"Dey give me a gold star fo' A public aud Henry," she said. "But I don't wad's reunion. wants a gold star, I needs him." In that little incident there is reason enough why we should was ask if she knew why cream Minn. not engage in a war across the

ocean if we can stay out of it. And we can stay out of it by strictly attending to our own

That was only a negro woman we saw. It was just the mammy of a dead black boy. But nobody in Europe had bothered the mother or the son, and it was a tragedy to forever separate them when they loved each other and needed each other. Thousands of American mothers gave their boys for gold stars, and they were proud of the boys and proud of the stars. We are all willing to fight, we all feel that it is a duty to fight when the Stars and Stripes are thrown out over, a battlefield. But nevertheless it would be better if the conflict could be avoided and the sacrifices averted. The American mother who gave her boy to save France has nothing to expect from the French people. If Germany and France again come to the parting of the ways and again send

all of them.

War is cruel. It is savage even when fought by the most civilized nations. It burns up the wealth that has been created by toil. It calls on the toilers who furnish that wealth, to fight for its protection, and then to

For the Christmas and New that nine times out of ten the grazing are suggested by R. H. rose to the top of the mus.

H. I. Hoffmann, Expert. former associate of C. F. Redlich, Minneapolis, Minn., will demonstrate without charge his "Porfeet Retention Shields" in Brownwood, Saturday, Nov. 25, at the Southern Hotel.

STATES AN AMAGINE AN AND AN ANTICE PERSON

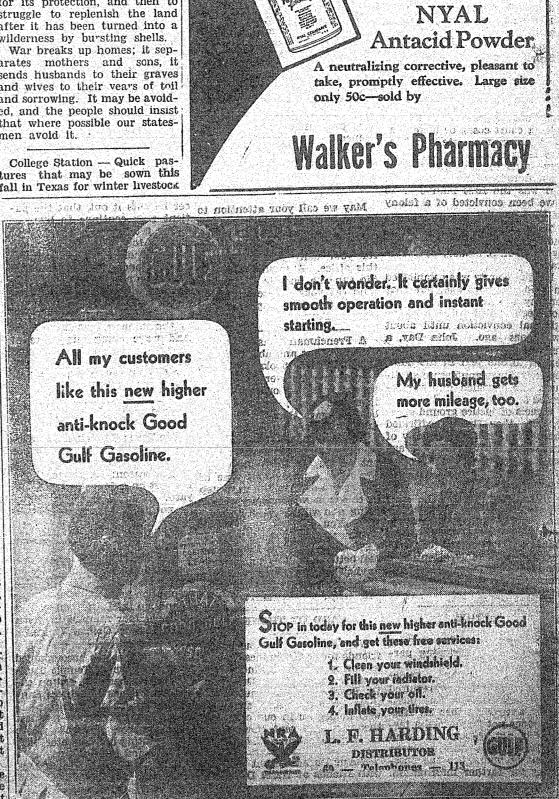

President Roosevelt has had struggle to replenish the land pretty faithful cooperation in after it has been turned into a War breaks up homes; it separates mothers and sons, it plans whether they agreed with and wives to their years of toil those plans or not. The situa- and sorrowing. It may be avoided, and the people should insist that where possible our statesjust what will work, men avoid it.

There have been balky horses, College Station - Quick pashowever, and it has hurt betures that may be sown this cause complete unanimity is

needed Constructive criticism is al ight. But efforts to dissatisfy certain interests and classes have been carried on by slackers who witnessed failure after several years of trail by their own party, and should welcome success in such a crisis even by the opposing party. In fact the panic is something that should cause partiots to lay down all party prejudice and unite wholeheartedly to bring about relief. There has been lots of suffering and without quick action there will continue to be lots more suffering. The government cannot continue to feed the unfortunate indefinitely; there must be an upward trend that will continue to move in that direction or something more serious than has yet been suggested is going to happen.

We can all see evidences of improvement; many farmers have been able to pay their old accounts this year and have a little with which to supply their wants; many have gone back to work who were unemployed when President Roosevelt took charge of the government. But there is still much to be done, and patriots are still under obligations to cooperate and help the great leader pull us through. KEEP OUT

Indications point, to another mix-up in Europe. It is plain enough to see that the jealousies, and envies and fears existing will sooner or later lead to bloodshed. Some predict, that we cannot keep out of an old world war, and some think that we should not try to keep out of it when the thing comes. Regardless of whether we should or should not have gone into the world war, it is a fact

# **Better Lighting Will Ease** Your Budget Worries

There are budgets that really will work ... budgets that will show how to bring expenses within income! But they weren't created at a dark and gloomy desk . . . they were the result of calm and Intelligent analysis under the cheering atmosphere of good light.

It's surprising what a difference adequate lighting makes! ... Troubles take on a less terrifying aspect when subjected to the clear, eve-soothing brilliance of the modern electric light. It's not only much easier to work, but the absence of eye-strain keeps your m nd clear and alert.

Next time you sit down to plot out the month's expenses, or to wr te a letter, be sure your light is adequate. You'll find the d.fference amazing!

A trained employe will be happy to inspect your home-lighting arrangements. There's no obligation, of course ... and chances are that a simple rearrangement of your present fixtures, or adju-td ments giving you adequate sized lamps where they're needed, will be all that's necessary.

Do you know that your increased use of Electric Service is billed on a surprisingly tox rate schedule ... and adds only a small amount to your total bill?  $(\mathbf{O})$
