National and International News Hi-Lights of the Week

Labor relations seem to be spangled beyond repair this week and no relief is eminent despite government seizure of the nations railroads and soft coal mines and other attempts to settle the labor disputes.

President Truman seized the nation's railroad system last Friday in an effort to head off a paralyzing strike set for 4 p.m. Saturday. A scant five minutes before the strike was scheduled to come off the president announced a 5-day postponement. Rail service was tied up for some time but was almost back to normal by Sunday. Presidential advisor John P. Steelman called railway management and labor into a conference in an effort to find a formula that will cancel the strike now set for Thursday, May 23. Hope for a compromise that will avert this rail tie-up rose Monday night as A. F. Whitney, President of the trainmen's brotherhood, presented a new "proposition" and other rail labor sources said prospects of a settlement look good.

The President has proclaimed government seizure of the soft coal mines and has empowered Secretary of Interior J. A. Krug to negotiate with John L. Lewis on wage increase and other concessions. No assurance has been received by the government that the miners will not walk out as their two-week truce ends Saturday. The kiddies may cheer when they read about a strike that began May 16. It's in the two plants of the Baker Caster Oil Company.

The Texas Newspaper Publishers Association in a special meeting held in Dallas last Friday called for a reduction in newsprint consumption of at least 50 per cent to meet the emergency created by a strike of CIO workers in British Columbia. Texas and West Coast papers will be hardest hit by this strike. The Santa Anna News faces the possibility of a cut in newsprint but for the time being will continue in our present capacity. Our readers will be given advance notice of any change.

Two plane crashes this week made the headlines in most papers. One, a twin engine air liner crashed with engine trouble 6 miles southeast of Richmond, Va., last Thursday, May 16. Killing twenty five passengers and its crew of two. Most of the passengers were seamen bound for Houston or intermediate ports. The second, a two engine Army plane crashed and exploded against the stone side of the seventy-story Bank of Manhattan Building in the heart of New York's financial district last Monday night. Police reported that five bodies have been found on the fifth-eighth floor.

Calling the recent Ku Klux Klan demonstration on Stone Mountain a "disgrace to Georgia," Governor Arnald said he would ask legal opinion on Klan activities in the state.

Herbert Hoover, reporting on his survey of famine areas, called upon Americans for greater self-denial to help save 800,000, 000 persons from the "grim specter of famine in all the history of the world." Experts from eighteen countries, trying to overlook Russia's rather crippling absence, met in Washington last Monday to see what can be done about the world food crisis that may last for another five years.

Drafting of men between 26 and 29 years of age was authorized by President Truman "to save what we can from the near wreckage of the Selective Service System."

Radio Tabriz said last Sunday night that Iranian Government forces had attacked Azerbaijan and that fighting along a 150 mile front was in progress. Of real sources any there will be no

The Lions Roar

The regular meeting of the Lions Club was opened with the singing of two songs, followed by one verse of America and all members giving the Pledge to the flag.

Lion president, Neal Oakes presided over the regular meeting and luncheon. Gene Hensley addressed the Lions Club concerning the possible formation of another National Guard unit or a reformation of the Company from the 36th Division. Gene, a former member of the Club was a guest of Lion President Neal Oakes.

Lion A. D. Pettit reported to the club concerning the program plans for Ladies Night, a regular annual feature of the Club. The Lion's Club, ordinarily a male affair, holds the night as a gesture to wives of the members or as the case may be, to the members guest.

Approximately 15 Lions were absent from this meeting due to the fact that they were attending the District Convention of the Lion International at San Angelo.

Charlie Evens was admitted to the club as a new member. 43 Lions and one guest were present for this meeting.

Wesleyan Service Honors Mrs. Williams

Misses Elsie Lee and Ruby Harper were hostesses Tuesday Night, May 21, when the Guild Members entertained its members, honoring Mrs. J. D. F. Williams who will leave Friday for her new home in Handley, Tex.

Mrs. Cliff Herndon gave a very interesting report on the Guild meeting held in Coleman, May 14. Miss Elsie Lee Harper made an interesting talk on the study of Africa.

The Guild members presented Mrs. Williams with a cosmetic traveling bag as a token of appreciation for the outstanding work she has done in Santa Anna.

Along with an excellent program the Guild members were served refreshments.

Fire Destroys Welding Shop

The sleep of most Santa Annans was disturbed last Saturday night by the wail of a siren signaling a fire. Santa Anna's Volunteer Fire Department rushed to the scene in an effort to extinguish the flames and keep the fire under control.

The fire was discovered in Densman's Welding Shop around 2:00 a. m. Sunday morning. Despite the efforts of the fire department and interested citizens the shops suffered a terrific loss. Densman's welding shop sustained a total loss but Mr. Preston Bailey was able to salvage enough equipment to be in operation again in the near future but his loss was considerable. The shops were housed under one roof in a building owned by R. C. Gay. The joint loss was estimated at several thousand dollars. M. L. (Rat) Guthrie also had grain stored in the rear end, but suffered little loss.

The fire department did an excellent job in keeping the fire under control. The fire endangered a number of buildings close by but through the efforts of the fire department nothing else was harmed by the blaze.

At present he is on terminal leave and will revert to inactive status May 28.

Guthrie Elevator Now In Operation

M. L. (Rat) Guthrie's grain elevator is now in operation and can give the very best of service possible in loading grain. The Guthrie Grain Company is in a position to buy the grain from producers in this area and relieve them from further worry about their grain.

The elevator is a modern conveyor type and can load a car of grain in approximately one hour and fifteen minutes. With the elevator in operation Santa Anna should become a thriving grain distribution center for this and surrounding areas.

Coleman Mare Wins At El Paso, Takes \$2000 Purse

EL PASO — Prissy, an underestimated mare from the stable of Welden Ewing of Coleman, won the El Paso Sheriff's Posse stakes by a lead over Leon Gillespie's Miss Bank, Sunday before some 8,000 howling horse fans. The race climaxed the big five-day quarter-horse meet put on by the posse and was run for a \$2,000 purse, largest stakes ever offered for a quarter-horse race conducted without benefit of pari-mutuels.

ON YOUR OWN DOORSTEP

There is more to fire prevention than reporting the gory details of death and destruction that result from carelessness and neglect. Fire prevention can only be brought about by the individuals responsible for fire hazards. So this brings the question of fire prevention right down to the home and place of business of every person.

A furnace, for instance, when properly installed, is provided with insulation to eliminate overheating inflammable surroundings. The same applies to the electric or gas water heater. Even the electric iron has safety devices, but individuals are responsible for their use. Electric wire is made as nearly fool proof and fireproof as possible, but again the human element can render its safeguard valueless by carelessness or neglect. In building new homes and factory buildings, countless provisions are made for fire safety which counteract human carelessness to the greatest possible extent.

A guest in a hotel feels much safer sleeping if he knows a sprinkler system is ready for instant use in the event of fire. Recently a large Chicago hotel had three fires within a week's time, any one of which could have taken lives if it had failed in providing proper fire prevention measures beforehand. Every home and building cannot afford a sprinkler system, but the occupants of such places can refrain from using pennies or other metal objects in place of fuses. The occupants of such places can see that all wiring and heating systems have need-

ed attention and they can clean up trash, dirty rags, paint cans, paint brushes, oil, etc., which are all potential fire hazards.

The same rule goes for fire prevention as for health—"an ounce of prevention is worth a pound of cure." And nobody but the individual whose life, property and health are at stake, can, in most cases, provide the "prevention" that will forestall calamity.

Where Is 1945's Feed Crops

COLLEGE STATION — Half of the feed produced in Texas in 1945, on the basis of total food value, was wasted.

That is the contention of C. G. Gibson, dairy specialist of the Texas A. and M. College Extension Service, who points out that most sections of the state have 90 days of plentiful pasture and feed and a nine-months' period of getting by the best way they can.

In his estimate of lost food value which might be conserved for feeding, Gibson includes such potential crops as fence row Johnson grass, crop residue and bundle feed which is stacked in the open. Rat and weevil damage to stored grain, of course, takes a heavy toll.

"There has never been a year when it is so important not only to produce as much feed as possible, but to save every bit that is produced," Gibson said.

He pointed to the silo, especially the trench silo, as the surest and least expensive method of storing feed.

"Some farmers point to high labor costs and labor shortage as the reason why trench silos were not dug and filled in 1945," Gibson added. "I believe that labor cost at its present level is not the limiting factor for food conservation in the face of the nation-wide food and feed shortage."

Trickham News

By Mrs. Beula Kingston

Our school program "Snow White" put on last Tuesday night was certainly well carried out. The children all acted their parts so well. Mrs. Gertrude Martin had them well trained and although the clouds were all around, thundering and lightning, the house was crowded and by the time most people got home it sure did rain. Sorry to learn that Mrs. Martin will not teach here next year, but will teach in the Santa Anna school.

I don't remember for sure, but we must have had two inches of rain or more this last week and we certainly are thankful (and not ashamed to say so) that so far we have not had enough hail to damage grain and gardens.

Mr. and Mrs. Bradley of Brownwood, father of Kee Bradley, our merchant here came out for the school program also Mrs. Paulson and Mrs. Bearden, mother and sister of Mrs. Bradley.

Nash Stacy and family of Santa Anna spent last Thursday afternoon here with his

mother. Bettie, daughter of Mr. and Mrs. Buck Mitchell was ill several days last week, but is able to be up again now.

Mrs. R. H. Mestian spent Saturday afternoon with Mrs. Kingston.

Mr. and Mrs. Clyde Haynes and son, Kenneth of Santa Anna, spent Sunday with his grand mother, Mrs. Charlie Haynes.

Allee, Evelyn and Verna May Stearns spent Sunday with Margaret and Eddie Edmondson.

From the cars I saw pass Sunday afternoon everybody from far and near must have gone to the ball game over close to Mr. Talley's.

So many of us start in the Christian race with great enthusiasm — for a while we run well, but if we are not careful we soon loose interest and begin to grow cold and indifferent, quit going to Sunday school and church, and as I so often think of these few lines: If every one did just like me. What kind of a church would my church be? Let's take this to heart.

TO THE VOTERS OF 35th JUDICIAL DISTRICT

I am announcing for the office of District Attorney for this, the 35th District, where I began life in West Texas nearly thirty years ago.

Am a member of the State Bar; Licensed to practice in Federal Court; have acted as City Attorney for Coleman, Texas. My legal training and experience was gained through law office reading and attending Summer Sessions of the University of Texas Law School.

As particular value in preparation for this office, I have acted as an official court reporter in Texas more than thirty years, performing an important part in the middle of thousands of trials, both civil and criminal. Am now serving my fifteenth year as reporter for the 119th Judicial District.

RALSTON P. HAUN

One of the leading members of the Bar in Texas said recently that it would be difficult to imagine better preparation for the office of District Attorney.

I do not have what might be called a "defense viewpoint" toward law enforcement, but rather the viewpoint of the average good citizen, who desires, and believes in, sensible, firm law enforcement.

Believing you are entitled to know I make the following definite, concrete statement as to the manner in which I would conduct the office:

GRAND JURIES:

The Grand Jury is one of the most important arms of our criminal jurisprudence. It should always remain free, independent and impartial.

I shall SERVE the Grand Jury, as the law contemplates, working WITH them at all times to the very best of my ability.

I shall have indictments prepared ready for the Foreman's signature at the time of adjournment.

PEACE OFFICERS:

Law enforcement is often a thankless job, and those who are in most direct contact with the public need your help and that of the District Attorney. Only in proportion that we back up their honest efforts do we reach the highest in law enforcement and secure the most protection from the law.

I shall always answer their call to the scene of any crime and help in assembling the admissible evidence in order that the trial jury shall get the true picture.

YOUNG OFFENDERS:

In cases where young offenders are brought to bar I shall make investigations into their background, advise with their parents, guardians, ex-teachers, ministers, or anyone who can aid in the effort to salvage them for useful lives.

If ONE BOY can be put back on the right track before it is too late it will be worth the effort.

CHILD DESERTION:

A terrible condition is growing up in this country; Article 602 of the Penal Code describes it as WILLFUL CHILD DESERTION, LEAVING THEM IN NECESSITOUS CIRCUMSTANCES.

Your welfare workers know of these pitiful cases.

When such are brought to my attention I shall present them to the Grand Jury and, in case of indictment, will prosecute for this, one of the most cowardly of all crimes.

TRIALS—NOT TRADES:

I will not trade off cases for pleas of guilty with suspended sentences in order to avoid a little work; only in cases where the ends of public justice have been fully met and where it is highly practical to do so in order to save time and expense.

INDEPENDENT:

I do not have, and, if elected, will not form any legal or business connections which might prove embarrassing or interfere with INDEPENDENT CONDUCT OF THE OFFICE.

DIRECTNESS:

I believe in directness in the trial of cases. Have seen many long, involved and confusing examinations conducted, the full effect of which could have been brought out by a very few pertinent questions.

I shall always help the Court in keeping the inquiry confined to the issues the jury is to decide.

ELEVEN DISTRICT ATTORNEYS:

Have worked with eleven different district attorney in three court jobs. Have learned something of value from each of them.

KNOW DUTIES:

I do not overestimate the importance of the office of District Attorney; I do not feel that it can, or ought to undertake, to remedy all the wrongs or shortcomings of society, although it is important and touches the lives of all, directly or indirectly.

I believe in SENSIBLE, FIRM LAW ENFORCEMENT. If I did not know the duties of the office and KNOW that I could properly discharge those duties I would not be asking you for it.

I earnestly ask you to favor me with your support.

Sincerely,
RALSTON P. HAUN

Improved Uniform International SUNDAY SCHOOL LESSON

By HAROLD L. LUNDQUIST, D. D. Of The Moody Bible Institute of Chicago. Released by Western Newspaper Union.

Lesson for May 26

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

FINDING A NEW SENSE OF VALUES

LESSON TEXT—Luke 12: 19, 20: 18: 24-30; 19: 1-10.
MEMORY SELECTION—The kingdom of God is not meat and drink; but righteousness, and peace, and joy in the Holy Ghost.—Romans 14:17.

Money, riches, possessions—that's what men are living and striving for in our day. It is going to seem a bit strange, but it will be very salutary to stress once again the eternal truth, best summarized by our Lord Jesus when he said, "A man's life consisteth not in the abundance of the things which he possesseth" (Luke 12:15).

I Don't Depend on Riches (12:19, 20).

The rich man increased in selfishness as he increased in wealth. He began to feel secure because he had laid up much goods. Now he became proud and boastful. He thought he saw years of comfort and ease ahead. Evidently he had not read, or did not believe, the words of Scripture, "Boast not thyself of tomorrow; for thou knowest not what a day may bring forth" (Prov. 27:1; see also James 4:13-17).

Well, can a man depend on riches? The answer is no. They are here today and gone tomorrow. Man himself is here today and gone tomorrow. When he goes, he leaves all that he has unless he has invested it for God.

Money is like a broken reed. The man who leans on it will not only fall, but will pierce himself through with many sorrows (1 Tim. 6:9, 10). Don't depend on riches—they will miserably fail you in your hour of need.

II. Beware of the Snare of Riches (18:24-27).

The rich young ruler had come running to Jesus to seek eternal life, but had turned away sorrowful when he found that a man cannot love money and love God at the same time.

Jesus improved the opportunity to point out that it is impossible for a rich man to be saved, except as the grace of God gets hold of him and sets him free from dependence on his wealth.

Apart from the grace of God, it is so easy for a rich man or woman to trust in riches, and to feel no need of God.

Look again at I Timothy 6:9, 10 and you will see that even the desire to be rich leads a man into a temptation and a snare. The man of God is warned to "flee these things; and follow after righteousness, godliness, faith, love, patience, meekness," and thus to be able to "fight the good fight of faith" (1 Tim. 6:11, 12).

We repeat that all this has a strange sound to modern ears, so accustomed to the worldly philosophy of trust in things and in dollars. We need to warn our young men and women about the awful danger of loving money.

There is something infinitely better than riches, and that is what we find in our next point.

III. Seek True Riches in Christ (18:28-30).

Peter and the other disciples had forsaken all the things of the world to follow Christ, and now as he reminds the Lord of that fact, he receives the assurance that there is a higher level of riches and reward for the loyal disciple.

God will never be in debt to anyone. There is no sacrifice made for his glory which does not find its glorious recompense, and no burden borne for his sake which does not bring its rich reward.

All this is not the result of some kind of a "deal" with God. We do not serve him because we expect a reward, but the assurance of the reward is there to encourage and spur us on in life and service for him.

The fact is, spiritual currency has far higher value than gold and silver of this world.

IV. Ask Christ to Deliver You from Riches (19:1-10).

Zacchaeus was a man well versed in the devious ways of the extortioner. He knew money, and how to make it. But he was not satisfied. He knew there was something more worth while than riches. His life was empty.

He sought Jesus. One look from the Master and he knew that he must lay his sinful heart open before him in confession. Salvation came to Zacchaeus that day.

Here, then, is the way to be delivered from the snare of riches—take Jesus Christ as your Saviour and Lord. He may then entrust riches to your care to use for him, but he will deliver you from a love for gold and from the folly of putting your trust in it.

The person who lives for riches is lost (v. 10), caught in a snare (1 Tim. 6:9, 10), trusting in something that will fail him when most needed (Luke 12:19, 20), and trusting something which will keep him from God (Luke 18:24-27), unless there is grace to free from it and turn to God.
