Thoughts

OF A COUNTRY EDITOR

BY JOHN C. GREGG

A THOUGHT FOR PARENTS

A lot of parents seem to have the idea that missing one or two days of school does not have any effect on their children and therefore take them out of school on occasions when it is not necessary for them to do so.

This year our school system is short on teachers because some students did not attend school regularly last year. According to R. K. Green, superintendent of schools, if only a few more students had been kept up a good attendance record, our school would have two more teachers this year. Most of the lower grades are overcrowded because under the law we are not entitled to more teachers.

The state bases the number of teachers a school is permitted to have on the AVERAGE DAILY ATTENDANCE from the previous year, and not on the number of students enrolled in the school. Parents are urged to see that their children are in school every day it is possible for them to be there.

Farmers Urged To Plant Winter Legumes Soon

Winter peas and hairy vetch have proven to be profitable soil crops for farmers and ranchers in the Coleman County area of the Central Colorado Soil Conservation District. Clyde Thate reported that on his farm west of Burkett, one-third more maize per acre was harvested following winter peas than his other fields where no soil crop had been grown. Thate's neighbors reported the maize following winter peas was outstanding over other maize throughout the season. Jim Gill stated that his land north of Coleman is in good condition after four years in biennial sweetclover and one year in winter peas, and that sudan following the peas is as good as he has ever grown in spite of low rainfall.

District supervisors, recognizing the acute need for soil crops, decided to push a campaign to encourage planting of a maximum acreage this fall to winter legumes. Both winter peas and hairy vetch have been grown in the Central Colorado Soil Conservation District for several years and found to be as drought-resistant as other commonly grown crops when planted according to recommended methods. Although neither of these crops is recognized as filling the total need for improvement of local soils, they do fit in a cropping system over a period of years. Best results from row plantings are obtained by breaking through the plowpan before planting so that roots can penetrate below it. Farm-owned equipment is suitable for planting either winter peas or vetch. District-owned fertilizer drills are available, also, at a nominal per acre fee.

Below is given the recommended methods and planting rates for the two crops:

WINTER PEAS:

1. Plant six to 10 pounds per acre in regular width rows. Plant in deep furrow on contour, cover same as maize.
2. Drill 30 pounds per acre alone.
3. Drill 20 pounds per acre with one bushel of oats.

HAIRY VETCH:

1. Plant three to five pounds per acre in regular width rows. Plant in deep furrow on contour, cover same as maize.
2. Drill 16 pounds of vetch with 20 pounds of rye or one bushel oats on sandy land only.
3. In regular rows, three pounds vetch with six pounds of rye or 10 to 15 pounds of oats.

GO TO CHURCH SUNDAY

A/3c Thomas R. Rutherford has completed his basic training at Lackland Air Force Base, near San Antonio and left Saturday, August 29, for Lowry Field in Denver, Colorado, where he will be for 5 months, taking a Munition Specialized course. He is the son of Mr. and Mrs. Tom Rutherford of Whon.

School Students To Get Free Medical Exams

On Monday, Tuesday and Wednesday of next week, Dr. Charles M. Henner will give each student of the first six grades a free medical examination. The examination will consist of a general physical check-up, including the eyes, ears, nose and throat. All students of these grades are expected to participate and any other student in the higher grades may have the examination if they so desire. The examinations will be given in the health department of the new elementary building from 9 to 11 a. m. each morning.

Dr. Henner said he felt it very important to the child's health that each one have a medical examination before beginning a full year of school, and that he was willing to give his services for this occasion.

Forms will be completed on each child and reports will be sent to the parents concerning their condition.

30 Boys Report For High School Football Training

Head Coach D. W. Behrens was agreeably surprised when 30 boys reported for football training at the first meeting early this week. This was about 12 more than was expected and prospects seemed to increase for a good football team this year. Seven lettermen from last year returned and several with some experience are back out again this year.

Training rules for the boys have been set up and the boys are expected to strictly adhere to them. The coach said that he would certainly appreciate the cooperation of parents in helping him see that each of the boys observed the training rules. Any boy who breaks the training rules will not only miss a game or two of ball, but will have to turn in his suit for the remainder of the year.

Boys reporting for workouts are:

SENIORS

Dean Bass, 3-year letterman; Jay Steward, 2-year letterman; Charlie McClellan, 2-year letterman; Donald Trull, 2-year letterman; and Joey Bryan.

JUNIORS

Danny Johnson, 1-year letterman; Dwan Cozart, Clyde Windham, Edmond Switzer, Billy Wayne Lowry, Benny Jack Garrett, Hollis Bible, transferred in from Coleman, and E. Hipsher, transferred in from Mozelle.

SOPHOMORES

James Allen, 1-year letterman; James Perry, 1-year letterman; Wess Wise, Donald Ray Owen, Hilary Rutherford, Donnie Clifton, Jerry Scarborough, William Bradley, Joe Bob Williams, transferred in from Coleman, and Kenneth Floyd, transferred in from Bangs. Floyd is not eligible to play but is coming out this year with the prospect of playing next year.

FRESHMEN

Don Parks, O. E. Smith, Kenneth Herring, Daniel Gilbert, F. E. Wagner, Jesse Haynes and Doyno McIver.

It is natural to expect a few of the boys will drop out before the season gets very far, but the coach said that if 25 of the 30 would stay out and work hard for the first few weeks, we would have a lot better ball club this year than he had any hopes of having.

The boys begin workouts Tuesday afternoon and are preparing for their first game with Junction on Friday, September 11th.

33 WARD SCHOOL BOYS COME OUT FOR FOOTBALL

A. D. Donham, Ward School Coach, announced this week that he had 33 boys in the 6th, 7th and 8th grades coming out for football. At this time their schedule has not been completed but will be made public as soon as it is completed.

Boys coming out are: Robert Perry, Eugene White, Bobbie Densman, Bobbie McClure, Kenneth Revelle, Charlie Fleming, Lyndon Haynes, Bobbie Ransburger, Wayne Wristen, Gary Don Floyd, Jackie Dillingham, Donald Ray, Jerry Johnson, Lowell Pembroke, Jerry Herring.

Jimmie Vineyard, Van Aldridge, Richard Brannan, Billy Singleton, Emmett Stiles, Kent Green, Roy Payne, Eddie Hartman, Kenneth Haynes, Joe Riley, Kenneth Harris, Joe Brannan, Donald Williams, Jean Close, Clyde Tackett, Travis Buse, Tony Tucker and Loyd Rutherford.

ANNOUNCEMENT

The Santa Anna P-T. A. will meet at 3:30 p. m. on Tuesday, September 8th, in the Elementary School building. Officers will be installed and Dr. Henner will speak. Meetings for the following months of the school year will be held on the first Tuesday in each month. Refreshment will be served starting at 3:15.

Mr. and Mrs. Virgil Vernon, the former Frances Bryan of Houston, and Mr. and Mrs. Charles Bell of Brownwood, were Sunday visitors with Mr. and Mrs. Bunk Wagner.

474 Students Enrolled On First Day Of School

A total of 474 students were enrolled Monday in the Santa Anna Public Schools. Enrollment in the elementary school was 316 and the high school enrolled 158. Six more students had enrolled in the elementary school soon after the second day began and one had enrolled in the high school.

On the closing day of school last year the elementary school had 337 students enrolled. It is expected that about 340 students will be enrolled before the school term has progressed very far. In the high school for the 1952-53 term, 160 students were enrolled and during the course of the year the school gained eight students and lost eight students, making the same total at the end of school. It was expected that two students would enroll in the high school on Tuesday, making their total enrollment 160 again this year.

Enrollment by classes in the elementary school was First, 36; Second, 45; Third, 39; Fourth, 44; Fifth, 43; Sixth, 41; Seventh, 35; and Eighth, 33, plus six students enrolling on the second day. By classes in the high school the enrollment was: Ninth, 43; Tenth, 44; Eleventh, 39; and Twelfth, 33.

Mrs. Marie Turner and Mrs. Ruth McIver will teach the first grades; Mrs. J. L. Harris and Mrs. Harry Crews the second grades; Mrs. La Juan Lancaster the third grade; Mrs. B. A. Parker the fourth grade; Mrs. Ruth Odum a combination fourth and fifth grade; Mrs. James A. Harris the fifth grade; and the sixth, seventh and eighth grades will have department studies with A. D. Donham, Mrs. Beulah Sparkman, Mrs. Gertrude Martin and James A. Harris teaching the classes. James Pollard, assistant high school coach, will teach history in the eighth grade and history and geography in the sixth grade.

In the high school Page Mays will teach English and Speech; Roy Mathews, Science; Mrs. Maude Evans, English; Mrs. Jessie Williamson, Commercial subjects; Mrs. Winnie McQueen, Homemaking; A. D. Pettit, Vocational Agriculture; D. W. Behrens, Math and head coach; James Pollard, History and asst. coach; and Carl Gilkerson, Band.

Lions Den

Frank Partridge of Talpa, Zone Chairman, and Arnold Allcorn of Talpa, were visitors at the regular meeting of the Lions Club and showed some pictures taken at the Crippled Children's Home in Kerrville, sponsored by the Lions Clubs of Texas.

The club had the best attendance this week that it has enjoyed since school was out in the spring. Lions Hardy Blue and O. J. Albro were appointed as the program committee for next week and Lions Jack Woodward and Jim Riley were appointed for the following week.

The club voted to sponsor several projects that have been suggested by the directors. Some of them are a Negro Minstrel in March of next year and a Chili supper in December of this year. A recreation hall is also being considered and plans are being worked out for it.

Mr. and Mrs. R. P. Barnard of O'Brien and Mr. and Mrs. C. W. Butcher of Ackerly, visited from Sunday until Tuesday with the ladies' parents, Elder and Mrs. C. H. Richards and Ellen.

Mrs. J. M. Weathers has been back in a San Angelo hospital more than a week now, where she had previously been treated for a serious heart affliction. Her son and daughter living in San Angelo, and Mrs. J. B. Weathers of Santa Anna are with her. J. B. goes and comes.

Carbon Black Plant May Be Located Here

(Editor's note: The following article appeared in the Sunday San Angelo Standard-Times, and so far as we can find out at the present time, it is as much information as has been released on the project. As other information is released it will be published in the columns of The News.)

The Lynn Carbon Black Co., Inc., will build a carbon black plant in Coleman County, Rice P. Lynn, president, stated Saturday.

The plant, which will have a capacity of 500,000 cubic feet of gas daily, will be located in a gas-producing area 18 miles south of Santa Anna.

"We have signed a gas purchase contract for all gas produced by wells drilled on a 3,500-acre block in that area," Rice P. Lynn, president said.

There is one gas well, recently

completed, on the block. This well, presently shut in, was completed Aug. 3 for a daily flow of one million cubic feet of gas. It is the Curtis McShan, 2 Ben W. from north and 150 feet from west lines of H. Frazier survey 244. The well found its gas production in the Fry sand.

Dr. W. H. Balka, consulting engineer of Dallas, has been retained to design the plant, which will be an improved version of the company's experimental plant in the Pulliam field, five miles west of San Angelo.

An analysis of the gas being produced by the McShan 2 arborough indicates that it will produce a high grade of carbon black, Lynn said.

The experimental plant in the Pulliam field established a number of records during test runs.

The new plant, developed by Lynn over a 20-year period, has turned out a grade of carbon black five points better than any similar black manufactured by conventional-type plants, according to its developer.

It has produced as much as 4.11 pounds of carbon black per 1,000 cubic feet of gas. Most conventional-type plants produce approximately 3/4-pound of color black per 1,000 cubic feet of gas, Lynn said.

The percentage of loss of black is far lower than losses currently sustained by conventional-type plants. Conventional-type plants lose approximately 85 per cent of the carbon black into the air, Lynn said. The experimental plant loses approximately 40 to 50 per cent and it is expected that a considerable portion of this loss will be eliminated in the Coleman County plant.

Balka informed Lynn Saturday that the Lynn process, with improvements, would be capable of producing, in the Coleman County plant, a minimum of 1 1/2 pounds of channel black and 10 1/2 pounds of color black per 1,000 cubic feet of gas.

Officers of Lynn Carbon Black Co., Inc., are Lynn, president; A. B. McCollum, executive vice-president and secretary; Frank Hawk, Midland, vice president; Marvin Hanz, treasurer; and Paul Jensen, assistant secretary.

Little League Closes Season With Good Record

The Santa Anna Little League baseball team closed out a very eventful season last Wednesday night by winning the Brownwood Little League Baseball Tournament. They defeated the Brownwood "B's" by a 9-8 score and Levines Team by a 4-1 score.

The clubs have played 34 games this season and have a record of 24 wins, 2 ties and 8 losses. Four of the losses were by one score and were never defeated by teams from Cisco, Coleman, Gorman and Bangs.

The team has been managed by Claude Bible and Bill Day. Both have worked hard with these boys and given their own time for the purpose. These men and all the members of the team wish to express their appreciation to all the merchants who have contributed so liberally to them, in order for them to have the team.

Until little Max Price moved away recently, he was the spark plug of the team, working from the pitching position. He pitched 25 games and won 21, tied 1 and lost three. He pitched one shut-out against Coleman. Two of the games he lost were the first and third games, the other being the last game he pitched. Other members of the team were: Eugene White, pitcher; Robert Perry, catcher; J. C. Bible, 1st base; Freddie Walker, 2nd base; Bobby Joe Densman, 3rd base and pitcher; Eddie Hartman, short stop; Arthur Windham, L. Field; Jerry Snodgrass, R. field; and Donald Ray, C. field. Subs were Junior Vasquez, Denny Densman and Roy Payne.

Methodist Attend Presbyterian Fifth Sunday Dinner

Last Sunday the Methodist congregation, in the absence of their pastor, Rev. Jack Payne and family, away on vacation, went to the Presbyterian Church after Sunday School, where they heard a sermon by Dr. Ben H. Moore.

Many of the Methodists took food items and remained for the covered dish luncheon, which the Presbyterians always have on the fifth Sunday, appearing in any month.

In the afternoon, Mrs. Charlie Fleming presided over the business session.

Plans were made for the Family Night, which was August 29. New officers for the coming year were elected as follows: Mrs. Albert Dean, Pres.; Mrs. Harry Wilson, Vice-Pres.; Mrs. O. H. Watson, Sec.-Treas.; Mrs. Oscar Boenicke, Council Delegate; Mrs. Rachel Cupps, Council Alternate; Mrs. Felton Martin, Newspaper Reporter.

Next meeting will be at the Mukewater Club room on September 9th, with Mrs. Jack Dockery as hostess.

Mrs. Bartlett Honored With Breakfast Wed.

On Wednesday morning, August 26th, Mrs. Edd Jones entertained informally with a breakfast honoring Mrs. Vernon Bartlett of Rochelle, formerly Miss Marie Rouse of Santa Anna.

Arrangements of a variety of cut flowers were used through out the dining area.

A center piece of sweet peas in a circlet of queen's wreath, adorned the breakfast table.

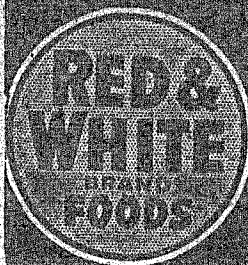

The honoree's appointment was blue and white, her chosen colors. A crocheted place mat of white medallions, joined with blue, was used, this being the last hand work of a friend and admirer of Marie's, the late Mrs. J. S. Jones.

Places were set for 10 and the ladies enjoyed breakfast mingled with conversation and good wishes. A gift was presented the honoree by the hostess.

Those present were Mrs. Lois Henderson, Mrs. Louis Zachary, Mrs. D. H. Moore, Mrs. Clifford Stephenson, Mrs. Arthur Talley, Mrs. W. W. Bartlett, Mrs. W. L. Campbell, Mrs. Preston West, the hostess and the honoree.

Betty Scott Honored With Shower-Party

The colors of green and pink were carried out in refreshments and decorations, when Miss Betty Scott, bride-elect of Roy Dale Henderson, was honored with a morning party and personal shower at the home of Mrs. Tom Kingsbery on Friday morning, August 28th. Miss Wally Foster greeted guests at the door and presented the gifts

The wedding date was announced by a small sign printed Betty and Roy, September 8th, standing before a miniature oil derrick surrounded by ivy, signifying the employment of the groom-to-be.

Other hostesses were Mrs. Billie Woods and Misses Shirley Lewellen, Jennie V. Calloway, and Carlene Mills.

Fifteen girls were present.

Jerry L. Cox Honored On Birthday

On Wednesday night, August 26th, Mrs. Marie Cox gave a lawn party at her home honoring her son, Jerry Lee Cox, on his 9th birthday. Lights on the lawn were surrounded with balloons.

Children that attended were Carol Sue Terrell, Brenda and Kathryn Zangus of Brownwood, Gregory and Dorenda Woodard of Coleman, Gary Hosch, Charles

Walker, John Sanders, Bill and Wallace B. Shipman, Milford and Jimmie Blanton, Joan Pye, Sue Wristen, Juanel Mercer, Ronnie Hardy Elaine and Patsy White, Jackie Cox and the honoree. Five mothers also attended. Games were played and special prizes given in contest games. A beautiful pink rosebud cake, baked by the honoree's grandmother Evans was served with ice cream cones, which all enjoyed.

Using Money

Lesson for September 6, 1936

CAN you use \$500? is the way a loan company begins its circular inviting you to borrow from them at a ruinous rate of interest. Yes, indeed, I can use money, everybody thinks. What a man means by that is: I can think of ways to spend it. Give me a hundred dollars and I can guarantee to get rid of it before night. Give me a million and it may take me longer but I can use it, I can make it vanish, I can swap it in for something else.

Dr. Foreman

But that is not using money. That may be using it, but maybe not. Money can be spent in wise ways or foolish; it can be exchanged for something good or something bad or for really nothing at all. Using money is something more than merely passing it out of your pocket into somebody else's.

Root Of All Evil

Money is not a bad thing in itself as some have thought. But it can be the root of many bad things. Or to speak more correctly, not money but the love of money is a root of all evils. (Paul does not in the original Greek say THE root; he does say A root.) For example, when a murderer is committed and the police are trying to solve the mystery, one of the first questions asked is: Who stands to benefit by this murder?—meaning, who is going to strike it rich by this crime? Love of money can be a root of murder, theft, adultery, all the sins on the calendar. We could not abolish crime by abolishing money, to be sure. We could not abolish crime by seeing that every man, woman and child had exactly the same amount of money. The sinful heart has many outlets. But love of money, or in other words greed, selfishness, is one of the easiest and most frequent ways by which man's inner

meanness comes out in the open.

Rich Toward God

On the other hand, money makes much good possible. If a man is going to be a "good father," he can't be that if he is a pauper. He doesn't have to be rich, but he does have to have money for groceries and education and all that it takes to bring up children. If a man is going to be a good citizen he will pay his taxes, and if the state is a good state those taxes will be wisely used for the benefit of all. A poverty-stricken state is not a good state to live in. A poverty-stricken home is not the kind of home you want your children to grow up in. Or consider all the good done by the church. Much of it is made possible by the contributions of the members. An orphanage, a hospital, an old folks' home, an evangelistic campaign—every part of the church's activity is something that uses money and transforms it into service and happiness. In Jesus' parable of the rich farmer whom God called a fool; no doubt the neighbors (some of them) admired the man for his wealth and his thrift. "He takes good care of what he's got," they would say. But Jesus did not think well of the man. His trouble was not that he was well-to-do. Jesus never condemned a man simply for owning property, money or anything else. The rich fool's trouble was that he thought of no one but himself, built his barns for no one but himself. To be "rich toward God" he would have to think about using his wealth for the benefit of some one besides himself.

Bull's Eye

Everybody aims at something in life—everybody, that is, but the aimless, who don't count. We all take aim—but at what? When you pull back the bowstring, or cock the trigger, and look toward the target, what do you see in the bull's eye? What is the very center, the principal aim of living? Some see nothing but the dollar mark. It is a mark, that can be hit, and a man's aim can be absolutely accurate. But the trouble with money as a central aim in life, is that the more successful a man is in hitting it, the less satisfied he is likely to be. There are rich people who are happy; but it is not true that a man grows happier with every dollar he adds to his pile; it is not true that the happiest persons in town are the wealthiest. It is generally a fact that if a person is both rich and happy, his happiness comes from other source than his bank account.

sary to determine right of way in a particular situation, the driver who reaches the intersection first, or who is going to get there first, is ordinarily favored.

But when two automobiles are an equal distance from the intersection, that one approaching from the other driver's right normally has the right of way.

Some intersections are known as "courtesy corner," having a stop sign or a flashing red signal facing each direction of approach. The first driver reaching the corner and coming to a complete stop will normally have the right of way over vehicles not already in the intersection. However, don't depend too much on the other fellow's courtesy, and be sure to keep a "proper look-out" and your car under "proper control", as explained in a preceding column.

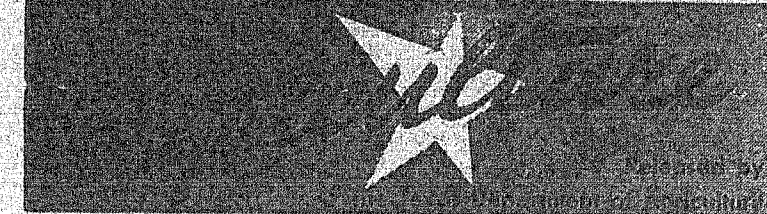

At intersections involving one through street and another street having a stop sign, a driver approaching the stop sign and coming to a full stop is ordinarily said to have the right of way over vehicles approaching on the through street but not already in the intersection.

However, this last rule must be qualified by saying that you should not proceed, cross or turn onto the through street until you can do so without interfering with oncoming traffic. In other words, if an approaching car will arrive within the intersection before you are completely clear, wait just a little longer. The same rules apply to entering a highway from a side road containing a stop sign.

Many drivers violate the rules of right of way covering left-hand turns at intersections. When turning left, you should always be on the inside (or center) lane, displaying the proper signal. You must allow all cars coming from the opposite direction, already in the intersection, to pass through before completing your turn. Even when the intersection is cleared, do not proceed unless other oncoming traffic is far enough away to be able to see your signal and slow down to allow you to turn with safety to all concerned.

Stay in the inside lane until your left-hand turn is entirely completed, and only then move gradually over to the right-hand lane if you wish. When turning right, stay in the right-hand lane at all times. Do not swing wide into the center lane, as to do so is unnecessary, unlawful and dangerous.

Many detailed rules and suggestions for safe driving are included in the official "Texas

DEPARTMENT OF AGRICULTURE RECOGNIZED

The first day of September marked the beginning of a new era for the Texas Department of Agriculture.

The day was the start of the state fiscal year and the time when the Department of Agriculture initiated its activities as a re-organized and re-vitalized farm agency.

The plan was made possible by House Bill 23, which received approval during the last legislative session. Among other things, it calls for a closer integration of duties in the agency and the elimination of overlapping divisions. The first major step was the combining of seven divisional functions under three main heads below the administrative branch.

Re-grouping of the divisions was one of the measures specifically requested by department heads. As a result, the agricultural work was sectionalized under the Division of Marketing, Division of Seeds and Division of Horticulture and Plant Quarantine.

The reasons were simple and practical. Lines of authority now were clearly drawn. By doing away with a few high salar-

ied positions, more money became available in the field where new men were badly needed. And the tightening up of divisions cut out a vast amount of duplicate paper work in the accounting sections.

But one of the greatest benefits derived from the reorganization was the elimination of a bottle-neck which hamstrings most state agencies—the technicality which prevents a field employe of one division from aiding in the work of another division during a rush season or emergency. Under the new plan, any field man can be switched to an area or job where he is most needed, regardless of the division to which he is assigned.

This one provision, alone, will be worth many million thousands of dollars to the department. And field operations are expected to be much more efficient.

House Bill 23 is a forward step in the long-range plan to put the Department of Agriculture on a smoother operating basis. The organization should make a big difference in service in future years.

IT'S THE LAW in Texas. A public service feature of the State Bar of Texas.

INTERSECTION TRAFFIC LAWS EXPLAINED

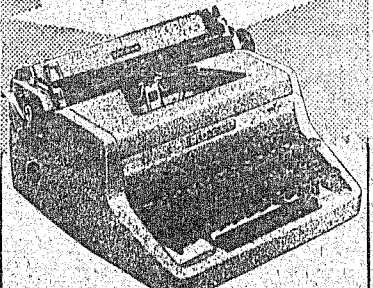

Texas laws regulating traffic are quite simple, yet they are misunderstood by many people. This is one factor which places

Texas right at the top in number of traffic deaths. Possibly the most mystifying of all traffic rules to the average driver are those relating to "Right of Way" at an intersection.

In trying to understand the laws regulating intersecting traffic, it is best to start off with the premise that all streets are of equal dignity, legally speaking. Traffic signs and signals may vary this rule somewhat, but when in doubt it is safest to assume that all drivers crossing your path have claim to the right of way equal to your own.

Obviously, however, in many cases one driver or the other will be legally entitled to the right of way. When it becomes neces-

Mrs. R. O. White Speaks To Council of Church Women

The Methodist ladies were hostesses at the meeting of the Santa Anna Council of Church Women Monday afternoon. The meeting opened by singing "Work For the Night is Coming" and Miss Bettie Blue conducted the devotional using a portion of the 9th Chapter of John with its admonition on work. Sandra Shields sang "God is Spirit" with Miss Elsie Lee Harper playing the organ accompaniment as she had for the group singing. Mrs. Hardy Blue introduced the speaker, Mrs. R. O. White of Rankin, the former Lila Belle Smith of Santa Anna, daughter of our Mrs. Maude Smith.

Mrs. White is known over a wide area as a talented worker in Methodist circles. She is Conference Secretary on Missionary Education, of the W. S. C. S. of the South West Texas Conference. She spoke mainly of attending a Missionary Conference some months past at Buckhill Falls, Penn., which was largely attended by great leaders

at home and abroad. She told of a trip to New York, where they attended a seminar at the United Nations and of hearing Norman Vincent Peale preach in his church. Mrs. White is a person of rare ability and charm and what she said was most interesting.

The host ladies presented her with a nice gift. At the conclusion of her talk, Miss Harper played a group of musical selections by Ruth Harris, musician and missionary of whose work Mrs. White had told.

Miss Blue, Council President, presided at the short business session, when Mrs. L. O. Garret read the minutes of the previous meeting. During a social period which followed, Mrs. O. A. Etheredge conducted two quizzes.

The host ladies served homemade cake and lime punch to the about 40 attending.

Introduced as visitors were Mrs. W. J. Grady and daughter, Miss Maggie J. Grady of Indian

Creek. Local ladies who were present that don't generally attend were Mrs. Maude Smith and Mrs. Jess Howard, mother and old friend of Mrs. White. The three cooperating womens societies of the Methodist, Presbyterian and Christian churches were quite well represented.

Mr. and Mrs. Edd Hartman and children visited over the week end with relatives in Midland.

Mrs. B. F. Vance of Bryan and a daughter of San Angelo visited with Mr. and Mrs. Howard Kingsbery on Wednesday of last week.

Mrs. Linnie Biggs visited over the week end with her son, H. L. Biggs and wife in Ft. Worth

Mr. and Mrs. A. P. Petree, Kay and Jane of Abilene were week end visitors with her parents, Rev. and Mrs. E. H. Wylie.
