The Comforts of the

IT IS a well-known fact that, home for home, the American household has more comforts and conveniences than that of any other nation.

In foreign lands the modernized dwelling is found only in the better sections of the larger cities.

In America, even in remote rural districts, you find the radio, the vacuum cleaner, washing machines, upto-date heating systems, telephones and numberless labor-saving appliances.

There is a well-kept look about residence, store or outbuildings with an atmosphere of prosperity and content.

Did you ever stop to realize why this is so; how this condition was brought about?

It is largely due to advertising. And a big share of the credit belongs to newspaper advertising.

Stop and think how many of the foods you eat, the things you wear and other articles entering into your every-day life, you first heard of through newspaper advertisements.

You will then realize what a part they do play, or should play, in your daily life.

Read the advertisements in the newspapers regularly and thoroughly, if you are not already doing so. They mean more to you than you can tell.

A.A.U. Secretary **Predicts New Mark** Soon In Mile Run

NEW YORK (UP)—Daniel J. Ferris, secretary of the National A.A.U. and usually conservative in his statements, predicted that within the month Glenn Cunningham, the fleet Kansas runner, might lower Gene Venzke's 4:10 world record for the indoor mile or Venzke's 3:53.3 world mark for the indoor 1,500 maters.

Venake's 3:53.3 world mark for the indoor 1,500 meters

Ferris based his estimate on Conningham's remarkable proformance Saturday night when he beat Venzke in the Wanamake mile at Madison Square Garder. This mile developed into perhaps the most the library are in history. the most thrilling race in history of the event. It matched six of America's premier milers and the

Swedish champion, Eric Ny. It developed into a duel between Venzke, who had run the fastest indoor mile in the world, and Curningham, who had run America's fastest outdoor mile of 4:11.1, and the Kansas speedater won in the fast time of 4:13.

Cunningham ran this race with little preparation. Because of examinations at Kansas University. he had little time to point for the "If Cunningham can step off 4:13

with such little preparation for nace," Ferris said, "I am confident he will make a strong try for the 4.10 record at the New York A. C. games Feb. 18, and he may break for the 1,500 meters in the national championships the 25th. I would not be surprised to see him top Venzke's 3:53.2 for that event.
