

Questions And Answers On Sonic Booms

This week we complete the series of 15 questions and answers concerning sonic booms.

that have been a source of considerable grief in this area during recent months. We hope they have been of some benefit to you.

The only way that this can be stopped is for enough people to write your congressman and senators about them, and demand that something be done to stop them.

The questions and answers follow:

10. Why can't aircraft creating sonic booms be readily identified?

The characteristics of jet aircraft engines dictate flight at higher altitudes than aircraft with reciprocating engines. Normal jet operations are carried out at altitudes of 20,000 feet or above. These operating altitudes are becoming increasingly higher as new aircraft of greater performance enter the Air Force inventory. The normal high cruising speed of jet aircraft, coupled with high altitude operations make it possible for an aircraft to be a considerable distance away from the scene of the boom it creates. An aircraft creating a sonic boom may cause people on the ground to hear the boom 30 to 40 miles

away from the path of the aircraft. Atmospheric conditions play a significant part in the propagation of these sound waves.

Although Air Defense Identification Zones are in existence, flights originating within one of these zones are naturally considered to be friendly and receive no further attention from the standpoint of identification. Air Defense Identification of aircraft entering the zone from an outside departure point.

11. How does the sonic boom affect the citizen?

When people hear this very loud sound which is roughly 10 times the intensity of a loud thunderclap, they immediately get the idea that there must have been damage caused and they start looking. They find crack after crack that they feel certain were not there before the boom. They are sure of it because they live in that house every day and they have never seen them. Of course, they have never seen them; principally because they were not looking for them. It is amazing, but true, that the eye sees many things that never register on the conscious mind and, therefore, are not seen. Seeing such damage for the first time after a boom, the citizen immediately assumes it was caused by a sonic boom and requests payment for damage.

12. What is the Air Force policy on alleged sonic boom damage?

It is the policy of the Air Force that whenever its operations cause damage prompt payment of fair amounts for such damage shall be accomplished. At the same time, the Air Force has a tremendous obligation to the taxpayers and the citizens of this country to expend each dollar appropriated in a proper manner.

To be certain that both of these obligations are met — to pay when damage is caused and deny payment when it is not caused — a very thorough investigation of the alleged damage must be accomplished. Generally this investigation, conducted in the light of the facts previously explained, results in the decision that a sonic boom could not have caused the damage claimed. This is not to say that the Air Force doubts the sincerity of the claimants belief, but factual evidence which science has made available to us must be used in determining the authenticity of a claim for such damage.

13. How does the sonic boom af-

fect the Air Force?

The Air Force is charged with the tremendous task of providing aerial protection to this country and insuring continued freedom in consonance with our American way of life.

To carry out this task, we must maintain a ready combat capability in the most superior air vehicles technology can provide. More and more supersonic aircraft are entering the operational inventory of the Air Force. These aircraft, capable of supersonic speeds in all flight altitudes, are creating an increasing number of sonic booms all over the country. This phenomenon, occurring without warning, produces a startling, explosive sound which causes the public to react unfavorably toward the Air Force. Responsive to the public which it defends, the Air Force continuously attempts to carry out its missions with the least possible disturbance to the people. However, the world's best Air Force cannot be maintained if its pilots must fly all missions at sub-sonic speeds and then someday, when the chips are down, fly their aircraft on actual missions for the first time at supersonic speeds.

14. How does this affect the aircraft manufacturer?

The aircraft manufacturer is affected by public opinion in much the same manner as the Air Force. The manufacturer is under contract to the Air Force to produce aircraft with performance capabilities which will enable the Air Force to carry out its missions. Research, development, and testing of new aircraft are vital and necessary functions in the production of aircraft that will keep us a step ahead of any aggressor. Supersonic flight is a normal part of this development and production process.

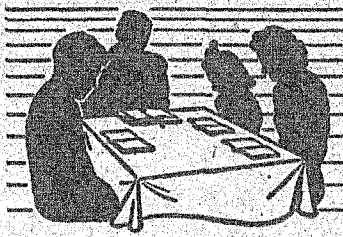

The manufacturer, however, is forced by public opinion to perform supersonic aircraft testing farther and farther away from his plant in order to develop such aircraft for the defense of this country. This, in turn, increases the cost to the taxpayer for the final product.

15. How does this affect the people of the United States?

The people expect the best possible protection for their homes, families, and country. The Air Force is providing 24-hour-a-day, 365 day-a-year protection in all kinds of weather. This responsibility is accepted with the full knowledge of the cost of failure. Air Force personnel are citizens of this country dedicated to accomplishing this job of vital importance. When friction exists between an Air Force base and the community near that base, Air Force people are made to feel unwelcome. Being human, this naturally is resented, and many airmen leave the service at the first opportunity and seek employment in other fields where they are not regarded as a nuisance. This results in the requirement for a continuous retraining program to maintain an adequate force and costs the taxpayer billions of dollars year-

The Upper Room

© THE UPPER ROOM, NASHVILLE, TENNESSEE

Read Luke 8:4-15.

A word fitly spoken is like apples of gold in a setting of silver. (Proverbs 25:11.)

One winter morning I went out to sweep away the snow that lay unbroken on the steps and walk. It swept off clean, except for firm white imprints of a foot on each step and across the walk. I knew they were made by the early-rising teacher who lives in the other apartment. She had gone out at her usual time, and the continuing snowfall had covered but not destroyed her footprints.

So it may be with one's words spoken or deeds done to others — to some child, youth, or adult. You and I may forget our words and deeds, or they may seem to be covered up in the onflow of life. But they exert their influence. Whether we are aware of it or not, sometimes the influence of our words and deeds sinks deep into the hearts of others.

How careful we need to be that the words we speak reflect

ly.

The loud sound of the sonic boom, admittedly, is a startling one. Every effort is made by the Air Force to spare the citizens of this country from being startled by this disturbance to the greatest possible extent. However, as long as the need exists for continuous air surveillance of our country to prevent possible foreign intrusion, sonic booms may be heard from time to time in all parts of the country.

The sonic boom is assurance that the Air Force is on the job and is carrying out its responsibility to train, equip, and maintain a force capable of assuring continuous aerial protection of this country from attack.

a Christian attitude, and that our deeds are done in the spirit of Christ. We then live to the glory of God, and He uses us to strengthen and bless others.

PRAYER

Dear heavenly Father, we thank Thee that we may speak words which help to bring others to Thee. May we not be discouraged, even though we may never see the results of our efforts. Strengthen us to do our best and grant us faith to leave the results to Thee. In the Master's name. Amen.

THOUGHT FOR THE DAY

I want my words and deeds to be acceptable to God and helpful to my fellow men.

—Lucille Graham (Ohio)

An Automatic ELECTRIC RANGE

Makes every cooking occasion a treat

Whether it's a party lunch or a full-course dinner, a flameless Electric Range performs perfectly at the push of a button, or turn of a switch. That's because Electric heat is accurately controlled to end old-fashioned pot-watching and cooking failures.

There's a precise temperature — automatically maintained — for all your cooking and baking operations. There's no flame to adjust — so there's no guess work, ever.

You'll be surprised, too, at the extra hours of leisure you'll enjoy with Electric cooking. Just imagine a complete dinner cooked while you are away from home! That's right... prepare a complete meal — place it in the well-insulated oven, set the automatic controls, and you're free for the rest of the day — without worry. When you return home, dinner awaits you piping hot, completely cooked Electrically.

But you'll never really know just how wonderfully convenient automatic Electric cooking can be until you've tried it for yourself. So why wait? Do it now — and begin Living Better... Electrically.

Makes every cooking occasion a treat

FOR LESS THAN

SEQUENCE JUNO II SPACE PROBE LAUNCH

SPACE PROBE—Pioneer IV which soared smoothly into space at 12:11 a.m. EST March 3 got its biggest boost from the Army's "Old Reliable" Jupiter intermediate range ballistic missile which started the 13,400-pound payload of instruments on its journey to orbit the sun. The artist's conception here shows the various sequences of the launching of the space probe.

Recent Space Probe Rocket Based On Jupiter Missile

The Juno II carrier rocket used in the successful launching of the space probe on March 3 is based upon the Army-developed Jupiter intermediate range ballistic missile.

The rocket consists of a modified Jupiter serving as the first stage and a three-stage cluster of solid propellant rockets placed in a spinning tub mounted in the nose of the first stage. The rocket is 76 feet long and weighs about 60 tons when fueled.

The Jupiter booster was modified for this special space role to increase fuel capacity. Fuel for the booster propulsion system is a high grade kerosene; oxidizer is liquid oxygen.

The vehicle's tank area begins at a point above the space occupied by the thrust unit. The smooth outer shell of the Jupiter

is also the inner wall of the storage tanks. It is fashioned from aluminum alloy rolled from flat sheets.

The second stage is a 721-lb. hollow cylinder formed of 11 solid fuel rockets. The 207-lb. third stage consists of three more of these rockets positioned in triangular fashion equidistant from each other. It sits in the center of the ring formed by the second stage motors. After second stage burnout, the third stage ignites and pulls out of its encasement.

Fourth stage is a single rocket motor weighing 59 pounds. When it burns out it is separated from the probe itself by a small explosive charge and spring which pushes the payload ahead of it.

Ninety-two percent of the Army's Jupiter firings since January 1957, has been successful. A modified Jupiter was also used as the booster rocket for Pioneer III on December 6, 1958.

Development of the Jupiter was begun early in 1956 by the Army Ballistic Missile Agency. It was designed for use against ground targets at ranges up to 1500 miles, is about 60 feet long and 105 inches in diameter. Also designed by ABMA was its self-contained inertial guidance system which enables the missile to follow a pre-planned trajectory to the target.

The missile was designed for ruggedness, speed, reliability, simplicity of operation, accuracy and mobility. The Jupiter can be transported by air, rail or truck with its support equipment.

Operational use of the Jupiter was turned over to the Air Force which announced activation of the 864th Strategic Missile Squadron, utilizing the Jupiter, in January 1958. Two weeks later some 200-300 airmen began their training at the Army's Redstone Arsenal at Huntsville, Ala.

MRS. TOM RUTHERFORD

On Tuesday afternoon, March 17, there will be a miscellaneous shower, honoring Mr. and Mrs. Earl Wright-Gill, who are now making their home in Brownwood. Everyone is invited to this shower at the Community Center on date mentioned.

It is almost Picnic Time again. On This Friday night there will be a meeting at the Community Center to make arrangements for the annual April Picnic, held the first Saturday in April. Your presence at the meeting will be deeply appreciated.

Mrs. A. L. Crutcher and Liddy Jane of Rockwood, visited in the home of Mr. and Mrs. Floyd Morris and boys Sunday afternoon.

Mr. and Mrs. Hilary Allyn Rutherford are at home at 203 Melwood in Brownwood, after their marriage in Coleman Saturday night. Hilary has employment with the Southwestern States Telephone Co.

Jerry Hagnes of Trickham spent the weekend with Joe and Mrs. Morris.

Mr. and Mrs. S. M. Fellers, who live near Trickham, purchased the Nazarene church building and had it moved to their farm near Trickham, last Wednesday.

Mr. and Mrs. Gene Deal and children spent Thursday night and Friday with his parents, Mr. and Mrs. Dick Deal and Dixie.

Patsy Rutherford of Abilene spent Saturday night with her parents, the Tom Rutherfords.

Mr. and Mrs. Warren-Gill of Brownwood, was visiting Mr. and Mrs. Roy England and children Monday and looking over ranch activities.

Mr. and Mrs. Floyd Morris and son, John David, visited Friday with Mrs. Morris' brother, Mr. and Mrs. Richie Perkins and family of the Loss Creek Community.

Mr. and Mrs. Grady Buse of Brownwood visited Mr. and Mrs. Nick Buse and Earla Sunday afternoon.

Dixie Jo Baugh spent Friday night with Dixie Deal and they attended the band concert in Erady Saturday, with the Santa Anna Band.

Mr. Clinch of Santa Anna will again be at the Community Center Sunday night to show feligious films.

Pam and Keith Gill, children of Mr. and Mrs. Allyn Gill of Santa Anna, spent Monday night with Mr. and Mrs. Roy England and children.

Friends of Mr. and Mrs. Babe Gardainer will be glad to hear they are now improving faster. Mr. Gardainer was very ill until about Thursday, but since has been improving.

Mr. and Mrs. Guy Edwards of Muleshoe, spent the weekend in the Gardainer home. Mr. and Mrs. J. D. Hext of Fredericksburg spent Sunday in the Gardainer home.

Mr. and Mrs. Douglas Avants and children of Brady visited his parents, Mr. and Mrs. Aaron Avants Sunday afternoon.

Mr. and Mrs. Dick Deal visited with Mr. and Mrs. Bert Turney Sunday night.

Mr. and Mrs. Nick Buse and Earla visited with Mr. and Mrs. Carl Butry of Rockwood Sunday afternoon.

Cleveland News

By MRS. MANLEY F. BLANTON

Mrs. S. E. Blanton was honoree at a pink and blue shower Thursday at the home of Mrs. C. T. Moore. There were about 90 registered and sending gifts.

Mrs. J. E. Williams spent Thursday in Fort Worth with Mr. and Mrs. Emmett Terry and girls.

Mr. and Mrs. Charlie Ray Fleming of Abilene, had dinner Sunday with Mr. and Mrs. C. W. Fleming.

Mr. and Mrs. John Howard visited Saturday in Glen Rose with Mr. and Mrs. Joe Morrow.

Those visiting Friday with Mrs. S. E. Blanton were Mrs. M. F. Blanton, Mrs. Clark Miller, Mrs. Ruby Hartman, Mrs. Tom Moore, Mrs. Thelma Fleming and Mrs. Clara Cupps.

Mr. and Mrs. T. L. Blanton and children of Kempner, spent Friday night in our home.

Mr. and Mrs. C. T. Moore and Terry visited Sunday with Mr. and Mrs. Horace Phillips.

Mr. Joe Cochran came home Sunday, from San Antonio Hospital. Mr. Cochran is doing nicely, since his recent operation.

Mr. and Mrs. Jack Banta and Jaynie of Coleman, visited with Mr. and Mrs. S. E. Blanton and boys on Saturday night.

Mr. and Mrs. John Howard and Mr. and Mrs. Elean Glliam and children of Coleman, went to Lometa Sunday to visit Mr. and Mrs. Tom Howard and children.

Mr. and Mrs. M. F. Blanton, Hill Blanton of Owen, Mrs. Carter of Abilene and Mrs. Sue Walker had dinner Sunday with Mrs. Mace Blanton.

Mr. and Mrs. Lee Russell and Mrs. Artie McGill, all of Fort Worth, visited over the weekend with Mrs. Jewell Powers.

Miss Margie Fleming spent Saturday night in Brownwood with her sister, Mrs. Kenneth Sikes.

Mrs. Eddie Paul Voss visited Monday afternoon with Mrs. Sid Blanton.

ROCKWOOD WSCS HOLDS MISSION STUDY

Chapters I, II and VI were presented by Mrs. John Hunter and Mrs. J. T. Avants, in the first session of "Isalah Speaks", at the Woman's Society of Christian Service at the Rockwood Methodist Church Monday.

Hymn, "I Love Thy Kingdom, Lord," opened the meeting. Mrs. M. A. Richardson gave Isalah 6, as the Worship Scripture. The Rev. J. W. Tickner gave a prayer. Mrs. J. T. Avants led the Lord's Prayer, in unison, as the closing prayer.

Present were the Rev. and Mrs. J. W. Tickner, Mrs. Richardson, Mrs. Avants, Mrs. J. A. Hunter, Mrs. Fox Johnson, Mrs. Aubrey McSwane and Mrs. John Hunter.

Nitia Daniell Circle Studies Literacy In World Conditions

The Nitia Daniell Circle of the First Methodist Church met in the church parlor at 7:30 p. m. Tuesday, March 10, for their regular meeting.

The meeting was opened with a song, "A Charge to Keep." Mrs. Lucille Dean was at the piano. The devotion was given by Mrs. Frances Elliott.

A New Frontier, Literacy and Christian Literature, was topics for discussion.

Mrs. Chester Galloway gave the first topic, "How Literate is the World." "What a Literacy Teacher Does," was discussed by Mrs. Martha Belle Thompson. Mrs. Lillian Herndon discussed "How a Literature Worker Serves?"

The worship center consisted of a large globe, one half covered in black with black streamers extending from the dark side. The opposite side covered in white, with white streamers, ending at a stack of books, "The Upper Room," "Together," "Woman's Outlook," "Methodist Woman." In the center a black and white streamer coming together at the open Holy Bible, which lay in front of the globe.

Other members attending besides the above mentioned, were Mrs. Bernice Mulroy, Mrs. Dorothy Watson, Mrs. Emma House and mother, Mrs. Briggs, a visitor, Mrs. Wilma Welch and Mrs. Eva Nell Bengel.

After the business session, cake and punch were served by Mrs. Mildred Galloway.

The Circle was dismissed with a prayer by Mrs. Elliott.

Mr. and Mrs. Frank Simmons of Belton spent the weekend with his sister-in-law, Mrs. J. F. Simmons.

Heilman-Rutherford Vows Exchanged

Miss Belya Dene Heilman and Mr. Hillary Rutherford were united in marriage Saturday evening at the home of her sister, Mrs. John Fulbright, in Coleman. The only attendant was Mrs. Joe Langhanning, a niece, and nephews, D. L. and J. W. Fulbright, were ring bearers.

Mrs. Rutherford is the daughter of Mr. and Mrs. Sherman Heilman of Rockwood. Mr. Rutherford is the son of Mr. and Mrs. Tom Rutherford of Whon.

The couple will make their home in Brownwood.

Mr. and Mrs. Cecil Harmes and Denny, Mr. and Mrs. John Fulbright and boys, Mr. and Mrs. Joe Langhanning and Mrs. Sherman Heilman were present.

Needlecraft Club Met On Thursday

Misses Jettie and Dora Kirkpatrick entertained the Needlecraft Club Thursday, March 5th.

During the short business session, different phases of work were discussed. The club decided to let hostesses decide what kind of work the club would do at each meeting.

A vote of thanks was given Mrs. W. H. Zachary for her help on the quilt recently made by the club.

A freshment plate of cake and coffee was served the following members: Mrs. J. Edd Bartlett, Mrs. Cecil Curry, Mrs. Will Haynes, Mrs. Dovie Chapman, Mrs. Lester Guthrie, Sr., Mrs. John C. Brown, Mrs. A. R. Brown, Mrs. Ella Stiles, Mrs. T. H. Upton, Mrs. Virgil Newman, Mrs. Taylor Wheeler and Misses Jettie and Dora Kirkpatrick.

Mr. and Mrs. Jim Williams of Brownwood visited Saturday with Mrs. Annie Munger.

YWA Group Attend House Party At Hardin-Simmons

Sixteen Y. W. A. members of the First Baptist Church, together with their counselors, Mrs. James A. Mallow and Mrs. William Brown, left here Friday, Feb. 27, for Abilene, to attend the annual state Y. W. A. House Party at Hardin-Simmons University. A total of 1,300 girls from over the state were in attendance. The group from Santa Anna was one of the largest groups present.

Not being able to get accommodations on the campus, but were lodged in a tourist court. Some 75 girls from other areas were at the same lodge.

Sessions were held Friday night, Saturday morning, afternoon and night and Sunday morning. Personalities on the program included a number of missionaries on foreign fields and others from home missions. Question and answer periods were held for those interested in foreign mission work and also home mission work. The group attended the First Baptist Church for the services Sunday morning and returned home in the afternoon.

Those attending were Sonja Dunn, Reta Ing, Clois Cullins, Ruth Radle, Edna Lewis, Ellen Lewis, Jeanne Stewardson, Barbara Allen, Janice Smith, Roberta Morgan, Janice Harrington, Lula Hawkins, Sandra Pricer, Frances Biggs, Mary Burden, and Linda Sue Owen and the counselors. Alice Ann Lovelady was not able to attend as she was in the hospital at Coleman.

20th Century Club Has Regular Meeting On Friday

Mrs. Arthur Talley was hostess to the 20th Century Club at her home on Bowie Avenue Friday, March 6th, at 2:00 p. m. Members present for the meeting, besides the hostess, were: Mrs. Warren Aldridge, president; Mrs. W. E. Vanderford, Mrs. Roy Stockard, Mrs. Sam Rutherford, Mrs. Richard Smith, Mrs. A. L. Oder, Mrs. Edd Jones and Mrs. Bill Pritchard of Post, a former member. Mrs. Sam Moore was a visitor. All were glad to see her looking so well.

Younk Mike McCluskey was also a visitor. He and little Nell Talley assisted in the entertainment features.

Mrs. Stockard read an interesting story, and conversation was enjoyed.

WEEK OF PRAYER AT ROCKWOOD

Mrs. Goldie Milburger conducted the Week of Prayer program on Home Missions. Opening hymn was "Rescue the Perishing," with Mrs. Bill Bryan at the piano. Mrs. Ray Caldwell offered a prayer in behalf of Missions.

Members present were Mrs. L. L. Bryan, Mrs. Bill Bryan, Mrs. Jack Cooper, Mrs. Matt Estes, Mrs. Caldwell, Mrs. Milberger, Mrs. Henry Smith.

Return Of Fish Tags Important To Biologists

Austin — Biologists working Galveston, Trinity, East and West Bays have begun extensive tagging of fish in the area. According to Hinton D. Hoese, Game and Fish Commission, Monel metal tags are clipped on either the upper jaw or gill cover of most fish. Flounders are tagged behind the dorsal fin.

Fish many times journey from bay to bay during their life span. Some of these tagged fish probably will be landed many miles from the point of tagging. Fishermen are asked to return any tag they find on a fish, along with length, weight, location and date of capture, and any other pertinent information.

to the Texas Game and Fish Commission offices at Seabrook, Houston or Galveston.

It is sometimes interesting to learn where a fish has traveled, or where its home port is. This has been done with water fowl for many years. Many hunters have been amazed to learn where their kills have originated, along with the age, species and other interesting information.

Fishermen who do find the fish tags and return them to the Game and Fish Commission will in turn receive a letter giving information as to where and when the fish was released, and any other information about the fish that is available.

It may be interesting to note

also that the return of these tags will aid the biologists greatly in the study of migration, growth rates and estimations of the numbers of sports fish in the area.

Visitors with Mr. and Mrs. Murray Cooper over the weekend were: her mother, Mrs. W. R. Stewart, and Mr. and Mrs. Ray Erwin and three children, all of Honey Grove; Mr. and Mrs. J. D. Stewart and Mr. and Mrs. William Berdwell, all of Fort Worth. Mrs. Cooper's mother will remain with them for a few days.

Rites For Mrs. Pearl Coorpas

Funeral services were held in Fort Worth for Mrs. Pearl Coorpas, 67, who died suddenly at her home in Fort Worth at 3:00 a. m. Sunday, March 8. Services were held Monday afternoon. She was a sister of Tallie Allison and Mrs. Joe Cochran.

Survivors include one son, Raymond McAnelly, two grandchildren, one great grandchild, and other brothers, Will and Jesse Allison, and another sister, Mrs. Dora Gibbs.

She was a daughter of the late Mr. and Mrs. W. B. Allison of the Cleveland Community, and a member of the Christian Church.

Attending services from Santa Anna were Mrs. Cochran, Mr. Allison and Mr. and Mrs. Robert Perry.

Mr. and Mrs. Jack Allen and Sammy of Midland were weekend visitors with her parents, Mr. and Mrs. Sam H. Collier. Miss Adella Martin of Dallas, was a visitor Sunday afternoon in the Collier home.

Mrs. Harold Everett and daughters, Shelly and Sherida, of Abilene, spent Friday night and Saturday with Mrs. Frances Everett. The group spent Saturday night and Sunday in Eastland visiting with Mrs. Hildgarde Everett.

Mrs. L. H. Carter of Abilene is visiting Mrs. Virgie Loudermilk and other friends.

WORDS or Just Being Human
by Brad Anderson **THOUGHTS**

BEFORE trying to mend a large piece of material such as a sheet, starch the portion to be mended and it will hold taut when you put in a patch.

Use the kitchen baster for watering plants that are set rather high or those which are in bottles with a rather small opening.

Small-size plastic bowl covers are ideal for placing at the cut end of sausage or bologna to keep it from drying out.

Nylon or saran mops are ideal for dusting walls or ceilings be-

THIS WEEK'S RECIPE
Corn Meal Pancakes

2 cups corn meal
4 tablespoons flour
3 teaspoons baking powder
1 teaspoon salt
2 eggs, well beaten
2 cups milk
3 tablespoons corn oil

Mix and sift together dry ingredients. Make a well and add remaining ingredients all at once; stir only enough to dampen ingredients. Batter should be lumpy. Bake on a hot, oiled griddle until golden, turn and bake other side.

cause the dust clings to them. Furthermore, they're easy to wash and dry and can be kept clean for this purpose.

Stuff cleaning cloths into a plastic bag for your cleaning caddy and they will always be fresh for use.

Slide a vertical storage shelf into your kitchen cabinet for holding cookie sheets and lids so you can find them without searching.

Remove brown stains on dishes by letting them stand in a borax solution for several hours, then wash in hot soap suds and water.

Store china plates and saucers which are seldom used by placing circles of Canton flannel between them, then cover with a plastic bag to prevent dust from settling on them.
