Mountain Echoes

By Barbara Kingsbery

The rain was very welcome in our community although many area residents suffered hail and wind damage. Without exception, those with whom we talked expressed their pleasure over the added tank water and were uncomplaining about the damage done to their homes and property. Rural residents have to be optimistic people.

The good rains Monday added quite a bit of water to Lake Brownwood, according to Mayor Thomas Wristen. Local city officials have been watching the lake closely as our city water comes from there.

Although there had been rumors that Santa Anna was in grave danger of a water shortage and rationing, Wristen said that the "hole" where the local water was pumped was large enough to supply Santa Anna for months. The recent rains will make the city water situation even brighter.

Now that the good new highway to Coleman has been completed the construction is soon to begin going eastward to the Brown County line. The latest highway job will be eight miles in which the two lane road is converted into four lane. No date has been set on beginning the project.

The local theatrical group is expecting a call any day from Broadway—either inviting them to bring the western comedy to New York or asking them to cancel further performances in deference to the performing arts!

Band Boosters and supporters are willing to do almost anything to raise money for the new uniform fund. We hope everyone in the community will join in the fun by attending the production on Saturday night.

Lowes Represent SA Congregation At Annual Meet

The Central Texas Annual Methodist Conference will be held in Fort Worth on June 7-9. The Santa Anna United Methodist Church will be represented at the three-day session by Mr. and Mrs. Clifford Lowe, voting delegates chosen by the local church's executive board.

The ratification of two proposed amendments to the church's constitution and the election of representatives to the quadrennial policy making body of the church will be highlights of the annual meeting.

Dr. Collin Morris, "successor to Methodism founder the Reverend John Wesley," will be speaker at the meeting. Dr. Morris is pastor of Wesley's Chapel Methodist Church on City Road in London, England, and has authored 13 books. He will speak at the Monday, Tuesday and Wednesday night services.

Bishop Kenneth W. Pope is expected to read 240 pastoral appointments at the close of the session on Wednesday evening.

The three-day meeting will be held at the Fort Worth First Methodist Church and the Sheraton - Fort Worth Hotel.

The greatest damage reported was at the Buddy Neff place four miles north of Santa Anna where the roof of the house was damaged, windows broken and a truck and car windshield broken. In Our Opinion

By W. T. HAYS

SOME OF US REMEMBER that in his campaign speeches, President Richard Nixon as quoted by The New Republic on October 26, 1968, said: "What I am against is the use of the threat of withdrawing federal funds to force a local school board to balance its schools racially by busing children all over the city. If the school board thinks busing is best, that's up to them. But federal money — or the threat of its withdrawal — should not be used to force the."

Then in U. S. News and World Report of August 19, 1968, he was quoted: "My feelings is this. I think that busing the child—one that is two or three grades behind another child and into strange community — I think that you destroy the child. The purpose of the school is to educate. That is what we have got to do. We have got to educate them and I don't believe in that manner of approach . . ."

What is the president's record in carrying out these campaign commitments? He has failed to use his authority over his own subordinates in the HEW and Justice Departments to fulfill his campaign promises.

An amendment which would have restored freedom of choice in our schools passed the House of Representatives on July 3 of last year and was on the verge of passing the Senate, however HEW Secretary Finch went all out against the measure and put so much pressure where he could until it failed.

Finch is directly responsible to the president for his actions, and there is not much doubt that he had the sanction of Nixon in his actions.

The vast majority of American people believe it is the inherent right of parents in a free society to exercise some authority and control over the education of their children. Some are misled into believing that our nation will benefit by the recent Supreme Court decision demanding more forced busing of their children. Where the people have lost control of schools disaster has followed.

"The trash cans of history are filled with the ashes of nations which seized control of education from parents and local institutions." Many Germans and Russian who applauded Hitler's removal of local control over education to the state and Lenin and Stalin's takeover of education have lived to have second thoughts as they rotted away in concentration camps and froze in Siberian takeover of educational institutions. Next they throttle

The prelude to dictatorship in any nation is the takeover of the educational institutions. Next, throttling the press. Then comes the gradual process of subjugation of the people until the first thing they know they are living in a dictatorship. The framers of our constitution would turn over in their graves if they could return and see what their democracy has turned into.

In comparison there is little difference in the power of the Supreme Court of the United States and the Soviet Presidium when it comes to running the country. They do not interpret the laws of our land, they legislate them.

Chief Justice Warren Burger ruled (although there is no place in any legislation ever passed by Congress which says so) that if a neighborhood school failed to provide enough integration, that school would have to be broke up and its pupils scattered across the country. "We find no basis," ruled Nixon's chief justice, "for holding that local school authorities may not be required to employ bus transportation as one tool of school desegregation."

Now millions of small children will be herded like cattle from their home area to no telling where and suffer the consequences of the Nixon-Burger policy.

Remember this next election whoever is running and in whatever party.

STATE Capital NEWS
By VERN SANFORD

Austin — Sixty-second Legislature wound up its regular session with a bang and a roar — and a few whimpers.

In a photo-finish, the House Senate conferees tumbled out a record \$6.9 billion biennial budget for near-deadline consideration.

Lawmakers earlier agreed on a \$617 million tax bill which will go into effect July 1, then followed up with \$35 million worth of new taxes on liquor-by-the-drink and by-the-gallon.

Texans will be paying four per cent (five in most cities) and auto sales-rental tax, 18.5 cents a pack on cigarettes; \$4.50 per \$1,000 on corporation franchises; and \$5 per barrel on beer. A 10 per cent gross receipts tax will be levied on mixed-drink sales and \$1.95 a gallon on liquor sales generally. A gasoline tax increase, approved earlier, was repealed in a subsequent bill.

Among other achievements for which the 62nd Legislature will be remembered are:

- Ratification of a federal constitutional amendment to lower the voting age to 18.
- Approval of a liquor-by-the-drink sales act and submission of a mixed-drink referendum to the first group of wet counties on May 18.
- Congressional and legislative redistricting.
- Submitted a constitutional amendment to authorize the convening legislature in 1974 to sit as a convention to re-write Texas' constitution.
- Passed far reaching bank law reform legislation.
- Creation of a tuition-backed revenue-bond fund to build new state colleges.
- Establishment (by constitutional amendment) of a \$100 million bond fund to aid cities that build sewer facilities.

Lawmakers gave up on budgeting for welfare services for this biennium, and will return next year (if not sooner) to appropriate funds for 1973 assistance to the needy, meanwhile hoping for expended federal aid.

AG OPINIONS — An appointee who served one day as "executive" of a printing company was ineligible for the "employer" member position on the Texas Industrial Accident Board, Atty. Gen. Crawford Martin has held.

In other recent opinions, Martin concluded that:
• Governor does not have power to veto proposed constitutional amendments.
• A bill providing that a dry area annexed to a wet area shall occupy the same wet status as the annexing area is unconstitutional, as it violates the local option mandate.

• Applicants signing petitions for incorporation of a new town must be qualified electors who have resided in the area at least six months. Area must contain more than 200 inhabitants "who do not have to be qualified electors."
• Out-of-state witnesses in criminal cases receive compensation solely from the state, not the counties.

• Environmental Protection Act of 1971 is constitutional in authorizing private individuals to maintain legal anti-pollution actions on behalf of the public or to sue the state, but vagueness and caption of the bill offer constitutional problems.

• Bill authorizing commissioners courts in "counties of one million to 1.5 million" to prohibit keeping hogs within 500 feet of a residence not in an incorporated city is unconstitutional.

• A hospital district in which an indigent prisoner was held by the sheriff is liable for his medical bills when it did not have adequate facilities and treatment had to be administered by another hospital.

• Texas Board of Licensure for Nursing Home Administrators has no authority to fix licensing fee of \$50 per annum for "administrators in training."

• A State Department of Public Welfare employee called out an emergency mission for protective service to an abandoned or abused child is entitled to reimbursement for official travel mileage expense.

COURTS SPEAK — U. S. Supreme Court decision striking down Georgia's financial responsibility law poses a threat to Texas' law. Court said the law must provide for determination of fault before a drivers license is suspended.

Third Court of Civil Appeals here reversed the local court in a suit involving control of an Abilene bank.

State recovered \$6,000 penalty from Texas Rockwool of Belton in an air pollution suit filed by the attorney general on behalf of the State Air Control Board.

State Board of Registration for Professional Engineers got a permanent injunction against a Del Rio man from practicing engineering or representing self to the public as a licensed professional engineer.

APPOINTMENTS — Rep. Tommy Shannon of Fort Worth was designated by House Speaker Gus Mutscher of Brenham as speaker pro tempore of the House of Representatives.

George W. Horan Jr. of Fort Worth and George Dillman of Dallas were designated chairman and vice-chairman of the Texas Tourist Development Board.

Gov. Preston Smith named J. H. Bain Jr. of Stockdale to a new term on the Finance Commission of Texas.

Smith appointed John T. Duncan of Bryan to the American Revolution Bicentennial Commission, to replace Mrs. Marcella Perry of Houston who resigned.

PARK PROJECTS APPROVED — U. S. Bureau of Outdoor Recreation approved \$1 million in federal matching grants for 14 Texas park projects.

Projects are Houston hike and bike trails, \$85,500; general park development of Fort Belknap Park, \$11,315; LaPorte acquisition of 11 lots, \$3,350; Carver Park, Texas City, swimming pool and other improvements, \$208,450; Seawolf Park, Galveston, pavilion, pier service building and other improvements, \$358,500.

Monterrey Park, San Antonio, football-baseball lighted field and other facilities, \$46,000.

The O. L. Cheaneys Honored Sunday With Reception on 50th Anniversary

Mr. and Mrs. O. L. Cheaney were honored Sunday afternoon, May 30, with a reception in observance of their 50th wedding anniversary. The party was held at the annex of the First United Methodist Church. The Cheaneys' son, Robert Joe Cheaney of Phoenix, Ariz., and their daughter-in-law, Mrs. O. L. Cheaney, Jr., of Houston, were hosts for the reception.

Mrs. Neal Oakes of Coleman greeted guests at the door. In the receiving line with the honorees and the hosts were the Cheaneys' grandchildren, Robert Joe Cheaney, III, Barbara and Nancy Cheaney, all of Houston.

Mrs. Jodie Baker of Breckenridge, sister of Mrs. Cheaney, presided at the register. The white leather guest book was on a stand covered with a white cloth and decorated with a cluster of gold flowers tied in gold ribbon.

An arrangement of 50 yellow roses in a gold fernery decorated the long table on which the gold punch and coffee services were placed. The white floor-length net and lace cloth was edged in gold braid. Appointments were of gold and crystal. Mrs. Nancy Cheaney Mickler of Haskell and Mrs. Roger George of Brady served the punch. Mrs. Joe Bailey Cheaney of Abilene and Mrs. Mary Dellinger Maxwell of San Angelo served coffee.

Mrs. JoAnn Baker Whisnand of Midland served cake from a round table covered in a cloth matching that on the other table. The five-tiered cake was iced in white and decorated in gold. A miniature bridal couple topped the cake and a cascade of gold straw flowers was from the top tier to the base. The tiers were separated by slender white columns.

Assisting with the serving were Mmes. R. R. Lovelady and Leon Todd, both of Coleman, Louis Shambeck of Santa Anna, and Misses Debbie

and Deanna Whisnand of Midland. Jimmy Benton played piano selections during the party hours.

Floral arrangements of yellow roses, gold chrysanthemums and orchids decorated the party rooms. As the party began, Rev. Louis Shambeck, pastor of the United Methodist Church, read two poems appropriate for the occasion and led in prayer.

Mr. Cheaney and the former Nancy W. Stephenson were married on May 7, 1921, at the Santa Anna Methodist parsonage with Rev. R. A. Crosby, pastor of the church, officiating. Mrs. Cheaney is the daughter of the late Mr. and Mrs. Robert Stephenson, and Mr. Cheaney's parents are the late Mr. and Mrs. Joe Cheaney. NOTICE AFFORDING OPPORTUNITY FOR PUBLIC HEARING CORRIDOR ROUTE

The Texas Highway Department is planning the improvement of U. S. Highway 84 from junction of U. S. 67 in Santa Anna, East 8.0 miles to the Brown County Line. The proposed highway project will pass through the town of Santa Anna on the present route and will follow the present route eastward.

Some 12 acres of additional right of way, a maximum of 125 ft. wide, will be necessary on the south side of the present road just east of Santa Anna on the transition from 2 lanes to 4 lanes. Two new lanes will be built north of the present road for most of the balance of the project. This will require a strip of additional right of way approximately 125 ft. wide north of the present right of way.

Plans provide for rebuilding of the highway to modern design requirements for a four lane divided highway with no frontage roads. Work is to be scheduled such that the present facility will be utilized to carry traffic during construction of the additional lanes. The existing facility will then be overlaid and improved to serve as two lanes of the completed four lane facility.

Maps showing the proposed corridor route, drawings, information on environmental studies, and other available information about the proposed project are on file and available for inspection and copying at the Resident Engineer's Office at Coleman. Maps have been placed on file with the City of Santa Anna.

Information about the State's Relocation Assistance Program, the benefits and services for displaced and the relocation assistance office, as well as information about the tentative schedules for acquisition of right of way and construction can be obtained and is available for inspection and copying at the office of Mr. E. M. Pritchard, District Engineer, Texas Highway Department, Brownwood, Texas, and at the office of Mr. Earle C. Mayo, Sr., Resident Engineer, Coleman, Texas.

Any interested citizen may request that a public hearing be held covering the social, economic and environmental effects of the proposed corridor route for this highway project by delivering a written request to the Texas Highway Department Resident Engineer's Office, Box 935, Coleman, Texas on or before June 17, 1971.

In the event such a request is received, a public hearing will be scheduled and adequate notice will be publicized about the date and location of the hearing. 27-2tc
