followers are teen-agers who assume a wide variety of sometimes back-breaking positions to use the telephone. Steve Kornfeld, eldest son of Mr. and Mrs. Les Kornfeld, tilts back and balances precariously while talking to his latest heart's delight.

**'REALLY! YOU MUST BE KIDDING'**  
... "Heavens, I just never dreamed," comments Libby Jones, daughter of Mr. and Mrs. Truman Jones, as she lolls comfortably on her bed while obtaining the low-down. With a stack of funny books and magazines always near at hand, Libby apparently is prepared for a long siege of talk-tis. When she tires of using her elbow as a prop, she can hold the telephone on her shoulder with her head, do a quick flip and land on her stomach.

**'MY GOSH, IS THAT HOW YOU WORK IT!'**  
... a little companionship is often a big help when confronted with a homework problem, agrees Anna Mae Thorp, daughter of Mr. and Mrs. Murph-Thorp. Dressed in her favorite slacks, she sits tailor-fashion on the floor in her home as she listens to the explanation of a particularly tricky math puzzler. If her conversation is a long one, and most teen-agers' are, she'll probably complete her talk lying on the floor.

**'SAY, LISTEN THAT WAS A GAME AND A HALF'**  
... Ben Hitt, son of Chaplain and Mrs. C. O. Hitt, can devote as much time talking to a member of the stronger sex as he can to the fairer. Everything from football scores to play-by-play descriptions may go into his conversation but his listening partner won't mind. The fact that he must stand in the kitchen or lean on any available surface doesn't deter Ben from his discussion.

### MENU FOR TOMORROW

**FAMILY SUPPER.....**  
\*Lamb and Rice Casserole  
Salad Bowl  
Gingerbread with Applesauce  
Cooked Carrot Strips  
Bread and Butter  
Beverage

(Recipe for Starred Dish Follows)  
**LAMB AND RICE CASSEROLE**  
Ingredients: 1/2 cup uncooked rice, 1 tablespoon salad oil, 1/4 pound d'ced lean lamb shoulder, 1/2 cup chopped onion, 1 1/2 cups tomato juice, 1 1/2 cups water, 2 teaspoons salt, 1/4 teaspoon pepper, 1/2 cup ripe olives.  
Method: Do not wash rice; brown it in oil in heavy skillet over moderate heat, stirring often. When rice is golden, remove from pan and brown meat. Add onion and cook and stir until onion is wilted. Return rice to pan, add tomato juice, water, salt and pepper; boil 1 to 2 minutes. Turn into 1 1/2-quart casserole and cover tightly. Bake in slow (325F.) oven 45 minutes. Cut olives from pits and stir lightly into rice with a fork. Return to oven 15 minutes longer. Makes 4 servings.

**2764**  
SIZES 10 - 20  
**Casual Look!**  
We see it coming -- and staying! The new tweedy casual with unusual inset yoke ideal. Note that the flaps are decorative, not pockets. Your choice of short or three-quarter cuffed sleeves.  
No. 2764 is cut in sizes 10, 12, 14, 16, 18 and 20. Size 16, 3 1/4 yds. 54-in.  
Send 30 cents for PATTERN with name, Address, Style Number and Size. Address PATTERN BUREAU, Big Spring Herald, Box 42, Old Chelsea Station, New York 11, N. Y.  
Patterns ready to fill orders immediately. For special handling of order via first class mail include an extra 5 cents per pattern.  
The FALL-WINTER FASHION BOOK, just out and beautifully illustrated in COLOR! presenting fall fashions at their smartest. Over one hundred practical, easy-to-make pattern designs, for every age and type of figure. Be an early bird, order your copy now. Price just 25 cents.

### Forsan Children Entertained At Birthday Parties Friday

**FORSAN, (Sp1)**—Mrs. Hamlin Elrod entertained for her daughter, Susan, in their ranch home Friday afternoon with a party on her sixth birthday.  
The Halloween theme was used and the chocolate cake was decorated with gold candles. In door games were played and small Halloween horns were presented as favors.  
Mrs. Norman Elrod of Rankin made pictures of the group. Guests were Helen Jo Holladay, Wilma Nancy Dunn, Julia Lynn Asbury; Judy Elrod of Rankin, Doris Ann Elrod of Odessa and Mrs. W. B. Dunn.

### HD Council Makes Plans For Parties

Committees for the Christmas parties were appointed Saturday afternoon at a meeting of the Howard County Home Demonstration Council in the office of Mrs. Eugenia B. Toland, HD agent.  
On the committee for the 4-H boys and girls party are Mrs. B. J. Petty, Mrs. H. L. Davidson, Mrs. Wesley Carroll and Mrs. H. S. Hanson.  
To plan the party for the club women are Mrs. Ray Shortes, Mrs. Frank Wilson and Mrs. Eidon Appleton.  
Mrs. H. S. Hanson, chairman, presided, and Mrs. Shirley Fryar led the opening prayer. Mrs. Fryar and Mrs. Robert Brown reported on home demonstration club work exhibited at the Lubbock fair, and Mrs. Pearl Cauble reported on similar exhibits at the Seminole fair.  
Members voted to furnish text-tone for the kitchen and dining room walls at the fair building.  
Attending the meeting were 22 Council members representing 11 clubs.

### Washington Place P-TA To Hear HCJC President Speak

Dr. W. A. Hunt, president of Howard County Junior College, will speak on "Faith In Our Schools" when the Washington Place P-TA meets at 7:30 p.m. today at the school.  
A safety film entitled "One In Four" will be shown and safety chairmen and presidents from all other schools and other interested parties are invited to attend. Mrs. Elmo Phillips, publicity chairman, has announced.  
There will be an executive meeting at 6:30 and all officers and committee chairmen are urged to attend.

### JACK JOHNSON LEADS SULTANS

Jack Johnson of the ABC Club is leading four other contestants in the Sultan's contest being sponsored by the Big Spring Federation of Women's Clubs in connection with the presentation of the "Follies of 1952."  
Other contestants, in the order in which they were running Monday, are Obie Bristow, Rotary Club; John Stanley, Kiwanis; D. C. Sanders, Jaycees; and R. H. Snyder, Lions.  
The contest will close after the intermission of the second performance Friday evening. The voting board containing pictures of the contestants and slots under each for voting purposes will be in the lobby of the Settles Hotel except during the performances, at which time it will be placed in the lobby at City Auditorium. Votes are one cent each.

### Woodman's Circle Installs Officers At Luncheon Meeting

New officers were installed at the meeting of the Woodman's Circle Friday afternoon in Woodman Hall.  
Mrs. Ruth Fite presided and Mrs. Beulah Carnrike served as installing officer. Taking office were Mrs. Ida Hughes, president; Mrs. Vera Reeves, attendant; Mrs. Pearl Vick, assistant attendant; Mrs. Mabel Hall, treasurer and a thanker; Mrs. Viola Boles, first vice president; Mrs. Alta Potter, second vice president; Mrs. Carrie Ripps, reporter.  
A covered dish luncheon was served to the members and three guests, Jim Fite, Barney Hughes and A. M. Ripps.

### J. A. Jolly Speaks To Child Study Club

J. A. Jolly spoke on "Children and Their Religion" at the recent meeting of the Child Study Club in the home of Mrs. W. C. Foster, with Mrs. E. L. Whalley as co-hostess.  
An open discussion was conducted after the talk. Fifteen members attended.  
District 21 of the Texas Graduate Nurses Association will meet Tuesday at 7:30 p.m. at the Community Center in Monahans. Mrs. E. P. Driver has announced.

## Nixon Slates Radio-TV Talk To U.S. Tonight

NEW YORK (AP)—Sen. Richard M. Nixon concentrated today on the writing of a major speech, reportedly on the danger of communism, for nationwide television and radio broadcast tonight.

The Republican vice presidential candidate set other campaign matters aside for the day. The address will be carried by the Columbia Broadcasting System television network and the American Broadcasting Company's radio network at 8 p.m. (EST).

Nixon's appearance tonight was arranged by the Republican National Committee, which said it was acting because of the public response to the California senator's dramatic TV-radio explanation of his expense fund three weeks ago.

During Columbus Day observances here yesterday, Nixon said his running mate, Gen. Dwight D. Eisenhower, is recognized internationally as the one man who can unite the free world.

When leadership was needed in the past, Nixon said, "sometimes the Democratic party furnished it, and sometimes our party furnished it."

But today Eisenhower is the one man recognized "who can join the free world in a great crusade... that would extend beyond the free world to those who want to be free," Nixon said.

He said the crusade "would be moral and spiritual as well as economic."

Nixon said the free world came out of World War II with more than a billion persons on its side. He added:

"There are now only 540 millions on our side and 800 millions under Communist rule. The leadership we have had has resulted in these losses."

## Candidates Prepare For A Rugged Week

By The Associated Press

**Thl. Week's Political Calendar:**

**MONDAY—**  
Gen. Dwight D. Eisenhower, Republican presidential nominee, campaigns by plane in Wyoming, Oklahoma and Louisiana, with night speech at New Orleans.  
Gov. Adlai E. Stevenson, Democratic presidential nominee, at Springfield, Ill., headquarters writing speeches.  
Sen. John J. Sparkman, Democratic vice-presidential nominee, speaks at Quincy and Peoria, Ill.  
Sen. Richard M. Nixon, makes nationwide radio-television broadcast from New York City (ABC radio, CBS TV, 8 p.m. EST).  
Sen. Robert A. Taft, Ohio Republican, speaks at Casper, Wyo.  
Sen. Estes Kefauver, Tennessee Democrat, campaigns in home state.

**TUESDAY—**  
Eisenhower campaigns by train and plane in Texas, with night speech at San Antonio (limited ABC and MBS radio broadcast, 8 p.m. EST).  
Stevenson speaks at luncheon meeting in Casper, Wyo., makes nationwide radio and television broadcast from Salt Lake City (CBS radio, Dumont TV, 10:30 p.m. EST).  
Sparkman speaks at Jamestown, N. Y.  
Nixon campaigns in Michigan.  
Taft speaks at Albuquerque and Santa Fe, N. M.  
Kefauver speaks at Detroit.  
Gov. Earl Warren of California speaks for Republican ticket at Rawlins, Wyo.

**WEDNESDAY—**  
Eisenhower campaigns by train and plane in Texas, Louisiana, and Tennessee.  
Stevenson speaks at Spokane,

Wash., Pendleton, Ore., and San Francisco.  
Sparkman speaks at Buffalo, N. Y., and Uniontown, Pa.  
Nixon campaigns in Michigan.  
President Truman's campaign train leaves Washington for New England.  
Taft speaks at Logan and Salt Lake City, Utah.

Kefauver speaks at Marth's Ferry and Cadiz, O.  
Warren speaks at Rapid City and Aberdeen, S. D.  
**THURSDAY—**  
Eisenhower appears at Al Smith Memorial Dinner in New York City.  
Stevenson campaigns by auto in San Francisco area, flies to Los Angeles for nationwide radio and television broadcast (CBS radio, Dumont TV, 10:30 p.m. EST) and speech at rally.  
Sparkman campaigns by auto in Pittsburgh area.  
Nixon campaigns in Indiana.  
Truman campaigns in New Eng-

land.  
Taft speaks at Omaha and Norfolk, Neb.  
Kefauver speaks at Wellsville, O.  
Warren at Minneapolis-St. Paul.  
**FRIDAY—**  
Eisenhower campaigns by train and auto in Delaware and New Jersey, with night speech at Newark.  
Stevenson speaks at San Diego, Calif., flies to Ft. Worth, Tex., and motors to Dallas for night speech.  
Sparkman campaigns in Pennsylvania.  
Nixon campaigns in Illinois.  
Truman campaigns in New Eng-

land, with night speech at Boston.  
Taft speaks at Cincinnati.  
Kefauver at La Porte and Elkhart, Ind.  
Warren speaks at St. Louis.  
**SATURDAY—**  
Eisenhower rests in New York City.  
Stevenson speaks at San Antonio and Houston.  
Sparkman speaks at Cumberland, Md., and Philadelphia.  
Nixon campaigns in New York State.  
Truman speaks in Brooklyn.  
Taft speaks at Wheeling, W. Va.  
Kefauver at Ottawa and Rock Island, Ill.  
Warren at Ashland, Ky.

**Costa Ricans Cheer Return Of President**  
SAN JOSE, Costa Rica (AP)—Cheering thousands welcomed Otilio Ulate Blanco back as president of Costa Rica yesterday.  
Ulate stepped down from the presidency Sept. 26 in the midst of a controversy over the conduct of five Costa Rican police officials.  
Later, Vice President Alberto Oreamuno, acting chief of state, told Ulate a congressional inves-

tigating committee had given his administration a clean bill of health and the charges against the five police officials were "unfounded."  
**Three Reds Injured**

## Japan To Acquire Its First Force In Postwar Defense

By JOHN FUJII

TOKYO (AP)—Japan gets its first postwar defense force this week.

Seven divisions (110,000 men) of the National Police Reserve and two divisions (35,000) of the Maritime Safety Board (Coast Guard) will be reorganized Wednesday into the National Safety Corps.

The khaki-clad troopers, now armed with light tanks and observation aircraft, were recruited shortly after the outbreak of the Korean War.

The police reserve was formed to help in defense of the Japanese islands after the U. S. 24th, 25th and 1st Cavalry Divisions were rushed to Korea to stem the Communist invasion of South Korea.

The reserve is patterned after the U. S. Army, equipped with 3.5-inch bazookas and light artillery. They were uniformed in olive drab uniforms copied from U. S. government issue but made in Japan.

Food is provisioned to suit the Oriental palate but camp discipline and routine are strictly GI.

The sea-going branch of the Maritime Safety Board has been outfitted in blues like those of the U. S. Navy but with the traditional Japanese Imperial Navy cap.

The sea forces will be organized into three fleets utilizing the 18 U. S. Navy frigates and 50 LSSL (landing ship, support, large) which the American government has leased to Japan.

Japanese Prime Minister Shigeru Yoshida will head the National Safety Corps as director-general. He will be assisted by a deputy director-general of cabinet rank.

Former Japanese Army, Navy and Air Force personnel up to the grade of lieutenant colonel have been recruited to bolster command echelons.

The basic mission of the National

Safety Corps is defense but it may be called out in times of national emergencies and disasters. The sea-going branch will patrol the irregular Japanese coastline against smuggling, aid vessels in distress and perform other functions of a coast guard unit.

## 117 New Casualties

WASHINGTON (AP)—The Defense Department today identified 117 Korean War casualties (List No. 669) Of the total, 35 are dead, 67 wounded, 11 missing and four injured in battlezone accidents.

## Iran Railway Workers Back

TEHRAN, Iran (AP)—Several thousand operating and maintenance workers of Iran's state-owned railways returned to work yesterday after a 24-hour protest strike against nonpayment of salary increases promised seven months ago.

There was no indication that the wage boosts would be forthcoming immediately. The Tehran station director said the government was unable to pay them at present because of its financial difficulties.

Meanwhile, Iran's new foreign minister, former Deputy Prime Minister Hossein Fatemi, told a news conference that top Iranian diplomats would be assigned to Asian and neighboring countries in the future instead of Western nations.

## Silent Film Actor Dies In California

PACIFIC PALISADES, Calif. (AP)—Jack Conway, 65, who played the lead in what is believed to be Hollywood's first movie—"Her Indian Hero"—died yesterday of a pulmonary ailment.

The silent film actor later became a top director. He brought to the screen such films as "Bon Town," "Viva Villa," "A Tale of Two Cities" and "The Hucksters."

OCT-12-18 THIS IS OIL PROGRESS WEEK

**Progress 1952**

Texans have a natural interest in the oil industry, which is so important in their State, and in the progress made since Oil Progress Week was last observed.

Here are a few quick facts:

**NEW WELLS**  
During the twelve months ending August 31, 1952, the Texas oil industry drilled 17,000 new wells, at a cost of over \$700 million. Most of the heavy expense of drilling these new wells was paid from earnings plowed back into the development of the State's oil resources.

**PRODUCTION**  
Production has reached a record level. Texas currently is producing about 46 per cent of all the crude oil produced in the U. S. In the year ending August 31, Texas production totaled about 1,015 million barrels. There are now 133,800 producing oil wells in Texas.

**RESERVES**  
Proved oil reserves in Texas of 18 billion barrels represented 57 per cent of the U. S. total at the beginning of 1952. During 1951, the last year for which figures are available, proved reserves increased two billion barrels. These are developed oil reserves and the figure is important: developed reserves supply our needs currently and provide reserve capacity that is immediately available when we need it.

**TAXES**  
The Texas oil industry continues to be the largest tax-payer in the State. Through the year ending August 31, gross production taxes alone on Texas oil and natural gas amounted to more than \$137 million; in addition, the industry pays large amounts in other taxes.

**REFINING**  
The Texas refineries will have a big year. They now employ, in round numbers, 46,000 Texans, and process about 28% of all the oil refined in the U. S. The daily refining capacity of all Texas refineries exceeds 2,000,000 barrels. A program to expand and improve these facilities has been general throughout the industry.

**TRANSPORTATION**  
The total mileage of Texas' trunk pipe lines for oil and finished products is over 29,000. This low-cost transportation system is a major factor in the maintenance of the low prices you pay for petroleum products.

**HUMBLE**  
TEXAS OPERATIONS

Twelve Months Ending August 31, 1952  
Wells Drilled . . . . . 891  
Average Production, in barrels daily . . . . . 330,100  
Employees in Texas, August 31 . . . . . 17,775  
Baytown Refinery: Average crude runs to stills, barrels daily . . . . . 249,310

Humble Pipe Line Co. operates 5,895 miles of trunk lines for oil and finished products, which had transported a daily average of 722,600 barrels in the year ending August 31.

In brief, the Texas oil industry during the past year continued to do its part in meeting the demand for oil. It has expanded pipelines to provide low-cost transportation. It has improved facilities for making more and better petroleum products for your use. Today, two gallons of gasoline do work that required three gallons in 1925; and the gasoline costs no more than it did then.

**HUMBLE OIL & REFINING CO. ★ HUMBLE PIPE LINE CO.**

If we spoke only when we are surely informed we would not talk so much. It is no disgrace to say, "I do not know." "He that hath knowledge spareth his words." — Prov. 17:27.

### Drivers Should Instinctively Take It Easy Around Schools

In counties where the livestock law is carelessly enforced, or not enforced at all, most knowing motorists have sense enough to slow down when passing them. Not to do so is to invite an expensive repair bill, either to the car or the person of the motorist, or both.

Watch the amount of reckless speeding that goes on. Any speed that is too great to enable you to stop before hitting some child that steps into your path is too fast. If you make the permissible 20 m.p.h. in the vicinity of a school you're still betting that no child is going to step from behind a parked car right smack-dab into front of your truck or automobile.

### Candidates Are Not Apt To Make Coolidge's Error About The Alamo

The rival presidential candidates will make the pilgrimage to Texas' shrine of liberty on the occasion of their visits to the Lone Star State in search of voters. The visit stands before the Alamo next Tuesday and cut his 350-pound, 62nd birthday cake, while Adlai will put in an appearance there later in the month.

was asked to consider his father, and answered that his father was a no-account so-and-so. Finally, the Texan struck a pose and cried: "Remember the Alamo!" "The Alamo?" the impending suicide inquired, a la Coolidge.

### Gallup Poll

#### Ten Million Undecided Voters Holding Key To 1952 Election

By GEORGE GALLUP, Director, American Institute of Public Opinion

PRINCETON, N. J., Oct. 13—To make an accurate appraisal of the present political situation with its many cross-currents, three important factors must be taken into account:

1—The majority of people still identify their self-interest with the Democratic party. The Republicans have failed to convince the average voter that his economic interests lie with the G. O. P.

When voters are asked which party best looks after the interest of persons like themselves, the Democrats are given the advantage by a margin of about 3-to-2.

2—G. O. P. hopes must be pinned almost entirely on the personal popularity of General Eisenhower who continues to keep his lead over Governor Stevenson.

In the latest Institute survey he runs 3 to 5 percentage points stronger than his party. However, the same survey showed a decline in the strength of both Eisenhower and the party, as compared to earlier surveys in September.

3—A total of 17 per cent — or some 10 million of the likely voters — are undecided about their choice of party in the November election.

How these 10 million persons finally make up their minds will be the vitally important question of the next three weeks of campaigning.

#### 'Best-for-Self' Theory

One school of political forecasting is based on the theory that a voter's economic welfare, or "pocketbook nerve," determines his choice of party or candidate on Election day. According to this theory he will vote for the party he thinks can best protect or improve his economic lot.

But in this particular election a good many other factors may be involved, too, such as the Korean war, corruption, the question of European aid, as well as the relative experience and competency of the two candidates.

To the extent that economic self-interest is a factor, the Democrats have the advantage, as the following survey indicates: "Which national political party do you think is best for people like yourself—the Republican or Democratic?"

Table with 2 columns: Party, Percentage. Republican party 48%, Democratic party 31%, No opinion and No difference 21%.

#### He Leads His Party

Since every presidential election embraces the two factors of candidate and party, the Institute is reporting sentiment separately on the two questions.

Only in this way can a poll accurately mirror what is in the voter's mind as he thinks about the election.

In terms of political party preference, the division of vote in the latest Institute survey is as follows:

#### PARTY PREFERENCE

"If the presidential election were being held today, which political party would you like to see win—the Republican party or the Democratic party?"

Table with 2 columns: Party, Percentage. Republican party 45%, Democratic party 38%, Undecided 17%.

#### CANDIDATE PREFERENCE

Table with 2 columns: Candidate, Percentage. Eisenhower 50%, Stevenson 38%, Undecided 12%.

#### Problem of the Undecided

It is obvious that the election outcome depends heavily on the final decision of the undecided voter group.

There are several ways in which the undecided group can be analyzed at this stage of the campaign and their probable behavior on Election day indicated.

One way is to compare the undecideds with the decided voters in regard to how each group voted in 1948. Making this comparison, we find that among the undecided there is a Democratic advantage of about 2-to-1.

Allocating the 17 per cent undecided on party preference on this 2-to-1 basis, the figures become:

Table with 2 columns: Party, Percentage. Republican party 51%, Democratic party 49%.

Allocating the 12 per cent undecided on candidate preference on this 2-to-1 basis, the figures become:

Table with 2 columns: Candidate, Percentage. Eisenhower 54%, Stevenson 46%.

Still another way to look at the undecided group is to compare them with decided voters on the basis of educational and religious background. Such an analysis shows the undecided voters are more like Democrats than Republicans by a ratio of approximately 3-to-1.

Allocating the 17 per cent undecided on party preference on this 3-to-1 basis, the figures become:

Table with 2 columns: Party, Percentage. Republican party 49%, Democratic party 51%.

Allocating the 12 per cent undecided on candidate preference on this 3-to-1 basis, the figures become:

Table with 2 columns: Candidate, Percentage. Eisenhower 53%, Stevenson 47%.

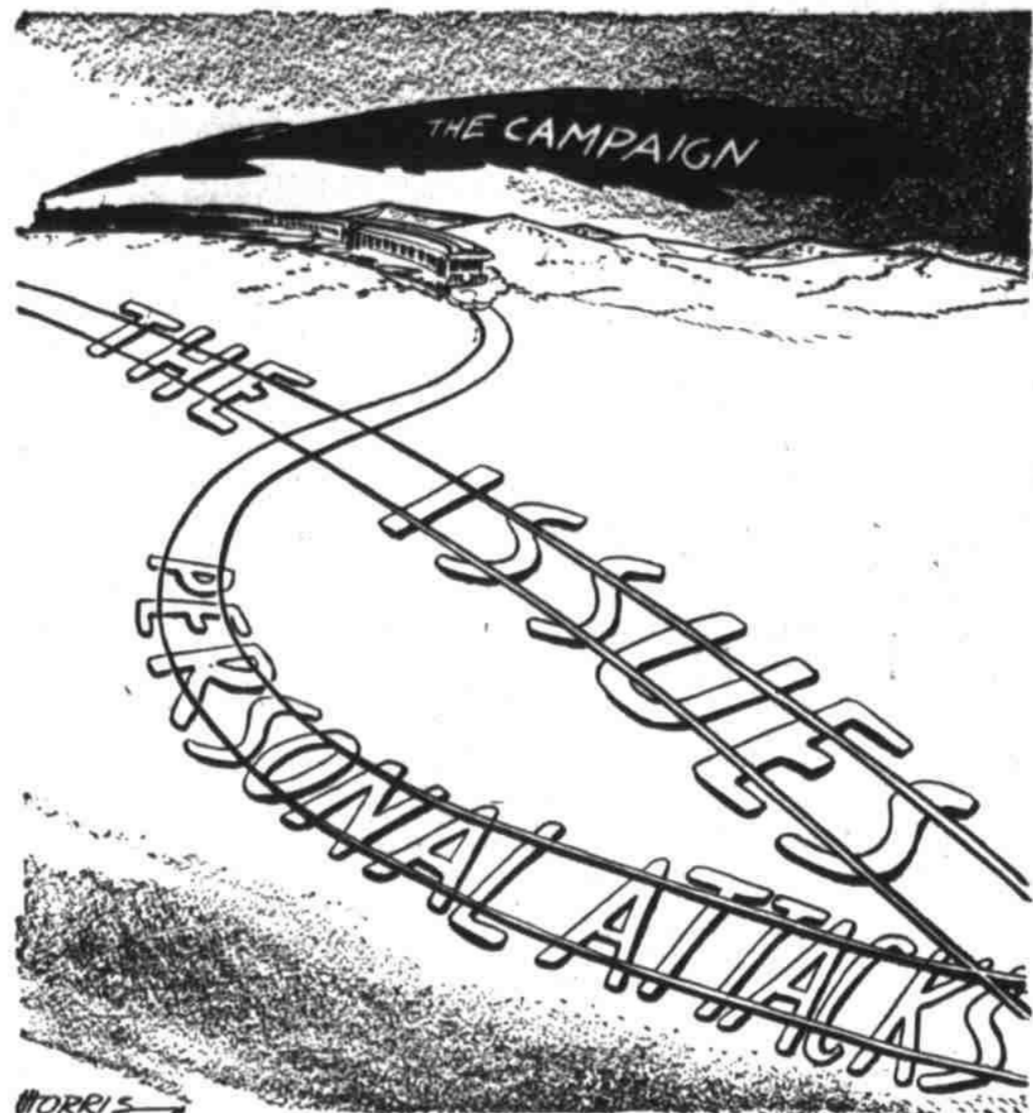

#### Polltaker's Role

Political analysts will place varying degrees of importance upon the three barometers of political sentiment reported today — 1.) the "pocketbook nerve," 2.) party loyalty, and 3.) candidate preference.

Facts gathered by the Institute are reported here in order that the reader may draw his own conclusions.

After the 1948 election, the American Institute of Public Opinion decided that in all future elections it would attempt to make a clear differentiation between the areas which can be covered statistically and the areas where judgment must be exercised.

Survey facts can describe the group of undecided voters, but how they finally decide to vote on Election day can not be predetermined exactly.

### Business Mirror—Sam Dawson

#### Firms Join In Atomic Age Advance As By-Products Used In Civilian Pursuit

NEW YORK, Oct. 13 (AP)—The atom still wears a military uniform. But industrialists are getting ready for the day they may be able to put it in civvies.

"An aggressive company ought to be allied to atomic development," says E. J. Thomas, president of Goodyear Tire & Rubber Co.

His company will run for the government a new atomic plant now in its first stages in Pike County, Ohio.

Already the by-products of atomic bomb making are being used in peace-time pursuits. Medicine has benefited. And so have laboratories, notably those doing agricultural chemistry research, using some of the spawn of the A-bomb to make better plans and more nutritious food.

Steps are well under way to hitch atomic energy to engines running submarines, airplanes and air carriers. Scientists say much cheaper and more efficient atomic-powered engines could be developed with more study.

Atoms also might one day not too far off be used to produce electric power at an economical cost for the nation's industries.

Thomas, however, shies clear of predictions along this line.

"We don't know how far reaching will be the effects of atomic energy on industry, or just how industry may ultimately make use of it," he admits. "But we feel that this is a development we should be in on from the start."

Key men in Goodyear are already being trained for their new jobs in the 1.4-million dollar plant which will be completed within four years in Southern Ohio.

They're getting their training from another industrial company already a veteran in the field—Union Carbide & Carbon, which plays the same role for the government.

#### This Day In Texas

By CURTIS BISHOP

Death came on this day in 1940 to a Texas cowboy who won a title and fame riding up the cinema trail.

His name was Tim Mix, and with his horse, Tony, he became the idol of American youth. Though not the first cowboy star, Mix was the first to feature his horse, and thus set the precedent for the numerous western stars of today who dramatize a gleaming, spectacular animal.

As a cowboy Mix rode many actual cattle trails before deserting the actual range to appear first in wild west circuses, then in movie flickers. He was the first cowboy actor to perform his own stunts, though in later years his producers insisted upon use of stunt men.

According to some sources, Tom Mix first appeared before the public in Zack Miller's popular 101 Ranch Circus, but such a story can hardly be confirmed as Miller's circus records were not too complete. Another western star, Buck Jones, is also supposed to have joined the Miller showmen while the circus was touring Texas.

ment at the Oak Ridge, Tenn., and Paducah, Ky., atomic plants. When the Goodyear key technicians have learned their lessons from the chemical company men, they in turn will teach another group of rubber company men, and so on, until about 700 technicians, many of the highest skills, are trained for their top-secret chores.

In full operation the Ohio atomic plant will employ 4,000 persons. Thomas says the majority will be hired from outside his company. But the key men will be chosen from its many wide-spread plants.

Although creating an A-bomb and making a tire are entirely different operations, Thomas says his men have all the basic knowledge and background in chemistry and physics, and all the general technical skills needed.

Many are eager to get into the new field.

"Every employe we have approached with the idea of transferring to the atomic plant has accepted without reservation," he says.

Thomas sees nothing odd in a tire-making company getting into the atomic development field.

Goodyear started out making rubber tires for the buggy. When the auto replaced the surrey with the fringe on top, the company swung over to auto tires.

When the plane came along, Goodyear went air-minded. During the war it made fighter planes and blimps.

Now it's going atomic. "The one really new problem is that of the security aspects for the personnel," Thomas says.

"Even during the war, the top secrets were nothing like these new ones will be."

"But industry can learn to live with it in the atomic age."

### Notebook—Hal Boyle

#### Buying Today On Impulse Calls For Gaudy Products

NEW YORK, (AP)—The world will no longer beat a path to the door of the man who makes a better mousetrap.

The world is too busy. The man who wants to peddle a better mousetrap now has to give it an alluring shape, an attractive color, a catchy name. He has to make it so irresistible that a housewife, on seeing it, says to herself:

"I have to have that very mousetrap or die. My life won't be complete without it."

For in this supermarket era in which clerks act merely as change-makers a product has to be its own silent salesman—it has to sell itself to the customer by the way it feels or the eye appeal of its package.

This has given rise to a little-known but highly important figure in modern sales engineering—the industrial designer. One of the most successful is a young Army veteran who supervised the modification of the B-29 airplane that dropped the atom bomb on Hiroshima.

At 32 Gerald Stahl is head of one of the nation's top industrial designing firms, and all but two women on his staff of 13 are war veterans.

"We are a new breed in a new field," he said. "Industrial designing as a specialized profession is only about 30 years old. But already it is turning from an art into a science."

"We are trained now not only to think in terms of styling, but how a product should look and feel, how it can be made more cheaply and how it can steadily be improved. That requires a knowledge of psychology, color dynamics, market research and sales promotion techniques."

This fight for the housewife's dollar has become so competitive, Stahl said, that "there isn't a major manufacturing firm today that doesn't use an industrial designer either on its staff or on a retainer basis."

"There has been a real revolution in this respect in the last quarter century."

A housewife shopping in a supermarket usually doesn't know why she selects one package of rice from a shelf containing a half dozen brands. The reason is usually subconscious, and it is up to the industrial designer to know her

own mind better than she does herself.

"A large percentage of sales now are impulse sales," Stahl said. "The product that catches their eye is the one they buy. The package that is the greatest attention-getter is the one she puts in her market basket."

Red, Orange and Yellow have been found to be the best eye-grabbing colors. Greens and Blues are fine for feminine cosmetic products. But purple, black and muddy reds repel, because they are associated with death.

"You'd never put a hand soap in a black or purple package if you wanted mass appeal," said Stahl. "And the industrial designer aims at Main Street not Fifth Avenue."

Stahl started dreaming of his own firm in war days as engineering officer in charge of the project to refit the B-29 so it could handle the first huge A-bombs.

"I didn't want to work for anyone else," he said. "I wanted to sink or swim on my own."

His firm, one of only about two dozen in the country, has always had more business than he could handle. He has designed dozens of new products, ranging from safety razors and ice cream dispensers to automatic washing machines and portable refrigerators.

His wartime knowledge helped in turning out a new line of futuristic toys of tomorrow—including jet cars, interplanetary rockets, ray guns and space ships.

"It was a lot of fun," he said. "Our job was to forecast in terms of toys what the world of the year 2000 would be like."

"It was purely blue sky stuff—out of our own heads, as ordinarily we are strictly feet-on-the-ground designers. But it looks like the world is already catching up with our toys."

#### Foundation Set Up

BUFFALO, N. Y. (AP)—A non-profit foundation to sponsor research in production know-how has been established by the American Society of Tool Engineers as America's "most effective weapon to defeat communism."

### Better Be Careful, For Those Lil' Tykes Will Grab At Anything

The opinions contained in this and other articles in this column are solely those of the writers who sign them. They are not to be interpreted as necessarily reflecting the opinions of The Herald.—Editor's Note.

That bottle of poison on your shelf may be just the thing to discourage ants from homesteading on your place.

It may also poison your child, unless you lock up all dangerous substances outside their reach.

The little tykes, who make a career out of getting into things, will eat anything first and ask questions afterwards.

According to the best figures, some 319,000 children in the US had various kinds of poisons pumped from their stomachs in 1951.

The lessons learned from cases read about in the newspapers apparently don't impress most people, though, because the accidental poisoning continues to increase and has reached the point where it is becoming a serious health menace. So say those who should know.

There was a time when working men had the greatest number of accidents. Now children, statistics insist, have the most if poisoning is included.

One doctor says the parents aren't alert-

ed enough to the dangers their children face if deadly liquids or solids are left around. And the parents, in turn, don't preach how serious the problem is, should the poison be taken by the small fry.

Those substances, of course, include gasoline or kerosene, which might be brought into the house for cleaning purposes and left on the table or cabinet counter in an open container.

The kiddos, who pop things into their mouths from the time they can reach for them, will eat anything from pills to aspirin, toothpastes, mothballs, laundry bleach, nail polish and lighter fluid.

It seems pathetic, but several children have been found dead drunk, after having found whiskey within their reach. Needless to relate, intoxicants pose a grave threat to a child's health and life.

There are few antidotes for poison, once it is taken, so the doctors called in make quick use of the stomach pump. Happily, the pumps are constantly being improved.

—TOMMY HART.

### Business Outlook—J. A. Livingston

#### Signs Point To Cost Of Living Actually Declining In America

Maybe this is it — the time the cost of living really will go down, the time the housewife will find that her dollars isn't worth 52 cents but maybe 53, 54, or 55 cents when it comes to buying groceries, clothing, household goods, and so on.

Ever since the spring of 1951, consumers' prices have defied the law of gravity. They've gone up 4 per cent, while prices in general have gone down 5 per cent. The disparity is traceable to increases in foods, rents, services, electricity, and miscellaneous items. Clothing and household goods followed the general trend—down.

But in the last two months, food prices have joined the downward procession in wholesale markets. Hogs for instance, are off from \$23 a hundredweight in Chicago to under \$20, notwithstanding fewer pigs on the farm this year relative to last year. Steer prices are off only slightly, but in this case, a 13 per cent increase in beef cattle on the farm augurs plentiful supplies in '53. And, since food is the dominant item in consumer purchases, it could be that the cost of living is headed lower.

There's more to the story than just food. Inflation just isn't in the atmosphere. That's indicated by a penny-a-pound drop in the price of lead in New York to 15 cents. This reflects sharp declines in London, where for the first time in 13 years the market was free from government control.

Zinc settled down to 13 1/2 cents at East St. Louis when two large producers who had been holding out for 14 cents gave up. Cotton prices slumped when the Department of Agriculture raised its 1952 crop estimate a half million bales to 14,400,000. That compare with 15,100,000 bales last year and the 1941-50 average of 11,800,000 bales.

Furthermore, crop prospects in Europe and the Southern Hemisphere for next year are fairly good. Canada has a record wheat harvest. So foreign dependency on U. S. farm products is likely to be less in '53. Besides, the dollar shortage is still impelling other nations to buy elsewhere if possible.

Even more to the point, defense is infringing less and less on civilians. According to the National Association of Purchasing Agents, most business firms are satisfied to hold inventories down to 90-day supply at most. A 30-to-60-day policy is more prevalent. Business men are not afraid of higher prices or an inability to get deliveries.

That's true even in steel. Consumers have gotten over their buying hysteria — the rush — immediately after the strike. Studebaker Corp. is recalling workers to step up auto and truck output inasmuch as steel supplies are now "plentiful."

Further, the steel industry is in a black or purple package if you wanted mass appeal," said Stahl. "And the industrial designer aims at Main Street not Fifth Avenue."

Stahl started dreaming of his own firm in war days as engineering officer in charge of the project to refit the B-29 so it could handle the first huge A-bombs.

"I didn't want to work for anyone else," he said. "I wanted to sink or swim on my own."

His firm, one of only about two dozen in the country, has always had more business than he could handle. He has designed dozens of new products, ranging from safety razors and ice cream dispensers to automatic washing machines and portable refrigerators.

His wartime knowledge helped in turning out a new line of futuristic toys of tomorrow—including jet cars, interplanetary rockets, ray guns and space ships.

"It was a lot of fun," he said. "Our job was to forecast in terms of toys what the world of the year 2000 would be like."

"It was purely blue sky stuff—out of our own heads, as ordinarily we are strictly feet-on-the-ground designers. But it looks like the world is already catching up with our toys."

There were times when the priests gave the answers from their own lips. In such cases they might be dressed and masked like the god Amon; they were supposed to speak the words of that deity.

As the years went by, the priests of Amon grew in power. Rich gifts were made to them by different kings. The high priest of Amon came to think that he was as great a man as the king.

A strange mark of that feeling is found in an ancient picture. Usually any picture of a king showed him far taller than anyone else near him. Often the monarch was made to look two or three times the size of a priest or someone else.

Then a picture was made showing King

Industry is catching up fast on capacity to meet postwar demand — both military and civilian. In the last seven years, corporations spent on capital good almost as much — 90 per cent — as the valuation of their plant and equipment in 1945. That doesn't mean that American firms have nearly doubled their capacity. After all, prices are much higher today than in '45. Still, it indicates an enormous increase in productive strength — particularly since the newer facilities are so efficient.

The following table gives a rough idea of how quickly we have built up our industrial muscle since Korea:

Table with 3 columns: Product, Korea End of '52, Capacity. Rows include Steel (tons), Aluminum (tons), Electricity (kw), Oil Ref. (bls. daily).

\*Estimated.

Inflation cannot be written off entirely. Although materials and machinery are more plentiful to meet defense and civilian needs, manpower isn't. More people are at work today than at any other comparable period in history and unemployment is at its lowest level in seven years. No elasticity in that.

Business is still installing new capacity and adding to plant. State and local governments are in the market for hospitals, schools and roads, and other public works. The defense program is expanding. Manufacturers of durable consumer goods are speeding up assemblies after the steel strike, and the textile and other soft-goods line are doing better. It adds up to congestion in the labor market.

The expectation is that construction will taper off by mid-year and that increased productivity in defense plants will reduce the need for workers.

The long chance is that construction will continue to boom and defense plants will take on more workers. If so, shortages of goods will develop, and we'll be in for wage and price increase and a still weaker dollar. Daily-double parlays exist in economics as well as at the race track.

### Production Planned

TOKYO (AP)—Japan soon will start mass production of synthetic camphor from natural resin under a recently-discovered process.

Kyodo News Agency said the method has been developed without depending on any U. S. or German patents. Turpentine oil is extracted from resin and then processed into camphor.

### Uncle Ray's Corner

#### Priest's Power Grew In Egypt

School pupils who study ancient history may read a little about the Oracle of Delphi, but textbooks seldom tell about other oracles of ancient times. Actually there were dozens of centers for oracles, and some of them grew famous before the Greeks started to go to Delphi.

In one sense, an oracle was simply an answer by a god or goddess to a question. Such an answer might be given anywhere.

It came about, however, that certain places were called oracles. This was because many answers to questions were given in those places.

In ancient Egypt there were oracles in temples. People went to the temples to learn about the future. It came to be the custom for the pharaohs, or kings, to go to the temple of "Amon on the Oasis." In that temple was a statue of the god Amon, and the statue would shake after a question was asked. The way it shook gave the "yes" or "no" to the king's question.

Today we feel sure that the statue of Amon was shaken by Egyptian priests, or their helpers. The kings probably supposed that the god was giving answers to their questions.

There were times when the priests gave the answers from their own lips. In such cases they might be dressed and masked like the god Amon; they were supposed to speak the words of that deity.

As the years went by, the priests of Amon grew in power. Rich gifts were made to them by different kings. The high priest of Amon came to think that he was as great a man as the king.

A strange mark of that feeling is found in an ancient picture. Usually any picture of a king showed him far taller than anyone else near him. Often the monarch was made to look two or three times the size of a priest or someone else.

Then a picture was made showing King

Ramses IX in company with the high priest of Amon. The high priest was made to look just as tall. The only difference was that the king wore a high covering on his head.

By that time the power of the king had fallen, and the high priest of Amon was allowed to collect some of the taxes.

For HISTORY section of your scrapbook.

Tomorrow: Greek Oracles. A leaflet which reduces an explanation of atoms and atomic energy to simple terms has been prepared by Uncle Ray. To obtain a free copy send a self-addressed stamped envelope to Uncle Ray in care of this newspaper.

## Belgium Reds Badly Beaten In Elections

BRUSSELS, Oct. 13 (AP)—Both Belgium's Communists and her governing Social Christians suffered a severe defeat in yesterday's nation-wide municipal elections.

The Socialists, who made the largest gains, immediately demanded the dissolution of Parliament and new national elections.

The municipal elections had no effect on any party's standing in Parliament. But the Socialists claimed the elections showed the present Parliament, controlled by the conservative Social Christians, no longer represents the country.

Incomplete returns showed the Communists suffered a setback greater even than the government faction. The Reds lost seats in municipal councils they had held since 1946.

The Socialists gained most of the council seats lost by the Communists and some lost by the Social Christians. The conservative Liberals took the rest of the Social Christian losses.

Bobcats are found in every state of the United States.

## 'Wet Years' Will End Drought, But It Will Only Be Temporary

MINERAL WELLS, Oct. 13 (AP)—A series of "wet years" will end the current Texas drought but the relief will be only temporary. And it might be dangerous because it will bring a let-down in the will to find a real solution to the water problem.

That promise and warning was given the Texas Water Conservation Assn. today by Dr. J. R. Johnston, executive head of Texas A&M's new Water Research and Information Center.

When the rains return, said Dr. Johnston in his prepared address, "a lot of people will want to stop worrying about our water problems. We cannot let that happen."

The association's eighth annual convention was formally called to order today by Guy C. Jackson Jr., Anahuac, TWCA president. A meeting of the executive board and resolutions committee yesterday preceded convention sessions.

Denunciation of President Truman's veto of legislation restoring tidelands to the state was the gist of one of several resolutions approved by the committee for presentation to the convention.

The resolutions—all of them expected to win approval on the floor—criticize as socialist the administration policy of setting up "valley authorities" and oppose Bureau of Reclamation policies.

Dr. Johnston, who substituted for Texas A&M Chancellor Gibb Gilchrist, said the potential water supply in Texas is "sufficient for

the needs of a growing state for as far into the future as we can see."

But "the water problems we face in Texas today will increase a thousandfold in the years ahead unless we start now to meet them."

Industrialization and the shift of population to the cities has increased the Texas per capita water consumption drastically, he said. The long-range solution, he declared, must include not only more dams and reservoirs, sensible regulations on pumping and irrigation, but also some unusual steps. These include purification and reuse of water now discharged through city sewage systems, he said.

Dr. Johnston said A&M is working toward an inventory of Texas water resources. This is being done by the Water Research and Information Center which he heads and which is collecting and organizing all available information, developing a research program and setting up a program to train young men "for effective technical service in this field."

Another speaker was the top U. S. Army Engineer in Texas, Col. Herbert D. Vogel of Dallas, who is division engineer for the Southwest. The engineers have built and are building many of the dams and reservoirs in Texas needed to store water during rainy periods for use when rainfall is less than normal.

Col. Vogel, probably thinking of accusations that the engineers are sometimes too aggressive in pushing their reservoir plans, said the agency's only ambition is "to serve you well."

"I want you to know that we have no exaggerated idea of the role that we have to play," said Col. Vogel in his prepared address. "The actual responsibility for water development should rest with the smallest group that can provide for its own needs. This tends to keep problems at home and avoid an over-centralization of governmental control."

A host of key national and state figures in water conservation addressed the water-conscious delegates from every section of the state.

TWCA President Jackson has

called the convention "one of the most serious and important conferences in the state's history."

Last night Jackson in an address to the association's directors called on delegates to "let the chips fall where they may regardless of politics" as they delve into the state's water problems.

The meet extends through tomorrow.

The resolutions committee today presented a report to the convention for study. Resolutions will be acted upon at tomorrow's closing session.

Two Big Springers are participating in the Texas Water Conservation Association annual meeting in Mineral Wells.

R. T. Piner, president of the Colorado River Municipal Water District, is to be a speaker on the program. E. V. Spence, CRMWD general manager, is a member of the committee on resolutions, serving on a municipal section of the committee.

**Kiwanis Prexy**

In Colorado City, Kiwanians have elected Wendell Shifflet, 47, district clerk for Sun Oil Company, as president for 1953. He takes office Jan. 1. Shifflet has been a resident of here since 1950. Together with Noble Walker and Elliott Dixon, he has been named delegate to the Kiwanis convention now in progress in Austin.

## Longest Over-Water Jet Flight Completed

By WILLIAM C. BARNARD  
AN AIR BASE, Northern Japan, Oct. 13 (AP)—Forty-seven U. S. F-84C Thunderjets flew here from Midway Island today in the longest over-water jet flight ever made by single-engine jet fighter aircraft.

At the end of the lonesome, 2,500-mile trip, the flight leader, Col. Donald J. M. Blakeslee, declared: "With enough refueling you could fly a Thunderjet nonstop around the world."

The jets were timed at six hours and two minutes, an average speed of 460 m.p.h.

Twenty-eight others are due in tomorrow. That will end the second mass flight of jets from the U. S. to Japan.

At least four pilots had only minutes of fuel left. The tanks of one jet ran dry as the pilot taxied down the runway.

One plane turned back because of engine trouble.

B29 tanker planes refueled the jets over the Pacific.

The jets, the 27th Fighter-Escort wing from Texas, replace the 31st which has been on duty in Japan three months. It made the first trans-Pacific mass jet flight in July.

The 27th's flight was much trickier than the first because of the new route which included the Midway-to-AJapan jump.

Blakeslee, Fairport Harbor, O.,

led his men from Bergstrom Field, Austin, Tex., on a flight of 7,800 miles with stops at Travis Air Force Base, Calif., Honolulu, and Midway. The planes left Texas Oct. 3.

The jet flight left Midway at 5:10 a.m. today and the first of the planes landed here at 11:12 a.m. The pilot was Maj. Allen Gilbert, Austin.

Brig. Gen. Delmar T. Spivey, commanding the Japan Air Defense Force, greeted the pilots. He said the 27th will be on defense duty in Japan and will not go to Korea.

The pilots were in high good humor.

"Never saw so much water before in my life," said Capt. Robert H. Walker, Austin. "I saw enough water to last me from now on."

One Marine flew with the 27th on an exchange-pilot basis. He is Maj. Thomas C. Billings, Temple, Tex., who once flew with the First Marine Air Wing in Korea. Billings is the first Marine to fly a jet across the Pacific.

Of his Air Force buddies he said: "They are terrific pilots. But the Marines have some darned good pilots, too."

## '53 Wool Production Due To Be The Same

WASHINGTON, Oct. 13 (AP)—U. S. wool production in 1953 probably will be about the same as this year, the Agriculture Department predicted today, with returns to growers little different from 1952.

The 1952 rate of sheep and lamb slaughter indicates stock sheep numbers at the beginning of next year probably will be about the same as this year, it said in a 1953 outlook report.

Combined shorn and pulled wool output in the U. S. this year has been forecast at about 260 million pounds, grease basis, with shorn wool accounting for about 229,800,000 pounds.

World production probably will be up slightly from 1952-53 and stocks are somewhat larger than last year, the agency said. It added the sharp decline in world wool consumption which began early in 1951, reached a low during the third quarter of last year and has increased slowly since then.

Use of apparel wool by U. S. mills has increased gradually since early this year when it reached the low of a decline which started early last year, the department said. This trend, it added, reflected a "strengthening of mill demand associated with an upturn in sales and orders and reduced inventories between mill and consumer."

Mill consumption in this country next year may exceed slightly that of this year if defense requirements do not decline and economic activity and consumer purchasing power remain high as expected, the report added.

The department said the world synthetic fiber industry plans "a substantial increase in productive capacity for the manufacture of staple fiber."

The report said prices at Boston for most domestic shorn wools late last month were below pre-Korean levels and under the corresponding low values. It added prices received by growers for shorn wool this year have averaged below the national average low value of 54.2 cents, grease basis, each month since the 1952 support program began.

A substantial amount of shorn wool has gone under loan, it said. The department expects prices to

It declared price support for wool will be available next year, and planning the law provides the price shall be supported at such level between 60 and 90 per cent of parity, to encourage an annual production of "approximately 300 million pounds of shorn wool."

growers this year will be about the national average low value. This is below the 99.5 cents for the 1951 clip and slightly below the 1950 average of 57.3 cents.

Fine wool prices at the opening sales of the season in Australia were 5 to 10 per cent under the closing prices of last June but 15 to 20 per cent above last March's low levels, the report said, adding that prices since the opening have shown an upward trend.

### Better Cough Relief

When new drugs or old fail to help your cough or chest cold don't delay. Creomulsion contains only safe, helpful, proven ingredients and no narcotics to disturb nature's process. It goes into the bronchial system to aid nature soothe and heal raw, tender, inflamed bronchial membranes. Guarantees to please or your druggist refunds money. Creomulsion has stood the test of many millions of users.

**CREOMULSION**

## Slayer Of 4 Sought In California

CHESTER, Calif. (AP)—Authorities today hoped a bloodstained lead pipe and a brutally beaten little girl would help them find the robber who beat a grocer and three other children to death near here Friday.

"It's just a matter of time before we get him," said the Plumas county district attorney, Bertram Jones.

The pipe was found yesterday near the dusty logging road where the bodies of Gard Young, 43, Chester grocer, and three children were found stuffed into the trunk of Young's auto.

The partly-closed trunk also held a beaten, unconscious fourth child, Young's 3 1/2-year-old daughter, Sondra.

Sondra is slowly recovering from skull fractures at nearby Westwood Hospital. Similar wounds, presumably inflicted with the pipe, killed her father, two sisters, Judy, 8, and Jean, 7, and a neighbor, Michael Saille, 4.

"I'm banking a lot on what the child will tell us," Sheriff M. H. Schouler said. "She's a bright little girl, way beyond her years."

Grocer Gard Young had taken the four children to Westwood on his weekly trip to withdraw money from the bank for Saturday's big check cashing business.

Some \$7,100 Young withdrew is missing. Police said the slayer must have known this routine and felt it necessary to bludgeon the children because they presumably recognized him.

Sondra was placed under guard at the hospital, officers said, on the theory the killer might try to remove her as a witness.

Three Arkansas men were detained for questioning yesterday at Albuquerque, N.M., because their eastbound car roughly resembled a blue Buick reported seen trailing Young's Friday. But New Mexico State Police Capt. Archie White said their story of having been in Las Vegas, Nev., gambling last week checked out and they probably would be freed today.

## Mrs. Katie Moeser Funeral Set Today

COLORADO CITY — Funeral services for Mrs. Katie A. Moeser, 80, will be held here at 5 p. m., Monday from the Kiker and Son Chapel in Colorado City. Dr. P. D. O'Brien, Baptist minister from Big Spring, will officiate. Burial is to be in the Colorado City Cemetery.

Mrs. Moeser died shortly before midnight Saturday in the hospital after a three month's illness. She was born in Pennsylvania June 9, 1872, and had married William H. Moeser, December 23, 1896 at Edmond, Oklahoma. She had lived in the city for 68 years and was a member of the Baptist Church. Mr. Moeser died November 1, 1914.

She is survived by six children: three sons, William Moeser of Big Spring, Edwin Moeser, assistant postmaster at Colorado City, and Charles Moeser, of Lubbock; three daughters, Miss Ima Dot Moeser of Corpus Christi, and Miss Violet Moeser and Mrs. Annie Davis, both of Colorado City.

Additional survivors are three grandchildren and a niece and nephew, she helped to rear, Violet Hughes of Madison, Wis. and Russell Hughes, Henrietta, Okla.

## Home Badly Damaged By Flames Sunday

The Darrel West home in Big Spring was badly damaged by fire of undetermined origin Sunday morning.

The house was 25 per cent destroyed and approximately 40 per cent of furnishings and other contents were consumed by the blaze, firemen said. The fire occurred about 10:45 a. m.

The West residence is located on Lorilla Street, north of Highway 80 in the western part of town.

## 29 Smugglers Dead

RANGOON, Burma, Oct. 13 (AP)—At least 29 smugglers carrying goods to the Thailand border reportedly have been killed in a clash with remnants of Chiang Kai-shek's Nationalist Chinese forces that took refuge in Burma after the Communist conquest of China.

## Sparkman Drives In Adlai's State

QUINCY, Ill., Oct. 13 (AP)—Sen. John Sparkman campaigned today in the home state of the Democratic ticket leader, Gov. Adlai Stevenson, and was scheduled to speak here and in Peoria.

The Alabama senator, candidate for vice president, flew in Sunday from Greybull, Wyo., where he told an audience of 1,000 Saturday night the development of Wyoming's natural resources was "the product of a progressive Democratic administration."

## Tops all pickups!

International light-duty pickup models available with 6 1/2, 8, and 9-foot bodies. GVW ratings 4,200 to 8,600 pounds. Ask about AD-A-RAM attachment to increase pickup body utility.

Better roads mean a better America

Think of every feature you've ever wanted in a pickup truck. Then come in and see International. You'll find them all. You'll find them right. And you'll find more besides.

Here's a real thoroughbred truck engineered to serve you economically for years. A sweetheart to handle and park. With the pep and power of a valve-in-head engine that's downright stingy on gas.

This is all yours in International—the pickup that tops 'em all.

- Real truck engines! Silver Diamond valve-in-head engines are truck engines through and through! Extra power when you need it. But here's the payoff. They're real gas misers, too!
- Man how they handle! International has really taken the work out of truck driving with its new super-steering system. Wider front axles make possible a full 37° turning angle for easier handling and greater maneuverability.
- Real driver comfort! Because it was designed by drivers for drivers, the Comfo-Vision Cab is the roomiest, most comfortable cab on the road. The seat holds three with ease. You look through the one-piece Sweepstare windshield for perfect visibility. New green-tinted, non-glare safety glass available.

International stake trucks like this are available in a choice of 1/2, 3/4, and 1-ton sizes, 115, 127, and 134-in. wheelbases. Body types—stake, pickup, panel, Metro, utility and others.

International stake trucks like this are available in a choice of 1/2, 3/4, and 1-ton sizes, with 7 1/2 and 8 1/2-foot bodies.

International panel truck comes in 1/2 and 3/4-ton sizes with 7 1/2-foot body. Your choice of 10 beautiful colors.

To get the right International light-duty truck for your job, come in and talk things over—

## New Royal Has Some Amazing Time Savers

The new Royal typewriter, acclaimed by its manufacturers to be the greatest machine of its kind of all time, is available here at the Thomas Typewriter and Office Supply, located at 107 Main Street.

The new Royal boasts, among other features, the amazing new "Magic" Tabulator, which enables the user to use that key without changing the positions of his fingers against the keyboard. Instead, he employs the palm of his right hand to make the adjustment.

In addition, the new Royal boasts sensational new carriage control, extra "personalized" keys plus 17 time-saving features.

Thomas' concern, owned and operated by Gene Thomas, also has in stock the new R. C. Thomas adding machine, perfectly suited for figuring totals up to six figures. It becomes especially handy in the modern grocery store, where time is always at a premium.

Among other features, it has a direct subtractor. It only recently arrived in the Thomas establishment.

The famous Precise adding machine, along with the 12 pound Swift make, are also sold by the concern and both are in great demand in the local area.

Thomas' is a favorite shopping place for such items as paper, binders, inks, filing cabinets, cabinets, safes and other items so essential in the modern office.

Business telephone number of the concern is 98.

## Select Weather You Want At A Flip Of Finger

Weathermaker makes your weather to order by a simple flip of the finger, summer or winter. It's that easy with this efficient and compact combination heating and cooling unit now available at Western Insulating Company, 206 Austin Street.

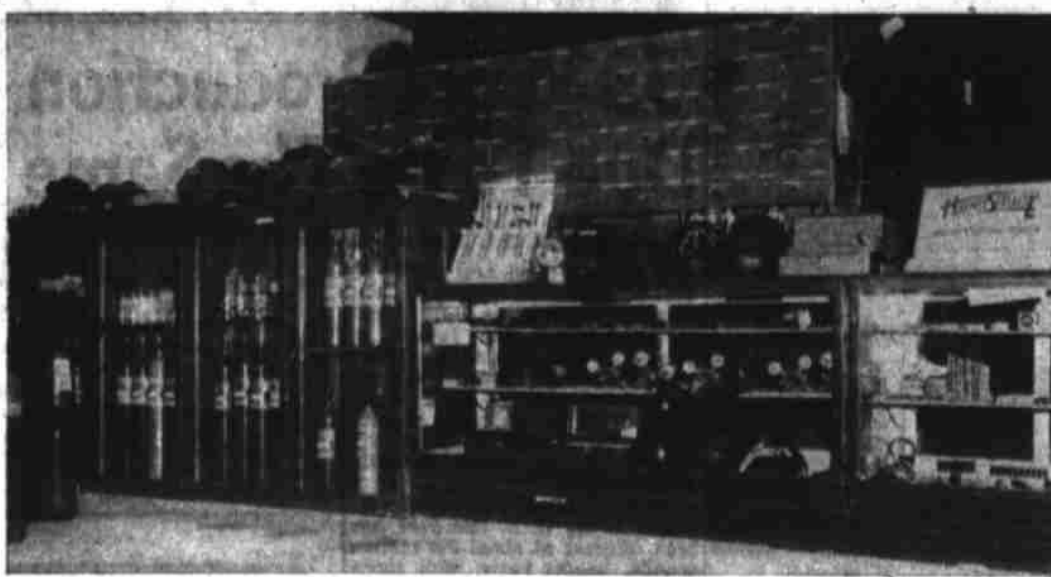

Unlike so many of the dual purpose units, the Weathermaker does not require any mechanical changes to switch from heating to cooling, or vice versa. A switch is simply flipped one way or the other. Desired temperatures may be dialed on the thermostat.

Because of its unusual design, the same fan takes care of either heat or cold. An unique feature is that the fan actually will circulate up to 25 per cent more air when it is passing through the cooling side of the unit.

When the cooling unit is in use, air is drawn through the large filters at the bottom of the unit. The fan then forces this clean air through the big cooling coil where it is cooled and demineralized. From there it flows through ducts to grills in the rooms. No air passes through the heating section, which permits more air to be delivered without increasing fan speed.

Two exclusive features make the Weathermaker quieter. The fan operates with less effort, and it is spring-mounted and is completely isolated from the ducts. The refrigerating unit also is spring mounted.

Western Insulating Company, of course, handles all types of heating and cooling units, including the highly popular and efficient perimeter heating, floor furnaces, wall panels, etc.

## Plenty Of Welding Materials

A good supply of all types of welding materials, including tools and machinery, is always available at the T & T Welding Supply Co., located at 605 East Second Street in Big Spring. This firm provides service for a big territory of West Texas.

## Ranch Oak Furniture Gaining Popularity

Barrow-Phillips Furniture Company, 211 West Fourth, has recently received a new shipment of Ranch Oak furniture. W. L. Thompson, store manager, said that more than 100 different varieties of the informally designed furniture is now in stock.

"The Ranch Oak furniture is as informal as a Texas Ranger," Thompson said. "It is comfortable and has a cordial and friendly atmosphere."

Pieces for every room in the house are available. Double and triple dressers, dining room tables and chairs, twin and bunk beds, desks, sofas, sectional pieces, and occasional chairs are among the types.

Thompson said that any of the furniture could be obtained with a 10 per cent down payment. Complete suits or individual pieces can be purchased.

Ranch Oak furniture is a permanent type and will be handled at the store permanently, he said. Additions can be made to the Ranch Oak line anytime the customer feels like it.

The furniture is built of sturdy and solid natural oak. It is hand rubbed and kiln-dried, and the hardness prevents dents and scars, Thompson said.

"It has a warm, natural tone and is simple and honest. That is the reason so many people like it," Thompson stated. "It has an easy, inviting mood and gives a glow of hospitality."

Thompson further stated that the furniture was "pleasantly priced" and within the range of the average individual.

Upholstery on the furniture is both leather and fabric. The customer can take his choice. Practically any color or design desired can be furnished, Thompson said.

The joints in the Ranch Oak furniture are all double dovetailed with the use of birch spiral groove pins. Drawer interiors are solid white oak and plywood bottoms, Thompson said.

Thompson said that matching carpeting could be furnished from the Bigelow and Lees stock. The store has many new styles to select from, he said, both wool and cotton carpeting. The store manager stressed the fact that the carpeting holds the entire decoration of the room together.

In addition to the Ranch Oak Lees carpeting, Barrow-Phillips has "Everything for the home can be found here," Thompson said.

The selection varies from the ultra modern theme to the regular line of upholstered furniture. A large variety of table and floor lamps, pictures and corner tables, refrigerators and gas ranges are in stock.

Barrow-Phillips will give free estimates on carpeting jobs with no obligation to the customers. All carpeting is installed with smooth edges—no tacks exposed.

Albert Garcia, the carpet man, has many years experience in the business.

Wilma Allen is the bookkeeper at the furniture company, and she will discuss any time-payment plans or problems with the customers. Mrs. Ruby Lee Choate, saleslady, will help with decoration problems on request. Bill Stovall, delivery boy, is on call during store hours, from 8:30 a.m. to 5:30 p.m. daily.

## Teachers Like Baldwin Pianos

Music teachers know music—and they know pianos, too.

It's no mere coincidence, then, that 80 per cent of the piano teachers in the city are using pianos made by Baldwin.

Adair Music Company 1708 Gregg, can point to another interesting fact, too, namely that the great preponderance of students are using Baldwin-made pianos also.

Mr. and Mrs. Jack Adair feel that back of this heavy choice has been earned by the excellence in performance of Baldwins, Hamiltons and the Acronics.

A century of piano making stands behind Baldwin. Many of the craftsmen, the best in the field, have been with the factory for two score or more years. Back of these Baldwins also has a vast store of experience and know-how in selecting materials for quality, clarity and resonance as well as durability. Thus, every product turned out from the factory is the best that Baldwin knows how to make.

The preference for Baldwin pianos is by no means a local proposition. Throughout the wide expanse of West Texas in which Adair Music serves, Baldwins have been specified by teachers and by parents of young people. Institutions such as schools, churches and others having need of instruments for entertainment or accompaniment have specified Baldwin. In this area this has appeared to be almost the rule.

Thixton Provides Many Services

Motorcycle, bicycle, tricycle and lawnmower repairs are among the services available at Cecil Thixton Motorcycle Shop, 908 W. 3rd.

Thixton makes repairs of all kinds, major or minor, and offers all the other services that make motorcycling a real sport. Any bike or tricycle defect also will be corrected at Thixton's.

Paint service at the motorcycle center is among the best available anywhere. A Thixton paint job—any color—gleams like porcelain and endures as well as a factory job.

The concern also repairs and sharpens lawnmowers of all kinds. Thixton is dealer in Big Spring for the Reo line of power motors.

## Heating Equipment Should Be Checked

E. A. Fiveash, owner and operator of the Fiveash Plumbing Company located at 821 East 3rd, received personal satisfaction from the number of phone calls he received during and following the recent cold spell.

Most of the people trying to light their furnaces found that the controls needed cleaning, he said. The result was a barrage of calls for plumber service.

Fiveash said that the cold weather also reminded people that preparations had to be made for the winter. That was where Fiveash was satisfied. For he has been preaching preparation for the past two months.

"People have started to realize that they must get their plumbing in order for the time temperature readings go below 32 degrees," he said.

Fiveash is prepared to adjust gas stoves, insulate pipes, fix outside cutoffs, and clean furnace controls. Service can be obtained by simply calling 310 on the telephone, he said.

The plumbing company is also taking orders for heating equipment. Parts for gas stoves have been stocked, and floor furnaces and other type heating units are available.

"We have the equipment, manpower, and the necessary material for all kinds of plumbing jobs," he said. The company is noted for high quality service in residential and commercial work.

Fiveash is both a contractor and operator. He will tackle any plumbing job, claiming that none are too big. Installations in new constructions and repairs in existing plumbing systems are part of the firm's work.

An ample supply of pipes and fixtures are in stock in the office at 821 East 3rd. Also in stock are pipes and fittings of all sizes and types. Water heaters of all the standard brands, sinks, bathtubs, water closets and other plumbing furnishings are also sold. Fiveash said.

A special advisory service is furnished at Fiveash Plumbing Company. Information regarding FHA loans for plumbing installations is available. The FHA loans can be obtained by people wishing to remodel existing plumbing systems or by those wanting new fixtures.

Fiveash also said that free estimates would be made on all plumbing jobs.

# Howard Shallow Venture Has Shows, Dawson Well To Final

Cosden set pipe on its No. 1-B Jones, a Coronet-2900 venture in northeast Howard County, after encountering good shows in a core.

Another producer has been added in the Mungerville-Pemwell area where Texas No. 2-95 Classen made a strong flow. An outpost, Rutter & Wilbanks No. 1 Henry, has been plugged.

No shows surfaced on a test in the Pan-American No. 1 Hamlin, two miles south of the Vealmoor pool.

North-central and northern Dawson deep tests took drillem tests. Some stains were noted on one core in Standard No. 1 Flynn, north-west Martin exploration which is preparing for a drillem test.

### Borden

Plymouth No. 1 Miller, C SE NW 390-97, H&TC, was trying to straighten a crooked hole. Total depth is 698 in lime and shale.

Superior No. 1-598 Jordan, C SE SW 598-97, H&TC, was at 8,375 in shale and chert.

Superior No. 2-517 Lemons, C NW NW 517-97, H&TC, was past 4,921 in lime.

### Dawson

Cities Service No. 1-B Leverett, C NW SW 3-4, Cunningham, was at 8,430 in lime and shale. A drillem test was taken from 9,366-9,390 for four hours. A 1,180-foot water blanket was used. Recovery was immediate and there was a fair blow throughout. Recovery was the 1,180-foot water blanket and 1,300 feet of mud with salt content of 178,000 parts per million.

Standard No. 1-4 Smith, C NE SE 2-H, EL&RR, was at 9,410 feet. A drillem test had been taken from 9,258-9,245 in Claco reef. The tool was open an hour and a one-half inch choke was used. Recovery was 10 feet of drilling mud with no shows and no pressures. Operator was preparing to drill ahead.

Texas Crude No. 2-95 Classen, C

NW SE 95-M, EL&RR, had taken potential but the final figure has not been announced. The Mungerville well flowed at the rate of 76 barrels per hour on the test and operator will call the potential later. Total depth was not announced. The 5 1/2-in. casing had been run to 8,575 and at that time operator said that 20-feet of the reef would be penetrated below that point before testing.

Texas Crude No. 1-85 Classen, C NE SE 95-M, EL&RR, had spudded and drilled to 230 feet where the 1 3/4-in. casing was run.

Wilbanks and Rutter No. 1 Henry, et al, 336 from the north and west lines section 5, Mungerville sub-division Cunningham survey No. 3, 12 miles northwest of La-

## Aggravated Assault Charge Filed Here

Aggravated assault charges were filed against Tom Samuel Jr., Negro, this morning in County Court. He is charged with cutting another Negro, L. C. Thompson.

Samuel was arrested by city police over the weekend. He had a cut in his leg which required 15 stitches to be taken. It is alleged that he cut Thompson, in the side. A warrant has been out for Samuel's arrest since Jan. 9, when he was charged with passing worthless checks. Officials said he would be held on both charges.

## County Officials Are Attending Trial

County Clerk Lee Porter and County Superintendent of Schools Walker Bailey were in Abilene this morning to attend a trial in the United States District Court concerning property in Howard County.

Porter took land records, and Bailey is scheduled to testify as to land formerly in the Morris School District.

## Auto Collision Noted Early This Morning

Gertrude T. Whitfield, 1301 Settles, and Dalton Perry White, Box 1080, were operators of automobiles in collision at Washington Boulevard and Princeton Street about 8:45 a. m. today, police said.

In collision at 302 N.E. 8th at 10 a. m. Sunday, two vehicles driven by T. T. Galan Jr., 303 N. E. 8th, and Fred Puga, 302 N. E. 8th, officers reported.

# EISENHOWER

(Continued From Page 1)

had predicted he could do for the party.

Brownell said he did not discuss with Eisenhower the question of issuing a public statement on the general's financial status. Eisenhower announced last Friday he would make such a report before election time and "anyone who is interested" might look at it.

However, a few days earlier, Eisenhower had told newsmen that he did not think at that time he would make such a public statement about his finances.

Reports were circulating in the Eisenhower party that the general might make a financial report sometime this week after returning to New York.

Tomorrow, Eisenhower pushes into Texas, where rebellious Democrats led by Gov. Allan Shivers have pledged their support in a move that has placed the Lone Star State among the doubtful states. Shivers is expected to introduce Eisenhower as one of his stops.

Wednesday, Eisenhower will make stops at Memphis and Knoxville, Tenn., before returning to New York and a campaign into some of the Eastern industrial areas.

The general took a two-day breather in Denver over the week end to rest up for this final push. He played a little golf with old friends and attended Sunday church services.

Eisenhower said he is not in favor of breaking diplomatic relations with the Soviet Union.

This was one of the subjects dis-

# County Balance Is \$480,392.22 After Payments

Howard County made a payment on its new courthouse building and still wound up with a balance of \$480,392.22 at the close of September.

The payment from the courthouse and jail building fund to contractors for work completed up to that time amounted to \$45,096.12. At the same time the county paid \$29,629.15 as principal and interest on the courthouse bonds.

In all, receipts for the month of September amounted to \$34,688.04, while expenditures totaled \$108,804.33.

Among the regular county funds, the road and bridge fund had the greatest expenditures, \$17,668.12, while receipts to that fund amounted to \$3,635.57, to leave a balance of \$67,586.20.

The officers salary fund had receipts totaling \$4,615.09, expenditures of \$8,861.02, to finish the month with a balance of \$32,166.65.

Other receipts during the month were as follows: Jury fund, \$70.19; improvement fund, \$53.96; road and bridge special fund, \$86.36; law library fund, \$20; lateral road fund, \$25,884.41.

Other expenditures during September included \$1,587.50 from the jury fund; \$4,617.27 from the general fund; \$861.90 from the permanent improvement fund; and from the library fund.

## 300 Vietnam Troops Are Killed By French

HANOI, Indochina, Oct. 13 (AP)—French Union forces killed 300 Vietnamese troops and captured 325 in the first winter offensive launched 65 miles southeast of Hanoi, the French High Command announced today.

Gen. Gonzales de Linares, commanding French troops, said scores of young Communist-led Vietminh soldiers bearing white flags walked into French lines and surrendered.

# Jim Wells Judge Gets Threat In The Mails

ALICE, Oct. 13 (AP)—The man who beat Dist. Judge Sam Reams in the July Democratic primary said today his 3-year-old son, Charles Jr., has been threatened with death.

Jim Wells County Judge C. Woodrow Laughlin told reporters of the threat as a special grand jury met to continue its investigation of the killing of Jake (Buddy) Floyd Jr., 22, Young Floyd was the son of a prominent lawyer and opponent of Political Boss George Parr, who backed Laughlin against Reams.

Young Floyd was shot Sept. 8 in what his father and officers have called a bungled political assassination plot. The grand jury was expected to make an "interim report" today. It reconvened at 8 a. m. and still was in secret session at midmorning.

Laughlin said he had received a postcard bearing the scrawled words, "Your son is next."

He said it was the third scrawled message he had received through the mails. Laughlin said he had notified the FBI and had been promised an agent would arrive today to investigate.

Laughlin said the first message, a postcard, arrived Sept. 24; a second, a letter, Sept. 30, and the third Friday.

He disclosed having received the messages in answer to questions by Mrs. Caro Brown, Alice Echo reporter, who had heard rumors about them and the wind.

Laughlin said the first two were not threats but insults against himself. The letter, he said, had the signature cut out and a notification at the bottom that it had been written by a fifth grade child.

Floyd was shot in the driveway of his home in what was termed a bungled assassination attempt on his father, Alice attorney and foe of political king-king George Parr.

Two men charged with murder in the shooting—Nago Alaniz, attorney, and Mario (The Turk) Sapp, San Diego bar owner—are in police custody here.

Parr's appearance before the investigating body last Friday climaxed the probe in which some 70 witnesses have been questioned. Alaniz was questioned a second time soon after Parr left the jury room, but he stayed only a few minutes. Parr talked with the jurors for about 90 minutes.

Neither Alaniz nor Sapp, both held without bond, have been accused of actually shooting young

## Service Is Set For Mrs. Ellett

Funeral services will be conducted at 10 a. m. Tuesday for Mrs. Olive Isabelle Ellett, 53.

Mrs. Ellett died about 2:30 p. m. Sunday. Services will be held at Park Methodist Church and burial will be in the city cemetery under direction of Eberly Funeral Home.

Rev. E. C. Armstrong, Park Methodist pastor, will officiate, assisted by Rev. Jim Boswell of Garden City.

Mrs. Ellett had been an active member of the Methodist Church since she was about nine years of age. She was a school teacher prior to her marriage. She lived for more than 30 years in the Center Point community, but recently had resided with a son, Thomas A. Ellett, in Big Spring.

Survivors include her son, a daughter, Mrs. E. L. Reeves of Sand Springs; two brothers, Mike Anglin of Longview and Hill Anglin of Amistead, N. M.; a grandson, Thomas Edward Reeves; and other relatives.

Pallbearers will be Cleo Reeves, Pete Thomas, Jack Franklin, J. Hill Anglin, Bobby Anglin and Clay Anglin.

## Auto Is Ransacked On Highway Saturday

S. B. Fournier, construction worker in Big Spring, has reported the ransacking of his car while it was parked on the Midland highway Saturday night.

Fournier said he parked the car after he had a flat on the way to Midland. Upon return Sunday morning, all the contents had been taken as well as one wheel.

He told Sheriff's deputies that items stolen included clothes, a watch, tools, and construction equipment. The glove compartment was ripped out, he said.

## Teachers To Meet

The Howard County Teachers Association will meet tonight at the speech room in Howard County Junior College. W. A. Wilson, Coahoma High School principal and president of the association, said talks will be made on school legislation, membership, and plans for the year. Approximately 50 are expected to be present, and the meeting begins at 7:30 p. m.

## Theft Charge Is Filed Against Man

Willie McKeelan was arrested this morning for allegedly taking a tire, wheel and tube from a 1951 Lincoln parked in Big Spring some time between Friday and Saturday.

McKeelan has been charged in Justice of the Peace W. O. Leonard's court with theft over \$50—a felony. The complaint was signed by Dennis L. Smith, owner of the automobile. Arrest was made by Deputy V. G. Grady after McKeelan had allegedly tried to sell the articles stolen.

## Band To Take Part In Monahans Fete

Big Spring High School band will be invited to participate in the Monahans Christmas program, to be held Dec. 3, John B. Zachry, Monahans Chamber of Commerce manager, has announced.

Several other area schools will be asked to send bands to the all-day program, Zachry said.

## To Face Charges

Pat Moor, Negro, was in County jail this morning facing charges of defrauding by obtaining things of value with worthless checks. Moor was arrested by Sheriff Jake Bruton. The prisoner allegedly gave Slim Lane a worthless check for \$10 on Sept. 25.

# COOL FRONT IS HEADING EAST, MISSING TEXAS

By The Associated Press

A cool front that had a date with Texas got cold feet at the last minute and went East for a New England engagement instead.

That left the state with mostly clear skies and balmy temperatures.

Winds were mostly southerly zephyrs and there was no rain for the drought-ridden ranges, croplands and dusty reservoirs.

Sunday afternoon's maximum temperatures ranged from 79 at Galveston to 97 at Presidio, after a morning low of 38 at Snyder.

Tuesday, the forecasts indicated, would be about the same.

## Mystery Fire Hits Hospital

HOUSTON, Oct. 13 (AP)—A mysterious fire in the basement of Jefferson Davis Hospital today sent smoke pouring into first floor corridors and destroyed new equipment used by polo patients.

Hospital Supt. A. S. Reeves ordered an investigation to ascertain how the fire, which actually was two fires some 12 feet apart, originated.

No one was hurt and the fire was put out minutes after firemen arrived shortly after the fire was discovered at 5:50 a. m.

Caused by the fire were three respirators and four folding wheelchairs. Damaged were five other wheelchairs. Most of the equipment was new and had not been uncrated, Reeves said.

The fire originated on insulation of pipes which carry salt brine to refrigerators, causing asbestos and cork to drop into the crates.

Patients did not know that there was a fire in the building and one supervisor said the nursing routine continued normally.

# Three Charged With Assault

Aggravated assault charges were filed against three men this morning in Justice of the Peace W. O. Leonard's court as a result of a beating at Knob Hill Station Saturday night.

The men were charged with beating G. W. Cathey, station attendant. Sheriff's officials arrested two of the men Sunday, and the third is being sought.

Arrested were Bill McLourey and A. G. Fred, both of Stanton, L. E. Simms, also of Stanton, is being sought. Deputy A. C. Abernathy said the men were traced through the license number on their car.

The three men, driving a 1951 automobile, allegedly tried to force Mrs. C. D. Lusk, driving to Abilene, off the road. Mrs. Lusk stopped at the Knob Hill station and asked protection, according to the owner S. F. Weathers.

Cathey said he told the three men to leave, and that they took a gun away from him and beat him. A .38 calibre pistol was found on Fred upon arrest.

Bond of \$500 each was set for McLourey and Fred in JP court this morning. At noon the bond had not been met, and the two men were in jail.

## Service Is Set For Mrs. Ellett

Jim Wells County Judge C. Woodrow Laughlin told reporters of the threat as a special grand jury met to continue its investigation of the killing of Jake (Buddy) Floyd Jr., 22, Young Floyd was the son of a prominent lawyer and opponent of Political Boss George Parr, who backed Laughlin against Reams.

Young Floyd was shot Sept. 8 in what his father and officers have called a bungled political assassination plot. The grand jury was expected to make an "interim report" today. It reconvened at 8 a. m. and still was in secret session at midmorning.

Laughlin said he had received a postcard bearing the scrawled words, "Your son is next."

He said it was the third scrawled message he had received through the mails. Laughlin said he had notified the FBI and had been promised an agent would arrive today to investigate.

Laughlin said the first message, a postcard, arrived Sept. 24; a second, a letter, Sept. 30, and the third Friday.

He disclosed having received the messages in answer to questions by Mrs. Caro Brown, Alice Echo reporter, who had heard rumors about them and the wind.

Laughlin said the first two were not threats but insults against himself. The letter, he said, had the signature cut out and a notification at the bottom that it had been written by a fifth grade child.

Floyd was shot in the driveway of his home in what was termed a bungled assassination attempt on his father, Alice attorney and foe of political king-king George Parr.

Two men charged with murder in the shooting—Nago Alaniz, attorney, and Mario (The Turk) Sapp, San Diego bar owner—are in police custody here.

Parr's appearance before the investigating body last Friday climaxed the probe in which some 70 witnesses have been questioned. Alaniz was questioned a second time soon after Parr left the jury room, but he stayed only a few minutes. Parr talked with the jurors for about 90 minutes.

Neither Alaniz nor Sapp, both held without bond, have been accused of actually shooting young

## Service Is Set For Mrs. Ellett

Funeral services will be conducted at 10 a. m. Tuesday for Mrs. Olive Isabelle Ellett, 53.

Mrs. Ellett died about 2:30 p. m. Sunday. Services will be held at Park Methodist Church and burial will be in the city cemetery under direction of Eberly Funeral Home.

Rev. E. C. Armstrong, Park Methodist pastor, will officiate, assisted by Rev. Jim Boswell of Garden City.

Mrs. Ellett had been an active member of the Methodist Church since she was about nine years of age. She was a school teacher prior to her marriage. She lived for more than 30 years in the Center Point community, but recently had resided with a son, Thomas A. Ellett, in Big Spring.

Survivors include her son, a daughter, Mrs. E. L. Reeves of Sand Springs; two brothers, Mike Anglin of Longview and Hill Anglin of Amistead, N. M.; a grandson, Thomas Edward Reeves; and other relatives.

Pallbearers will be Cleo Reeves, Pete Thomas, Jack Franklin, J. Hill Anglin, Bobby Anglin and Clay Anglin.

## Auto Is Ransacked On Highway Saturday

S. B. Fournier, construction worker in Big Spring, has reported the ransacking of his car while it was parked on the Midland highway Saturday night.

Fournier said he parked the car after he had a flat on the way to Midland. Upon return Sunday morning, all the contents had been taken as well as one wheel.

He told Sheriff's deputies that items stolen included clothes, a watch, tools, and construction equipment. The glove compartment was ripped out, he said.

## Teachers To Meet

The Howard County Teachers Association will meet tonight at the speech room in Howard County Junior College. W. A. Wilson, Coahoma High School principal and president of the association, said talks will be made on school legislation, membership, and plans for the year. Approximately 50 are expected to be present, and the meeting begins at 7:30 p. m.

## Theft Charge Is Filed Against Man

Willie McKeelan was arrested this morning for allegedly taking a tire, wheel and tube from a 1951 Lincoln parked in Big Spring some time between Friday and Saturday.

McKeelan has been charged in Justice of the Peace W. O. Leonard's court with theft over \$50—a felony. The complaint was signed by Dennis L. Smith, owner of the automobile. Arrest was made by Deputy V. G. Grady after McKeelan had allegedly tried to sell the articles stolen.

## Band To Take Part In Monahans Fete

Big Spring High School band will be invited to participate in the Monahans Christmas program, to be held Dec. 3, John B. Zachry, Monahans Chamber of Commerce manager, has announced.

Several other area schools will be asked to send bands to the all-day program, Zachry said.

## To Face Charges

Pat Moor, Negro, was in County jail this morning facing charges of defrauding by obtaining things of value with worthless checks. Moor was arrested by Sheriff Jake Bruton. The prisoner allegedly gave Slim Lane a worthless check for \$10 on Sept. 25.

# Atom Spies Denied A Hearing By Court

WASHINGTON, Oct. 13 (AP)—The Supreme Court today denied a hearing to atom spies Julius and Ethel Rosenberg, the husband and wife sentenced to die for giving American A-bomb secrets to Russia.

The denial lets stand unchanged the conviction and death sentence of the New York City couple—admits them another step closer to execution in the electric chair in New York's Sing Sing Prison.

Only a commutation of their sentence by the President can now save them.

The high court's rejection of the couple's appeal was announced in a brief order, which noted that Justice Black favored a hearing. The court's vote thus was 5-4.

The high tribunal at the same time and by the same vote denied a hearing to Morton Sobell, a Rosengbergs. He escaped the death penalty but got a maximum sentence of 30 years in prison.

Mrs. Rosenberg's brother, David Greenglass, testified for the government and helped send his sister and brother-in-law to the death house. Greenglass got a 15-year sentence for his confessed part in the spy plot. No appeal was filed in his case.

The death sentence given the Rosengbergs has been described as the first ever imposed in peace time by a civilian court in this country for espionage.

Judge Irving R. Kaufman in passing sentence in the U. S. District Court in New York City told the Rosengbergs their crime was worse than murder. He said:

"I believe that your conduct in

## Benson Rifles Set Tuesday

Last rifles will be sold at 2 p. m. Tuesday in the Eberly Chapel for Mrs. J. S. Benson, 85, who was a resident of Big Spring for almost two score years.

Mrs. Benson passed away Friday at the home of her daughter, Mrs. O. W. Morris, in LaMarque where she had lived since 1945.

Mrs. Benson was a life-long member of the Presbyterian Church. Rifles here will be conducted by Dr. R. Gage Lloyd, First Presbyterian minister.

Mrs. Benson was born in Hart County, Ky. and was married to J. S. Benson on March 17, 1888 in Bowling Green, Ky. They moved here in 1908, and he worked for the T&P Railway Company until his retirement in 1906. Following his death, Mrs. Benson made her home with her daughter.

Survivors are three daughters, Mrs. Earl Craig, Essex, Calif., nine grandchildren and 14 great-grandchildren.

Also surviving are a sister, Mrs. Hattie Chambers, Pagosa Spring, Ky.; a cousin, Mrs. Mary Delbridge, Big Spring.

Among other out of town relatives to be here are Mrs. Louise Morris, LaMarque, La. J. R. Gensert, Robles del Rio, Calif., Mrs. H. P. Kirchner, LaMarque, and Mrs. James Crowley, Tampa, Fla.

Railroad employes and other friends will be considered as honorary pallbearers. Mrs. Benson will be buried beside the grave of her husband.

## Compensation Suit Is Filed By Worker

Truman Goss, oil field worker, filed a compensation suit in 118th District Court today against the Texas Employers' Insurance Association. He is asking \$10,025 for injuries sustained while working.

Goss claims he injured his back on June 7 while working on a well in Howard County for the Livermore Corporation. He says he was moving pipe on the rack when he jerked his back, resulting in a ruptured disk, injuries to the nerves and legs.

Goss is asking \$25 per week for 401 weeks and requests that \$1,000 be advanced immediately to pay for debts accumulated while not working.

# N. J. Prison Outbreak Is Fourth This Year

TRENTON, N. J. (AP)—About 20 knife-wielding convicts barricaded themselves in a wing of Trenton State Prison last night in a two-hour riot that was quelled by machine-gun blasts.

Two prisoners were injured by ricocheting bullets fired over the rioters' heads by correction officers who smashed through a barricade of stools, tables and wooden scaffolding.

Three guards had been held as hostages, but were rescued unharmed in this fourth major outbreak in the prison this year.

The rebel convicts, described as "extremely desperate" long-termers, holed themselves up in Wing No. 7 upon their return from their evening meal, and, after locking 300 fellow inmates in another section, tried saving their way to freedom, one of the hostages said. But they gave up in their escape attempt when their makeshift hacksaws failed them.

Shouting defiance to prison officials, the rebellious band proceeded to break up portions of the wing. But a preliminary examination of the cell block showed that there was no serious damage.

The door to the wing was forced partially open by correction officers, and one of them managed to squirm through. He was covered by submachine-gun fire. Other guards followed and forced their way up each of the five tiers of cells.

Correction officers gained control of the wing, and the overhead blasts of machine-gun fire ended the rebellion two hours after it started. The rioters were placed

in segregation cells.

Acting Warden Lloyd W. McCorkle said the convicts were trying "to gain public sympathy for the men in segregation as a result of the previous riots." Reports also circulated that the convicts rioted in a demand for better living conditions, including television.

One of the wounded convicts was reported in serious condition in the prison hospital. He was shot in the chest. The other received only a superficial wound in the hand, prison officials said.

## Father Dies After Saving Wife And One Daughter From Fire

REDLANDS, Calif. (AP)—After leading his wife and youngest daughter to safety, a heroic father perished with his three other children while trying to rescue them from their flaming home.

Burned to death shortly before dawn yesterday were Glen A. Largent, 40, a disabled World War II veteran, his daughter, Glenda, 13, and two sons, Glen Jr., 9, and Gary, 8. Largent, a mechanic, limped from wounds he suffered in action in Germany.

Upon discovering the flames, he first helped his wife, Myrtle, 36, and another child, Renda, 2, to safety. Then he dashed back into the flames to the second floor bedroom where his three other children were sleeping. The floor collapsed and the father and children dropped into the flames.

## Paper Says Farouk To Be Charged With Treason After Coup

CAIRO, Egypt (AP)—The Independent newspaper Al Akhbar today said exiled King Farouk will be charged with treason for allegedly asking Britain's Army to quell the Egyptian Army coup last July that forced the monarch off his throne.

Al Akhbar added that Britain decided not to interfere in the Egyptian crisis after President Truman and Secretary of State Dean Acheson, on the advice of U. S. Ambassador Jefferson Caffery, strongly opposed any British action.

In Washington, a State Department spokesman said last night he had no comment.

## Douglas Has Plan On Political Ethics

By FRANCIS J. KELLY  
 WASHINGTON (AP)—Sen. Paul H. Douglas (D-Ill.) estimated today that the two major parties spend "not far from 75 million dollars" between them on campaign costs at all levels in a presidential year.

Douglas said small contributors furnish only a minor fraction of the funds, and that the big donors, in the main, expect something in return for their money.

Douglas proposed three remedies in his new book, "Ethics in Government," published today by the Harvard University Press.

He said a small number of contributors should be encouraged to give greater financial support to candidates and parties; a limitation of perhaps 10 cents per registered voter should be set on the campaign spending for presidential and congressional candidates; and consideration should be given to "moderate" community support of the campaigns out of tax money.

The Illinois senator estimated a House member has to spend a minimum of \$10,000 on his campaign in a closely contested district, and more commonly two or three times that amount. For a senator from a fairly large state, he set the necessary cost at from \$150,000 to \$200,000.

Douglas' book, based on a series of lectures he delivered at Harvard last January, recommended the setting up of a "code of ethical proprieties" to which public officials would be expected to conform, subject to dismissal from office for violation.

"This code, as drawn by a Senate subcommittee which Douglas headed, would forbid:

1. Engaging in any personal business transaction or private arrangement for personal profit based upon the official position or confidential information of the official.
2. Accepting any valuable gift or favor from any person or organization with which the official transacted government business.
3. Discussing future employment outside the government with any person or organization with

which there was pending official business.

4. Divulging confidential commercial or economic information to unauthorized persons.
5. Becoming unduly involved ("for example, through frequent other expensive social engagements") with persons outside the government with whom the officials did business.

Douglas disclosed that he has set an arbitrary \$250 cutoff on the worth of any gift that he will accept. Anything estimated to cost more than that goes back to the sender, he said. He reported this policy has kept him free of major involvements, "with a minimum of spiritual wear and tear."

## Proposals In Hospital Fight Given Shivers

TEMPLE, Oct. 13 (AP)—Gov. Allan Shivers has proposals by two Central Texas legislators to solve the state hospital problem resulting from the reactivation of Moore Field.

Yesterday State Rep. Lamar Zivley suggested in a letter to the governor a special session of the state legislature for "authorizing the construction of a tuberculosis sanatorium at any point in South Texas which the people of that area would approve."

Saturday Congressman Bob Poage of Waco wrote Shivers a letter asking the governor to join him in an appeal to the Air Force to halt or delay reactivation of Moore Field.

Facilities at the field near Mission have been used by the state for tuberculosis patients. But the Air Force says it will reclaim the facilities next spring.

Temple citizens have protested a suggestion by Shivers that unused portions of McCloskey Veterans Hospital here be used for displaced patients.

## Stevenson To Speak

NEW YORK (AP)—Gov. Adlai E. Stevenson will address a Democratic women's fund-raising luncheon at the Hotel Commodore on Oct. 28. He will be introduced by Mrs. Franklin D. Roosevelt.

## Army Chief In Tokyo

## Hempill-Webb Co.

## Gossard-Deb pull-on Girdle

So sheer, so light, its like wearing nothing at all . . . but its the making of a prettier you . . . and its done without bones in whisper-sheer tisseuet and satin elastic. White only.

4.98

Matching pantie girdle in white. 5.95

## Nufoam Doodlers for Women

100% Latex Foam Crocodile soles. Comfortable, tough, durable and washable . . . small, medium and large. Corduroy in red, royal, gold or yellow . . . Chenille in aqua only.

1.95

## Doctor Reports Skin Cancer Is Worse In South

TALLAHASSEE, Fla. (AP)—A Tampa physician says Florida's famous sunshine is not an unmixed blessing for residents of the state who are exposed to it all the time.

Dr. Morris Waisman goes into the good and bad effect of sunlight on human beings in an article in the current issue of the Journal of the Florida Medical Association.

He finds sunshine is so injurious to people with certain types of skin that "pre-employment examinations for screening out persons with skins unsuitable for outdoor work will probably in time become essential."

He points out premature aging of the skin occurs in people whose work or pleasure exposes them to sunlight over long periods.

Exposed skin becomes leathery, wrinkled, inelastic, freckled and dotted with small lesions which may develop into cancer. The lower lip is particularly likely to be affected and Waisman advised protecting it with a handkerchief tied across the lower part of the face or with a small piece of tissue paper stuck to it.

He said cancer of the skin is much more common in the South than in the North and "it is safe to say that the incidence in Florida is at least five times that in Northern states."

Blonds and redheads are much more susceptible to skin cancer than brunettes, Waisman found. Probably the best insurance against it is to be born of brown-eyed parents and have brown eyes oneself. Most of those who develop the disease have light-colored eyes. The condition is practically absent among Negroes and Indians.

## MSA Aide Falls To Death On Formosa

TAIPEH, Formosa (AP)—Dr. James A. Monroe of the U. S.

Mutual Security Agency in Formosa, fell to his death from a bridge yesterday while climbing Mt. Alishan in Central Formosa. Several U. S. authorities left

Taipei today to recover the body. The agency, for which Dr. Monroe was senior program analyst, declined to disclose his hometown or details of his death.
