VOLUME LXI

SANTA ANNA, COLEMAN COUNTY, TEXAS, FRIDAY, MAY 31, 1946

NUMBER 22

## National and International News Hi-Lights of the Week

The railroad strike spread its creeping paralysis across the nation last Thursday night, moving from one strike zone to another and immobilizing train transport as it swept toward the west coast. President Truman, wrestling with the greatest strike in the nation's history, made an extraordinary address to the people last Friday night in this connection. On Saturday the President addressed a joint session of congress and asked for the most sweeping anti-strike legislation ever inaugurated by a President. While making this address he received a message that the rail strike was ended and that the trainmen were ready to return to their jobs.

The railroads released from government control were stirring toward normal service Monday but there was a noticeable transportation "hangover" for several days.

A. F. Whitney, a leader in the short-lived railroad strike, declared bitterly that his trainmen's brotherhood will spend all its \$47,000,000 treasury balance to defeat Truman for reelection. Whitney said the president's handling of the strike cost him the support of labor politically. He also stated that he had a sheaf of telegrams "denouncing the president's action of using the seizure weapon to break a valid strike."

The CIO United Auto Workers asked CIO President Philip Murray to take steps for "joint action by all organized labor" in opposition to the proposed anti-strike legislation. "The union condemned the President's proposal as 'the first step toward fascism in America.'"

The anti-strike legislation hit snags in congress amid furious charges and denials that President Truman was "ham acting" and that his legislative lieutenants were "stalling" on a permanent bill to curb labor unions.

There were few signs that the Senate would heed executive admonition to "act fast," a plea which brought house passage of the emergency bill an hour after he addressed congress last Saturday.

One amendment offered is to strike out entirely the section authorizing the induction into the armed forces those who strike against government of seized property.

Twenty-three cars of a Brownwood to Fort Worth Santa Fe freight train overturned one mile south of Blanket at 2:30 last Sunday morning. None of the crew was injured and officials did not expect to find anyone under the wreckage. Most of the 39 cars of the train, second to leave Brownwood after settlement of the strike, were loaded with wheat and threshed maize.

President Truman appealed for a year's extension of the price control law "without amendment that would jeopardize economic stability." Despite this appeal, several members of the Senate banking committee predicted the appeal would have little or no effect.

An advance in the retail price of citrus fruits—the second in six weeks—went into effect last Monday. The OPA said oranges, lemons, grapefruit and tangerines will cost a cent more per pound in some stores while in others there would be no change. The reason for this is that the prices, based on the varying costs, are rounded off at the nearest cent.

The Agricultural department announced that bakers will be required to reduce the weight of bread and rolls 10 per cent, effective June 1. The purpose is to save cereals for famine areas abroad and to make domestic supplies go farther.

## The Lions Roar

The regular meeting of the Lions Club was opened with the singing of two songs, followed by one verse of America and all members giving the Pledge to the flag.

Lion president Neal Oakes reported to the Club on the possible formation of a new National Guard Company in Santa Anna. The Lions Club is endorsing a program to form a new company of the 36th Division here. Lion George Johnson reported to the club concerning the convention of Lions International in San Angelo.

After the excellent luncheon Lois Crump, County Attorney, and guest at the meeting, made an appeal to the business men to attend the meeting of county officials and county businessmen at the Court House in Coleman at 8:00, May 31. His appeal was concerning the upswing of crime in this vicinity and particularly the passing of worthless checks, commonly referred to as "hot checks." He asked that all businessmen be represented at this meeting.

A discussion of the program for Ladies Night revealed that this program will feature a barbecue probably to be held at the High School. Details as to time and date will be published in this feature when the final decision is made.

Mr. Wallace W. Adams was the guest of Lion Basil Gilmore, James Arnold and Lois Crump of Coleman the guests of Lion Neal Oakes, B. F. Foss the guest of Lion Robert F. Markland.

Forty-five members and 4 guests were present for the regular meeting.

## Coleman Hikes School Tax

By a vote of 334 to 91, Coleman approved an increase in the school maintenance tax from \$1.00 to \$1.50 per \$100 valuation.

The special election was called by the school board after indebtedness against the school district had mounted to \$69,000. Hayden Hargett, president of the school board, had predicted that the deficit would become greater unless some means were taken to increase the school revenue.

Need for the new tax rate arose when the school budget was increased to cover expenses for improvements of the school.

## Two Stockmen Found Dead in Pastures

James Fisher, 70, May, Texas, stock farmer, died while driving his car in his pasture Tuesday, May 28. His car ran into a thicket. Justice of the Peace F. A. Loudermilk returned a coroner's verdict of death due to natural causes.

Temple, May 28—John Robert McBride, 35, rancher and rodeo performer, was found dead in a pasture near his home.

Justice of the Peace L. B. Arnold returned a verdict of accidental death.

Dawson See arrived Monday after receiving his discharge at Camp Chaffee, Arkansas. He has been in Germany. Mr. and Mrs. Reginald Owen and son of Elgin came Tuesday to visit her brother and their mother, Mrs. Annie See.

Mr. J. W. Jordan visited in Cameron last week and attended the town's anniversary celebration.

## Navy Cross Is Awarded to 110 Texans

The Navy Cross for extraordinary heroism was awarded to 110 Texans in the Navy during World War II, it was disclosed by the Navy Department in Washington recently.

Next to the Congressional Medal of Honor, the Navy Cross is the highest award for heroism in combat for men in the Navy and Marine Corps.

Heading the list of Texans is Commander Samuel D. Dealey, USN, who received Gold Stars in lieu of second, third and fourth Navy Crosses, and the Medal of Honor. He lost his life when the submarine USS HARPER, which he commanded, was sunk on a war patrol off Japan. Commander Dealey's widow lives in Dallas.

## Scouts Attend Camp at Tonkawa

Five scouts of the local Scout Troop are attending camp for one week at Camp Tonkawa, near Buffalo Gap. The boys will camp out and will have their meals served in a large mess hall. A new swimming pool has just been completed and during their stay the scouts can take advantage of the swimming afforded by the pool.

The scouts will be accompanied by assistant Scoutmaster Richard Bass. The boys attending camp are: Duane Moredock, Don Woodruff, Joe Hal England, Bennie Bass and Tommy Martin.

Coleman County, rural electric Cooperative, Inc., Coleman, Texas, receives \$287,000.

## Flower Show Saturday, May 25

The Flower Show last Saturday afternoon was a success beyond the expectations of either the promoters, the Mountain City Garden Club members, or visitors. Most flowers grown in this section were represented in the exhibit. The writer counted around 120 containers, including pot plants. The cut flowers were tastefully arranged in a variety of shapes and colors and sizes of vases and bowls. Some unique and antique containers were old time coffee mills, a long handled gourd, an old copper tea kettle and a wooden bucket.

Several tables set for serving were most attractive with linen or lace cloths, and appointments of elegant silver and china, centered with beautiful arrangements of flowers.

Bright colorful vegetables attractively arranged added a note of interest to the exhibits.

A table of potted cacti and bowls containing blooms of the species, succulents, and ornamental grasses, brought forth favorable comment.

Some lovely hand painted pictures and famed Indian arrows on the walls added interest to the displays.

There was a fine attendance throughout the afternoon, a considerable number of men and boys being in attendance as well as women and girls.

In and around Santa Anna there is an increasing interest in flowers, and attractive home grounds and much of the credit is due the Mountain City Garden Club. Mrs. Maggie Culver is president of the organization, Mrs. Sam Collier is vice president, and Mrs. J. R. Gipson is secretary. There are twenty-four members in the organization.

As we go to press it is reported that Miss May Elue seems somewhat improved. Condition of her heart is better than for some time. Hopes are entertained that she may be up soon.

Mr. and Mrs. John T. Wallace and little daughter are at Wingo visiting with his parents, Rev. and Mrs. R. T. Wallace.

## NOTICE OF MEETING

Coleman, Texas  
May 27, 1946

To the Businessmen of Coleman County:

During the past few months there has been a tremendous increase of offenses in the various fields of crime. Perhaps the greatest increase is swindling with worthless checks or what is commonly known as "Hot Checks." We fully realize that the business man is the person who is hardest hit by this field of criminal endeavor, and that the businessmen are perhaps more interested than any other group of citizens in seeing the swindlers stamped out. This can be done if we will all become acquainted with the law, and see just what it takes to constitute a criminal offense under the "Hot Check" laws. There are many things that the average individual does not take into consideration when accepting these checks and will be interested in learning.

You are cordially invited to be present at a meeting to be held in the District Court Room at Coleman, Texas at 8:00 P. M. Friday, May 31, 1946. At this meeting we will read and discuss the law, and all of us will enter into a round table discussion of various problems confronting you in this matter. We sincerely believe that you will receive a great benefit from this meeting and will be happy to have attended. You will have an opportunity to ask any questions you may desire, and we will attempt to answer them to your satisfaction. This meeting is for your benefit as well as the law enforcement officers of this County, and we earnestly appeal to you to be present. If for some reason you cannot be present, please try to send at least one employee as we want to have every business represented.

Invite and bring your friends along. They are WELCOME to this meeting.

Sincerely,  
L. M. CRUMP, County Attorney  
GEO. ROBESY, Sheriff

P. S.

DATE: Friday, May 31, 1946

The School is now attempting to get qualified instructors for the Distributive Education and Trades and Industries courses that are to be opened soon. Every veteran is urged to consider the training that will be of more use to him in his present and future employment.

To enroll in any of the classes that the school offers just secure a photostatic or certified copy of your discharge and see either Jim Gardner, in the Coleman County Agriculture Building in Coleman, or Harold Prater in the Chamber of Commerce Office in Santa Anna.

## Sen. Connally Denies Aiding Park Project

Senator Connally denied reports that he is participating in a move to establish a national park at Camp Bowie, Brownwood.

"I have urged the War Department not to declare Camp Bowie surplus," Sen. Connally told a reporter, "but to retain it as a future training camp for National Guard reserves."

"I am not concerned with, nor have I taken part in determining its future use in case it should be declared surplus," Connally said.

## Texan Says Navy Has More Deadly Weapon than Atom

WASHINGTON, May 23—(AP) Rep. Albert Thomas of Houston told the House today that the United States Navy has developed a weapon "far more deadly than the atomic bomb."

His statement came during debate on the 1947 Navy appropriations bill.

Thomas did not say what the weapon was nor would he elaborate to reporters other than to indicate it was a development of the Bureau of Medicine and Surgery. His statement to the House:

"We have something far more deadly than the atomic bomb today—not tomorrow, and furthermore it's in usable shape."

Thomas is a member of the appropriations subcommittee which heard secret testimony of high Naval officials for weeks before it wrote the appropriation measure.

Asked by reporters if the new weapon was in the nature of a death ray, Thomas declined to answer.

"I guess I've said too much already," he said.

The House is busy arguing about the side of the postwar Navy.

### South Announces For Representative

Added to our announcement column this week is the name of Judge C. L. South of Coleman, former Congressman of the 21st district.

Judge South is a candidate for the place now being filled by W. R. (Bill) Chambers of Brown county, a candidate for Commissioner of Agriculture, to succeed J. E. McDonald. Judge South is a man of experience and should be a very appropriate man in the Texas Legislature. He was reared on a Calahan County farm, worked his way up to a country school teacher, came to Coleman county and taught in the rural schools of the county as a boy school teacher. He always had an eye on something higher up in life, and sought to merit higher things by service to his community, his state and his nation.

Judge South was first elected to office of County School Superintendent, entered the study of law, and after being admitted to the bar started on up the ladder, serving as County Judge, District Attorney, and then to Congress for eight years.

The office of State Representative is a very important place,

### Cleveland Methodist Church Dedication

Dedication services of the Cleveland Methodist Church took place last Sunday according to plans. Rev. A. S. Gafford, District Supt., brought the dedicatory message in the morning. Rev. Pape, the pastor, was in charge of the program. Rev. Brown, pastor at Trickham, delivered a message in the afternoon. Mr. Henry Williams gave a history of the church from its organization to the present time.

There was good congregational singing and special numbers throughout the day. A fine dinner was enjoyed at the noon hour. Some of the former members living elsewhere were present to enjoy the occasion, and there were visitors from nearby communities.

Mr. and Mrs. J. G. Richards and children of Ingleside came last weekend for a visit with her parents Mr. and Mrs. J. W. Jordan and other relatives.

Scott Wallace, who is working at Sylvester, Texas, was here last week visiting with his family.

and in our opinion, no one in the district is more capable of filling that place than is Judge C. L. South.

With 30 years' experience in courts and trial procedure, Mr. Haun feels that he is well qualified to serve in the capacity of district attorney. He says, "I believe in sensible, firm law enforcement. If I did not know the duties of this office and know that I could properly discharge those duties, I would not be asking you for it."

Mr. Haun's statement to the voters of the county regarding his candidacy will appear in full in this paper next week, giving definite statement as to the manner in which he would conduct the office of district attorney, if he is elected.

Mr. and Mrs. Hodges are making their home in Santa Anna where he is employed. With every place becoming more health conscious, it is reassuring to know that Santa Anna has such pure water. The chlorinator guarantees its purity. Although the supply is adequate for present needs not a great deal of water from the recent rains, has been added to the supply. Many of us think Santa Anna's nice clear water is as good as the best to be found anywhere.

By Mrs. Beula Kingston

Harvesting of grain is going almost day and night. It is hard to make a guess as to how much is being made to the acre. Some spots are very good, others very poor. Anyway up until our first rain Easter Sunday it looked as though there would not be any grain made.

Mrs. Kingston received a card from her niece Mrs. Lucille Jones of Bangs last Thursday saying she had had pneumonia in one lung and was in the Medical Arts hospital in Brownwood from Saturday until Tuesday. I am hoping by now she has fully recovered.

Mrs. Chleo James was hostess to the H. D. Club last week.

Bill Vaughn was taken to the hospital last Thursday and was very ill for several days, but today (Monday) he is able to be up and about.

Relatives and friends of Tom Bagley of Brownwood are hoping the surgical operation he received at Mineral Wells last week will be the means of his

complete recovery from ill health.

Mr. and Mrs. Oscar Boenicke honored Virgil Lancaster, Delburn Rice, Otis Calcote and H. B. Dockery and Eugene Talley with a barbecue supper last Friday night. Owing to the rush in harvesting grain, H. B. and Eugene could not be there. These are some of the last of our boys released from the Army, and Virgil is not yet released owing to his broken leg.

Mrs. Sam Harris of Mochele was over for the services at Cleveland. She and Mrs. Zona Stacy were supper guests of Mrs. Kingston. She attended church here at night, spent the night with her sister-in-law, Mrs. Stacy, going home early Monday morning.

Mrs. R. H. Mustian, Mrs. Robert Stearns and Yvna Mae visited Mrs. Marvin Whitley Sunday afternoon.

Visitors with Mr. and Mrs. L. E. Page Sunday afternoon were George Page and family of San Angelo, grandson of Mr. Page, Mr. and Mrs. Loren Williams, Mr. and Mrs. Morris Williams of Brownwood, son and grandson of Mr. Page, Mr. and Mrs. J. B. Wathers of Shields, Mr. and Mrs. John Baugh, Joyce and Elroy of Rockwood, Mrs. Sammie Harris of Mochele, Mr. and Mrs. Tullie Allison of Cleveland community.

Mrs. George Bobo of Winchell spent the weekend with her mother, Mrs. Ben McIver. As some of you know, Mrs. McIver hasn't been well of late, but is slowly improving. Mrs. Roy Miller of Coleman was down here too.

Mr. and Mrs. Joe Stacy and family visited with his brother Walter Stacy and family Sunday afternoon.

Several from here attended the all day services at the Cleveland Methodist Church Sunday. You who used to attend services in the long ago and failed to come missed a great time. One could hardly believe it possible to see such a lovely church building in these times of scarcity of building materials. The dedication services were very sacred and the history of the other church building as given by Mr. Henry Williams was interesting. Mrs. Will Holt, (formerly Miss Jessie Williams) and Mrs. Lee Baugh were two of the charter members of the church present. District Supt. Gafford gave the morning address. Rev. Otis Brown and Rev. Morton were afternoon speakers, with special songs, and such a dinner. You could hardly decide how to help yourself. A day never to be forgotten.

Mr. and Mrs. Larry LeDeuer of Corpus Christi visited her mother, Mrs. Tom Stacy and other relatives last week.

Mr. and Mrs. James Ford visited with them at Mrs. Stacy's Friday night.

Mrs. Gene James visited briefly with Mrs. Kingston Saturday night.

Mrs. J. S. Laughlin, who has been indisposed for several weeks, was able to walk to see Mrs. L. E. Page Friday afternoon.

Mrs. Jack Laughlin has received word from her husband (I think he is somewhere in Japan) not to write any more as he was sure he would be coming home soon. She has rented the house recently vacated by Mr. and Mrs. S. E. Reed and is repapering it. When he arrives they will be ready for housekeeping again. She has been making her home with her parents Mr. and Mrs. Filmore Stearns.

Tommy, son of Mr. and Mrs. Gordon Stearns, will have his tonsils removed Friday. We hope he will soon be up and feeling good again.

Thanks to those who turn in their news. Wish others would do the same. This isn't my news. It is yours.

Winona and Wilma Bradley took part in Mrs. Oscar Swindell's Music Recital Thursday night at the Melwood Church in Brownwood. All that took part wore formal dresses.

# BOYCE HOUSE

Texas has had many colorful figures on the bench—like Judge Roy Bean, the saloonkeeper, and Emanuel Dubbs, the buffalo hunter—but history has rather slighted Colonel Smithers (we'll call him that), who was justice of the Peace at Fort Griffin when that town was the liveliest spot on the frontier.

Justice Smithers was a former army officer. He held the rank of colonel during the War Between the States, but with the close of hostilities he had

to step back to his permanent rank as lieutenant. He came to Fort Griffin for a tour of duty shortly after the war and after a time resigned and settled down near the fort to make a home.

The judge was well regarded in the community and when the citizens came to see the need of a justice of the peace he was elected to office without opposition—and held the post until the fort was abandoned and the Griffin 'Flat' became a country village.

The ex-colonel, so say those who knew him, was one of 'the boys,' always ready to take part in a game of chance, or go the rounds of the saloons—and more than once, after a festive night, he appeared on his bench in the morning sporting black eyes and a swollen countenance. But this didn't, in the least, interfere with his administration

## Why Argue?

By GEORGE S. BENSON  
President of Harding College  
Searcy, Arkansas

EVER since V-J Day, which most Americans look upon as the end of World War II, we have all recognized a high clamor of communistic propaganda. With sound reasoning, a great many well-meaning people have tried to oppose it on the street corners, to no avail. It is like arguing with a headline in yesterday's newspaper. To be really effective, our opposition must go much deeper.

There are not many things that I like less or fear more than concentration of political power, government by men rather than by law, and official favoritism for individuals and cliques; and I'm not alone. I am convinced that an overwhelming majority of Americans feel the same way. Consequently I hope these few remarks may improve the measure of protection for us all.

Futile WORDY arguments never contribute much to the world's progress or to any people's store of knowledge. In fact, taking a stand in opposition to another man's harangue serves without fail to dignify the harangue and call attention to it. Debating a false philosophy always helps it and, unless opposition is well handled, there's danger of its giving more help than hindrance.

Promotions, good and evil, ride on the wings of news, and news is necessary. Publishers, columnists and radio commentators, who chronicle real happenings day by day, perform an essential public service. Don't blame them. When

news is poisoned, the job is done by those who make news, not those who tell it. Let us know the truth because the truth will make us free.

Made JOURNALISTS tell me. News that news articles deserve prominence in proportion to the number of people interested. Thus persons in positions of power make news because a lot of people are interested in what these men say and do. If rulings they decree or opinions they express seem socialistic, there's nothing honorable for news men to do but tell the people. It's their country.

Radical propaganda undoubtedly does this nation damage. I believe a big majority of Americans are wholesome people, love their country and understand what makes it the world's best place to live and most influential power. Just the same, poisoned news gains converts. And so long as men in power wish to gain more power, the campaign for collectivism will go on.

At its source is the best place to quiet the voice of socialist promotion. Appointed "rulers" who hanker to boss the schools, control hospitals, limit production and eternally fix prices belong where their every word and deed does not make news; out of power. Stop the flow of public revenue into their hands. This will start solving immediately the problem of collectivist propaganda.

of justice.

Sitting back in his chair, he would assess a fine on his comrades of the night before without the slightest hesitation, notwithstanding their looks of astonishment and their muttered comments. But they knew better than to protest too openly for the Colonel used more than law books to back up his decisions.

He kept in the pigeon holes of his desk—prominently placed so that all might behold—an ornate brass-barreled horse pistol and a long-bladed Turkish knife and when the effects of too much firewater made some of his defendants obstreperous, Smithers emphasized his decisions by letting his right hand rest near the butt of the pistol or the heft of the knife. It seemed that the weapons—commonly called "The Colonel's Peacemakers"—had the desired effect for the justice never had to use them. The big horse pistol became almost legendary. As one cowboy described it:—"The Colonel mows prairie grass for his hen nests with that gun. He just fills it to the muzzle with bird shot, then steps down into a gulch so that his arm can come on a level with the grass, then gives a sweeping motion as he pulls the trigger

and down goes the grass."

Anyhow, such stories were told that none among those coming up for arraignment ever dared question the judge's ruling—especially after getting a glimpse of him sitting on the bench picking his teeth, as he sometimes did, with that terrible Turkish knife.

**SUNDAY SCHOOL LESSON**

By HAROLD L. LUNDQUIST, D. D., of The Moody Bible Institute of Chicago. Released by Western Newspaper Union.

**Lesson for June 2**

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

**FRIENDS AT BETHANY**

**LESSON TEXT**—Mark 14:3-9; Luke 10:39-42; John 11:1-3.  
**MEMORY SELECTION**—Let us love one another: for love is of God.—1 John 4:7.

Friendship comes to those who are friendly. That response of heart to heart, which opens up the deep wells of mutual devotion, is one of life's richest experiences.

There is too little true friendship in the world because men and women have not learned of the Lord Jesus what it means to be a real friend.

There are mutual privileges and correspondingly mutual responsibilities in friendship. There are sorrows to share as well as joys, and there are times when there must be the outpouring of sacrificial devotion.

"There's not a friend like the lowly Jesus, no, not one!" is not just the sentiment of a hymn writer. There is no friend like the Lord. He, therefore, merits our fullest devotion.

There are three incidents in our lesson, all of which took place in Bethany, the little village near Jerusalem where our Lord had found real friends. He went there to rest, to pray, and to find companionship. These incidents reveal that

**1. Love Gives All in Sacrificial Devotion** (Mark 14:3-9).

A rather shocking thing took place in the home of Simon. Jesus, this distinguished guest, was at dinner with the disciples, when a woman walked in unannounced and anointed his head with costly spikenard ointment. The disciples were surprised, and led by the betrayer, Judas, who had his hands on and in the money bags, they protested such awful waste.

Think of it—the value of this ointment was 300 pence, the equivalent (we are told) of 500 days of work. That means in our day it would be worth from three to five thousand dollars.

She should have stopped to think! Some lesser gift would have shown her love, and this rich gift could have been used for the poor!

Thus reasons the cool, calculating church member; but the believer with his heart full of love for the Master, gives without stint.

The Lord honored her gift, and accepted it as the anointing of his body for his coming death. He reminded them that they would always have the poor to care for, and she would soon be gone.

Love which never overflows in the abandonment of sacrifice, for the one beloved is a cold and distant thing; in fact, one wonders if it really should be dignified by calling it love at all.

The Lord is looking for followers who are willing to give themselves freely and gladly for him, pouring out the lovely fragrance of a life fully yielded to him.

**II. Love Shares the Fellowship of Joy** (Luke 10:38-42).

The little home of Mary, Martha and Lazarus in Bethany was lighted up by that intangible but delightful glow which comes with a friend who honors one's home by his or her presence.

He had often been in this home. Here he found relaxation and comfort. Here he gave of himself in fellowship and blessing.

But there was a shadow over this visit. Martha, eager to have a good dinner, was "cumbered" in heart and soon became critical of Mary because she sat at Jesus' feet.

Do not assume that Mary had not done her share of the work. She had, but she "also sat at Jesus' feet." In other words, she knew when the time had come to quit fussing and to get some real fellowship out of the joy of having Jesus in the home.

We who love and serve the Lord need to watch lest we become so "cumbered with much serving" that we lose out spiritually. We can become so busy with church work, holding offices in religious organizations, yes, even with preaching and teaching, that we do not have time for personal fellowship with the Lord.

**III. Love Bears the Burden of Sorrow** (John 11:1-3).

The very home where joy was the portion one day, became the house of sickness, death and sorrow on another day. Life is like that—we may all expect that tragedy, sickness and trouble will come.

**Vocational School**

The Annual Daily Vacation Bible School will begin at the First Baptist Church Wednesday morning, June 5. The school will open each morning at 9 o'clock. There will be three departments organized: Beginners, Primary and Junior departments. Children from four years of age to thirteen are urged to come and enjoy the privileges of the school. The program will be so varied that there will not be a dull minute. Parents are urged to keep the school in mind and to cooperate with our workers in seeing that the children have the opportunity of attending.

What then? Well, you will find that some of your professed friends will disappear. They are fair-weather companions. They have no taste for storms. Real friends will stand by, and what a treasure they prove to be!

But here again, the best friend of all is Jesus. When Lazarus was sick, "his sisters sent unto him." Send for Jesus in the hour of need! Oh, it is true that he did not come until Lazarus was dead, but he had a good reason for that, and in due time he came.

**Texas Man Is Named on Dairy Month Committee**

Appointment of Bryan Blalock, The Borden Co., Marshall, as chairman of the committee charged with planning Texas' June Dairy Month activities, has been announced by B. A. Thomas, Louisville, Ky., regional chairman.

Thomas will work closely with Blalock on the program in an effort to acquaint all Texas with the problems of the dairy industry.

The No. 1 problem is production. The public's demands for dairy foods have placed a tremendous strain on the dairy industry.

"Most places will have all the milk, ice cream and cottage cheese they want, but there are spots where even these foods are scarce."

Normally the program is designed to encourage the consumption of these foods, but this year there is hardly enough milk in the national milk pail to fill all demands.

The emergency housing program, intended to provide 2,700,000 homes for veterans through private construction became a law Wednesday, May 22, with its approval by the president. Housing expediter Wilson Wyatt, who was given broad controls over building materials prices and exports of scarce lumber, says this throws the program into high gear.

The Supreme Court Monday decided veterans do not have super-seniority rights to their pre-war jobs. The decision came on a suit by Abraham Fishgold, a Brooklyn welder. He contended that under the Selective Service Act he was entitled to regular work for one year even though that would require laying off a non-veteran worker of greater seniority. Justice Douglas delivered the court's 6-1 decision.

An international food Conference on Monday, May 27, called upon the world to eat dark flour, using more wheat grain than at present and diluting it with potatoes as a means of combating hunger in the next 12 months. It urged additional curbs on the feeding of grain to live stock.

The flood-rampant Susquehanna River raged through most of north-central Pennsylvania and southern New York Tuesday in the most serious flood in 10 years, damaging millions of dollars worth of property and leaving six persons reported dead.

Rep. Jackson (D-Wash) said that the war department had informed him that the deaths of eight servicemen's babies on the brideship Zebulon B. Vance had been traced to a virus disease known as "pneumo-enteritis" which had never occurred among human beings in this country before.

The 36th case of Polio and sleeping sickness has been reported for San Antonio since the outbreak of less than a month. This disease is now raging in 26 Texas counties and has claimed victims ranging from 20 months to 28 years of age.

Meanwhile, health officials and residents of the stricken city of San Antonio continue doggedly to spray DDT, as the City entered its fourth week of sharply-curtailed public assemblies for persons under 22 years of age.

Manuel A. Roxas was inaugurated President of the Philippines Tuesday and pledged that a free and law-abiding nation, closely associated with the U. S. would arise July 4 from the rubble of war.

Secretary of State Byrnes last Tuesday flatly denied statements made against him and the U. S. government Monday by Russian Foreign Minister Molotov. In reply to Molotov's assertions that a British-American bloc "waged an offensive against Russia at Paris," Byrnes declared that no such bloc was in existence.

The U. S. Extended a \$1,370,000,000 credit to France last Tuesday night to help her begin a four-year reconstruction program. In addition, the U. S. promised to grant France "additional credit" with which she could purchase 750,000 tons of American-owned merchant shipping.

As we go to press we received the news that the coal strike is over and the miners have returned to work. Agreement was reached on all points including the Miners Health and Welfare fund. The size of the fund was reduced and is to be administered by a representative of the union, the government and one chosen by the two. Though the soft coal workers have returned to their jobs a strike in the anthracite mines appears imminent.

**Rid Homes of Ants Says Scientist**

While some ants are harmless, most of them carry filth, and may contribute to various illnesses when they come in contact with food, it was stated recently by Dr. Heber C. Donohoe, entomologist of the Peterman Laboratories, who recommended to the nation's housewives that their homes be kept free of all ants.

The best way to destroy ants calls for an insecticide in powder form. Place it in unbroken lines—about a half inch wide—across all avenues of entrance. If ants enter house through kitchen door, place line of powder next to sill and extend it from one side of door to the other (as pictured above). Make ants cross killing agent at some point as they enter house. That's all that's necessary to kill them.

To assure best results, choose an insecticide in powder form designed especially for ants, then follow above directions.

**If Polio Strikes!**

What can we do to prevent infantile paralysis?

The answer is: Practically nothing!

Very little is known about the disease. We know the cause—a virus—but not the cure. We know that it is communicable, that many persons may harbour the virus without presenting any clinical symptoms of the disease.

Certain precautions, however, are recommended by the National Foundation for Infantile Paralysis.

If polio strikes, the Foundation urges, continue with normal activities. Schools, theatres and other places of congregation can remain open at the discretion of the health authorities, but unnecessary mingling with crowds should be avoided.

Extreme fatigue, sudden and prolonged chilling make the individual an easier victim. Swimming in polluted waters and removal of tonsils during epidemics should be avoided. Flies and other insects should be kept away from food. Sanitation is a "must."

The first symptom of polio-myelitis may be some minor discomfort: headache, unexplained fever, a cold, even an upset stomach. If any of these appear, a physician should be called immediately. Expert medical care may prevent crippling deformities.

Above all, the Foundation adds, don't worry about expense. Foundation chapters are pledged to see that no victim of infantile paralysis goes without care and treatment for lack of
