SANTA ANNA, COLEMAN COUNTY, TEXAS, THURSDAY, NOVEMBER 7, 1974

Mountain Echoes

By
Barbara
Kingsbery

Another SAHS homecoming has come and gone with a pleasant time reported by those who took part. The Ex-Student organization again planned an entertaining weekend for former students and their families, and the attendance was good.

We always regret that the registration is not complete, as many former students attend the football game, reunions or dance where there is no registration. There are usually twice as many former students attending the activities as are registered on Saturday morning.

We have commented before about slow delivery of the NEWS to our out-of-town subscribers, but one instance this week will "take the cake". A subscriber in Coleman finally received an issue of the NEWS -- 49 days after publication! Do you suppose a snail carried the paper the seven miles!

All out-of-town papers are bundled by cities or Zip distribution points and sent by truck to Abilene for dispatch. Only the local copies are handled by the Santa Anna postal clerks, so if your delivery is less than satisfactory, inquire at your local post office.

Mounties Win Homecoming Game; Travel to Eden Friday Night

The Santa Anna Mountaineers won their homecoming game over the Rising Star Wildcats last Friday night and brought their district tally to 3-1. They took the victory by a 26-13 score.

Albert DeLeon, Jody Day and Jay Weathers scored the touchdowns for the Mountaineers, and Hank Wise kicked two of four extra points. The game was a close one for three quarters, then the Mounties added two TDs in the fourth quarter.

The Rising Star attack was led by Mackey Elliott and Danny Munguia. They are now 1-3 in district play.

Statistics for the game are as follows:

SANTA ANNA
First downs 20
Rushing yardage 298
Passing yardage 23
Passes completed 3 of 6
Passes intercepted by 0
Punts, average 2 for 34

Employees Are Added At Local Industry

Several new employees have been added at Maranatha Industries here, bringing the total to 12.

The local manufacturing plant is now concentrating on hunting jackets and vests and windbreakers in 15 colors.

The latest order for the company is from Montgomery Ward. Other well-known retail establishments handling the garments are Gibsons and TG&Y.

There are no retail sales at the manufacturing plant which is located at the former Corner Drug building. Phil-Mart is the only Santa Anna business selling the jackets and windbreakers.

The company is presently looking for a larger building in order to expand to meet the increasing demand. The company opened here earlier this year and manufactured hunting blinds during the first several months.

Smoke Damage Reported From Saturday Fire

The Santa Anna Volunteer Fire Department answered a call Saturday afternoon at the Gary Lawrence home on Wallis Avenue. A grease fire in the kitchen was under control when firemen arrived, and only minor smoke damage in the kitchen was reported. One truck and several firemen answered the call.

The local fire department is eager to be of assistance to local residents, and they prefer to be called immediately after the discovery of a fire even though the blaze might be extinguished before they arrive. The worst fires for the VFD are the ones that have gotten out of control while homeowners hesitate to call the department.

ASCS NEWS

Ballots will be mailed to all known wool and lamb producers in Coleman County to enable them to vote in a national referendum on a proposed new agreement for the advertising and promotion of wool.

The mail referendum being held Nov. 4 through 5 will enable producers to vote their approval or disapproval of a new agreement between USDA and the American Sheep Producers Council (ASPC) which provides for the USDA to withhold a part of any wool payments of any wool payments that might be made to producers to finance advertising and sales promotion programs by ASPC for wool and lamb. The withheld funds would also be used by ASPC to develop and disseminate information on product quality, production management and marketing

improvement for wool and sheep.

Wool and lamb producers will be mailed an explanatory statement about the proposed new agreement along with the ballot. The new agreement is similar to one approved by producers in 1971. If approval is voted, payment deductions of up to 1-1/2 cents a pound on shorn wool and 7-1/2 cents a hundredweight on unshorn lambs would be made, the same as the maximum deduction rates for the 1966-72 period. Since no wool payments were made for 1973 marketings, there were no deductions for that year.

The neutrality of the U. S. Department of Agriculture on the proposal being submitted to wool and lamb producers is emphasized. Its sole interest is in conducting a fair and impartial referendum.

Anyone may vote who has owned sheep six months old or older for at least thirty consecutive days during 1973. Votes may be cast by

individuals, corporations, or partnerships. Any producer who is not already known to the county ASCS office is urged to come by or call in order to receive a ballot and explanatory material. The Coleman County ASCS office is located at 119 West Street.

Any eligible producer may vote in the referendum, without regard for race, color, sex, religion, or national origin.

Santa Anna VFD To Maintain Rural Trucks

The Santa Anna Volunteer Fire Department met on Monday night, November 4, for a business meeting.

Plans were made for the VFD to take over the maintenance and care of the rural fire trucks. The two trucks have been under city

jurisdiction with the VFD helping with the financing.

The two trucks will still be operated by the VFD when needed, but will be financed by the annual donations and special donations. The new arrangement has been sought for some time by the VFD and is expected to increase efficiency of the department.

In other business Monday night, a nominating committee was appointed consisting of Kenneth Bryan, Dale Bradley, W. B. Griffin, Roddy Dean and Freddy Dodson. New officers for the department will be elected at the December meeting.

ELECTRICITY

We Couldn't Do Without It!

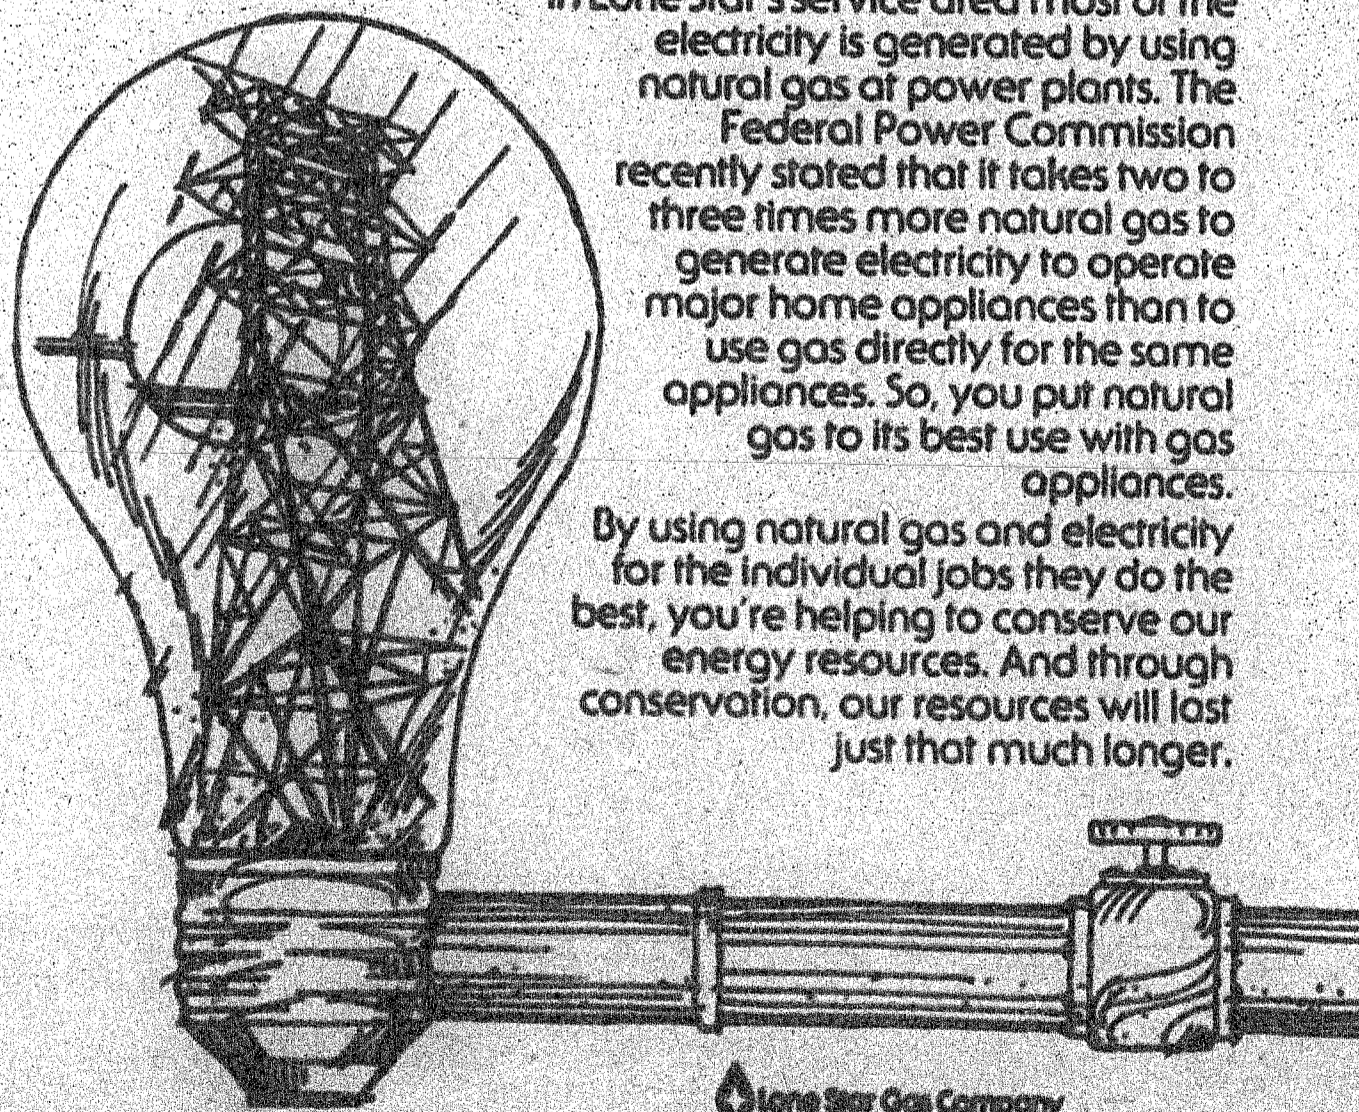

You might think that is an odd statement for a natural gas company to say about electricity. But it's true! There are some things that only electricity can do...like lighting, refrigeration and the many other jobs that it does so well and so easily.
But—

NATURAL GAS

Generates The Electricity You Use!

In Lone Star's service area most of the electricity is generated by using natural gas at power plants. The Federal Power Commission recently stated that it takes two to three times more natural gas to generate electricity to operate major home appliances than to use gas directly for the same appliances. So, you put natural gas to its best use with gas appliances.

By using natural gas and electricity for the individual jobs they do the best, you're helping to conserve our energy resources. And through conservation, our resources will last just that much longer.

NOTICE OF HIGHWAY IMPROVEMENT OR CONSTRUCTION

The Texas Highway Department offered an opportunity for a public hearing to be requested by publications on September 26, 1974 and October 3, 1974 of notices reporting the proposed construction of Farm to Market 503 from Farm to Market 53 approximately 6 miles West of Coleman, to a point 2.4 miles North. No requests for a public hearing were received; therefore, the District Office of the Texas Highway Department, at Brownwood, Texas, has submitted all of the engineering data and information received in connection with the development of this project for approval of the proposed route and design by the administration of the Texas Highway Department.

The proposed project will follow the existing county road except for straightening curves. The proposed minimum right of way will be 100 feet. The project will have a 20 foot paved surface with no shoulders and no access control. There will be no relocations involved on this project.

Maps, drawings showing geometric design, environmental studies and all other available data concerning the development of this project may be inspected and copied at the Resident Engineer's Office, Texas Highway Department, South Commercial Avenue, Coleman, Texas.

Wasn't Homecoming fun? I had a great time watching the Mighty Mounties play and defeat the Rising Star Wildcats and enjoyed the barbecue luncheon on Saturday.

It's too bad the bonfire wouldn't burn when the people were there. It was really beautiful later, after everyone left.

Congratulations to Kelly Cammack for receiving the title of Homecoming Queen, to Sharon McCreary for being chosen football sweetheart, and to Marty Warnock for Football Beau.

The Mounties played an exciting game last Friday night. We are really proud of them. Now, lets beat Eden, boys!

Thought of the week:

Do You Need a Friend?

Sometimes it's hard to be growing up in this world.

You wake up one day and find that you're being hurled

into a life that you do not understand at all.

And you have to watch step so you won't fall.

Then when you do, you feel so defeated.

And the whole thing is repeated and repeated

until your head rings and you feel so bad.

And you remember all the sorrows you've had.

Sometimes you accidentally stray

from the straight and narrow way.

No one seems to understand

No one wants to life a hand

To help you through a troubling time.

And friends are hard to find.

That's why I'm here to help you.

As you do the things you have to do.

I'll be your friend

Through thick or thin

I'll read the words that you can't see:

I'll be your friend if you'll just let me.

When you need a shoulder to lean against and cry

Call and I'll be standing there right by.

And when life is a little rough,

Together we'll be tough

We'll leave the world behind,

and go see what we can find.

Let me be your friend.

I want to be your friend.
