## SA Senior Band Gets II Rating In UIL Contest

The Santa Anna Senior Band made a fine showing at the Regional Interscholastic League marching contests, receiving a Division II rating which is described as excellent.

The Mountaineer band marched 36 in the ranks under the direction of Janice Martin, drum major.

Steven Nickel, band director, began a rebuilding program with the band in September as over half of the musicians are elementary school students and many are in the senior band for the first year. Great progress has been made since the start of school as evidenced by the excellent rating in the Saturday contest. Main criticisms from the judges were on the group's music. The marching routine was Doug Fray, former ACC band director and now director of the Robert Lee High School Band, wrote on his judging sheet, "Best Santa Anna Band in years." Another judge, Joe Rogers of New Braunfels described the performance "The band shows outstanding pride. Can be a great band."

Nineteen twirlers participated in the UIL twirling contests Saturday. Receiving Division I ratings for solo twirling were Carol Kingsbery, Sharon Keeney, Mary Rendon, Elizabeth Morris, Rachel Guerrero and Sonja Smith.

Division II ratings were to Denise Blair, Debbie Buse, Cindy Cozart, Cynthia Gray, Janice Martin, Suzan Mills, Robin Smith and Sherrie Scarborough.

Those receiving Division III ratings were Lisa Herring, Regina Cupps, Sydney Cupps, Ricky Jones and Ginger Smith.

Twirling ensembles included Regina Cupps, Lisa Herring and Suzan Mills, II; Debbie Buse, Cindy Cozart, Sherrie Scarborough and Mary Rendon, II; and Carol Kingsbery, Elizabeth Morris and Rachel Guerrero, II.

The UIL concert playing contests will be held at Brownwood in February.

Judges for the livestock show will be named within a few days. There are to be about 125 entries in the show this year which includes 13 calves, 40 swine and 70 sheep.

Memberships in the local livestock association are being sold this week to raise money for premiums and prizes for the show. Directors of the organization will have the membership cards available and everyone is urged to join the group and help support the local FFA and 4-H organizations.

Final plans for the annual stock show will be made at the next meeting of the Association which is slated for November 30.

## Aerosol Spray Can Be Toxic

The following article is taken from a "Heart Research Newsletter" by the American Heart Association.

"There are 110 documented cases of youngsters dying suddenly after sniffing airplane glue, aerosol sprays and the fumes of certain solvents. Two AMA research grantees, working independently, have completed experimental animal studies that point to the fatal mechanism: irregular heart rhythms triggered by the gas used to propel the sprays. The most common propellant is Freon; the gas is also added to various glues and solvents to speed up evaporation and drying.

The AHA-supported studies suggest that the gas slows the electrical conduction system of the heart, causing a drop in heart rate and thereby raising the specter of complete cardiac standstill.

The "kicks" or feelings of euphoria and lightheadedness that humans seek when they sniff glue or sprays are probably due to these rhythm changes, explains one of the investigators, Dr. Nancy C. Flowers of the Medical College of Georgia in Augusta.

## Some Benefits Changed With New SS Ruling

The increase in widow's benefits has attracted much of the earlier publicity, and is not as wide-reaching as earlier reports implied. The widow who does not become entitled to such benefits until age 65 will get 100 percent of the retirement benefit the husband was receiving, or would have been receiving had he been retired. If the widow benefits start at age 62, she gets 82.9 percent of the husband's rate. If she starts her checks at age 60, she gets 71 1/2 percent of the husband's rate. Widow's benefits that start at ages between 60 and 65 get rising percentages of the 100 percent amount. First checks showing these changes will be received in February 1973, for January 1973.

The retirement test for beneficiaries has attracted much interest also. The new test starts with taxable years ending after 1972. Earnings of up to \$2100 in a year will cause no deduction from benefits. For every \$2 of earnings past \$2100 in a year, \$1 would be recovered or withheld from monthly benefits. This is a greater liberalization than a casual reading would indicate. Under present law, a person receiving a \$150 per month check and earning over \$140 every month of the year, could get some benefits up to \$4080 in earnings; the new law sends him some checks up until he has earned over \$5700 in the year and has earned over \$175 in each month of the year. If a man gets \$150 and his wife \$75 in benefits, then he can earn up to \$7498 and they'll still get at least \$1 from social security.

#### THE MAIL BOX

Dear Editor:

At this very special season of Thanksgiving, we, the members of the Santa Anna Seventh-day Adventist church, express publicly deepest gratitude to God for His blessings through the past year.

In an age when the world is racked by war, we thank Him for the quiet sunshine that still overflows our lives.

In an era when natural disasters multiply on every hand, we thank Him for the safety granted us and our community.

In days marked by uncertainty and insecurity, we thank Him for the knowledge that men may rest secure in His abiding presence.

In history's hour of man's greatest inhumanity to man, we thank our heavenly Father for His unfailing love demonstrated through the gift of His only-begotten Son, Jesus, the Christ. And we pray that His love may fill our lives and the lives of those about us until it drowns the griefs and the inhumanity of this world in the glory of eternal life.

## In Our Opinion

By W. T. HAYS

IT WOULD BE HARD for the best political strategist to analyze the results of the general election, and determine just what the voters are saying.

Some things, however, are perfectly clear, and should be taken as a mandate by the administration and Congress as well. One thing was made perfectly clear—the people of the United States are tired of the socialistic trend in this country and their rejection of Senator George McGovern should be enough to convince both President Nixon and Congress.

On the other hand, the Democrats have maintained control over Congress and indicates that the presidential landslide was not so much a victory for the Republican party as a person victory for the President.

The same was true in Texas where the President carried the state by 66 per cent, yet it remains overwhelmingly Democratic in Congress.

As far as the Democrats are concerned, there has always been a lot of room for differences of opinion, but the present party leadership is so far out of step with the people that they don't even resemble the rank and file membership of the regular Democrats in Texas.

There needs to be a complete reorganization of the party from the national level down, and a return to the middle of the road philosophy that has been the traditional beliefs of Democrats in the past. The party itself was not severely damaged in the election, only the group who took over the national convention and led the party down the road toward socialism. In the process they lost most of the people who have made the party what it was in the past.

John Connally was criticized by some of the liberal element for the stand he took, but the results show that most of the regulars was behind him. Only those who feared that their political career would suffer if they didn't support the ticket backed the national organization.

As far as the party is concerned we predict that the Connally-type Democrats will take over the state machinery two years from now, and there will be a trend toward conservatism nationally in the party. If this doesn't happen the Democrats can kiss the presidency good bye again in 1976.

What they need is a strong man as a candidate. They have not had one since Lyndon Johnson and it is thought by many that he succumbed the pressure to follow the Kennedy philosophy when he became president.

Probably the strongest man the Democrats have had in recent years was Harry Truman, and in our opinion he made one of the best presidents in this century.

Maybe John Connally is the next one. There is no doubt that he is a strong man, and his political philosophy is very close to the majority of the people of this nation.

## ASCS News

Some sixty thousand Texas farmers and ranchers will receive a crop or livestock questionnaire during the last half of November or December. West Texas which is west of a line from Fort Worth to Del Rio will receive its questionnaires about December first.

This roundup survey of agricultural crop production and livestock numbers is made annually by the Texas Crop and Livestock Reporting Service. The Texas Department of Agriculture and the Statistical Reporting Service, U. S. Department of Agriculture, are joined together to provide a continuing program of information on Texas agriculture.

Texas has two hundred fifty-four counties, and producers are selected in the samples proportional to size of operation. The small producer sampled represents many others of comparable size while the very largest producers may represent only themselves. Therefore, it is equally important for all farmers and ranchers receiving a questionnaire to return it promptly. The individual report is confidential, available to no other Government agency or anyone except the few persons processing the data. The county and State estimates published are available for everyone at the same time.

County Statistics for 1971 and January 1, 1972, are available on Livestock, Poultry, Dairy, Field Crops, Small Grains, Cotton, Vegetables, Fruits and Pecans and Cash Receipts from the State of Texas Farm Commodities. Bulletins can be obtained from the Texas Crop and Livestock Reporting Service, P. O. Box 70, Austin 78767, or by writing John C. White, Texas Commissioner of Agriculture, P. O. Box 12847, Capitol Station, Austin 78711.

## Sue Kingsbery Honored Saturday With Gift Tea in W. V. Priddy Home

Sue Kingsbery, bride-elect of Dan Bird of Crowell, was honored Saturday, November 18, with a gift tea in the W. V. Priddy home.

Mrs. Elgean Harris greeted guests at the door. In the receiving line were Mrs. Priddy and the honoree, and mothers of the betrothed couple, Mrs. Tom Kingsbery and Mrs. Mike Bird of Crowell, and Mrs. C. D. Bruce, grandmother of the bride.

Mrs. Ford Barnes poured coffee from a silver service and Mrs. Robert Smith ladeled fruit punch from a crystal bowl. Tiny sandwiches and crackers were on a crystal plate and mints and nuts were in silver containers.

The tea table was laid with a drawnwork white linen cloth and centered with a large arrangement of white and pink chrysanthemums, sweetheart roses and carnations. Three pink tapers were surrounded by the flowers. Napkins inscribed with the names Sue and Dan were in hot pink, carrying out the bride's chosen colors.

Assisting with the serving was Mrs. Buddy Neff, Pat Hosch and Carl Benton.

Gifts were displayed in the den and bedrooms by Mrs. William Brown and Mrs. Richard Horner.

Carol Kingsbery, sister of the honoree, and Trudy Bird of Crowell, sister of the prospective bridegroom, were at the white leather bride's book to register guests. The table was covered with a floor-length cloth of green felt and decorated with an arrangement of yellow chrysanthemums in a milk glass container. Other arrangements of chrysanthemums decorated the party rooms.

Another hostess for the party was Mrs. Tom Newman. A special guest was Mrs. Grady Banister of Burnet, aunt the honoree.

About 60 people attended during the afternoon.

Miss Kingsbery and Mr. Bird will be married at the First Baptist Church in Santa Anna on December 29.

Tested Sewing Ideas  
Patchwork Pleasures

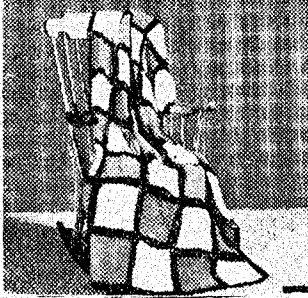

Want a Christmas gift idea that is unique, yet personal? One that bears the stamp of your individuality, yet is both easy and inexpensive to make? If so, this cozy patchwork afghan is for you, for it makes a gift that is sure to please.

All you need to make it are ten velour washcloths in two colors, a No. 2 crochet needle, and three four-ounce skeins of washable knitting worsted in a contrasting color.

The afghan is made of 40 squares of alternating color, each edged and bound to its neighbor by rows of crochet.

With the velour side of the washcloths up, the effect is lush and velvety. You can choose solid washcloths in two colors, or you may want to alternate solid colors with harmonizing prints or woven designs for an added touch of glamour.

The detailed directions are contained in an 84-page booklet of sewing ideas. For your copy, send name and address with \$1.00 to Booklet Distributors of America, 220 West 42nd Street, New York, N.Y. 10036.

## Santa Anna Mountaineers Win 10-A Crown Defeating Cross Plains

The Santa Anna High School football team won the District 10-A championship Friday night when they defeated Cross Plains 20-12. Ranked at the bottom of the pre-season charts, the Mountaineers ended with a perfect 5-0 district record and a 7-3 season tally. Santa Anna losses came from Baird, current champions of their Class A district, Wall and Rule.

The uphill battle isn't over for the Mounties as they literally start at the top in state playoffs. They meet the number one-ranked Mason team Saturday night at the Brady High School stadium. Mason surprised some of the Hill County folks by upsetting the 1971 State Champions Sonora two weeks ago to represent District 9-A in the bi-district tilt.

Already set as the bi-district representative, Santa Anna went to Cross Plains to win outright the title of champs. A loss to the

Buffalos would have given the Mounties a co-championship with Ranger.

Cross Plains was first to score in the Friday night game when quarterback Roger Crawford went over from the one for a TD. The try or extra point failed.

David Horner ran 48 yards for the first Mountaineer score, an Rocky Dean's kick added the seventh point for Santa Anna.

With less than two minutes in the second quarter, Dean scored from the one to give Santa Anna a 13-6 lead. The PAT failed.

Danny Valdez scrambled 45 yards in the third quarter for the final Mountaineer score, and Dean kicked the extra point.

Cross Plains final score came in the fourth quarter. The game ended with the 20-12 score.

Statistics for the game included the following:

**SANTA ANNA**  
First Downs 8  
Rushing yardage 216  
Passing yardage 16  
Passes completed 1 of 3  
Passes intercepted 1  
Punts, average 5 for 26  
Penalties, yards 5 for 45  
Fumbles lost 1

**CROSS PLAINS**  
First Downs 13  
Rushing yardage 121  
Passing yardage 169  
Passes completed 12 of 25  
Passes intercepted 1  
Punts, average 3 for 34  
Penalties, yards 6 for 55  
Fumbles lost 1

Coach J. A. Smelley named Duane Aldridge, Robbie Drake and W. T. Young as standouts for defense Friday night. David Horner and Danny Valdez were cited for offensive performance.

## City Policeman Tells Procedure After Break-ins

City Policeman Roger Beard has asked local people be informed about procedures where there is a break-in or attempted break-in.

First, notify the police or the sheriff's department of the break-in. Beard urges people to leave everything as it is and not move anything or re-arrange anything before the law enforcement officers arrive.

According to Mr. Beard, there have been instances where evidence was destroyed because things were moved around before the officers arrive to investigate.

## The Gobbler Is Back

The Highway Gobbler is the driver who acts like he's the only one on the road. He always drives a little faster than the speed limit, passes to get a little further ahead or tailgates when he can't pass.

This Thanksgiving weekend, the Highway Gobbler is back. He really hasn't been gone. He's been there all along making his generous contribution to the toll of death and injury and

property damage on our highways. But he's recognizable for what he is during the Thanksgiving holiday season.

There's no room for the Highway Gobbler - this Thanksgiving or any time of the year.

### Power Pollution

Everybody is for motherhood and apple pie but against air pollution. Or is everybody?

Apple pie is holding its own but even motherhood has its opponents these days. As for air pollution, a study of private power companies across the country concluded they are lagging far behind in the fight to combat pollution.

The year-long, independent study, released by the Council on Economic Priorities—a nonprofit organization financed by foundations—focused on 124 plants that generate one-quarter of the nation's electric power. Among these plants, the report said, nearly half continue to burn high-sulphur oil or coal, pumping huge amounts of sulphur dioxide into the air. Sulphur oxides can dissolve marble and eat away iron and steel. They can limit visibility and cut down the light from the sun. Even low concentrations can injure the delicate tissues in our lungs.

In addition, 81 percent of the plants and no controls at all for emissions of nitrogen oxides, the gases that help form smog. And only a third of the power plants had adequate controls for soot. According to the study, most companies were spending only a fraction of one percent of their combined gross operating revenues on antipollution research and development.

Spokesmen for the power plants have strongly criticized the study, predicting that the price of electric power could more than double by 1990 and blaming environmentalists as one cause of actual or threatened power shortages.

Fighting pollution is a complicated and serious business, a business everybody should begin. To find out more about how to do it, contract your local tuberculosis and respiratory disease association. It's a matter of life and breath.

Congratulations to the 1972 Santa Anna Mountaineer Football team for winning the 10-A District championship. Having a championship team two years in a row gives Santa Anna another first. The first district football championship for the school came in 1966 under the coaching of Wendell Robinson.

Local people are proud of the team and their coaches, J. A. Smelley and Larry Steele.

There are three championship football teams in Coleman County. Mozelle High School won their Class B six-man title and Coleman is district winner in 9-AA.

Many of us have a keen interest in the Coleman team which has former Santa Annan Pete Simmons on the coaching staff.

Coleman will meet Jacksboro in Abilene Friday night for their bi-district game, taking a perfect 10-0 record into the playoffs.

Mozelle's playoff game will be with Santo in Palo Pinto County. The game will be Thursday night in Comanche at 7:30 p.m. Mozelle goes into bi-district with an 8-1 record.

We will be happy to have news items about visitors or out-of-town trips for the next issue of the NEWS. If you have Thanksgiving holiday news, please call us by Tuesday of next week.

A Coleman County girl, Ginger Rodgers of Mozelle, is in Fort Worth this week participating in the Miss Teenage America contest. Ginger was recently named Miss Teenage Abilene and is going directly into the national contest as there is no state competition.

The national pageant will be televised on CBS Thursday night. Ginger has been very active in school 4-H, and church activities. She is the daughter of Mr. and Mrs. R. V. Rodgers, formerly of Santa Anna.
