## Mountain Echoes

By  
Barbara  
Kingsbery

The notorious Barkley Gang is back on the prowl. We are referring to Robert and David Barkley of Phillips Drug.

Neatly framed on one of the lunch tables are pictures of Church Deer and Pierre Rowe. Clever captions on the pictures are worth reading, but we don't dare print them-- the two men might not like to be referred to as "the local law" and "Senator Nothingmore".

Omissions are quickly brought to our attention. We apologize for leaving the names of Verna Kirkpatrick Newman and H.A. (Sye) Burden out of the list of homecoming ex-students registering for homecoming. Sorry about that.

One of our good subscribers brought to our attention some facts about four of the members of the Class of 1923 who met for the 1973 reunion. Shield Brown of Austin, James H. Williams of Santa Drosa, California and Othel Curry of Denton are all PHD's and Thomas Campbell of Harrison, Arkansas is Doctor of Divinity. That's quite a record for one class from our small community.

Much credit for the accomplishments of the class members is given to Roy Holt, a teacher of the class. Mr. Holt is said to have encouraged the group to excel, and helped Curry, a drop-out, to return to high school to get his diploma.

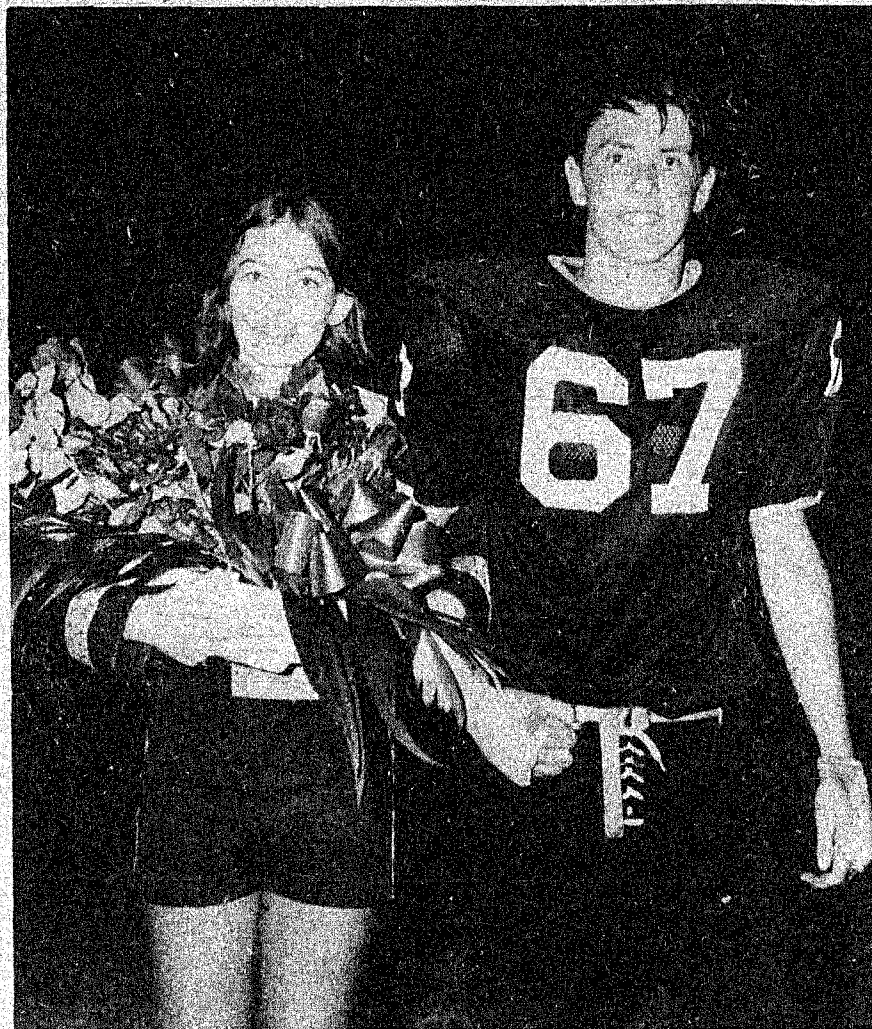

Our schools need more educators such as Mr. Holt.

## 50-Year Awards To Be Presented On November 15

The Santa Anna Mountain City Masonic Lodge will meet next week for a special recognition service. The meeting will honor four members who have been in the local lodge for 50 years.

Mr. Bledsoe, now a resident of a Winters nursing home, will be unable to attend and will be presented his award by the District Masonic Deputy from Ballinger.

Thomas C. Yantis of Brownwood, Grand Junior Warden of the Grand Lodge of Texas, will be guest speaker for the special occasion. The meeting is open to family and friends.

**BAND HONOR...** Elizabeth Morris, drum major of the Mountaineer Band, was presented as Band Sweetheart at halftime of the Santa Anna-Early football game recently. Elizabeth, a sophomore student, is the daughter of Mr. and Mrs. Bouts Morris. She was escorted by Robbie Drake, band captain.

## Mounties Lose to DeLeon; Tangle with Dragons Friday

The DeLeon Bearcats continued their winning ways Friday night by defeating the Santa Anna Mountaineers by a 33-0 score. The victory left DeLeon 3-0 in district 10-A play and left the Mountaineers with a 1-2 district mark.

DeLeon jumped to a 20-0 halftime lead and made their final two touchdowns in the third period. Santa Anna scored once in the third period and rounded out their scoring in the last quarter.

Lee Wristen scored the first Mountaineer TD on a 14-yard pass from Jody Day. David Huggins added the extra points.

Santa Anna took to the air in the fourth quarter to score on David Huggins' pass to Valdez, and Bowker took a pass 63 yards for the last score.

Statistics for the game are as follows:  
SANTA ANNA  
First downs 9

## JUNIOR MOUNTIES LOSE TO EAGLES

The Santa Anna Junior High football team lost their final game last week when the Goldthwaite juniors won 22-0. The season ended with a 3-4 tally for the JHS team.

During halftime activities Ginger Smith, daughter of Mr. and Mrs. Floyd Smith, was crowned football sweetheart. Ginger, an eighth grade student, is drum major for the pep squad.

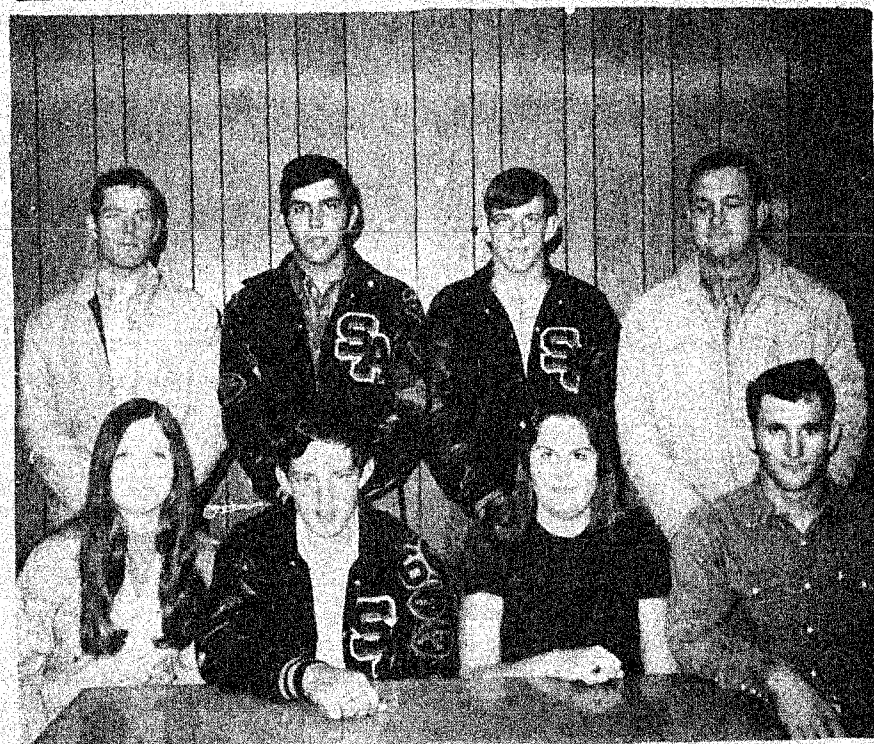

Joe Guerrero, son of Mr. and Mrs. Joe Guerrero Sr., was presented as Pep Squad beau during the halftime. He is also an eighth grade student and on the football team.

Dwight Hudson, coach of the junior high team, stated this week that a new schedule will be made for the 1974 season. ## Damp Weather Stops Harvest

Damp weather and drizzling rain Monday stopped the cotton ginning at the Santa Anna Co-op Gin early this week. Up until Monday, 260 bales of cotton had been ginned here this season.

The cotton had begun to come in well at the gin this weekend, then the damp weather stopped the harvest. So far the total is about the same as this time last year although the quality of the cotton is not as good as last year.

About 1000 bales of cotton were ginned at the Santa Anna gin in 1972.

## Better Pastures To Be Discussed By Ag Experts

An intensive program on pasture improvement will be held in the District Courtroom in Coleman on Tuesday November 13, at 7:30 p.m., according to Roger Blackmon, County Extension Agent.

The meeting is open to all stockmen who are interested in pasture improvement. Dramatic changes are taking place at this time, says Blackmon, and producers need to keep abreast of them.

Speakers will include Dr. Willis Gass, Extension Agronomist, who will discuss establishing and utilizing Coastal bermudagrass pastures; Dr. Bob Steger, Extension Range Specialist will discuss establishing native grasses, such as Kleingrass, as well as native range improvement through brush and weed control and other practices. Doug Sellers, Area Range Specialist for the Soil Conservation Service from Brownwood, will speak on the "High Intensity-Low Frequency" Grazing System that is attracting such attention across the state.

In many cases Blackmon observed, producers could get more return from money invested on their own place, than buying or leasing more land.

All local people are urged to attend this seminar.

## ASCS NEWS

Mr. Richard J. Goodman, Associate Administrator of the Foreign Agricultural Service, had this to say about our agricultural products.

This burgeoning demand for agricultural products, and the American farmer's ability to supply them, has profound implications not only for agriculture, but for the whole nation.

All of us would do well, from time to time, to remind our city friends that agriculture still is the nation's largest industry, that agriculture's exports, which have grown for four straight years and will increase again this year, now represent over one-fifth of total U.S. exports.

We should point out to those who would put controls on exports that agriculture has become the brightest spot in our national trade picture; and that it contributed a surplus of \$5.6 billion to the nation's trade balance last year when non-agricultural trade was running in the hole by more than \$9 billion.

This surplus, a favorable balance of trade, is the key to the ability to buy freely on the world market. If you want to buy in the world market, you have got to sell in the world market as much as you buy.

Too few people know, or understand, that commercial agricultural exports last year were enough to pay for our imports of coffee, tea, rubber, bananas, and all the other agricultural imports, and leave about \$4.5 billion left over. That was enough to offset the two-billion-dollar oil import deficit, with \$2 1/2 billion more to apply to the imports of compact cars, motorcycles, TV sets, aluminum and other consumer and raw materials that we must have to maintain our standard of living.

As a nation, we are going to need this strong agricultural trade even more as our dependence on foreign sources increases for the basic materials, such as oil.

## In Our Opinion

By W. T. HAYS

THE CRISIS facing the nation is definitely one of the worst in its history. Probably the demonstrations and violence of a few years back has not divided the country as it is now.

There are three things that can happen—none of them good. The President can remain in office and try to pull the country together, which we don't think he can do; he could resign, which would not be good; and Congress could impeach him, however it is doubtful if they can find grounds for such drastic action.

Impeachment would probably be the worst thing that could befall this country at the present time. It is a frightening prospect. The resignation of Mr. Nixon would be almost as bad. Assuming that the Congress confirms Gerald Ford, who would succeed the President, Mr. Ford is almost an unknown quantity. We know very little about him, and other than his own district he has had little publicity. The most notable quality is his ability to get people together, which is sorely needed at this time.

This country has gone through a lot of crises, and we have always been able to pull out of them. There is no question but that we will again. Our form of government makes us more vulnerable to such happenings than most other countries, but it is still the greatest country in the world, and will stay that way as long as the people are free to act and speak as they please.

The news media has come in for a lot of criticism from the administration and no doubt some of it is deserved. It does seem that many have grabbed every opportunity to publicize the bad rather than the good. But it is the responsibility of the press to give the people all the news, and most try to do just that, and let the chips fall where they may.

It is always a fact that an informed people will find a way to solve their problems, and the present situation is no exception. This era in American political life will go down in history as a hectic time, but, as before, we believe our country will pull through and live to see greater and better days.

Most of you have heard something about the new distributive education program over at school. Well, Ronnie Yancy, DECA, president, myself, secretary, and Kathy Owens, went to the Area I DECA convention in San Angelo October 20th. We had a real good time and met a lot of people. The most interesting thing that we did was to have an auction.

We got into twenty groups and pooled our money together and bid for a 48 cent paint set along with a piece of paper. Anyway, the group that I was in bought our paint set for five dollars. You think that that was expensive, we got off cheap, several had to pay seven dollars or more one group had to buy theirs for twelve dollars. But all in all we had a real good time and we learned a lot about the field of distribution. Our next meeting is in February when kids from all over Area I will be competing in difference vents.

Now on the comments. Band- good job Friday night! Debbie Bray- Congratulations Liz- Congratulations to you too! Sarah E. I could have sworn that someone else has a coat like that!

Dennise B- Do you have your routine made up yet? Mr. Perry- The school didn't look too bad, did it? Randy- How is your eye? Duane A- No, I'm not kin too Mark Shambeck! David H- Don't run over that little building by the Fire house!

The Beta Club sponsored a Halloween ghoulish and boy contest last week in observance of Halloween. Each class picked representatives from their rooms. The vote was a penny a vote. It was a close race between the Freshman and the Seniors but in the end the Seniors were victorious. The winners were myself and Bobby Morgan. Our prizes were a witches hat and a plastic pumpkin full of candy.

Also, the Beta club is selling real pretty candles in order to earn money so they may send someone to the State Beta Convention. So support the Beta Club and buy a candle. You may purchase one from any of the members.

I guess that if I advertise for the Beta Club I'd better advertise for the F.F.A. They are selling magazine subscriptions, so if you want a subscription to your favorite magazine, see one of the FFA members.

## a rewarding career in less than a year!

"You don't have to go to college to get a good job. Many educators and labor market experts have been saying it for years now. They point out that barely two out of ten jobs will require a four-year degree by the end of the 1970's. As for the rest, a great many will be well-paid positions with bright futures for the qualified young men and women who set their sights on them."
