SANTA ANNA, COLEMAN COUNTY, TEXAS, FEBRUARY 7, 1974

NUMBER 6

Mountain Echoes

By
Barbara
Kingsbery

While the flu bug raged through several central Texas communities, Santa Anna is having only a light epidemic of flu-like illness.

Absentees at the local elementary school totaled about 15 percent on Monday with a few more than usual absent from high school. No plans are made to close school as has been done at several area schools.

Bill Griffin must know something we don't know! He was seen in a local store purchasing two (not one) rain coats Monday.

Wright Price, pastor of the First Baptist Church, called to our attention a typographical error made in his letter printed in the NEWS last week.

The erroneous statement read that the proposed Fire Department addition would be built without the use of membership funds.

Membership funds will be the major financing of the addition.

By the way, be sure to voice your opinion of the proposed addition for the City Hall. The City Council is meeting Thursday night and will make a decision on the proposal.

SA City Council Slates Meeting Thursday Night

The Santa Anna City Council will meet on Thursday night, February 7, for the regular monthly session. The meeting will be held at the Coleman County Telephone Cooperative building at 7 p.m.

Items on the agenda include the following:

1. Examine the current accounts.
2. Read minutes of January meeting.
3. Discuss sewer tap rates.
4. Consider Fire Department's request for additional space.
5. Review revenue sharing income.
6. Hear request from AARP group.
7. Review request from Community Civic Services.
8. Consider leasing Ranger Park building to American Legion.
9. Discuss county law enforcement.

Justice of the peace Ben J. Garrett will meet with the group to discuss the law enforcement issue. All interested persons are urged to meet with the group Thursday night.

MARK GRIFFIS
Judge Candidate

More County Candidates File Before the Deadline Monday

Coleman County political aspirants had until last Monday to announce their intentions. The two local incumbents, Justice of the Peace Ben J. Garrett and Precinct Two Commissioners Jake McCreary, will be unopposed on the Democratic ballot.

The County Judge post, to be left vacant by retiring Frank

Lewis, drew the most candidates. The five who are seeking the position include W. W. (Pete) Skelton, John Elliott, Mark Griffis, Thomas Pierson and Charlie Hunter.

Skelton, a Gouldbusk stockfarmer, is a former County Commissioner. Elliott is owner of the Coleman flying service, and Griffis is also a rancher and former Coleman merchant. Mr. Pierson is a teacher in the Mozelle school system, and Hunter is a stock farmer and gin operator.

Those seeking the post of County Treasurer to be vacated by Monte Gideon and Rondoe Horton of Santa Anna, George Epperson and Everett E. McKinney. Louise Thompson is the only opponent of Tode Hensley for the post of District Clerk.

Those seeking the position of County Tax Assessor-Collector are John Sprinkles, an appointee to the office, and Billie Baker and Henrietta Gilbreath. Incumbent County Superintendent D. J. Williams is being opposed by Don Davis, the current Talpa-Centennial school superintendent.

Those in the Precinct Four race are Commissioner Max Horne, Hap Aston and Paul Templeton. Incumbent Ralph Brown is not seeking re-election.

County Clerk Glen Thomas and JP Walter Holt of Precinct One are unopposed in the election. Also on the ballot will be 11th District Congressman W. R. (Bob) Poage who is also unopposed. Jack L. Hackney has filed for office of Justice of the Peace of Precinct Three, an office that has not been active in a number of years.

Santa Anna Chamber of Commerce Plans to Open Office Here

The Santa Anna Chamber of Commerce met last week to make plans to open the local C of C office. The new location will be in

the City building just west of the post office.

Beside the regular correspondence and secretarial duties, the new secretary will keep a listing of rental and sale property and a listing of employment opportunities and workers. It is also planned to start a file on business materials such as information on small business loans for the use of prospective businesses. All these services will be free of charge.

Plans are being made to have the office open by the end of this month. The telephone number will be 348-3535.

Three members of the Chamber of Commerce, Robert Barkley, Norman Walters and Julian Kelley, were in San Angelo recently to attend a meeting concerning minority business opportunities. The meeting, sponsored by the San Angelo Chamber of Commerce and Lions Club, had representatives from the FHA, Small Business Association and Angelo State University business administration department giving information concerning business opportunities.

The Chamber of Commerce plans to make Santa Anna as attractive as possible to both the residents of the community and prospective business people. The local group has been inactive for several years and plans to renew their projects.

Don Gaines is president of the organization; Robert Barkley is vice president; and Rob Cheaney is secretary-treasurer.

Local people are urged to take advantage of the information and services provided by the local Chamber of Commerce. The purpose of the organization is to serve the people of the community and make Santa Anna a better place in which to live.

E. P. Voss Chosen Post Commander For AM-Legion

The Santa Anna American Legion Post met on Wednesday night, January 23, to elect officers and make plans for the regular meetings.

New HSU Plan For Admission Is Revealed

Certain students who have completed their junior year in high school will be accepted as full-time freshmen in Hardin-Simmons University under an early admissions program approved this week by the university faculty.

"This is a response to what seems to be a growing demand," said Dr. Jim E. Tanner, dean of faculties. "It is happening in other parts of the country."

"We don't expect very many people in this program but it is a real opportunity for those who are qualified."

The program allows a qualified student who has completed the junior year of high school to substitute a year of college study for the last year in high school. The student would, in essence, choose not to take a high school diploma, but to begin work early toward a college degree.

To be eligible for admission, the student must have credit in all academic units required for regular admission, be in good standing in high school, and have a 3.0 or better grade-point average on a 4.0 scale or rank in the upper quartile of his class.

HSU requires 16 units of high school credit, which must include three in English, two in mathematics, and two in history and social science. The other nine may be elected from the list of subjects accepted by the Texas Education Agency.

In addition to regular admission documents, the student must provide a letter from parents or guardian which gives consent and evaluates the student's suitability for college admission; and a letter from the high school principal or counselor giving an opinion of the student's suitability for admission.

The requirement was described as a safeguard against admitting students who, though academically capable, are not emotionally mature enough to handle the transition between high school and college.

GETTING ALONG WELL

Mrs. Annie Mae Wall is getting along well in Brownwood Community Hospital. She was taken there last week following a heart attack and has since been moved from intensive care.

CONTEST PREPARATION...Karen Gordon, accompanist for the UIL solo and ensemble groups, concentrates on the piano score of the contest piece while Sam Allen plays in the background. The two SAHS students are among those who will go to Brownwood on February 16 for the contests.

If the deceased is a member of a fraternal or veteran's organization that is to participate in the funeral service, we, as funeral directors, are pleased to cooperate in the arrangements. The clergyman, too, must be informed of such plans. This is but one aspect of the variation and coordination required of the funeral director in the funeral service.

This column of questions and answers on federal tax matters is provided by the local office of the U.S. Internal Revenue Service and is published as a public service to taxpayers. The column answers questions most frequently asked by taxpayers.

Q. I'm in the Armed Forces. I've authorized an allotment for my dependent mother. She uses the allotment to support herself and my sister. Can I claim a dependency exemption for both of them?

A. Yes. If the allotment provides more than half of their support and they otherwise qualify, you may claim exemptions for both of them, even though the allotment was authorized only for your mother.

Q. Each year I pay \$20 for my automobile license plates. Can I deduct this amount on my Federal income tax return?

A. No. Such fees are generally not deductible. However, if your state bases part of the tag fee on the value of the auto, that portion is deductible as a personal property tax.

Q. I was chosen by the congregation to represent them as a delegate to a church convention. Can I deduct my travel

expenses to the convention as a charitable contribution?

A. Yes. An uncompensated duly elected delegate attending a convention of any qualified charitable organization, such as a church, may deduct his actual unreimbursed expenses for travel and transportation, and a reasonable amount for meals and lodging while away from home overnight in connection with the convention. However, the delegate may not deduct personal expenses for sightseeing, fishing parties, theater tickets, night clubs, etc. The travel, meals and lodging and any other expenses for the delegate's spouse and children are also nondeductible personal expenses.

Mrs. Amarine and Mrs. Addie West of Santa Anna visited briefly with the Tom Rutherfords Sunday afternoon. The ladies were out seeing the country for a while and came to Whon, the former home community of Mrs. West. We enjoyed them so much and are looking forward to this treat again.

Randall Lovelady of Tarleton State University was at home with his parents, Mr. and Mrs. Darwin Lovelady in Santa Anna. Ricky Beal was a Sunday dinner guest with Randall and his parents.

Mr. and Mrs. Loyd Rutherford and children, Tonna and Todd, of Bangs were with their parents, the Tom Rutherfords, Saturday.

Loyd was assisting his dad with farm chores. Tonna and Todd spent Saturday night with us while their parents went to Cleburne for Saturday night and Sunday. We carried the children home late Sunday afternoon and visited awhile and drove to the Brownwood Hospital and checked on the condition of Mrs. Annie Mae Wall with whom I have been staying since September during the daytime in Santa Anna. She is quite ill.

Mrs. Billie Lovelady and her sister, Mrs. Juanita Minica of Santa Anna visited with Mr. and Mrs. Cecil Baker and Mrs. Audy Sanford in Zephyr Sunday afternoon.

James Avants and Mrs. Fay Marcee of Coleman and Mr. Douglas Avants of Brady were on the Avants farm Sunday. Mrs. Avants, who is making her home in Santa Anna, has been sick with a cold.

Mr. Lewis Cowan of Melvin and his son, Mr. and Mrs. Glendon Cowan and children of Kerrville, and Mr. and Mrs. Norman Floyd Morris and children of Brownwood were Sunday guests of Mr. and Mrs. Floyd Morris.

Congratulations to the Trickham Community for the chain link fence they installed around the Trickham Cemetery last week. It really does look nice and is something to be proud of. I understand hired men put the fence for them, but Mr. Oscar Boenicke was there long before anyone else. I went by several mornings with my headlights on the school bus and Mr. Boenicke was there.

Ronnie Morris of Brownwood spent the weekend with Mr. and Mrs. Floyd Morris, returning home with his parents Sunday afternoon.

30 Years Ago ... in The News

The following stories are from the January 1944 issues of the NEWS.

Among the changes that took place with the beginning of the new year was the retirement of J. L. Boggus from the grocery business after several years of merchandising in Santa Anna. Mr. Boggus will continue to reside in Santa Anna but will devote his time to his farms and livestock. The store will continue as a Red & White store, under the title of Hosh Grocery Co.

The Santa Anna Fire Department met Monday night and elected officers for the year of 1944. The following officers were elected:

President, George Johnson; Chief, Arlie Welch; Asst. Chief, Byron Unsell; Chaplain, Rev. Wylie; Fire Marshall, J. C.

Morris; and secretary, treasurer, A. D. Donham.

In states outside the east coast area A-9 gasoline rationing coupons are good through January 21. Sugar stamp No. 29 in book 4 is good for five pounds of sugar through Jan 15.

Shoes: stamp No. 18 in book 1 is good for one pair.

Pressure cookers and feed grinders and crushers have been removed from rationing.

The nation's motorists are being oversold on anti-freeze and told of shortages that do not exist, according to the War Production Board.

Early Wednesday morning, January 12, a blizzard bit Santa Anna, and from the reports we could get from over the state, it covered considerable territory.

Rain turned to sleet then snow

and it all freezing made a combination that was very disagreeable.

We have no report of livestock damages and doubt if anyone could give an accurate estimate because stock that did not freeze suffered considerable unless they were sheltered.

Reward To Policeman?

Arsonists set fire to a large warehouse one night, and the owners offered a \$10,000 reward for catching the culprits. A few days later, an alert policeman picked up the guilty pair in a bar.

In this situation, was the policeman entitled to the \$10,000? He insisted that he was, but a court ruled against him. The court said he could not collect a reward for doing what the city was already paying him to do: capture criminals.

This is the rule in most circumstances, that a policeman (or other public employee) cannot demand a reward for merely doing his job.

Otherwise, explained one judge, "whenever a crime was committed, instead of speedy efforts for the arrest of the offender, there would be a holding back in the hope that a reward would be offered."

On the other hand, an officer usually can collect the reward if what he did was outside the scope of his duties. For example:

A deputy sheriff, on vacation in a neighboring county, had occasion to help in the capture of a bank robber. Learning that the bank had offered a reward, he decided to put in a claim for it.

This time, the court ruled in his favor. The court said that, having acted strictly on his own, he had as much right to the reward as any other deserving citizen.

One famous case involved a hotel fire so fierce that firemen gave up their efforts to get into the building. Suddenly an anguished onlooker cried:

"I will give \$5,000 to anyone who will bring out my wife!"

One fireman, galvanized into action, fought his way through the flames and managed to bring the woman out.

Later, when he tried to collect the reward, the husband argued that rescuing people was part of a fireman's job. But the court said a fireman's job did not include rescues involving such a dire risk to his own life. For action above and beyond the call of duty, said the court, this fireman had earned the reward.

If your home depends on natural gas you can depend on having enough.

Despite today's national gas shortage, homeowners in the Lone Star area can be assured of continuing supplies of efficient, clean-burning natural gas for years to come. The reason: Lone Star's advance planning and the investment of some \$150 million in gas supply projects in the last two years.

Today Lone Star is working around the clock, drilling deeper wells and exploring new areas. We're participating with gas industry research on "synthetic" gas and other forms of energy.

Easing this country's energy crisis by increasing energy supplies is going to take cooperation between the government and the gas industry. And you can help also! By conserving energy in your home whenever you have the opportunity.

Rest assured that Lone Star Gas families who depend on natural gas can depend on having enough.

Do men really change at age 40? What makes some get a divorce, have an extramarital affair, change jobs, or even attempt suicide? The male doesn't go through the dramatic biological changes in mid-life that the female does with the cessation of her menses, called menopause.

One psychologist explains the male phenomenon as the "mid-life crisis" — a time of change between the ages of 35 to 40, which may elevate a man's life to a new, richer maturity or mark the beginning of a descending spiral that continues for life. And it's every bit as real as female menopause, says Daniel J. Levinson, Ph.D., who heads a Yale research team studying the effects of mid-life crisis.

The things that gets into the fortyish male, according to Dr. Levinson, is the disparity between youth and age, hope and fulfillment; between fantasized objectives and real achievements.

It's what possibly explains the great works achieved after 40 by Eugene O'Neill, Pablo Picasso, and Frank Lloyd Wright, and, conversely, the suicide of poet Dylan Thomas. It is a time when the male examines his successes and failures, analyzes the outcome of his dreams, and surveys his capacity for handling the future.

Along with the psychological problems, comes a sense of bodily decline. His heart, for example, pumps less blood — only 23 liters when under stress, compared to the 40 liters at age 20.

His prostate has begun to enlarge, which may give him urethral and bladder troubles later. And his sexual capacity is definitely not what it was.

His chest, meanwhile, has become larger, not because he's growing stronger, but because the muscles of his diaphragm have lost some of their youthful recoil.

His kidneys, too, have lost some of their reserve capacity to concentrate wastes, so they don't work as well as they used to.

His gastrointestinal tract, likewise, secretes fewer enzymes and juices which can induce bouts of indigestion and constipation.

And his hearing and sight may not be as sharp as they used to be.

It may sound the fortyish male is falling rapidly, but the picture isn't all that dismal. He still has enough left to carry him comfortably to 70 or beyond. Yet, it's enough to make a man pause and wonder: Where have I been and where am I going?

Today's homemaker has to be very much a business-woman. And that means more than juggling schedules and buying meat on sale.

It means seeing that daily expenses are met and making sure there's something saved for the future, too.

That's where U.S. Savings Bonds help. Bonds can be purchased at the bank on a regular basis. Or through the Payroll Savings Plan where her husband works. (That way, an amount they specify is automatically set aside from each paycheck and used to buy Bonds.)

Either way, her business instincts appreciate the interest rate. And it's nice to know Bonds now mature in

less than six years. Best of all, Bonds represent safe, steady savings for her family.

U.S. Savings Bonds. For the woman who's at the heart of her family's finances.

No Shortage Of Food, Fiber ... Commercial Vegetables ... Not As Much, But Still Sweet ... More Lamb Chops On The Way.

The 1973 Texas crop summary shows that Texas agriculture producers did what they love to do the most—produce, produce, produce. Production in Texas during 1973 exceeded production levels of 1972 for most major crops. Substantial increases in production occurred for cotton, corn, wheat, grain sorghum, soybeans, hay, oats, barley, sugarcane and Irish potatoes. Only rice, flaxseed, peanuts, sugarbeets and sweet potatoes failed to reach 1972 production levels.

Record yields were recorded for cotton, corn, grain, sorghum, wheat, oats, hay, and Irish potatoes.

Cotton production in Texas during 1973 is now estimated by the Texas Crop and Livestock Reporting Service at 4,650,000 bales. This would be the largest upland cotton crop produced in Texas since 1961.

Yield is expected to average 429 pounds of lint per acre compared with 408 pounds in 1972. Harvested acres are set at 5,200,000 acres.

Production of American-Pima cotton in the state is expected to be lower in 1973 than in 1972, however. Production is set at 26,000 bales in 1973 compared with 31,400 bales in 1972.

Grain sorghum production in Texas during 1973 totaled almost 100,000,000 more bushels in 1973 than in 1972. Yield at 60 bushels per acre is also a record yield.

Corn production in Texas for 1973 is more than 20,000,000 bushels above 1972.

Yield averaged a record 95 bushels per acre. This is the largest corn crop in Texas since 1943.

Wheat production in the state is better than twice the 1972 production. Wheat estimate for 1973 is 98,600,000 bushels. It is the largest production of wheat since 1947. Yield average at 29 bushels per acre is also a new record.

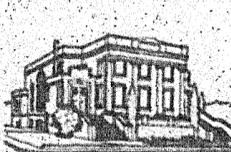

Production of honey in Texas during 1973 totaled 9,970,000 pounds, which is 13 per cent less than the 1972 production.

Colonies of bees in Texas during 1973 were estimated at 210,000 which is an increase of 14,000 from the 1972 number.

Average price per pound for all honey in 1973 was 40.3 cents, which is 14.3 cents above the 1972 average price per pound.

Total value of honey and beeswax in Texas for 1973 is estimated at almost \$4,000,000 compared with almost \$3,000,000 in 1972.

Nationwide, honey production was up 11 per cent in 1973 from the 1972 season.

Texas Hay Crop Up; U.S. Down

AUSTIN—Excellent hay production in Texas combined with a two per cent decline of the commodity nationwide may create an out-of-state demand for Texas hay, Agriculture Commissioner John C. White has announced.

Dr. Roland Smith, Extension Service grainmarketing specialist, reported this conclusion in the Texas Livestock Market News, a publication of the Texas Department of Agriculture.

Dr. Smith also noted that the outlook for feed grain prices in 1974 "will be quite sensitive to export demand and prospects for next year's crops both in this nation and abroad."

Production of grain sorghum is up 20 per cent from last year, Smith said. "If this is realized, less corn and barley may be needed in western cattle rations than earlier predicted. The feed self-sufficiency is another indication that prices may soften in early fall," he said.

Texas also more than doubled its 1972 winter harvest this summer with a record-breaking 29 bushel an acre yield and near-record.

"All indications point to a bumper crop," Commissioner White said. "We're sure to top the \$28,000,000 mark in cash receipts for hay posted last year."

Fire Prevention Program Given At HS Tuesday

Anything will burn and nothing is fireproof. This fact was brought out by Ben Bullard, Assistant Safety Director for the Texas Farm Bureau, Waco, in a graphic animated fire prevention demonstration held Tuesday, February 5 at Santa Anna High School.

The three things needed to start a fire: air, fuel and heat, brightly illuminated as Bullard plugged in the parts of his fire triangle board, causing the flashing "F-I-R-E" sign. He defined fire control as he removed the three parts one at a time.

The audience also witnessed the burning of steel wool; the loud shotgun-like explosion of one drop of gasoline and they saw the wiring burn inside the wall and in the attic of Bullard's model house.

With each sequence of animated and actual fire hazard of the various classes both inside and outside the house and around the farm, Bullard gave applicable prevention and control suggestions. For fire control, Bullard pointed out that many fires in the home, vehicles, equipment and other buildings can be extinguished while in the incipient stage; provided you have a U-L approved extinguisher of the correct size and type.

"Recharge each portable extinguisher after each use", he added.

HAS SURGERY TUESDAY

This very educational fire program was brought to Santa Anna HS under the sponsorship of the Coleman County Farm Bureau. Mark Shambeck assisted Bullard as Junior Fire Marshall.

Jack Kingsbery of Crystal City had surgery Tuesday morning in Baptist Memorial Hospital in San Antonio. Tom Kingsbery spent several days in San Antonio with his brother who is getting along well.
