SANTA ANNA, COLEMAN COUNTY, TEXAS, FRIDAY, JANUARY 16, 1959

NUMBER 3

Band Boosters Have Meeting Monday Night

The Santa Anna Band Boosters met at the Band Hall Monday, Jan. 12, at 7:00 p. m. About 20 members were present. Mrs. Add Walker, president, presided.

During the business session, a discussion was held on the continued raising of funds for the new band uniforms. Several projects were decided upon, and committee chairmen were appointed.

Mrs. A. R. Neff was appointed chairman of the committee to select the uniforms and report back to the club; Mrs. Richard Horner heads the Bake Sale Committee; Mrs. Pat Hoshch is chairman of the Social Committee, and Mrs. Milton House is chairman of the Donation Container Committee.

Mr. Mallow, band director, led a discussion of various types of uniforms and showed pictures of the various styles. No definite style has been selected as yet.

It was decided to have a Bake Sale every other Saturday. The Beginners Band Mothers will have charge of the first one, to be held Saturday, Jan. 17, at Piggly Wiggly. The Junior Band Mothers will have charge of the second and the Senior Band Mothers will have charge of the third one. This will be the order of the scheduled Bake Sales, so as not to create a hardship on the parents. Anyone who would like to contribute baked goods to the sales are urged to do so, and your contribution will be appreciated.

The band students also have three fund raising campaigns in mind. The first project will be the sale of 1/4-pound bars of "World's Finest Chocolate", to be held in about 2 weeks. A picture of the band will be on the wrapper of this candy bar. The second project will be the sale of a can of assorted nuts and the third will be the sale of a cherry nut cake that comes in a can. The sales will be spread over a four-month period.

Recent additions to the list of memberships sold for the purpose of buying new uniforms include: Miller D. Fleming, Mr. and Mrs. Max Eubank, Mr. and Mrs. Ira Ernhart of Odessa, Mr. and Mrs. Oscar Boenicke, Mr. and Mrs. Roy Stockard, A. D. Pettit, and Charlotte Moseley. It is possible that some names have been overlooked in publishing the names in the paper. If this is the case, you are invited to notify Mrs. Add T. Walker, president of the Band Boosters Club.

The club now has funds on hand to purchase 10 1/2 uniforms. They wish to express their gratitude to those who have purchased memberships and made other donations. The organization feels this should be an area project, and invite everyone who send children to the Santa Anna schools to participate in the band uniform drive.

Sunday dinner guests with Mrs. A. E. Campbell and Mr. and Mrs. Billy Campbell were Mrs. Jack Parnell of Paducah, Maude Woolsey and Lloyd Williams of San Angelo, Frank Garvey of Muleshoe was an afternoon caller.

YOUR ATTENTION — PLEASE!

Dear Parents, Patrons, and Friends of the Santa Anna Schools: You have no doubt heard that we are in the midst of a campaign to raise \$4,500 for new band uniforms for the Senior High School Band. These new uniforms will have to be ordered soon in order that the students may have them for the football season next fall.

The Band Boosters Club has undertaken this project of raising money for the new uniforms. One of the most important ways of raising this money is the Membership Drive where dues are paid.

We have great plans in the making for a very active Band Boosters Club. However, we realize there are those who are interested in the Band who will not be able to take an active part in the organization. This is one way in which you can have a worthwhile part in helping us secure these new uniforms which are badly needed at this time. Many of you may want to contribute more than the initial membership fee of \$3.00 for a single membership or \$5.00 for a joint membership; yet, do not feel that you can contribute a complete uniform. These contributions are badly needed and will be greatly appreciated.

We appreciate very much the cooperation that many of the people have already shown by joining the Band Boosters Club, and feel sure that many more of you will take this opportunity to help us in this worthwhile endeavor.

If you have not been contacted and wish to contribute to this Fund, please contact a member of the Membership Committee.

Mrs. Thomas M. Hays, Jr.
Mrs. Buddy Neff
Mrs. Calvin Campbell
Mrs. Add Walker
Mrs. Milton House
Mrs. James Mallow

Sorority Group To Sponsor "Snatch Coffee"

The State Council of Epsilon Sigma Alpha selected as their state project for the year a program of helping a polio treatment center in Houston. This has been their state project for the past two years. The Santa Anna Chapter, Delta Omicron, always helps on the state project, and plans to do so again this year.

They plan to use a "Snatch Coffee", to be held Saturday, Jan. 17, to raise funds for this purpose. Members of the Sorority will go among the townspeople Saturday, "snatch" them, and take them to the Community Room of the Santa Anna National Bank, where coffee, pie cookies and cake will be on hand. The minimum cost will be 10 cents for coffee and 15 cents for your choice of eats. All other contributions will be accepted and appreciated.

The program will get underway at 9:00 a. m. and continue through most of the day. Everyone is invited to take part in the program, sponsored by the Delta Omicron Sorority.

16 Votes Cast In Trickham Water Election

Only 16 persons cast votes in the election for directors of the Coleman County Water Control and Improvement District No. 1, held at Trickham, Tuesday, Jan. 13.

Wyle P. McClatchey and Casey Herring each received 16 votes, J. H. Martin and Rankin McIver each received 15 votes, and Elmer Cupps received 14 votes. The three receiving the highest votes were to be two-year directors and the other two one-year directors.

The directors will have to decide, probably by lot, as to which two receiving the 15 votes will be the one and two year directors.

Bill Vaughn, retiring president, received 3 votes and Marion Ford received one vote.

Subscription Rates To Increase Feb. 1

A large number of subscribers are taking advantage of their opportunity to save money on their subscription to The Santa Anna News. Subscription rates will increase effective February 1, and between now and that time we are accepting subscriptions at the old rate.

You can continue to save money throughout the year by planning your weekend shopping from the columns of The News. In fact you can save more than your yearly subscription price each week by taking advantage of the special prices advertised in The News.

The News also keeps you up to date on news happenings in this area.

Brucellosis Also Termed Human Health Problem

Brucellosis is more than an animal problem, it is also a human health problem. In man brucellosis is known as undulant fever, or sometimes called Malta or Mediterranean fever.

Scientific evidence indicates that rarely, if ever, does one human contract brucellosis from another human. It appears, therefore, that in light of present knowledge the prevention and control of brucellosis in man is directly dependent upon its control and eradication in domestic animals.

It is estimated by some that approximately 25 percent of the human cases are contracted by drinking raw unpasteurized milk. The remainder contract the disease through actual contact with the infected animals.

The diagnosis presents one of the most difficult aspects of the problem of human brucellosis. The symptoms may mimic other diseases such as influenza, respiratory diseases, typhoid fever, malaria, cancer, glandular or bone diseases. It is well known that brucellosis in man frequently results in a serious debilitating, incapacitating illness of long duration with occasional death. As it is difficult to diagnose, it may be identified for several years and the victim may suffer reoccurring attacks during this period of time.

Only recently, with the development of the "wonder drugs" have medical doctors been able to do much for the disease. Even the "wonder drugs" do not work all of the time. Certainly, it behooves everyone to do his part in eradicating this insidious disease.

Interest Rate To Private Lenders Increased

Farmers Home Administration has increased its interest rate to private lenders under the insured farm loan program from 3 1/2 to 4 percent. Walter T. McKay, the Agency's State Director, advised that this change was made to encourage more lenders to advance funds for insured loans in order to meet the needs of qualified applicants throughout the Nation.

The insured farm loan program encourages the use of private capital in place of direct Government loans. Through this program private lenders can advance funds to eligible farmers for the purchase of land, for building and land improvement, and for domestic and irrigation water systems. In addition to the 4 percent paid the lender, the borrower pays the Government 1 percent for insuring and servicing the loan.

Although the amortization period of the loan may be up to 40 years depending on the purpose for which the loan was advanced, the lender, at his option, may have the note redeemed by the Government at any time after five years. The note, held by the lender, is negotiable and may be assigned to another investor at any time.

"The insured farm loan is an attractive investment for private lending institutions and individuals and has been well received here in Texas," McKay stated. "In fact, 928 of our more recent real estate loans totaling \$3,928,000 were made from funds provided by private credit sources. We anticipate that raising the rate of interest to lenders to 4 percent will result in a substantial increase in lender participation and thereby enable Farmers Home Administration to meet the credit needs of more farm families."

Fine Singing Sunday Afternoon

A good attendance was present at the regular Second Sunday Singing, held from 2 to 4 p. m. in the First Christian Church Sunday. There was plenty of good leaders, singers and pianists.

A number of specials were enjoyed along with good group singing.

Several nearby communities were represented as well as a few far away places. Everyone is invited to attend the regular Second Sunday Singing. Next month it will be held in the North Side Baptist Church.

National Guard Peanut Blockade To Be Sat., Jan. 24

The local company of the Texas National Guard is making plans to hold their annual Peanuts for Polio Blockade on Saturday, January 24, provided the weather is reasonable.

The National Guard usually raises between \$300 and \$400 in this blockade for the March of Dimes. The men furnish their time and equipment for the drive. All they ask in return is that you help the March of Dimes by supporting them in their effort to raise money for the very worthy cause.

Contributions To The March Of Dimes Coming In

During the past few days a number of contributions to the March of Dimes have been received through envelopes mailed to every county resident early last week. Some local organizations are also making contributions.

Everyone is invited to make use of the envelope to send your contribution in. If you care to, you may just bring the envelope by The News office, or if you had rather, take your contribution to the Santa Anna National Bank and deposit it to the March of Dimes fund.

A larger amount is needed this year than ever before. Besides treating over 50,000 patients in the United States, the National Foundation has taken on three other projects for the coming years to attempt to combat.

There are some eight or nine old cases of polio in Coleman County that are still receiving medical aid from the National Foundation. Some of these cases require constant care, while others require but little care. None of them will be forgotten as long as the National Foundation is operating.

Word was received recently from the National Foundation that Dr. Salk, founder of the Salk Vaccine that has just about brought the polio virus under control, that every person should have a minimum of four shots for the most complete immunization from the dreaded disease.

There are still millions of people who have not even taken one shot. Several million more started the series of three shots and did not finish them. All these and those who had the full series of three shots are urged to get the complete series as soon as possible.

The cost of the shots is very little when compared with the results obtained. In practically every case of polio now that the patient has received as many as three shots, the disease is very light and under proper treatment, the patient can return to a normal life in a very short time. You are urged to get the complete series as soon as possible.

City Council To Meet With Water Association

The Pecan Valley Water and Sanitation Association will meet in their regular monthly meeting with the Santa Anna City Council in the Community Room of the Santa Anna National Bank. The meeting is called for 7:00 p. m.

A chili supper will be served followed by a short program and a business meeting.

Band Boosters To Have Bake Sale Sat.

The Santa Anna Band Boosters will hold a Bake Sale at Piggly Wiggly Saturday, Jan. 16, beginning at 9:00 a. m. They will have pies and cakes to sell. Proceeds from the sale will go into the fund to buy new band uniforms. Everyone is urged to patronize the organization by purchasing a cake or pie on Saturday.

Dinner guests in the Clifford Stephenson home were Mr. and Mrs. Neely Evans. In the afternoon the group visited the Albert Dean family of Bangs.

Mr. and Mrs. Leon Conley of Redding, California, visited with her sister Mrs. Lela Hays and the Add Walkers, recently.

Hartman And Bible Show Top Santa Anna Lambs At County Show Monday

Eddie Hartman, a Santa Anna junior and member of the FFA chapter, showed the top Santa Anna lamb at the annual Coleman County Livestock Show in Coleman Monday afternoon. Hartman showed the first two places in the registered Delane division and the first place in the medium wool class. Hartman is the son of Mr. and Mrs. W. E. Hartman.

J. C. Bible, son of Mr. and Mrs. Claude Bible, showed the lambs in the first four places in the Suffolk division. Bible is also a member of the FFA chapter.

The lamb show had 15 classes of sheep and about 360 entries. Grand Champions of the show were shown by 4-H members. Mike Rush of Talpa showed the grand champion and reserve champion in the fine wool crossbred division. Ann Joyce of Coleman showed the grand champion in the fine wool division.

Results of the judging as announced Monday afternoon are as follows:

Light fine wool: 1. Jimmy Blanton, Santa Anna FFA; 2. Melton Cummings, Novice FFA; 3. Blanton; 4. Kenneth Harris, Santa Anna FFA; 5. Randy Brown, Santa Anna 4-H; 6. Cummings; 7. Jimmy Niell, Santa Anna FFA; 8. Don Hipsher, Coleman FFA; 9. Eddie Fuller, Coleman FFA; 10. Gene Joyce, Coleman 4-H.

Heavy fine wool: 1. Ann Joyce, Coleman 4-H; 2. Blanton; 3. Roy Golston, Novice FFA; 4. Collins Steward, Santa Anna FFA; 5. Bill Gardner, Coleman 4-H; 6. Eddie Hartman, Santa Anna FFA; 7. Ann Joyce; 8. Jimmy Niell; 9. Paul Beaver, Talpa FFA; 10. Jimmy Niell.

Group of three fine wool: 1. Blanton; 2. Ann Joyce; 3. Steward.

Light fine wool crossbred: 1. Gene Joyce, Coleman 4-H; 2. Gene Joyce; 3. Donna Holt, Mizzelle FFA; 4. Richard Parker, Coleman FFA; 5. Lonnie Smith.

Local Band Student Picked For All Region Band

One Santa Anna Band student, Miss Edna Lewis, was picked as a member of the All-Region Band in Wabene Saturday. Miss Lewis plays the baritone saxophone. James A. Mallow, local band director, was also picked to direct the band presented by the band.

Tommy P. Beck also attended and directed from some 40 students only 110 were selected for the All-Region Band. The judges were very strict in their selections.

The All-Region Band is made up of the best music students from approximately 40 schools in this area. It rehearses about 2 1/2 hours, three times an excellent program. Members of the All-State Band are selected from the various All-Region groups.

Rites For H. W. Curry Scheduled On Friday

Funeral services for SSgt. Harris (Bill) Curry, 42, are scheduled to be held at the Stephens Memorial Chapel at 2:00 p. m. Friday, January 16. Curry died of a heart attack at Camp Edwards, Calif., at 10:00 a. m. January 11. A member of the Baptist Church, he had been in the U. S. Air Force since 1942. He was born in Coleman County, June 30, 1916.

Survivors include his wife, three sons and one daughter, all of Camp Edwards, Calif.; three brothers, John Curry of Ballinger, Virgil Curry of Santa Anna, and Fay Curry of Friona, Texas; three sisters, Mrs. Alice Shelton of Coleman, Mrs. H. B. Pries of Fresno, Calif., and Mrs. Mabel Sartor of Lubbock.

His body will arrive in Coleman from California at 11:30 p. m. January 15. Military personnel from Abilene will have charge of the military service.

Eastern Star To Meet Monday Night

The Santa Anna Chapter No. 247, Order of the Eastern Star, will have its first meeting of the New Year Monday night, Jan. 19, at 7:00 p. m. in the Masonic Hall.

Mr. and Mrs. W. H. Grey and Mrs. Nora Goen will be hostesses for the meeting. All members are requested to be present.

Coleman FFA; 6. Tommy Stewardson, Santa Anna 4-H; 7. Roy Golston, Novice FFA; 8. Steve Mitchell, Coleman FFA; 9. Dale Cope, Coleman FFA; 10. Foster Anderson, Coleman.

Heavy fine wool crossbred: 1. Mike Rush, Talpa 4-H; 2. Rush; 3. Melvin Lawrence, Mizzelle FFA; 4. Bob Blackwell, Coleman FFA; 5. Ken Harris; 6. Eddie Hartman; 7. Tommy Kirby, Novice; 8. Dale McKinney, Novice; 9. Bob Blackwell; 10. Cummingsman FFA; 5. Hipsher; 6. Hagler; 7. Melvin Hausenfluke, Coleman FFA; 8. Jackson; 9. Gene Mitchell, Coleman; 10. Tommy Kirby, Novice.

Group of three fine wool crossbred: 1. Gene Joyce; 2. Rush; 3. Lawrence.

All other crosses: 1. Don Hipsher, Coleman FFA; 2. Ann Joyce; 3. Donald Jackson, Coleman FFA; 4. David Hagler, Coleman FFA; 5. Hipsher.

Group of three, all other crosses: 1. Ann Joyce; 2. Dewayne Severance, Novice 4-H; 3. Hipsher.

Medium wool: 1. Eddie Hartman, Santa Anna FFA; 2. Collins Steward, Santa Anna FFA; 3. Jimmy Blanton, Santa Anna FFA; 4. Steward; 5. Blanton; 6. Blanton; 7. Kenneth Harris; 8. Harris; 9. Steward; 10. Steward.

Group of three medium wool: 1. Steward; 2. Blanton; 3. Hartman.

Suffolk breeding sheep: 1, 2, 3, and 4. J. C. Bible, Santa Anna FFA.

Rambouillet breeding sheep: 1 and 2. Bewel Neff, Coleman 4-H; 3 and 4. Melvin Kennedy, Goldsboro FFA.

Registered Delane: 1 and 2. Eddie Hartman, Santa Anna FFA; 3. Les Guthrie, Santa Anna 4-H.

In the swine show, judged Tuesday morning, results were as follows:

Breeding swine: 1, 2, 5, 9, 10. Steven Voss, Santa Anna FFA; 3. Jimmy Mullins, Novice; 4. Tommy Kirby, Novice; 5. Bill Jennings, Santa Anna FFA; 7. George Stuart, Talpa FFA; 7. Billy Don Haynes, Santa Anna 4-H.

Berkshire and Duroc: 1. Joe Faries, Novice; 2 and 4. James Vineyard, Novice; 3 and 5. Donald Terry, Coleman; 6. N. H. Coffman, Novice.

Hamshire: 1. Joe Faries, Novice; 2. Jimmy Hays, Novice; 3. Andy St. Cloud, H. Coleman; 4. Don Price, Novice; 5. Coch Picas, Novice.

The sale held Tuesday afternoon and reports indicating that indicate all entries sold a good price.

Sorority To Sponsor Mother's March Jan. 30th

Members of the Delta Omicron Sorority will sponsor a Mother's March on Monday night in the Community Room of the Santa Anna National Bank. During the business session it was decided they would sponsor the Mother's March on Polio in the same manner they have been for the past several years.

The Mother's March will be held on Friday afternoon, Jan. 30th. Mrs. James T. Dockery was appointed chairman of the Mother's March and her assistants are Mrs. Jack Rucker and Mrs. Ray Swindell.

Their plans are not complete as yet, but they will likely have the March in about the same manner as they have in the past, with the Boy Scouts and Cub Scouts, helping them.

Happy Birthday

"Happy Birthday" to all who have birthdays during the next week. Below are listed the birthdays we have this week.

JANUARY 17
Beatrice Jackson,
New Bedford, Mass.

JANUARY 18
Archie Tucker

JANUARY 21
Joe C. Mathews

JANUARY 22
Mrs. Jewell Owen

Would you like for your name to be published on your birthday? If so, please be sure to let us know when it is. Next week we will publish names of those having birthdays between January 23rd and January 29th.

Income TAX FAX

Questions and Answers About Your Individual Income Tax Report for 1958, as Presented By The Texas Press Association.

How many exemptions can I claim?

Each exemption is a \$600 deduction. That is, for each exemption you are allowed to make \$600 tax free.

Exemptions determine the amount of tax-free income you are allowed each year, and are devised to make the tax fair between single persons, married couples, and large and small families.

You are entitled to one exemption for yourself. You are entitled to one additional exemption if, on December 31, 1958, you had attained 65 years of age, or if you were blind.

If you were both 65 and blind, you are entitled to two additional exemptions. You are also entitled to exemptions on the same basis for your wife, if you file a joint return.

If you file a separate return you can claim your wife's exemptions only if she has no income and was not claimed on any other taxpayer's return for 1958.

If your wife or husband died in 1958, the additional exemption for age and blindness are determined as at the date of death, rather than December 31st.

You are entitled to one exemption for each dependent. Additional exemptions for old age and blindness apply only to you and your wife or husband, not to dependents.

Each dependent must qualify under all five of the following conditions:

1. Dependent must have received over one-half of his support from you in 1958.

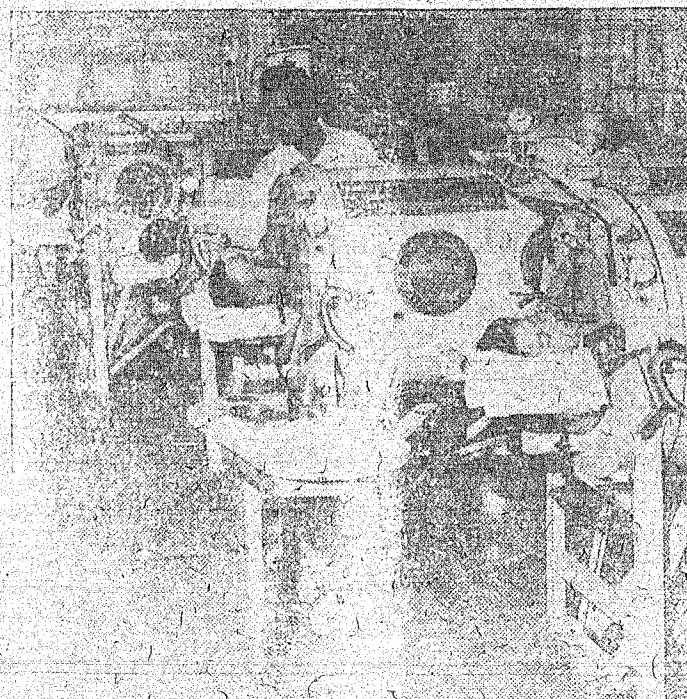

2. Dependent did not have over \$600 income in 1958, besides what you provided, unless the dependent was your child dependent under 19 years of age, or if over 19 years of age, a full-time student, in which case the dependent child can earn any amount as long as you actually provide over one-half of the cost of support.

3. Dependent is not claimed on any other taxpayer and does not file a joint return with another taxpayer. For instance, do not claim a dependent married couple who file a joint return with her husband.

4. Dependents must be citizens of the United States or resident of the United States, Canada, Mexico, The Republic of Panama or Canal Zone.

5. Dependents must be closely related to you or be anyone else who meets requirements 1, 2, 3

End of Polio Remains March of Dimes Goal

THIS IS POLIO TODAY in Detroit, Mich., where a serious outbreak of the supposedly conquered disease flared in late summer. Most of the new victims did not have their Salk vaccine shots. The iron lung patients shown here are at Horman Kiefer Hospital. Polio is one of the Three Fates of Crippling Dependents on Jan. 29 March of Dimes; The others are arthritis and birth defects. Each of all three diseases need help.

The complete and final eradication of polio still remains a prime concern of the National Foundation as it goes into its 21st annual March of Dimes.

The Salk vaccine, developed by a March of Dimes funds, proved a powerful weapon for knocking out polio. With this victory in sight, even though not yet achieved, the National Foundation is preparing to march "Toward Greater Victories" in the realm of public health.

Initial new goals in this broad health program are arthritis and birth defects. But the National Foundation is still pledged to give patient aid to all polio victims past or future who need its help.

Estimates indicate some 150,000 survivors of paralytic polio might benefit from modern techniques of rehabilitation pioneered by the National Foundation. Some 50,000 are already on its chapters' patient aid rolls.

and 4 above and had your home as his principle place of abode and was a member of your household, even if not related to you.

If the dependent has worked part time and earned less than \$600 in 1958 or was your child under 19, or over 19 and a student, and income tax was withheld from such earnings, the dependent should file a tax return to secure refund of the tax withheld.

This will in no way prevent you from also claiming the exemption for the dependent, provided, of course, that dependent meets all five of the above conditions.

If your dependent can qualify in all other ways, except that you do not furnish over one-half of his support, then perhaps you can arrange with the others who contribute to his support for you to claim the credit anyway under a Multiple Support Agreement — Form 2120.

Shields News

By Mrs. E. S. Jones

The monthly supper will be Saturday night, Jan. 17, at 7:00 o'clock, the annual community polio drive will be held and the chairman would like to see as many as possible there.

Mrs. Ema D. McClain, who is working at Doole, spent Sunday at her home here.

Visiting with Mrs. Ura Dillingham last week were: Mr. and Mrs. Thomas Wheatley and daughters, DeDe and Janet, of San Francisco, Calif., Mrs. Tom Wheatley of Story, Ark., and Mr. and Mrs. Dan Wheatley.

John Dillingham and Tommy Stewardson entered lambs at the Coleman Stock Show.

Bro. and Mrs. Parker were dinner guests Sunday with the Rastus McClure family, and in the afternoon visited with Mr. and Mrs. Aubrey Scarborough and Mrs. E. S. Jones.

The Quilting Club met Tuesday afternoon, Jan. 6, at the community center, with twelve members present and the hostess, Mrs. Sam Dalton.

Mrs. David Zirkle and boys, Dwight and David, of Abilene are visiting with her mother, Mrs. Lillian Lewellen. Mrs. Lu-

ther Stewardson returned home Saturday after several days visit with her son, Hardy, and other relatives in San Saba.

Johnny Williams, son of Mr. and Mrs. Grady Williams, was able to return to school this week after his illness of about four months.

Mr. and Mrs. Chester McDonald of Vick visited Mrs. E. S. Jones Sunday morning they attended services at the Church of Christ. In the afternoon they visited friends in Coleman and Santa Anna.

Visitors with the Jesse Williams family on Sunday were Mr. and Mrs. Floyd Duncan and children of Winters, Roland Williams and Billie Ross of Trickham.

Yvonne Eppler, Linda Gardner and Al Cappinger, all of Abilene, spent Sunday with the Doyle Eppler family.

20TH CENTURY CLUB TO MEET FRIDAY

The 20th Century Club will meet with Mrs. Richard Smith Friday, Jan. 16, at 2:00 p. m. After the business meeting, a discussion will be held on "What, Where, When and How to Prune."

All members are urged to attend.

Today's MEDITATION

from
The World's Most Widely Used
Devotional Guide.

The Upper Room

© THE UPPER ROOM, NASHVILLE, TENNESSEE.

Read John 14:8-14

Believest thou not that I am in the Father, and the Father in me? The words that I speak unto you I speak not of myself, but the Father that dwelleth in me, he doeth the works. (John 14:10)

Keen-minded, thoughtful Soon Woo Lee, from Korea, became a much-loved member of our home and family. This young man was alert to new truth and ever seeking new meanings.

In speaking of my husband, he remarked to me one day, "I know in my heart I'll always try to be like him. He does not say to us, 'Do these things,' or 'Must not do those.' He just shows us by the way he lives. Long time I know God to be honored and worshiped, but never before do I know God to love. Now, I know and feel love."

By the way He lived daily, Jesus showed us His faith in His Father. Jesus' constant companionship with God was evident in all Jesus did.

Let us do all we can to increase our faith in God, so that we will share all our daily doings with Him. When our love for Him expresses itself in all we do and say, our influence points others to Him.

PRAYER:

Dear Father, we thank Thee for Jesus Christ, who taught us to love and trust Thee. Continue to work in us and through us that those who know us best may see the glory of Thy face and come to know the joy of loving Thee and following Christ. In His name, Amen.

THOUGHT FOR THE DAY

I would live so close to God that I may always be conscious of His presence with me.

Wilma Winttingham (Ohio)

Stapling machines at the News Office.

visited Thursday afternoon with Mrs. A. L. Crutcher and Ludy Jane. Mr. and Mrs. Joe A. Hodges and children of Coleman were Sunday afternoon guests.

Mrs. Eva Metcalf of Coleman spent Monday afternoon with Mrs. Clyde Pittard.

Sunday guests with Mr. and Mrs. Jack McSwane and Stanley were Mr. and Mrs. Aubrey McSwane, Mrs. Ella McSwane and Mr. and Mrs. Elec Cooney and children. Jack is doing fine since he is home from the VA Hospital in Big Springs, where he underwent major surgery and wants to thank everyone for all the nice cards and letters and other thoughtful things.

Mrs. Brent Jackson of Fort Worth and Mrs. Octavia Timmins of Marshall spent Saturday with Mrs. Mena Shuford.

Whon News

By MRS. TOM RUTHERFORD

Mr. and Mrs. Clovis Taylor and son, Velton, of Eldorado and Mr. and Mrs. Billy Maness of Brownwood visited with Mr. and Mrs. Earl Cozart and Mrs. Bob Johnson Sunday.

Mr. and Mrs. Thomas Ray Rutherford and baby son, Steven, left Thursday for their home in Concord, New Hampshire, after spending over two weeks with his parents, Mr. and Mrs. Tom Rutherford.

Mr. and Mrs. Thomas Bowden and Mrs. John Buse of Brownwood spent Sunday with Mr. and Mrs. Nick Buse and Earla.

Mr. and Mrs. Laughan Snowden and children of Fort Worth visited his sister, Mr. and Mrs. Graham Fitzpatrick and children one night this past week.

Mrs. Florence Carter and son, Leon, spent Sunday with Mr. and Mrs. Jack Black in Brownwood.

Mr. and Mrs. George Rutherford of Rockwood spent Sunday in the Tom Rutherford home.

Mr. Robert Johnson of Odessa has recently visited in the Earl Cozart home.

Sammie Shields attended church services in Brownwood Sunday morning and attended the singing in Santa Anna Sunday afternoon.

Mr. and Mrs. H. E. James and daughters of Trickham visited with Mr. and Mrs. Earl Cozart Sunday afternoon.

Please send me your news.

Bobby Joe Goodwin, Machinist Mate of the USS Prairie, of San Diego, Calif. is here spending a 30-day furlough with his parents, Mr. and Mrs. Henry Goodwin.

Mrs. Kate Holmes spent the weekend with her daughter, Mr. and Mrs. Cecil King and family in Brownwood.

MRS. ODER RETURNS HOME FROM AUSTIN

Mrs. A. L. Oder returned to her home in Santa Anna last Thursday night, after being with her daughter in Austin for about four months. Mr. and Mrs. Floyd Herring brought her home, then on Friday went to Lubbock to visit their daughter, Janice, a student at Texas Tech.

The Herrings returned here Sunday, spent a short time with Mrs. Oder, then returned to their home in Austin.

Mrs. Oder was the local reporter for The News for about 12 or 13 years. She has retired from active work now and plans to be at home for the next several months.

JOIN THE MARCH OF DIMES

TOWARD GREATER VICTORIES

TAX-MAN SAM SEZ:

The other day a well-informed lawyer asked me, "How can I keep up with this tax business? There is too much going on. I don't practice tax law, but I would like to know the answers for my own tax decisions." After talking a little, we decided that the lawyer needed to spend 35c for "Your Federal

Income Tax" and since he was operating a business, he also needed the "Tax Guide for Small Business" for 35c. The Internal Revenue Service has given the answer to all of the most common tax problems in these booklets. They both run a little over 100 pages. You don't have to be a lawyer to understand them because they give the answer just as simple as it can be given. You can order a copy of either or both from Internal Revenue Service, 2101 Pacific Avenue, Dallas, Texas, for 35c each.

An airplane, flying the most direct route from New York to Los Angeles, will fly over New Jersey, Pennsylvania, Ohio, Indiana, Illinois, Missouri, Kansas, Colorado, Arizona, and California.

Attend church regularly.

Larger Ewes Produce Larger Lambs, Tests Show

College Station — The size of a yearling ewe before first breeding is a good indication of how large her lambs will be, both at birth and weaning time.

Tests at the U. S. Department of Agriculture's Southwestern Range and Sheep Breeding Laboratory at Fort Wingate, New Mexico, showed that heavier ewes — regardless of breed — produce heavier, faster-growing lambs than lightweight ewes.

In the 4-year USDA tests, ewes were grouped by weight. The lightest group averaged 65.3 pounds as yearlings and the heaviest, 92.7 pounds. The heaviest group, with an average weight of 26.3 pounds, produced lambs averaging 1.29 pounds more at birth and 10.5 pounds more at weaning.

USDA scientists say quicker profits from breeding flocks should be possible as a result of this finding because culling can be done before breeding rather than after each ewe has produced a lamb. In addition, the better bred ewes are more apt to grow wool.

Stage Being Set For Lower Beef Prices

College Station — It appears that beef prices in 1959 may not be as high as those in 1958. The average price in 1958 was 10.5 cents per pound, but in 1959 it is expected to be lower.

However, he adds, increases in cattle inventory are setting the stage for a price decline some time in the next few years. Any increase in cattle numbers sets the stage for a future price decline and one is very probable in some early year after 1959.

McHaney says the average price received for slaughter cattle in 1959 may be slightly below that of 1958 and profits from feeding cattle may average less than in 1958 when returns were the largest of recent years.

The greatest price strength in 1959 will be in feeder and breeding stock, just as in 1958, the economist points out. The bumper 1958 feed harvest, the second in consecutive years, should keep the demand for feeders at a high level. The strong demand for young cattle, both for feeding and herd expansion, also will help keep the price of feeder and breeding cattle high relative to slaughter and cull cattle.

Consumers will have more beef to eat in 1959 than in 1958, McHaney says. It has been estimated that about six percent more beef will be produced in 1959. Most of the increase will be in pork and a sizeable increase in pork supplies will tend to hold down cattle prices.

Higher grade beef from fed cattle will remain fairly abundant but lower grades will continue scarce. The price spread between grades will continue to be unusually narrow as cattle feeders bid for the better unfinished animals.

Diseases of Cotton Farmers

College Station — Diseases of cotton are expected to be a major problem for the 1959 cotton crop, according to specialists here at a symposium at the state.

Cotton diseases last year in Texas totaled \$156 million worth of cotton being marketed, said Harker Smith, extension plant pathologist, who compiled the information for the Cotton Disease Council.

Besides the \$156 million cash loss to producers, there were losses of business to farm labor, railroads, trucking companies, suppliers, compress companies, storage facilities and other phases of the industry. Diseases also were a major factor in grade reduction and a limiting factor in yield.

The loss occurred even though 1958 growing conditions were generally good as record yields were harvested in many areas, Smith said.

Major diseases and estimated loss due to their effect on yield were bacterial blight, 7.31 percent; root rot, 3.18 percent; verticillium wilt, 3.06 percent; seedling diseases, 3.0 percent; and boll rots, 0.92 percent. Other diseases causing losses were root knot nematodes, fuarium wilt and ascochyta blight.

These average figures don't give the true picture because in areas where diseases struck the hardest losses ran into ruinous figures, pointed out Smith. For example, root rot was estimated to have caused a 25 percent loss in the Central Blackland area. Seedling diseases were especially damaging in the Lower Rio Grande Valley and in some North Texas areas. Bacterial blight caused damage throughout most of the state.

Supreme Court Aids Goons, Reds, Vet Permits Jailing Of Reporter

The following editorial appeared in the Monday Houston Chronicle. Daily newspapers and lots of weekly newspapers last week were filled with reports concerning the jailing of a New York reporter for refusing to name the source of her information concerning an article she wrote.

The article definitely brings up the subject that it is time for something to be done about the Supreme Court of the United States. Our own Congressman, O. C. Fisher, has been working for the past several years to get some changes made in the way the Supreme Court Justices get their appointments. We urge you to read the following article, and write your senators and Congressmen and urge them to get this project advanced in the present session of Congress.

Two years ago an item appeared in the radio-TV column of a New York newspaper quoted an unnamed CBS official as saying Judy Garland does not do the work "because something is bothering her and she wouldn't be surprised if it's because she thinks she's terribly fat." There is nothing spectacular in the way of news to such an item. It's the typical gossipy stuff one finds in an amusement column. Much worse has appeared before and since. But Judy Garland took umbrage and sued CBS for more than \$100,000 for libel and breach of contract.

Release by the Texas Department of Agriculture

RADIOACTIVE SOIL PROBLEM

Scientists are talking about "paving" farm land as a protection against radioactivity. The idea is not as far-fetched as it may sound. In this atomic age of international tension, the problem of radioactive fallout is a very real one and scientists are looking ahead for measures that will reduce the after-effects of nuclear explosions. In addition, accidental contamination land is a potential danger as we experiment with radioactive materials.

But whether from nuclear weapons of an enemy or by accident, any contamination would have to be met promptly to safeguard lives and keep valuable farm land safe for food production. That is where "paving" of farm land comes in.

Several experiments have been tried on a test farm by the USDA Agricultural Research Branch. A low concentration of barium 134, a relatively short lived radioactive agent, was sprayed on a variety of crops and land uses. Object of the research was to discover the most effective method of removing the radioactive crops to leave as little contamination as possible behind on the soil.

Once the barium was applied, crops, mulches, stubble and sod were removed from the test plots the same day and the radioactivity of cleared fields was measured immediately. No removal method tried by

In trial of the suit, the author of this item, Marie Torre, mother of two small children and wife of a TV producer, was subpoenaed as a witness and questioned as to the source of her information. She stood on a time-honored principle in the fourth estate and pleaded that she could not reveal the source she almost invariably honor such a plea and 12 states have laws protecting newspapermen in such circumstances. Not so in this case. Marie was sentenced to serve 10 days in jail for contempt. She appealed to the Supreme Court. Last month the Supreme Court turned her down, refusing a review. Marie is now in jail.

This is the same Supreme Court which freed Playwright Arthur Miller after he was held in contempt of Congress for refusal to reveal names of his associates during his honeymoon with communism. This is the same Supreme Court which has freed racketeers and godfathers of the labor unions from Dave Brock down after they flouted Congress with frivolous invocation of the fifth amendment when asked for information concerning their activities. They made mockery of the Constitution by continuing to stand on the fifth amendment when asked simple questions which by no stretch of the imagination could be deemed incriminating. Apparently the Supreme Court has two sets of standards.

Arbor Day To Be Observed Friday, Jan. 16

College Station — Arbor Day, the time to recognize the importance of trees to Texans, will be observed on January 16, according to an official proclamation issued by Governor Price Daniel.

In his proclamation, Governor Daniel said, "The State of Texas derives many benefits from its trees — as a forest crop, as a raw material for its industries, as protection for its soil, as cover for wildlife, and as attractive landscaping plants for our homes, parks, and public roads.

"Our forest wealth is important to the continued progress of our State. Trees are living objects of beauty and utility — a renewable resource which must be protected from the ravages of forest fires and disease.

"Therefore, I, as Governor of Texas, do hereby designate Friday, January 16, 1959, as Arbor Day in Texas."

Special significance is attached to this year's observance. It corresponds with the planting of the "250 millionth" pine seedling, grown by the Texas Forest Service, on private forest lands in Texas. The 250 millionth pine in a specially prepared bucket with an inscribed plaque, was presented to Governor Daniel by Clyde Thompson, president, Texas Forestry Association and Dr. A. D. Folwell, director, Texas Forest Service. The presentation was made at Austin on the occasion of Governor Daniel's signing the Arbor Day proclamation.

In Texas the need for observing this day was first recognized in 1879 at Temple, a community which had relatively few trees. This year the observance offers special opportunities for schools, garden clubs, civic clubs, youth groups, and other organizations to recognize January 16 as Arbor Day. The Texas Forest Service has helped arrange special Arbor Day programs.

3 Million Vehicles Need Safety Inspection Now

Austin — The Texas Department of Public Safety warned motorists of the inconveniences of a last-minute rush at safety inspection stations before the deadline, April 15.

More than 3,000,000 of the 4,000,000 Texas motor vehicles have yet to receive their 1959 safety inspection sticker.

In urging motorists to "do their safety shopping early" and avoid the rush at the 4,400 inspection stations, the safety department warned that those who fail to do so will be subject to traffic summons after April 15. The average cost of the safety inspection since the program began six years ago is \$1.19 for needed repairs and \$1 for the inspection fee.

The inspection stations check such items as brakes, lights, horns, mirrors and windshield wipers and have found that 39 percent of the vehicles have needed some adjustment or repair.

Col. Homer Garrison Jr., director of the safety department, said this is an improvement over the general condition of motor vehicles six years ago when the inspection program began. At that time more than 50 percent needed repairs.

"We hope that owners of motor vehicles will take advantage of the inspection facilities now and avoid the inconveniences of waiting in line as the April 15 deadline approaches," Colonel Garrison said. "This safety factor is important to safe driving on our streets and highways — and that is our goal."

Attend church regularly.

Good Farm Records Can Save Income Tax Dollars

College Station — Farmers may save several dollars on income tax by keeping good records, reminds C. H. Bates, extension farm management specialist.

Small leaks are the ones that sometimes prove costliest, Bates points out. An oversight of only \$25 in expense items may cost an additional \$5 tax. So, records should include all items of expense and income that will help determine net profit or loss from the business.

To simplify filling out the tax forms, Bates recommends classifying various items in categories corresponding to the various headings used in tax forms. For recording sales, the following groups are recommended: (1) sale of livestock raised, (2) sale of produce raised, (3) other income, (4) sale of items purchased for resale and (5) sale of assets that may receive capital asset treatment.

A depreciation schedule should be kept on farm buildings (except dwelling), fences, machinery, equipment and purchased livestock used for dairy, breeding or draft purposes. These items depreciate each year and this loss is deductible for income tax purposes at the end of the year in which it occurs.

Bates advises consulting your local county agricultural agent about your tax problems. The county also can provide a copy of the 1959 Farmer's Tax Guide, which should be helpful in your tax management this year.

About Your HEALTH

A weekly public service feature from the Texas State Department of Health. HENRY A. HOLLE, M. D., Commissioner of Health.

Last week a strong and vigorous 50-year-old Central Texas dairyman suddenly crumpled to the floor of his dairy barn while going about his routine chores.

The doctor's diagnosis was quick and sure: Stroke. That's one of the most ominous words in the language today. What does it really mean?

The medical term is "cerebral vascular accident," because it is caused by a cerebral vascular disease. The body's cerebral vascular system is the brain's network of blood vessels. Thus, cerebral vascular disease refers to diseases of blood vessels in the brain.

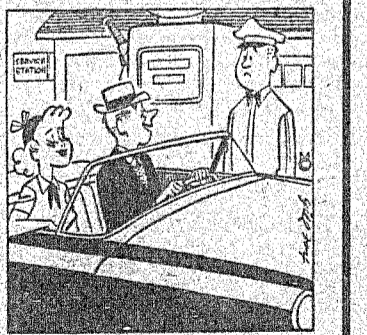

Brain cells require a good blood supply in order to work properly — more so than most other body cells. When something happens to that blood supply, the brain itself is impaired.

That something could be a hemorrhage, thrombosis, embolism, compression, or a spasm. Each one of those key words is a major cause of strokes.

A hemorrhage (bleeding) is the result of a break in a brain artery which allows blood to escape and damage surrounding brain tissue. Apoplexy is this type of stroke.

A thrombosis is caused by a clot of blood forming in a brain artery, stopping the flow of blood to the part of the brain it

Hidden Viruses Are Suspected Of Causing Much Unseen Damage

(Editor's Note: This is the second of three articles on viruses, the harm they cause, what is being done about them, and even what good they may do, by Dr. Henry W. Kumm, chief of virus research for the National Foundation, veteran of 23 years on investigation of malaria, yellow fever and gaws while with the International Health Division of the Rockefeller Foundation.)

By HENRY W. KUMM, M.D.
Chief of Virus Research,
The National Foundation

Can viruses which cause apparently mild childhood illness make people sick years later, when they have grown up? This is one question scientists under National Foundation grants are now trying to answer.

Dr. Kumm

The idea seems almost ridiculous at first. After all, we are all familiar with a virus disease like measles. Most of us had measles when we were young. We got sick, then we got well. But did we really get totally well?

Measles can sometimes be very serious. Occasionally the virus gets into the central nervous system (which means the brain and spinal cord) and causes inflammation. This is called encephalitis and can be an extremely bad thing. It can cause paralysis or the loss of functions directed by the brain. Fortunately, severe encephalitis occurring during an attack of measles does not happen often.

But what about youngsters who do not get measles encephalitis? Do some of them nevertheless have some damage to their central nervous systems which may cause disability under the stresses of later life? There is reason to think that this may happen. Dr. Jonas E. Salk, who developed the vaccine against polio (which is itself a central nervous system disease), believes that such damage may indeed occur. And he believes that what is needed is a vaccine of vaccines to protect against these virus diseases which sometimes produce central nervous system diseases, even those which are apparently mild childhood illnesses. He is working on this problem with March of Dimes support.

Study Brain Waves
There is another attack on this problem now being conducted in Chicago. There, Dr. Frederick Gibbs and his associates at the Brain Research Foundation have been given a March of Dimes grant to study the brain waves of children. This is done by using a delicate electrical recording called the electroencephalograph. It is a perfectly painless procedure, but it is already indicating that mild virus disease in childhood sometimes can leave a legacy of defect behind it.

But why would anyone think in the first place that such diseases leave problems behind them? The answer is that scientists are now coming more and more to the belief that when viruses enter the human body they always remain at least in small amounts. And where virus remains there is an ever-present possibility that there may be damage.

One reason scientists think this way is because of growing understand-

ing of the body's defense against viruses. In most cases, when we are invaded by viruses, we develop antibodies as a defense mechanism. These antibodies are really small units of extremely complicated proteins which can destroy or neutralize the virus that is attacking.

Antibodies Keep Producing
But in many cases antibodies are still being produced in the human body as long as 70 years after the original virus attack. Many scientists now believe that this is so because a small amount of the original virus remains for life, still stimulating the body to produce antibodies.

Antibodies don't last long, a few weeks at most. All the antibodies you have now were produced within roughly a month. It is conjectured that if, at the age of 40 or 50, you are still producing antibodies to a measles virus that attacked you when you were six or seven, some of that virus must remain within your body.

Network of Research
The National Foundation uses March of Dimes funds to support a vast network of virus research laboratories from coast to coast, charged with studying this and other questions. From this research we expect the answers to many problems and the control of certain diseases that as yet we cannot stop.

Virus disease is a major phase of the expanded program of the National Foundation. Other areas of March of Dimes activity are polio, arthritis and birth defects.

(The third article by Dr. Kumm will discuss viruses that may be of benefit to man.)

Cleveland News

By MRS. MANLEY F. BLANTON

Mr. Elmer Haynes of Santa Anna visited Wednesday evening with Mr. and Mrs. M. F. Blanton.

Mrs. C. T. Moore spent Friday evening with Mrs. S. E. Blanton. Mr. and Mrs. M. F. Blanton visited Friday with Mrs. Mace Blanton and Mrs. Sue Walker.

Mr. and Mrs. Casey Herring and Pam visited in Santa Anna Friday with Mr. and Mrs. Kenneth Herring and little daughter.

State Capital NEWS

Austin — Texas' 56th Legislature soars off the launching pad this week.

Predictions are that it'll be orbiting around the Capitol for many months to come — certainly long enough to put to good use the air conditioners newly installed in the legislative chambers.

Many have suggested the 56th will have one or more special sessions before it can solve all its pressing problems. Certainly before they can leave, the lawmakers will have to perform the thankless task of levying many more millions in state taxes.

Additionally, they'll be beset on all sides for new spending programs which would call for even more taxes.

After several months of this, outer space may look invitingly calm compared to the Texas Capitol.

THIN KITTY — State Comptroller Robert S. Calvert's official revenue estimate for 1960-61 is more of a storm warning than a forecast.

Calvert expects the state's general fund deficit to hit \$65,234,703 by the end of this biennium next August. Under the present tax set-up, he estimates revenue to the same fund during the next two years would total \$180,697,245.

After the deficit is taken care of, only \$115,000,000 would be left for 1960-61 spending. It's a pretty thin kitty when compared with the \$322,000,000 appropriated from general revenue for 1958-59. It means the state will have to raise \$167,000,000 more just to maintain its present "standard of living."

Comptroller Calvert's official revenue estimate this year is a far cry from the one he made two years ago for the 55th Legislature. In that well-heeled era Calvert forecast approximately a \$50,000,000 surplus. No one paid too much attention to outgoing House Speaker Jim Lindsey's prophecy that spending needs would outrun this figure.

In good years and bad, the Legislature is bound by law to hold its appropriations within the comptroller's revenue estimate.

TREASURE HUNT — A number of economies plus stricter levying and collecting of present taxes might net the state as much as \$74,599,957 without new taxes.

This report was made by a financial study committee headed by Secretary of State Zollie Steakley. Committee was appointed by Gov. Price Daniel last summer.

Its six cash-raising ideas: (1) put more tax-collecting personnel in the comptroller's office.

(2) cut out tax exemptions for beer and cigarettes sold on military bases, (3) increase franchise tax rate, (4) consolidate state "housekeeping" services (such as telephones), (5) increase fees charged by state agencies and (6) establish a "conservatorship" for the state to take over unclaimed money (such as bank accounts) and personal property.

Senate Investigating Committee also inquired into the comptroller's work, was told that additional personnel would make it possible to collect millions more in taxes.

HOPE FOR CREDITORS — State Liquidator C. H. Langdeau reported his office is making progress toward clearing up some of the stickier problems resulting from insurance company failures.

Langdeau told the Senate Investigating Committee that if some proposed property sales go through, creditors of US Trust and Guaranty will get a 10 per cent payment. They have previously received a 31 per cent payment.

Cecil Rotsch of the liquidation division told the committee that ordinary life policies of bankrupt Estate Life Ins. Co. had been reinsured and the unsound industrial policies cancelled.

In an earlier report the Senate committee had charged Insurance Commissioner William A. Harrison with negligence contributing to the downfall of Estate.

BATTLE LINES DRAWN — Representatives of Texas Municipal League and spokesmen for the State Firemen's and Policemen's Associations tried to have a friendly get-together. Purpose: to share views on future legislation on firemen's and policemen's wages, hours and pen-

sion plans.

Municipal League wanted to talk about its plan to put more control of wages and hours in the hands of city councils, rather than the Legislature. Firemen and policemen were more interested in their plan to get the Legislature to limit working hours in cities over 10,000.

After a stormy session the two groups admitted they were "poles apart."

Each gave notice they'd stick by their guns and fight it out at the Capitol.

AT IT AGAIN — Texas Employment Commission, a frequent battle ground for labor-management hassles, is caught in the cross-fire again.

It was touched off at a meeting of TEC's advisory council called to consider proposed changes in the unemployment compensation laws.

Commission Chairman Perry Brown is recommending that the weekly checks be upped from \$28 to \$35, the 24-week pay period to 36 weeks and that there be a one-week waiting period before payments begin.

R. F. Newman, labor's representative on the Commission, recommended payments pegged at 55 per cent of the average salary. At present \$78 weekly average, benefit checks would be about \$43. Newman also recommended extending the unemployment law to firms with only one employee.

Labor spokesmen on the council were critical of Brown's one-week waiting period proposal and even more critical of Brown and Commissioner Maurice Acers. State AFL-CIO President Jerry Holleman accused the two commissioners of voting down the appeals of jobless workers.

Management representatives declared the commission's first responsibility was to get people employed, not to pay out benefits.

HIGHER PRICES SEEN — 1959 may be the year for another round of inflation, warns the University Bureau of Business Research.

BBR noted that even with the

J. W. McClellan's Receive Letter From Ordnance School

Mr. and Mrs. J. W. McClellan received the following letter from the U. S. Army Engineer-Ordnance School recently concerning their son, Bill, who recently graduated from the school. The letter is self-explanatory.

Mr. and Mrs. Jasper McClellan Rural Route 1 Santa Anna, Texas

Dear Mr. and Mrs. McClellan:

I am pleased to inform you that your son, Arman-Second Class Jasper W. McClellan, was selected as the Honor Graduate of the recent Generator Mechanic Course conducted here at the U. S. Army Engineer-Ordnance School, Europe.

You can be justly proud of your son's accomplishment, since the Honor Graduate is the student making the highest grades in his course. In addition to be eligible for this honor, his grades must be above 90 and his general conduct during his stay at the school must be above reproach.

In achieving this distinction, your son has demonstrated outstanding ability, diligence, and attention to duty. It is a privilege to have him under my command.

Sincerely yours,

R. B. Braden
Colonel, Ordnance Corps
Commandant

COMMISSIONER'S COURT MET WITH LCRA FRIDAY

Walter Holl, Commissioner of Precinct No. 2, reports the County Commissioner's Court met with the Lower Colorado River Authority at Buchanan Dam Friday, Jan. 9th.

Purpose of the meeting was a discussion of a proposed dam site in the 5-county area.

African Slides To Be Shown Friday Night

Misses Alberta Parish and Darlene Laynebury, registered nurses from Menard, Texas, will be at the Santa Anna Seventh-day Adventist Church Friday, Jan. 16, at 7:00 p. m. They will be exhibiting and show-colored photographs of the African continent.

Miss Parish is superintendent of nurses at the new Menard Hospital. Miss Laynebury is operating room supervisor.

Everyone is invited to the church to see the pictures.

GI Insurance Dividends May Be Used For Premiums

More than a million veterans holding GI life insurance policies are using their regular annual dividends to guard against loss of their GI insurance, Dr. George T. McMahan, Manager of the Veterans Administration Center in Waco, said today.

The statement followed VA's recent announcement that \$256,000,000 in policy dividends would be paid during 1959 to more than five million holders of participating GI insurance.

Dr. McMahan said GI policyholders may have these annual dividends held — with interest — by the agency as a credit to pay the premium monthly if the policyholder fails to pay it before the end of the 31-day grace period. This policy-safeguarding procedure is followed automatically if the policyholder has not requested other disposition of his annual dividends, Dr. McMahan pointed out.

Dr. McMahan said two other dividend options were open to all holders of participating GI policies. They may direct VA to use their annual dividends to pay policy premiums ahead of time, or may request that their dividends be paid in cash.

Holders of permanent policies also may authorize VA to hold annual dividends on deposit, with interest and subject to withdrawal on request. If not withdrawn, the money and interest will increase the value of the policy.

GO TO CHURCH SUNDAY.
