Weather Forecast For 1946 By J. M. Morgan

Paris, Texas
Jan. 6, 1946

Mr. J. J. Gregg,
Santa Anna, Texas
Dear Mr. Gregg,

This being cycle year, my friends in and around Santa Anna will be wanting to know the weather forecast for 1946.

Will say, pay up your crop insurance in full, and take out all the extra insurance you can buy.

This being a cycle year, look for storm from the S. W. and lots of hail S. of mountain.

This being cycle (or 17 years) since we had our tornado coming on May 26th.

Go fishing and watch the clouds with one eye. Someone due to be blown away from the S. W. If the 11th of February passes with no light rain expect dry weather for Coleman Co.

Prepare land, if hail comes scratch top soil with section harrow, lightly. Plow middles after every hail storm.

On February 25th plant corn, kafir corn, some hegrira. Then go fishing.

If March 19th, another light rain, plant cotton crop. Forget it and go fishing.

April 20th, another rain period. Light scratch top soil crosswise.

Keep this up until May 24th another rain and storm period. Expect much hail and storm from S. W. From the Mountain to mouth of Home Creek expect tornado with hail.

If so, plant over same feed crop as before. After June 1st. expect dry weather, use harrow crosswise.

On May 18th cut small grain with binder. Shock and cap. Will make heavier grain than left standing to ripen. This is my observation and experience for past 40 years in Coleman County and other places.

Mr. Gregg if this is worth planting please do so, if not drop in waste basket and forget it.

Sincerely,
J. M. Morgan

Angelo Youth Gets \$10,000 For Steer

HOUSTON, Feb. 8—(AP)—Fifteen-year-old Howard C. Preslar, a 4-H youth from San Angelo, collected \$10,000 today for Mustang's Pride, grand champion steer of the 14th annual Houston fat stock show.

The youth's 1,040-pound steer, a black-Aberdeen-Angus, was bought at auction by Dixon Packing Company of Houston, and in turn was donated to the Arabia Temple Shrine's crippled children's fund of Houston, to be reauctioned or disposed of by the agency.

The price was a new record for the show. Last year's champion brought \$7,200.

The New Army

Guest editorial, reprinted with permission of the Dallas Morning News.

The old-time Regular Army used to be what we had left after we sent our fighting armies home. It was a skeleton framework on which we aimed to build our next fighting outfit. A division shrank to a regiment in size and a regiment looked like a battalion. A company was no bigger than a platoon and the platoon would barely make a real squad. A unit commander had to "simulate" men, weapons and equipment. We thought that was the way to keep the peace.

Things are all different now. If we have any peace in this world, we shall have to police it. It so happens that the only two countries with what it takes to supply a world police force are Russia and the United States. And when it gets down to the countries able to meet the payroll of such a force, it may turn out that the United States is the world policeman, if the world has any at all.

This is how it happens that we know we must have an Army big enough, strong enough, skilled enough, mobile enough—and sufficiently available on short notice to go anywhere and do whatever needs doing. Now there is a vast difference between fighting a war and policing a trouble spot. Our men will have to be trained for this new job. Being Texas Rangers, so to speak, to all creation is a brand-new job. It is a big job.

The fact that our forces, very probably, sometimes will be under the command of an Icelandic or a Peruvian named by the United Nations will make the job more difficult. The new Regular Army will be made up of technicians in maintaining peace in a raw and thin-skinned world. Men who can do that should have top pay, top training, top skill—and top advantages of advancement from the buck privates to five-star brass.

In the feature game the Centennial boys meshed 34 points while Buffalo sunk 11 points. Donald Futrell lead the Centennials with 3 points. Gould and Hinds each had 3 points. Buffaloes high point man was Jones with 5 points.

G. W. Bailey Buried Sunday

WINTERS, Texas, Feb. 9—G. W. BAILEY was born in the state of Kentucky on September 23, 1876 and passed away unexpectedly Saturday afternoon at 3:30 in the local hospital. He was stricken with a heart attack last Sunday while enroute home from a visit with his daughter and her husband, Mr. and Mrs. R. M. Rowe of Santa Anna. His condition was not regarded as serious immediately but was admitted to the hospital Monday morning for treatment.

Mr. Bailey came to Texas with his parents as a lad of 13 years. The family settled near Winchell, Brown County. He was later married to Miss Arty Gertrude Stacy on December 15th, 1896. This couple planned on celebrating their Golden Wedding Anniversary next December. The deceased had farmed most of his lifetime however, operated a grocery store in Santa Anna for several years before the family came to Winters in 1923. Mr. Bailey was a successful farmer, a good business man and a most loyal churchman. In early married life he united with the Methodist Church and has held membership with the local church during his years of residence in this city. At one time he served as trustee of the Trickham school district, Coleman County.

Mr. Bailey is survived by his bereaved widow; six daughters, Mrs. Edna Vogelsang of near Norton, Mrs. Amy Rowe of Santa Anna, Mrs. Emily Parks of Winters, Mrs. Olline McAdams of Big Spring, Mrs. Billie Middlebrook and Mrs. Neva Mayo both of Winters. An only son, Clyde passed away here on January 5th. There are 14 grandchildren.

Miss Louella Chambers received a note of sad news Monday, when she was apprised of the death of Mrs. Luther T. Moore of Rusk, Texas. Mrs. Moore and Miss Chambers were playmates during childhood and early school days, and were always fond of each other. Mrs. Moore has visited here with her good friend, Miss Chambers, several times, and has the warm friendship of several other friends who will regret to learn of her untimely passing.

Mr. and Mrs. Arthur Talley have received word that their daughter, Mrs. Charles Allen, has undergone surgery in an Albany, N. Y. hospital. All her friends will be glad to know that her doctors report all is well.

Black Owl and Co., Indians To Be Here

Black Owl and Company, Indians, to be here February 21, 11:00 a. m. at the Santa Anna High School auditorium.

Black Owl was born a Cheyenne Indian, but is called a Comanche since his marriage to Faith Attacknie of that tribe. He has achieved renown as an Indian artist and muralist. Some of his paintings have been exhibited in Europe and Asia where they have been acclaimed.

Black Owl is three times winner of the National Indian War Dancing honors, and is the last man of the Cheyenne tribe to go through the sun dance ceremonial. He knows and loves the traditions of his race from first-hand experience.

He will be supported by three other Indians in presenting a program that features the songs, dances and folk tales of the Great Plains Indians. The costumes are authentic and beautiful. The songs are ancient tribal chants sung to the accompaniment of rhythmic drums. The dances are of war, hunting and love. Some of the age old legends of the nomadic tribes will be told.

This is an Indian program presented by Indians who know the white man's way of life and yet sense something timeless in the heritage of their own race.

Weldon Spence Completes 90-Day Furlough

Weldon Spence expects to leave for California this week after visiting in Coleman county and the surrounding country since before Christmas, having a three months furlough from the Army. It had been about eight years since he was here, six of which he has been in the army. He was captured on Bataan and survived the death march. He spent three and one half years in Jap prison camps seeing and experiencing the hardships and discomfort we have heard about.

He says the will and determination to live and get back home was what got him through. It is said that "Only Omnipotence can hinder a determined man, and Omnipotence will not hinder a man whose determination is set in the right direction." Weldon's determination was set in the direction of home and loved ones, and every effort made to stay alive. His hopes were finally realized.

He found many changes have taken place in around Santa Anna and Trickham in the years he has been away, but has enjoyed visiting with relatives and old friends and making new friends. He discovered the little grammar girls of eight years ago had grown into full grown glamour girls some of whom helped to enliven the hours during his stay in these parts.

Weldon is a graduate of the Santa Anna High School of the class of 1935. His mother, Mrs. Bertha Spence, after a two weeks visit here is returning to California with her son.

He is survived by one daughter, Mrs. Ethel Bobo and husband, Santa Anna; two sons, C. M. Moseley, wife and three daughters of Santa Anna and Milton Moseley, wife and daughter of Fort Worth; and one other granddaughter, A Miss Cobb, whose mother died several years back.

The body was buried in the Santa Anna cemetery beside the grave of his deceased companion with whom he lived for 60 years, prior to her death three and one-half years ago.

The pall bearers were Lovell Richardson, Ozro Eubank, Mark Davis, Roy Richardson, Ted McCaughan and Emzy Brown.

Mr. and Mrs. Arthur Williams came in Saturday night for a visit with the Stafford Barter family. Mrs. Williams is the former Miss Marilyn Baxter. They had been visiting his mother in Canada. Previous to that they spent some time in California following his release from the army.

Christianity—Or?

From American Bible Society
As we look forward to what lies ahead for our harassed world, thoughtful people are becoming increasingly conscious that we must act quickly if we are to prevent the annihilation

of civilization. Should such a thing happen, or anything remotely approaching it, mankind's future on this planet will be fraught with grim and terrible uncertainty.
From many pens are coming warnings that now we can no longer fail to deal with mankind's basic problem—man himself. They are reminding us that

our technology has far outstripped our capacity to use it wisely and for mankind's own good.
In essence they are saying that we must do two things simultaneously—one, immediately, the other, beginning immediately, but carrying on continuously.
First we must have an effective world organization to which all the peoples of the earth will adhere.

and reported a conference with Kagawa and other Japanese Christian leaders. They cite the immediate need of sending from this country as the only possible source of supply 100,000 Japanese Bibles and 2½ million Japanese New Testaments.
Such a request, if it is to be met, will involve an expenditure of at least \$500,000. The American Bible Society as the one agency in this country geared to such a task has already placed orders for 1 million New Testaments, and is prepared to undertake the balance, but funds must be provided. Here is a challenge America cannot afford to ignore.

Much the same story can be told of Germany. Reports from chaplains received by the Society indicate a great receptivity on the part of the people, and an eagerness on the part of German pastors to get the books into the hands of the people as an essential part of their spiritual rehabilitation. The American Bible Society has already shipped 48,000 Bibles, 923,000 Testaments and 1,741,000 Gospels, has on the press or scheduled for immediate printing an additional 390,000 Bibles, 600,000 Testaments and 500,000 Gospels and estimates the need of supplying an additional 450,000 Bibles, 1,250,000 Testaments, and 500,000 Gospels.

These two urgent situations take into account the valiant efforts which the Society is making to meet the needs of other war ravaged areas in Europe and the Far East.
It is within the power of Americans of good will to fill the world's moral vacuum with the healing message of the Christian gospel. To fail to do so now may well mean disaster even within our own generation.
Your gifts should be sent to the American Bible Society, 450 Park Avenue, New York 22, N. Y.

Second we must address ourselves to mankind's spiritual rehabilitation. As the editorial in Fortune Magazine for January 1946 says, "If we are to meet the challenge of atomic fission, we must cure the fission that exists in men's minds and in their hearts. In this sense it appears that the problem is not mechanical, or even just political, but spiritual and personal."
Arthur H. Compton, Chancellor of Washington University and one of the scientists having most to do with the development of the atomic bomb, puts it in slightly different words, but with the same intent. "International agreements may prevent the early recurrence of a war of unparalleled destructiveness. But the lasting peace the world is seeking can come only as men learn to live in the knowledge of the truths of the spirit."

If our world is to close what another writer calls "the great gulf—between our engineering and our ethics, between our knowledge and our ways of life," then the puny stream of our giving to make Christianity known and effective must be swollen into a mighty river.
Joseph C. Grew, Assistant Secretary of State, writes, "For this new world of physical power into which we are entering we must offer to others the mainstay and discipline of the principles of Christianity or risk future terrible wars of destruction from which mankind may never recover."

The principles of Christianity are contained in a book, the Bible. Some important part of it has been put into the languages of 9-19ths of the human race. But never yet have sufficient funds been supplied to insure its adequate distribution. In its entire 130 years of existence the American Bible Society the recognized agency of more than 40 denominations, has yet to receive from all sources the equivalent of the cost of a single battleship like the U.S.S. Missouri.
Having now spent our billions to secure military victory and a fresh chance to build a new order in which wars will be impossible, we will do well to spend some millions in spreading the book containing the messages which alone will form the basis of that new order if it is to endure.
For the circulating of the Bible in the languages of the people has been and will always remain the spearhead of the Christian movement.
Now, to bring this down to a sharp focus, there comes an opportunity such as Christianity has never had before and, if it misses it now, may never have again. That opportunity concerns the two great aggressor nations of World War II.
In Japan the Emperor Hirohito has renounced his claim to divinity. That means simply that church and state are now effectively divorced. No longer need there be conflict between a Japanese's feeling of patriotism and his religion. The way is clearly open for the Japanese people to receive Christianity as their religion without doing violence to their sense of loyalty to their country.
The repercussions of this event were felt immediately in Japan as evidenced by a letter received shortly after by the American Bible Society. It came from Col. Ivan Bennett, Chief U. S. Army Chaplain in Japan.

Mrs. Rita Henderson was a Brownwood visitor Saturday.

Ah—a capitalist!

Now—it's just a penny in a piggy bank. But soon his piggy will be full. Then the pennies will be taken to a real savings bank.

The bank will put his pennies to work. Some of these pennies almost certainly will be invested in electric utility securities. Financial institutions, including insurance companies, prefer such securities because sound, thrifty business management has made them a steady, dependable investment—as dependable as electric service itself.

So, the little boy has a personal stake in the electric service industry. Practically every American has—millions of people as direct stockholders, other millions of citizens as savings depositors and life insurance owners.

This is the American private initiative economic system. It's called capitalism. It's a good system. It helped make America great. It produced to save the world. It had more electric power in service than all sources of electric power of all enemy countries combined. And it will continue to open doors of opportunity for all little boys and girls with piggy banks.

SMU News Bureau

Two gifts amounting to \$1,650,000 to Southern Methodist University were announced at the semi-annual board of trustees meeting February 5.

Mrs. W. W. Fondren, long time benefactor of SMU gave \$1,000,000 for the construction of a natural sciences building.

Mr. and Mrs. J. J. Perkins, of Wichita Falls, two of Methodism's leading philanthropists, gave an additional \$650,000 for the Perkins School of Theology at SMU. This gift by the Perkins makes a total of \$2,000,000 which they have donated to the school of theology in the past year.

In a letter to the board announcing the gift, Mrs. Fondren said, "In these days of scienti-

fic advances, it has seemed to me that our church schools should increase their contributions in this field of human thought, and with this end in view it is with much satisfaction that I am able to advise your board that I am working out a program whereby a gift of \$1,000,000 in cash and in property will be made available to Southern Methodist University for use in erection of a new science building on the university campus in Dallas."

The \$1,000,000 will be used to house the Fondren School of Science and will include both graduate and college work in the sciences. In 1935, Mr. and Mrs. Fondren gave funds for the Fondren library which was completed in 1940 at an approximate cost of \$500,000. Other gifts for scholarships have been made

during the years. Mrs. Fondren is a member of the board of trustees of SMU and of Scarritt College of Nashville. She is a member of the Federal Council of Churches of Christ in America, representing the Methodist Church; a member of the general board of hospitals and homes of the Methodist Church in America, and a trustee of the Methodist Hospital in Houston.

Mr. and Mrs. J. J. Perkins have made numerous other gifts to Southern Methodist University including \$76,000 for the completion of the Perkins Hall of Administration. \$176,164 was given in 1942 for the building of the Joe Perkins Gymnasium. Of the gift of \$1,350,000 last year to the school of theology, \$550,000 will be used for the construction of a dormitory for single theological students, a dormitory for married theological students and for a chapel. The remainder will be used for an endowment as will the latest gift of \$650,000. Mr. and Mrs. Perkins have also made many other gifts to SMU.

Both the Perkins and Mrs. Fondren are well known throughout Methodism for their philanthropy to Methodist institutions.

Mr. and Mrs. Virgil Priddy and their daughters, Ann and Martha, visited in San Antonio last week-end. They went to see a sister of Mrs. Priddy's who was sick in a hospital there and found her much improved.

THE PROPER PLANNING and DESIGN OF

Your Next Letterhead

Your letterhead is your business representative. If it is a good one it commands attention while poorer ones are still cooling their heels in the "THINGS-TO-DO-TOMORROW" basket.

Designing a good letterhead is an important job. But it need not be difficult... it is merely a combination of good planning, good printing and good paper.

Mrs. W. D. Craig spent last Tuesday afternoon with Mrs. Lee Vaughn.

M-Sgt. and Mrs. O. T. Stacy spent last Tuesday night with his uncle, Joe Stacy and family. They all went to the ball game at Brookesmith. I have just learned that Joe Stacy drives the Brookesmith school bus.

Mrs. Milton Johnson and children spent the day with her father, Charlie James, and her brother and his wife, Mr. and Mrs. H. B. James last Thursday.

Mr. and Mrs. Silas Wagner received word from their son, Sgt. S. C. Wagner last week saying he had reenlisted in the army and thought he would be on his way home in a few days for a furlough. S. C. has been stationed near Manila for months and the heat there is getting the best of him. He thinks he might get back to the States by March 1st.

Several of our people have been on the sick list the past week with colds. Mrs. S. E. Reed, Mr. Harry Wilson, Mrs. Tom Stacy, Oscar Watson's children has the measles and Peggy Ford has them today, Monday, and so does Hughlyn Burleson.

Mr. and Mrs. Walter Stacy, Joe Stacy and Mrs. Marlon Ford went to Winters Sunday for the funeral of their uncle, Mr. Willie Bailey, who passed away Saturday. Most of you will remember that his only son, Clyde Bailey, died just five weeks ago to the day when Mr. Bailey died. This makes it so hard on Mrs. Bailey and the girls. We extend our heartfelt sympathy to them. They formerly lived here and we were closely associated together, in fact almost kinfolks. May God bless, comfort and sustain them.

Mrs. Charlie Haynes spent Saturday night with Mr. and Mrs. Will Haynes. Since Mrs. Haynes has a home at Brookes-

smith and here too, we never know where to find her.

Mr. Loren Williams, Mr. and Mrs. Milton Driskell, Mr. Baxter Rice and Mrs. Alma Williams were afternoon visitors with Mr. and Mrs. L. E. Page, Sunday.

Mrs. Beula Kingston spent last Thursday afternoon with Mrs. Albert Loudermilk of Santa Anna.

Mrs. Izzie Proler and infant son, Robert Lawrence, were brought here to her mothers and grandmothers, Mrs. Nan Roberts and Mrs. Lee Vaughn. Both are doing nicely.

We noticed in the Santa Anna local news where Elvis Ray Cozart is to be inducted in the army Feb. 17. Sorry to see him go, but trust he will always prove to be the boy we have always taken him to be—one who is true-blue. God bless you Elvis Ray.

Mr. and Mrs. Tommy Mustian and girls of Brownwood spent Sunday with his parents, Mr. and Mrs. R. H. Mustian.

We were sorry Bro. Wylie failed to get here Sunday to fill his appointment, but from the way the weather looked late Saturday afternoon no one would have thought Sunday would be such a pretty day.

Mr. and Mrs. Bill Hiedbryer and M-Sgt. and Mrs. O. T. Stacy spent Sunday in Brownwood. O. T. and Sue visited her uncle, Mr. and Mrs. Ernest Stephenson, Bill and Tavy Marie and Mr. and Mrs. Tom Bagley were supper guests of the Bagleys.

Mr. and Mrs. Gene James are the parents of a son, Stanley Ennis, born at 1 a.m. Friday at the Sealy Hospital in Santa Anna. The baby weighed 9 lbs.

Mrs. Jack Burleson (Mydena Talley) was taken to the Sealy Hospital Sunday night very ill. But at this writing Monday seems a little better.

Pfc. Ray Wells left Monday for Ft. Sam Houston, where he will be reassigned for army duty. He has been home on a 30 day leave, after reenlisting in the army.

Grady McIver reported two cases of measles Tuesday morning. Nancy Jo Haynes is sick and more than likely has them.

Cpl. and Mrs. T. C. Rutherford from Amarillo spent Monday night with his mother, Mrs. May Rutherford. He is on his way to San Antonio for his discharge.

The Reed brothers, Jack and Gaylon are in the grocery business in Brookesmith.

To The Voters of Precinct Two of Coleman County

Upon the earnest solicitation of my friends, I have decided to announce as a candidate for the office of Commissioner of Precinct No. 2.

It is my purpose, if elected, to give fair and impartial service to all localities, and render honest and faithful administration of the office.

A graduate of Howard Payne College, with several years administrative experience, I am qualified to carry out the interest of this precinct to the fullest advantage.

I will appreciate your support in the forthcoming Democratic primary election.

J. H. MARTIN

Mrs. C. C. Holder, daughter-in-law of Mrs. Pearl Holder, left for San Diego, Calif. Monday to join her husband who is stationed at a Naval base there.

Baxter Announces For Office Of Tax Assessor-Collector

TO THE VOTERS OF COLEMAN COUNTY:

I wish to take this opportunity to announce that I will be a candidate for County Tax Assessor-Collector in the coming election.

I have lived in Coleman county all my life, and now reside at 216 East 4th Street. Prior to entering the service, I was attending the University of Houston. In October 28, 1941, I enlisted in the armed forces, and served in uniform for 46 months, spending two years of that period overseas. While overseas I performed duties in the intelligence section.

I believe that experience gained while in the service, attending school, and in civilian work prior to joining the army, qualifies me for the job of County Tax Assessor-Collector.

I wish to solicit your vote and influence and promise that if elected, I will serve to the best of my ability, and assure you of prompt, efficient and courteous service.

I hope to see each of you before election day and personally solicit your vote, but should I fail in a few cases, let me say again that I will appreciate your support. I am not asking for this office because I am a veteran, but because I want the job and feel that I am qualified to serve.

Sincerely yours,
PETER S. BAXTER, JR.

C. H. Richards Seeks Re-election

Another name to be added to our announcement column this week is that of Justice of the Peace, C. H. Richards, who is asking for reelection to succeed himself.

Judge Richards is serving on his second or third term, has given a good service, and states that he will make the race for reelection upon the record he has made in office. Really, Judge Richards gives considerable of his time to the public that is none commercial, so far as monetary returns are concerned.

He especially requests your favorable consideration during the campaign and your vote at the polls, and in return, he promises his very best in service and he will appreciate your vote as much as any one.

Homer Goodjoon of Trickham is making considerable additions and improvements to the house he owns just west of Miss Mollie Lowe's residence. It will be used as a home for his family, but they will hold on to their farm.

CARD OF THANKS

To our friends who were so loyal during our bereavement, we offer our sincerest appreciation. May Gods richest blessings be upon you.

S CLUB PIE SUPPER

At a meeting January 30, the S Club decided that on February 22, at the High School auditorium a pie supper was to be held.
On February 6, another meeting was held and a report from the program committee, although their plans were not complete, said that there would be songs and music. Also there will be contests for the prettiest woman and ugliest man.
We want every woman that will bring a pie and a man with lots of money.
There will be fun, frolic, and pies for all.
This is February 22, 1946.

WHO'S WHO

This young lass we have this week is a blonde with gray eyes. She is seventeen years old and five feet six and one half inches tall, weighs 129 pounds. After that description I am sure you all know who it is. It is that Alice Anna Guthrie, better known to most of us as Polly or Tub!
Well, Polly is a likeable person at times. But very plain spoken.
She has attended Santa Anna schools all her life. She has been a member of the Home Making Club all four years of high school; a member of the Press Club for two years and vice-president of our Freshman class.
Her likes are pretty clothes, summer camps and trips. With spinach, people who ask personal questions, and people with the big head being her dislikes.
When asked her favorite study and teacher she says, "For my teacher I can't decide but maybe Mrs. Childers, my speech teacher and History like I had under Mrs. Parker."
She thinks Clark Gable and Bing Crosby are the best actors (but don't we all?) Her favorite past-time is reading with Kathleen Norris the author.
For her ideal person she says "Never really gave it much thought, but Ann Griffin or Bob Porter."
Her greatest ambition is to become a designer of women's style and make lots of money so she can have a plantation home in Virginia and visit Java.
When she finishes school she plans to attend NTSTC.
Here's wishing you the best of luck in everything.

Well, well can you guess who we have with us this week? None other than that blonde, Wayne Horton.
This sixteen year old, six feet one and one half inches tall, gray eyed, blonde started to SAHS the year of 1944-45. He was a very attractive member of our Junior class and Senior class this year. Before entering Santa Anna he attended school in Taylor.
Wayne was one of the boy sponsors of the Home Making Club his Junior year; a member of the Press Club both Junior and Senior years; a member of the new organization, the "S" Club. He played fullback on that "ole Mountaineer team" known as number 35. He is vice presi-

dent of the class this year.
When Wayne was asked what his best likes are he replied, "Most everything. Especially one girl." With his one and only dislike—school. (Period)
His favorite study is Math with Mrs. I Williamson being his favorite teacher.
His ideal person is "My Dad."
This blonde headed lad plans to enter A & M College when he finishes high school. He says his greatest ambition is to be a successful engineer.
The best of luck to you, Wayne, whatever you do, where ever you go.

PEP LEADERS FOR '46-'47

The SAHS pep squad met Thursday, Feb. 7 to decide on new pep leaders for '46-'47. They have decided on electing two boys and three girls. Another meeting is to be called Wednesday, Feb. 13 to nominate our pep leaders. They will try out and if not satisfactory we will nominate again. We are looking forward for an active pep squad next year.

GOSSIP

In an emergency left-overs make the best. Now take for instance Irish stew, that's simply wonderful and it's made only of left-overs. It is, sometimes like this in human affairs.
Isn't it too, too bad that Doretha Faye has to take leftovers? What made you tire of Boyd so soon, Wanda?
Reba F. Haynes seems to like A & M uniforms. If you don't believe that just ask Elvis Cozart.
Who would have thought it, but Zona D. and Billy Mulroy have been found together.
Tommy can't you keep your class ring? It seems to have a habit of slipping away from you. Look who has it now, Gladys Blanton.
Freddie H. is doing all right. Friday night he was the gentleman of the moment with Jeanette E. Say, Ray D. what are you going to do about this, a Freshman too?
We have just been informed and from reliable sources that Stanly Cobb thinks the prettiest girl he knows lives in Rockwood. Namely Kelly Wise.
Romance at last for Tommie Sue and Hal, we hear.
Goodness, Ruby must be out for something new. We've heard talk about she and Maurice K. and Audrey R., too. Watch that girl, James.
Roda P. was doing good Friday night; seen with her were Donnie Estes, King, Stanley C., Red Griffin and Gene Smith.
Senior play practice seems interesting to more than one person. At least Wayne H. and Joyce H., Ray Mc and Mary Lois, Vance and, well we can't decide who. We've been hearing rumors

that Vance got his technique from his little bud, or did Stanley get his from Vance and just improve on it.
Well, well, do our eyes deceive us or was it Ruby H., Ann P. Bennie B., Don W., Martha P., and Dick H. we saw. Tut, tut.
Well here's yours while we go cook some of that Irish stew.
Signed,
Snoop and Scoop
P. S. Next week we want fresh stuff. Goody gossip tastes better when it's fresh off the cob.

SENIOR NEWS

The senior class met Monday, February 4th, and Willie Calcote appointed committees to select a speaker for our graduation exercises and to decide what we will do Senior day. The latter committee had a meeting Wednesday and have some very interesting plans up their sleeves, but of course nobody else would be interested. (???)
The ones who are in the play are coming along just fine and don't seem to mind having play practice every night. We hope to have the play about March 8.
The Seniors picked up paper around S. A. H. S. last week. (Most of them did, anyway.) I am sure everyone noticed that the lawn looked much cleaner than usual.
All you seniors don't forget that the class that has the least number of absences and tardies gets a half holiday. So far, I believe, the seniors are ahead so lets keep up the good attendance and get that half holiday.
The seniors had another class meeting Monday, February 11. The president appointed committees for the play. They are property, advertising, ticket and make-up committees. The ushers were also named.
The class discussed plans for Senior day, and it looks like we will have lots of fun on Senior day.

FRESHMAN NEWS

On Monday, February 4 the meeting was called to order by our president. The Student Council representatives told us of the half holiday the class with the lowest number of absences was going to get.
With the determination we show on some things, we ought to be able to get it.

SOPHOMORE NEWS

The editor jumped the Sophomores out this week because we didn't have any news. Well you see it's like this today we have no news, but tomorrow maybe, you'll see headlines like these, "King Auestad elected President of the U.S.A." or, "Chick Irick, World's Greatest Chicken Raiser Was Murdered." So if the Sophomores fail to make news now, we will in the future.
We all regretted to see Mrs. Arnold leave the school faculty. Some of us were expecting to be in her room next year. I'm sure we will all get along with Miss Taylor, as she has taught here before.
Sophomores, if we're to get the half day off that the Student Council promised, we had all better come to school and be on time. Tardies count as well as absences, so lets work hard and get this half day off.

Improved Uniform International SUNDAY SCHOOL LESSON

TRUE TO A GREAT HERITAGE

LESSION TEXT: Deuteronomy 4:1, 32-40. **MEMORY SELECTION:** He hath made his wonderful works to be remembered.—Psalm 111:4.

A goodly heritage is the gift of God to his people. By faith they must enter into it and possess it. Thus they honor him who has promised, and they witness to all the earth that he is a great God and a loving heavenly Father. It magnifies his name to believe on his word and to act on his promises.

Israel, having failed God and plunged themselves into years of wandering by their unbelief when they just came up to the Promised Land, were now ready to go over Jordan and take the land.

A new generation had grown up, and for their instruction Moses rehearsed the history of the people, repeated the promises of God, and renewed their remembrance of his law. The book of Deuteronomy gives that "second law"—actually a review of what had been given before.

As they entered upon God's rich heritage for them they were admonished to

I. Hearken to God's Law (v. 1).

To hearken means more than to hear and forget. It carries with it the giving of attention to what is heard with the purpose of doing something about it.

God's law, his statutes and judgments are for the good of his people. They are not designed to limit their freedom, but to provide the channels through which they shall be most free to live and to accomplish that which is good and noble and useful.

Two things were assured to Israel if they hearkened to the law of God. They would first of all "live." This does not mean only that they should escape death, but that they might enter into the fullness of life.

"The Bible teaches that we are free to choose between a high grade of life or a low grade, between a life which involves fellowship with God or a daily existence which means nothing more than the enjoyment of animal comforts and following our own willful ways" (Earl L. Douglass).

The second result of obeying God's law would be their going into and possessing the land which God gave them. There is victory and attainment, as well as blessed fellowship for the one who obeys God. That is true today as it was in the time of Moses.

II. Remember God's Love (vv. 32-40).

The loving mercies of God toward his people had revealed his infinite greatness and glory.

He revealed himself in the fire—and they might well have been consumed by it—yet he graciously spoke to them instead of destroying them. They were to recall, too, that he had done a mighty and wonderful thing in taking them out of the powerful hand of Egypt and making them into a people for his name.

Sad is the state of the soul of the man who has lost his sense of the miraculous. To live in the midst of the constant demonstration of God's power and his mercy, and to see and feel nothing but the commonplace touch of humdrum daily life, is to be blind and deaf—yes, to be dead spiritually.

Is he any less powerful today? Certainly not! He is still the God of the miraculous and nowhere is that divine energy more evident than in the spiritual life of man.

The wonders of God in creation were rehearsed for Israel. They learned of his care for his people. "But far more wonderful are the works of God in the new creation and his infinite care for his people redeemed from a ruined race, and made inheritors of eternal residence in the heavenly Canaan" (Hight C. Moore).

III. Depend on God's Promise (vv. 37-40).

The Promised Land was before them, but it was for them to go in and possess it. There were warfare and struggle ahead, mighty warlike peoples to overcome. Were they able for it? No, not in their own strength!

How were they to accomplish this formidable task? By counting on God. He had promised to drive out the nations now holding the land. He is a God not only in heaven, but also on earth (v. 38). The peo-

C.H.D. Council Has Meeting

The County Home Demonstration Council met Saturday, Feb. 2, with Mrs. Frank Drake, vice-chairman presiding in the absence of Mrs. Sam Lindsey, Chairman.

A short sing-song was lead by Mrs. Raymond McElrath. Mrs. Frank Gillespie directed the recreation period.

Reports on plans for 1946 were given by Mrs. Luther Edens, Chairman of the Educational Committee. The Committee plans for each club to have an Educational Exhibit in the store windows June 25-29. The Fall Educational Exhibits are to be October 15-19. Cash prizes are to be awarded 1st, 2nd, 3rd places on Educational Exhibits. Obedience to God's law brings fellowship with the eternal and omnipotent One, and the confident assurance that he will bring victory and the full accomplishment of his will for the obedient believer.

That is as true now as ever. Yes, let's be accurate and say that it is more true than ever, for believers now are indwelt by the Holy Spirit of God who makes real in and through them all the grace and beauty and power of God.

State's Youths Offered Awards

Texas town and country boys and girls are entering competition for college scholarships in a nationwide contest of the National Junior Vegetable Growers Association, Chesley Hines, Mississippi State College extension horticultural specialist, announces.

Outlining the sixth annual vegetable production and marketing project in which awards of \$6,000 have been made available by A and P Food Stores, Hines said:

"Working with the soil is an education in itself, and the contest is designed to give awards as an incentive to efficient gardening and marketing. Size of project is not a factor, since contestants are scored on effi-

ciency, improvements in methods, leadership in community and school activities, and scores attained in a study course." Scholarships to be awarded in 1946 include \$50 to the national champion, a \$200 scholarship for each of the four regional winners, \$100 checks to 33 sectional winners and the remainder of the award money in lesser awards within each state. The contest is open to all boys and girls between 12 and 21 years of age.

L. R. Glenn Announces For Commissioner

Added to our announcement column this week is the name of L. R. Glenn of the Shield community, who announces for Commissioner, Precinct 2, Coleman County.

Mr. Glenn has lived in this Commissioners precinct 36 years and has worked for several of the commissioners during the past twenty years. He is known over the county and especially in this precinct, for his road building qualities, and needs but little introduction from the press. He is competent to handle the job, and states that, he sure will appreciate the support of his friends during the campaign and their votes at the polls in July.

He further states that his only ambition is service, and that he has no favorites to favor or enemies to punish. Each citizen will be the same to him if elected. Mr. Glenn will make an effort to see as many of the voters between now and election time as possible.

GARDEN REMINDERS

February 22nd is George Washington's birthday, also "Arbor Day," and the last call for planting trees and flowering shrubs.

We have come to feel that Spring is officially ushered in by the famed Dogwood blossoms of East Texas, the Azalea Trails up the Mississippi and the Redbuds and Bluebonnet of West Texas, and the pilgrimages of eager flower lovers. Both the Highway Dept. and the Womens Clubs are rapidly extending a "Redbud Trail" across the western prairies.

The Mountain City Garden Club has purchased two black walnut trees to be planted in the park area of the cemetery as memorials to the two deceased presidents, Mrs. Jodie Matthews and Mrs. Clinton Lowe.

We hope to carry out a more extensive program of beautification in the future.

We are asking the cooperation of the people of Santa Anna in this project by planting and keeping their own plots of ground, and to assist the Cemetery Association in securing trees and shrubs and in caring for them. We need shrubs and evergreens in particular for windbreaks and background planting.

Please lets not allow this wonderful season to slip out of our hands now.

SANTA ANNA H D CLUB HAS MEETING

The Santa Anna Home Demonstration Club met February 1 in the home of Mrs. W. A. Standly. A business session was held and each demonstrator was assigned to her project for the coming year. The next meeting will be with Mrs. H. L. Zachary, Feb. 15th.

"The diet and nutrition of every worker and the conditions under which he eats have a profound influence upon his mental and bodily health and upon his morale," states Miss Jewell Hipp, CHDA, according to a recent report by Dr. Robert S. Goodhart of the Industrial Feeding Programs Division, U.S. Department of Agriculture.

"Weakness, irritability, difficulty in concentrating, and a 'lazy' feeling toward work are symptoms common to both fatigue and hunger. These are also some of the earliest signs of deficiencies of the B vitamins, thiamine and niacin, and also of vitamin C, ascorbic acid. Malnutrition, not yet severe enough to be a real deficiency disease, still may be responsible for mental depression, indigestion, easy fatigue, loss of weight, slow learning ability, interference with vision, and clumsiness at jobs requiring skill with hands."
