Coleman Rodeo To Start Wednesday

The 22nd Annual Coleman Rodeo will get underway Wednesday, July 15 and continue through Saturday, July 18. Lots of preparation has gone into this rodeo and it promises to be one of the best ever produced.

Approved by the Rodeo Cowboys Association of America, the Coleman Rodeo has grown each year until now it is recognized as one of the largest and best shows staged anywhere. The show is known to have the South's most colorful Grand Entry, which always has more than 500 horses and riders. This is the first performance of each rodeo.

Beside the five major events of the rodeo, other attractions include the Girls Flag Race, numerous top specialty acts along with clowns and special bullfighters. The five major events include bareback and saddle bronc riding, wild steer wrestling, steer riding and calf roping.

The rodeo will open each evening with a big parade in downtown Coleman, which will get underway at 5:00 p. m. The Santa Anna Band will march in the Thursday parade. Following the show each evening, a dance will be held in the recreation building.

One of the few shows over the nation to hold an annual calf roping event, the Coleman Rodeo is known to have one of the best. This year Jim Bob Altizer will be matched against George Epperson in what should be a thrilling event.

3 Openings In WAC's This Month

Master Sergeant Ann Pace, WAC Procurement Officer for this area says: "Only three openings are still available in the Women's Army Corps this month. Single women, high school graduates or its equivalent, between the ages 18 to 34 may apply now."

Since the Women's Branch of the regular Army is interested in quality rather than quantity, only the most highly qualified of the many who apply for the free training offered in more than 2 training courses at Army Technical Schools are selected.

The Army needs Clerks, Typists, Stenos and Dental Assistants, so contact your nearest United States Army Recruiting Office, or write Master Sergeant Ann Pace, US Army Recruiting Station, 900 North Third Street, Post Office Box 1618, Abilene, Texas, or call her collect. Telephone No. OR 25665.

On July 15, Austin will roll out the red carpet for Texas Future Farmers as the youngsters gather in Austin for their annual state convention, the first for the capitol city.

Hundreds of Austin cars will bear a sticker "FFA, Ride with me," offering transportation between the City Auditorium and hotels. Austin business men will assist in the mass of detail necessary to a large convention; but the boys themselves, state officers and delegates will operate the program.

Over \$2500 Raised For Local Band Uniforms To Date

Just a little over \$2,500 has been raised toward the purchase of the new band uniforms for the Santa Anna Mountaineer Band. The new uniforms are due to arrive within the next few days.

A down payment of \$1,400.00 was made on the uniforms with the original order and at the present time there is \$1,106.83 in the Band Uniform Fund in the Bank. Total cost of the uniforms will be \$4,200. It is hoped that the balance can be raised before another year passes.

There are several who have volunteered to purchase a complete uniform for the band who have not yet deposited the money in the bank. It would be appreciated by the Band Boosters if you would deposit your money to the Band Uniform Fund within the next few days.

A campaign is already underway to raise part of the needed money. A Hope Chest will be given away at the first football game, Sept. 4. In this Hope Chest will be a large number of household linens and other household items. Tickets are now in the process of being passed out to members of the Boosters Club and will be sold at 50 cents each.

National Guard To Return To Homes Sunday

North Fort Hood, Texas — Traveling seven miles for a two-hour picnic is a simple matter for the average civilian, but moving 128 vehicles a like distance in strict military order is a completely different matter.

Still, this is exactly what the Second Battle Group did Sunday afternoon in its convoy to outer North Fort Hood training area, where troops will remain until Thursday afternoon.

It would have been a simple matter if vehicles had been the same type and size. They weren't. In fact, some were wheel vehicles, ranging in sizes from quarter-ton jeeps to 2½-ton trucks, and others were track-type tanks and armored personnel carriers.

Drivers, carefully keeping their vehicles 100 yards apart, found the first two miles to be a complete snap, but the next five to the brushy training site proved to be difficult to cover. Narrow, winding roads gradually became nothing more than double-rough cow trails before the training site for the bivouac was reached.

Troop moral was lowered somewhat by the choking dust kicked up by the rumbling vehicles. A flour-like silt blankets North Fort Hood roads, which only nine days ago were soggy due to heavy rains.

The mannoth convoy left North Fort Hood cantonment area at 4 p. m. Sunday and slightly more than two hours later, all units were in place in a 16-square-mile area.

Dispersion in the field this summer is based on the new pentomic concepts that units should be widely dispersed for atomic warfare. Last year, only one square mile was needed to set up the new-defunct battalion.

First aid tents immediately sprang up to treat injured personnel, who began an all-out assault on chiggers and URT's

Pony League Race Drawing To Rapid Finish

The Pony League race is just about going to be completed next week. The Santa Anna boys have one regular game left, Mozelle, to be played on Thursday night on the local field, then they have a make-up game with the Coleman Dodgers, which possibly will be played on Friday night. The Dodgers have two regularly scheduled games left and the one make-up game with Santa Anna. Regular schedule will be completed Tuesday night.

Santa Anna and the Dodgers are leading the league at the present time. The Dodgers are ahead by one game as the result of the Tuesday night play when they lambasted Santa Anna to the tune of 10-1.

The other three teams in the league are not in the running for the top positions at the present time. The Coleman Giants have one game left, to be played Tuesday night against the Coleman Dodgers. The best the Giants could do would be a 6-6 standing.

So, at the present time it looks like Santa Anna and the Coleman Dodgers will be in the three-game play-off at the end of the season to determine the league winners.

Homer J. Smith Buried July 2nd

Funeral services for Homer J. Smith of Santa Anna were held in the Stevens Memorial Chapel in Coleman on Thursday, July 2 at 2:00 p. m. The officiating minister was the Rev. Ed Bigham, pastor of the Central Baptist Church of Coleman.

Smith, age 69 years, had been in the veterans hospital in Temple about a week previous to his death on June 30th. He was born in Alabama, September 24, 1885 and was a veteran of World War I.

He is survived by one brother, Otis Smith of Santa Anna.

Burial was in the Coleman Cemetery under the direction of Stevens Funeral Home.

Charles Walker, who is staying with the Mace Blanton Jr. family in Fort Worth, visited home folks over the holidays and returned to Fort Worth Sunday.

Mr. and Mrs. David Hunter of Abilene and Harper Hunter of Midland visited in the home of their mother, Mrs. A. D. Hunter over the weekend. They were also visitors in the home of the Jim Dunns.

(Unidentified Flying Insects) which are present in masses this summer.

Communication lines were installed, and kitchens hurriedly prepared a meal for the hungry troops. The field, filled with underbrush, is docketed to be their homes until Thursday afternoon, when they return to the cantonment area. Guardsmen erected small pup tents for residences until Thursday, and the fortunate unpacked air mattresses, which they laboriously inflated.

Besides the usual on-the-job training which is scheduled each day, various other training is planned. Launching of hand and rifle grenades was on the Tuesday agenda.

Second Battle Group, which headquarters is Brownwood, is commanded by Colonel Ralph M. Krieger of Abilene. Lt. Col. Moreland, also of Abilene is deputy group commander, and Lt. Col. Thomas C. Yantis, of Brownwood, is executive officer. Staff Officers include Captain Everett S. Pitts of Brownwood, Captain Basil M. Swim of Abilene, Major Ross B. Hill of Abilene and Major Robert F. Radlous of Brownwood.

The group is composed of units from Brownwood, Abilene, Coleman, Stamford, Snyder, Lampasas, Stephenville, Ballinger, Brady and Santa Anna.

Local guardsmen joined the almost 10,000 36th Division guardsmen now undergoing two week summer training. The division is commanded by Major General Carl L. Phinney of Dallas.

Annual summer training ends July 12, when troops will return to home stations.

Season Tickets To Go On Sale Next Week

Season tickets to all home Santa Anna football games will go on sale by a number of local citizens next week. The season tickets will entitle the purchaser to a reserved seat near the 50-yard line for each of the home games for the high school and elementary school games.

The Junior High Team and the High School team each have four home games during the season. The book of season tickets will be similar to last year, except that the book will contain one extra page at the back on which will be printed the home games for the Junior High School. The entire book will sell for \$5.00 for adults. The Junior High tickets can be torn from the book and it will sell for \$4.00.

However, admission prices will be 50 cents at the gate for the Junior High School games, so you will save one-half the gate price by buying your season tickets.

Gate prices on the high school games will be \$1.00, same as the season ticket prices. But with the season ticket you have a reserved seat near the 50-yard line. With the reserved seat tickets is the only way you will be entitled to sit in the reserved section.

This year no seats will be sold on the front row, near the walk into the stands. Because of the inconvenience, this row of seats will be left vacant.

Make plans to purchase your season reserved seat tickets as early as possible. Good help guaranteed a successful season for the local football clubs.

The Junior High schedule is as follows:

Sept. 4 - Santa Anna at Rising Star
Sept. 11 - May 30, Santa Anna

YOUR EYES and VISION
By A. L. SPERRY, O.D.
Director Public Education

You Get What You Pay For

The American Meat Institute states that the average 1000 lb. steer on the hoof yields about 600 lbs. of eating meat of which only 50 lbs., that's 8%, is sirloin steak. Did you know that out of the average 600 lb. pot of optical glass only 12 lbs., or 2% results in first quality finished lenses?

Just as every steer on the hoof also yields lower quality cuts of meat from hamburger to soup bone, so some of this 600 lbs. of glass is unsuitable for first quality optical lenses. The reject glass may be melted down and poured as molded lenses for the dime store glasses available in those states where sale of such glasses have not been outlawed. The best part of the glass, suitable for first quality lenses, is passed on to the subsequent grinding operation.

But here again there is always some variation in the accuracy and quality of the resulting semi-finished lenses which are to be sent from the factory to the prescription finishing laboratory where your eye doctor's prescription is filled.

Since there are no "pure food and drug" laws which apply to ophthalmic lenses the manufacturer is not required to keep these "seconds" — and even "thirds" — off the public market. Having by now invested considerable time and money in these reject lenses the factories feel they can at least break even on production costs by "unload-

ing" the lenses at a price much lower than the top quality product. Thus, many of these reject quality lenses find their way onto the market through cut rate operators and eventually some unsuspecting citizen who thought he had found a bargain in glasses will be trying, I say trying, to see safely and comfortably through them.

John Ruskin once truly said "There is nothing in this world that some man cannot make a little worse and sell a little cheaper and the person who considers price only is this man's lawful prey." There is another old saying, short and sweet: "You get what you pay for." On the other hand P. T. Barnum once said "There's a sucker born every minute." These wise old sayings we hear, and often heed, daily. If there is one thing the individual should not "bargain shop", that thing is his vision — next to life itself your most precious possession.

When you choose your family optometrist check his reputation. Is he known for doing the cheapest work? Or the BEST work? Which do you want for yourself and your family? It takes TIME to do a thorough examination and fitting, and "Time is money". A professional man cannot take this time, then use the best in materials, and end up doing your work cheaper than anyone else. For your priceless vision you must choose — "You can't have your cake and eat it too."

**National Guard
Fights Chiggers
In Annual Camp**

North Fort Hood, Texas—The blistering sun accompanied by the minute scourge of the outdoorsman — the almighty chigger — began to take its toll of National Guardsmen this week, and "casualties" will likely soar into thousands.

Throughout the entire 36th Division, which is undergoing two weeks of summer training here, men were wiping their dripping brows with one hand while scratching their legs with the other.

Despite fairly high winds whipping through the sprawling military layout, the temperature has climbed into the 90s each day. Chiggers have climbed into everything everywhere.

Santa Anna Combat Supply Company, under the command of First Lt. Billy J. Harvey, with personnel from Santa Anna and the surrounding area has opened all-out war on the ruthless chigger. But, according to unofficial reports here early this week, the troops were fighting a losing battle.

But, the most pressing matter confronting all units of the division was the major recognition of the 36th. In the most sweeping reorganization since 1940, when it was "triangularized" for World War II, the division March 16 this year was modernized into the atomic-age "pontomic" organization.

Greater mobility, more firepower and more efficient communication were the goals. These were achieved by the Army's new five-sided infantry division.

The three regiments gave way to five infantry battle groups; the four artillery battalions became five direct support howitzer battalions and a rocket-equipped general support bat-

**Date For
1960 Wheat
Referendum Nears**

Texas wheat growers are reminded by Searcy Ferguson, chairman, State Agriculture Stabilization and Conservation Committee, that July 23 is referendum day. They will join wheat farmers in 38 other states in the voting to decide the type of marketing control program for the 1960 crop of wheat.

Ferguson pointed out that the referendum was being held at this time so that farmers will know at winter wheat planting time whether or not marketing restrictions will be in effect at harvest time in 1960.

A two-thirds majority of the votes cast will be required to keep marketing quotas in effect, said Ferguson. They have been proclaimed by the Secretary of Agriculture as required by law and the July 23 referendum will determine whether or not they are continued.

Farmers who comply with their individual farm wheat acreage allotments may market their entire crop without penalty and are eligible for price

tation. Four-company engineer and tank battalions gave way to five-unit organizations and an armored recon and a transportation battalion were created. Communication potential was increased by the expansion of the signal company into a battalion.

Announced March 16 by Governor Price Daniel, the reorganization of the entire Texas National Guard was achieved without loss of guard troops in any Texas city.

Almost 10,000 guardsmen of the 36th Division, commanded by Maj. Gen. Carl L. Phinney of Dallas, began Sunday, and will conclude training July 12, when units return to home stations.

support at the 75 percent of parity rate when marketing quotas are in effect. A grower who exceeds his allotment will be subject to marketing quota penalties on his excess wheat except that any grower may produce up to 15 acres for harvest grain without penalty.

ers who comply with their acreage allotments. The marketing quota penalty rate will be announced later Chairman Ferguson said. It is \$1.07 per bushel for 1959-crop wheat. Ferguson said any farmer is eligible to vote who expects to produce more than 15 acres of wheat for harvest as grain in 1960, except a grower who parti-

cipated in the feed wheat program in 1959. Ferguson suggests to producers that they pick up a copy of a pamphlet titled "The Vote on the 1960 Wheat Quotas" at local ASC offices. Mr. and Mrs. Jack Allen and Sammie of Midland, spent the weekend with Mr. and Mrs. Sam Collier.

IMMIGRATION POLICIES, which have a way of getting into politics, is being highlighted again in Senate hearings on proposals to overhaul the McCarran-Walter Act.

The latter Act maintains our traditional quota rules under which Europeans are admissible in restricted numbers based upon percentage of people of ethnic origins who were in this country in 1920.

Two Senators — Case of New Jersey and Kennedy of Massachusetts — plugged in Senate hearings last week for drastic changes in the quota system. They want more liberal rules to apply in order that more people can come in. Kennedy called for an increase in quotas from 150,000 annually to 250,000, while Case urged that, among other things, an additional hundred thousand "refugees" be admitted over and above quotas.

This contrasts with a resolution from the Uvalde chapter of the DAR, urging that immigration be restricted and that the McCarran-Walter Act be kept as it is.

Since the war vast numbers of immigrants have flocked to the U. S., including hundreds of thousands of so-called refugees and displaced persons. During 1956, for example, 350,000 immigrants were admitted, the largest number since 1925. In addition to others, upwards of a million Puerto Ricans have come since the war.

At the same time there are those who plug for an ever increasing flow of permanent immigrants from Mexico. The quota does not apply in the Western Hemisphere. Some people contend the present annual average of 50,000 permanent immigrants from Mexico is not enough — that the entry rate should be stepped up. If the present influx rate continues, in 10 years a total of a half million additional Mexican nationals will become permanent residents, mostly in Texas.

Read John 3:31-36
Our Father who art in heaven. (Matthew 6:9.)

An elderly woman wished to join the church. She had never learned to read or write. As a part of her training, the pastor sought to have her learn the Lord's Prayer. "It starts this way," he said, "Our Father who art in heaven."

"Does that mean that God is my Father?" the woman asked. "Yes," the minister said, "that's what Jesus teaches us about God."

"Then, pastor," the woman replied, with tears upon her cheeks, "I don't need to learn anymore. Since God is my Father, that's all I need to know."

What a glorious blessing it is to know and believe that God is our loving Father! How wonderful to know that every moment of our lives He loves us and cares for us! He seeks us when we go astray, even as we do our own children.

We need not fear! In moments of doubt and discouragement, His eternal presence is ever near to give strength and faith. Never can we say that we face life alone, for God our Father is always with us. He will strengthen us when we open our hearts to Him.

PRAYER
We thank Thee, our Father, for the wonderful knowledge of Thy eternal presence. Help us always to know that Thou art not far from us at any time. Help us to trust in Thee; through Jesus Christ Thy Son, our Lord. Amen.
— John Ambler (Michigan)

show less than one percent of all herds within the county are infected with brucellosis.

Of this number, he said, only three counties in Texas — Jeff Davis, Brewster, and Presidio — are certified. Officials have noted that the program's greatest gains have been made in those areas where livestock producers have cooperated by using the two main features of the program simultaneously — blood testing of animals to identify infected herds, and protection of calves through vaccination, Patterson said.

In addition to the 1,576 counties already certified, another 546 are currently working toward that goal and are expected to be certified soon. Up to the present time, 13 entire states, plus Puerto Rico and the Virgin Islands, have been certified, the veterinarian said.

When the national program first began in 1934, more than 11 percent of the cattle in the U. S. were infected. However, as a result of the program, the infection rate among all cattle tested has been reduced from 2.6 percent in 1954 to 1.3 percent at the end of February this year. This reduction in animal infection has also reduced the incidence of undulant fever, the form the disease takes in humans, from 6,321 known cases in 1947 to 802 in 1958. Contact with infected animals or animal products is the only source of human infection, the veterinarian added.

State Capitol NEWS

Austin, Tex. — About the only remark heard around Texas Legislative halls, of late is, "Think how bad it would be if it weren't air conditioned!"

(House and Senate chambers are cooled for the first time, though most of the rest of the Capitol is not as yet.)

Many remember summer sessions in pre-air conditioned days. Scorching-ordinary was the one in 1949 which ran to July 6, longest regular session in Texas history.

Lawmakers and reporters complained that the huge granite in the Capitol walls collected heat like a Dutch oven. Coat and tie rules in the legislative chambers added to the misery. Some observers said that the 1949 Legislature (which also had a tax problem) didn't really quit. It just sort of melted down. A special session was called the next winter to clear up money problems.

For all its comforts, air conditioning hasn't taken the sweat out of passing a tax bill.

Both House and Senate have passed tax bills, and a conference committee was put to work to try to piece them together. But the floor action preceding passage gave no indication that any of the con-

flicting groups is ready to give an inch.

House membership is split three ways into (1) those who don't want the majority of new taxes to fall on business, (2) those who don't want a majority to be sales taxes and (3) those who apparently don't want any new taxes.

Each of the first two groups has been able to defeat the other's proposals with the help of the "no-taxers." Hence, despite public impatience and their own weariness, lawmakers have been ensnared in a one-step-forward-and-two-backward pattern.

SOMETHING OLD, SOMETHING NEW

Given to the conference committee on taxes were a new, bob-tailed bill from the House and an old, nearly full-size bill from the Senate.

House bill would raise about \$106,000,000 over two years — about \$70,000,000 less than is needed. Senate bill, designed to raise about \$160,000,000, is the same one passed by the Senate in the first special session. It contains more sales taxes than business taxes which the House refused to accept on the last

round.

Cut from the House bill before passage were the \$50 deductible sales tax (a 2 percent levy on costs over \$50) and the natural gas severance beneficiary tax. Both fell by the wayside in one of the "if you kill my tax, I'll kill yours" sessions.

Remaining in the bill were levies on which the House has been able to agree all along — on cigarettes, liquor, auto sales and corporation franchises.

"New wrinkles" added were (1) a licensing fee for private clubs that sell liquor and a 10 percent tax on mixing drinks and (2) a 1.5 percent sales tax on boats, motors and airplanes. Bill also contains a provision to cut the sulphur tax from \$1.40 to \$1.03 a ton.

House conferees, none of whom served on the committee last session, are Reps. Menton J. Murray of Harlingen, Frates Seelgson of San Antonio, Wesley Roberts of Lamesa, Joe Ed Winfree of Houston and John Allen of Longview.

Senate conferees include four who served before, Sens. Rudolph Wehnert, Dorsey Hardeman, Bruce Reagan and Jimmy Phillips, plus one new member, Sen. Wardlow Lane.

SENATE OKAYS BEACH BILL

After considerable haggling and several close votes, the Senate passed a bill to guarantee public access to public beaches.

Mustang and Padre Islands are exempted from the provisions of the bill. Sen. Bruce Reagan of Corpus Christi, who sponsored the amendment, said that the islands were being developed with a systematic plan for public parks, beaches and recreation areas.

Opponents to the exemption said it would allow at least one-third of the beaches on the islands to be under private control.

As passed by the Senate, the bill does not try to define boundary between state and private land, but simply affirms the public's right to come and go from state beaches by way of roads.

FEE BILL ADDED TO CALL

A bill to let state colleges charge \$30 a semester activity fee got a new lease on life when Gov. Price Daniel submitted it to the Legislature.

Bill had been introduced twice, but fizzled out in the Senate when Sen. Henry Gonzalez challenged it on two points: (1) it was not "within the governor's call" for the session and (2) in order to be considered "within the call," it would have to be regarded as a revenue-raising measure which must originate in the House.

Governor Daniel's action changed this, and the Senate went back to work on the bill. A similar bill was passed by the House last session.

NO DEADLOCK HERE

Easiest agreement of the session was on a bill appropriating money to pay legislative expenses.

Both House and Senate gave final passage to a bill transferring \$400,000 from the cigarette tax fund to pay costs of the second special session.

This brings legislative expenses thus far to about \$2,700,000.

National Farm Safety Week

National Farm Safety Week has been designated for July 19-25, says the Texas Farm and Ranch Safety Council, with the emphasis this year on "Safety Makes Sense." Farm families who continually include safety in their plans and work are aware that "safety that saves makes sense." Safe farming and

LAND SALE APPROVED

House passed a bill that would allow the state to sell a tract of about 40 acres north of the State Hospital in Austin.

State Hospital Board has declared the system does not need the land. Austin city officials would like to see it privately owned so property taxes could be collected on it. Location is such that it could be used for a shopping center.

Bill sets the minimum price at \$1,500,000.

TEC TO MOVE

Texas Employment Commission will be the first state agency to move into one of the new buildings being built north of the Capitol.

Beginning July 16, TEC will cart some 686 employees and 11,000 items of furniture and equipment from 11 rented buildings to its new headquarters.

Operation is to continue around the clock and be complete on July 20. Unemployment checks will not be issued July 17, but delay is expected to be made up by end of the next week.

The News, Santa Anna, Texas, July 10, 1959

living saves time, money, sound bodies, carefree hours and even lives, the Council says.

Farm work accidents claim about 3,500 lives each year, more than any other major industry. About 12,000 farm residents lose their lives each year in all types of accidents, and another million or more suffer accidental injuries. The accompanying disabilities, miseries and financial troubles emphasize that "Safety Makes Sense," says the Council.

Human failure, not motor vehicles, farm implements and animals, is the basic cause of accidents. In nearly every case, human failure to recognize and correct a hazard is the real cause of accidental death or injury. Human failures include: hurry, lack of common sense, improper equipment, improper care and use of equipment, procrastination, false confidence, and lack of knowledge, states the Council.

The objective of National Farm Safety Week is to establish safety in farm living. Farm safety activities aim at developing the attitudes, customs and environment for safe living for every member of the family every day in the year. In the vital contest of education vs. accidents, the score should be Safety Education 100 percent, Accidents - zero, the Council states.

Obviously most, if not all, farm accidents can be prevented. It is a fact that in states where good safety committees with well planned, active programs are in existence, accident rates have been reduced. National Farm Safety Week has been an important factor in bringing about this reduction.

and each year the effectiveness of this week-long campaign becomes more and more apparent, the Council adds.

ANOTHER PIONEER PASSES

Another pioneer of Trickham passed away in her sleep. Fun-eral services were held here on Tuesday afternoon, June 30, 1959, for Mrs. Annie See of San-ta Anna, age 72 years. She is survived by one son, Dawson See of Santa Anna and one daughter, Mrs. H. B. "Ila" Sav-age of Alvin, Texas, and two grandsons, Jim See of Santa Anna and Regimold Owen Jr., of Alvin.

Her husband, Jim See, pre-ceeded her in death in 1928.

She was born and reared here the daughter of the late Mr. and Mrs. John Wesley Dockery, who came here in the early 80's. They were members of the Methodist Church. Annie play-ed the organ for church ser-vices and when her mother knew she must pass away, af-ter a long illness, she asked An-nie to roll the family organ in her bedroom, play and sing "Jesus Lover of My Soul" and several other numbers, and soon she was gone.

So closes the history of the Dockery family, John, Dave, Annie and Frank. Memories of the family are precious.

A friend, Mrs. Beula Kingston.
