The Steel Strike Is Settled! Good or bad, the labor union got its way and the average citizen of the United States will have to suffer through it. Frankly, we were disappointed in management giving in to the union and other pressure groups, to let them have their way.

As we understand it, President Eisenhower ordered Vice-President Nixon and Secretary of Labor Mitchell to get the strike settled before Congress convenes, and to hold out completely for labor's side of the dispute. Apparently, this is exactly what happened.

The old story, "So goes steel, so goes the nation" is still just as true today as it has ever been. It will continue to be true as long as steel is used in every item manufactured and retailed throughout the nation. The people who have their money invested in the steel industry are entitled to a just profit on their product, the same as any other manufacturer is. It is not our opinion that labor should be in a position to tell management how to operate an industry, and that is what management was holding out for.

However, the President of the United States gave instructions to management to give in to labor, raise their prices enough to take care of the wage increases, and (as we see it) let the public be damned. This is the same kind of cycle we have been through a dozen or more times since the end of World War II. Big labor unions say their members must have a raise in salary. They strike and management gives in to them. Management must raise the price of their product to take care of the increased cost of production. The consumer then must pay more for any product he purchases. Thus, in all other lines of business wages must go up, the same as the price of other products, to keep meeting the continued cost of rising prices, due primarily to the rise in cost of the basic commodity (steel).

Where will this end? We were in hopes steel management would not give in to the demands of labor, as they are well aware of what is happening to our nation. Within a few months there will be more wage increases or strikes in other basic industries throughout the United States. There is little that can be done now, except give in to the union.

There is no doubt but what the move by the President was strictly political. He did not want the Democratic controlled Congress to have the opportunity of enacting labor legislation that would bring the power of labor under control. And, at the same time, the President was looking forward to the labor vote in this election year. So he took labor's side of the question and said settle it their way or else...

So what can we do. As citizens of this country, every person who can scribble a line, should write the President and inform him they were displeased with the position he took in the strike.

It seems to us that our so called leaders are doing everything possible to do away with the small towns. Every cycle of wage increases takes more and more small businesses out of operation, and that includes the farmer and rancher. They must go somewhere to live, so they seek a lively hood in the city. Some find jobs they can make a living at, others work part time and exist the rest of the time on their unemployment compensation.

Watch for it! Very shortly you will begin to see slight increases in almost everything you purchase. Little items will advance one or two cents, larger items will advance in accordance with their prices today. Heavy steel equipment will advance several dollars, which in turn will cause many other items to advance in price a little more. It is a vicious cycle, and the little man is the one that is hit the hardest—and most of us are considered as little men.

Mr. and Mrs. Bill Mulroy Jr., and children, Richie and Mark, of Birmingham, Ala., visited last week with his parents, Mr. and Mrs. Mulroy Sr. The Senior Mulroys spent Christmas in Houston with their daughter and family. Mr. and Mrs. Wayne Horton and children, after returning home from Houston, Mrs. Mulroy was admitted to the local hospital with strep throat, but has been released and returned to her job.

Mrs. Jane Shore of Houston, is visiting with relatives and friends in Santa Anna.

C. Bible and Milton Drake; Sophomores are Dayton Jackson, Denny Densman, Harold Walker and John Dockery; Freshmen are Randy Brown, Lynn Dockery, Pete Simmons, Tommy Stewardson and John Dillingham. The three managers are Raymond Clark, Harry Walker and Pete Wylie.

J. P. Court Collects \$1,131 In Dec. Fines

Justice of the Peace W. Earl Trick Sr. reports a total of \$1,131 in fines has been collected through his court during the month of December. The largest number of cases involved speeding drivers.

A breakdown of the cases shows 34 drivers were fined for speeding; 5 were fined for No Operator's License; 3 for passing in a no passing zone; 3 for failure to appear; 3 for disturbing the peace. The other cases involved trucks that were over length and over weight and other violations of the Railroad Commission laws governing them.

Miss Mollie Lowe Buried Friday

Funeral services for Miss Mollie Lowe were held in the Hosch Funeral Home Chapel at 10:00 a. m. Friday, January 1. Miss Lowe died in the Overall Memorial Hospital in Coleman at 12:15 a. m. after an illness of several months. Rev. R. S. Smith of Brownwood, a former pastor of the First Baptist Church, officiated.

Miss Mollie was a pioneer resident of this area. She was born in Bell County December 3, 1876 and came here 76 years ago. She was a member of the Baptist Church.

Pallbearers were, Luther McCrary, O. L. Cheaney, Homer Goodgion, J. L. Boggus, Albert Dean and Clarence Brinson. Survivors include two sisters, Mrs. Roxie Bartholomew and Mrs. Victoria Cox of Brownwood; and four brothers, Clinton Lowe of Santa Anna, H. L. Lowe of Lubbock, Sam Lowe of Brookessmith and Lewis Lowe of El Paso.

Interment was in the Santa Anna Cemetery under the direction of Hosch Funeral Home.

Tucker Newman Reports Annual Rain Fall

R. L. (Tucker) Newman keeps and accurate measurement of the rain fall on his farm southwest of Santa Anna. Each year he gives us a report by the month and the rain he has received. Following is his report for the year 1959.

May	5.40 inch
June	3.90 inch
July	3.30 inch
August	0.60 inch
September	3.90 inch
October	5.35 inch
November	1.35 inch
December	3.50 inch
TOTAL	35.45 inch

Anyone else who keeps a log on the rainfall in your area, we would be glad to publish it.

Mr. R. V. York of San Diego, Calif., visited in the O. V. Rutherford and Pete Rutherford homes over the weekend. He is a nephew of O. V. Rutherford.

Mr. and Mrs. Pete Rutherford and boys visited Sunday afternoon with her parents, Mr. and Mrs. S. F. Tucker, Route One, Coleman.

4 Inches Of Rain This Month

Thus far Santa Anna has received an official total of four inches of rain for the month of January. Almost 3 1/2 inches of that amount fell this week, the remainder falling over the weekend.

The rains have been pretty general all over the state. Most all farm land is saturated with moisture now, and the farmers are looking forward to some warm sunshine now.

At the present time crop prospects for the small grain are the best they have been in 10 years or more.

WCID Election At Trickham To Be Tuesday

The Coleman County Water Control and Improvement District No. 1 will hold an election Tuesday, January 12, in the community building at Trickham, for the election of two directors. Polls will open at 8:00 a. m. and close at 7:00 p. m. All qualified voters in the district are urged to cast their vote for the two men you wish to serve on the board for the next two years.

Terms of Howell Martin and Elmer Cupps expire this year. Both men have said they would serve again if elected. However, no names will be printed on the ballot, and the voter will have to write in the names of the persons they wish to serve.

12 New Students Enroll In Santa Anna Schools

Twelve new students were enrolled in the Santa Anna Public School Monday morning, when the schools resumed operation after the two weeks Christmas holidays.

Eleven of the students were enrolled in the elementary school and one in high school. Two students were lost from the enrollment at the same time.

There were four Tieman students enrolled in the ward school and one in high school, all from Brookessmith; three Diaz children enrolled in the ward school, as well as two Ford children, a Batman child and the new doctor's daughter.

Bill Wristen checked out of school to go to Michigan and Linda Sue Owen checked out of school to get married.

Present enrollment in the ward school is 292 students and the high school enrollment is 136.

Services For Andrew Fowler

Car Stolen, Bank Robbery Attempted

A stolen car and an apparent attempt to rob the Santa Anna National Bank about 10:00 a. m. Wednesday resulted in a Negro man being taken to the Coleman jail.

The Negro man left a suit case on the side walk in front of the tile company store house at the corner of Wallis Avenue and North 2nd St. He walked across the street to the bank and up to one of the windows. Dawson See waited on him. He asked for a check book and with his left hand wrote 3,000 in the place for the amount of the check to be made out for, then wrote "dollars no cents" where the amount is to be written out. He then tossed the check book back to Mr. See, turned and walked out of the bank.

As it happened there was a large crowd of men and women in the bank at the time. Apparent-

J. A. Estes Services To Be Thursday At 3:00

Funeral services for Jacob Andy Estes will be held in the Rockwood Methodist Church at 3:00 p. m. Thursday, January 7. Mr. Estes died in the Brady Hospital at 5:00 a. m. Wednesday. He was 99 years, 6 months and 17 days old at the time of death.

Mr. Estes fell as he was getting up from a chair Sunday, Dec. 27, and broke his hip. He was taken to the Brady Hospital and had been there since. A retired farmer, Mr. Estes was born in Murfreesboro, Tennessee, June 19, 1860. He would have been 100 years old on his birthday.

He came to Texas in 1893 and lived near Waco for two years, then moved to Rockwood in 1895, and has lived there since. He lived on a farm adjoining his home place for about two years, and has lived the remainder of his life on the same farm. He built his home in 1916, and the large house is a landmark in the Rockwood area. Until about four years ago when he suffered a stroke, Mr. Estes was very active, and continued to drive his car.

However, since that time he had stayed close to home, although he was able to get out and walk around some. He usually rested about four hours a day, and listened to his radio a lot.

Mrs. Estes predeceased him in death June 16, 1955. They lived together about 70 years. She was the former Fannie Mae Dunway.

The Rev. Charles Miller and Rev. Ray Elliott will officiate at the services. Mr. Estes had been a member of the Methodist Church since before leaving Tennessee. Burial will be in the Rockwood Cemetery under the direction of Hosch Funeral Home.

Grandsons will be pallbearers. Survivors include five daughters, Mrs. Ora Horseman of Calera, Okla., Mrs. Myrtle Hester of Brownfield, Mrs. Flora Thomas of Midland, Mrs. Josie Hodges of Coleman and Mrs. Edna Alexander of San Angelo, and seven sons, Drury Estes, Matt Estes, Boss Estes, Lefley Estes, all of Rockwood, Sam Estes of Sweetwater, William Estes of Brownwood, and Woodrow Estes of Tulare, Calif. A number of grandchildren and great-grandchildren also survive.

Band Students Selling Chocolate

Band students started a campaign Wednesday to sell 1,200 bars of "World's Finest Chocolate". The purpose of the campaign is to raise money for the uniform fund and other band needs. Each member has been assigned a quota and will sell it door to door. It is a quarter pound of chocolate and sells for 50 cents. On the wrapper is a picture of the Santa Anna Mountaineer Band in their new uniforms. The campaign is hoped to be completed by next Wednesday.

Anyone not being contacted should contact their favorite band student.

Two band students, Sandra Fowler and Carolyn Carpenter will attend the All Region Band tryouts in Abilene Saturday, Jan. 9th. James Mallow, local band director, will be one of the judges for the Clarinets. Students selected for the Band will present a concert for the general public that evening.

ently the man decided he had better not make any attempt to rob the bank. He walked across the street where his suit case was.

Rat Guthrie's 1958 model Mercury was parked there. The man put his suit case in the car, took a shot gun out of the car and laid it on the side walk, got in and drove off toward Brownwood.

But Simmons was called immediately and when he arrived at the bank, he and Mr. Guthrie took out down the Brownwood Highway, after him. Simmons called the Highway Patrol while starting out after the man. Just past the railroad track they saw the Negro turn around and head back into town. They forced him into the parking area at the Modern Way Laundry, he turned around and headed back out the Brownwood Highway. Simmons crowded him off the road near Ranger Park, and had to pull his gun on him to get him to stop. The Negro was hesitant about getting out of the car, but finally did just as Al Chamber arrived on the scene. After some difficulty Chamber got the hand cuffs on him, and they immediately took the Negro to Coleman to jail.

The Negro had a small caliber shot gun with him and possibly a pistol. Questioning was being conducted Wednesday afternoon.

Local Boys Enter Lambs In Odessa Stock Show

Seven local boys took lambs to Odessa early Monday morning to enter them in the fat lamb division of the Sand Hills Show. Boys taking lambs to the show were Les Guthrie and Wade Rehm in the Coleman County 4-H Club group, and Eddie Hartman, John Dillingham, Randy Brown, Somsy Steward and Donny Heiderston from the FFA group. A. D. Pettit, William R. Brown and Jack Dillingham accompanied the boys.

None of the lambs placed in the top 20, which is all that sold at the Odessa show. They only have two classes in the show and both are Fine-Wool. One class is the light weight Fine-Wool, the other is the heavy weight Fine-Wool class. In the heavy class, John Dillingham placed 23 and Randy Brown placed 28. In the pen of 5 lambs the Coleman County 4-H Club placed 4th.

As far as we can learn, this is the first time in the past several years at least one boy from Santa Anna has not placed in the top 20 in this show.

For the next several weeks plans are for Santa Anna boys to enter lambs in shows in Fort Worth, Abilene, Houston, San Antonio, San Angelo and possibly others. A large number of local feeders will enter the Coleman County Show to be held January 17-18-19.

Straight Talk

by Tom Rutherford

Imagine getting your greatest spiritual experience in atheistic Russia! We had just left Moscow's citadel of atheism, fantastically ugly Red Square, where thousands of subservients come daily to worship the incarnation of history's foremost mummies, Vladimir "The Body" Lenin and "good Ol' Joe" Stalin, their carcasses perfectly preserved in their glass showcase in the red marble mausoleum. They're

the only well-dressed people in Moscow — all dressed up and no place to go.

Stalin had pronounced repeatedly: "Lenin is God... The party cannot be neutral toward religion. Anti-religious propaganda is a means by which the complete liquidation of the reactionary clergy must be brought about."

The Russian "God," Lenin, stated: "Religion is a kind of spiritual gin in which the slaves of capital drown their human shape and claims to any decent human life... Marxism is materialism. We deny all morality taken from superhuman or nonclass conceptions... Atheism is an integral part of Marxism... The materialist gives a more important place to materialism and nature, while relegating God and all the philosophical rabble who believe in Him to the sewer and manure heap... Down with religion! Long live Atheism."

Atheism or Starvation

Sunday Schools in Russia are not permitted to exist. All "education" belongs to the state — and so do the children. Six days a week for 40 years the children have been taught atheism in school. It would be inconsistent to let them be taught about God in a Sunday School!

A person can lose his job or be demoted for church attendance. Starting next year young people have to either be confirmed in church or join "youth confirmation" "Communist" groups. If

TENTH ANNUAL PUBLIC SCHOOLS OBSERVANCE PROCLAIMED

TEXAS PUBLIC SCHOOLS WEEK has been proclaimed by Governor Price Daniel for February 28-March 5. Receiving the proclamation for the tenth annual statewide observance is John McKee (right), who has served as State Chairman of the Texas Citizens' Committee for Public Schools Week since the week was inaugurated in 1950. Chief purpose of the observance is to induce more citizens — not only parents but all others — to visit the schools and see for themselves the functioning of our democratic system of education.

they choose the church, they won't be able to get a job when they're old enough to work. Most people under 60 have sold out God for jobs, security, convenience. Or maybe they've simply concluded that co-existence with atheism is better than no existence.

Our tourist guide had informed us that intelligent people don't go to church; that religion, which they refer to in the past tense, is a fairy story. With a straight face, the beguiling guide had told us that churches were closed because the people no longer wanted them open; they had "learned better." In spite of this unsolicited wisdom, we drove from the ornate, atheistic Kremlin to a little out-of-the-way faded stucco Baptist Church on a narrow cobblestone street. The Central Baptist Church, one of the few open for business churches left in Moscow was playing to its usual three-times-a-week standing-room only crowd of about 1,000.

Behind the pulpit glowed a stained-glass window inscribed with "Bog est lyubov (God is love)." It glowed quite differently from the diffused orange-colored light which bathes the carcasses of the enshrined killers on display in Red Square.

Every face in the old sanctuary gaped incredulously as our obviously-American group was

led down the aisle. They grabbed for our hands as we proceeded to our pews which were gladly vacated for our unexpected visit. Their wrinkled old faces looked at us pleadingly. They reached out to touch us almost as one would reach out for the last final caress of one's most-beloved just before the casket is lowered. They were in misery and yet a light shone through the misery. They gripped our hands like frightened children.

A member of our group was unexpectedly called to the pulpit. His voice choked with emotion, he preached a sermon of love and faith, hope and truth. "I believe very firmly in prayer," he said. "It is possible to reach out and tap that unseen power which gives us strength and such an anchor in time of need."

"Be not afraid. Keep this commandment: Love one another. Love all mankind. Truth will endure. Time is on the side of truth." Thus spake Ezra Taft Benson, Mormon Apostle and Secretary of Agriculture.

The Secretary's wife and two beautiful daughters raptly drank in his words, with tears streaming. "God lives, I know that He lives; that Jesus is Christ, the Redeemer of the World, We are eternal beings."

As each sentence was translated for the audience by the Russian minister the women removed their handkerchiefs from their heads and waved them like a mother bidding permanent goodby to her only son. Their heads nodded vigorously as they moaned, "ja, ja, ja!" (yes, yes, yes!).

As their gnarled hands folded in fervent prayer, it made you think of the ancient Christians about to be thrown to the lions. Most were old women. The old can attend church. They have no jobs to lose. They can "afford" to go to church. There were a handful of teenagers, one of whom stood beside me. I wished mightily that we could break the language barrier and talk. A youth with the courage to oppose history's most goddess dictatorship to worship God!

Cynical newspaper correspondents who'd griped about a "command performance" in church with Benson, stood there crying openly.

The Last Believers

These people have what has been described by some bubble-heads as "freedom of religion." It is freedom to live out their last few years without being shot in the back of the neck; freedom to go on existing in a living hell under a forced choice between God and their families. These old souls live by faith alone, unlike the Communist high priests who're backed by the all-powerful state and the firing squad.

The Communist plan is that when these "last believers" die off, religion will die with them. What the atheists don't know is

that God can't be stamped out either by legislated atheism or firing squad. This Methodist back-sider who occasionally grumbles about having to go to church, stood crying unashamedly, throat lumped, and chills running from spine to toes. It was the most heart-rending and most inspiring scene I've ever witnessed.

As we filed out they sang with all their hearts, "God Be With You 'Til We Meet Again." And all knew we never would — on this earth. We also knew that some day, somehow, the greatest force in the world, love of God, will destroy this organized religion of hate.

With heavy hearts we left to rejoin the smug, smart-aleck atheist guides who took us to the church but refused to go in.

This trip with Secretary Benson was unforgettable. It was able to reach many conclusions, including the inscription I want for my tombstone: "I'd rather be here than in Russia."

The Modern
.....
Miracle
of
Electric
Heating
.....

Lady cleaning her house

Let us explain:

This young housewife has stopped dirt dead in its tracks by making sure it never collects in the first place. It's all done through the modern miracle of Electric Heating. Electric Heat is known as the CLEANEST heat. It burns no fuel and smoke, soot, dust swirling through your home. Walls and furniture stay bright, saving

hours of cleaning time every week. You decorate when it strikes your fancy and not because you have to. Sounds good — doesn't it? And doesn't it make sense to have Electric Heat and Electric Cooling help you with your housework 52 weeks a year. It's the cleanest, most comfortable heating and cooling there is today.

West Texas Utilities Company

NEW LOW FLOOR HEATING RATE. The new low rate for floor heat and cool entirely electrically — plus improved construction and insulating techniques — bring Electric Heating and Cooling well within the means of most home buyers. For a detailed brochure or more information about this new low rate contact your Electric Appliance Dealer or a Representative of WTU.

CHECKING ACCOUNT

A Checkbook Answers The Question:

“Where Did That Money Go?”

Every entry in a properly-kept check book shows what the check is paid for, to whom and when. Should this record be questioned, the cancelled check is your receipt.

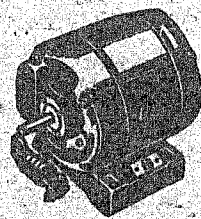

By using checks instead of cash, you can pay your bills by mail — in minutes. And as your signature becomes known, you acquire a “credit personality.”

Musick Discusses New Driver Insurance Law

By J. O. Musick
General Manager
Texas Safety Association, Inc.

Seven days ago Texas motorists began operating their private vehicles under the new Texas Safe Driving Insurance Plan—a plan which is expected to reward 1.3 million insured Texas automobile owners with a savings of \$20-million each year. Furthermore, and maybe more importantly, it is believed by its

proponents that the new plan will have a salutary effect on traffic accidents that is difficult to measure in dollars and cents alone.

How did this plan come about? Why change from the old system? Is it an equitable plan, or does it deal unfairly with many thousands of Texans? Who's going to get rich off of it? These are only a few of the questions posed by statesmen and laymen alike in recent weeks.

To begin with, the plan is not new, it is merely a refinement of what has been in effect since 1952.

In 1957, the 55th Texas Legislature wanted to know why auto insurance rates were 45% higher in Harris County than in Dallas County. In essence it found out that the drivers in Dallas County (which made up a portion of one of ten insurance-rating regions in Texas) were simply a lot safer than the drivers in Harris County. But what about the safe driver in Harris County? He paid the same as an unsafe driver, just as the unsafe driver in Dallas County got off light because of his neighbor's carelessness.

Rightfully so, Senators and Legislators from the 55th didn't see the equity in this plan and authorized the State Board of Insurance to make a careful study of various merit rating plans with an eye to seeing what could be done to reward the individually safe driver in Texas.

After an exhaustive study of merit plans in Canada, California (8 other states have similar systems) and from 43 foreign countries, the framework of the Texas plan was formed. A continuing study was made by the actuarial staff of the Board and Texas Department of Public Safety as they delved into the facts and figures of 40,365 drivers' records. With the statistical information compiled from this source they arrived at various percentages of credits, surcharges and time-coverages in the new plan.

Proponents of the plan do not declare it infallible, but the plan does combine the thinking and experience of some of the most brilliant insurance men and safety experts in the State.

How Does The Plan Work?

Households where drivers have a three year record of no chargeable convictions for moving traffic violations, will be entitled to a 20% discount below regular premium rates. With one point against them, the household will pay the regular rate. With two, three, four, five, six or more against them (you can get four points for driving while intoxicated), the household will pay a corresponding 20% increase for each point, up to 100% increase.

Why A Point System?

Studies show that there is a direct relationship between highway accidents and convictions for moving traffic violations. The group of drivers who run up a record of convictions have a much greater chance of being involved in accidents than does the group motorist who drives in a lawful manner. Statistically, the group of drivers who received a point in 1959, that will count against them are three times more likely to have an accident in 1960 than is the group of drivers whose safety-consciousness has kept them from having an accident or being ticketed for a moving traffic violation.

Is The Plan Equitable?

Many opponents have expressed doubts about the fairness of the plan because of the three year period in which it reaches back for its records. They say that had many Texans known they were going to be penalized, they would have protested minor traffic infractions in court. There is some merit of truth in their arguments and undoubtedly many of these people would have won their case. But if these drivers are truly safe drivers, with the one exception they speak of, they will not be charged any more for insurance than they now pay, too, they will have a chance to prove their safety ability and earn a discount in the years ahead. Approximately 73% of the motorists in Texas are lawful and

accident-free drivers, thus the burden of paying for the Texas Safe Driving Insurance Plan will be shifted to the shoulders of the unsafe drivers who are causing the most accidents.

In time all Texas motorists could benefit from the plan, even those who have an occasional point chalked up against them, because safety experts believe the plan will encourage safe driving with a resultant reduction in traffic accidents which will lower insurance rates for all.

Who's Going To Get Rich?

If anyone is going to "get rich" off the new plan it is certainly not the insurance companies; they are running the greatest risk of any group. About the only persons who stand to make a financial gain are the safe drivers.

Will Every Accident Cost Points?

There are many exceptions in the assignment of points for an accident or traffic ticket. For example, suppose you are backing out of a parking place in a shopping center and accidentally scrape the fender of the car next to you, you would not be assigned points against you, unless the damage exceeded \$25. Also, if you are ticketed for defective lights or other equipment, except brakes, you are not assigned points. Numerous such exceptions none of which would reflect on a person's driving ability are incorporated in the plan to make it equitable.

Will Courts Bog Down?

It has been charged that Texas' court system will create a serious bottle neck in handling the expected influx of traffic ticket appeals. This, unfortunately, is possible, but it is not an argument against the plan. Instead, it points up a greater need for revision of our traffic court system. For many years the Texas Safety Association, National Safety Council, Texas Bar Association, the Governor's office and others who must cope with traffic problems have fought for legislation that will make Texas' traffic courts as modern as our state's highways.

There will be strong criticism to the plan for months to come, but it is not likely to come from well informed sources, unless they are outspokenly opposed to rewarding individual motorists for their safe driving.

Texans now pay in excess of \$440-million each year for traffic accidents, not to mention the suffering caused by the loss

NIWOT NEWS

BY THE NIWOT KIDS

There was a good attendance for Sunday school Sunday morning. Next Sunday there will be a 9:30 church service. Everyone is to keep this in mind.

Mr. and Mrs. Earl Ellis visited Mr. and Mrs. Ceell Ellis and children Thursday night.

Mrs. Laura Battles and Mrs. Dixie Cupps visited with Mr. and Mrs. Robert Perry in Santa Anna Friday afternoon.

Mrs. Silas Wagner had all her children home for the Christmas holidays except Pb. They were Mr. and Mrs. S. C. Wagner and boys of Irving Mr. and Mrs. Rex Baker and boys of Dallas, Mr. and Mrs. Watt Ingram and boys of Louisiana, Mr. and Mrs. James Ford and boys and Mr. and Mrs. Harrell Cupps and children.

Robert Perry returned to Austin after spending the holidays with his parents, Mr. and Mrs.

of nearly 2,500 lives and over 125,000 injuries. This is a burdensome price indeed, the Texas Safe Driving Insurance Plan could do much to reduce these costs.

John Perry, Mrs. Keetie Haynes visited Mrs. Silas Wagner and children Tuesday night.

Benefit Checks May Be Sent Direct To Bank

Benefit checks from the Veterans Administration may be sent directly to the beneficiary's bank for deposit to his account provided the bank has been given the required power of attorney. P. J. Mims, manager of the VA Regional Office in Waco said today.

A special U. S. Treasury form is available for the purpose of assigning the power of attorney to the beneficiary's bank. This arrangement is convenient for veterans who travel and those who have frequent changes of address which make it difficult for them to receive their checks with regularity. Mims pointed out.

A complete explanation of the arrangement and the necessary forms may be obtained by contacting any VA office.

Contrary to former legal requirements that a check could not be forwarded to a beneficiary who has moved, checks in payment of monetary benefits may now be forwarded, provided the addressee has left a forwarding address with the post office. Mims said.

Further information about veterans' benefits may be obtained from any VA office.

Use Records To Plan Ahead

College Station — Were profits made from your farming or ranching operations in 1959? If improvement is needed, consider carefully your plans for the new year.

When good farm records are summarized they may reflect vital points of slack in the business, points out C. H. Bates, extension farm management specialist. Some operators are using their financial records primarily for income tax reporting. Others are getting an "extra" dividend of stabilizing their future plans by study of all records. Records may be used somewhat as a mariner's compass to direct the future course of operations.

How may cost reductions be made? One example may be by study of the major item of operating costs — that of machinery and equipment, says the specialist. As mechanization and labor-saving practices are extended to more operations, ownership of some equipment items may become prohibitive for smaller farms. Volume of business is often insufficient to justify overall investment costs. Careful consideration should be given to custom service or joint ownership of equipment items if savings will result.

Similarly, such practices as the purchase of feed in bulk or during seasons of lowest prices may reduce costs in livestock operations. A small percentage saving on major, recurring cost items can boost profits materially.

Now is the time to review last year's business to plan adjustments prompted by the current outlook situation. Also, emphasizes Bates, consideration should be given to every opportunity for reducing operating costs per unit of output.

Use your farm records in discussing plans for 1960 operations if assistance is desired from county extension agents. Records, Bates adds, may be especially helpful where credit is needed to expand or adjust operations.

See your local county agricultural agent for assistance in record keeping and management problems. Where intensive management problems exist, your county agent has access to trained specialists in the field of management.

State Capitol NEWS

Austin, Tex. — If you are adding up the Christmas bills and wondering what all that money was spent for, then consider the task of the Board of Control.

This relatively small state department is personal shopper for 200 state agencies. During the past fiscal year, it selected the goods and paid the bills for purchases totaling \$80,000,000.

These millions went for more items than the average citizen can imagine. Everyone realizes that it requires tons of paper, thousands of filing cabinets, typewriters, desks and chairs to run the state's business... but—

Ever wonder how much yellow paint it takes to put a "stripe" down the highway from Amarillo to Brownsville?

Board of Control staff knows just how much to get for a given stretch of road and sees to it that the paint has little glass beads ground up into it to reflect your auto headlights at night. Just the other day they bought \$100,000 worth of the little glass beads, alone.

Board of Control buys all the state's automobiles — as well as trucks, tractors, motor scooters, motor graders, snow plows and school buses (for schools receiving state aid.) Last week they purchased \$326,000 worth of new autos.

It buys the industrial machinery with which the state prison system makes the state license plates. It buys the paper for your drivers license and pays for the printing.

It also buys buttons and zippers and shoes and socks and surgical tools and skin diving suits.

"We buy practically everything," says Executive Director William J. Burke.

It's a list that sounds unbelievable until the use for each item is run down. Clothing and repair needs for the apparel of the thousands of persons in state hospitals and schools must be bought by the Board of Control. State hospitals use surgical equipment. Game and Fish Commission uses boats and skin diving equipment in its inspection work.

If the State School for Girls at Gainesville starts a pottery class, Board of Control buys the clay. If the prison system builds a new prison building, Board of Control scouts around for the best buy in steel-barred doors.

Board of Control itself is a big user of paper. In the past fiscal year it processed 450,000 invoices. Nine employees handled these at the rate of 1921 a day. It takes 15,000 envelopes to handle an average weekly mailing of bid invitations to suppliers.

It's all done according to a very businesslike system. Purchases are consolidated, standardized, scheduled, bid on and checked for specifications, value

and performance.

Yet all this procedure doesn't kill the element of human enjoyment. Director Burke recounts with relish the million printed envelopes just bought for a large state department at \$2.30 a thousand. That's less than the usual cost of unprinted envelopes.

Comparable pleasure can be found in housewives who have just found diapers at a dollar a dozen or tomato juice at five cents a can.

Board of Control is about to have its 40th anniversary. It began operation in 1920 after a statute passed in 1919 combined in one agency a number of state functions.

It is topped by a part-time policy making board whose three members serve overlapping six-year terms. They are appointed by the governor.

Present board members are E. E. McAdams of Austin, chairman; F. H. Flewelling of Austin and C. F. McAuliff of Dallas.

Burke, as executive, is the top administrative officer. Under him are five divisions set up on what he terms "a check-and-balance system."

A specification division works out requirements for items to be bought. Purchasing division buys them. Administrative services division handles the clerical work. Inspection division has a team of "watchdogs" who go over the state to check new purchases to be sure they're what they should be.

A fifth division, building engineering and management, sees to a staggering list of house-keeping chores for the Capitol and state buildings. When the buildings now under way or being planned around the Capitol are finished, the Board of Control anticipates operating a heating system that will put out 60,000 pounds of steam heat an hour and an air conditioning system of 2,750 tons.

It also sees to the upkeep of the Governor's Mansion, the San Jacinto and Fannin State Parks and the State Cemetery. It handles the rentals for state offices outside of Austin which do not have state quarters. Last year this required 356,000 square feet of office space.

As to the state buildings going up in Austin, Burke feels sure they will save the state money over the old rental system. "Besides having to pay rent," he pointed out, "the state can only lease for two years at a time, and you never know when you may have to move, which is expensive."

In the course of their myriad chores, Board of Control staffers become experts on many subjects. They learn the price of dairy cattle (for prison farms) or diamond drills, short wave radios and food mixers.

Many know more about the comparative value of dishwashing detergents and floor waxes than most housewives. They make extensive tests to find out.

As Burke explained, if "Brand-X" can be proved to serve as well as a more expensive one, in state institution dishwashers, as much as \$3,000 can

be saved on one purchase. Specifications people spent hours according to Burke, proving out a floor wax they felt would save money and serve the purpose. They even applied and polished it, he said, and made periodic checks on its staying power.

"We try to be more careful with the state's money than we would even with our own," says Burke. "I honestly wish I could take every Texas taxpayer on a guided tour of the whole operation."

Nitia Daniell Circle Regular Meeting

The Nitia Daniell Circle of the First Methodist Church met in regular session Tuesday, January 5, a 7:00 p. m. in the home of Mrs. Dorothy Watson.

Mrs. Lillian Herndon was leader of the program, "The Roll of the Christian African Woman." The devotional, "The Mount of Olives", was given by Mrs. Martha Thompson. Mrs. Wilma Welch discussed "A Visit to Lodja" and Mrs. Lillian Herndon discussed "A Visit to Southern Rhodesia."

The hostess, assisted by her mother, Mrs. Arch Hull, served refreshments during the social hour. Others present were Meses. Frances Elliott, Mildred Galloway, Lucille Dean, Eva Nell Bengel, Emma House and Miss Pauline Eubank.

Mrs. Elliott dismissed the group with prayer.

Students Write Themes About Fire Prevention

(Editor's note: Following is the fifth in a series of top themes by Santa Anna students on Fire Prevention. This theme, by Juanell Mercer, was the second place winner in the Sophomore Class.)

A SAFER TOMORROW
By JUANELL MERCER

The title "A Safer Tomorrow" sounds good doesn't it? But in reality can, we the people, truly make tomorrow safe from the dangers of fire.

There are many dangers we have to get rid of and conquer before we achieve a safe tomorrow. We have some hazards that really we don't think anything about but need to think about them plenty. Better than thinking about them is doing something to get rid of or make them better (safer).

There are many dangers present. Electrical hazards should be fixed as soon as possible. If left alone they will eventually start a fire and probably cause the loss of a nice building. Heating systems need to be checked also and fixed if they are considered fire hazards.

In schools and public places the doors should open outward so that the people can get out of the building easier and quicker. If they open inward, they take up precious room which could be used by the people in getting out. Also, all public buildings should have some sort of fire or warning system. Those which do not have one are greatly hindered and that one mistake could cost hundreds of lives.

Small children should never be allowed to play with matches. They can very easily cause a fire without intending to do so. Older people should put the matches away from small reaching hands. Also the matches should be put in a metal container.

Careless smokers have often times caused a beautiful home or forest to go up in smoke. Along with the forest they destroy wildlife and plants.

Campers leave their fires sometimes without putting them out or at least making sure they're out good enough. Campers, after they're through with fires should do these things: (1) throw water or dirt over both on the fire, (2) spread the ashes out and (3) stay long enough to test the warmth of them with their hands. Then after this is done, they can go about their business.

Some homes have basements which contain fire hazards. A harmless looking pile of old papers could very easily become the cause of a fire. Or it might be a pile of old, oily rags. These start fires by combustion which is the union of inflammable substances with oxygen. Also in some homes there are attics that need to be cleaned out. They also contain fire hazards.

Public schools and buildings should have extinguishers in handy places. Also close by should be at least one of these things: (1) a warning system, (2) a telephone or (3) a fire alarm box. Two of these are really necessary. A warning system and either of the other two make up the pair.

I have been forgetting about fire escapes. They should be placed where the people can easily reach them. Nothing should be barring the way to the escape from a fire.

Having written down some of the hazards, I hope that others think about them before there is an actual fire. And I hope I never set off the "panic button" although someone might. I just remembered I might be the one that does that but not on purpose would I or anyone else do so, at least I hope not.

Aliens Reporting Addresses At Rapid Rate

Immigration officials are well pleased with the response of aliens in the San Antonio District to Alien Address Report requirements.

Mr. E. DeWitt Marshall, District Director of the San Antonio District of the Immigration and Naturalization Service, stated that although the program has been under way only 12 days the number of aliens reporting thus far is well ahead of the number reporting during the same period last year.

Aliens have until the end of January within which to submit their report of address to the government. Forms for the purpose may be obtained at any Post Office or any office of the Immigration and Naturalization Service.

All aliens, with few exceptions, are required to report. Those excused from this requirement include diplomats, persons accredited to certain international organizations, and persons who were admitted temporarily as agricultural workers.

Aliens who are minors must also report, but the parent or legal guardian should submit the report for an alien child under fourteen years of age.

CORN BORER QUARANTINE
For the first time on record in Texas, the dreaded European corn borer showed up in a Bowie County field and prompted immediate action by the Texas Department of Agriculture to prevent its further spread in the State.

An emergency quarantine against the movement of un-screened or unfumigated corn and related grains from Bowie County or into Texas from all states having infested areas was ordered into immediate effect. The discovery of the pest in a

single Bowie County field was confirmed by the U. S. Department of Agriculture, marking the first time on record that the European corn borer, prevalent in many of the leading corn producing states, had penetrated into Texas.

The quarantine order required that corn and all related grains be screened through a one-half inch mesh screen before being moved out of Bowie County or brought into Texas from any other state having infested areas. The screening is required to remove debris such as parts of stalks, stems and cobs which carry the insect pest. The quarantine does not apply to movement of corn or related grains from any part of Texas except Bowie County, the related grains including such products as milo, broomcorn, sorghums, Sudan grass and the like.

The quarantine order was regarded as essential not only to protect the Texas grain industry but to safeguard the regular channels of trade in the industry into and out of Texas. Some 35,000 railroad freight cars and motor trucks move out of Texas each year carrying grain to western states.

The seriousness of the corn borer penetration into even a single Texas county was pointed up by reports from infested states in the corn belt and elsewhere in the nation. In 1957, the European pest destroyed almost 181 million bushels of corn valued at \$158,841,000, according to USDA estimates. Corn in Iowa, Nebraska, Missouri, South Dakota and Illinois suffered most from borer damage.

In addition to the quarantine, the Texas Department of Agriculture has initiated other effective steps to bring the corn borer infiltration under immediate control in Bowie County.

Who Must File A 1959 Tax Return

Requirements for filing Federal income tax returns for 1959 were announced here today by Virgil W. Newman of Internal Revenue Service.

To sum it up—"most people with \$600 or more of gross income for 1959 must file a return with Uncle Sam," Mr. Newman said.

Every citizen or resident of the U. S. A.—whether adult or minor—who had \$600 or more gross income in 1959 must file, if 65 or over \$1,200 or more.

"However," Mr. Newman continued, "if you're self-employed, you file a return if your self-employment income was \$400 or more, even though your gross income was less than \$600."

The Revenue representative added these potent points: A person with income of less than these amounts should file a '59 return to get a refund if tax was withheld. A married person with income less than her (his) own personal exemption (s) should file a joint return with husband or wife to get the smaller tax or larger refund for the couple. Members of Armed Forces should give name, service serial number, and permanent home address.

Area taxpayers are urged to file their returns for '59 with their IRS District Director as soon after January 1, 1960, as possible.

"Although the filing deadline is April 1, folks who wait until the last minute find it more difficult to get technical help the nearer the final day approaches."

"Also," Mr. Newman said, "last minute filers make more costly errors in their returns."

Checks or money orders for any tax due should be clipped, not stapled, to the return and should be made payable to the "Internal Revenue Service."

Taxpayers with technical problems may have them solved by phoning IRS at 2-7639, Brownwood, or by visiting their office at Room 611, Citizens Nat'l Bank Bldg.

Special taxpayer assistance day is every Monday 8:30 a. m. to 12:30 p. m.
