

Reds Push Near Railway Center Near Polish Border

Drives Bring Russians Near Old Boundary

Soviets Have Retaken All Territory Lost Since The War Began

MOSCOW, Jan. 3 (AP)—Advance columns of Gen. Nikolai Vatutin's Ukrainian Army have smashed into the approaches of Novograd Volynsk, railway center about 15 miles from the old Polish border and last important obstacle between the Soviet forces in the Zhitomir sector and the pre-war boundary.

(Further to the north, in the drive northwest of Korosten, the last communicate broadcast from Moscow and recorded in London placed another Red army column within Poyaski, a railway town only 10 miles from the old Polish frontier.)

Fortifications along the railway line extending into Novograd Volynsk were reported under attack today by Red Star, the Red army newspaper, with several stations within the junction's suburbs already captured. Red Star termed the situation there "very serious" for the Germans.

Red Star said the Germans were counter-attacking desperately with large tank and infantry forces but were being forced to fall back before a flanking attack by small, mobile Russian forces.

Both Markhelev, 22 miles to the southeast, and Vershnitsa, 10 miles northeast of the important railway stronghold, were captured by Gen. Vatutin's forces yesterday.

The latest advance marked a penetration of the dense swamps on the southern edge of the Pripiet marshes. Novograd Volynsk lies astride the railway extending westward from Kiev through Zhitomir.

Nazi Outlets Begin Talk Of Invasion

LONDON, Jan. 3 (AP)—German propaganda outlets poured forth a stream of invasion talk today as an increasing number of American troops thronged the streets of London.

"Competent circles believe," said one Berlin broadcast, "that, compelled by political reasons, invasion armies which stand in readiness in southern England may hit out earlier than would seem proper for military considerations."

The broadcast declared that one such political reason is that Moscow "is not satisfied with the 25 to 30 divisions engaged on the Italian front."

"Increasing reinforcements of American and British armies in southern England, the accumulation of shipping space in numerous British ports, the preparation of a transport fleet of several hundred thousand tons, and finally British and American efforts to weaken German defenses by air assault have been noted," the broadcast continued.

Giving point to Berlin's obvious concern was the increase in United States soldiers of all types observed here, some of them obviously new arrivals. Some wear the ankle boots of parachute troops and air-borne divisions. Others are airmen, infantrymen, artillerymen and engineers.

(In a broadcast reported by the Office of War Information, the Hungarian radio quoted a Budapest newspaper, Uj Magyar ujsag, as saying that "the allies possess numerically superior forces" and are in a position "to start the invasion of Europe.")

"In the past year the Anglo-American powers had only 80 land divisions," said the broadcast article, "and in the present year they will have 180."

(At the same time, another Hungarian broadcast reported by the OWI quoted Gen. Franz Szombathelyi, chief of staff of the Hungarian army, as telling his countrymen:

"The war is near its end, but only after costly fighting which will bring war ever nearer to our frontiers and may even spread across them.")

ACCEPT APPLICATIONS The AAA office announced Monday that it would begin accepting applications for dairy feed payments on basis of November and December sales. Also, those who failed to file for October sales payments, may do so during January.

Canadians Approach Pescara

New Year Started With Renewed Blasting Of German Capital City

By GLADWIN HILL LONDON, Jan. 3 (AP)—Berlin, the RAF's first target for 1944, was given its second seething bath of fire and bombs of the new year today by British airmen who delivered their 10th great blow against the charred capital.

The newest attack came while fires still were burning from a 1,000-ton or bigger assault that was made early Sunday and while German rescue workers still were digging dead and injured from the ruins.

The air ministry, describing today's attack as "heavy," said 23 aircraft were lost in the Berlin raid. Messing's plans in western Germany and northern France and mining operations in enemy waters.

Two large concentrations of fire were left roaring in the city, the communicate said, and Swedish dispatches declared the tortured German capital had its worst night since the "destroy Berlin" campaign began Nov. 18.

At the same time the Vichy radio said the suburbs of Nice in southern France had been attacked

by British or American planes. The broadcast gave no date for the attack, however.

About 21 hours elapsed between the two attacks on Berlin, but Swedish correspondents said the menace of delayed action bombs had kept residents of the city in shelters until 5 p. m. yesterday, and that less than eight hours later the sirens were shrieking again. The main blow fell several hours later however.

Swedish reports said Hitler's luxurious new chancellery on the Wilhelmplatz was one of the places hit in the aerial barrage which struck first at the outlying industrial areas and then worked to the official and residential areas in the heart of the capital.

It was regarded as extremely doubtful that Hitler was near to witness the damage, however, and the dispatches did not say how badly the building was wrecked. The Tempelhof airbase area was reported to have been hit heavily again.

Berlin has now received upwards of 140,000 tons (15,000 U. S. tons) of bombs in the

16-raid knockout campaign, and between 20,000 and 25,000 tons of explosives and incendiaries since January, 1943. As an example of the destructive power of the explosives dumped on the Nazi nerve center, only about 11,000 tons of bombs were used in virtually wiping Hamburg from the map.

A Berlin announcement said briefly that "fresh devastations were caused in several districts" in the "terror attack against the population of the Reich capital."

While the big bombers were over Germany, RAF aircraft at home were chasing a handful of German planes which raided England. Four of the attackers were shot down. Bombs fell in a southeast England residential district injuring a few persons. Some of the planes got through to the London area, causing an alert but accomplishing little else.

Last night's raid was "one of the worst since the battle of Berlin began," said the Berlin correspondent of the Stockholm newspaper Aftonbladet, as reported in dispatches received here.

Gasoline Factory Unit—This new unit now in operation at Nederland, Tex., will produce large quantities of important component for 100-octane gasoline. It is owned by the Defense Plant Corporation and operated by Pure Oil Company.

Ground Operation Made Difficult By Very Bad Weather

ALLIED HEADQUARTERS, ALGIERS, Jan. 3 (AP)—Heavy fighting raged north of Ortona where Canadian troops have fought their way to within nine miles and artillery range of the strategic Adriatic port of Pescara. Allied headquarters announced today.

Rain, snow and high winds limited ground operations elsewhere in Italy to patrolling, but strong forces of medium bombers attacked rail communications at Taggia, Ventimiglia and Arma Riva on the Italian Riviera yesterday, while other medium bombers attacked the rail yards at Terni, 49 miles northeast of Rome, causing explosions and fires.

An air communicate said fighters and fighter bombers caused "wide-spread damage" in sweeps against motor transports and rolling stock on roads in the battle area.

Two Allied aircraft were lost in the operations. Thirty-eight snowbound German trucks were shot up in the Apennines by Spitfires, Warhawks and Kittyhawks attacking convoys between Pescara and Avezzano and near Chieti. Sheets of flame burst from the Terni Iron Works and barracks following the attack there.

Bridges were believed to have been hit in the attacks along the coast east of Nice at Ventimiglia, Taggia and Arma Riva. Three bomb hits were scored on a warehouse and a schooner at San Benedetto on the east coast, and the docks at Civitavecchia, northwest of Rome, and the railway yards at Anagni, 34 miles southeast of Rome, were plastered by invader divebombers and warhawks.

As an official Allied statement said the Germans were showing signs of exhaustion after throwing divisions piecemeal into the battle for Italy, the Allied Fifth Army gathered strength for a drive on Cassino and the road to Rome. British troops of the Fifth Army, it was announced, made a new bold foggy across the Garigliano river, penetrating to Castel Forie and then withdrawing.

The Germans "are waging a war of attrition, but the attrition has been heavier on their side," said an official review of the fighting in Italy. "Some German divisions have suffered such heavy casualties, sometimes up to 50 per cent, that they have been unable to stay in the line more than two weeks."

As one of the worst snow, wind and sleet storms of the Italian campaign raged on the eighth army front, Canadian troops captured San Tommaso, two miles west of Ortona, it was announced yesterday.

Awards To Be Made At AAFBS Tuesday Presentation of three outstanding awards, two of them to be made posthumously, is scheduled at the Big Spring Bomberfield school at 11 a. m. Tuesday.

The Distinguished Service Cross earned by Col. James Herman Appleton in sacrificing his life to save that of a comrade in North Africa, will be awarded to his mother, Mrs. J. H. Appleton, Sr. Mrs. E. G. Christensen, Sr. will receive the Air Medal and Oak Leaf cluster earned by her son, S/Sgt. Edward G. Christensen, Jr., who was killed in action as a bomber gunner over Europe.

The Distinguished Service Medal, earned by S/Sgt. Edmond H. Smith for his devotion to duty despite danger on the Ploesti oilfield raid, will be pinned on his one-month-old son, Sgt. Smith is a prisoner of war in Rumania.

Weather permitting, the presentation will highlight a formal review, but in event of inclement weather the presentations will be in the post theatre.

Scouts To Get Eagle Awards Five Eagle scout awards are due to be made Tuesday at 8 p. m. when the monthly Boy Scout Court of Honor program for the Big Spring district is held.

The Kiwanis club is to sponsor the program. A meeting of the board of review is set for 7 p. m.

Fathers Listed For January Draft Call The first draft call in Howard county to include mostly pre-Pearl Harbor fathers will be the January 8th call, the Selective Service office said Monday.

Up until now, the county has had enough single men and boys to keep from drafting fathers, Margaret McDonald, clerk, explained. But the January call will be largely made up of fathers and dad can expect to be included in the lists from now on.

Now that the fathers are really expecting to go to the army or navy, they are beginning to volunteer, Miss McDonald said, as the single men before them did.

Most of the January drafted fathers are volunteers and this will probably hold true in the other calls.

Despite legislation efforts to defer fathers, the Selective Service office has been notified that it must continue to meet its quota and to draft fathers only where necessary. Since this is the policy that the Howard county board has been following right along, there is no change in its procedure.

US Destroyer Sinks In Bay From Explosion

NEW YORK, Jan. 3 (AP)—A United States destroyer sank in lower New York Bay today after an explosion of undetermined origin which shook many sections of the metropolitan area and awakened thousands before dawn.

There were at least 163 known survivors, including 108 injured. Fifty-four of them, many with third degree burns, were at the army hospital at Fort Hancock, N. J.

There was no announcement regarding loss of life. The war-time complement of a destroyer, depending on the type, varies from 150 to 300 men.

The explosion, which occurred at 6:18 a. m. (EWT) as the ship, which anchored three hours earlier six miles northeast of Sandy Hook, N. J., was preparing to move, was so terrific, the Navy said, that men were blown overboard.

The third naval district gave this description of the explosion: "All communications on the ship were disrupted. The mast toppled, the bridge buckled and collapsed and one man said he saw the barrel of the forward five-inch gun go whirling through the air."

"Many men were blown overboard into the water by the blast. There was no disorder and fire fighting companies were organized."

"After the blast engineers secured the number one boiler and left number four on to keep light power and steam up."

"The ship was ablaze forward and in the bridge. Fire fighters could get no closer than the number one stack."

"Survivors said she seemed to break in two under the number two gun turret."

Further Rainfall Helps The Ground

Rains Saturday in this area were general in scope and added much to the moisture already in the ground from Christmas snows and rains.

The northwest part of the county toward Dawson county apparently drew the smallest amount of rainfall with about a quarter of an inch reported.

The rains, according to the AAA office, will put season in the ground and make for early pastures this year. Farmers are already planning on sowing spring oats, an unusual procedure for this county.

Early crops will also help out on the labor situation, it was explained, since a spring crop is less trouble to make than a summer crop.

The rains were insufficient, however, to put out any stock water, an item of concern for many farmers and ranchers.

New Flak Helmet

Lt. Lawrence B. Krogh of Detroit, combat bombardier back from duty in the Southwest Pacific, models Army-Air Forces' new M-4 metal helmet designed to give airmen greater protection from flak. Krogh is seated in the nose of a B-26 at Wright Field, Dayton, O. (AP Wirephoto).

C-C Receives Money From Local Firms

More than a score of Big Spring business firms made payments approximating \$1,000 to the chamber of commerce during the last week in December "in appreciation for a job well done," Willard Sullivan, president, said Monday.

These "expressions of appreciation, which may be turned to the doing of an even better job in 1944," said Sullivan, ranged all the way from \$5 to \$220.

Sullivan was gratified, he said, not only because of the amount contributed to the chamber's fund, but because it stood as the strongest testimonial possible to the "vigilant program of activities we have tried to carry out in 1943. It makes us feel better to know that business men have made these payments over and above their regular monthly dues."

City Back On Well Water Again

The City of Big Spring was back on its well supply for water Monday after "squeezing" Powell Creek reservoir for 12 days.

City Manager B. J. McDaniel estimated that 5,500,000 gallons had been pumped from the Powell lake in that space of time. This afforded considerable relief for the hard pressed wells and levels in the wells rose from five to 10 feet during the "squeezing" period.

By using the small amount of water which ran into the Powell Creek lake during December, the city was able to cut its production from wells down to about 240,000 gallons daily, one third of the current daily demand.

Rep. Curley Indicted Again By Grand Jury

WASHINGTON, Jan. 3 (AP)—Representative James M. Curley (D-Mass) was indicted for a second time today by a federal grand jury here in connection with the operation of Engineers' Group, Inc., described by the department of justice as "a government war contracts brokerage racket."

In addition to Curley, three-term mayor of Boston, former governor of Massachusetts, and now state's democratic committeeman, the indictment named five other defendants, five of them previously indicted. The new defendant is David E. Desmond, Boston, described as a salesman for Engineers' Group, Inc.

The indictment, alleging violation of the mail fraud statute, contains 16 counts.

All the defendants except Desmond were indicted on identical charges September 16, 1943, but the indictment was set aside November 1 on the technical grounds that the order impaneling the grand jury had not been signed by the chief justice or the senior associate justice of the District of Columbia federal court.

Other defendants and their connection with Engineers' Group, Inc., as reported by the department of justice: Donald Wakefield Smith, of Washington and Pittsburgh, an attorney and former member of the National Labor Relations Board, treasurer, vice-president, assistant secretary and director.

James G. Fuller, formerly of Washington but now serving a five-year term in a federal penitentiary for sending fraudulent securities through the mails, executive vice-president and director.

During the month of December, the tax collector's office recorded only one new truck and two new passenger buses.

COMMITTEEMEN MEET County and community committeemen will meet at 9 a. m. Tuesday at the AAA office for an all day planning session which will include the 1944 program changes and improvements.

13,485 Pounds Of Paper Collected By Boy Scouts Boy Scouts of Big Spring collected 13,485 pounds of waste paper during the Christmas holidays. H. D. Norris, field executive said Monday.

Collection by troops stacked up in this manner: No. 1 had 3,460 pounds; No. 3 had 3,000; No. 4 had 4,100; No. 5 had 1,350; No. 16 had 200; pack 13 had 1,000 and pack 29 had 375.

Norris said that scoutmasters, at their monthly round table Wednesday evening, would seek to lay plans for a regular, sustained collection.

Tuberculosis Society Will Send Out Reminders For Contributions Although the Tuberculosis Society fund drive is officially over and the goal of \$2,000, in sight, local officials said Monday that they would send out reminder cards on January 5th for those who have forgotten to return the stamps or send in their contribution.

Again it was pointed out that many of the funds were received in letters without any names, and if these who have donated once receive a reminder card, they should ignore them.

The work that the tuberculosis society has done in the past to cure those stricken with the disease is more than exemplified in a letter that the local society received the last part of Decem-

Japanese Security Is Threatened By Landings On Saldor

By Associated Press American landings at Saldor on the jungle-lined north coast of New Guinea pointed a serious threat today at Japanese security along the sea lanes leading to enemy island fortresses that stand between the advancing allies and the Philippines.

Midwestern units of the 32nd infantry division landed without opposition at three Saldor beaches at dawn Sunday and quickly overcame slight resistance which developed after the veterans of earlier New Guinea campaigns had dug in around the captured airfield.

"The harbor and airfields are in our firm grasp," said the communique telling of General MacArthur's third blow at the Japanese in 18 days.

A fight with the Japanese was in prospect, however, for the latest landings placed the American Sixth army troops only 55 miles southeast of Madang, big enemy air and supply base of Astrolabe Bay.

The landings, carried out with the support of heavy naval and air bombardments, threatened to isolate a considerable number of Japanese who have been falling back for weeks under prodding by Australian forces. One Aussie unit has moved beyond Blucher Point, 30 miles north of Allied-held Finschhafen which in turn is 115 airline miles from Madang. Another force driving up the Ramu valley is less than 35 miles from Madang, but a rugged mountain range separates it from the Saldor beachhead.

American marines on Cape Gloucester, New Britain, enlarged their 10-day old beachheads, while patrols made contact with the enemy south of the seized airbase, and a Japanese barge attempting to sneak into Borgen Bay was sunk. The count on enemy dead has gone over the 100 mark.

The Gloucester and Saldor operations gave the allies a foothold on both sides of the Vitiaz Straits that lead to Truk and other Japanese bases in the Caroline Islands to the north and to the Philippines to the northwest. First of the three recent thrusts was the Dec. 15 landings at Arava, on the southwest coast of New Britain.

Rationing Does Not Keep Drivers Off The Road Car and gas rationing which should decrease the number of cars on the road, has apparently had just the opposite effect on this county.

Check of the number of registrations in this county during the year show that 4,999 were registered or seven more than last year over the same number of months.

The increase, however, according to Bernie Freeman, deputy tax collector, is probably due to the increased population of Big Spring from army camps and defense work.

During the month of December, the tax collector's office recorded only one new truck and two new passenger buses.

Written by Mrs. Allert J. McClinton, of Big Spring, the letter enclosed a check for the seals and the further information that "no one knows better than I the value of the fight against the spread of tuberculosis. I took the cure almost four years and six months of the time was at Sanatorium, Tex. I am glad our country is doing something to help so worthy a cause."

"I'm in good health and enjoy a normal life, thanks to our state doctors and nurses at Sanatorium," she declared.

With backing such as that, the local society feels more than inspired to finish its campaign and go over the top.

Plans For—

A Post War Marriage

By GRACE MARTIN

(2) Features

be able in time of need to chuck wed to a man in service, you are dreaming of course of life after the war with him.

It's largely up to you to make your dreams come true.

Up to you more than to him because you are the one in touch with the realities of civilian life and the one who can study and work now without let or hindrance from higher authority. On the common sense, frugality and foresight that you use now and later depends much of the success of your marriage.

One secret of making dreams come true is not to dream too extravagantly. Right now you are dreaming of a perfect husband snatched from you by war. Could anything be wrong with such a one? There certainly could—and will be.

He won't be the same man you met away. Perhaps he will be better perhaps worse. Certainly he will be changed. Quite likely he will be restless. See to it that you have no dreams so set that he will feel tied down by your plans. Perhaps he will be rough where he was gentle, or introspective where he was open-minded. Whatever the change, be not startled or afraid, but be ready to go half way and more toward the adjustments that inevitably must be made.

Instead of watching and waiting for the same chap you sent off to the war, plan now on the realities you yourself must face. One thing you can count on—that he still loves you. In the boredom of the barracks and the grime and weariness and danger of the campaign he has been dreaming about you.

What pedestals he has placed you on, what virtues he has attributed to you of amiability and daintiness, of efficiency and good cookery, you may never know—unless you actually approximate them.

The thing to do, then, is to improve on the virtues you have and acquire others that you should have.

Can't cook? Is there any good reason you should not learn? Such a book as "The Joy of Cooking," by Irma Rombauer, will give you the ABC's of cooking, clearly explained.

Letting yourself go because he won't know anyway? That is strictly a matter for your own morale department. You will not be able in time of need to chuck sloppy habits of personal care over night. Better watch yourself on this.

Don't know how to run a house? Your mother or mother-in-law will let you take over for awhile if that is practicable, and you can learn much from such a text as "The Book of House Economics," by Mary M. Leaming. All officers' wives are cordially invited to attend luncheon will be served at 1:30 o'clock.

Activities at the USO

Monday

PLANNING WEEK BEGINS.

8:00—General activities with GSO as hostesses.

Tuesday

FREE ALTERATIONS.

Dancing and games with GSO as hostesses.

Wednesday

6:15—Hospital visiting hour at Big Spring Bombardier School.

7:00—Service Wives' Club to sponsor covered dish supper at USO for husbands.

Thursday

8:30—Square dancing class. Caller and three piece orchestra from Bombardier School.

Friday

8:00—General activities with GSO as hostesses.

Saturday

4:00-9:00—Canteen open, coffee.

7:30—Recording hour.

Enlisted Men's Dance at the post.

Mrs. Ann Gibson Houser, program director at the USO, has announced that the first week in the new year has been set aside as program planning week for the entire Girl's Service Organization.

Plans for coming activities will be discussed each evening when the hostesses serve at the USO and a. members are urged to attend.

TRAINMEN LADIES will meet at the WOW hall at 3 o'clock.

LADIES GOLF ASSOCIATION meets at the country club for luncheon at 1 o'clock.

SATURDAY

HYPERION CLUB meets with Mrs. Bill Tate at 3 o'clock.

Volunteer Hostesses Serve At USO Club

Volunteer hostesses served during hospitality hour at the Big Spring USO club Sunday afternoon when a large number of WACs and service men from the Big Spring Bombardier School visited the soldier center.

Hostesses included Mrs. Mary Locke, Mrs. J. A. Myers, Mrs. C. O. Nalley and Mrs. Marie Walker. Hot rolls, marmalade and coffee were served during the afternoon and regular activities were held.

RIPE AGE

SAN ANTONIO, Jan. 3 (AP)—Funeral services will be held tomorrow for Mrs. Elizabeth Daniel, who died at the age of 102.

DIES AT 101

DALLAS, Jan. 3 (AP)—One of Dallas' oldest residents, Mrs. Martha Matilda Bell, 101, died yesterday. The funeral will be tomorrow.

USO Club Issues December Report On Activities

One of the most successful months in the history of the local United Service Organization was shown in a statistical report to the district and national USO headquarters by officials at the local soldier center for the month of December.

The report stated that a total of 9,147 persons registered for the month, with 409 of that total junior hostesses, and 132 senior hostesses.

Hostesses wrapped 467 Christmas gifts for service men, and 125 Christmas gifts were contributed by junior and senior hostesses.

Activities included one formal dance and seven other special parties during the holidays, and service wives held one luncheon and theatre party and three other meetings.

Local clubs donated 50 baskets of fruit for USO parties during Christmas, and other organizations contributed 60 dozen cookies, 15 dozen popcorn balls and five dozen doughnuts.

CALENDAR

TUESDAY

REBEKAH LODGE meets at the IOOF hall at 7:30 o'clock.

B&PW CLUB meets at the Settles hotel at 7:30 o'clock.

ORDER OF THE EASTERN STAR meets at the Masonic hall at 7:30 o'clock.

WOMAN'S CLUB OF AAFBS will meet in the officers' club for luncheon and bridge.

Luncheon served at 1:30 o'clock.

HIGH SCHOOL P.T.A. meeting will be held at the school at 7:30 o'clock.

WEDNESDAY

LADIES SOCIETY OF LOCOMOTIVE FIREMEN AND ENGINEERS meet at the WOW hall at 3 o'clock.

PHILATHEA CLASS meets at the First Methodist church for a covered dish luncheon and business session at 10:30 o'clock.

P.T.A. COUNCIL meeting will be held at the high school at 8:30 o'clock.

VFW AUXILIARY meets at the VFW Home, 9th and Goliad at 8 o'clock.

THURSDAY

SOUTH WARD P.T.A. meeting will be held at the school at 3:30 o'clock. Executive meeting will be held at 3 o'clock.

GIA meets at the WOW hall at 3 o'clock.

FRIDAY

SUSANNAH WESEY CLASS will meet at the First Methodist church at 12 o'clock for a monthly luncheon and business session.

TRAINMEN LADIES will meet at the WOW hall at 3 o'clock.

LADIES GOLF ASSOCIATION meets at the country club for luncheon at 1 o'clock.

SATURDAY

HYPERION CLUB meets with Mrs. Bill Tate at 3 o'clock.

Ingenuity Counts In this strictly I-85 dress by a New York designer. Three gold buttons and a spool of thread transform it from a single cylinder of fabric into a creation. Fake pockets and draping do the trick.

- CRASH KILLS TRAINMEN
- MEXICO CITY, Jan. 3 (AP)—A Laredo-Mexico City passenger train and a freight collided yesterday near Queretaro, and reports reaching here stated three trainmen were killed and 23 passengers injured.

DOWNTOWN STROLLER

Christmas tree ornaments have been packed away for another year. New Year's eve parties are over, and Big Springers are starting another year with remembrances of a very nice Christmas and New Year's Eve.

Among holiday parties held here over the week-end was open house in the TED GROEBL home honoring their houseguests, MR. and MRS. H. C. BROOKS from Cherokee, MRS. PEARL M. BUTT and daughter, JO ANN, from San Francisco, Calif., and MR. and MRS. AL GROEBL from San Angelo.

Even though the day was cold and wet, a large number of town-peeps and service men turned out for the football game in the BLACKBERRY BOWL New Year's Day. Caught a glimpse of MRS. C. H. LAYMON, who didn't seem to be minding the rain at all. Her husband, LIEUT. LAYMON, was coach for the team from the local field.

LORENA BROOKS, who has been visiting here with her parents, MR. and MRS. JAMES T. BROOKS, will leave Tuesday morning for Denton where she will resume her studies at TSCW.

MRS. HORACE WOOTEN and daughter, SARAH KATHERINE, and MRS. MARVIN HOUSE left today for Dallas where MISS WOOTEN will return to Hockaday's School for Girls. MRS. HOUSE and MRS. WOOTEN will visit in Fort Worth and Dallas before returning home.

Newcomer to Big Spring is MISS RUBY McDURMAN, who has accepted the position as religious educational director at the First Presbyterian church. Before coming here, MISS McDURMAN served as religious educational director for the Brownwood and Fort Worth Presbyterian churches.

Cargo Plane Crash Takes Three Lives

LOS ANGELES, Jan. 3 (AP)—A cargo plane overshoot Mines Field and crashed last night, killing three men and damaging three houses and a power line.

The falling craft crushed an automobile, decapitating its occupant, Louis E. Westphalen, 23, of suburban Lennox.

Reports from the scene said two Army men on the plane were killed but a mortuary said it had received bodies of three Army men.

Francis A. Pluff, 35, of 2802 West Davis St., Dallas, Tex., a civilian radio operator on the plane, was injured.

Second Lt. Robert L. Hall, 35, attached to the base weather station at Hill Field, Utah, walked away from the wreckage, escaping with shock. State highway patrolmen found him at a nearby hot dog stand.

A motor dropped off the plunging ship and fell into a bedroom at the home of George F. Dopheide, Dopheide, in another part of the house, was unhurt.

Fire sputtered through the wreckage and exploded ammunition, investigators said, but no one was wounded.

FREIGHT INCREASES

MEXICO CITY, Jan. 3 (AP)—National Railways of Mexico reported yesterday that freight shipments in 1943 increased 150 per cent over those of the previous year.

Cadet LaVaughn Malone, who is stationed in East Lansing, Mich., is visiting with his parents, Mr. and Mrs. L. G. Malone and other relatives.

Ceremony Read In Chapel At Local Post

Martha Jeanette Werner of Mansfield, Ohio and Lieut. Harold W. Wynn were married Saturday evening at 7:30 o'clock in the post chapel at the Big Spring Bombardier School.

Wedding vows were read by Chaplain James L. Patterson before an altar banked with fern and gladioli in floor baskets. Ivory tapers in matching candelabra marked the place where the wedding party stood.

Set. Ole Franklin played pre-nuptial organ selections and the traditional wedding marches. Attendants were Lieut. and Mrs. Robert H. Zimmerman.

The couple will be at home here where the bridegroom is stationed at the Big Spring Bombardier School.

ACNE PIMPLES

Get soothing antiseptic relief of itching, burning, soreness with Black and White Ointment. Use only as directed. Cleanses with Black and White Skin Soap.

It used to be TABOO for girls to discuss this kind of help

Nowadays, thousands of women who suffer from purely functional periodic pain rely on the 2-way help of CARDUI. Started 3 days before the time and taken as directed, many find it brings relief. As a tonic, it often perks up appetite, increases flow of gastric juices, thus aiding digestion and helping build resistance for times most needed. A 62-year record says: "Try CARDUI!" (adv.)

Just 3 drops Penetro Nose Drops in each nostril help you breathe freer almost instantly. Relieves the head cold nasal misery. Only 25¢—2 1/2 times as much for 50¢. Caution: Use only as directed. Penetro Nose Drops.

Newest Texas Industry, Big Plant For Glass Containers, Is Opened

Production was started Monday in the newest industry for Texas—the Owens-Illinois Glass company plant at Waco. A modern plant for manufacture of containers, the unit has an output capacity of 300,000 containers daily and plans already are afoot to double the capacity of the unit.

The newest industry of Texas, the Owens-Illinois Glass company's new plant at Waco went into operation today.

Under the direction of George Walter, plant manager, employees of the plant started to produce a variety of bottles for packaging of medicinals, chemicals and food. Production will be on a 24-hour basis with 300,000 containers as a daily output. Plans already are underway to double the output by addition of another production line equal in size to the present plant facilities.

A crew of close to 300 people, most of them from the Waco area,

staffed the plant as it went into operation. All of them were trained by company supervisors from other plants and a few skilled machine operators, mold makers, etc. will be required to put the unit in smooth operation.

The new industry is expected to facilitate the Texas effort to supply the armed forces with essential medicines, foods and other commodities.

Located on a 52-acre tract on the M. K. & T. railway west of Waco and adjacent to the highway left which encircles the city, the Owens-Illinois Glass factory is of

one story modernistic design with conventional arrangement followed for furnaces, machines, annealing lehrs, and packing rooms. The office building is built entirely of glass brick.

Walter, who has been in charge of the company's warehouse at Houston for many years, will work closely with Fisher N. Davis, Dallas, southwestern regional sales manager for Owens-Illinois.

The largest glass container manufacturer in the world and developer of a process whereby lighter, stronger glass could be processed for container purposes.

"Take her down!" With these words, Commander Gilmore signed his own death warrant. Rather than risk losing his boat and crew, from enemy fire, the wounded Commander ordered his submarine to submerge—with himself outside.

How much is "duty"?

WHEN A SOLDIER charges up a newly established beachhead heedless of the shells and machine-gun bullets ripping around him . . . that's duty.

When a sailor stands at an anti-aircraft gun, fiercely firing at an enemy plane, disregarding the bombs and lead falling from the skies . . . that's duty.

A soldier or a sailor has duty clearly defined for him.

But how much is "duty" for a civilian?

There is no clear definition. But there is one job which every man and woman of us must consider duty if he would like to see the war shortened and our fighting men back with us.

That's—Buying War Bonds. Not just a few. As many as you possibly can afford!

For your own sake . . . for the sake of your fighting men . . . for the sake of your country . . . boost your buying through Payroll Savings!

KEEP ON BACKING THE ATTACK!

THE DAILY HERALD

This advertisement prepared under the auspices of the U. S. Treasury Department and the War Advertising Council

There's a New Glow in Texas Skies Tonight

The men and women of this new Waco industrial unit take pride in the essential part they play in filling the nation's wartime needs. For glass containers, made of noncritical materials, are more important than ever in distributing products of all kinds to our armed forces and to the home front as well.

South of Waco, the Texas sky reflects the glow from the fiery furnaces of America's newest and most modern glass container plant.

Construction of the plant was started by Owens-Illinois before we entered the war. Now it goes into operation at a time when glass containers are more urgently needed than ever before for the transportation of vital products.

Serving industries of many kinds, this new Owens-Illinois glass container plant typifies the progress that has been made by the Southwest in enlarging its manufacturing facilities and adding further to its other great natural resources—

agriculture, lumber, minerals and oil.

Throughout Texas, Arkansas, Oklahoma, New Mexico and Louisiana, you can see almost daily new manufacturing and processing plants that are creating this essential part of the Southwest's economy—a new and vitalizing factor in its constantly growing prosperity. Some, such as dairies and beverage bottlers, serve their local areas. Others send their products into many states, near and far.

Owens-Illinois dedicates its new Waco plant to the service of industries in the Southwest. With them we share a deep-rooted confidence in the future of this great region.

Traditional Bowl Games Are Played As Per Schedule

By JACK HAND
NEW YORK, Jan. 3 (AP)—Whether it was Cpl. Jack "Shoelace" McKenna of Long Beach, Calif. scooting across the north African sand or Alvin Dark of Southwestern Louisiana Institute ploughing through the mud of Houston, Texas the bay New Year has been welcomed with the traditional football bowl games.

Added starters to the usual coast-to-coast holiday schedule were the festivities involving G. I. talent known as the Arab, potato and Lily Bowl in Iran, Algiers; Belfast, Ireland; and Hamilton, Bermuda.

Navy won the Bermuda battle, 19-0, army triumphed in Africa, 10-7, and the two services played a scoreless tie in Ireland.

Over 280,000 watched the games in this country where the form players took a beating as two underdogs won, two others tied and only three favorites came through.

Southern California made the depositors look bad with a decisive 29-0 decision over previously unbeaten-untilled Washington at Pasadena. Jim Hardy's feat of throwing three touchdown passes stole the show and tied Russ Spudis' 1930 Rose Bowl record against Pittsburgh. A crowd of 68,000 was on hand.

Steve Van Buren had two touchdowns, and passed for another as Louisiana State upset Texas Aggies 19-14 in the Orange Bowl before 27,000 and cancelled an early season loss to the same Texas.

The favored Western all-stars could get no better than a 13-13 tie with the underdog easterners in what slumbered down to a flashy display of youthful freshman talent before 60,000 in San Francisco's benefit Shrine game. Herm Wedemeyer, Hawaii-born St. Mary's College ace, pitched for two scores for the west.

Texas managed to avoid being upset by holding Glenn Dobbs to one touchdown pass and his Randolph field eleven to a 7-7 tie at Dallas. Although 30,000 Cotton Bowl tickets were sold only 15,000 showed up.

Georgia Tech was a winning favorite before the day's largest crowd, 69,000, in New Orleans but it took an inspired performance by Eddie Prokop and his mates to pull it out of the fire and beat Tulsa in the last quarter, 20-18. With the pro scouts in the stands, Prokop picked up 189 yards and averaged 6.9 yards per try in the Sugar Bowl.

Southwestern Louisiana and 12-000 at Housfan where his club

defeated Arkansas A. and M., 24-7, in the first Oil Bowl game. Dark scored a touchdown, threw for one, kicked a field goal and three extra points.

Southwestern of Texas had to come up with a last period pass to beat underdog New Mexico 7-0 to the astonishment of 18,000 in the Sun Bowl at El Paso. Southwestern had been expected to romp home.

Tuskegee Institute downed Clark College, 12-7, in the Vulcan Bowl at Birmingham, Ala. and Allen blanked Winston-Salem Teachers, 33-0, in the Flower Bowl at Jacksonville, Fla.

1943 Driest In Ten Years In This Area

Although 1943 ended on a wet note, a summary of weather records compiled by Charles H. Newton, meteorologist for the US Department of Commerce weather bureau at the airport, bear out statements that the year was one of the driest in 10 years.

Indeed, it produced only 12.23 inches of moisture and 3.29 inches of the amount occurred in November and December after it was far too late to be of help to crops or ranges. Only two other months showed more than an inch. May turned up 3.79 inches, which were general over the area and on which the county actually had to make its crop. July showed 2.46 inches, but this is a misleading total for while this amount fell in local showers at the weather bureau, little of it blessed Big Spring, only a couple of miles to the east.

Not since 1933 and 1934 had there been less total rainfall, records show. Many observers declare that the drought last year was more tenacious because of the dearth during growing season, and some compared it to the 1917 spell, the worst in the county's history. The miracle was that 1943 produced a comparatively normal crop.

In addition to its dryness, 1943 produced 19 days of 100 degrees or more temperature, and two days at the outset of August turned up a withering 107 degrees, the highest in years. Similarly, the year also turned up one of the least temperatures in many seasons in dropping to six degrees above zero on Jan. 19. December turned out to be a chilly, although not too cold, month, for it showed 19 days with temperature below freezing. The lowest for the month was 19 degrees. The 2.03 inches of moisture during the month included 3.5 inches of snow that brought another white Christmas. Despite the general dryness of the year, a minimum of sand and dust storms were recorded. Only four were in the bad class.

Abolishment Of Tax Returns Is Sought

By FRANCIS M. LEMAY
WASHINGTON, Jan. 13 (AP)—A major legislative operation designed to make it unnecessary for millions of persons to file any federal income tax returns at all was proposed today by Rep. Carlson (R-Kans.). Most income taxes would be deducted automatically from wages and salaries under his plan.

The Kansan, a member of the tax-initiating ways and means committee and author of the Ruml pay-as-you-go bill, described present revenue statutes as "a hodge-podge of language that can not be correctly and definitely interpreted by a Philadelphia lawyer."

Declaring simplification to "the No. 1 tax job" for 1944, he inserted in the Congressional Record his own suggestions for remedy, as follows:

1. Simplify and improve current withholding provisions so as to eliminate the need for any returns to be filed by 30,000,000 of the 40,000,000 to 50,000,000 taxpayers. "This could be done by adopting a graduated withholding from wages and salaries," he said, "and at the same time allowing a percentage of income exemption in lieu of the present deductions for other taxes paid, interest and contributions to churches and charity."
2. Combine existing personal

SPORTS ROUNDUP

By HUGH FULLERTON, JR.
NEW YORK, Jan. 3 (AP)—Instead of making high-sounding speeches about post-war plans, pro football leaders are busy planning for the 1944 season, war or no war. . . . The Boston club, which has nothing but a franchise, has hired Tille Manton, the old T. C. U. and Dodger back, to scout for players; the Philly Eagles, who probably will split away from Pittsburgh, recently signed Marvin Bleeker, ex-Southern California fullback and Harry Thayer was looking for more prospects at Saturday's East-West game. . . . And owners George (Weisbach) Marshall of the Redskins and Harry Hopren of the Norfolk Shamrocks have been talking over a "farm" deal if the Dixie league operates. . . . Howren, incidentally, reports that Atlanta and Birmingham are anxious to join the Dixie league.

Fride goes for a ride—Charles L. "Bumpus" Jones, who celebrated his major league baseball debut in 1892 by pitching a no-hit game for Cincinnati against Pittsburgh—and never won another National league game—is even more famous among old timers for his wildness than for that singular record. . . . His occasion Bumpus, pitching for Toledo, gave 15 bases on balls but the scorer recorded only 14. . . . Jones was so steamed up about the omission that he visited the newspaper offices to rebuke the writers and then jumped the ball club.

Twirling the dial—Ear witness impressions of Saturday's bowl games. . . . Louisiana State's Steve Van Buren must be a whale of a football player, but what really won for the Tigers was their ability to intercept passes when the going was tough. . . . What? Another touchdown in the Sugar Bowl? . . . Who's winning anyway? . . . If the war doesn't last too long, Glenn Dobbs is likely to make pro grid fans forget all about Sammy Baugh. He couldn't do much passing with a wet ball, but those 60 and 70 yard kicks must have been something. . . . And Alvin Dark didn't do anything to contradict the folk who claim he was the best back in the south this season. Wonder if those Arkansas A. and M. Boll Weevils feel seedy? . . . Too bad the all-East team couldn't have borrowed Aram Ebrahimian from Zeks Bonura's "Arab Bowl" game, and Georgia Tech's Ed Scharfshwerdt to team up with Hoernschemeyer and Sensenbaurer. . . . The football broadcasters aren't always clear about the plays, but they seldom miss a substitution.

LUKE WONT GO BACK
CAMP LEE, Va., Jan. 3 (AP)—Luke Appling, American batting champion, who arrived at this quartermaster center for his basic training a few days ago, said he probably would not return to the major leagues as an active player after the war.

Exams Are Slated For Chiropractors
AUSTIN, Jan. 1 (AP)—The state board of chiropractic examiners will hold examinations here Feb. 3, 4 and 5, Executive Secretary E. L. Bauknight announced.

Applicants for interviews and examination were asked to have their requests in his hands before

income tax laws into one base and rate. "Under existing law we have one base and varying rates for the regular income tax and a separate base and rate for the Victory Tax," he said. "Every taxpayer must wade through this nightmare of confusion in order to determine his liability."

3. Repeat earned income credit. "There is sound argument for retaining the earned income credit, but its retention greatly complicates our tax return and is of little actual benefit to the taxpayer."

Carlson said there is danger that taxpayers "will become so confused and bewildered that it will affect our national morale," unless the statutes are simplified. He conceded it is too late to do anything about the computations due this March 15, but he demanded action before another tax accounting date rolls around.

East And West Gridiron Aces Are Youngsters

SAN FRANCISCO, Jan. 3 (AP)—East and West football squads battled to a 13 to 13 draw in the annual Shrine Charity game Saturday but a second look at the statistics shows that the underdog Easterners turned in a greater performance.

The East sparked by the great brawler of Ohio State and Bob offensive play of Edan Eensan-Hoernschemeyer of Indiana University, piled up 229 yards on the ground against a minus 15 for their opponents. The East made 15 first downs to the West's five.

The Eastern team was on the offensive most of the game, the last half of which was played in a heavy rain and on a slippery turf.

The contest served as a starring vehicle for comparative newcomers to the gridiron sport. Hoernschemeyer and Sensenbaurer are 19-year-olds with but one year of college football experience. Herman Wedemeyer, 19-year-old freshman from St. Mary's College, was the outstanding performer for the West Team. He tossed two touchdown passes.

LUKE WONT GO BACK
CAMP LEE, Va., Jan. 3 (AP)—Luke Appling, American batting champion, who arrived at this quartermaster center for his basic training a few days ago, said he probably would not return to the major leagues as an active player after the war.

College Cagers To Dominate News Since Grid Finals

By HAROLD CLAASSEN
NEW YORK, Jan. 3 (AP)—With football having written its own seasonal obituary in the Jan. 1 Bowl Games, college basketball hops to the task of dominating the winter sports pages.

While the business of determining the various conference champions is slated for the coming weeks, enough has transpired in preliminary games to indicate that Illinois again will be strong in the big ten, Kansas in the big six, Arkansas and Rice in the Southwest, Southern California in far west, Dartmouth in the east and Duke and Kentucky in the south.

Illinois, with five triumphs in six starts, tangles with Wisconsin tonight at Madison and the 1944 edition of the whit kids apparently is well enough equipped to carry on the Illinois pace of the past few years. Doug Mills' outfit was the first to down Great Lakes, 64 to 51, after the Sailors previously had won, 52 to 44.

Northwestern, Purdue and Ohio State regarded as the next strongest with Iowa, the League's only unbeaten member, not rated too highly because of its weak, early opposition.

Kansas, winner of a Kansas City Doubleheader, and Oklahoma, Aggies among the entrants, are top rated in the big six but Iowa State, now that Price Brookfield of recent West Texas state fame is a member also is strong.

Probably the best team in the sprawling midwest is DePaul, owner of an 11-game winning

streak that was climaxed Saturday with a 59 to 30 massacre of Arkansas, highly regarded south-west circuit member.

The Razorbacks entertain Texas Christian Friday and Saturday nights but the title chase gets underway Wednesday when Rice and Baylor meet at Waco.

Dartmouth already has conquered one of the major threats to its seventh straight eastern collegiate flag by dropping Pennsylvania, 54 to 48, and now regards Cornell, a 41 to 39 winner over Princeton, as its next big title obstacle. The New Hampshire five is the host to Columbia's spotty quintet Saturday.

Duke and Kentucky, No. 1 teams in the Southern and Southeastern conferences, respectively, made holiday excursions to pick up experience for the flag races.

The Wildcat knocked off St. John's, national invitational king of 1943, by a 44 to 38 score in Madison Square Garden while Duke, although beaten in an overtime by Long Island University, 59 to 57, saw its Gordon Carver like the season's individual scoring mark at the Garden to 27 points.

On the West Coast Southern California's Trojans are regarded as tops in the coast circuit until proven otherwise and Gonzaga's independent quintet also is powerful. The Spokane Bulldogs punished Washington, 76 to 39, for the huskies worst court defeat in 20 years. Saturday they trimmed Washington State, 57 to 38.

Barney—Sports fans in this area remember Allen G. (Little Barney) Barnard, son of Mr. and Mrs. A. B. Barnard, 515 N. 2nd street, La Mesa, as a great 110m athlete on the football field and golf links. Now they may grow to know him as a star performer on Uncle Sam's bombing team, for a week ago he received his bombardier wings and commission as a second lieutenant in the army air forces at Midland.

Leut. Barnard may be remembered as the quarterback who teamed with Gus White a couple of years back in La Mesa, and as the youngster who furnished strong competition in local golf tournaments.

GOOD TRY

LOS ANGELES, (AP)—Victor Volda wasn't certain he could fire a gun; he never had tried, until—

Two robbers tried to hold up his liquor store. Volda seized a revolver he bought two years ago for such an emergency. One robber fled, but the other fell, wounded in the shoulder and abdomen.

Police congratulated Volda and gave him more cartridges.

SAY YOU SAW IT IN THE HERALD

Gunder Haegg Names Successor To Track Throne

STOCKHOLM, Jan. 3 (AP)—Gunder Haegg, the Swedish distance ace who was named the No. 1 athlete of the year, is convinced that he has reached the peak of his career and won't break any more world records but today predicted that his fellow countryman, Arne Andersson, will be 1944's great track star.

Haegg says that he will not compete this year unless, perhaps, against the Hungarians or Danes.

It was Andersson who wiped out Haegg's mile standard with a 4:02.5 performance in the Swedish national festival at Goteborg while Gunder was touring the United States.

They don't want your tears

"DON'T CRY. Don't let them see you cry!" Whispers the other Red Cross Worker.

And as the stars of wounded come up the gangplank of the hospital ship, the young soldier swallows, keeps his eyes for an instant, and nods.

They don't want our tears . . . those boys of ours. Not though they have a future that at first can seem brighter than death.

They want our courage . . . they want our resolution. Courage and resolution to match and sustain their own.

Courage to keep us going on with this great task—no matter what it may cost these coming months in blood and sweat.

Resolution to back the boys who are taking these risks, with every breath that's in us and every dollar we can raise or scrape.

The boys realize, far more than we can say, how fast war uses up machines, ammunition, equipment.

The guns and tanks that took HIM 609 in Tunisia had to be rebuilt or replaced before they could thunder down upon Messina and Naples.

We cannot win the war with the bullets our boys bought last summer. Those bullets are already buried in Jap and Nazi guns. And another kind of the desperate, common enemy is closing on.

Bullets and shells . . . tanks and guns . . . ships and planes. These are the things the boys are asking us for . . . the boys at the front and the boys behind them who will never again do things with two hands, or walk with two feet, or see with two eyes.

They don't ask us to give what they have given. They only ask us to skip the easy tears . . . to invest our money instead of spending it . . . to lend the more money price of Victory.

They only ask us to buy War Bonds

Hester's See Better Outlook For Supplies

With the year 1944 just beginning, Boone Horne, manager of Hester's Office Supply, 114 E. Third street, has good news concerning supplies for the new year. The office is now getting available stock in spite of the war-time shortages. According to Horne, the War Production Board has loosened some types of supplies for production so that some formerly unobtainable equipment is now on hand or will be soon. "All in all," according to the manager, "it seems as if there will be prospects for a better year, too, as far as sporting goods are concerned."
 In the past the company, as other stores over the country has had little in the way of sporting goods to show to customers. Now there is a promise of an adequate supply of golf balls, tennis balls, and racquets.
 When these arrive in stock Hester's will find probably more than enough buyers for the amount will help ease the shortage that has curtailed most outdoor sports. While other stores such as gifts and games were largely bought up during the holiday season, Horne said that there are still some indoor games and suitable gifts left to take care of normal demand.
 With the prospects for a better

Happy New Year is the wish of J. B. Stevenson, operator of Western Grain and Seed company, to all his friends. He expressed appreciation for patronage during the past year and for patience of customers concerning shortage of supplies at times. He pledged best efforts to maintain a complete stock of groceries and meats in his food department and of all types of prepared feeds in his feed department to trade with Western Grain and Seed.

Wooten Supplying Farm Feed Needs

Serving as one of the many cogs in the wheel of victory on the homefront, the Wooten Produce company is performing a vital service for the community and farmers in this area in furnishing them with feed for poultry and livestock, and thus keeping up their job in supply of food for civilian and military consumption. The produce company is owned and operated by H. P. Wooten, one of Big Spring's business leaders, who comes in direct contact with the needs of the farmers, since he operates a farm near town, as well as the produce company. At present the company is buying and shipping grain by truck and carloads.
 Always on the alert to buy the best quality merchandise, whether it be feeds or poultry, they carry a complete line of poultry and dairy feeds.
 Conscious of the task in serving farmers with their needs, the Wooten Produce company sees that products are distributed as quickly as possible to points where there is need for them. Eventually, some of the products go into the hands of the Army and Navy to feed our fighting men.
 The Wooten Produce company does not maintain a spasmodic market for regardless of the amount of poultry or poultry products now available. Wooten is prepared to purchase from farmers. Cream supplies, too are readily handled.
 The company has received a carload of wheat and corn to be distributed to farmers, and Wooten reports that the concern has purchased a quarter million dollars in poultry and eggs during the past year, which marks the greatest year for the company in its history.

Regard Your Appointments

Have you ever stopped to consider your favorite beauty operator?
 It is an established fact that you like her or you wouldn't ask for her each time you make an appointment. You like to talk with her as she fixes your hair or does your nails and you might even get confidential with her at times, but have you ever paused to consider how hard she might work in an effort to please you? She is an artist in her field of endeavor and if your hair is unruly and hard to fix she is not satisfied until she has performed a job on you with which she is satisfied no one can better.
 Your beauty operator works on a commission basis and when you stand her up on an appointment you cost her money which she could be making. In spite of this she is loyal to you and is ready and willing to take you the next time you need her. **BUT ARE YOU TREATING HER RIGHT?**
 The Settles Beauty Shop is entering the new year short of help but with your cooperation can care for your needs as usual. But the management pleads with you to let them know in advance when you will be unable to keep your appointment.
 The service depends on both the shop and the customer. Every date on your calendar is preceded by a date on the shop's calendar. These important engagements are bound to conflict in these war-torn times when everyone is physically taxed to capacity.
 The shop will redouble efforts to give you the kind of service you want and you will just help a little—they can help everyone a lot. If the customer will make appointments early and be on time for them and when it is necessary to cancel an appointment, do it as early as possible then the shop can and will be able to give better service. There is always a long list of persons waiting for appointments, and when you fail to show up on schedule without notice it is too late to notify someone else. Consequently the operator loses a job entirely and loses money for herself as well as the shop.
 Settles Beauty Shop, located on the Rannels side of the hotel, is equipped to give you every kind of beauty treatment you might desire from permanents to pedicures. They specialize in the Helen Curtis cold wave.
 They have six operators at your service. They work in shifts, one coming on at 9 a. m. and the others coming on at 9, 10 and 11 a. m., respectively and working through 7.
 Some of the pre-historic Indian houses in Petrified Forest National Monument, Arizona, were built of petrified wood.

Murder Charges Will Be Filed Against Negroes

WACO, Jan. 3 (AP)—Nash Oliver, assistant district attorney, said murder charges would be filed today against two negroes in the death of William H. Braswell, 45, cafe operator at McGregor.
 Braswell was shot to death about midnight Saturday while en route home from his cafe. Officers said he apparently resisted a holdup, and that two negroes had made statements in connection with the case.
 Funeral services will be held today and the body will be sent to Galveston for burial.
 Survivors include the widow; a daughter, Mrs. Charida Blassingame of Fort Worth; his mother, Mrs. B. M. Seagraves and a brother, J. A. Braswell, both of Denison.

Editorial

Put Questions To Them

This will be a political year. There will, of course, be enough confusion about it from the national point of view, but there will be even more locally. The only surprising thing is that the first day did not bring the usual bevy of announcements...

Or "he's a pretty nice sort of a fellow," or "he needs the office badly and that other fellow has a good job already." When you get down to the brass tacks of a democracy, honestly aren't these silly lines of reasoning?

If we asked these questions constantly and made sure of the position of the various candidates, we venture that there would be less necessity for constant petition and pressure than exists under the present philosophy of choice.

Washington Daybook

By JACK STINNETT

WASHINGTON — The recent appointment of Walter O'Meara, New York advertising executive, as Office of Price Administration deputy administrator in charge of information, is just one more proof that the advertising industry has taken over OPA.

nor the support of business or the public, which might have put a stop to it. It became apparent then that the only salvation for OPA and the continuation of effective price controls rested with an informed public — a public aware of the dangers of inflation and ready to co-operate to prevent runaway prices and black markets.

Leap Year Offer

SPRINGFIELD, Ill. (AP)—Police Magistrate William H. Conway, a bachelor but a great believer in matrimony, has made this leap year offer: "To the first couple I wed on Feb. 29, I'll give a \$25 war bond. After all, it's not the initial cost of marriage that costs, it's the upkeep."

The Timid Soul

LOSER TAKE ALL

By Adelaide Hazeltine

Chapter 12 Ann was not a nurse but she had taken the Red Cross course in home nursing and she knew a little about the flu. So in an hour she was on her way to the Mason trailer.

"Dr. Miller said he'd come when he could," Mr. Mason told her. "He's the plant doctor." "All right. But in the meantime I'd like to get a few instructions from him. Suppose you stay here a few minutes longer while I go back to the first store and phone him."

Jack, the eight year old son, came in from school and stood round-eyed when he saw Ann. "Gee," he said. "Oh, gee!" Ann smiled. "Want to hold the baby while she takes her bottle?" "Uh-huh." The boy seemed eager to help.

Othello's Race

By GEORGE STIMPSON

Paul Robeson's appearance on Broadway in the role of Othello has raised again the old question whether Shakespeare conceived his Moor of Venice to be a negro. Shakespeare describes Othello as black, swarthy and thick-lipped, which is the description of a negro rather than a Moor as we understand the terms.

Hollywood Highlights

By ROBBIN COONS

HOLLYWOOD — Spencer Tracy's career in 1943 can be summed-up in one movie title. And that's unusual. Neither Metro, which knows that Tracy's name on a picture is money in the till, nor Tracy planned it that way. Tracy likes to make two pictures a year, no more but certainly no less.

At its inception, the economists — men usually identified with the New Deal since its infancy — look over under the leadership of Leon Henderson. Almost from the outset, Henderson and his deputy administrator in charge of price divisions, J. K. Galbraith, in particular, and OPA in general became the targets of Congressional criticism.

Students Die In Dorm Fire

KEENE, Tex., Jan. 3 (AP)—Lee Roy Birdwell, 15, and Virgil Dye, 17, perished in a fire that destroyed West Hall, boys' dormitory at Southwestern junior college here.

Queen For A Day

PASADENA, Calif. (AP)—Queen Naomi Riordan, 17, and her six princelings sat in the royal box while 68,000 "subjects" paid her homage.

Bomber Field Is Carved In Jungle

WITH UNITED STATES FORCES ON BOUGAINVILLE, Jan. 3 (AP)—Carved out of heavy jungle at the base of the fuming volcano, Mount Bagana, a 6,500-foot field for light and medium bombers is now in operation in these northern Solomons.

Apparently all the early English actors who played the role of Othello, played the part in black makeup. It is said that Edmund Kean, who played Othello at Drury Lane theatre in London in 1745 was the first English actor to portray Othello as a "Moor" instead of a "negro."

It took 11 months to make, against an anticipated four or five. Midway in production Van Johnson, playing an important role, suffered a serious automobile accident. Neither Tracy nor co-star, Irene Dunne, nor for that matter, Victor Fleming, the director, wanted to replace Van, and the shooting schedule was juggled.

For a while it looked as if the administration had cured its OPA headache. But it wasn't many months before this sand castle started falling apart. Black markets began spreading and OPA hadn't the personnel to stem them.

Shakespeare's other important Moor, Aaron in "Titus Andronicus," is described as black in color and as having thick lips and woolly hair. Richard Eden, in a book published nine years before Shakespeare's birth, wrote: "Ethiopes, which we now call Moors, Moors, or negroes." At that time negroes and other swarthy-skinned peoples were popularly called Blackmoors.

As soon as he finished the final scene of "A Guy Named Joe," Spence bled him to the studio barber shop and gave crisp instructions. The barber gulped, quietly withdrew to the telephone, and summoned Pandro Berman, the producer. Berman rushed down and thus forestalled a tenuous disaster. Temporarily, anyway.

It is within less than 250 miles of Rabaul and only 850 miles from Japan's mighty naval base of Truk. Called Piva Field after the river village of that name, it was built with disregard of danger from enemy bombing and ground patrols. It was dedicated Christmas Day.

When Ann began on the baby, she had seen few babies under six months old and she certainly had never bathed one. But she bathed Mary Lee. With a few cautions from the mother about holding the head and back firm she washed the baby in the round

Suppressing a queasily yawn, she plunged resolute fingers into sudsy dishwater. The Tournament of Roses is over.

When ten big C-47 transport planes roared in over the field to deliver the first airborne load of bombs from a Solomon base. Marine Col. William K. Pottinger, Hillsboro, Tex., commander of Bougainville air operations, called, "Thanks for the bombs, boys."

Undoubtedly "the Prince of Morocco" in "The Merchant of Venice" was conceived as such a Moor. Although many of these Moors of North Africa were dark and bore "the shadowed livery of the burnished sun," they were racially Caucasians. Shakespearean scholars generally assume that Othello was such a Moor and not a negro. The dramatist makes it clear that his Moor was a Christian and not a Moslem.

When Ann began on the baby, she had seen few babies under six months old and she certainly had never bathed one. But she bathed Mary Lee. With a few cautions from the mother about holding the head and back firm she washed the baby in the round

When Ann began on the baby, she had seen few babies under six months old and she certainly had never bathed one. But she bathed Mary Lee. With a few cautions from the mother about holding the head and back firm she washed the baby in the round

Business Property

FOR QUICK SALE: Tourist camp on west highway. See or phone Eugene Thomas, 1307 Main, Phone 98.

Japs Claim To Have Sunk Transport

By The Associated Press
An Imperial communique broadcast today from Tokyo declared without Allied confirmation that Japanese aircraft had sunk a medium-sized transport and at least one smaller one off Cape Merkurs, New Britain, on Friday morning.

The communique, recorded by the Associated Press, also reported that a formation of 106 Allied planes had "attempted" to attack Kavieng, New Ireland Island, New Year's morning. The Japanese high command admitted loss of seven planes but asserted 10 of the attackers were shot down.

Losses totaling 15 planes were said to have been inflicted on Allied aircraft attacking Rabaul Saturday and Sunday.

STORY

(Continued from page 6)

She slipped quickly into a fresh cotton dress (thank goodness she had brought a couple of last summer's with her), put on her Tuxedo coat with the gold lining and made her way through the hall to the front of the house.

She considered calling a cab, decided against it. It was only a ten minute walk and there were street lights most of the way.

The big trees on the lawn made dark blotches on the grass. Instinctively Ann skirted their shadows and hurried on.

The street lights cast a faint circle of yellow about their base. She ran from one to the other always grateful to reach the next.

She was going down the hill to the bridge when she first became aware of the figure that moved along behind her. She told herself it was only an illusion; a product of her imagination. But when she reached the bridge and her heels clicked on the boards; the figure's steps clicked, too. Heavier, faster.

She glanced around, saw to her terror that there was a man only a few yards away and he was gaining on her.

He was following her all right. What was more he would overtake her on the bridge.

To be continued

RAINS HELP

AUSTIN, Jan. 3 (P)—Stock water supplies were replenished and ranges and small grains immensely benefitted by week-end rains that totaled 2.04 inches throughout this area.

Austin ended the old year with a rainfall deficiency of more than nine inches, but started the new year with a surplus of more than two inches, based on average annual precipitation.

Clear, frosty weather followed today.

Testimony To Be Heard For Gas Pipeline

AUSTIN, Jan. 3 (P)—Twenty-five witnesses were ready to begin testimony today if the Senate's general investigating committee voted to initiate an inquiry into the construction of a pipeline for natural gas from Texas to West Virginia.

Chairman Houghton Brownlee of the committee called the group to meet at 10 a. m. and the prospective pipeline investigation was announced as the first order of business.

Also to be offered the committee as subjects for investigation, probably later this week, were inquiries into the protein feed situation, a labor dispute involving Houston and Beaumont unions, and a study of the state-owned railroad between Palestine and Rust.

The 1,200-mile pipeline, which is already under construction, has Corpus Christi as its southern terminus. It is being built by the Tennessee Gas and Transportation Co.

Announcement of the project stimulated a controversy over the advisability of exporting natural gas from Texas in large quantities.

Opponents of the line have taken the position that the natural gas is a valuable raw material as well as a fuel, and that Texas should retain it for further industrial development.

Backers of the project contend that the gas will be stripped of all its elements of industrial value before it is piped out of the state, and that its chief utility in the manufacturing region to which it will go is as a fuel.

It is estimated that an average of 2,200,000 long distance telephone calls are made in this country each day.

GRIN AND BEAR IT

They got any out-of-town newspapers over at the canteen, Mac? — This guy wants a copy of the VOELKISCHER BEOBACHTER.

MacArthur Starts Saldor Clean-Up

WITH THE AMERICAN SIXTH ARMY AT SAIDOR, New Guinea, Jan. 2 (Delayed) (P)—General MacArthur threw his first strike at Japanese-held Saldor, on the north coast of New Guinea today.

Veterans of Buna and Sananda in earlier New Guinea fighting drove onto Saldor's three beaches and started up where they left off a year ago when the Japanese were driven from Buna's jungle.

Commanded by Brig. Gen. Clarence H. Martin, Acromac, Va., and Columbia, S. C., almost every officer in the task force is a veteran.

Martin's infantry commander is Col. Slayden Bradley, Mt. Pleasant, S. C. His other assistant is Col. Chester Beaver, Yankton, S. D., executive officer.

Other veteran officers in key positions included Major George Bond, San Angelo, Tex., who made the landing at Arava two weeks ago for practice and then came back to his old outfit.

Bill Marschall Named Agent Of Extension

W. L. MARSCHALL

COLLEGE STATION, Jan. 3 — W. L. (Bill) Marschall, for nearly 15 years county agricultural agent of Tom Green county, was named district agent of extension service district No. 6, comprising 32 Southwest Texas counties. He will supervise the work of 24 county and assistant county agents, including Howard county's.

Marschall succeeds James D. Prewitt who filled the position for six years prior to his selection by the college board of directors on Dec. 13 as acting director of the A. & M. college extension service. Prewitt announced Marschall's appointment.

The new district agent is a "West Texan by birth, environment and preference. He was mentioned in an October story in the Saturday Evening Post as "a bureaucrat you can call Billy—the typical county agricultural agent, the most useful and least conspicuous official on the farm front."

Born in November of 1890 in Kendall county, Marschall grew up in Llano and Mason counties and was graduated from Texas A. & M. in 1912. After employment in Dallas, he returned to West Texas to follow the livestock trade in Llano for five years. In 1918 he enlisted and served overseas with the AEF and then entered the ranks of the county agents at Llano. In 1921 he moved to Mason and was agent there until 1929 when he was transferred to San Angelo where he has been since. His record is one of the outstanding ones among Texas agents. Howard county's veteran agent, O. P. Griffin, said "I had rather see Billy get the job than anyone."

Committees To Meet At CC Office

Two committee meetings are slated for Tuesday at the chamber of commerce office.

The first, at 10 a. m., involves the Birthday Ball executive committee, meeting to lay plans for the traditional observance of the President's birthday for benefit of the infantile paralysis battle fund.

The other is the nominating committee, due to meet at 4:30 p. m. in the chamber offices to select a list of 39 nominees for directors of the chamber. From this list the membership will elect 10. The directors will name five others to go with the new directors and the 10 holdovers.

On the executive committee for the Birthday Ball are G. C. Dunham, chairman, C. S. Bloomfield, Walker Bailey, B. J. McDaniel, Ira Thurman, Dr. M. H. Bennett, J. H. Greene, V. A. Merrick, Cal Boykin, Anne Martin and Mrs. Dorothy Lawrence.

Harold Barnaby Helps Down Messerschmitt

Leut. Harold Barnaby, brother of W-O Neel Barnaby of Big Spring, recently shared destruction of a Messerschmitt 110 during a furious aerial dogfight near Duren, Germany, and made a forced landing at another English base afterward as his plane ran out of fuel.

The story of Leut. Barnaby, former resident of Waco, was carried in the News-Tribune, recently and told about the pilot of a fast-flying Thunderbolt P-47.

Barnaby, a veteran of more than 70 missions to continental Europe with his group, now possesses the air medal with three oak leaf clusters and the distinguished flying cross.

He shared the "kill" of the German twin-engined fighter with squadron mate, Lieut. Harry Hoff of Naugatuck, Conn.

The group was on a bomber escort mission, taking the hammering fortresses into Germany and out again. Their role was to divert all attacks by the German fighters against the forts and thus enable the bombers to hit the target and then get back home safely.

Barnaby was forced to make a dead-stick landing at an advanced airfield near the English coast after the fight. His gas was exhausted by the action and he barely made it over the channel as his engine sputtered and finally cut off.

He made a perfect landing—something which requires the highest kind of pilot skill with the big nose-heavy Thunderbolt.

Parents Hear From Buster Farris

Morris W. (Buster) Farris, son of Mr. and Mrs. T. W. Farris of Coahoma, who is stationed with the Marine signal corps broke a three months silence when his parents received several letters from him on December 27th.

Farris was inducted in June of 1942 and saw service in the latter part of the Guadalcanal campaign after which his division was sent to New Zealand for rest and replacement.

He wrote his parents that he was in the Tarawa battle and came through without being injured and is again out of the fighting zone on a very beautiful island for another rest.

In speaking of Tarawa, he told his parents it was by far the worst the Marines have ever been engaged in since their organization and the most costly so far as the loss of life is concerned.

He wrote that he sent greetings to his friends and hopes that those on the home front would spare no cost or effort to bring the war to a speedy end.

Here 'n There

Mrs. Pauline Petty, Selective Service clerk, who has been ill with influenza since December 23rd, reported back to work Monday morning.

Sgt. J. C. Ownbey and Mrs. Ruby Martin, both of the Texas Highway division of safety in Abilene were visitors here Monday at the local branch where C. B. Strain is in charge.

Sheriff Andrew Merrick was in Abilene Sunday to check on information concerning two recent unsolved burglaries at Burra store and Robinson Grocery.

Olis William Low, transfer from Alpine, who was inducted in the December call, was shipped to Fort Sill induction station Monday, the Selective Service office reported.

Mr. and Mrs. John J. Porter have received word from their son, Pvt. Adrian A. Porter, who has arrived safely somewhere in England. Pvt. Porter was formerly stationed at the Big Spring Bombarrier School.

Firemen were called Sunday to Casa Grande, night spot in the northwest quarter of town, but the "fire" was confined to an electrical short. No damage resulted.

Mrs. James Currie reported Monday that in a telephone conversation with the attending physician she learned that Lieut. R. P. Currie, stricken with meningitis in New Jersey, was resting well and that he was in good condition. Mr. Currie left Saturday evening by airplane to be at his son's bedside, but was grounded at Little Rock, Ark.

Major Griss Arrives For AAFBS Duties

Public relations office at the Big Spring Bombarrier School has announced the arrival of Maj. Clifton A. Griss, former resident of Roanoke, Va., who has been transferred from Childress to the local field as a bombardier navigator instructor.

Capt. James L. Duke has been transferred to Brooks Field, Texas, and Capt. Richard O. Stone has been transferred to Lowry Field, Colo., to receive a course in specialized training. Capt. John T. Bener, Jr., post intelligence officer, has been transferred to Wright Field, Ohio.

Service men reporting to AAFBS for assignment in the 78th squadron are Pfc. Arthur W. Eriley, Pfc. Morrie Nelson, Pfc. Earle W. Post, Pfc. Raymond A. Morgan, Pfc. Edward J. Nicholas, Pfc. Glydon Southard, Pfc. Robert J. Canavan, Pfc. Edwin R. Stewart, Pfc. Edward L. Smith.

New arrivals reporting to the 365th squadron are Pfc. Ralph Finnermore, Pvt. John F. Carpenter, Pvt. Marco L. Ramlin, Jr., and Pvt. Pasquale Tullio, Jr.

There is a "dry monsoon" as wet as a "wet monsoon" in the Orient, and the one is likely to be just as dry as the other is wet.

Holidays Pass Orderly Enough

The New Year holidays, although a little hilarious and ribald in spots, were orderly enough, a survey of law enforcement offices showed Monday.

Officers ventured that it was amply "wet" as celebrants indulged in 1944; but most of the revelers stayed in line and avoided the jails.

The sheriff's and constable's dockets were barren Monday and the city had only a minimum of drunkenness cases.

The word banana is derived from an African Negro dialect, although the fruit itself originated in India.

Sheep 2,000; steady; common slaughter lambs and feeder lambs 9.50-11.50; cull and common ewes 5.50-7.5; medium ewes up to 6.00.

Pork Eaters Get Ration Bonus

WASHINGTON, Jan. 3 (AP) — Pork-eaters received a new ration bonus today from the Office of Price Administration.

OPA ruled that spare stamp No. 2 on No. 4 ration book is good for the purchase of five points worth of fresh pork and sausage until January 15. The stamp will not be food for buying smoked or cured pork.

FINED \$50
George Fitzpatrick, pleading guilty in county court to charges of driving while intoxicated, was fined \$50 and costs and given six months suspension of driver's license.

Commercial Car Owners Seek Certificates

Despite publicity advising operators of commercial vehicles that the ODT would not issue new certificates of war necessity for 1944, the San Angelo office advised Monday that it was being flooded with letters requesting new certificates.

The certificates that are now in the hands of operators of commercial vehicles are valid for 1944 and the operators need only contact their ration board, who will issue their first quarter allotment of transport rations in the amounts that have been certified.

The San Angelo ODT office does not issue the transport ration coupons but merely certifies the amount of transport rations to the ration board who has jurisdiction over the county in which the operator works.

The ration office advised Monday that all ODT renewal certificates which were filed in the office before December 31st have been mailed out.

To those who have not received their renewals, and filed before the specified date, the ration personnel explained that heavy mails must be the reason for the delay.

However, those who failed to get their renewal blanks in until after December 31st, will have to wait, clerks said. The renewals will be mailed out as soon as possible.

Tax Payments Good For Month

Taxpayers whittled another big chunk off their current obligations during December, a survey of three collecting agencies showed here Monday.

The city had \$5,357.63 on its current roll and \$966 to come on the delinquent account during the month. This cut the amount outstanding on the 1943 roll to \$25,000 and ran the collection percentage to around 81.

December tax collections for Howard county show a total of \$12,787.14 which includes poll, delinquent and current tax collections. This makes the county's percent of current collections around 85 percent, it was estimated.

Of this amount, there were 362 paid poll taxes collected during the month to bring the total so far to 1,725.

From January 1st on, the office advised, there is no discount allowed on payment and after February 1st, tax payers must pay one and a half percent penalty and delinquency costs.

A total of \$4,675.09 in current taxes was collected during December by the Big Spring Independent School district, the office said Monday.

The December collections bring the total so far to \$75,958.70 and leaves only about \$12,000 to be collected on the estimated \$88,000 set in the budget.

In delinquent taxes, collections have amounted to \$2,363.20. The figures are said to be very good for December collections since the majority of the taxes were paid during October when the highest percent of discount was allowed.

COLORED INDUCTEES

Men in the January Selective Service colored call were shipped Sunday to Lubbock for final physical examination and induction. Margaret McDonald, clerk, said Monday.

Can Vitamins Restore Color to GRAY HAIR?

In tests with gray haired people, a leading homekeeping magazine, using the "anti gray hair vitamin", found 86% of those tested had some success. GRAYVITA contains the treated vitamin of the remarkable vitamin PLUS 450 Int. units of B₁. Get GRAYVITA now. 30 day treatment \$1.50, 100 days \$4.00. "FAULT FINDERS"

Guardians of War Production Quality

THESE young women from school and college are the type that help stand guard over the standards of quality in the war production of Chrysler Corporation.

By means of precision instruments and spectrum photographs these women are able to analyze pieces of steel, aluminum or magnesium alloys. If the chemical composition of these vital metal compounds falls below the rigid standards demanded—the report goes in and any defective piece promptly goes out.

Busy at widely different tasks in Chrysler Corporation are some twenty-nine thousand other girls and women from many walks of life and with varied amounts of schooling. They are helping to replace men called to the colors by the war.

This picture gives but a small glimpse of the vast research and laboratory background, employing hundreds of men and women experts, that aid in guarding Chrysler Corporation quality. It is a vigorous "guardianship" which demonstrates itself in the exceptional war-time service of some seven million Chrysler Corporation cars and trucks in the hands of owners.

It insures high standards of quality in enormous quantities of fighting equipment (from big tanks to small ammunition) now being built by Chrysler Corporation for the use of officers and men at the battlefronts.

THE IN HAIR-DOMES EVERY THURSDAY, CO. P. P. N. E. I.

Baptist Pastors Gather For Meet

More than 50 Baptist pastors from district No. 8 are expected to participate in the annual Pastors' Retreat program which started Monday noon at the First Baptist church.

Highlight of the conference, which amounts largely to a series of informal round-table parleys in which ministers exchange experiences, will be the Bible study on the book of Galatians as taught by the Rev. G. W. Parks, Roscoe, pioneer West Texas minister. The public is invited to hear the Rev. Parks in his discourses at 2:30 p. m. and 8 p. m. Monday and Tuesday, and at 10:30 a. m. Tuesday and Wednesday.

The retreat continues to noon Wednesday.
