AIRLINE PILOTS went on strike for one day Monday to protest the security against air pirates by the air lines. What they will accomplish by a one-day strike is undetermined, but their idea is to make the people more aware of the continuous threat of plane hi-jacking which has gotten to be an almost common occurrence lately.

Supreme Court Justice Warren E. Burger upheld Sunday afternoon at Tow on a lower court injunction prohibiting the strike, but Buchanan Lake. the president of the Airline Pilots Association said there was no way to notify the pilots to stop the Lohn and her guest, Mrs. Fel- end with her parents; Mr. erculosis infections have destrike after the decision.

There is no question that something needs to be done to stop the air piracy that has been going on. The hi-jacking of planes and demanding large sums of money by some psychos has gotten to be completely out of hand and it is the opinion of some, including some government officials, that the air lines are not taking the precautions they should to prevent it.
