Mountain Echoes

By Barbara Kingsbery

The continued dry weather is the main topic of conversation in this area as high winds, blowing dust, and no rain are the common ingredients each day. We have had no measurable rainfall this month and only 1.35 inches this year.

The Aspermont "rainmaker" received nationwide publicity but no rain recently, although he drove around with a barbecue rig going full-force in the back of his pickup truck.

One of our good friends is collecting baling wire and feed sacks in the back of his vehicle and plans to start a rain-making program when enough of the necessary items are collected.

bk

The local fire department has had one or two calls to grass fires nearly every day. Freddie Dodson, local businessman, is nearly always available to answer fire calls and makes his share of trips with the VFD. His main protest lately is that many of the fires occur during noon hour—and he often misses his lunchtime while on VFD business.

bk

Local and area residents are reminded again about the danger of grass and pasture fires. What vegetation remains is tinder-box dry, and with the high winds the danger is even greater. Caution is urged by all throughout the area.

bk

One local resident came by the NEWS office Monday morning to get the address of State Representative Lynn Nabers so she could state her opinion of Daylight Saving Time where it would do the most good. She admitted that she has complained so much about the time change that she would be compelled to make her opinion known.

bk

Spring officially arrived this week and local shrubs and trees are cooperating. Most fruit trees in the community are in bloom although we have not seen any mesquite trees sprouting—one of the surest signs that warm weather is at hand.

Tony Allen Wins In Track Events At Rochelle Sat.

The SAHS girls' track team opened their season at the Rochelle High School track last Saturday. There were boys' track teams from 27 schools and girls track-teams from 22 schools taking part in the meet.

Tony Allen, daughter of Mr. and Mrs. James Allen, was the only SAHS girl to reach the finals Saturday night, and there she won first in the 220 yard run and placed third in the 100 yard dash. Tony, a sophomore student, was a member of the local track team last year.

Others who participated in the Saturday meet were LeAnn Bryan, Cathy Estes, Juanita Valdez, Mary DeLeon, Suzan Mills, and Bobbie Strickland.

The local girls will be competing in the district track meet which will be held early next month. David Haladay and Miss Zelma Strickland and coaches of the girls track team.

National FHA Week To Be Observed Here

The Future Homemakers of America in Texas will join with the 600,000 FHA members across the country in observing National FHA Week March 28 through April 3. The 1,600 chapters in Texas will carry out special projects and activities during the week focused on the theme of FHA Cares.

According to Nancy Baugh, SAHS senior and vice-president of the local chapter of FHA, members of FHA care about a lot of things.

The 48 members of the Santa Anna chapter have scheduled a number of activities for this week. Plans outlined by Denise Wallace, president, include a publicity day on Monday. Area IV reporter Barbara Whitis of Huckabay will be present to show slides

of the National FHA meeting. Other activities include Church Day on Sunday; Tuesday—dress-up day; Wednesday—color and emblem day; Thursday—coke party for FHA members after school; Friday—teacher appreciation day; and Saturday, Mother appreciation day.

Future Homemakers of America is a non-profit, self-supporting organization officially sponsored by the U. S. Office of Education and the American Home Economics Association and is correlated with the home economics program in the secondary schools. High school home economics teachers serve as advisors for the local chapters.

Officers of the Santa Anna FHA chapter are the following:

- President, Denise Wallace
- 1st V-Pres., Nancy Baugh
- 2nd V-Pres., Glenda Strickland
- 3rd V-Pres., Suwanee Smith
- 4th V-Pres., LeAnn Bryan
- 5th V-Pres., Sherrie McIver
- Corresponding Secy., Judy Brusenhan
- Recording Secy., Pam Herring
- Treasurer, Gail Robinett
- Historian, Pati Perkins
- Parliamentarian, Linda Dean
- Sergeant at arms, Deborah Aldridge
- Mrs. Winnie McQueen serves as chapter advisor.

S. A. Cindermen Win 6th Place At Bangs Meet

Santa Anna High School boys track team won sixth place in the Bangs track meet last Friday with a total of 34 points. The meet was won by Mason, followed by Rising Star, Goldthwaite, Bangs and Robert Lee.

In the feature race Friday night, Mason's Gilbert Sanchez won the 880 yard run over Dwight Eppler, finishing just one-tenth of a second ahead. Sanchez's time was 2:03.3 and Eppler posted a 2:03.4.

Other winners from Santa Anna included Leo Townsend third place in the 100-yard dash with 11.1; Lonnie Lowry, sixth in high hurdles and second in pole vault with 11 feet. Bill Horn placed fourth in broad jump with 19-1½. Eppler was fifth in the broad jump with 18-11, and Larry Zabel, fifth in the mile run with 5:02.4.

The Santa Anna boys will be in Goldthwaite Saturday for a track meet with eight schools. The district track meet will be later in April.

SANTA ANNA BAND IN CONTESTS IN UIL EVENTS NEXT SATURDAY

The 1971 Mountaineer Band will go to Cisco Saturday for the Interscholastic League contests in concert playing and sight reading. The regional contests will be held at the Cisco Junior College campus.

The 50-piece concert band directed by Aubrey Edwards, will play at 8:00 p. m. The local musicians will play "Bristol March," "Air for Band" (overture), and "Suite in Minor Mode." The three selections are from the approved list for class B bands.

Immediately following the concert, playing competition the local group will go into

the sight reading contest. The band will play one selection of entirely new music, with only five minutes of reading and discussion and no actual playing practice.

The Mountaineer band is seeking a sweepstakes award this year after receiving a division I rating in marching last fall. In a contest at Brady recently the local band received first division ratings in both concert playing and sight reading in a contest similar to the UIL events.

The Santa Anna group will go by busses to Cisco Saturday, leaving the band hall at about 6:00 a. m.

Absentee Voting Ends March 30 For Elections

Absentee voting will end next Tuesday, March 30, in the city election and the school district trustee election. Both elections are to be held on Saturday, April 3.

Absentee voters in the city election may cast their ballots before Tuesday at the City Hall. School Board ballots are available at the high school business office.

In the city election, no contests are carried as Thomas Wristen is unopposed for his second term as mayor and H. A. Burden, Mrs. Jack Allen, and Julian Kelley are running unopposed for the three places on the city council. Mrs. Allen and Burden are seeking re-election and Kelley is on the ballot for his first term.

In the school trustee election, four candidates are seeking the three places on the board. The three with the largest number of votes will be elected for three year terms.

Incumbents Richard Horner, Joe W. Wise and Bettie Bryan are on the ballot with Vernon Parnell. Mrs. Bryan was elected last April for a one-year term to fill a vacancy. In the 1970 election she was opposed by Parnell and was elected by a narrow margin.

Local people wishing to vote absentee on either or both elections should do so by next Tuesday.

UIL Contest Schedule Announced To Begin on Thursday, April 1

Santa Anna school students are preparing for the University Interscholastic League events which are scheduled during the next few weeks. Santa Anna is in a separate district grouping for the literary events, being assigned to the 17-member district 12-B. Schools in the UIL literary district are Blanket, Brooke-

smith, Mozelle, Gustine, Lohn, May, Mullin, Novice, Potts-ville, Priddy, Rochelle, Sidney, Star, Talpa-Centennial, Zephyr, and Santa Anna. The literary events have been divided so that different events will be held on different dates. Some conflicts have already arisen and some re-scheduling is being planned.

On the present calendar the first event planned is science contest for high school students on Thursday, April 1, at Sidney.

April 2 has been set as the date of some of the literary events, with the time and place yet to be announced. The girls track meet has also been set for Friday, April 2, at Goldthwaite. The girls track is another separate grouping of class A and B schools.

The tennis and volleyball contests, with entries from the 17-B basketball organization, have been scheduled for April 2, but will probably be set at another date to avoid conflicts.

On Tuesday, April 6, the act play contest will be held at Coggin Theatre at Howard Payne College. Entries have been received from nine schools in district 12-B. Supt. Cullen Perry is in charge of this event.

Speaking events, separated this year from the other literary contests, will be held on Wednesday, April 7, at Santa Anna. The contests will start at 3:30 p. m. No information has been received concerning the ready writing contest.

One of the few events for the district which is scheduled without conflicting with other events is the boys track meet for district 12-B. The meet will be held at Rochelle on Thursday, April 15.

Several changes are likely in the present schedule, with the new information to be announced as soon as possible.

Senior Play, "Absolutely Murder," To Be Presented on Friday Night

The senior class of 1971 will present a three-act mystery-comedy Friday night at the SAHS auditorium at 7:30 p. m. Mrs. Winnie McQueen and Miss Zelma Strickland, senior sponsors, are directing the production.

An abandoned mill is the scene of the play which has a cast of 14. A body which doesn't seem to stay dead is found in an old chest in the mill, and everyone concerned becomes involved in a murder case. The three-act play is reported to be amusing and exciting.

Admission prices will be \$1.75 for reserved seats, \$1.25

for general admission, and 75 cents for students. Children under six years of age will be admitted free.

The dress rehearsal on Thursday night will also be open to the public with admission to be charged.

The cast of the play is as follows:

- Kate Landson, played by Debbie Horton
- Sky Bently, by Dwight Eppler
- Aunty Bess—Nancy Baugh
- Mrs. Ranch—Becki Turney
- Lane Burrage—Robby Dean
- Dr. Claud Hooker—Jim See
- Lorna—Roberta Barton
- Nan—Janet Wells
- Dottie—Gail Robinett
- Charlie—Arthur DeLeon
- Emmaline—Ruth Ann Walker.

Nurse—Cindy Hartman
Mr. Cordyce—Kelley Honeycutt

Mrs. Cordyce—Nola Wells
Other members of the senior class will be assisting with the make-up and production, and the advanced preparation.

Everyone in the community is invited to attend the play Friday night, or on Thursday night if the date is more convenient. The annual play is the major fund raising project of the senior class each year and is well attended by community residents.

Public Invited To Attend Program Friday

Electric Shock—just a tingle in the finger—or ventricular fibrillation (when the heart stops beating and death results).

Have you ever wondered why you were only annoyed or startled, while others apparently under similar conditions were seriously injured or killed?

The answer to this very important question will be answered by Joe Smetana, Safety Director for the Texas Farm Bureau when he presents a public service demonstration to prevent electric shock at 10:20 a. m. on Friday, March 26, 1971, at Santa Anna High School.

"Nobody's Safe," says Smetana. "When you are standing on damp ground or wet concrete, bathing, washing, swimming, using or touching any grounded tool or appliance, or are in contact with any piping system or metal structure, ordinary household current passing into your body from defective equipment or accidental contact with conductors can injure or kill you," he added.

Medical authorities agree that if the amount of current required to light a 15-watt bulb, which is only 1-10 of an ampere, should flow through your heart, death might result in just one second.

Regular 1-20-volt household current can force two times the lethal dose through you. The degree of danger depends partly on age, physical condition, how long the current flows through the body, and the path the current takes through the body. Particularly dangerous are currents passing through chest from one arm to the other via the heart.

In a two-part, live graphic 45-60-minute demonstration, Smetana presents the causes and effect mentioned above. "The purpose of the exercise," says Smetana, "is to point out that an ounce of prevention is worth more than a pound of cure."

The public is invited to attend the program on Friday

Sports Program Guest Speaker Is Gordon Wood

The Santa Anna Quarterback Club has set Thursday, April 22, as the date of the athletic recognition program which will be held in honor of the school athletes and the coaches. Gordon Wood, the Brownwood High School coach, will be guest speaker for the program.

Final plans for the supper and program will be made at the Thursday night (tonight) meeting of the Quarterback Club. All members of the organization are urged to be present for the meeting tonight at 7:30 at the high school to help make plans for the event.

COLEMAN COUNTY GET-TOGETHER WILL BE HELD FRIDAY, MARCH 26

District 7 4-H Food Show was held in Brady, Saturday, March 20. Over 60 4-H girls from the district participated.

Coleman County girls participating were Ginger Rodgers in the Senior Division and Ray Ann Skelton and Kim Thweatt in the Junior Division. First, second and third place ribbons were awarded in each group division.

Ginger Rodgers, showing a "King Ranch Casserole" in the meat group walked away with the first place blue ribbon

R'Wood Native Funeral Held Last Tuesday

Mrs. Rosa Belle Heilman, 72, of Rockwood died on Sunday, March 21, in the Brady hospital at 11:30 p. m. after a long illness. Funeral services for Mrs. Heilman were held Tuesday afternoon at the Rockwood Methodist Church with burial in the Rockwood cemetery.

Born at Rockwood on July 22, 1898, she was the daughter of the late Mr. and Mrs. J. H. Moore. She had lived at Rockwood all her life where she and her husband, the late Ernest Heilman, operated a store. He died in October 1952. She was a member of the Church of Christ.

Survivors are one brother, Lonzo Moore of Brady; three sisters, Mrs. Myrtle Estes of Rockwood, Mrs. Gladys Snodgrass of Killeen, and Mrs. Loyce Haynes of Brady.

In Our Opinion

By W. T. HAYS

IN THIS AGE of law breakers it is somewhat encouraging to look on the other side for a change. As we pick up our paper each day and read the news, or listen to television or radio, the world around us seems pretty bleak.

Let's stop for a minute and look at the positive side for a change. The vast majority of our people, regardless of race, creed, color or economic status, are respectable, reasonable, responsible citizens.

More than 196,000,000 of our people were not arrested.

More than 89,000,000 married did not file for divorce. More than 115,000,000 individuals maintained a formal affiliation with some religious group.

More than 75,000,000 citizens and corporations paid more than \$160 billion in income taxes.

More than 9,000,000 of our young men did not burn their draft cards.

More than 49,000,000 students did not riot or petition to destroy our system.

More than 4,000,000 teachers, preachers and professors did not strike or participate in riotous demonstrations.

The above statistics were gathered by Charles L. Gould. He went on to say, "I have no apologies to make for my country or my generation. Never in history has a people accomplished so much, given so much and asked for so little."

From reading the daily news one would think that ours is a sick society, but when we examine the facts we find that it is only a small minority that is sick. What we read about is only the sensation-seeking few who would disrupt our society and destroy it with their whims.

We don't claim to be perfect, but there is no question that ours is the most enlightened, most unselfish, most compassionate society in the history of the world.

To those who would preach hate and disorder and discord, let us ask them one question — what have you done for the betterment of the individual, the nation of the world?

AS WE GO TO PRESS the jury is still deliberating in the court martial of Lt. William L. Calley.

Of course no one would condone deliberate murder for no reason, but there is no one who could know what he would do if he were in a Viet Nam soldier's place unless he has been there himself. War in any time is tragic. But the law of self preservation is one of our strongest instincts. There are few, if any, who would not kill to preserve his own life, and in a foreign country where one doesn't know friend from enemy, it is pretty hard to judge what our reaction would be to any incident.

We train our men to kill. We send them to a strange country, where the people all look alike, and have customs that are strange to them. Then we sit back and condemn them for killing. It is no wonder that our young men don't want to go to Viet Nam. If they are in action and kill anyone, they may be brought back for trial. What kind of situation is that?

There have been killing of civilians in every war in the history of the world. It is just one of the tragic facts of life that it will happen when a country is in war. We didn't try our bomber pilots of World War II because their bombs killed civilians in Germany and Japan, so why this sudden tinge of conscience?

This is only one of the things that has made this the most unpopular war in our history. That and the fact that it is a winless war. When politics gets into the military, then this is the result.

We can credit much of it to some of our red-tinted Congressmen and Senators.

Austin — Welfare beneficiaries late last week got the bad news they had been expecting — there will be substantial cuts in their assistance payments on May 1.

Level of aid will be reduced to Aid to Families with Dependent Children by about one-third, according to Welfare Commissioner Burton G. Hackney. Board of Public Welfare scheduled a meeting Monday (March 22) to place its inevitable approval on the reduction.

"The hard fact," said Hackney, "is that no more state money is available under the present constitutional ceiling on welfare expenditures. The Legislature has appropriated all that it can appropriate."

Average AFDC grant last month, based on PWD's formula of 75 per cent of "budgeted needs," was \$118.

Hackney estimated the average level will drop on May 1 to about \$80 a month.

In addition to steep cuts, about 4,500 families will be dropped from the rolls altogether, since as the newly-contemplated 50 per cent level of "budgeted needs," they will no longer be eligible for aid. Their income will meet the "standard of need" PWD must recognize with the limited funds available.

As of the last month, there were 87,616 Texas families with 263-809 children receiving AFDC benefits. Rolls for the last five months have been increasing at a rate of almost 11,500 a month, according to Hackney.

A proposed constitutional amendment to increase the \$85 million a year ceiling on aid to aged, blind, disabled and AFDC will be voted on May 18.

Almost simultaneous with PWD's announcement of the cut (actually first predicted by Hackney last November 12), Texas Citizens for Welfare Reform announced start of its active campaign to win approval of the amendment (Proposition 3) on the May 18 ballot.

SENATE PASSES LIQUOR BILL — Senate voted 22-7 approval of the local option liquor-by-the-drink bill and sent it to the House.

Biggest battle in the Senate was whether retail package stores or wholesalers would sell to bar operators. Package stores won out, over the protest of Sen. Joe Christie of El Paso, author of the bill (SB 346).

Measure now calls for \$2,500 license fees for mixed beverage licenses, with \$2,500 first renewal fees after one year, \$500 thereafter.

Bars would be able to serve drinks in one-ounce mini-bottles or standard size containers. Senators rejected by 16-13 a "dram shop" amendment to hold liquor dispensers liable for damages of their intoxicated customers.

Rep. L. DeWitt Hale of Corpus Christi said he will ask for a hearing next week and expects an early floor debate.

"I don't think there is any question but that we will pass a bill of some kind," said Hale. "The fight is not over final passage but what's in the bill."

TAX HEARINGS BEGIN — Hearings on the tax bill were due to begin in the Senate late this week and continue probably through most of next week.

Lt. Gov. Ben Barnes called on all interests to present their case and on all senators to substitutes for the House-passed \$492.5 million sales tax-franchise tax-tuition increases. Barnes expressed hope for

more orderly floor consideration of amendments with revenue estimates and amendments prepared in advance rather than at the last minute as usual.

CIL ALLOWABLE SAME — For the third month in a row, Texas Railroad Commission set the oil production allowable at 82.1 percent of potential. That will allow maximum production of 3,763,658 barrels a day in April. Actually, about 3,411,000 barrels probably will be the output.

Oil company executives said all evidence points to the need for a big effort to locate "massive new supplies or crude."

AG OPINIONS — Texas Water Quality Board cannot force the owner of a solid waste disposal dump to post bond for a license, Atty. Gen. Crawford Martin has held.

In other recent opinions, Martin concluded that: • Galveston County contract for delinquent tax collection is not invalid because the attorney entering it as a law partner of a state legislator.

• Legislature would have to vote authority for a county to lease its property.

• City and County may cooperate to establish an ambulance service by joint contract.

• Juvenile court has jurisdiction to declare males delinquent after 17th birthday and females after 18.

• Sheriffs are not bound to furnish county auditors a monthly inventory of supplies, menus and bills for feeding prisoners.

• Highway Department can award federally involved highway contracts which do not contain the general prevailing rate of per diem wages in view of the presidential emergency proclamation.

• Ward County may maintain a golf course on land owned by the city of Monahans.

• If county commissioners make final selection of a bank as the county fund depository, selection may not be retracted.

Contract for delinquent tax collection entered by commissioners without notice to the county attorney should no be approved.

• Estates of regular state "hourly employees" are entitled to recover for accrued vacation and sick leave.

• Executive director of the Community Action Council at Beeville is eligible to serve on the Bee County College governing board.

• Term of office of a Texas Rio Grande Compact Commissioners may be extended beyond two years.

CLUBS VIOLATE LAW — Many of the 1,811 private bottle clubs violate Texas law,

Alcoholic Beverage Commission has reported.

ABC auditing chief said 197 violations were observed by agents last month in 427 clubs checked, although most can be corrected by warnings.

ABC Chairman Tom Gordon of Abilene promised February checks were the beginning of its crackdown.

Gordon said most of the violations are due to failure of club owners to understand the law.

Commission approved a regulation dealing with standards of identity, labeling and advertising of liquor.

APPOINTMENTS — Governor Preston Smith reappointed Walter M. Mischer of Houston and Fred W. Shield of San Antonio to the Texas Board of Corrections.

Smith also reappointed Wilfred S. MacKinnon of Baytown to the Credit Union Commission and picked Jim R. Williams of San Antonio as a new member.

Charles R. Woodburn of Amadillo, Dan Lester of Jefferson, Phillip C. Bowen of El Paso and Mrs. D. J. Sibley Jr. of Austin were named to the Texas State Historical Committee, and Mrs. Frank M. Covert III of Austin and John C. Caldwell of Albany were reappointed.

STUDY DROUGHT PROBLEM — Governor Smith led a state-federal delegation to Alice late last week to investigate the increasing drought problem in South Texas.

Governor met with local officials, farmers and ranchers. He was accompanied by Agriculture Commissioner John C. White, disaster relief officials and legislators.

Smith said he is exploring the possibility of requesting that the region be designated a disaster area for federal aid in the form of low interest rate loans and emergency livestock feeding programs.

SHORT SNORTS

Governor Smith in ceremonies at Texas Tech University, Lubbock, signed a bill authorizing \$185 million revenue bond program for building eight new higher education facilities.

There were 21,116,000 out-of-state and foreign visitors to Texas last year, and they spent \$1.469 billion, according to State Highway Department calculations.

Saber-toothed tigers are now extinct.

Whon News
By MRS. TOM RUTHERFORD

Plans were completed Friday night for the Whon Picnic, which is the first Saturday in April, which is April 3rd. A few met in the home of Mr. and Mrs. Aaron Avants and completed plans. Barbecue will be served at noon. Bring a basket lunch. We will be looking for you.

Our sympathy goes to Mr. and Mrs. Riley McFarlin in Santa Anna. Mr. McFarlin's oldest sister died very suddenly Wednesday morning at Rockdale. Then Saturday he received a message that a brother had passed away in California.

Sunday was quite a day on the Yarborough ranch here. Men from Fort Worth, Dallas and Pennsylvania were out and they with Mr. Cleburn Stanley found one den of rattlesnakes which contained 16 rattlesnakes and another with 3. The snakes were taken to the Brownwood rattlesnake round up Sunday afternoon. Seems the men from Pennsylvania plan to take the snakes home with them. Our opinion is, we wish they had been lucky enough to have captured all of the snakes in our community. We would love to think they were that far away.

Mr. Hilary Rutherford and son, Rocky of Coleman spent Saturday with his parents, the Tom Rutherfords. Mrs. Hilary Rutherford and daughter, Dena, visited in the Loyd Rutherford home in Bangs and were shopping in Brownwood.

Mr. and Mrs. Buster Wynn, and Mr. Andrew Smith of Coleman, Mr. and Mrs. Riley McFarlin of Santa Anna and Mr. and Mrs. Aaron Avants visited with Mr. and Mrs. Cleburn Stanley awhile Saturday night.

Mr. and Mrs. Warren Gill of Brownwood are spending time on the Gill ranch here, having some carpenter work on a ranch house completed.

Mr. Don Fitzpatrick of Tarleton College spent the weekend with his parents and his brother, Mr. and Mrs. Greham Fitzpatrick and Neil.

Mr. and Mrs. L. F. Stanley of Comanche spent last Tuesday with his brother, Mr. and Mrs. Cleburn Stanley.

Mr. and Mrs. Aaron Avants had water hauled and put in their tank Saturday. By this you know we need rain.

Mr. Wimpy Watson of Lubbock spent the weekend on his farm here and visited in the Tom Rutherford home on Friday night, returning to Lubbock Sunday afternoon.

Mr. and Mrs. Cleburn Stanley visited with Mr. and Mrs. Randy Brown and children in Brownwood Sunday afternoon.

Mr. Loyd Rutherford and daughter, Tonna of Bangs visited his parents, the Tom Rutherfords Monday afternoon.

Mr. and Mrs. Ed Smith and children of Coleman visited briefly with Mr. and Mrs. Aaron Avants Sunday afternoon.

Frigidaire re-invents the washer and the dryer.

Never before so many improvements at one time! That's why we say "re-invented". Washers and dryers that do it all... up to 18 pounds. This new Frigidaire can wash 1 piece to 18 pounds — or any size load in between. No attachments to add or store. It has a huge lid and door openings to put all that capacity within easy reach. A fill and rinse system that sprays down from 12 pressurized water jets around the tub. Permanent Press Care. Simplicity to keep service to an all-time low... like the lift-off console that makes servicing quick and easy... if it's needed at all. For full details visit West Texas Utilities.

Also, remember, West Texas Utilities offers you free normal 220 volt wiring if you are a WTU residential customer and if you purchase an electric dryer from a local dealer or WTU.

Farmers are reminded only three weeks remain in which to sign an intention under the cotton, wheat and feed grain programs.

The acreage you have planted or intend to plant are not to be entered on the intention. If you have lost your wheat crop or was unable to seed your wheat due to the drought, this must be reported at the time you sign your intention. This will

qualify you for wheat, and perhaps feed grain history if sufficient acreage has been seeded, and payment if other wise eligible.

There are no acreage limitations on cotton, wheat and feed grains. A producer must have sufficient set-aside acreages and comply with the conserving base if there is one on the farm. A producer must plant 90 per cent of his cotton allotment, 45 per cent of his feed grain base

and 90 per cent of his wheat allotment to receive payment.

Cotton farmers are again reminded all cotton transfers are to be made on or before April 1st. Farmers should not put off signing an intention pending transfer of cotton acreages.

Cotton farmers who wish to release cotton allotment to the County Committee or request acreage from released must make application on or before April 1st. We do not anticipate any acreage from released acreage.

As soon as the applicable forms are available certification will be made on acreages of wheat seeded.

The final date for making this certification is May 1st.

The certification for your other crops, cotton and feed grain must be made by August 1st.

You will be notified when certification of wheat will begin.

Send a letter to North Vietnam.

Right now hundreds of Americans are being held captive in North Vietnam.

A few prisoners have made it back. They talk about bamboo cages. Vicious beatings. Malnutrition. Humiliation.

But the North Vietnamese will tell us nothing. And it's this silence that makes our appeal more urgent.

For the families at home, there is no word on who's alive. Who's dead. Or even who's being held. There is nothing. Except the anguish of not knowing.

Maybe you can change this. By writing to the one man who can change it: The President of North Vietnam.

Ask him to release the names of prisoners, allow them to write to their families, and let the Red Cross inspect the prisons to

insure proper medical treatment and living conditions.

Remind him that he is bound by the 1949 Geneva Convention which his country signed. And by the Istanbul resolution.

North Vietnamese leaders do care about American public opinion. And if they think they can gain something by bowing to it, they will.

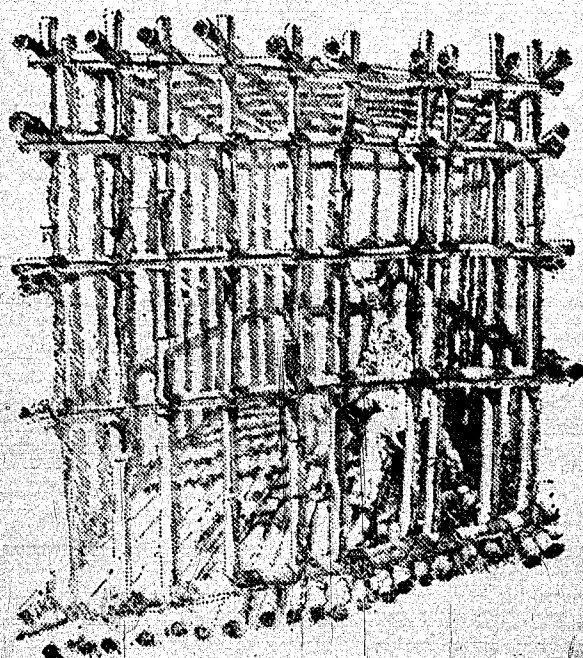

But one letter won't do it. Or a thousand. Maybe it will take millions. So we've got to write now. All of us. And often.

Write a letter tonight. And send it to: Office of the President, Democratic Republic of Vietnam, Hanoi, North Vietnam.

It'll cost you a quarter. But it might save a life.

THE AMERICAN RED CROSS +

Maybe they'll open it.

While you're saving money for college, make sure there's a college to save money for.

There are all kinds of ways to save money for a college education.

A good savings account.
Life insurance.
Or U.S. Savings Bonds.

You see, U.S. Savings Bonds will not only save you money, but they'll insure your country's future at the same time.

It's one way of making sure there's a college whenever you're ready to send somebody to college.

But back to the money part. Let's say you buy your one-year-old son a \$25.00 Bond every month. When he's 18 and ready for college, he'll have \$5,506.00.

A \$50.00 Bond every month would give him \$11,012.00 when he's ready to enroll.

And the beauty is, you never have to worry about this investment. You simply sign up through a Payroll Savings Plan where you work and then sit back and let the money pile up.

Savings Bonds now pay a new higher rate—4 1/4%—when held to maturity of 7 years.

And if they're lost, stolen, or destroyed, the Treasury Department will replace them free.

Also, with each Series E Bond you buy, you're entitled to buy the same or lower denomination Freedom Share.

Which pays 5 1/2% when held to maturity of 4 1/2 years and is redeemable after one year.

Any way you look at it, buying U.S. Savings Bonds makes sense.

They not only get the kids ready for college. They keep the colleges ready for the kids.

Special Emphasis To Promote FHA All Over Nation

FHA Cares is the theme of National Future Homemakers of America Week, March 28-April 3. During this week 600,000 members in over 12,000 local FHA chapters over the United States and its territories will carry out special projects and activities to emphasize the importance of the organization.

National President, Ruth Ann Hockenbroch, a high school senior at Middleburg, Pa., put it this way: "Future Homemakers of America do care about preparing ourselves for the future. Today we are teenagers, tomorrow we become The Establishment. Through our FHA activities and oriented learning experiences are preparing to take our place in that establishment. In this, our

25th anniversary year as a national organization, we want National FHA Week to be a showcase for what 600,000 teenagers are doing constructively to find solutions to some of the problems confronting today's society in preparation for a better life tomorrow."

This national organization of high school home economics students provides opportunities for developing individual and group initiative in planning and carrying out activities related to the home and the community.

Throughout the country the FHA members are learning by doing. They contribute to the community by working as volunteers. They assist in local head start programs or with the mentally retarded and handicapped through the county health and welfare departments. They organize reading classes and tutorial programs for migrant or underprivileged children. They visit and assist the elderly or work with other groups on community service projects. They serve as hospital candy strippers, hold career seminars, survey for job opportunities for youth, conduct sessions on preparation for marriage, hold morals discussions, and carry out many other projects which give practical application to their classroom learning.

The FHA was founded on June 11, 1945 as an incorporated, nonprofit organization supported by membership dues. Nationwide in membership and effort it is co-sponsored by the U. S. Office of Education and the American Home Economics Association and was developed for the purpose of providing ex-

periences that broaden the home economics staff, and the program in the high school. High school home economics teachers, members of the state home economics staff, and the leading home economists serve as advisors to chapter, state and national youth officers, giving guidance and counseling to the program.

Activities at all levels—national, state, and local—are youth directed. Twelve national youth officers elected yearly help develop and promote the national program of work and plan and preside over the annual national meetings. The FHA members themselves decide on their goals and purposes, and plan their own activities and projects. This provides an opportunity to develop leadership, express creativity, and become aware of approaching responsibilities as adult citizens.

The annual state meeting of FHA, an organ of FHA members will be held in Memorial Auditorium in Dallas, Texas, April 23-24, 1971

More than 5,000 members and advisors representing almost 76,000 members in 1600 chapters throughout the state will attend

The theme of the meeting is "FHA Steps Into Action." Keynote speakers will be the Rev. Logan Comings, Brownwood, who will speak on youth involvement in today's society, and Miss Barbara Bailey, former FHA Area IV President, who will tell of her experiences with involvement in standing up for America.

LUNG WATCHING

Scientists can now watch living lungs at work. Through windows placed in the chest walls.

Almost everything that is known about diseased lungs has been discovered from dead lungs. After a lung has been stained, shrunk, and prepared for study, through, it may no longer resemble the living lung. Even the technique of rapidly freezing the lung does not permit continuous observations.

At the Northwestern University School of Medicine in Chicago, Dr. Richard Harbord has developed a technique to see lungs in action. He inserts a cup-shaped plexiglas window into a rabbit's chest wall. The window is inserted on the right side, replacing the sixth and seventh ribs which have been removed.

The rabbit's lung is drawn up against the plexiglas by suction, and the lung surface can be examined with a type of light microscope. Photographs can be taken with the aid of an electronic flash held over the window.

The trouble with the technique is that it does not reveal what happens in the part of the lung below the surface. But it is an important development in direct observation of living lungs at work. The observation can help in the fight against respiratory diseases.

One of the specific prob-

Ho-Hum Remedy

During major surgery, a patient's breathing patterns are disrupted. Complications in the chest can result later. But big, relaxing yawns can help.

Under the influence of anesthetics, breathing patterns are altered and slowed down. After surgery, decreased lung volumes in patients are common. Such changes are usually self-correcting in time. But not always.

Yawning is an effective way of increasing expansion of the lungs and the flow of used blood to the heart. Sighing is like a small yawn.

A group of doctors at Boston's Peter Bent Brigham Hospital have devised ways to encourage patients' yawns. They use a spirometer, an instrument to measure breathing, with a light on it. The light goes on when the user reaches one half of his measured breathing capacity. It stays on as long as a good yawn lasts.

Patients are told to try to keep the light on as long as possible. To do this, they must try to force a prolonged yawn.

Dr. Robert H. Bartlett, one of the spokesmen for the Boston group, says that the changes in breathing patterns during surgery can lead to closing of some of the tiny air sacs in the lungs. Post-operative breathing exercises can alleviate some of the difficulty, but they are often painful to patients who have had abdominal surgery. Five sustained yawns repeated on an hourly basis, Dr. Bartlett says, help normalize the balance of blood and air flowing through the lungs.

To find out more about your lungs and how they work under normal and abnormal conditions, contact your local tuberculosis and respiratory disease association. It's a matter of life and breath.

RICHARD SMITHS' GUESTS
Mrs. Glenn Smith and her daughters, Fran and Jan of Austin, and her parents, Mr. and Mrs. Chester Engdahl of Melvin, were Saturday visitors in the home of Mr. and Mrs. Richard Smith. The Smiths' son, Glenn, was in New York last week on a business trip.

lems Dr. Harbord is concerned with is atelectasis, a condition which involves a collapse of the air sacs of the lungs. In humans, there are 300 million air sacs in each lung, where oxygen and carbon dioxide are exchanged.

To find out more about human lungs and how they work contact your local tuberculosis and respiratory disease association. It's a matter of life and breath.

Well, What Do You Know?

fun, games and knowledge

by MARTHA GLAUCER SHAPP, Editor, The New Book of Knowledge

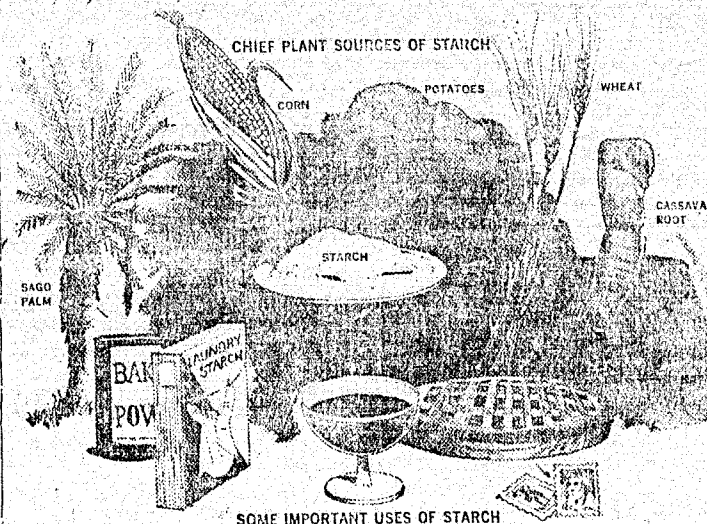

What do you know about starch?

Starch is a food material that is stored in plants — in seeds, roots, tubers (such as the potato), or stems. It supplies food for the plant and its seeds.

It is also an important food for people. It is a carbohydrate; that is, it is made up

of carbon, hydrogen, and oxygen. In the process of digestion it is changed into sugars the body needs for energy.

Starch is also used commercially. Laundry starch is one such use. It is used as well in dusting powder, in ointments and pastes, as a binder in tablets such as aspirin, and even in cleansers.

Do you know what social work is?

The chief aim of social work is to help people with problems that come up in their everyday living. The social worker is professionally trained to work with people facing difficulties they cannot handle alone. Social workers are employed by public and voluntary agencies, including family and child welfare

agencies, hospitals, youth groups, settlement houses, and schools.

Human problems are varied and complicated; they may be due to poverty, to physical or mental illness, or to family misunderstandings. Social workers can help a person understand his problems and plan ways of dealing with them.

Trickham News Notes

By Mrs. Oscar Boenicke

There will be old time singing at the Trickham Union Church Thursday night, March 25, at 7:00 p. m. We would like to have all singers and the ones that like good singing to come. We hope to have some visiting singers to be here.

Our community was sad this week over the death of Johnnie McIver, 44 years old, of Garland, son of Mr. and Mrs. Bernice McIver. He took bad sick Friday, was taken to a Dallas Hospital and died of cancer Wednesday night at 10 p. m. His survivors include his wife; three sons, John Michael, Danny Ray, and James Howard, a daughter, Linda Jo, all of the home at Garland, his parents, Mr. and Mrs. Bernice McIver, Brooksmith route, a brother, Ben J. McIver of Big Springs, four sisters, Mrs. Calvin Grubbs of Grand Prairie, Mrs. Hal Hipes of Phoenix, Ariz., Mrs. E. W. Sheehan of Burleson, and Mrs. Melvin Storms of Brownwood, a host of friends and other relatives. The funeral was in the Williams Funeral Home in Garland Friday at 3:30 p. m. and burial in Restland Cemetery in Dallas. Our sympathy is with the McIver family.

Visitors in the Bernice McIver home Saturday and Sunday were Roy and Inez Miller of Coleman, Ethel Johnson of Fort Worth, Russi James, Rankin McIver, Mary Lou Storm and family of Brownwood, Bond and Lillie Featherston, Mary and Oscar Boenicke, Clarence and Billie Ford, and Grady and Genia McIver, and Monday Irene and Marcus Durham of Coleman visited them.

Saturday night the Oscar Boenickes visited Anton and Lee Boenicke. Lee has been sick with flu about a week but is better. They had received word their daughter was real sick in the Big Lake hospital Saturday evening, but at last report she had gotten better.

Last Wednesday 17 were present at Pauline Boenicke's in Brownwood to celebrate Mrs. Millhollon's 84th birthday with a birthday dinner. She lives with Pauline. She is just a friend, but we feel like she is part of the family.

We came back by Bangs and visited Aunt Pearl Ford and Dollie Martin at the Twilight Nursing Home. I took Aunt Pearl to see Dollie while there. They are both doing pretty good.

Mr. and Mrs. Walter Stacy and Florence Stearns went to San Antonio Saturday morning and all had dinner with the Stacy's daughter and family, the Bob Sullivans and Carolyn and Robert. In the afternoon Bob took his mother and Florence to Alice to visit his brother and her son, also for Florence to visit her daughter and family, Frances and Charlie Ray Fleming and son. They brought Florence back to the Sullivans' Sunday evening and Walter and Carrie and Florence returned home Sunday night. They

enjoyed a short visit with their loved ones.

Russie James spent Saturday night in Brownwood with her sister, Yelive Cole, and Sunday they all attended church, the early service at the First Baptist Church. They all celebrated Cindy's 13th birthday. They had dinner out at a cafe. That is what she wanted to do.

Visitors with Mrs. Minnie Wilson the past week were Mrs. Hilburn Henderson, Mrs. Edna Laughlin, Mrs. Mabel Sheffield, Mrs. Tina Daniel of Abilene, and Mrs. Annie Knox of Santa Anna.

The Grady McIvers and Gayla Hornell and Lori and Allen went Thursday night to Mesquite and spent the night with the Doyne McIver family and were there the next day for Johnnie McIver's funeral.

Mr. and Mrs. Vernon Hornell spent Saturday night and Sunday with Gayla Mornell, Lori and Allen.

Ethel Johnson of Ft. Worth came home with the Rankin McIvers Friday evening from the funeral and spent the night and Saturday. Other visitors were Roy and Inez Miller of Coleman, and Russi James. Monday evening Marcus and Irene Durham bus. of Coleman came by to see them. Ethel went home with Roy and Inez Saturday and went back to Fort Worth by bus Sunday.

Mattie and Jim Lineberry and G. K. and Sug Stearns, and Russi James visited the Fred Haynes Sunday evening,

and Monday Mrs. R. L. Estes and Janie Haynes and Justin of Brooksmith visited them.

Robert Linton Oakes of Brownwood visited his grandmother, Mamie Lancaster on Saturday afternoon, and Wilford Ray Schulze and son of Midland visited her Sunday afternoon.

Mr. and Mrs. Bond Featherston visited at Brownwood on Sunday evening with Mr. and Mrs. Ed Featherston and her sister, Blanche Sparks. On Monday night they attended a farm meeting at Coleman.

Word was received here last Tuesday of the death of Dwight McClatchy of Midland. He went to school at Trickham when a young boy and was in my room. He was the son of Mr. and Mrs. Hom-McClatchy who lived in our community a number of years before moving near San Angelo. He was 68 years old. He died in a hospital at Houston and was buried in Resthaven Memorial Park at Midland.

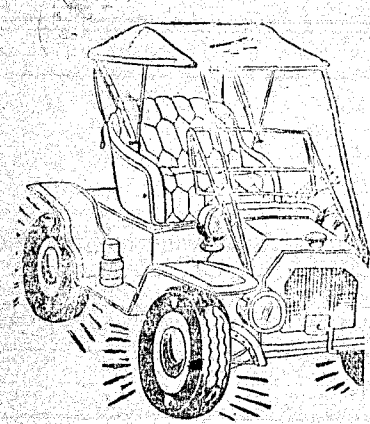

Clara James was taken to Fort Worth last week for surgery. We were glad to hear she got a good report and will be home in a few days.

It is cloudy and cold this Tuesday morning. Do hope we can soon get a good rain that is needed so badly.

The Quilting Club meets this Tuesday afternoon at the Community Center.

Mr. Curtis Collins, and John David Harper, and her mother, Mrs. Tal McClatchy, and Mrs. Edna Laughlin visited the Hilburn Hendersons on Sunday evening.

PROHIBITION POT BEGINNING TO BOIL

Harry Tracey will speak at Shield hall next Monday afternoon against the prohibition amendment.

A prohibition rally will be held at the tabernacle next Tuesday afternoon.

Oliver W. Stewart one of the best temperance speakers in

America, will speak in Santa Anna in the afternoon of Monday week.

Both sides have a number of appointments for speaking at the various country school houses.

The farmers are pretty well up with their work and, as one of our correspondents remarks, have plenty of time for discussing politics and the prohibition business.

After an hour spent in pleasant conversation, an ideal picnic lunch was served.

L. V. Stockard has received a check for "conscience money" from the presiding elder of the Guymon District of the West Oklahoma Conference of the M. E. Church.

About 20 years ago a young man named R. B. Baird worked for Mr. Stockard, who was then station agent for the Santa Fe at this place. Leaving he took with him 75 cents to which he felt that he was entitled but which disturbed his conscience for many years.

He quit railroading and entered the ministry. Was successful and finally became a presiding elder, as stated above.

A letter from Baird had a check for \$2.25 enclosed. That was the 75 cents plus interest.

Quite a clever entertainment was given the Q. Q. C. Club at the home of Mr. and Mrs. Ed Baxter, in honor of Miss Lucille Prim of Sweetwater. Miss Kitty Baxter was hostess.

The cosy little home was decorated throughout with the stars and stripes.

Sallie Kirkpatrick and Bob Prim assisted the hostess at the punch bowl.

The party was attended by the following guests: Misses Erwin Miles, Walters, Melton, Mitchell, Pieratt, Laird, Prim, Baxter, and Valentine. Messrs. Woodward, Vinson, Guthrie, Mitchell, Blue, Woodruff, Aldridge, Moore, Polk and Shield.

Passing the Pedal Pusher

Motorists today are sharing our streets and highways with more than 60 million bicycle riders, an all-time high. As never before, a driver must be alert to his legal responsibilities as he passes his slow and

silent companion of the road.

The law's number one rule is that a motorist must make fair allowance for the vagaries of bicycle riding. Take this case: A driver saw a bicyclist ahead of him on the highway, wobbling noticeably. It seems that the rider was steering his bike with one hand and balancing a rake over his shoulder with the other.

Nevertheless the driver neither slowed down nor steered to the left. At the last instant, the bicyclist lurched into his path and got hit.

Was the driver guilty of negligence? A jury decided that he was indeed for failing to adapt his driving to a danger he should easily have foreseen.

Still, motorists are not expected to do the impossible.

Another case also involved a bicycle that swung across the path of a car. But this time, the accident occurred on a dark night, the bicycle had no lights, and the rider was wearing dark clothing from head to toe.

Under these circumstances, the court saw no reason for blaming the motorist. The court said he could hardly be expected to notice someone who was so nearly invisible.

Furthermore, the bicyclist himself has the responsibility of handling his own vehicle

with care. One rider, pedalling around a bend, crashed into a car that was parked at the curb. Painfully injured, he decided to put in a claim against the owner of the car. He based his case on the fact that the car had been parked in a no-parking zone.

But the court refused to let him shift the blame for what was really his own fault. The court said:

A bicycle rider has the same duty as any other vehicle operator—to keep it under such control that he can avoid collisions. He cannot, willy-nilly, run into a standing vehicle and expect to recover damages.

Federal Tax Questions And Answers

This column of questions and answers on Federal tax matters is provided by the local office of the U. S. Internal Revenue Service and is published as a public service to taxpayers. The column answers questions most frequently asked by tax-

Q) This was the first year I earned any money. How do I get my tax forms? Must I go to the IRS for them?

A) If you did not file a return for 1969, then you can pick up tax forms and instructions at any IRS office, bank, or post office.

Tax forms are sent to every taxpayer who filed a return the previous year. To avoid sending taxpayers more forms than they may need, the IRS may send a taxpayer one of three different tax packages.

Most taxpayers will receive the basic package, which contains copies of the Form 1040 and the schedules used to itemize deductions and report income from dividends and interest.

Taxpayers who had retirement income, capital gains, or income from certain other sources the previous year will receive a tax package containing the forms for these items, in addition to those in the basic package. Farmers and businessmen will receive a third type of package, which contains the forms in the first two packages plus those needed for their particular situation.

Forms will be mailed late in December and taxpayers should have them by the first week in January.

Q) Are the tax rates on 1970 income any lower than last

years? **A)** Several changes will lower taxes for millions of people when they file their 1970 returns.

First, the income tax surcharge is 2½ percent for 1970 compared to 10 percent in 1969. Second, the amount that may be claimed for each exemption is \$625 on 1970 returns, up from \$600 a year ago.

These two changes will reduce taxes on millions of 1970 returns.

In addition, an estimated six million taxpayers will not have to file a return, as they had been required to do in 1969. In this group are part-time workers, students and others with low income.

Single persons under 65 years of age will not have to file returns until their income reaches \$1,700 (\$2,300 if 65 or older). Returns previously had to be filed when income reached \$600. Married persons from the same household entitled to file a joint return do not have to file until their income reaches \$2,300 under the new tax laws (2,900 if one spouse is 65 or older, \$3,500 if both are 65 or older).

But anyone who has a refund coming because taxes were withheld will have to file a return to obtain it.

Q) Is the cost of fixing up my barn deductible?

A) Repair and maintenance to buildings and equipment used in farming are deductible business expenses. However, when expenses of this nature materially add to the value of the property or appreciably extend its life, they must be capitalized.

For example, if you repair the roof of your barn, the expense is deductible. If you replace the roof, the cost must be capitalized.

Q) My company is sending me to Europe for a few months starting in January. Does the IRS have any overseas offices where I can get tax help?

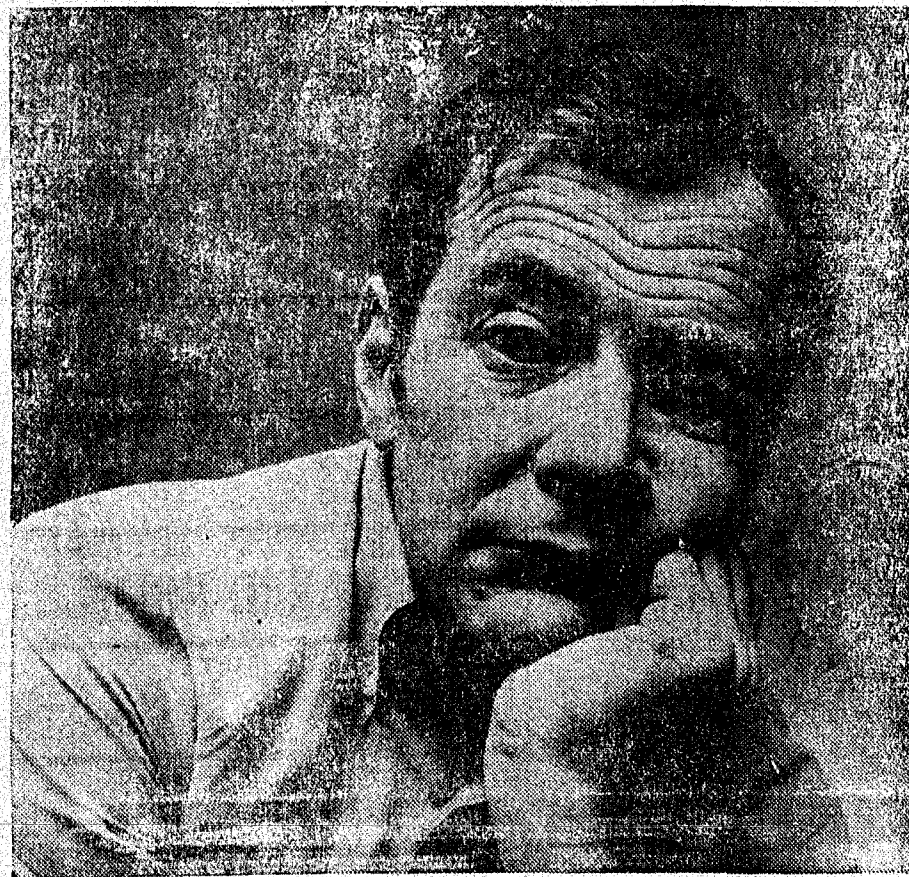

A) Yes, there are several overseas offices of the IRS to help U.S. taxpayers abroad. In addition, the IRS sends teams of taxpayer service personnel abroad each year to visit major cities to provide tax help.

Check with your U.S. Embassy of Consulate office for details. You can also obtain tax forms from these offices if you need them.

Keep in mind that taxpayers out of the country April 15 have an automatic extension until June 15 to file their returns. For additional information, send a post card to your District Director and ask for a copy of Publication 54, Tax Guide for U.S. Citizens Abroad.

To Harry Wilson, who could never save a penny.

Harry's been talking about that house he's going to buy for six years now.

Harry's still talking. When it comes to saving for something special we all have good intentions, but many of us never seem to get started, let alone have the discipline to keep saving regularly.

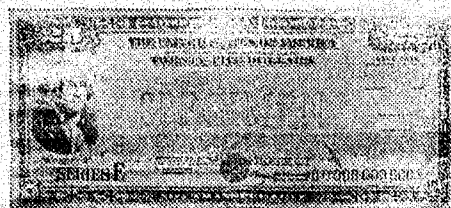

That's what makes the Payroll Savings Plan such a terrific way to build a nest egg. All you do is sign up once. Then the amount you specify is automatically set aside from your check each payday and invested in U.S. Savings Bonds.

Now that Bonds pay 5% interest when held to maturity of 5 years, 10 months (4% the first year; thereafter 5.20% to maturity), your savings will grow faster than ever.

So, if you see a little bit of Harry in yourself, maybe it's time you joined the

Payroll Savings Plan.

It's time to do more than just talk about your future.

Bonds are safe. If lost, stolen, or destroyed, we replace them. When needed, they can be cashed at your bank. Tax may be deferred until redemption. And always remember, Bonds are a proud way to save.

Take stock in America. With higher paying U.S. Savings Bonds.

The U.S. Government does not pay for this advertisement. It is presented as a public service in cooperation with The Department of the Treasury and The Advertising Council.

When you promised to share and share alike, did that mean your wife could use up all the hot water?

You could get up earlier. Then you'd be sure to beat her to it. Of course she wouldn't be too impressed with your chivalry.

Another alternative is a larger gas water heater. Gas water heaters are easy to buy, easy to install, and recover hot water up to twice as fast as comparable electric models.

So stop competing with your better half. Get a larger capacity hot water heater. For fewer fights and lots more hot water.

J. S. Martin Wins Top Prizes At Rattlesnake Show

A Santa Anna rattlesnake hunter, J. S. Martin, was the top winner at the Brown County Rattlesnake Roundup at Brownwood last weekend. He received several trophies and cash prizes.

Martin took a first place award for capturing the most snakes on Saturday and the second prize for the most snakes in the two-day period. He brought in 78 rattlesnakes Saturday afternoon. In addition he received the second place trophy and money prize for the most unusual snake. One of Martin's captives had a "wart" on its nose.

Snake hunters brought in over 1,000 snakes during the two day show. The prize for the most snakes was won by two Mercury hunters who captured 110 rattlers during the two days. The two men, Charles and Jerrell Cummings also had the longest snake which measured 64 1/2 inches. The shortest snake captured and exhibited was brought in by George Garrett of Stacy and was less than two inches in length. The most unusual snake was a rattle-less snake, and the Mercury hunters also had the snake with the largest number of rattles—18.

A snake sacking contest was also a feature of the Brownwood snake show.

The snake and "wildcat" show was the seventh annual show to be sponsored by the Brownwood Jaycees.

Darwin Lovelady is in charge of arrangements for the annual affair.

VFD GIVES AID AT GRASS FIRES THE PAST WEEK

Grass fires have been prevalent in the area during the last weeks with the Santa Anna Volunteer Fire Department making a number of calls recently.

On Wednesday of last week the local department was assisted by the Coleman department in extinguishing a grass fire west of town on the San Angelo highway. High winds whipping the utility lines caused the blaze which burned approximately 75 acres on the Shield, Eubank, and Watson places.

Two fires were extinguished on Saturday. A fire started by a passing train burned 10 to 15 acres of grassland at the Glen Pope place east of Santa Anna. The second fire Saturday was four miles west of Rockwood where several acres was burned after being ignited from burning pear.

J. Mobley Cited For Saving Life Of Shock Victim

Rantoul, Ill.—Staff Sgt. Jackie E. Mobley, son of Mrs. Jack Mobley, has received the U. S. Air Force Commendation Medal for meritorious service at Chanute AFB, Ill.

He was cited for saving a man's life who had been felled by an electrical shock. The sergeant's expert administering of artificial respiration, heart massage and administration of oxygen, saved the victim's life.

Sgt. Mobley is assigned as an electrical power specialist at Chanute with a unit of the Air Training Command.

He graduated in 1957 from Santa Anna High School. His wife, Joyce, is the daughter of Mrs. R. C. Smith of Santa Anna.

ATHLETIC BOOSTERS . . . Cheerleaders at the recent Quarterback Club basketball games were these athletic boosters, Claudia Rutherford, Loeta Pope, and Winnie McQueen, and kneeling front, Bettie Bryan. The four women helped entertain the crowd at the outsiders basketball games. Proceeds from the games will be used to honor the Santa Anna school athletes and coaches with a supper and program on April 22.

WTU Employee At S-Angelo In Service School

J. W. Fulbright, West Texas Utilities Company appliance serviceman in Santa Anna, is in San Angelo this week attending a WTU appliance service training school. The purpose of the school is to train the serviceman in the installation and maintenance of new appliances and to add to his knowledge of the repair of other appliances.

These service training schools are conducted each year by West Texas Utilities Co., in each of the company's seven district offices.

The 1971 training schools feature a "tear-down" program in which the servicemen disassemble each appliance and then re-assemble it piece-by-piece, restoring it to perfect operating condition. During the week, they work on washers, dryers, refrigerators, ranges and dishwashers.

Instructors at the service schools are WTU personnel from the service training department in Abilene and Frigidaire regional service representatives from Ft. Worth.
