The action was taken to assure safe delivery and pick up of school children.

Rex Turney spoke to the council on behalf of Police Chief Bill Allen who was unable to attend the meeting. Mr. Turney suggested that the Chief of Police be elected for a two year term rather than being appointed by the Mayor. After much discussion and an executive session later in the evening, the council, in regular open session voted to change the ordinance 268 section 3, to read "The chief of police and other members of the police force shall be appointed by the Council".

The council cast its votes for Barbara Kingsbery as representative on the board of the Coleman County Tax Appraisal District.

Other discussions were held on the sewer treatment plant and the landfill, but no action was taken. Accounts were paid in the normal manner.

The Santa Anna School Board met on Tuesday night, Nov. 12, with all members present. The board reviewed and approved the auditor's report of the 1984-85 financial records of the school district as presented by Henry Chlyer of Brownwood. It was Colyer's conclusion that the financial status of the school district was very good.

In other action, the board divided their 558 votes equally between Barbara Kingsbery and Dwight Nanny for places on the board of Directors of the County Tax Appraisal District.

The board approved a textbook committee made up of the various teachers who would be teaching the classes for which books will be purchased.

The Annual Performance Report

Firemen Answer Fire Call Monday Night

The Santa Anna Volunteer Fire Department made a run Monday night at approximately 8:00 p.m. to a trailer house on the corner of Bowie and Lee Streets. The home is owned by Bennie Diaz, and is currently rented by Jim and Brenda (Culpepper) Barker.

The call concerned a mattress that had caught fire from an electrical outlet shortage. Mrs. Barker had found the mattress smoking and on fire and picked up the mattress and carried it out the door, which probably kept the home from receiving heavy fire damage.

The trailer home received only minor smoke and water damage.

School Board Meets

Due to circumstances beyond their control, there are some who can only see bleakness for the holidays.

In Santa Anna there are groups of caring persons who would like to help. If you need help in providing gifts for your children or food and clothing for your family, or if you know of someone who needs this assistance, please write a letter stating those needs. Maybe there is someone whose problem is loneliness and would simply enjoy a visit.

All requests will be considered. No letters will be published and all will be held in confidence. Mail your letters to The Santa Anna News, Box 399, Santa Anna, Tex. 76878 and the needs will be turned over to the concerned groups.

CHAPTER 20
THE BECKS

From the highlands of Eastern France to the highlands of Central Texas is a long way, six thousand miles, and Henry Beck didn't finish the journey.

A native of Alsace, he came from a family who had been sheepman for generations, blonde northerners with the name said to have been spelled Beque. When the German hordes overrode Alsace and Lorraine, the easternmost French provinces, in 1871, many French retreated before the invaders. But the agricultural life in the western lowlands was not suited to the raising of sheep. Why not go to America? Henri Beque and his young wife had not really taken root in their new home, and they now set their faces to the land of opportunity in the new world.

They came first to Missouri, went into the sheep business, and there, at the small town of Black Walnut, two sons and a daughter, Henri, Firmin and Mary, were born. During this time, their name was Americanized to become Beck, and the cultured couple learned English in addition to the French and German which they had spoken all their lives. Beck made his will, naming as administrator a close friend, Ezra Overall, an attorney whose brother, Richard, had owned a ranch in Texas for several years.

Beck kept hearing of the fine grasslands in Texas which were free for the preemption or sold at a nominal price, where the winters were not much colder than Missouri but free from snow; he thought he would be more successful there, and the flock of sheep were started on the long trek, driven by the two sons, now in their late teens, and a hired man, Joseph Thide. Beck planned to go by train ahead of them and find a range which he could buy.

But he took suddenly ill and died. This created a dilemma for Ezra Overall, as the terms of the will were that the sheep be sold at public auction and the money paid to the wife and children. The sheep were already in Texas, a herd representing a tangible fortune, while in the new state some disaster might befall and the value be lost. A man of highest honor, he was not willing to accept the price bid at the auction, as he felt that in response to the trust of his friend he must assume the risk himself, and he bought the faraway herd.

He then took the train to Texas, and going with him was a nephew, Wilson Overall, who would take care of the sheep if the Beck sons had other plans. There was an antipathy to sheep on the part of many cowmen, and to drive them, even on free land, held some danger. Ezra Overall went ahead of them, making arrangements for their grazing, until he reached the ranch of his brother, Richard, on Home Creek, and here the sheep could be herded until some land could be bought.

At last the slow-moving flock, herded along by Henri and Firmin Beck, Wilson Overall and Joseph Thide, reached the Pecan Boyou, then saw and passed near the Santa Anna Mountains, and went on to upper Home Creek. Now that they had arrived safely, it seemed strange to have a day in which they did not have to drift the sheep farther west. They could hardly believe that any country could have so few in-

habitants, and they marveled at the long distances which they could see and travel without meeting anyone. Henri and Firmin usually spoke French, their mother-tongue and the language easiest for them, and the Texas settlers enjoyed their interesting accent and quaint usages of English.

Ezra Overall realized that the Beck brothers were on the way to a fortune, and he returned to Missouri; Mrs. Beck and the daughter had remained there, and Mary soon married a Frenchman named Pierron from the town of Pierron, Illinois.

The sheep did well on the hills of Home and Mustang Creeks, and the great bags of wool accumulated in the sheds, as there was no market for it nearer than Fort Worth. When the freighters' wagons started east with their high loads, Richard and Wilson Overall rode their horses ahead to choose camping places for the weeklong drive. They returned with wool-bags, sheep medicines and other needs, and Richard bought a nice new spring wagon; now his wife could attend church services, picnics and other functions which she had not wanted to go to in the big clumsy freight wagon, their only vehicle.

The first land bought by the Becks was Section 100, where there was and still is one of the best and deepest waterholes in West Texas on Elm Creek; they put up corrals and pens for the sheep and a house of sorts to live in, but did not fence the range since so much of it was free. The dislike of cattlemen for sheep was shown when three cowmen came by one day and warned the brothers against staying, threatening them with trouble. It was pointed out that the land where they were was owned, and that the Becks wanted to get along with their neighbors at all times, and they never had further trouble.

Before long, Firmin was riding to the Tom Pauley's, up in the postoaks, to visit the lovely Melinda Pauley and to escort her wherever he could find a pretext. She loved his attractive French accent, and saw him for the fine man he was, as well.

When their wedding was planned, Mrs. Overall helped her with the cutting and sewing of her wedding dress. Very few brides at the time could afford a dress which could be worn only once, and Melinda chose a practical dark wool which could be worn for years and then cut down for a child's dress. Rev. W. B. Bloys, the beloved Presbyterian minister, was notified, the cakes were made, and when the day came the whole community was there to see the ceremony.

As there was money to spend, more and more lands were bought and the herd was increased. The children came along, Oscar, Louis, Edgar, George and Curtis, and girls, Mary and Maggie; to the three languages which they all spoke was added another, Spanish, easy for them with their use of French, and it must have been amusing to hear them go from one language to another. Among their trusted employees were the Nixon brothers, Bill McClure, the Jackson, and Roy Bennett, and many fine Latin herders and shearers. On a hill southeast of the ranch headquarters are the graves of three Latin men,

one drowned and the other two died of natural causes. One of these was found dead by Curtis when a boy of twelve.

The Becks prospered well and all the children were given educations. One son, John Charles, died at the age of seven. The practical dark wool wedding dress was never cut up for a child's dress, as there was plenty of money, and it was saved as a keepsake.

It was a good day for Coleman County when the Beck sheep came straggling across the Santa Anna Mountains and up Home Creek. Through the years, Firmin Beck and his family have set the example of hard work, steadiness of purpose and character, and good citizenship. And then just think of the attractive Beck granddaughters, all blue-eyed blondes, who listen to the stories of the long journey from Alsace, and would not go back there if they could. They were Americans. They were Texans.

WINTER Skin Care Tips

A hot bath may be quite tempting on a cold night, but to best care for your skin, beauty experts say, keep the water temperature down. Hot bath water can dehydrate your skin and strip it of its natural oils, so it's best to bathe in warm water instead. That's especially true in winter, when cold winds and dry air can make your skin drier than it is at any other time of year.

Do You Get Your Paper On Time? Or Maybe Not At All!

We have had several complaints from people living out of town not receiving their paper each week, or when they do receive their paper, they also receive someone else's paper.

The News staff has checked with the postmaster in Santa Anna, Gary Absher, about what we and YOU can do about this problem.

We, as the staff of the paper, need to keep our files up-to-date and the stencils readable. Any time a complaint is filed with us, we check our stencils to make sure (1st) that there is a stencil and that it is readable, (2nd) if there is not a stencil, we then check to see why. Nine out of ten times, the subscription has run out. On occasion we make a mistake and pull a stencil that should NOT be pulled. If youurs has been one, please forgive us.

You, as a subscriber, should notify us at once if you do not receive your paper. Also, Postmaster Absher advises us that the problem of not receiving your paper on time each week or receiving someone else's paper along with yours should be reported to YOUR local postmaster.

So if you are having a problem let us know immediately and you also might let your postmaster know, too.

County Agent's Report Gold Star Award

by Kerry Shropshire

The 4-H Gold Star award is the highest 4-H award a 4-H member can receive on a county level. This award is determined by 4-H members completing a National Report Form. Usually 4-H members complete an entire 4-H Record Book. The County 4-H & Youth Committee then selects the two individuals who exemplify the greatest achievement in both project work and leadership through 4-H activities. 4-H Members being considered for the Gold Star Award must be at least 13 years of age and be an active 4-H member during the year.

Our first Gold Star Award recipient has been extremely active with her 4-H beef projects and her horse projects. She has also participated in 4-H Foods projects, record books, and served as a District 4-H Council Delegate. This outstanding recipient has been an officer in the Coleman 4-H clubs over the past years, served on county 4-H council and an eager worker for any 4-H activity or fund raising event. I am proud to announce Alissa Flynn as one of the

1985 Gold Star Award recipients.

Our second Gold Star Recipient has been active with 4-H lamb projects. He has been an officer in the Santa Anna 4-H club and served on county 4-H council. He has also served on the County 4-H and Youth Committee. Record Books are always a challenge, but this 4-H member finds time to fill one out each year. The Second 1985 4-H Gold Star Recipient goes to Sonny Guthrie. He has proven to be an excellent role model for his club members because he is always willing to pitch in when work is involved.

Congratulations to both Sonny and Alissa!!!

WATER VALLEY—Santa Anna charged into the playoffs Friday night with a 20-0 shutout over District 8-A West rival Water Valley, setting up a district shootout with 8-A East power Goldthwaite this Friday night in Early.

While the Mountaineers are returning to the playoffs after a one-year absence, they will be the second-place representative from 8-A's West Zone. Irion county, which tied Santa Anna 14-14 but had the edge in penetrations, also won Friday and will be considered the first-place team.

Santa Anna is 9-0-1 for the season and 6-0-1 in district, as is Irion County. Water Valley finishes 2-5 and 3-7.

The shutout was Santa Anna's sixth of the season. But despite controlling the game against the Wildcats, the Mountaineers led only 7-0 at halftime.

The first half score came early in the second quarter with 10:01 on the clock by Ramon (Bebe) Vasquez with a 15-yard run. The score capped a 10-play, 56-yard drive. Vasquez's PAT was good.

With 1:31 left in the third quarter, fullback Shelby Tuttle scored on a one-yard run to complete a 43-yard drive. The final touchdown was made by running back Craig Du-

quette with a one-yard plunge. The final touchdown was set up by an 80-yard run from Vasquez. Vasquez's PAT was again good.

Vasquez finished the game with 138 yards on 16 carries, making the season's total 1,297 yards on 191 attempts, an average of 6.8. Duquette ended the game with 81 yards on 16 carries while Tuttle had 34 yards on 10 carries.

The Mountaineers held a 16-9 edge in first downs, but was hurt by nine penalties for 85 yards.

The Santa Anna Mountaineers will travel to Early for a District 8-A playoff game against the Goldthwaite Eagles with kickoff set for 7:30 p.m. The game will be played at the Early High School stadium with Santa Anna Mountaineer fans using the South stands. Admission will be \$3 per person at the gate. Student tickets may be purchased in advance from the high school principal for \$2.00. Student tickets will be on sale until 4 p.m. Friday.

Fannies Funnies by Fannie Gilbert

Groom: What are you looking for, my dear?
Bride: I just washed the ice cubes in warm water and now I can't find them.

"I'm worried about your being at the bottom of your class," confided the father to his teenager. "Stop fussing, Dad. They teach the same things at both ends."

Neighbor: Your husband says he leads a dogs life. Is that right?
Wife: That's right. He comes in with muddy feet, sits by the fire and waits to be fed.

Modern parents divide their time between worrying over how their children will turn out, and when they will turn in.

Husband to wife driving car: How about letting me drive a while so I can relax.
