

For the past several months it has not been possible for us to write a column we think would be of general interest to the community as a whole. However, we have been thinking about it, and now hope we will have time to write one each week.

Our plans are to make this a column that will be taken from the large amount of mail that goes across our desk each week. The column will contain some local happenings - some fun - some thought provoking ideas - some politics - some discussions of state, national and international events - and just about any other subject your editor happens to come across that we think will be of interest in general.

First we would like to say we are proud of our football teams. This time of the year most everyone's fancy turns to football, and ours is no different. We like to see good, clean football - regardless of whether our team wins or loses. We think we have one of the best teams in the making Santa Anna has had in a number of years. Your support of the team will mean a lot to the boys and the coaches.

A star-studded cast will be featured at the annual Texas Prison System Rodeo, which will be held in Huntsville each Sunday in October. A large number of convicts participate in the rodeo events, and some top flight entertainers will also make personal appearances at each performance. Some already scheduled are: Big Jim Arness of "Gunsmoke" fame; Dale Robertson of "Tales of Wells Fargo" fame; Tommy Sands, singing sensation; and a number of others. There are plenty of good seats, priced at \$2.40 and \$4.40, and may be obtained by writing the Rodeo Ticket Office, Huntsville, Texas, enclosing a check or money order.

The man who lives by the golden rule today never has to apologize for his actions tomorrow.

During the summer months a lot of daily newspaper space has been used publishing activities of gangs in New York City. Most of these gangs are made up of teen-age boys and girls that have nothing better to do than to fight among themselves, and attack other people for no apparent reason. So far as we know, we do not have any gangs in Santa Anna, but there is quite a bit of juvenile activity in this area. We would like to urge parents and guardians to be in closer contact with the younger generation, know what they are doing and where they are going.

Those of us who are content to be just average owe little to others, except a debt of gratitude to those who help keep the average down.

Some means of entertainment should be furnished for the younger set, but it is hard to do in the smaller towns. With the advent of television, most small towns soon lost about the only means of local entertainment they had for younger sets, and that was the neighborhood theatres. Of course, we have them in nearby towns, which is about the only form of entertainment for the youngsters. Every town needs a youth center, and we would be glad to help sponsor one here.

Our Senators seem to be rather out-of-sorts with President Eisenhower for his veto of the Public Works Appropriation Bill, and the failure of the lower House to override his veto. On the other hand, our Representative, Congressman O. C. Fisher, seems to be pleased with the veto and the fact that it was not passed over the veto. Fisher realizes the need for a reasonable bill that will meet essential needs, but is not willing to go along with some of the more unreasonable ideas expressed by some Senators and Congressmen. We feel more people should stay in closer contact with the representatives in Washington, and urge them to curb national spending at every place possible, especially on Foreign Aid. Your editor is of the opinion that most all Foreign Aid could be cut out in a matter of three or four years, and the people of the United States are the only ones who can force it to be done.

National and State taxes continue to rise each year. The only way they will ever be cut is for citizens of the nation to quit demanding so many services

First Bale of Cotton Brings Good Premium

The First Bale of 1959 Cotton for Santa Anna was brought in last Friday by D. E. (Jack) Amarine, who lives east of town on the Mrs. Burgess Weaver farm. The bale was ginned by the Santa Anna Co-op Gin and weighed 502 pounds. The premium made up by the Community Chamber of Commerce from the local merchants amounted to \$102.20. The bale was purchased by the gin at 35 cents, which is 6 cents over the market. Total premium from the gin, including the ginning and purchase of the seed amounted to \$64.00, bringing the total premium to \$166.20.

O. C. Fisher Replies To Letter From Labor Leader

Early this week we received a letter from Congressman O. C. Fisher, U. S. Representative of the 21st District, giving us a copy of the letter he sent James P. Carey, President of the International Union of Electrical, Radio and Machine Workers. The letter was in reply to a letter received by Mr. Fisher threatening him with defeat for his vote for approval of the Landrum-Griffin Labor Bill. Carey said in his letter in part: "We wish to assure you that we shall do all in our power to prove to the working men and women in your district that you have cast your lot against them and they should therefore take appropriate action at the ballot box."

Mr. Fisher's reply states: Dear Mr. Carey: It is noted in your letter to me dated August 18 that you have joined Jimmy Hoffa in opposing the House-approved Landrum-Griffin bill against labor union racketeering.

In your letter you state that the Chamber of Commerce and the NAM exercised "pressure" on Members of Congress. As you well know, this is an old stereotyped charge that has been used a thousand times by special interests against progressive labor legislation. You may be interested in knowing that at least 99 percent of the mail I have received on behalf of the Landrum-Griffin bill (and I have received a lot), came to me spontaneously from the rank-and-file of good American taxpaying citizens, and on their behalf I must resent your insinuations as to their motives. In fact, Mr. Carey, I have received only one letter that contained threats and intimidation - and that came from you.

As you know if you have read it, the Landrum-Griffin anti-racketeering bill contains nothing that will interfere with legitimate law-abiding activities of labor unions, although it will no doubt cramp the style of certain irresponsible labor leaders who have wormed their way into positions of leadership in unions.

You and Mr. Hoffa are making a serious mistake if you think for one moment that the working people of America condone the practices which the Landrum-Griffin bill will help curb.

Yours very truly, O. C. FISHER

from the government, and then demand that taxes be cut. If each person realized the amount of money he was paying in taxes each year, we do not think it would be long before there would be such an uproar over the nation that something would have to be done to curb all non-essential spending. Practically everything you buy has from a small percentage of the actual cost, to a very large percentage of taxes included that it is almost unreasonable to believe. The taxes are just included in the cost of the item, and you do not realize it as you make your daily purchases. Then, at the end of the year comes the Federal Income Tax, along with Social Security, that takes a big portion of anything you might have managed to save through the year. It is up to you, individually and collectively, to get something done about it. You are the only ones who can do it.

More Streets Being Prepared For Paving

Several more streets are in the process of being prepared for paving on the north side of town. Streets under construction are on Avenue A from North 2nd Street to the corner of the old D. J. Johnson home; North 1st Street from Avenue B to the Johnson Canal; North 3rd Street between Avenue A and Avenue B.

All this work is being supervised by the City of Santa Anna. These streets mentioned above will not be completed this year. They will have the curb and gutter completed and all the base and fill completed, and will be ready for putting the black top on in the spring. It is hoped that a number of other streets in town can be paved at the time these streets are finished.

Jaycees Purchase New Electric Scoreboard

The Santa Anna Junior Chamber of Commerce has taken the project of purchasing an electric scoreboard and timer for the new Santa Anna Football Stadium. They are sponsoring the football program for all the home games and hope to make enough money in three years time to pay for the equipment.

The scoreboard and timer were ordered last week. It is hoped all of it will be installed and ready to operate at the next home game, which will be with Bronte Friday, Sept. 25. Cost of the equipment will be about \$1,600. Plans are to clear about \$800 on the football programs this year. They will also sponsor the program for the next two years. If you attended the game Friday night and purchased a program, you were no doubt aware of the fine effort put forth by the Jaycees on this program. Similar programs will be used throughout the season. They will sell for 10 cents at each game. Your purchase of a program will help underwrite the expenses necessary for the electric scoreboard and timer.

\$560 Remains To Be Paid For New Band Uniforms

Only \$560 remains to be raised to complete the payment on the new uniforms for the Santa Anna High School Senior Band. The uniforms cost a total of \$4,200 and were used the first time the past Friday night at the ball game. Latest contributions coming in were from the Hosch Brothers and Mr. and Mrs. Arthur Turner. The Santa Anna PTA bought a complete uniform.

Winner of the Band Boosters Hope Chest was "Red" Durham of Comanche. His name was called during the half-time activities at the Friday ball game. There will be a meeting of the Band Boosters Organization at 7:30 p. m. Monday at the Band Hall. Election of officers for the coming year will be considered. All members of the organization are invited to be present.

JESS GRIFFITH'S IN AUTO ACCIDENT

Mr. and Mrs. Jess Griffith and Mr. and Mrs. Allen Woodard of Coleman were on their way to Lubbock to spend the weekend, when just on the outskirts of Sweetwater a 14-year-old boy delivering papers stopped his car on the highway right in front of them. The group were in the Woodard car, and they collided into the rear of the stopped car.

No one was seriously injured, but the Woodard car was badly damaged. They had a wrecker to pull the car back to Coleman. They did not go on to Lubbock.

Visitors in the W. E. Vanderford home Saturday evening were: Mrs. Lucille Wylie, Mr. and Mrs. C. W. Stephenson and Mr. and Mrs. W. P. Aldridge of Santa Anna; Mrs. Eva Conley of Temple; Mr. and Mrs. W. A. Pritchard of Southland. The Pritchards returned home Sunday and the Vanderfords went with them for a visit.

Jr. Mountaineers Take First Game 32-0 Tuesday Night

The Junior Mountaineers started the football season off just as they have for the past several years, Tuesday night, by winning the first game. They won over the Rising Star Junior Wildcats by a 32-0 score.

Coach A. D. Donham said the boys played an excellent defensive game, but were not as good as he expected on offense. The boys were evenly matched in weight and size, and it was a good game. The first TD came in the first period when the local boys returned a punt about 60 yards. Another TD was made in the second period on power plays. The boys scored twice in the final period on power plays. They made all four extra points.

Coach Donham said the boys made lots of mistakes, which was natural in that it was the first game. They completed several passes, but most of the yardage was made on the ground.

Next week the Juniors will entertain the May Tigers on the local field. The game will be on Tuesday night beginning at 7:30. Those who have season tickets have reserved seats, and your admission ticket is in your book of tickets. These boys need your support. Be there.

Workshop for Dist. 16 To Be Held In Brownwood Monday

A Workshop for all women of District 16, Baptist Convention, will be held in Brownwood at 9:30 a. m. Monday at the Coggin Avenue Baptist Church. There will be a number of other workshops over the area, but the one in Brownwood will be the nearest one to Santa Anna.

All ladies of the W.M.U. are urged to attend the conference. Women who are especially interested and girls between the ages of 16 and 24 are urged to attend the YWA conference. State directors who will be present for the conference are Miss Eula Mae Henderson and Mrs. Lon Smith. Each lady is asked to bring a sack lunch. The host church will furnish drinks.

Grass Fire Does Damage Sunday

A grass fire on the old Burk place east of town Sunday evening did considerable damage to about 150 acres of land. The fire was fought by the Santa Anna, Coleman and Brownwood fire departments from 6 p. m. to 2 a. m.

The place is owned by a Dr. Brewer of Brownwood. A bulldozer was carried out to help bring the fire under control. At first, Walter Holt started to send out a maintainer, but it was impossible for the county maintainer to get in the pasture and cut a fire break because of the heavy timber and undergrowth. The bulldozer was authorized by the doctor and Joe Swindell took his equipment out to cut the fire break.

The county truck from Coleman was used to fight the fire. The Santa Anna and Brownwood trucks were used to contain the fire. Cooperation was received from the Highway Patrol and the Coleman Police Department for Radio communication.

About 12 Santa Anna firemen were on the scene most of the time. Loss was estimated at from \$2,000 to \$3,000.

Army Mobile Unit To Be In Coleman Friday, Sept. 11th

Area residents are invited to visit the Fourth U. S. Army mobile exhibit which will be at the intersection of College and Commercial, Coleman, on Friday, Sept. 11th for public viewing.

Feature displays include informative and unique arrangements depicting various Army activities and career fields. There is no charge for admission.

Mr. and Mrs. Roy Richardson of Artesia, New Mexico, left Tuesday morning for their home after visiting with friends and relatives in Santa Anna, Rockwood and Brownwood, over the Labor Day weekend.

Lions Club Soap Sale Is Very Successful Event

Last week the Santa Anna Lions Club sold a lot of soap to the citizens of Santa Anna. On Thursday afternoon and Saturday afternoon all the soap the club ordered was sold.

Cost of the soap was \$200 and it was sold for \$400, making a profit to the club of \$200. This money will go into the Lions Club Activity fund, and will be used on the various projects sponsored throughout the year by the club.

The club voted last year to have their Light Bulb Sale one year, then a soap sale the following year. However, at the meeting, this week it appears that the results were so good that likely the club will sponsor the soap sale each year, and the Light Bulb Sale about every two years.

The club wishes to express their appreciation to all who helped make the sale a big success by purchasing the soap.

Mountaineers Go To Albany Friday For Second Game

The second game in the series of non-conference football games for the Mountaineers will be played at Lion Stadium in Albany, Friday evening, Sept. 11. Game time is 8:00 p. m. It is about 75 miles to Albany. The most direct route there is to take Highway 283 north out of Coleman, through the edge of Baird and on north to Albany.

The Mountaineers lost the first game Friday night to Comanche by a 35-6 score, which does not in any sense of the word indicate the kind of game the local youths played. Comanche is a Class AA school, and has most of the team from last year as returning lettermen. The Mountaineers have only four returning lettermen coming out this year, and one of them, Byrl Fellers, was not suited out for the game. Fellers is the only two-year letterman on the Santa Anna squad.

Fellers suffered a badly sprained right wrist in practice on Tuesday of last week. He seems to be progressing nicely, and is expected to be back in the line-up for the Friday night game.

There was no injuries suffered in the Friday game. McCullough was shaken up, but left the field on his own power, and was alright after the game.

Results of games with teams participating that the Mountaineers will play for the remainder of the season, were as follows:

- Albany 12 - Olney 33
- Menard 16 - Llano 13
- Bronte 23 - Robert Lee 8
- Cross Plains 20 - Baird 24
- Bangs 42 - Cherokee 12
- Mason 28 - Fredericksburg 8
- Goldthwaite 18 - Hamilton 34
- Burnet 24 - Del Valle 0

It is hoped that a large number of fans will travel with the Mountaineers to Albany Friday night. Your support means a lot to the boys.

Band Presents New Uniforms

The Santa Anna Mountaineer Band presented their new black and gold uniforms during the half-time activities at the Santa Anna-Comanche football game Friday night. The band was in very good form and went through their drills at a nice tempo. The white shoes and white topped hats accented every move of each individual.

Not only did they look good, but they played their music real well. Director James Mallow said this is undoubtedly the finest band we have had since he came here four years ago. Mr. Mallow said spirit and team work is necessary to have a good band, just as it is to have a good football team. The students have responded well and worked hard these past few weeks.

Friday night the band will travel to Albany, where they will present a half-time show. They plan to leave Santa Anna around 5:00 p. m.

Mrs. May Cook and Mrs. George Gould of Talpa visited with Mrs. A. Holmians last Wednesday, enroute to Brownwood.

Fire Department Asks Cooperation On Grass Fires

Cooperation of every person in the Santa Anna area is requested by the Santa Anna Fire Department in helping to control grass and brush fires. Bill Griffin, Fire Chief, said we have a greater threat this year than last year, when a large number of fires were fought by the local department.

Every place that has any amount of growth on it is a fire hazard at this time. The City of Santa Anna and the Fire Department, urges everyone who has lots with heavy growth on them to plow them under, or get the growth off some other way. Griffin said that every place that is plowed under, it just helps that much more by forming a fire break.

Griffin also requested that anyone seeing a grass fire that may be unattended, to call the fire department immediately. Anyone who might be attempting to burn off a lot is requested to call the fire department and request a truck to standby at your place.

Merchants Plan 1959 Christmas Program

The Santa Anna merchants met on Wednesday afternoon of last week and voted to have the same kind of Fall and Christmas Program as they sponsored last year. The program will get underway on October 10 with a drawing for \$25.00 in merchandise coupons.

Merchants will begin giving coupons about October 1. There will be 12 drawings for \$25.00 in merchandise coupons. At the first 11 drawings only one name will be called in order for that person to receive the coupons; they must be present in person to receive them.

If the person whose name is called is not present, the next week an additional \$25.00 in coupons will be added to the previous week's drawing. Each week the same process will be followed until Christmas Eve, when names will be called until all the money coupons are given away. However, in each case, the person's whose name is called must be present in person.

In another part of the Christmas Program, a large number of prizes will be given away on Christmas Eve. Just what these will be has not been determined as yet, but as they are acquired they will be put on display in the old Variety Store building. Several hundred dollars worth of merchandise will be given to citizens during the 12-week period.

Anything you do not understand, your local merchants will be glad to explain to you.

Civil Defense Book Give New Building Plans For Shelter

Austin — A new 30-page civil defense booklet, "The Family Fallout Shelter," gives detailed building plans for five basic shelters.

It may be obtained without cost by writing the State Civil Defense Office, Capitol Station, Austin.

James H. Garner, acting state coordinator of civil defense, pointed out that numerous recent studies have underscored the importance of fallout shelters, even in the remotest rural areas.

Radiation, called "the silent killer," cannot be seen, felt, tasted or smelled. But a nuclear attack on just the critical military targets in this country could send fallout over almost the entire country.

Some studies estimate an adequate system of shelters could save as much as three-fourths of the population.

Cost to each family would, in some cases, be hardly more than early television sets cost when millions of families began installing this new entertainment in their house.

A do-it-yourself basement shelter would cost from \$150 to \$200. Aboveground shelters cost more, from \$700 to \$2,000, depending on the elaborateness of the plan and the amount of help hired.

Some saving is usually possible if the shelter is built at the same time as the house.

Read Matthew 16:13-20.

I will build my church, and the gates of hell shall not prevail against it. (Matthew 16:18)

Intoxicated by hatred, the non-Christian element of a big city one night destroyed and robbed eighty Christian churches, besides many shops and houses of Christians.

On the following morning, a group of laborers and the architect, all sad and confused, stood before an uncompleted church building. They were asking themselves of what use would their labor be if this church also would be destroyed one day like the ones that were destroyed the day before!

While they were in this unpleasant and undecided state of mind, a non-Christian religious leader passed by. He saw that they seemed to have lost desire and courage to go on with their work. He said to them: "Build,

YOUR EYES and VISION
By A. L. SPERRY, O.D.

Teacher Knows Before Parent

This is the time of year when parents begin to think pleasant thoughts—and the children not so pleasant thoughts—about the start of a new school year. We won't dwell upon the reasons behind these opposing viewpoints as they are apparent to those concerned.

Along with the parent's thoughts of the return of peace, quiet, and sanity to the household are plans for getting Junior "started off right" in his school year.

Since authorities have estimated that about 85% of an individual's knowledge comes to him via his vision, and since the primary objective of school is to impart knowledge to eager young minds (this thought may be questioned by those eager young minds—but not by the parents) we feel one of the first items of concern should be the status and efficiency of the child's visual apparatus.

There are few statements heard more often in optometric offices than "But Doctor, we didn't know Junior couldn't see any better than that—he never complained!" I had a teenager brought in—finally—who had been seeing double for years and the parents didn't know it because the youngster didn't realize that everyone else didn't see two of everything, too. After all, she reasoned, she had two eyes; if both worked naturally you'd see two objects both the same.

Then there was a teenager who was brought in for examination because in the High School Driver's Training Class

the instructor, using the standard State required drivers license eye chart, found that she had to stand at 10 feet to recognize the size letter a person with normal vision could recognize 200 feet away. Out of curiosity I asked the young lady how in the world she could see the teacher's writing on the chalk board—her answer "Oh, I just always hurry and get a front seat."

We could fill this whole newspaper in newspaper size print with similar stories, and so could any other vision specialist. But they would only serve to illustrate the accuracy of the statements I am about to make, which are: (1) Children who have visual problems frequently don't complain — (2) Teachers usually suspect a visual deficiency exists before the parent does and (3) too often even the teacher, for one reason or another, fails to recognize the problem until middle or upper elementary grades are reached. After all, she's there to teach—diagnosis of physical ailments and deficiencies are to her only an unwanted, but at times necessary delay in efficient classroom procedure. By the time someone wakes up and gets the youngsters in for help who can determine the amount of unnecessary suffering the child has endured or what effect lack of normal vision efficiency has had on a young, impressionable personality.

The best cure for this problem of belated treatment is prevention—and the most effective prevention is to have every child's eyes examined before he starts KINDERGARTEN.

MORRIS E. STRAUGHAN IS DISTINGUISHED STUDENT AT A & M

College Station, Texas, (Sp)—Morris E. Straughan of Rockwood, has been named a Distinguished Student for the 1959 spring semester at Texas A. & M. College.

A Distinguished Student must have been registered for 15 or more hours and must have established a grade point ratio of 2.25 or better with no grade less than "C."

Better stop worrying about what your son will do when he grows up—and see what he's doing now.

Temptation may be strong, but it seldom overtakes the man who runs from it.

If this citation is not served within ninety days after the date of issuance, it shall be returned unserved.

The officer executing this writ shall promptly serve the same according to requirements of law, and the mandates hereof, and make due return as the law directs. Issued and given under my hand and the seal of said court at Coleman, Texas, this 13th day of August A. D. 1959. Attest: G. A. Hensely, Clerk, District Court, Coleman County, Texas (SEAL) 34-37c.

Our WASHINGTON Letter

By Congressman O. C. FISHER

CONGRESS is about to close shop. And it's a good thing. Good for the Congress and good for the country. After 8 months of wrangling, maneuvering and legislating, you see signs of irritation and stringy nerves.

The shenanigans of Senator Wayne Morse cannot be explained that easily, however. When Senator Johnson the other day obtained unanimous consent of the Senate to debate the over-debated housing bill that had been vetoed, before voting on the issue of overriding the veto, Morse got his feelings hurt real bad because he was not notified in advance that unanimous consent would be requested. He was not there, and when he found out about it he declared "parliamentary war" on the Senate in general and the Senate leadership in particular.

Anything for headlines. Now Morse is using every dilly-dally tactic in the books to delay the business of the Senate, and therefore delay the recess if he can at least that is the view of observers.

SPEAKING OF THE veto of the housing bill, it will be recalled that Congress has approved two omnibus housing bills. The President objected to the first one because it was very inflationary with many nonessential and expensive items in it. Then Congress passed another one, almost equally objectionable, and he vetoed it. It begins to look like some of the lawmakers would rather have a veto than a reasonable bill to meet essential needs of FHA mortgage insurance and other necessary items.

But surely the Congress will not quit without meeting its obligation to the country in that respect. The Senate upheld the second veto.

The President also vetoed the public works appropriation because of his objection to 67 new starts for which money was provided — projects which had not been cleared by The Bureau of the Budget as is ordinarily required. In defiance of the President, and inviting another veto, the House committee then approved a second one without meeting any of the President's objections. And so it goes. At the time this is written a lot remains to be done in order to quit before the Soviet Dictator gets to town. And the leadership is determined to clear out before Nikita arrives on the 15th.

Social Security Workers Urged To Check On Accounts

A question the Social Security Administration would like to hear asked more often is, "Have my earnings been properly credited to my social security account?"

Most people know something about their rights and benefits under social security, but many do not know they have certain obligations, too. For example, have you checked your social security record in recent years? Do you know whether all your earnings have been correctly credited to your account? If your answer is "No" to these questions, you should take action now. Social security records should be checked at least once every three years, and the sooner a worker checks the easier it is to correct any errors in his earnings records. This advice applies to everyone, and especially to household workers who may work for several employers at the same time, or who may change jobs frequently, or who may not work steadily.

It's good business to verify that your earnings have been properly credited to your account, just as you make sure you receive credit for your bank deposits and insurance premiums.

Remember that your social security retirement, disability, and survivors benefits will be based on your social security account. Therefore, it's good business to check the record of your earnings. It's an easy thing to do, too. Just write the Social Security Office, Brownwood, Texas, and ask for OAR-7004, Wage Statement Request. When your statement comes back in the mail, check it carefully against your own records. If you believe that there are any errors — that all of the earnings that should have been credited to your account are not shown — get in touch with the Social Security Office.

New Licenses Required To Hunt and Fish

Austin — "Don't ruin your hunt by overlooking the game laws," warned the Director of Law Enforcement, Texas Game and Fish Commission. "Before taking your gun from the rack, be sure you know all laws concerning game in your particular area."

"Old hunting licenses expired August 31. Be sure to have your new licenses when you go out to hunt. Check your gun for a plug. Only three shells, including one in the chamber are allowed in it by law."

"Don't hunt on a piece of property unless you have permission from the owner or person in charge of it. Don't fire near a home or in a direction that might endanger some person, house, or even livestock."

"Hunting from a public road is prohibited by law and it's illegal to shoot from a moving vehicle. These laws that have been in existence for quite a long time," said the director.

He then reminded hunters that many of the birds taken during the hunting season will have tags on their legs. "These tags should be returned to the Game and Fish Commission with information telling when and where the bird was killed." He then warned hunters not to forget the changes in the waterfowl regulations. "If they can't be found in print," he said, "check with the warden in your area; he'll be more than happy to help you."

CORRECTION

Last week in the Shields News, we got a name mixed up. We are happy to make the correction, and hope it will not happen again.

The error was stated thusly: Mr. and Mrs. Varrell McCain and daughter of Odessa visited last week with his mother, Mrs. Ema D. Blackwell. It should have read: Mr. and Mrs. Varrell McCain and daughter of Odessa visited last week with his mother, Mrs. Ema D. McCain.

QUESTIONS AND ANSWERS

Q. Would our social security checks be stopped if we go to Germany to visit for a year?

A. Social security checks can be mailed beneficiaries in most countries of the world except "Iron Curtain" countries. Some aliens are not eligible to receive social security while outside the U. S., and should check with their social security office if leaving the country. Social security checks can only be delivered on time if beneficiaries notify the Social Security Administration of address changes promptly.

Q. I have heard many conflicting stories about the amount a person can earn and still get social security benefits. Are any publications available explaining this?

A. Yes. You should phone, write, or visit your nearest social security office. They will gladly furnish you with information and a pamphlet.

Mrs. K. R. Burson of Dallas visited recently with her grandmother, Mrs. A. Holmans.

Mr. and Mrs. W. S. Holmans and Steve, of Corpus Christi, and Mr. and Mrs. J. G. Holmans and son, Duane, of Aransas Pass, visited with Mrs. A. Holmans, Monday morning. The group had visited relatives at Burkett and were returning to their homes.

Lowell Pembroke, Arlen Allen, Jackie Dillingham, Joe Riley, Buddy Wylie and Eugene White left Monday at 2:00 p. m. in a group from the Jim Riley home. All will be students at McMurry College in Abilene this fall. Other local students at McMurry are Melvin Avants, Chrystene Carpenter and Maxie Lee Price.

Mr. and Mrs. Hardy Blue spent the Labor Day weekend in Snyder with their daughter, Mr. and Mrs. Oran Henderson and Orabeth.

Mr. and Mrs. Walter Holt visited in Brady, Sunday with Mr. and Mrs. Billy Joe Robinett and family.

Lt. and Mrs. J. A. Spillman spent the Labor Day holidays with her parents, Mr. and Mrs. M. L. Guthrie, Sr.

Mr. and Mrs. John Patterson and Pat visited in Haskell over the weekend with Mr. and Mrs. T. F. Raney. Mrs. Patterson remained for a longer visit.

Mr. and Mrs. R. V. Estes of Coleman and Gale Sikes of Midland visited Monday with Mr. and Mrs. Curtis Kile. Gale remained to Wednesday.

Mr. and Mrs. Curtis Kile visited Mr. and Mrs. A. A. Adams in Brady, Sunday.

ATTENTION, ALL BOAT OWNERS

State Highway Department has announced that registration and licensing of boats under the new water safety act will begin next month.

Boat owners will have until March 1, 1960, to get their certificates and identification numbers.

Forms now are being printed and will be distributed to boat dealers, county offices, Highway Department Offices and

other public offices.

Cost of the licenses will vary with the size of the craft. Here is the scale: Boats under 16 feet in length, \$1; 16 to 26 feet, \$5; 26 to 40 feet, \$10; 40 feet or more, \$12.50.

Boats, regardless of length, if equipped with a 10 hp motor or less, will be exempt from the tax as well as the numbering provision of the law.

The Highway Department will deal with only the registration phase of the new law and not with safety enforcement.

The annual Parish reunion was held at the Group Hall in the State Park at Lake Brownwood, Aug. 28-30. There were 63 attending. All enjoyed showing of pictures, music, stunts and skits on Saturday night. Mr. and Mrs. Ray Parish were re-elected as president and secretary-treasurer for the 1959 reunion.

P-TA Has First Meeting of Year

The Santa Anna Parent-Teacher Association met Wednesday, Sept. 1, at the Elementary school auditorium for the first meeting of the year. Mrs. A. D. Donham, Jr., installed the new officers, who are: Mrs. Ray Swindell, President; Mrs. Pat Hosch, Vice-President; Mrs. Mattie Beth Davenport, Secretary; and Mrs. Nick Buse, Treasurer. During the business meeting the group voted to have open house at the school in October and the monthly business meeting at that time. The P-TA also voted to buy one band uniform for the High School Band, and give a \$5.00 award to the class with the highest percentage of parents enrolled in the P-TA. Mr. James A. Harris, Elementary School Principal, and Superintendent Cullen Perry expressed their appreciation for the new intercommunication system which the P-TA purchased for the Elementary school and recently installed. At the meeting Wednesday, Mrs. Myrtle Taylor's first grade room won the attendance award.

Christi, Texas, and one family registered from Los Angeles, Calif. Eighteen families brought bedding and enjoyed sleeping on the ground. Others went to motels or returned to their homes on Saturday night. All were back on Sunday morning for breakfast. A short period of worship service and singing was enjoyed at 10:30 a. m. The noon meal consisted of barbecue, beans, potatoes, vegetable salad, ice tea and cake. Everyone enjoyed visiting. The reunion broke up about 4 p. m.

Mountaineers Take 35-6 Loss Fri. Night

The Mountaineers dropped their first game of the season to the Comanche Indians Friday night on the local field, 35-6. Half-time score was 6-0 for the Mountaineers. The first half of the game was all in favor of the Mountaineers, the second half was all for the Indians.

The young Mountaineers are light and do not have any experience, but spirit was good and the local lads really showed what they were made of during the first half. There was excellent line play, the quarterback was good, and the backfield work was well maneuvered. The boys were just not able to stand up to the pounding given them by the much heavier Indians, and as time wore on in the game, they had to yield more and more to them.

Comanche failed to make a first down in the first quarter and they had control of the ball three times. The Mountaineers had the ball three times, made 3 first downs and moved the ball from their 12 yard line to the Indian 2-yard line, but failed to score when an attempted pass did not materialize.

The Mountaineers got their only score early in the second period. The boys began their drive on the Indian 41-yard line and drove to the 4 when a bruising tackle caused a fumble near the end zone. The ball was recovered in the end zone by Milton Drake, left end, for the TD. In the second period, the Mountaineers made 5 first downs, Comanche made 4.

Near the end of the first half, the Mountaineers were trying to get into scoring position again by passing, and had one intercepted. Three plays later the Indians fumbled and the Mountaineers recovered. On the last play of the quarter, a long pass was attempted and the Indians intercepted again and almost managed to score from their 46-yard line. The runner was knocked out of bounds on the Santa Anna 2-yard line.

In the third period the Indians took the kickoff and drove past mid-field then punted to the Mountaineer 4-yard line. The local boys punted out and on the second play Comanche scored their first TD, and kicked the extra point. A short

time later the Indians scored again, completing a 41-yard drive after recovering a Mountaineers fumble. Near the end of the period the Mountaineers had a punt blocked and lost 8 yards. The Indians took the ball on the Santa Anna 14-yard line and three plays later scored from the 3-yard line.

The Mountaineers took the kick-off and were penalized back to their 16-yard line. Failing to make the first down, the Mountaineers punted to their

49-yard line. The Indians drove to the Santa Anna 21-yard line, fumbled and Santa Anna recovered. On the next play Santa Anna fumbled and Comanche recovered. A 15-yard penalty put the Indians on the Santa Anna 29, then a loss of 8 yards put them back on the Santa Anna 37. Their heavy fullback went all the way for the TD, then ran the extra point over. Following the kick-off, the Mountaineers failed to gain and punted. The Indians fumbled with Santa

Anna recovering. Failing to gain again, the Mountaineers punted to their 22-yard line and the Comanche safety man took the pighide and went all the way.

For the ages and weights of the boys playing, the Mountaineers played a jam-up good game. All the town can really be proud of the showing they made. I do not think there was a person at the game that was not surprised at the score at half-time, or for that matter at the end of the game. These boys

are going to win some games this year, and are going to make others know they are tough to win over.

CATTLE TRAITS CAN BE DETERMINED

Progeny and performance testing of beef cattle is rapidly coming of age and has already progressed beyond the experimental state of the application of research findings in breeders' herds.

Research findings by a number of colleges have shown conclusively that cattle differ in their ability to make rapid gains, to use feed efficiently and to develop desirable carcasses, and that these differences are heritable and transmissible from parent to offspring.

Studies also prove that rate and efficiency of gain are rather highly correlated and brood cow performance is important to the total economy of beef production and is a repeatable trait.

In establishing an on-the-farm testing program, breeders must first decide what traits are to be measured and included in the selection program. Traits selected probably will be determined by the ease with which they can be measured, their heritability estimates and their economic value.

Important points include breeding growth rate, weaning grade of type score, regularity of production of the dam, milking and mothering ability of the dam, daily gains, feed efficiency, and grade of the end product.

But performance testing will not obtain the status it should in the cattle industry until a unified national program is established for all state organizations. Performance Registry International and the national breed associations.

Experts in the cattle industry

predict the steer of tomorrow will be reasonably wide over the top, deep bodied and will have more length than people have looked for in recent years.

If the meaty steer has these characteristics, he also will be a fast doing, healthy, efficient steer for both cow and calf man and the steer feeder. This will result in a product the packer will enjoy processing because it will suit the consumer's demand.

TAX-MAN SAM SEZ:

A lot of people feel that the tax laws are not fair. Somehow or other this feeling seems highest around income tax paying time when you have to shell out those dollars you may have saved for something else.

Internal Revenue employees have a very serious job in trying to collect all the tax each taxpayer owes as well as helping taxpayers to pay no more than they owe. These people are trained to determine how much you owe under a fair interpretation of the law as passed by Congress. They collect the dollars belonging to Uncle Sam and try to make sure that you keep the dollars that belong to you. All of us can hope that they do a good job. It makes the tax law fairer for all.
