## NEWS OF OUR MEN and WOMEN IN UNIFORM

Manley W. Norris returned Monday from the South Pacific after spending 26 months in the First Calvary Div. in the U. S. Army. He received his discharge from Ft. Bliss Sept. 22. Manley is the son of Mr. and Mrs. B. H. Norris on Whon Rt.

Billy Baker of Coleman passed through Tuesday afternoon on his way to Ft. Worth and from there he will go to San Antonio for his discharge from the service.

S-Sgt. M. L. Guthrie passed through here Monday night on his way to San Antonio to receive his discharge from the army.

F-O Floyd Gilbreath is here on a 10 day furlough visiting his mother and friends around Santa Anna. He is to report to San Antonio the 5th of Oct. for his discharge from the army.

J. T. Oakes, Jr., son of Mr. and Mrs. J. T. Oakes, arrived here this week, being discharged from the U. S. Coast Guard. J. T. has served in almost every country in the world, spending the last part of his service in a Destroyer Escort. He has traveled over 200,000 miles on the water. He is making his home here for the present. He was discharged at San Pedro, Calif.

Corpus Christi, Texas—T. C. Jackson, Hospital Attendant Second Class, son of Mr. and Mrs. Otis M. Jackson, RFD 1, Santa Anna, Texas, reported for duty September 17, 1945, at the U. S. Naval Hospital in Corpus Christi, Texas. Jackson was sworn in the Naval Service March 15, 1945 and received his hospital training at the U. S. Naval Hospital Corps School in San Diego, California.

Pfc. Jack Stanfield wires his wife here that he landed on the western coast Sunday from the Southwest Pacific, where he has spent over two years in the U. S. Army, stating he was delayed there for a few days enroute, and would wire again where she might expect him to go for his final discharge from the army.

Mr. and Mrs. R. R. Francis received a telegram from the War Department Tuesday, stating that their son, Sgt. J. B. Francis, was in Manila, free, well, happy, and on his way home. Sgt. Francis landed in Manila Sept. 16, 1941 and has been a prisoner of the Japs since April 9, 1942. He was with the 200th Coast Artillery Anti-Aircraft.

Word was received from the War Department this week that Pvt. George Rainer of Santa Anna, Rt. 2 had spent a well earned 6-day leave at the XV Corps Rest Center in Nancy, France.

William D. Ashmore arrived here this week with his discharge from the U. S. Coast Guard. He has been in the service over 3 years and was discharged at New Orleans, La. Most of his service was spent in the South Pacific on escort vessels. He is making his home in Santa Anna for the present.

Mr. and Mrs. R. O. Manley and family of Britton, Okla. are here visiting his brother and family, Mr. and Mrs. J. A. Manley.

## New Fire Truck Arrives

### Mountaineers Loose First Game To Bangs Dragons

The Santa Anna Mountaineers lost their first fight on the grid last Friday night, 15 to 0 to the Bangs Dragons. This was the first game the local boys ever played, and with the short time they have had to practice they just did not have what it takes to go in the ring with boys of more experience and training.

Both teams played clean and put up a fight, but the Mountaineers could not penetrate that line those Dragons formed. The Mountaineers have a chance to profit by errors made in their first tryout in a real game, and no doubt will take advantage of the opportunity.

Coach Burgett is making progress with his boys, and they are beginning to see what it takes to play football. Hesitation, fear, waiting and suchlike does not get the job done in football. Get-up-and-get with plenty of spizzerrinkum and self confidence will come nearer putting the job over than anything else. Most football games are either won or lost before they are played, in our judgment. It takes lots of grit, fight and determination to win in a football game. Try boys, and see.

### American Legion To Hold Regular Meeting

The American Legion will have its regular meeting Tuesday, Oct. 2, in the luncheon room of the Service Cafe at 7:00 p. m. We have some very important business that must be taken care of at this meeting and all members are requested to be there if at all possible.

Three main subjects to be discussed are 1. The home for the American Legion. 2. Our part in the Coleman County memorial service for all men who have lost their lives in War II and 3. Our campaign for new members. If you are interested in your post and what it stands for you should show it by being present.

This is our regular luncheon night program. There will be plenty for everyone. So lets have 100 per cent attendance at this meeting. If you know someone who should be a member of Legion, bring him with you. All visitors and prospective members are always welcome. Come and enjoy the meeting with us.

### Hardin-Simmons To Offer Extension Courses In Coleman

Hardin-Simmons University will again offer extension courses here in Coleman if the demand will justify their doing so. D. E. Loveless, superintendent Coleman County Schools, states that this service affords to teachers, and others, of this county a wonderful opportunity to earn credits leading to either a bachelors or a masters degree.

Anyone interested in enrolling for either one or two courses is urged to be present at the organization meeting in the assembly room of the Agricultural Building in Coleman on October 2nd at 7:30 p. m. Two or three teachers from Hardin-Simmons University will be on hand for this meeting.

The long looked for new fire fighting apparatus arrived this week in the form of one of the latest and most modern fire trucks on the market.

The truck was purchased by the City several months back, and carried to San Antonio for special equipment attachments. The truck was built by Burke & Simms Fire Equipment Company of San Antonio. It is mounted on a 1945 Ford Chassis and is powered by a 100 horsepower Ford motor. It has the most modern and up-to-date fire fighting equipment available including a two-stage centrifugal pump that will pump 500 gallons per minute up to a 400 pound pressure, has spotlights, fire extinguishers, axes, three-way extension roof ladder, sign and halfturn oscillating redlights on front, carries 110 gallons of water, 100 feet of red-line one inch hose, and 1,200 feet of 2 1/2 inch hose, has three discharge lines and represents an expenditure of \$6050.00 fully equipped.

### Plans Complete For Bus Drivers' Institute

Plans have been completed for a Bus Drivers' Training School to be held in the Coleman High School Auditorium this Saturday, September 29th. D. E. Loveless, county superintendent, said today. This will be in connection with the state-wide Safety Education Program to improve the general efficiency of drivers and to make sure that the school buses are safe for the children of this county.

School buses will be checked during the afternoon by Texas Highway Patrolmen to see if drivers are meeting the requirements that are specified on the back of their drivers' contracts.

According to a statement issued by Dr. L. A. Woods, state superintendent, attendance is compulsory for all bus drivers, and any driver failing to attend the institute or failing to meet his requirements may make it impossible for his school to get transportation funds. The following program has been arranged by county superintendent, D. E. Loveless, for the day:

- Program**
- 8:00-9:00—Registration.
  - 9:45-10:00—Purpose of the Institute; and the Duties and Responsibilities of the School Bus Driver—D. E. Loveless.
  - 10:00-10:15—Helpful Suggestions Drawn from Experience Operating School Buses—Supt. W. R. Chambers.
  - 10:15-10:30—Taking Proper Care of the School Buses—A. B. Stark.
  - 10:30-11:00—Safe Operation of School Buses; Accident Facts in Texas; and Stress of Texas Bus Laws—Capt. R. B. Butler (Texas Highway Patrol, San Angelo, Texas)
  - 11:00-12:00—First Aid, and Showing of First Aid Films—Kelly Dalton (County Chairman American Red Cross First Aid)
  - 12:00-1:00—Noon
  - 1:00-Until—Bus Inspection—(Texas Highway Patrolman)

The Lions Club Carnival committees have arranged plenty of fun for you Saturday night, Sept. 29.

## Buffalo Entertains Singing Convention

### Santa Anna vs May Friday Night

Tonight, Friday, the Mountaineers will cross tackles with the team from May. We have no record on the May team, but those boys from that neck-o-the-woods should know their stuff, and we expect a hard-fought game. Get in there boys and do your stuff. Remember, when the one great scorer comes to write against your name, he writes not that you won or lost, but how you played the game.

Coach Burgett expects a lot better game this week. The boys are working harder than ever now. After the Freshmen and Sophomores won the scrimmage game with Coleman Jr. High 12-0 Wednesday, it has put a lot of spirit in the boys. They will all be out there fighting hard tonight. The following is the probable starting lineup:

Blake, LE; V. Cobb, LT; Dean, LG; Bostick, C; McClatchey, RG; McSwain, RT; Gilmore, RE; Kingsberry, LH; England, RH; Lovelady, QB; Newman or Horton, Full.

### F. C. Williams Buys Another Dairy Herd

F. C. Williams returned from Fort Worth Tuesday with fifty head of holstein dairy cows, and will soon have his dairy in operation again, with an all holstein herd.

Further data is not available, but F. C. Williams knows his stuff, and we are expecting some good returns from his latest adventure and investment.

Buy That Bond Today

The seven county district singing convention that met at Buffalo Sunday was a real success and a big affair for any rural community to sponsor.

Those fine folks out Buffalo way do things up in the right way. A fine dinner was prepared at the noon hour and all were fed to the utmost of their inward capacity.

Several of the state's leading quartets were present and we heard some of the best singing and blending of voices we've heard in many moons.

At the time this editor and Mrs. Gregg left the convention to attend the John Oakes funeral here at three o'clock, that large gym was crowded almost to capacity, and it was waiting to one's soul to listen to those singers blend their voices in sacred song, each song carrying a message of God's praises.

When all God's singers get home, a number of those we heard sing will be in that number.

### Tragedy Upsets Football Plans

Monday afternoon, Autry Robbins, 15 year-old son of Mr. and Mrs. Jasper Robbins, suffered a broken leg below the knee in his first practice game for football.

Without complications setting up, Autry will be back in school in a few weeks, but will not be able to participate in any further football play this season. General regrets are expressed that such had to happen.

Bigger and better attractions than ever at the Lions Carnival Sept. 29.

### B. A. Parker Enlarges Store and Service

B. A. Parker has succeeded in procuring the entire floor space of the garage building he has been occupying for several years and greatly expanded his stock and working facilities.

Facing the future with optimistic prospects for increased business, Mr. Parker has added extra to the additional space and increased stock of merchandise, several competent helpers to his service department. Add T. Walker, recently discharged from the U. S. Army, after spending over four years in the service, 35 months of which was spent in the Southwest Pacific, will give you quick and dependable service when you have tire trouble. J. B. Joiner, after serving seven and one-half years as night watchman, is back on his old job as parts man, except for the Parker Auto Store instead of the Ford Motor Company. E. B. Hill, formerly employed with Mr. Parker and other places in town, has plenty experience and knows how to meet the public.

All the above have been added to Mr. Parker's force of servicemen and the owner takes pride in pointing to his store and well selected corps of helpers.

### All Day Church Services At Novice Sunday

All day services will be held at Novice Baptist Church Sunday, September 30. Bring lunch and worship with us. This is the day which the Lord has made. We will rejoice and be glad in it. Psalms 1:18-24.

Conducted by the Assembly of God Church. Ruby Evans, pastor

# Remember The Lions Club Big Annual Carnival Saturday Nite Sept. 29

**Magic Foods**

**Babson Warns Certain Growers**  
 Gloucester, Mass.—We today eat food for two reasons: (1) To provide us with necessary starches, proteins, vitamins, minerals, etc. so as to give us growth and strength; (2) To give us the pleasure which comes through taste, odor and the formation of the gastric juices.

**Foods Growing Poorer**  
 The best foods are those which naturally combine both (1) and (2) as outlined above. These were the foods which my ancestors raised on the virgin soils of Cape Ann which have since become run out. Not only were the vegetables and other products of the soil much better in those days, but also the cattle and poultry, including the milk, eggs and butter. If you have any doubt as to this, compare the taste of the blueberries which you, yourself, pick and the trout which you, yourself, catch with the frozen food and fish which you buy at the market.

Not only are our foods becoming less nourishing and less tasty from soil deterioration, but the various forms of processing foods in order to make them "ready to eat," have taken from them further valuable qualities. This applies, not only to what is done to the wheat and the sugar, but also to the picking of fruit before it is ripe. It is true that bread is in part artificially "enriched" by chemicals or rays, but only a very few products are now being treated in this way.

**Importance of Odors**  
 Yesterday I was in the old kitchen where my Mother cooked my meals for many years. The kitchen wood stove has gone and a gas stove or electric range takes its place. This is okay of itself, but the big iron pot which my Mother always kept simmering on the back of the stove has, of course, gone likewise. This was the pot in which she stored the water in which the vegetables, meats and other things had been boiled. It was full of vitamins, minerals and other valuable foods which can now be secured only at drug stores.

Not only do our homes lack that iron pot of vitamins, but many of them now have an electric fan in the wall which draws out the valuable odors. As a result, that important aroma which comes from the bacon at breakfast, the roasts of meat at dinner, and the stewed fruits at supper is thrown away into the air. Yet, these aromas are most necessary for developing the gastric juices so important for arousing our appetites and digesting our foods; also certain common nasal difficulties may be due to the lack of aroma stimulation. Our whole food situation is topsy-turvy. No

wonder adults are breaking physically and children "going to the dogs." The two factors which make good citizens are Religion and Food. Today both are pretty wishy-washy!

**Looking Into The Future**  
 Two important developments are taking place: (1) The analysis of foods to ascertain which are the most valuable, and (2) the development of synthetic flavorings. I refer to the chemists' ability to make cooked apples taste like peaches or plums, or to make cooked carrots taste like mushrooms or artichokes. Our children will be able to buy foods purely for their health-giving qualities and then give them the flavor of any vegetable or fruit desired. This should reduce living costs, improve family health, and give more joy when eating.

Under the above system escarole (chickory) or beet greens or carrots, which are very rich in vitamins and easily raised would be flavored so as to taste like any fruit or vegetable desired. In the same way, beans, peas and lentils, which are very rich in iron, would be served to taste like more expensive and tasty meats. We will still be able to buy a can of "peaches"—the contents tasting like peaches and healthier than peaches—but they may be made from one of the base vegetables such as carrots.

**Caution To Farmers**  
 All of the above means that before spending more money setting out peach and apple orchards, or orange and grapefruit groves, readers should carefully study this subject. Annual crops may be a much safer investment than tree crops or shrub crops; while money invested in good chemical stocks may be safer than if invested in farm land.

Austin—A continuous and well balanced safety program to bring about permanent reductions in fleet accident experience has been proposed by the Texas Motor Transportation Association, General Manager, Lynn B. Shaw said today, and will be initiated in a great many motor transportation organizations by the first of the year.

Shaw said it is self evident that efficiency, economy and simplicity go hand in hand with safety. Conversely, accidents are evidence of inefficiency, uncertainty and confusion. With those facts in mind, a balanced program has been proposed to provide a spread of effort designed to reach and impress all employees, including drivers, mechanics and supervisory personnel.

We'll be looking for you at the Carnival Saturday night, Sept. 29.

WAR BONDS purchased today will save scores of lives.

 Chairman of Board, Greater Pan-American Hereford Exposition

Fred F. Florence, president of the Republic National Bank, one of the largest financial institutions in the Southwest, and chairman of the board of directors of the Greater Pan-American Hereford Exposition, announces that the 1945 show at the State Fair Grounds in Dallas Nov. 9-18 will have a premium fund of \$20,000, the biggest of any single breed cattle event scheduled anywhere in the world.

**CARD OF THANKS**

May we take this opportunity to express our thanks and appreciation to all who so kindly remembered us during our trials following the passing and burial of our father, John M. Oakes. For every act of kindness, words of sympathy, and favors in any kind of way, we thank you from the depth of our hearts. Especially do we appreciate the beautiful floral offerings. May God richly bless you.

**THE STATE OF TEXAS**

TO: Aubrey G. McHenry Defendant, Greeting: You are hereby commanded to appear before the Honorable 35th District Court District of Coleman County at the Court House thereof, in Coleman, Texas, at or before 10 o'clock A. M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 29th day of October A. D. 1945, then and there to answer Plaintiff's Petition filed in said Court, on the 8 day of September A. D. 1945, in this cause, numbered 6637-A on the docket of said court and styled Wilma Alma McHenry, Plaintiff, vs Aubrey G. McHenry, Defendant.

A brief statement of the nature of this suit is as follows, to wit: Plaintiff alleges Defendant voluntarily abandoned her for more than three years with intention of permanently separating from her. Plaintiff alleges that there are no children and no community property as a result of said marriage. Plaintiff asks that her maiden name be restored, as is more fully shown by Plaintiff's Petition on file in this suit.

The officer executing this process shall promptly execute the same according to law, and make due return as the law directs.

Issued and given under my hand and the Seal of said Court, at office in Coleman, Texas this 11 day of September A. D. 1945.

Attest: Jay R. Pearce Clerk, District Court, Coleman County, Texas. (SEAL)

**Tells of Jap Brutality While POW**

At a Naval Hospital in Guam—An honored guest at the historic Sept. 1 surrender ceremonies aboard the battleship USS Missouri in Tokyo Harbor was Lee C. Shaw, 32, motor machinist's mate, second class, USN, whose sister, Mrs. C. A. Pepper, lives in Sabinal, Texas.

Honored by Allied generals and admirals because he represented the thousands of Allied prisoners-of-war liberated from Jap prison camps, he was interviewed on Guam while awaiting transportation to the States. Shaw told of going aboard the Missouri in a suit of borrowed whites to be greeted by General of the Army MacArthur, Fleet Admiral C. W. Nimitz, Admiral William F. Halsey, British Admiral, Sir Bruce Fraser and other officials.

He then was given a card, emblazoned with a Rising Sun set by the signatures of MacArthur, Nimitz and Halsey "certifying the presence of Lee C. Shaw, USN, at the formal surrender of the Japanese forces to Allied forces."

"I was kinda scared when Admiral Halsey came up and asked me what I wanted to do most, now that the war was over," recalled the Navy submariner who survived 28 months of Japanese cruelty in prison camps.

"But the Admiral laughed when I said I'd like most to saddle that white horse for him." When his submarine was lost in the Malacca Straits, Shaw and his shipmates were dragged aboard a Jap corvette and clubbed with rifle butts.

"It was on the Jap liner Asamomo Maru that we got a real

beating," said Shaw. "They told us that we'd sunk their sister ship and then lined us all up and punched us. By that time I only weighed 97 pounds, after living on Jap beatings, and I went down pretty easy. But they pulled me up for more slugging."

Then to the infamous Ofuno camp near Tokyo for torture and questioning and captive treatment rather than prisoner-of-war status. In December, 1943 the submariners were shipped to Omori camp and put to stevedoring work in railroad yards.

"If they weren't so savage, you'd think the Japs were a bunch of stupid brats," he said. "I once absent-mindedly scrawled my name on a box-car in the yard. A B-29 came over later and the Japs beat me for 23 days because they said I'd been trying to give information to the enemy."

Transferred to Sumedagawa submarine camp on eastern Honshu in December, 1944, Shaw endured further Jap brutality until released Aug. 30, 1945 "on my 32nd birthday."

Shaw said that he will stay in the Navy "which didn't let him down."

Rex Garrett, leader in the Buffalo conservation group, constructed terraces last week on his farm using a three-disk breaking plow. One terrace was checked for size. It contained 19.2 square feet of cross sectional area and was 17 inches high by 22 feet wide at ground level. Sixty rounds were plowed in building the terrace.

Ten farmers met at the Junction school house last week and discussed soil conservation practices applicable to their farms prior to start of farm planning. Those present were J. A. Baucom, S. P. Horne, H. T. Hewlett, Will Stevens, Mrs. Alma Brown, Mrs. Maynard Gaines, George Sparkman, F. L. Maedgen, Gay Hipscher and Albert Baucom.

J. A. Baucom has started terracing on his farm in the Junction conservation group. He expects to complete several miles this year.

Roger Keeney constructed a mile of terraces last week on his farm on the Mud Creek watershed in the Buffalo conservation group.

A tour has been set for Thursday of this week for cooperators of the Buffalo conservation group to see plow-built terraces and protected terrace outlet channels on the Rex Garrett and U. S. Brannon farms.

The seed cleaner for recleaning clover seed is expected to be tried out this week now that replacement parts have been received. Growers will be notified when to bring their seed for recleaning.

Andy Broyles, district supervisor and cooperator in the Talpa conservation group, brought his clover seed in Saturday for use in testing the cleaning machine.

**Nimitz Day**

October 5 has been set for the reception to be given Admiral Chester W. Nimitz of Fredericksburg, upon his return to the Nation's Capitol following the great triumph in the Pacific in which he had such an important part.

With Admiral Nimitz will be Admiral Halsey and a gallant host of Navy, Marine Corps and Coast Guard heroes.

In addition to the traditional parade, plans call for a show of small war ships in the Potomac and a giant aerial display. The Congress will join in the rousing welcome to the triumphant Pacific Naval forces and their commander in chief. Admiral Nimitz will address a joint session of the House and Senate, following which the Pacific hero will go to New York where he will be received and acclaimed by millions. I have urged the Navy to arrange for the Admiral to go to Texas on the occasion of this visit. That would give Texas a chance to receive and pay tribute to its distinguished son and one of the great Admirals of all time.

**Controls Curtailed**

About the best reconversion news around Washington these days is the speed with which Chairman Krug of WPB and some others have acted in removing wartime controls. It was Krug who said, "The best way to get going is to get going."

OPA likewise has heeded President Truman's urge that rationing and controls be curtailed as fast as conditions will permit. OPA informs me that the first of the year should find us with only sugar and fats and oils on the rationing list.

growers came with the announcement that all controls over slaughtering of livestock are being taken off. And it's good news to the butcher and the housewife as well. With some 10 million more cattle on the range than when the war began, it is evident that the meat program has been badly bungled by OPA. Over the protests of many of us, OPA has persisted in refusing local butchers and small packers permission to slaughter except on a very limited basis. The result was that hundreds of small packers were forced out of business all over the nation and available cattle could not be slaughtered and the meat sold to the meat hungry public.

**Discharges Speeded**

Last week both Houses of Congress assembled to hear General Marshall detail the Army's demobilization plans. He pointed out that on V-E day there were 3,800,000 troops in Europe and 1,900,000 in the Pacific. Since V-E day 859,000 have been discharged under the point system, including over-age, hardship and medical releases. Following that time the monthly separation capacity of seven to eight hundred thousand will be reached.

The critical points required for release will be reduced from the present 80 to 70 on October 1, and on November 1 it will be whacked to 60. The General emphasized that his orders are to replace combat troops at maximum speed so they can be brought home for discharge.

The problem is somewhat complicated by the fact that in our supply depots in Europe—not in Germany—there are 6 million tons of supplies to be returned to the U. S. and in the Pacific there are 800,000 tons to be sent home. At this time all available ships are being used to transport troops home.

In individual hardship cases, applications, supported by at least two affidavits from disinterested parties or by a Red Cross statement, may now be filed directly with the Adjutant General's Office in Washington as well as by the soldier overseas.

**CIO Demands**

The Capitol corridors were crowded one day last week by

500 CIO members from New York who came over to demand that Congress immediately enact the ill-reputed \$25-a-week unemployment insurance law and also pass the so-called full employment proposal. The latter, if enacted, would commit the federal government to a paternalistic policy on a scale never before advanced. As written, it has been described as an expression of lack of faith in private enterprise and as a strong turn toward a socialistic program in this country.

It certainly looks like the sponsors could at least wait until private enterprise can exert every effort to do the job and until a problem actually exists before clamoring for more federal jobs.

—8 oz. Duck 29c. Payne's Variety Store.

WERE all hearing a lot about ceilings these days. It's suddenly become one of the most popular words in the English language. Aviators started it with their ceilings. They're all faced with the problem of adjusting their businesses to increased costs, decreased personnel, and shortages of materials.

Ceiling prices are an old story to business-managed electric companies. And they're constantly working and planning to make the price of electricity still lower. They've accomplished some pretty remarkable results along this line, too. For example, the average American home today enjoys about twice as much electricity for its money as it did fifteen years ago. Perhaps you may not have noticed this reduction because you've added more electric appliances and used more electricity all the time the rates were coming down.

Maybe you wonder how this has been accomplished: this reduction in the price of electricity in the face of rising costs for almost everything else. Well, the answer is sound business methods—plus the practical experience of men, women, and management working together. That's a team that's hard to beat! And one that won't be beaten as long as we have that grand old American freedom of working together, planning together, and profiting together!

—IS ALWAYS GOOD ADVICE, BUT APPLIES PARTICULARLY TO LOCAL POULTRYMEN AT THIS TIME.

Conditions in every line of business are unsettled following the end of the war, and no one can forecast definitely what the future holds.

One thing, however, is sure—the farmer's outlook is brightest of all. Those who intelligently care for their poultry and livestock, feed them well, and market wisely will continue to make a profit on their undertakings.

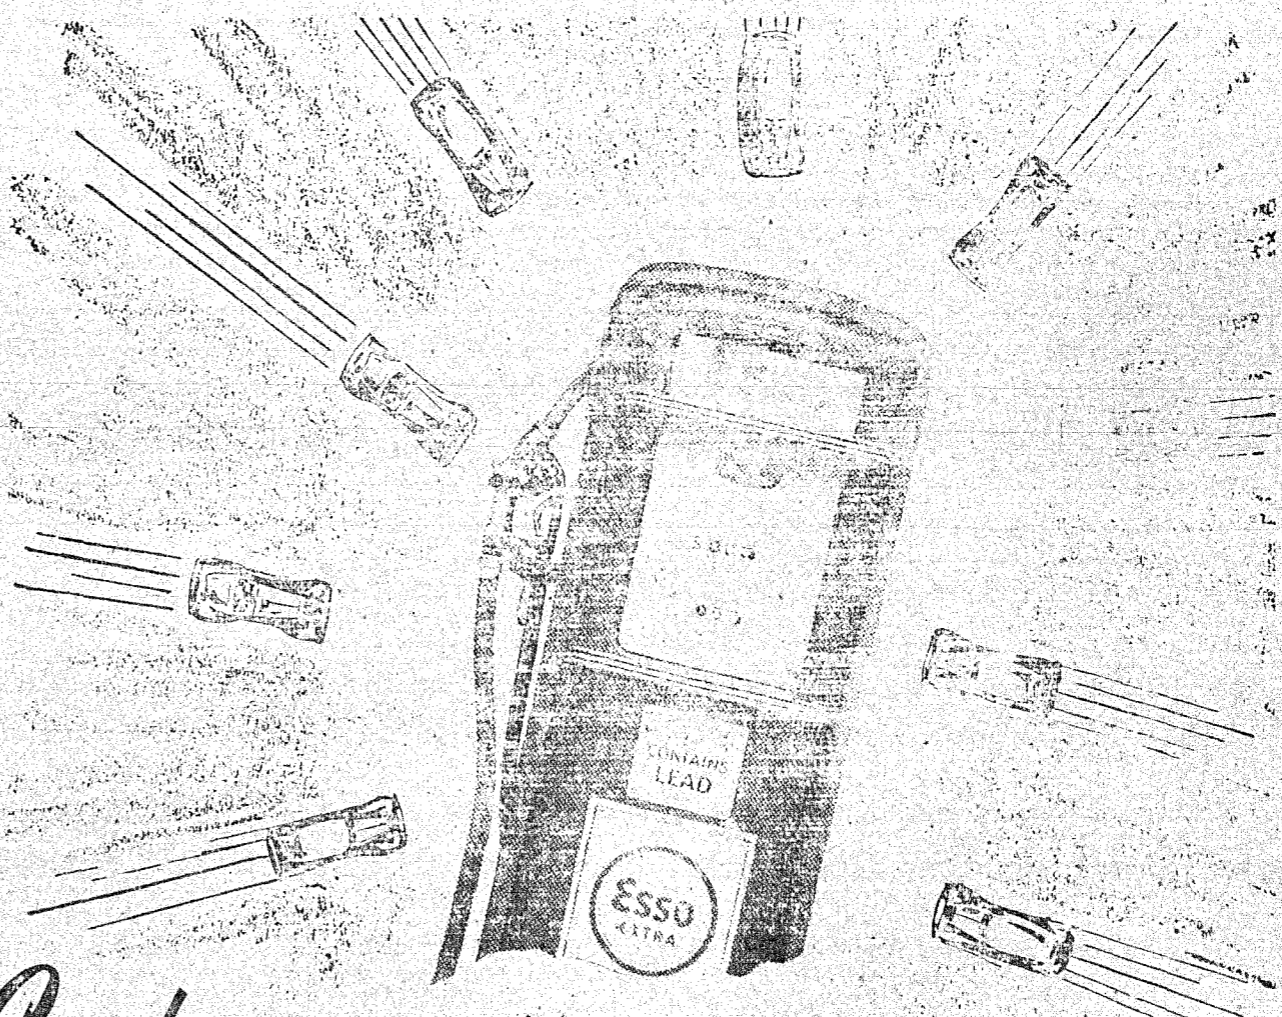

Markets may be jittery from time to time, but prices will level off soon, and with all the people who need to be fed and the financial condition of the country, we see no reason why the future can't be prosperous.

Company records of new users—repeat sales—sales increases—all the things which tell us that users like Humble products—indicate prompt and hearty approval of better than pre-war Esso Extra by Texas motorists.

Users are enthusiastic about better than pre-war quality of Esso Extra. Always first among premium gasolines, today's Esso Extra is better than ever before. Now—in addition to easy starting, matchless pickup, knockless performance—Esso Extra has a new high octane rating exceeded only in the fuel used by war planes in combat. Don't wait longer for better than pre-war performance from your car. Take a tip from your friends—fill up today with better than pre-war Esso Extra, the finest gasoline you've ever used.

**THANKS!**

During the war years, Humble men and women worked with magnificent devotion to duty to give Allied arms the petroleum products needed for victory. Now, when their skill and Humble's unrivaled manufacturing facilities have been turned once more to the needs of peace, the Company feels it is a fitting time to let you, the user of Humble products know of this, and thus to publicly express its appreciation to Humble workers for their outstanding loyalty.

**HAVE YOUR MOTOR TUNED FOR BETTER THAN PRE-WAR PERFORMANCE**

To take full advantage of the better than pre-war quality of Esso Extra, we suggest that you have your motor tuned. Some cars need only a simple adjustment with a screw-driver; others need the attention

Improved Uniform International SUNDAY SCHOOL LESSON

By HAROLD L. LUNDQUIST, D. D. Of The Moody Bible Institute of Chicago. Released by Western Newspaper Union.

Lesson for September 30

Lesson subject and Scripture texts selected and copyrighted by International Council of Religious Education, used by permission.

THE ISRAELITES IN A FOREIGN LAND

LESSON TEXT—Genesis 41:1-12. GOLDEN TEXT—Lord, thou hast been our dwelling-place in all generations.—Psalm 91:1.

Preparation of a great nation takes time. God wanted Israel to have opportunity to develop from a family to a nation...

Jacob's fears had been overcome by the vision of God (Gen. 46:1-4), in which he was assured that this was the outworking of God's purpose to make of him a "great nation"...

As he presented the representatives of his children to Pharaoh, Joseph made known that he had settled them in the land of Goshen, a favored spot well suited to their life as shepherds.

It is worthy of observation that while they were now in Egypt there was no thought of mingling with the Egyptians. They were to be a separated people living in a strange land...

The application to the life of the Christian lies right at hand. In Scripture Egypt is a type of the world, where fleshly appetites are satisfied and where strange gods are worshiped...

The tendency in our time is to minimize the importance of separation from worldliness and to regard those who preach and practice it as being narrow and old-fashioned. Say what you will, it is a fact that worldliness has robbed the Church of its spiritual power...

As a matter of fact, the Christian is not narrow. He is as broad as the compass of God, and the worldling who fears of his broad-mindedness has often mistaken superficial fairness for real broadness.

Jacob and his family received many heretics at the hands of Pharaoh and his people, but they were not in the land just to be blessed but also to bring a blessing.

That scene greets volumes to us as Christians. We are not of the world but we are in the world (John 17:15-17). We are to be a separated people for the glory of God, but that does not mean that we are not to bring blessing to those round about us...

It is also of interest that the blessing of Jacob was given to the man on the throne. We are apt to think of the poor and the underprivileged as needing the gospel and forget that the rich man in the house on the hill may be the most spiritually hungry in town.

God sent His chosen people down into Egypt that they might not perish in the famine. He wanted them kept and nourished while they grew into the great people which He ultimately led out toward the Promised Land.

That was important, for had they not been preserved the promise of God could not have been fulfilled. But all the time they were being prepared for the great day of deliverance and blessing which was to come.

Applying the truth once again to the Christian believer, it is not enough just to be safe in Christ.

EDUCATION IN SANITATION WOULD IMPROVE HEALTH

Austin, Texas — Tremendous advances will have been made in improving public health when each Texas community learns to recognize reservoirs of disease, methods of infection, and how to control disease, Jack Lenhart, University of Texas sanitary engineer, said here.

"Man himself, animals and arachnida (chiefly ticks) are the reservoirs of disease," Professor Lenhart, special instructor in civil engineering, said. "Paths of infection include contaminated food, polluted water, and fomites (objects such as pencils, doorknobs, toys). Typhoid and dysentery, are the main diseases carried, and eternal vigilance is necessary to prevent their outbreak in fatal epidemics."

Universal application of artificial immunity would wipe out diseases such as smallpox and diphtheria, and many others comparatively harmless," Mr. Lenhart said. "Widespread education in elementary sanitation would prevent most of the ill health and deaths due to disease organisms."

Much of the fine china of today is manufactured in England and the United States.

Australia ranks second to the United States in the supply of lead.

That is precious but it is not enough; there must be growth in grace. Some Christians are saved and kept all right, but it is just a matter of being "preserved" and put on a shelf. They are of no earthly use unless it is to be exhibited, and that kind of a Christian is not really worth showing off.

Then, too, some of the saints are preserved but not in sweetness. They are evidently preserved by pickling, sour, unpleasant people sometimes called "vinegar saints." God deliver us from that kind of preservation! May we be kept in such a way that we are ready to witness for God!

FARM NEWS

Agricultural Department Reorganization

The reorganization of Department of Agriculture agencies recently announced by Secretary Anderson recognizes the effectiveness of farmer committee men by giving them additional responsibilities. The reorganization is strictly administrative. It does not affect farm legislation such as the Soil Conservation and Domestic Allotment Act and the Agricultural Adjustment Act of 1933 which are still on the books to help farmers deal with farm problems.

It will be some time before streamlining of the activities involved can be completely effective, since the new PMA consolidates functions previously performed by 14 agencies of the Department of Agriculture. At any rate, administration of the Agricultural Conservation Program, Commodity Loans, crop insurance, and milk, butterfat, beef and sheep payments will continue without change under the elected county committee. Additional functions will be added to the work of County Committees as the reorganization plan is perfected.

The principal aim of the new organization is to centralize responsibility for USDA Farm Programs and actions affecting the production, price and marketing of farm products. In the future farmers will deal with only a single office on these matters—the County Office of their Agricultural Conservation Program (AAA) Committee. The new plans would give better and more direct service to farmers and to the public.

Applications are now being signed for Sheep and Lamb Subsidy payments. We are expecting the drafts in the next few days. When these are received, producers who have filed an application will be mailed their check promptly.

Only the following persons have qualified for Beef Production Payments in Coleman Co.: Frank Hudson, Ray Jameson, C. L. Saunders.

All persons selling whole milk, cream, or butter may file their sales receipts at the AAA Office beginning the first of October. These receipts cover the months of July, August, and September.

The net income of U. S. farmers reached a new war time peak last year. Net returns, including Government payments, to farm operators in 1944 totaled almost 12.5 billion dollars compared to 4.6 billion in 1940.

More terraces have been completed in September than any other month this year. The County Committee has approved one-third of a million feet of large ridge type terraces.

**BUYS THE LEEPER-CURD LUMBER CO. PROPERTIES AT SANTA ANNA, TEXAS.**

We wish to announce to the public we have purchased the Leeper-Curd Lumber Company's Stock, Yard and improvements at Santa Anna and are now operating a lumber and building material business at this point.

As everyone knows lumber and other building materials are very scarce and hard to get but we are gradually adding a few items of lumber, wire fencing, roofing, hardware, paints, etc., to our stock and hope in the near future to be able to supply all materials for the building and repairs of city and country homes and other farm and ranch buildings and improvements.

We are here to serve the public in every way we can. Come and see us.

Respectfully,

**South Texas Lumber Co.**
