## CIO Groups Are Set Up To Aid Pro-Red Charges

### Purge Of Leftist Unions Is Slowed Down For Hearings

CLEVELAND, Nov. 5. (AP)—The CIO slowed down its purge of left-wing unions today to allow hearings on pro-Communist charges against ten unions and nine leaders.

The executive board meeting to carry out the anti-leftist instructions of the convention which ended last night, set up committees to aid the charges.

Between the convention and the board the CIO now has gone this far in ridding itself of a "small but noisy clique" which President Philip Murray said was harassing the CIO by adhering to the Communist Party programs:

1. Expelled the United Electrical Workers and Farm Equipment Workers, with about 470,000 members. It moved to grab off those members by creating a new right-wing union in the electric and radio field, under guidance of rightist James B. Carey, and turned over farm equipment plant jurisdiction to Walter Reuther's Auto Workers.
2. Ruled that Ben Gold, head of the Fur and Leather Workers, could not serve on the executive board because he admits being a member of the Communist Party.
3. Gave the nine other left-wing union heads nominated to the executive board a chance to be heard by three committees on charges of pro-Communism.
4. Paved the way for ouster of the ten unions accused of following Communist policies rather than those of the CIO.
5. Voted that the CIO's top 11 officers now will sign the anti-Communist affidavits required by the Taft-Hartley Act—26 months after it went into effect—so that the CIO's industrial union councils can have access to the National Labor Relations Board.

## China Pledges Finish Fight Against Reds

CHUNGKING, China, Nov. 5. (AP)—The Chinese Nationalists acknowledged today that the Communists were inside Kweichow province and hammering at the gates of Szechwan province, but vowed to fight to the end, with or without foreign aid.

The defense ministry said Communist armies in unstated strength had reached the Tienchu district, 17 miles inside Kweichow province and 150 miles northeast of the provincial capital, Kweiyang.

PERSISTENT RUNAWAY—Seven-year-old Roland "Pancho" Zuniga hugs a big white rabbit pet given to him for a promise not to run away from his San Diego, Calif., home. He disappeared Halloween for the 11th time. After three days and nights wandering, scared of mean dogs and chickens he was found several miles from home by a service station attendant. Fall of Kweiyang, 210 miles southeast of Chungking, would virtually split the Nationalist mainland holdings in half.

Communists also were acknowledged to have reached the area of Lunghsi, 175 miles east of Chungking near the border of Chungking's Szechwan province.

Despite the government's straits, Premier Yen Hsi-Shan declared in an interview, "we are short of manpower, material and money, but the Communists will not conquer us. We are not afraid of them. We are prepared to meet and beat them."

At the same time he admitted, "The task is difficult because our defense line stretches 1,800 miles; it is impossible to prevent a breakthrough."

"But we can—and are—determined to meet and beat them."

## Texans To Vote In Important Election Tuesday

### Proposed Changes In Constitution Will Be Decided

Texans vote Tuesday in one of the most important off-year elections in recent years. They will decide on proposed changes in the constitution. They will ballot on 21 members of the state's first elective board of education. They will fill one vacancy in the state Senate and four in the house.

More than a million and third votes could be cast, but the outlook was for nearer 250,000.

The big fight over the amendments has centered on the one providing for annual sessions of the Legislature and annual pay of \$3,600 for members. There has been statewide campaigning on it, and a statewide campaign centering on the amendment abolishing the poll tax.

The education board election is another step to make effective the Gimer-Alkin bills. The elective

## Liquor Sales Not Prohibited

AUSTIN, Nov. 5. — State law does not prohibit sale of beer and liquor on special election day Tuesday.

The Liquor Control Board said that Tuesday is not a "general election day" as defined in the State Liquor Law.

"All alcoholic beverages can be sold in areas where there is not a city ordinance prohibiting the sale of such beverages," said Coke Stevenson, Jr., liquor administrator.

## GINS SNOWED UNDER

### Record Cotton Crop For County Forecast

The ginner, the farmer and practically all others with a ringside view were all but ready to concede Saturday that Howard county's 1949 cotton production will establish a new record.

Gins were behind schedule Saturday night, following a week of ideal harvest weather, and the end apparently was not even close. Estimates were that ginning figures in the county were approaching the 30,000-bale mark, almost 8,000 more than the season's total last year.

In fact, the county's cotton production has exceeded 30,000 bales only on five previous occasions. The last time was in 1947 when the total reached 32,200, a figure that probably will be topped early next week.

The first year the county went over the 30,000-mark was in 1931 when 30,524 bales were harvested. In 1932 the figure was 25,303 bales while the present record of 50,710 bales was set in 1937. Another bumper crop of 49,085 bales came along in 1941.

Observers Saturday were doubtful that much over half of the 1949 crop had been harvested.

The four gins in Big Spring and the Fairview gin had processed over 14,300 bales late Saturday afternoon, and over 500 bales were awaiting service at the various gins.

There probably would have been

## City Firms Planning Christmas Shopping Season Activities

Early response to a card survey has indicated almost unanimous participation in Christmas season activities by Big Spring business firms, the chamber of commerce reported Saturday.

The chamber's retail trade committee, which will sponsor a special celebration on Dec. 2 to formally open the Christmas shopping season in the city, is polling merchants and business men on plans for the event.

Over 85 percent of the first group returning cards indicated that they would offer prizes in the annual treasure hunt, while over half of the group reported plans for specially decorated windows to be unveiled during the celebration. Several of them are planning to sponsor entries in the annual Christmas parade.

Various sub-committees of the chamber's retail unit are making progress on plans for different phases of the Christmas season's opening event. Several individual sub-committee meetings are due next week, and the entire retail trade committee may be called for a parley, probably toward the end of the week.

Letters are going out to all schools and clubs in the area, extending invitations to sponsor entries in the parade and to participate in other festivities.

WATER DOES JOB OF AIR

LIVERPOOL, Eng., Nov. 5. — The trucks of a cartage firm here are rolling on water instead of air.

T. Beard, the firm's chief engineer, said he began experimenting with water-filled tires a year ago and "the results are excellent."

## Mayor Found Dead

HENRIETTA, Nov. 5. (G—) Gus Blakely, 53, mayor of Henrietta, was found dead in his automobile on a Henrietta residential street today.

He was an oil lease operator and real estate man with offices here and in Wichita Falls.

Justice of the Peace O. D. Worsham withheld an inquest verdict but announced that his tentative verdict was death from heart attack.

## Blount Opposes Annual Sessions Of Legislature, Increased Solons' Pay

Opposition to the amendment which would impose annual sessions of the legislature and raise solons' pay has been voiced by Rep. R. E. (Peppy) Blount.

This amendment, together with nine others will be up for a referendum Tuesday.

Rep. Blount took the position that economy in government should "start at home," and that the 51st legislature had shattered all records for appropriations and length of session.

Prospect of annual sessions, he said would leave business in Texas in "total bewilderment, never knowing what to expect next. New industries would hesitate to come to Texas, knowing that we have an all-year round session of the legislature." He added that constant or prolonged session held the danger of a welfare state and the threat of eventually imposing sales or state income taxes.

As for abolishing the poll tax, Rep. Blount was on record as favoring it. He said he favored the Jeffersonian view that "every citizen has a right to take part in his

## Hopes Rise For Early End To Steel Walkout

### T-H Injunction Against Miners Is Possibility

WASHINGTON, Nov. 5. (AP)—The government was reported tonight to have set a deadline roughly one week from now for decisive action to end the soft coal strike.

In the steel strike there were some setbacks, but developments of high promise affecting five large and small steel companies buoyed hopes of an early, negotiated peace with CIO's United Steelworkers.

Republic Steel Co., the country's third biggest, had a settlement offer pending. Jones & Laughlin scheduled peace talks for Monday. Youngstown Sheet and Tube for Tuesday. Two smaller firms signed up—Lukens Steel Co., 5,000 workers, and McLouth Steel Corp., Detroit, 1,500 workers.

Even if more steel firms sign contracts, most of them can run only a few weeks without fresh coal supplies. And it was learned tonight that neither mine chief John L. Lewis, in yesterday's secret mediation talk, nor the coal mine owners now heading for Washington have yielded ground.

"If mediation cannot bring some results this week, it's the last try. We will have to try some other treatment."

This coincided with hints from White House sources that President Truman is being urged by some advisors to call for a Taft-Hartley Act injunction to send Lewis' 380,000 United Mine Workers back to the coal pits.

Nine days ago Mr. Truman said no national emergency exists which warrants Taft-Hartley action. His associates will not agree that he should use the act which labor hates and the Democratic Party has promised to repeal.

But the decision may be hastened by the present onset of cold weather in many areas, widespread reports of hardship, and rising unemployment in industries dependent on coal.

Cyrus E. Ching, Federal Mediation Service director, has promised to procure a settlement "as long as there is any use."

This seemed to mean that if he fails to win a bargained settlement, the next step is Mr. Truman's.

Southern coal operators will meet here Monday (1:30 p.m., CST) with Ching. The mediator may issue a call to northern operators on Tuesday, and later arrange a joint North-South conference.

So far, Ching has no plans to bring Lewis and the operators face to face. He conferred secretly with Lewis yesterday for two hours. Though there was no hint of a change in Lewis' position, Ching told reporters the talk with the United Mine Workers' president was "pleasant and constructive."

## LOCAL FIRMS CO-OPERATING

### Spadework Pressed In Chest Campaign

Community Chest organization was pressing foundation work Saturday as it pointed to the start of the general canvass a week hence.

Meanwhile, first returns were received on contacts with firms with sizeable groups of employees for acceptance of canvass responsibility. The Continental Oil company and Chamber of Commerce were added to the 100 per cent employee donors, joining Westex Oil. The First National bank had all but reached the goal.

Teams continued contacting employers. Joe Pond and K. H. McGibbon reported 100 per cent acceptance by employers of 20 names on their list. Employers are being asked to arrange for the "day's pay" appeal to be carried to their staff members.

Saturday saw the start of the rural organization. First group of workers got instructions from Durward Lester, county contact chairman, Ross Hill was to handle the Elbow canvass; Mrs. Porter Hanks, Vealmoor; L. J. Davidson, Center Point; A. J. Stallings, Lomax; Mrs. Shirley Fryar, Hiway.

Ed O. Groehl, general chairman for the 1949 Chest, urged teams on the "day's pay" division to complete their contacts as quickly as possible. In turn, he urged employers to report as speedily as the invitation to support the Chest have been completed in their ranks.

A call to Chest headquarters at 3444 will result in calls being made for the results.

So far as possible, Chest officials are desirous of getting the bulk of this division of the campaign complete this week.

Special gifts teams were in the field, but no reports were anticipated before the first of the week. Groehl said these workers were being asked to press for an early conclusion of their contacts.

Ray Griffin is shaping up the general solicitation, scheduled to start on Nov. 1. He is due to complete organization of his teams during the week.

Picards and posters, appealing for Chest support were to go up in the downtown area during this week, said Groehl.

Goal this year has been held to the total for last year—or \$37,000. Six local welfare agencies—the Boy Scouts, Girl Scouts, Salvation Army, YMCA, AA and the Chest, for a minute administrative amount—are dependent upon the success of the Chest for operating funds.

## Denver Police Chief Is Slain

DENVER, Nov. 5. (AP)—Denver police Chief John F. O'Donnell was found shot, apparently with his own service revolver, today in a small washroom off his office. He died 20 minutes later.

O'Donnell's resignation was to have become effective Nov. 15.

A custodian, Roger Smith, said he heard a shot and called Detective Richard Brown. They broke down the locked door. O'Donnell, 48, was slumped over a toilet. He was shot through the mouth. His revolver was nearby.

O'Donnell was rushed to Denver General Hospital but died as attendants were trying to prepare him for surgery.

O'Donnell submitted his resignation two weeks ago. Mayor Quigg Newton, who named him chief in 1947, said the chief told him he needed a complete rest. Capt. Herbert Forsyth was named then to replace O'Donnell.

The local American Legion post has opened its third annual Safety Seal campaign.

The job of stressing safety has been an outstanding objective of Legion posts everywhere since World War I and Frank Hardesty, local commander, said if he and his co-workers can make every one in Big Spring safety-conscious during the campaign he will consider the drive a success.

The distribution of suggestions for safety through various designs highlights the Safety Seal campaign. This year, there are 46 different designs, dealing with such things as fire, traffic and industrial hazards. There also are helpful hints for prevention of accidents in the home or on the farm.

The seals are for use on mail and packages.

Hardesty pointed out that extensive use of the seals will help safety on the part of both motorists and pedestrians.

By purchasing the seals, he said, the public can help the American Legion carry on a great work of welfare and rehabilitation among disabled veterans and their families.

Anyone desiring further information on the campaign, Hardesty added, can contact Neil Barnaby, past commander, D. L. Burnette, Bert Starnes or the commander himself.

## Coahoma Man Hurt In Auto Accident

Cullen Cranfill of Coahoma, who county officers said was on his way to Plainview to get married, and Mrs. Gerald M. Sanders of Big Spring were involved in an automobile mishap which occurred approximately three miles north of Big Spring around 7:30 a. m. Saturday.

Authorities said the accident occurred when the Sanders machine turned off the road while Cullen was seeking to go around her.

Cullen suffered minor injuries while Mrs. Sanders was not hurt.

## DOLLAR DAY TO BE OBSERVED MONDAY

First Monday of November brings a return to the monthly profit-sharing sales day designated as "Dollar Day" in Big Spring.

Again most major retail stores of the city are joining in a city-wide bargain event, to attract shoppers from this and surrounding communities who are looking for extraordinary values.

Emphasis on November's Dollar Day is being placed on early winter merchandise and even on items suitable for Christmas gifts. Shoppers will find variety in their tour of the local stores Monday.

To help make transportation available for all, The Herald again is cooperating with the Bucher Bus Lines to offer free bus rides to town on Monday, for women shoppers. The coupon appearing below may be clipped and presented to any Bucher bus driver, and it will be accepted, under the conditions printed thereon, in lieu of the regular bus fare.

## Reviewing The Big Spring Week

With Joe Pickle

Now getting underway is the 1949 Community Chest appeal. The standard slogan of "give once, give enough" is appropriate. Too many who give do not take into account that six agencies are dependent upon the Chest for support. Beyond that, there are too many who drag their feet and want others to carry all the load. Good sports don't play it that way.

Old Man Winter slipped in a sneak punch last week, conjuring the earliest frost in 29 years. The autumn season, however, has been working up to it with a series of cold snaps and no one was surprised. On the whole, the frost was helpful. It killed some cotton foliage without freezing bolts.

Howard county could easily shatter all its cotton production records this year. It was a reasonably safe estimate Saturday night

## Texas City Lawsuit Entering Final Phase

HOUSTON, Nov. 5. — One of the most unusual federal court civil suits in history enters its final phase here next week. Closing arguments will be held in the \$200 million mass trial of Texas City disaster damage suits.

Background for the trial was laid by the Texas City waterfront disaster which killed over 500 people April 16-17, 1947.

Between 2,000 and 3,000 plaintiffs are demanding that the federal government pay them amounts ranging from \$2 to \$50 million for personal and property damages suffered in the disaster.

The approximately 300 separate suits have been pooled into one mass trial to determine one point—whether or not the government is liable for damages.

Patently presiding over the case since it began April 24 has been 75-year-old Federal Judge T. M. Kennerly. It was he who arranged the coming of the suits for determination of the liability issue. Should the plaintiffs eventually win the issue, each suit then would go before a federal judge to be determined on its merits.

It may be years, however, before final disposition of the liability question is made, and then probably by the Supreme Court.

Attorneys in the mass trial have little doubt that, regardless of lower court decisions, the case will be appealed to the Supreme Court.

Kennerly obviously has recognized this point. Only last week the testimony of one of the individual damage suits was entered into the trial's records on his suggestion.

He told the attorneys such a case probably would be needed to complete the trial's records for appeal to the Fifth Circuit Court.

Most of the testimony has centered around a chemical compound that has been blamed for the disaster—fertilizer grade ammonium nitrate.

The cargo of the French freighter Grandcamp, original vessel to explode in the disaster, included a shipment of the compound.

Briefly, the plaintiffs contend:

1. The Grandcamp's ammonium nitrate shipment was manufactured at government ordnance plants.
2. Government officials and bureaus failed to take action to as-

### BARKING DOG PUTS ON SHOW

HAWTHORNE, N. J., Nov. 5. — A telephone operator called police last night when she heard gasps and the barking of a dog coming over an open line.

Police quickly went to the address to check up.

There they found the dog, a natural gasper, had pulled the phone off the hook and was putting on the show all by himself.

### Jane Ellen Stripling In SMU Choral Union

Jane Ellen Stripling, daughter of Mr. and Mrs. Hayes F. Stripling, Big Spring, is a member of the SMU 200-voice choral union.

Miss Stripling is a 1949 graduate of the Big Spring high school. She is majoring in pre-medical work at SMU where she is a freshman.

The choral union, under direction of Orville J. Brochers, dean of the SMU school of music, is to present Handel's "Messiah" in December.

### Hearing Aid Batteries Need Refrigeration

NEW YORK. — Hearing aid batteries should be kept in the refrigerator. That is the caution from one of the country's biggest dry cell battery makers.

Winter or summer, when not in use, surplus dry cell "A" batteries for hearing aids will last longer when kept at about the 45 degree Fahrenheit temperature of the average refrigerator, according to W. S. Allen, general manager of the electrical division of Olin Industries, Inc.

The batteries should also be kept in a tightly sealed glass container

which will reduce humidity he said. It is a good idea to let a battery rest from two to three times longer than it is used. It has the power to recuperate. A full day's use is the maximum for any "A" battery to be used without re-charge. Mr. Allen said.

BILLINGS, Mont. — A 55,000-barrel oil tank served as a dining room when the Continental Oil Co. held open house at the opening of its new \$9,500,000 Billings refinery. The new refinery has a daily crude oil capacity of 7,500 barrels.

### TEXAS NOVELTIES MANUFACTURER RETURNED TO PENNSYLVANIA PEN

HOUSTON, Nov. 5. — A Dallas-Galveston novelties manufacturer has been returned to a Pennsylvania prison as a life term parole violator.

Peter M. Duca, convicted in 1932 of the 1928 slaying of two union miners, was flown back to prison Friday.

He was arrested in Dallas Wednesday as he stepped off a Galveston train by Harris County Sheriff C. V. Kern and others investigating the Houston slaying of restaurant owner Vincent Vallone.

Duca's parole was revoked at the request of Kern and Harris County District Attorney A. C. Winborn. Kern said Duca was a friend and co-associate of Louis J. Marino, 37, and Diego J. Carino, 38, who have been charged with murder in the Vallone slaying.

Kern said he believed a vast Texas underworld organization gave the go-ahead signal to killers of Vallone. He questioned Duca about whether Duca headed it. Duca denied any connection with the underworld.

The sheriff said he believed Duca was the leader of the Italian Mafia, or Black Hand, in Texas.

Duca told reporters: "King of the Mafia I don't know anything about any Mafia. I'm just a business man."

Carino was indicted for murder by the Harris County grand jury Friday. Marino's case is to be taken up by the jury later.

"I had nothing to do with the killing of Vincent Vallone," Duca told reporters. "He was my old friend, whom I knew for 30 years."

He said Marino also is his friend. Kern said Duca's arrest came as "process of elimination in our investigation of the Vallone killing."

### BETTER NOT GET IN IT

LONDON, Nov. 5. — If the Moscow cops find you drunk in the street they put you in a vodka-sveetele punk.

This isn't as bad as it sounds. Dr. M. T. Gillis reported Friday in the British medical journal. It just means "sobering institution."

### Canary Can Talk

BUNBURG, Australia. — Apparently getting fed up with just whistling, a male canary has learned to talk, reports the Australian News Bureau. Vocabulary so far is limited to two words—"pretty boy"—but enunciation is improving. The trick was picked up from a parrot at a nearby cage. The bird, slowned by 61-year-old Joe Flynn.

### JAPS LEARN WAR'S OVER

TOKYO, Nov. 5. — Hideo Sato and Taihei Ikeda got back from the war Friday—four years late.

Here's the story they told after their arrival on the British ship Yunnan:

They were on Manus, largest of the Admiralty Islands, when the Americans landed in 1944. They hid.

They built and lived in palm-statched huts, ate snakes, lizards and coconuts. They caught fish with hooks made from old pistol springs and lines woven from wood fiber.

They didn't know the war was over until last March when they were found by Aborigines and turned over to Australians.

### 50 To 60 Horses Perish in Blaze

SAN FRANCISCO, Nov. 5. — An estimated 50 to 60 horses perished early this morning in a fire in the San Francisco Riding School and Stables at Stanyan and Waller streets.

One fireman, Lt. Bert Mollisch, was treated for minor injuries.

## Worst Plane Crash To Be Investigated

WASHINGTON, Nov. 5 (AP) — "The government will start its investigation Wednesday into history's worst airplane crash—the collision of a fighter plane and an Eastern airliner which cost 55 people their lives.

The Civil Aeronautics Board, in announcing the schedule Friday, said testimony offered by Bolivian pilot Erick Rios Bridoux from his sickbed will be included in the record.

Bridoux, hospitalized with pneumonia, a broken back and other severe injuries, was at the controls of the P-38 fighter when it tore into the airliner over National Airport Tuesday. Both planes were preparing to land.

Congressional clamor continued for tighter regulations over civil airways to prevent any such accidents in the future.

Sen. Tobey (R-NH) sent letters to the CAB and its sister agency, the Civil Aeronautics Administration Friday, calling on the agencies to take joint action "which will make impossible a repetition of the disaster.

He said regulations should be adopted immediately "to keep all military and private aircraft out of the flight course of commercial airliners at all major airports."

"As a member of the Senate Committee on Interstate and Foreign Commerce having jurisdiction over aviation matters," Tobey said, "I am concerned and feel a deep sense of responsibility because policies and administrative actions have failed to prevent such shocking accidents."

Bridoux, who suffered a sharp sinking spell after being told the magnitude of the disaster, was described by his doctors Friday as

## Army Seeking Housing For Enlisted Men

GALVESTON, Tex., Nov. 5 (AP) — The Army is in the midst of a multi-million dollar effort to solve one of its biggest Texas problems: Housing for enlisted men and their families.

The housing, in the form of individual houses and rent, two-story apartment buildings, is for both Air Force and Army men.

Altogether, there will be 680 apartments and 120 individual houses.

Installations involved are Carswell Air Force Base, Fort Worth; Bergstrom Air Force Base, Austin; Randolph Air Force Base and Lackland Air Force Base, San Antonio, and Camp Hood, near Killeen.

The Camp Hood housing program is by far the biggest, totaling about \$4 million. J. W. Batson Company of Dallas holds a \$2,856,508 contract to build 34 apartment buildings, each containing eight apartments. Another Dallas firm, Shaw and Estes, has a \$1,052,294.51 contract to build 120 modern two and three-bedroom houses.

McCann Construction Co. of Fort Worth holds a \$1,337,499 contract for building 17 of the apartment buildings at Carswell Air Force Base.

At Austin's Bergstrom Field, 16 apartment buildings are being built under a \$1,273,145 contract held by Lawless & Alford Company of Austin.

H. B. Zachry Construction Co., San Antonio, holds the contracts for ten apartment buildings at Randolph Air Force Base and eight at Lackland Air Force Base there.

L. Col. Ellsworth I. Davis, Galveston district Army engineer, said the vast program has been underway about four months and is expected to be completed by October, 1950.

In capturing the National League batting championship in 1949 Jackie Robinson became the sixth Dodger to win that honor.

Pumps that carry the Johnston Trade Mark are the finest... They are the result of "pump know-how" gained over a 40 year period and applied to manufacturing and installation methods... They are the result of the closest possible attention to every detail from design through the finished product... They are the result of the fact that water costs must be held at a minimum... They are the result of engineering and production "know-how" that make every pump part the finest... and most important, they are sold and serviced by your local Johnston Dealer who has been chosen to represent the Johnston Pump Company because of his knowledge of local conditions. When you want pump "know-how" for irrigation, industry or municipalities, go to your local dealer at the sign of the Johnston "J."

Your Johnston Dealer is a specialist in turbine pumps...

**Eyes Of Nation Fixed On N. Y. Elections**

WASHINGTON, Nov. 5. — New York voters will carry important weight in Tuesday's elections, but politicians also will be watching a congressional contest in California, a governor's battle in New Jersey and mayor's races in Boston, Detroit, Cleveland, Pittsburgh and Louisville for signs of things to come in the 1950 battle for control of Congress.

Topped by as furious a Senate battle as the state has seen for a long time, New York has three races on which national attention has been centered. Republican Sen. John Foster Dulles, appointed by Gov. Thomas E. Dewey, has pulled out all the stops in a campaign waged largely against what President Truman calls his "fair deal" domestic program.

Dulles has attacked that program as a threat to the liberty of the people through centralized government power. He has had active campaign help from Dewey and endorsement from a number of ranking Republicans. Dulles helped shape American foreign policy as an advisor to five Secretaries of State and has contended his defeat would be a blow to Republican co-operation on the bipartisan foreign policy.

Former Democratic Gov. Herbert H. Lehman, Dulles' opponent, has accused the Republican senator of bigotry. Lehman has gone down the line for the Truman program.

**Fires And Drought Ruin Coffee Crop**

SAO PAULO, (U) — Forest fires and a long drought are ruining next year's coffee crop, Silvio Pacheco, of the farmers' association, reported after a tour of the interior areas of Sao Paulo. There are forest fires almost everywhere he said, and the continued heat has killed flowering coffee plants.

He said it has not rained in two months. If by next moon it does not rain, farmers told him, prospects for next year's crop will be none. Sao Paulo is the greatest coffee producer in Brazil. A reported crop of seven and half million bags has been estimated now at only five.

**Works Without Cycle**

TOLEDO, (U) — Ralph Smith, 18, of Toledo, was stubborn about paying a 25-cent license fee for his bicycle. Municipal Judge Homer A. Ramey fined him \$5 and costs for operating his bicycle without a license. This amounted to \$8.70. Smith couldn't pay the fine. He was sent to the workhouse to work it out at \$3 a day.

**People Careless, Says Shoplifter**

OAKLAND, Calif., Nov. 5. (U) — "People," observed Mrs. Elizabeth Worthington, "are awful careless."

The spry, 73-year-old widow ought to know. She estimates she has relieved "careless people" of more than \$500,000 in the last 50 years.

Mrs. Worthington is spending a six-months sojourn in the Alameda County Prison Farm—"quite the loveliest jail I have ever been in."

She ought to know about that, too. Mrs. Worthington, who claims Missouri as her birthplace, but gives no specific town, says she has been arrested 22 times.

Her cheerful — if not exactly moralistic—outlook on life is the fruit of experience, of what she regards "grand and sometimes maybe great-grand larceny in many states. Her present incarceration is on a vagrancy charge.

Mrs. Worthington likes to travel, but she is glad to rest a bit in pleasant surroundings with all expenses paid. She has smooth dark hair, a lively smile and candid blue eyes. Her appearance of demure respectability is completely at variance with her unabashed account to reporters of her career of "stealing through life."

Mr. Worthington, she said, died about 45 years ago. She said she was no juvenile delinquent, nor was she led astray by evil companions. As a matter of fact, her first shoplifting experience (in Kansas City, Mo.) was by accident.

"I was in a department store," she told a reporter in her cell, "when I saw a woman picking up stockings and things from the counters and shoving them in newspapers."

"Uh huh," I thought, "I guess I can do that too." I stepped out to a 5 and 10, bought me a shopping bag and came back. I did that other woman one or several better. I walked out with three expensive dresses.

"I got things to sell (Mrs. Worthington never uses the direct word 'steal') for five years without being caught. Then they closed up all the fencing stores, so I didn't have a chance to sell things. I had to get my money direct."

"I walked into a store and the floorwalker asked if he could help me. 'I'm just looking around,' I said, true as gospel. 'Well, if you want anything, just call the clerk,' he said. I knew I'd get what I wanted all right, but I sure wasn't going to call any clerk."

"I watched until the office was left unattended for a moment. The safe was unlocked and I walked out with \$850. A few days later, I did the same thing and made \$900."

Mrs. Worthington's first arrest was the result of carrying a suitcase of "lovely things" into a courtroom, where she was a witness in a case.

With a little spare time before the proceedings, she remembered, she "went down town and picked up some beautiful dresses. With no time to deposit them elsewhere, she brought them to the courtroom. That was a mistake."

"Beats it! I got down the steps of that place. I was charged with grand larceny," she said with a chuckle.

But her lightest spot she was ever in did not result in an arrest. In San Diego, "I thought I'd go down to the beach where people are awful careless with their wallets. I picked up \$1,500, but when I went to take a bus back to the city, there weren't any buses—and no trains."

"I was mighty nervous. Then a man—he looked real poor and hungry—told me I could get a taxi for eight dollars. I gave him three dollars for the information, poor soul, imagining being that poor on that beach, with people so careless."

Mrs. Worthington figures she must have picked up more than \$500,000. She has spent a lot of it "and not all on myself, either"—but a tidy sum of \$10,000 or so is put away in a safety deposit box, she says, "and wouldn't the police of about five states like to find out where that is!"

Washington, D. C., always has been out of bounds for Mrs. Worthington.

"I never bothered anything in Washington. I said to myself, 'this is America's capital, and besides, Truman, bless his old heart, lives here.'"

### District Boy Scout Committeemen Ratify Recommendations For 1950

Lone Star District Boy Scout committeemen ratified recommendations for major program activities for 1950 and made plans for their annual meeting and an accelerated organization and extension program at a Friday night meeting.

A nominating committee, composed of Charles Watson, chairman, Arthur Leonard and Joe Pickie, will recommend nominees to serve during 1950. The official election at the annual meeting to be held early in December.

Another committee, composed of D. M. McKinney, chairman, Dr. G. F. Dillon and George Melear, will handle arrangements for the annual meeting.

The committee unanimously approved program recommendations calling for several district-wide events for both Scouts and Cubs. The recommendations were submitted by adult leaders who conducted a joint meeting Thursday night. Another feature of the new pro-

### Cover Crops Of Soil District Making Progress

Despite unfavorable moisture conditions in September and early October, over 6,000 acres of winter cover crops are making good progress in the Martin-Howard Soil Conservation District, Frank Lovess, supervisor, has announced.

Loveless said a number of co-operators had recognized soil needs in their soil management programs which prompted plantings of Abruzzi rye, and other winter small grains, hairy vetch and Dixie Wonder peas.

The cover crops were hard hit during a period of late fall dry weather, but they have recovered rapidly. Only a few hundred acres wilted away before October rains, and on some of those fields enough rye has recovered to give a protective cover, Loveless said.

The large cotton acreage has created a wind erosion hazard that many farmers have already recognized, and a number of co-operators have planted cover crops in their cotton land to insure effective protection.

Fields without cover crops will need plowing with listers, chisels or roughing up with sand diagers to keep them from blowing. SCS officials have warned, however, that type of treatment does not offer permanent benefits to the soil.

Farmers who have planned cover crops expect their soil to receive added organic matter and nitrogen. Many of them also expect some returns from controlled grazing.

### Resources Report For Borden County Is Made Public

Small pumpage and modest reserves are reflected in the ground-water resources report for Borden county.

The report has been released by the Texas board of water engineers and was announced by W. E. Wrathner, representing the U. S. Geological survey.

Ground water in Borden county is used principally to supply farms, ranches and the community of the county seat, Galil.

"Pumpage of ground water is small, average perhaps 250,000 gallons per day or less," the report noted. "None of the water-bearing formations in the county can be expected to yield large supplies of water adequate for irrigation or heavy industrial use."

Included in the report are records of 129 wells and springs, the drillers' logs of 41 wells, the chemical analyses of water from 22 wells and two streams. Also included is a map showing the location of all wells for which records were obtained, a regional geologic map, and a brief discussion of the ground-water reservoirs that furnish water to wells in the county.

A limited supply of copies of the report is available for free distribution from the offices of the state board of water engineers and the USGS. Address for both is 302 W. 15th, Austin.

City building figures moved forward slowly during the past week, but the total for the year was crowding the million and a half mark following an active month during October.

Permits issued last week were for repair work amounting to \$2,575, which put the total at \$1,384,735.

October figures totaled \$114,630 for 71 permits. Seventeen of the October permits were for new construction costing an estimated \$87,080.

WASHINGTON, Nov. 5 (AP) — Twice postponed, the trial of Rep. J. Parnell Thomas (R-MT) on fraud charges faces another delay of perhaps a week or more.

The trial is scheduled to start Monday, but Thomas' attorney, William H. Collins, is busy on another case.

Federal Judge Alexander Holtzoff is expected either to announce a new trial date or to continue the case on a day-to-day basis until Collins is ready.

### Philippines Call For International Aid After Typhoon

MANILLA, Nov. 5 (AP) — The Philippine Red Cross called for international help tonight as mounting typhoon casualty reports listed 644 persons dead or missing and feared dead in the central islands.

Most of the casualties were reported from the Kabankalan area of Negros Island 200 miles south of Manila. There the flood river, fed by torrential rains, overflowed and swept through Kabankalan, a city of more than 47,000 population.

Former Justice Manuel Lim, chairman of the local Red Cross, called Geneva headquarters of the International Red Cross that at least 105 cities and municipalities were hit by the typhoon on eight islands. He estimated 450,000 persons were left destitute.

The cable read:  
 "To date 192 persons reported dead, 425 persons still missing and presumed dead. Numerous persons reported injured. Conservative partial estimated damage to properties, crops and public works pesos one hundred million (\$50,000,000)."

### Motor Bus Travel Declared Safest

AUSTIN, Nov. 5 (AP) — A claim that the bus is the safest means of travel was made today by a Texas Motor Bus Association official as he outlined program plans for a convention Monday and Tuesday.

The spokesman, Secretary-Manager J. Manley Head, said his safety claim was based on National Safety Council statistics for 1948 comparing accidents on a per passenger mile basis. The comparison includes buses, private cars, taxis, trains and airplanes.

**Beetle Robs America Of 400,000 Houses**

WASHINGTON, Nov. 5. (AP)—Ten years ago a tiny creature took advantage of a great opportunity—and it cost the American people upwards of \$200,000,000.

It destroyed most of the trees on one of the nation's most beautiful national forests and many trees on five other forests—one of the greatest forest disasters of all times.

This creature was a hard-shelled beetle, one-quarter inch long, called the Engelmann spruce beetle.

It found its perfect opportunity in Colorado, among the stately spruce trees of White River National Forest, where the rugged backbone of the Rocky Mountains juts two miles above sea level.

In June 1928 winds strong enough to blow down hundreds of White River's spruces swept the forest.

There were a few beetles in the forest, good food for the woodpeckers that kept them in check. But this downed timber of Engelmann spruce was just what the beetles needed. They thrive and breed in recently downed trees. Then they attack and kill living trees.

Forest service officials estimate the worst of the damaged spruce forests covered 5,000 square miles. Lesser damage extends all the way into Utah, several hundred miles away.

The beetles multiplied, then suddenly exploded into vast broods. They liked in the downed timber they like, in the downed timber, by 1942. Then they invaded the standing spruce.

The infestation wasn't discovered until 1943. Forest experts say that by then the number of damaged trees was so great it was impossible to attempt to destroy the beetles by burning the dead trees or using insecticides.

The beetle spread to parts of the Grand Mesa, Routt, Arapaho, Uncompaghe, San Juan and Dixie national forests.

Virtually all spruce trees in the White River forest north of the Colorado River have been killed. The beetles have exhausted their

supply of materials in this area. Some outbreaks in other areas started to decline in 1946, but the beetle still is hunting new timber stands. The forest service is logging the infested trees and burning infested stumps.

But the experts estimate: The tiny beetle has killed trees containing at least 4,000,000,000 board feet of lumber—enough to build 400,000 five-room frame houses.

An additional 17,000,000,000 board feet are damaged, or the trees are doomed, in Colorado and on the eastern slope of Wyoming.

The standing trees that already have been killed were worth \$5,000,000.

The dead timber would have produced \$200,000,000 worth of products.

About 45 out of every 100 useful trees in Colorado and the eastern

mountain region of Wyoming are spruce. Three-fourths of the spruce are dead or dying or doomed.

The beetle in six years caused 18 times more damage than did forest fires in the whole Rocky Mountain region in 30 years.

About 100,000,000 board feet of the killed timber has been salvaged. The forest service considers only about one-half of the 4,000,000,000 board feet of dead timber to be recoverable. It has interested businessmen in attempting to use the down timber for paper pulp.

Thousands of people used this area for hunting, fishing and sight-seeing. It will be at least a generation before the scars heal and this primeval region regains its splendor. But it may never fully regain its beauty.

"Such losses can't be estimated in dollars," one official said.

**RUSK STATE HOSPITAL PATIENTS SHARE IN SPIRIT OF OPTIMISM**

By DAVE CHEAVENS AP Staff

RUSK, Nov. 5. (AP)—The patients on "M" Ward of the Rusk State Hospital have caught some of the spirit of optimism that seems to prevail in the institution.

It closely resembles that good old college try, if you can imagine that in a mental hospital.

The patients on "M" Ward are those at the bottom of the scale—mentally derelicts once considered hopelessly insane. Now, through modern therapy, a few of them can be reclaimed. Fifteen per cent of them will go home.

That's the sort of thing emphasized here by Dr. C. L. Jackson, superintendent, and his staff of enthusiastic helpers who believe in doing the best they can with what they have to work with.

He listed a million and half dollars worth of physical improvements needed at the hospital that is a made-over prison. Many of the original Texas prison buildings dating back to 1894 have been remodelled and house the bulk of the

patients.

But Dr. Jackson gives No. 1 priority in his needs to a new occupational therapy building, and to more doctors, nurses and other workers to implement a positive program of cure-and-send-home.

He believes the state would save money if more patients could be cured and sent home, and it takes qualified doctors and equipment to do the job. He wants that rather than just a nice place for patients to stay the rest of their lives.

The occupational therapy— including hand work of all kinds— he believes has more effect than any other type of treatment except the well-established shock administrations that restore many mentally ill to normal places in society.

The hospital's statistics show a total of 2,472 patients, with 2,177 engaged in some kind of work. That's the highest he has seen on this inspection tour of state hospitals.

Freeman said he had been informed that the new tags would be heavier than the ones now in use.

**County Motorists To Receive 1950 Tags In BR Series**

Howard county motorists will be issued license plates next year in the BR series starting with 10 and extending through 7200, County Tax Collector-Assessor Bernie Freeman announced Friday.

Last year, the county was issued some 340 plates in the BR series before it graduated into the BS set, so popular here because it corresponded with the initials of the county seat.

Freeman said he had been informed that the new tags would be heavier than the ones now in use.

**PRICED LIKE A SIX!**

**PARDON** us if we appear persistent on one point.

But we still find people who look over this new Buick SPECIAL, admire its style, its room, its handy but impressive size, and say:

"It's wonderful! Too bad it's too rich for my blood!"

That's our point — *How do you know?*

Have you gone to see this car—and learn how very much there is in it?

Have you got the actual delivered price figures—including the equipment

you want—and matched them against others?

Have you worked out down payment, trade-in, monthly installments? Have you weighed this against the longer period of years you'll be happier with this Buick—and Buick's established high level of resale values?

Some surprising things show up when you do this.

You find you can raise your standard of car travel—step up to Buick levels of style, comfort, handling, ride, power—more easily than you think.

You may even discover you can start enjoying the velvety luxury of Dynaflo Drive® right now instead of waiting until this revolutionary new principle spreads to others, as it's sure to do!

That's why we keep pointing out—this wonderful value-in-head straight-eight, with all its standout looks and qualities, is priced like a six! Actually lower than many.

So do something about it, will you? Take a sharp pencil, see your Buick dealer, replace guesses with facts—and we think you'll see the light and place that order!

**ECONOMY IS HEALTHY**

**Italy Weathers Devaluation Storm With Smart Psychology**

ROME, Nov. 5. (AP)—Italy weathered the storm of currency devaluations with psychology and a two-way stretch money policy. Italy's economy today remains about the healthiest in Western Europe, confounding the Communists but pleasing other people including directors of the Economic Co-Operation Administration. The 30 per cent devaluation of the British pound Sept. 18 came as a painful shock to the Italian government. The cabinet held an all-night session and rumors swept through financial circles that the Italian lira would be devalued correspondingly. Communists and their Leftist allies gleefully got set to blame the government for the "economic collapse" of the country. Instead, here's what happened: 1. Psychology-wise Treasury Minister Giuseppe Pella announced Italy, to bolster the lira, had brought some 100 tons of gold from the United States for \$113 million. Gold now backs 17 per cent of Italy's currency. The move

calmed Italy's economy, made jittery by devaluation of the pound. 2. While financial circles gloomily predicted a rise in prices, Pella announced an immediate 10 per cent price cut in bread. 3. Italy side-stepped formal devaluation by utilizing its "flexible foreign exchange system." Developed in the last years of the Allied Military Administration, the system permits Italy's currency to fluctuate within limits. The low limit is 650 lire to the dollar. **ONLY 10 PER CENT CUT** Despite devaluation of the pound which set off a chain reaction reaching around the world, Italy's lira slid smoothly downward about 10 per cent in value.

Before the British devaluation, the official lira rate was subject to a monthly revision. After devaluation, however, the Italian government decreed that the official lira would vary daily on the basis of closing quotations in the Rome and Milan markets. This permits greater fluctuation in value of the lira in accordance with day-to-day changes in the world's economic picture. The government's financial measures seemed to satisfy everyone except textile manufacturers and fruit and vegetable exporters. They demanded that the competing British pound be made to seek its own level in the open currency markets.

**'Kids Only' Records Prove Money-Makers**

HOLLYWOOD, Nov. 5. (AP)—The record companies have discovered the kids. And it's paying off—both for the companies and the children. The quality of children's records has been improving steadily since the war. Unless you've heard some of the late releases, you'd be surprised at the ideas—which used to be chased with castor oil—now being eased down the kiddies. Virtually every major company has a stable of "for kids only" talent (viz: Capitol, Glensleeve, Decca, Frank Luther, Victor, Paul Wing), and augments it with children's releases by the "regular" artists. More and more, children's records are verging on the educational field, where the Young People's Record Club pioneered. YPR puts out monthly releases in two age groups, under six and over six years old. Each record is planned to invoke listener participation. Musically, they run the gamut from symphony to jazz. (One release, Jazz Band, traces the growth of the native American form from New Orleans on up the river. Teddy Wilson leads the musicians.)

A new firm, Discovery, invades the kiddies' realm this week with a Pat O'Brien album, "The Little Brown Door Mat." Written and produced by Howard Grode, the material is tailored well for O'Brien's personality. The six sides—half narration and half song—include the title song (perhaps the most ingratiating), "The Mail Man," "Happy House We Live In," "Ice Cream Man," "The Grocery Clerk," and "Ding Dong Bell." Neely Plumb's sprightly arrangements spruce up the production. **Newsman Dies** BUFFALO, N. Y., Nov. 5. (AP)—Joseph F. Meila, 63, a former publisher of the old New York American and one-time assistant general manager of the Washington Post, died Friday, four days after suffering a heart attack. **Texas Banker Dies** JACKSONVILLE, Nov. 5. (AP)—A. R. Odum Jr., 48, vice president of the Texas State Bank here died of a heart attack late Friday shortly after he returned from a duck hunt.

**WOULD PERMIT CHANGES Big Five Unanimity Is Sought By UN**

LAKE SUCCESS, Nov. 5. (AP)—Big Five unanimity is both the plague and the hope of the United Nations. The concurring votes of Britain, France, China, the Soviet Union and the United States are needed before any serious changes can be made in the structure of the UN. The situation is reminiscent of the age-old and ageless riddle—which came first, the chicken or the egg? If the Big Five could agree, the UN could be changed. But if they were in agreement, there probably would not need to be any changes. Most suggestions for changes in the charter concern the principle of unanimity—the polite term for the veto. Many critics of the wide-spread Russian use of the veto power in the Security Council tend to forget that the veto power was inserted in the charter at the suggestion of the late President Franklin D. Roosevelt. Mr. Roosevelt felt that unless the veto was provided for, the U. S. Congress never would consent to join the United Nations. Without the veto, the U. S. could find itself embroiled in a war without the consent of Congress. Ironically, many of the proposals to amend the UN charter have been brought up by senators and congressmen. Most others have come from proponents of world government, Ely Culbertson among them. UN Secretary-General Trygve Lie does not believe charter revision is necessary. He has said on numerous occasions that it is not the charter that is at fault but the failure of the members to live up to the spirit of the charter. Lie contends that the charter has not had an adequate chance to show whether it will work. The charter can be changed only by amendment, approved by a two-thirds vote of the General Assembly and all five permanent members of the Security Council, or by a general conference of the member states, in which the Big Five also would have to agree.

**Barkley's Fiancee Is Hospitalized**  
ST. LOUIS, Nov. 5. (AP)—A touch of flu and need for some rest put Vice President Alben W. Barkley's fiancee in the hospital Friday. But the wedding of the 71-year-old Barkley and Mrs. Carleton S. Hadley is still set for Nov. 18. Mrs. Hadley's mother, Mrs. Estelle Rucker, said "the telephone and the door bell have been ringing almost constantly since plans for the wedding were announced."

## First Year In School - -

**FIRST IMPRESSIONS**—If first impressions are lasting ones, Big Spring first graders will find a lot of happiness in future years of schooling. They may not like every phase of the new way of living, but they all seem to like something about it. During the week, several students were interviewed concerning their favorite school activity. Here are some of their comments.

**UPPER LEFT**—Lynn Stanaland, that cute guy with the apple, likes recess the best. Like most youngsters, he seems to stay hungry most of the time, so he enjoys recess with an apple in one hand and a stick of candy in the other. He's the son of Mr. and Mrs. H. B. Stanaland. He's enrolled at South Ward.

**AT BAT**—We find another South Ward student, Jake Glickman, son of Mr. and Mrs. Oscar Glickman. He likes the opportunity of group recreation which school offers.

**SECOND FROM RIGHT**—Talbot Lee (Butch) Carpenter, son of Mr. and Mrs. T. C. Carpenter, finds lots of pleasure in working puzzles. He's a student at West Ward.

**UPPER RIGHT**—Taking her first art lesson, the crayola method, is Carol Monroe, daughter of Mrs. Helen Monroe. Carol is a student at Airport school. She likes to color "best of all."

**LOWER LEFT**—Georgie Touchstone, daughter of Mr. and Mrs. Jack Touchstone, looks up at school nurse, Louise Horton, during a health check. The nurse makes regular calls at all schools to check eyes, weight, and the general health of students. Georgie likes this phase of school activity. Georgie is an Airport student.

**SECOND LOWER LEFT**—Mrs. Jane Kraker goes over the afternoon reading lesson with Ronnie Clanton, son of Mr. and Mrs. Morris Clanton. A student at Central Ward. Ronnie is glad he's in school because he's learning to read.

**AT LOCKER**—Another thing which a first grader learns to do is to keep his desk or locker in order. Nancy Kay Thompson, daughter of Mr. and Mrs. Fred Thompson and a student at College Heights, is shown as she gets ready to begin a day of school work.

**LOWER RIGHT**—Carey King, son of Mr. and Mrs. Jim King, likes writing better than any other phase of school work. He's a student at North Ward.

## Today's First Graders Will Fill Important Places In Future Years

Today's first graders will fill the educational, professional and laboring fields of the 1970s. They will be the doctors, lawyers, teachers, preachers, diplomats, engineers, architects, musicians and writers of that day. They will be business men and homemakers. But they will also be the ditch diggers, the dish washers, the cotton pickers, the day laborers. In short, they will be the important working percent of the 1970 population.

When young Mr. or Miss Big Spring begin their first year in school, they probably don't realize just what is in store for them. If they remain in school, they are destined to lay down the youthful joys of coloring pictures, working with clay, eating apples and candy at recess, learning good health habits and the all important item, the art of getting along with each other. In later school years, they will be taking part in more exciting, yet more difficult studies and activities. There'll be chemistry, advanced mathematics, biology, history, government, nutrition and commercial subjects. With ambition, these first graders have an opportunity to complete high school, continue their education at some college, going on the bachelor, master and even doctorate degrees. When Mr. or Miss Big Spring begin their first year in school, they probably neither know nor care about the many years of varied and sometimes complicated studies which are available to them. It seems up to the parents and teachers to lead them in the right educational paths.

This week has been set aside as National Education Week. Throughout our nation, parents will be visiting the classrooms, meeting teachers and seeing their children take part in various activities. Big Spring parents will share with parents of the nation, the right to walk into their child's classroom to observe just what takes place. They will have an opportunity to evaluate America's public school system in action. In their observations, they will prob-

ably find reasons to praise and will be the one they have provided for their children. It will be their impressions, the school they visit child's gateway to tomorrow.

## Legion Auxiliary Tea Is This Afternoon

Members of the American Legion Auxiliary will be hostesses for a tea, which will honor all mothers, sisters, wives and daughters of service men who lost their lives in World Wars 1 and 2. Scheduled for 2 p.m. today, the tea will be held at the Legion clubhouse.

All female relatives of World War victims are invited. During the program, it is planned to organize a Gold Star Circle, with membership comprised of these women.

Auxiliary officials have attempted to compile a complete list of women who are eligible for membership in the special organization. They express belief that the list is incomplete and may contain some incorrect addresses.

## Negro Singers To Appear Here Monday Night

The Deep River Singers, who will appear at 8 p.m. Monday at the municipal auditorium under the auspices of the Big Spring Town Hall Association, are one of the outstanding colored organizations in the United States.

The Deep River Singers are unique in the world of musical art. They shun attempts to be "arty," retaining the native freshness, the abandon, the deep feeling so characteristic of Negro folk music in its native haunts. Infectious rhythm, quartertones, slurring—all are there—and their strikingly beautiful harmony has always set them "in a class by themselves," say the critics.

The Deep River Singers are a concert attraction that offers entertainment as well as cultural and appreciation values. Something "refreshing," "soul-stirring," "laugh-provoking"—something "altogether different and delightful"—something you will want to have return again and again, say their listeners.

They are reported to have splendid vocal discipline, and a high sense of musical balance, musically exact and conveying a richness of characteristic folk expression.

The Deep River Singers are said to enjoy repainting these pictures from time to time as a part of their program which also includes semi-classics, ballads, and the ever popular Negro spirituals, which are in great demand. It is said this company is probably the greatest exponent of any company on the American platform. It is their desire to give the audiences programs which help promote good will between all mankind.

The program of the Deep River Singers is divided into three parts: the old plantation songs, swing music, and the more modern classics. The ever popular Negro spirituals are a favorite part of the program. In addition, a presentation is made from scenes of "Porgie and Bess."

## District Homemakers Have Session Here

Big Spring High School Home-making students entertained District 3, Future Homemakers of America Clubs Saturday in an all-day session held at the municipal auditorium. Highlights of the program included the election of new officers and a style show presented by the Big Spring chapter.

Peggy Toops, Big Spring chapter president, was named new district president. Other officers include: Ann Rich of Odessa, vice president, Alana Ledbetter of Odessa, treasurer, Betty Sue Hale, secretary, Darlene McIntire of Colorado City, reporter, and Peggy Oglesby of Forsan, song leader. "Fall Is In The Air" was the title of the style show presented Saturday morning. Fashions from the Fashion Center, Burr's, Montgomery Ward, Swartz's and Franklin's were modeled.

Jo Ann LeMaster, District 3 president from Odessa, presided during the session which opened with an invocation by Shirlene Walker. Miss LeMaster was also in charge of the morning ritual. W. C. Blankenship, Big Spring Public Schools superintendent, gave the welcome. Greetings were extended by Peggy Toops, Big Spring Chapter president, and

Florence McAllister, area supervisor of homemaking. Ermine Haynie, Stanton Chapter vice president, gave the response.

Preceding the style show, Edna Scoggins, Odessa Junior High School, presented a vocal number, Thresa Chapman of Colorado City, gave a reading, Eddie Juan Darnell of the Midland Chapter, accompanied by Rosslyn Leggett, presented a pantomime, Helen Hollywell, Midland chapter, led the request singing which closed the morning program.

J. W. King, Jr., local high school band director, presented the German Band during the afternoon session. Colorado City club girls presented the emblem ceremony. Westbrook gave a presentation, "Charm—What It Isn't."

Jo Ann LeMaster, District 3 president from Odessa, presided during the session which opened with an invocation by Shirlene Walker. Miss LeMaster was also in charge of the morning ritual. W. C. Blankenship, Big Spring Public Schools superintendent, gave the welcome. Greetings were extended by Peggy Toops, Big Spring Chapter president, and

Out-going officers are: Jo Ann LeMaster, Odessa, president; Ermine Haynie, Stanton, vice president; Peggy Toops, Big Spring, secretary-treasurer; and Joan Dresslar, Odessa Junior High School, reporter.

## Junior Class Play To Be November 22

"Hollywood, Here I Come," by Conrad Seller, a three-act comedy, will be presented by the members of the junior class of the Big Spring high school Tuesday, November 22, at 7:30 o'clock.

The story of the play deals with the difficulties in becoming a Hollywood star. Cornelia Burke, played by Susan Houser; Wilms, enacted by June Brownrigg; and Dot Hawthorne, portrayed by Marilyn Miller, receive a long distance phone call from Jane Mayberry's mother telling them that Jane, played by Wanda Petty, has run away from home to enter the movies. Jane is the stage-struck friend from Peoria. The remainder of the play centers around the efforts of the girls in getting Jane into the movies. This accounts for many hilarious situations.

Admission price to the performance will be 50 cents. The public is invited to attend.

**RIBBON RAMBLINGS**  
By Mildred Young

It's Sunday morning again. Though some of us are ardent church goers and seldom think of an excuse not to go, others of us find every Sunday morning an easy morning to sleep and relax over a cup of coffee and the morning comic section.

Looking over a church bulletin this week, we noticed an article entitled "Nine Points On Church-Going." Since all of us seem to find some interest in the religious views of a famous person, we'd like to quote the views of the article which was written by Theodore Roosevelt.

"In this actual world, a churchless community, a community where men have abandoned and scoffed at or ignored their religious needs, is a community on the rapid down-grade.

"Church work and church attendance mean the cultivation of the habit of feeling some responsibility for others.

"There are enough holidays for most of us. Sundays differ from other holidays in the fact that there are fifty-two of them in every year—therefore on Sundays go to church.

"Yes, I know all the excuses. I know that one can worship the Creator in a grove of trees, or by a running brook, or in a man's own house just as well as in a church. But I also know as a matter of fact that the average man does not thus worship.

"He may not hear a good sermon at church. He will hear a sermon by a good man who, with his good wife, is engaged all the week in making hard lives a little easier.

"He will listen to and take part in reading some beautiful passages from the Bible. And if he is not familiar with the Bible, he has suffered a loss.

"He will take part in singing some good hymns.

"He will meet and nod or speak to good, quiet neighbors. He will come away feeling a little more charitable toward all the world, even toward those excessively foolish young men who regard church-going as a soft performance.

"I advocate a man's joining in church work for the sake of showing his faith by his works."

**Legion Auxiliary Plans Redecorating**

# Helen Beth McClure Becomes Bride Of Ed Lewis Wise On Friday Night

Helen Beth McClure and Ed Lewis Wise were united in marriage in an informal candlelight ceremony at the East Fourth Baptist church Friday evening at 8 o'clock.

The bride is the daughter of Mr. and Mrs. R. E. McClure. The bridegroom is the son of Mr. and Mrs. Lester Wise, 1400 Johnson.

The Rev. James S. Parks, pastor, served as officiant at the double ring service. The couple exchanged their vows before an altar banked with fernery and palms. Large basket arrangements of white gladioli flanked the sanctuary.

Mrs. H. M. Jarratt, pianist, played the traditional wedding marches and accompanied Mrs. C. A. Tonn, Jr. as she sang the

solo, "O Wonderful One." Following the nuptial service, Mrs. Tonn sang the benedictory. "Wedding Prayer." Mrs. Jarratt chose a tan dress with yellow carnation corsage. Mrs. Tonn was attired in a winter pink dress with identical yellow carnation corsage.

Prior to the ceremony, Jean Robinson and Sue Nell lighted the white cathedral tapers. Both Miss Robinson and Miss Nell were attired in identical dresses of wine velvet and matching floral wristlets of yellow carnations.

Given in marriage by her father, the bride was attired in a street length white wool dress, fashioned with three quarter length sleeves and miniature covered buttons. The dress featured a side drape effect in the skirt. She carried a cascade arrangement of white gladioli centered with gardenias interspersed with ivory satin ribbon. Her shoulder length veil of white maline was fastened on the side with tiny white carnations.

In carrying out the bride tradition, the bride wore a diamond ring belonging to Mrs. John Watkins as something old. For something new, she wore a bracelet given to her by the bridegroom; for something borrowed, she chose a pearl necklace belonging to Mrs. C. A. Tonn, Jr., and for something blue, she wore a garter. She wore a penny in her shoe for luck.

Mrs. R. E. McClure, Jr., sister-in-law of the bride, served as ma-

tron of honor. She wore an aqua velvet dress, designed with a rounded neckline and elbow-length sleeves. She carried a cascade of pink gladioli tied with satin ribbon trim. She wore a coronet head-dress of matching pink gladioli.

C. A. Tonn, Jr. was best man. Ushers were Bob Craig and Jack Teague, with R. E. McClure, Jr. acting as honorary usher.

Mrs. McClure, mother of the bride, wore a grey tailored suit, with navy blue accessories and a pink carnation corsage. Mrs. Wise, mother of the bridegroom, chose a blue teal suit, black accessories and pink carnation corsage.

Mrs. E. Weatherford, grandmother of the bride, was attired in a cinnamon brown dress with yellow carnation corsage and brown accessories. Mrs. Susie Musgrove, grandmother of the bridegroom, was dressed in a black ensemble with pink carnation corsage.

Immediately following the ceremony, reception was held in the church parlor. Those in the receiving line included the bride and bridegroom, Mrs. McClure, mother of the bride and Mrs. Wise, mother of the bridegroom.

Those in the houseparty were Mrs. W. B. Younger, Sue Nell Hall, Jean Robinson and Sue Wise.

The bride's table was laid with a lace cloth and centered with a large arrangement of white pom-poms and stock. Also decorating the table scene was the tiered wedding cake and crystal punch service. Silver appointments completed the table arrangement.

The bride is a 1949 graduate of the Big Spring high school. The bridegroom also graduated from the local high school in 1945 and has been employed by the Texas and Pacific railway since that time.

For travelling, Mrs. Wise chose a teal blue suit with navy blue accessories. Her corsage was of white gardenias.

Following a short wedding trip, the couple will be at home at 307 W. 9th, in Big Spring.

### Cardwell Family To Have Reunion

Members of the Cardwell family will celebrate their first family reunion since 1941 in the home of W. H. Cardwell, Sr., 1506 Scurry, today.

Those attending the affair are Mr. and Mrs. W. H. Cardwell, Jr. of Kerrville, Mr. and Mrs. B. T. Cardwell, Odessa; Mr. and Mrs. T. J. Hogue of Stanton, Mr. and Mrs. Carl Black, San Angelo; Mrs. Viola Henderson, Llano; Major and Mrs. B. L. Curtis of Tacoma, Wash. and Mrs. Ollie Anglin and Mr. and Mrs. Henry Merworth of Big Spring.

Following the reunion, Major and Mrs. B. L. Curtis will leave for Germany where he has been assigned to duty.

### Mrs. J. R. Steadman Is Named Honoree

Mrs. J. R. Steadman, the former Mrs. Ruth Young, was named honoree at a shower held in the home of Mrs. J. E. Brown, 1801 Scurry, Friday. Amy Lee O'Dell was the assistant hostess. Mrs. Steadman was married in Carlsbad, N. M., on October 18.

Those present were: Mrs. George Sanders, Mr. and Mrs. Louis Theaux, Mr. and Mrs. M. H. O'Daniel, Mrs. A. C. Bass, Mr. and Mrs. Leroy Echols, Mr. and Mrs. C. C. Brown, Mrs. Sarah Osborne, Amy Lee O'Dell, Mr. and Mrs. J. R. Steadman and Mr. and Mrs. J. E. Brown.

Woman's Forum held a special program Friday afternoon in the home of Mrs. Steve Baker. Mrs. Zollie Mae Rawlins was assistant hostess.

Guest speaker for the day was Mrs. Lillian Prescott Anthony of San Antonio. Mrs. Anthony, an artist with paintings on display in Boston, New York, Los Angeles and other cities, left for her home Saturday after visiting in the home of her daughter, Mrs. Munson Compton. She displayed two of her paintings.

Mrs. Anthony has recently returned from a four months tour of Europe. She discussed European art and the museums in Rome and Paris. She emphasized several amusing incidents of her trip and displayed a coin collection.

Mrs. Baker displayed some of the work of her ceramic students and gave the history of the art. She also discussed the making of ceramics. Mrs. Baker presided during the business session. Chrysanthemums formed the floral decorations.

Those present were: Mrs. Steve Baker, Mrs. M. B. Berryhill, Mrs. Travis Carleton, Mrs. Maria Hayes, Mrs. Jack Irons, Mrs. Clyde Johnston, Mrs. J. A. Marshall, Mrs. L. E. ### HD Agent Due To Be Named Soon

Prospects are that a home demonstration agent will be announced for Howard county by the middle of the month.

Mrs. Grace Martin, district agent, has informed the Herald that a successor for Miss Margaret Christie has accepted the post here. However, announcement cannot be made until after her resignation has been received by the commissioners court in the county where she serves.

Mrs. Martin was hopeful that the new agent would be on the field here by Dec. 1. The county has been without a home demonstration agent since Sept. when Miss Christie resigned to accept a homemaking teaching assignment at Colorado Tech.

### George Amos Is Dance Club Leader

George Amos was elected president for the ensuing six months at the meeting of the Roundup Square dance club in the Legion home Friday evening.

Other officers named were Roland Schwarzenbach, vice-president; Bo Bowen, secretary and treasurer and Maxine Bruce, reporter.

Outgoing officers were Art Kern, president and Florence McNew, secretary-treasurer.

Music for the evening was furnished by Lum Harris and his boys. Square dance callers included Tommie Whatley, Phil Smith, Jimmie Felts and George Amos.

The next Roundup club meeting will be held Friday, Nov. 11, at 8 o'clock.

### Demonstration Club Has Regular Session

Fairview Home Demonstration Club members were entertained by Mrs. Ella Hammock and Mrs. Carl Hammock Thursday with nine members present. Entertaining rooms were decorated with flowers.

Mrs. Shirley Fryar and Mrs. W. H. Ward gave reports on the recent state meeting. Club members were asked to bring something for a grab box to the next meeting scheduled for November 17. The meeting will be an all-day session with a covered dish luncheon in the home of Mrs. Shirley Fryar.

Those present were Mrs. Shirley Fryar, Mrs. Frank Wilson, Mrs. Ray Green, Mrs. J. W. Woolen, Mrs. G. W. Webb, Mrs. O. D. Engle and Mrs. W. H. Ward.

### Western Dance Held At College

Jimmie White served as master of ceremonies at the Western Dance sponsored by Howard County Junior college Agricultural Flow and Hatter club in the school auditorium Thursday evening.

Three feature shows were presented during the evening. Members of the Teen-Agers Wagon Wheel Square Dance club gave an exhibition square dance; Corey

Mae and Little Sam sang their version of "Baby It's Cold Outside;" Bill Wozencraft played several clarinet solo selections and the Baker Brothers gave several numbers on their steel and string guitars. Lillian Linsay was featured soloist for the evening and led the group singing of "Home On the Range," and "Let Me Call You Sweetheart."

The entrance to the dance floor was barred with a gate and corral

fence bearing a small sign reading "Bar H.C.J.C." Decorations were of pale green and brown. Streamers were arranged to appear as rafters in a barn.

Bill Sewell and Harold Simpson were in charge of the booths. Wayne Rush and Fory Brown were responsible for the behavior at the dance. Sonny Shroyer served as musical director.

A large crowd attended the affair.

# Tin-Pan Alley Gets Another Treatment

The good old days in Tin-Pan Alley, when song-pluggers were wilder than movie press agents get the full treatment in a new musical, "Oh, You Beautiful Doll." The Technicolor picture is at the Ritz theatre today and Monday.

The picture hits a popular formula of depicting the career of a notable in show business, and in this case gives some of the background of Fred Fisher, who made a success as composer-publisher. It was Fisher who helped usher in jazz music at the turn of the century, and numerous old time

songs are worked into the musical score. Producer George Jessel also honors other popular writers and players of the time.

Love interest is supplied by comely June Haver and Mark Stevens. Miss Haver appears as the daughter of a "long-hair" composer who makes a bit as a singer, and assists Stevens in a song-plugger. Into success in his own right. There are, of course, some differences between the two before the story reaches its happy ending.

The role of Fisher is played by S. Z. "Cuddles" Sakall, and others in the cast are Charlotte Greenwood, Gale Robbins, Jay C. Flippen, Andrew Tombes, Edward Franz and Dick Rich.

**FAST WORKER**—That's Mark Stevens, who loses no time in getting June Haver's telephone number. The two are featured in a Technicolor musical, "Oh, You Beautiful Doll," at the Ritz theatre today and Monday. It's a story of old-time days in Tin-Pan Alley.

## More Job Placements Than Applications Listed By TEC Here

Job placements through the Texas Employment Commission during the past week exceeded the number of new work applications filed in the same period, Leon M. Kinney, director, reported Friday.

Thirty non-agricultural jobs were filled by the TEC. Only 24 new work applications were received at the local office, Kinney said. A total of 46 new job orders were received.

The TEC made 235 reception contacts during the week ending Wednesday. Referrals to agricultural jobs numbered 231, while the same number of placements were made for farm work.

Only 18 claims for unemployment compensation, both new and continued, were on file at the TEC office during the period.

# Rita Hayworth Is Star In Musical

A Technicolor musical which displays the charms of the publicized Rita Hayworth is the featured attraction at the Terrace Drive-In Theatre for tonight and Monday night.

It's a renewal of the tuneful "My Gal Sal," a story of the show world based on song-and-dance incidents on the life of Paul Dresser. Rita, now Al Khan's princess, has Victor Mature as co-star, and

other players are John Sutton and the late Carole Landis.

The story details the ups and downs of Dresser (played by Mature), as a small-town boy with a genius for musical composition, and how he fares when he's up against the glamor of the New York stage.

Many of the Dresser songs popular at the turn of the century are introduced to capture new popularity. They include "My Gal Sal," "On The Banks Of The Wabash," "On The Gay White Way," "Mr. Volunteer," "Oh, The Pity Of It All," and "Tae Your Honey If You Wants Me, Liza Jane."

## Western Story By Will James At The State

Another of the popular Will James western Adventure stories, said to compare favorably with his "Smoky," is "Sand." The State theatre's featured attraction for today and Monday.

The Technicolor film stars Mark Stevens, Coleen Gray and Rory Calhoun in a story of the West of old.

With a Rocky Mountain setting, the film was made on location at Durango, Colo., by the same directorial crew which made "Smoky." The scenes take full advantage of the country's natural splendor.

The largest herd of trained animals ever to leave the film capital on a location trip accompanied Director Louis King and his staff to Colorado for the making of "Sand." But the animal star of stars is the picture's "Jubilee," a magnificent mahogany-hued stallion selected from hundreds of entries for the key role in the picture.

"Sand" tells the story of "Jubilee's" escapades while he's running wild in the mountain country. Featured in the cast are Charley Grapewin and Bob Patten.

## KBST NOTES The \$64 Question Is Back On Air

Dr. I.Q., originator of one of radio's most successful shows, will begin a series of broadcasts on ABC-KBST Wednesday at 7 p.m.

The famous quiz-master, who has made a personal appearance here, will present his program in the same manner of his previous ones. In his many years on radio, he has made the phrase "the \$64 question" a national by-word along with such idioms as "give the gentleman nine silver dollars."

Bud Collier, who handles the title role in the radio version of "Superman," which moved to ABC-KBST Saturday at 7:30 p.m., is somewhat of a superhero in his own right. Saturday evening's performance was his 2,237 consecutive role as "Superman." He has not missed a broadcast in nine and a half years. The network program for weekly presentation has been broadened for adult interest rather than the juvenile angle previously stressed.

A number of changes are coming up this week over KBST for other programs.

The "Family Closeup" series moves from 4 p.m. Sunday forward an hour to 3:30 p. m. The "Casebook of Gregory Hood," jumps from its previous Saturday evening spot to 4 p.m. Sunday. Another private-eye program, the "Amazing Mr. Malone," changes from 7 p.m. Wednesday to 6:30 p. m. Sunday.

Football gets attention toward the end of the week. When Big Spring goes to Midland Thursday evening for its eighth game of the season, KBST will broadcast the tilt. Friday evening, KBST will carry the Lubbock-Odessa game being played in Odessa. Saturday at 2:20 p.m. the Rice-A&M tilt will be broadcast by KBST.

Question up for airing Tuesday on "America's Town Meeting" program is: "Should the Communist Party be Outlawed Now?" Speakers for the negative are Jacob K. Javits (R-NY), member of the House foreign affairs committee, and Dr. Harry D. Gleason, president of Brooklyn College. Affirmative speaker will be Clyde A. Lewis attorney and commander-in-chief of the VFW. His colleague is to be announced.

Coming up on Nov. 15 is the "Carter Family," a group made up of mother and three daughters. It will be held twice weekly over KBST. The daughters are Victor recording artists and will be assisted by Chet Atkins, guitar player, and other Victor personalities. Time will be Tuesdays and Thursdays, 2-2:15 p.m.

## GOP Split On Foreign Policy

WASHINGTON Nov. 4. (AP)—A foreign policy split among Republicans became more apparent today, even as President Truman called on lawmakers to enact his fair deal program as a "staunch shield" against Communism.

Mr. Truman told a Minnesota centennial exposition audience in St. Paul Thurs. night that the way to beat totalitarianism of every kind is to provide full education, health, security and civil rights for all Americans.

These things, he said, "are our staunch shield against Communism and against every other form of totalitarianism. They are the means by which we will achieve the better world we seek."

In various foreign programs designed to stop the world spread of Communism, the Truman administration has had the help of important Republican leaders. But not all of them, as was demonstrated yesterday by James S. Kemper of Chicago, in a letter resigning his job as treasurer of the Republican National Committee.

Kemper's attack on the bi-partisan policy emphasized the split among Republicans over this issue.

In New York State, Republican Sen. John Foster Dulles has contended his defeat in a special senatorial election next Tuesday encourages those in his party-like Kemper—who want the Republicans to renounce foreign policy cooperation.

Kemper's views are similar to those expressed recently by Sen. Wherry of Nebraska, the GOP floor leader in the Senate. Wherry represents a wing of the party that opposes the cooperation with the administration that has been spearheaded by Sen. Arthur Vandenberg (R-Mich.) and Dulles.

The fundra, a vast swampy plain bordering the Arctic Ocean has been called Arctic desert.

## Professor Succumbs

LONDON, Nov. 5. (AP)—The death of Prof. Alexander Meek, 84, zoologist and professor emeritus at the University of Durham, was announced Friday.

## Czech Arrests Spread

PRAGUE, Czechoslovakia, Nov. 5. (AP)—Arrests of Czechoslovak small business men and other middle class elements are spreading through the provinces and even some Communist Party members are being jailed, relatives of victims reported Friday.

While forests are cooler than plains, they tend to be warmer at night because trees retard the escape of heat.

## ALL EAT WELL AT HAWKSES'

SANTA MONICA, Calif., Nov. 5. (AP)—Everyone, including the hounds, ate scrumptiously at the Howard Hawkses. That seemed clear Thursday as a superior court ordered Hawks, the movie director, and his former wife, Nancy, to pay a grocer's bill of \$3,590.48, covering one year.

An almost daily item: Three pounds of hamburger for the Hawks' dogs.
