Chamber of Commerce

Funtier Day

The Santa Anna Chamber of Commerce met for a regular monthly meeting on Wednesday evening, March 11. Minutes of the previous meeting were read and approved. Plans for the Annual Funtier Day, scheduled for May 2, were discussed and decisions were made concerning the different events scheduled for the day. It was decided to NOT have the Miss Funtier Day Pageant. Some events planned for the day are a parade, the ice cream freeze-off, games, arts and crafts, a quilt show, a doll show, an art show, a softball tournament, the Lions Club Skit, and many other activities are still in the

planning stage and not yet finalized. Booths for the Funtier Day event are being sold and if you wish a booth call 348-3115 or 348-3101. The Chamber of Commerce is also planning to make and give baskets at the Funtier Day as they did last year and are requesting donations of homemade goods, food, art, crafts, etc. to put in the baskets that will be given away at drawings during the day. Other activities planned by the Chamber of Commerce is a Clean-Up Day scheduled for Saturday, April 25. Charles Wetsel is in charge of the clean up day.

Police Report

On Friday, March 13, 1987, a Wilfred DeLeon Sanchez of San Angelo, Texas was arrested for Driving While Intoxicated on Highway 67 involving an incident where he had been running vehicles off the road between Bangs and Santa Anna, and this subject was placed in the Coleman County Jail on these charges. Also, on Friday, March 13, Mike Makuta reported his pickup as being stolen or missing from his residence on North Santa Fe Street here in Santa Anna. It was recovered by the Brown County Sheriff Office at approximately 1:45 p.m. the same day on Highway 84 approximately 6

miles from Santa Anna. It had been vandalized and a stereo cassette player removed along with the speakers. On Sunday, March 15, Fred Miller of 903 Wallis Avenue reported that his daughter's Huffy 10-speed bicycle was missing and that the last time it had been seen was some four to six weeks as it had been on his front porch and that entry to the house was not used very much. Chief of Police Craig Terry reports that this is all of importance that has happened in the last week and he just wanted to keep the public informed of what the police department is involved in.

School Board Acts On Teacher Contracts

In their regular monthly meeting held on Tuesday night, the Santa Anna school board acted on teacher contracts along with other items of business. National Bank. Other county entries will be on display at the Coleman County Courthouse and First Coleman National Bank and Coleman County State Bank in Coleman. The winner of a \$10 beef certificate and a Circle C bandand, Jill is the daughter of Joyce Weathers of Santa Anna and Jay Weathers of Brownwood.

Santa Anna Teams Sweep Titles At CP

The Santa Anna Mountaineer Track Teams had a nice day at the races this past Saturday, streaking to team championships in both the boys and girls divisions at the Pioneer Relays hosted by Cross Plains. The meet actually took place in Rising Star because Cross Plains is building a new track facility. This was the first time in many years that both the boys and girls won championships in the same meet. The Mountaineers ran away with the boys title scoring 118 points to runnerup Gorman, who scored 67.5 points. The Lady Mountaineers outscored runnerup Cross Plains 103 to 96. The boys varsity team has grown in recent years. Three years ago we had only five boys; eighteen competed in the Pioneer Relays Saturday. Four other boys were unable to participate, but should be with the team next week. Those competing were: Joey Anderson, Scott Anderson, Fernando Castillo, Bobby DeLeon, Robert Duss, David Garza, Buddy Hardin, Rex Harper, Alonzo Hernandez, Johnny Kirven, Lonnie Kirven, Clarence McDowell, Reece McIver, Bobby Pritchard, Robby Pritchard, Eddie Tomlinson, David Tucker, and Jerry Wells. ISD Updating Facilities

The Santa Anna ISD is in the process of upgrading many of its facilities. Paving of the school ground between the Elementary and Junior High buildings was completed last week. This adds play area and helps building maintenance during periods of wet weather. In February, a contract was awarded to the Master's Company of Greenville, Texas, to replace the existing roof on the Elementary building. Construction will begin as soon as weather permits. Gary Stark Electric has just completed lighting the Smith Tennis Courts, bringing the number of courts that can be utilized at night to four. Special thanks goes to Walter Pape for donating the poles, West Texas Utilities for digging the holes and helping set the poles, and to the Coleman County Telephone Co-op for the use of their bucket truck.

Lion's Have Council Candidates For Lunch

The Santa Anna Lion's Club invited all the City Council candidates to lunch at the Tuesday meeting this past Tuesday, March 17. Candidates attending the meeting were: Joe Guerrero, Thomas Brooker, Joe Taylor, James Ford, Jim Keeney, and Paul Wilson. School Board Candidates will be invited to next week's lunch on March 24.

NEW SLOPED END ATTACHMENT to be used in the future on private access driveway entrances to state maintained highways is being shown by Gene Christian, roadway maintenance supervisor in Coleman County.

Sloped Culvert Ends To Provide Additional Safety

A new culvert end treatment that will provide greater safety for Texas motorists will be required in the future on all access driveway entrances to state maintained highways. Consisting of a length of pipe cut diagonally on a 6-1 slope, this safety end treatment has proved effective in reducing the likelihood of injury or damage in case of an accident. An out-of-control vehicle will run right over the new sloped culvert end, rather than come to a jolting stop on impact. According to Roadway Maintenance Supervisor Gene Christian of the Cofeman office of the State Department of Highways and Public Transportation, the innovative safety end treatments will be required on all access driveway entrances constructed after March 29, 1987.

In the past, the department has installed access driveways for landowners provided they furnish the materials. That policy will be continued in District 23 with the added requirement that the owner provides the safety end treatment. Christian encourages landowners with existing driveways to install the safety end treatment. Since a permit is required for either new entrances or modifying an existing entrance, Christian says that his office will process the permits in the order they are requested and install the safety end treatments as the work load allows. Anyone wishing to have the new safety end treatments installed or needing an access driveway may call Christian at the Maintenance Section of the Coleman Highway Department office.

Nation Salutes America's Farmers

**Farmers and their families are consumers
And taxpayers as well as best producers**

Like everyone else, the American farmer is a consumer and a taxpayer, as well as a producer.

Farmers pay about \$4.4 billion in farm real estate taxes annually, and \$500 million in personal property taxes.

In 1984, farm operators spent about \$139 billion for goods and services to produce crops and livestock. They had available \$34.6 billion in personal income from farm sources and \$40.0 billion from nonfarm sources to spend for personal taxes, investments, and for the same things that city people buy.

Farmers' 1984 purchases included:
*9.5 billion for farm tractors and other motor vehicles, machinery and equipment. About 150,000 employees are required to produce this farm equipment.
*\$13.6 billion for fuel, lubricants and maintenance for machinery and motor vehicles used in the farm business. Farming uses more petroleum than any

other single industry.
*\$24.0 billion for feed and seed.
*\$8.9 billion for fertilizer and lime.
*Products containing 360 million pounds of rubber — about 5 percent of the total used in the United States, or enough to put tires on nearly 7 million automobiles.
*33 billion kilowatt-hours of electricity

— about 2 percent of the nation's total. That's more than the annual residential use in all New England States plus Maryland, Kentucky and Washington, D.C.

*6½ million tons of steel in the form of farm machinery, trucks, cars, fencing and building materials. Farm use of steel accounts for 40,000 jobs in the steel industry.

Like everyone else, farmers feel the pinch of inflation. In the last 10 years, wage rates for farmworkers have gone up 90 percent, tractors and self-propelled machinery cost 166 percent more, taxes are up 63 percent and feeder livestock prices are up 66 percent.

Overall, the average cost of commodities, services, interest, taxes and farm wage rates has climbed 102 percent in the last 10 years. These sharp increases in the average include the much lower rates of inflation experienced in the past few years.

Agriculture nation's biggest Industry, largest employer

Agriculture is the nation's biggest industry — farm assets totaled \$956 billion on December 31, 1984.

Agriculture is also the nation's largest employer. Around 21.0 million people work in some phase of agriculture, from growing food and fiber to selling it at the supermarket.

Farming itself uses 2.7 million workers — as many as the combined work forces of transportation, the steel industry, and the automobile industry. The nation's food and fiber system accounted for 18 percent of total GNP in 1984.

Agricultural production is conducted by 2.28 million farms. Recent tabulations show that in 1983:

*1,433,000 (60.5 percent of all farms) sold less than \$20,000 worth of farm products per farm.
*272,000 (11.5 percent) sold farm products worth \$20,000 to \$40,000.
*381,000 (16.1 percent) sold farm products worth \$40,000 to \$100,000.
*284,000 (12.0 percent) sold farm products worth more than \$100,000. Of these farms, 177,000 had sales totaling \$100,000 to \$200,000; 83,000 had sales of \$200,000 to \$500,000; and 24,000 had sales of \$500,000 and over.

Agriculture requires the services of about 18.3 million people to store, transport, process and merchandise the output of the nation's farms.

Here are a few examples of where these people work:

*Meat and poultry industry, including meatpacking, prepared meats and poultry dressing plants, employs about 367,000 people and has a payroll of \$4.5 billion.

*Dairy industry, including manufacturers of such products as fluid milk, concentrated and dried milk, cheese, butter, and ice cream, employs nearly 162,000 people and has a payroll of \$1.6 billion.

*Canned, cured, and frozen food plants employ nearly 271,000 people and have payrolls of \$2.8 billion.

*Cotton mills and finishing plants employ nearly 143,000 people and have payrolls of \$1.6 billion.

THAT ADDS UP TO APPROXIMATELY ONE OUT OF EVERY FIVE JOBS IN PRIVATE ENTERPRISE.

What the farmer receives...

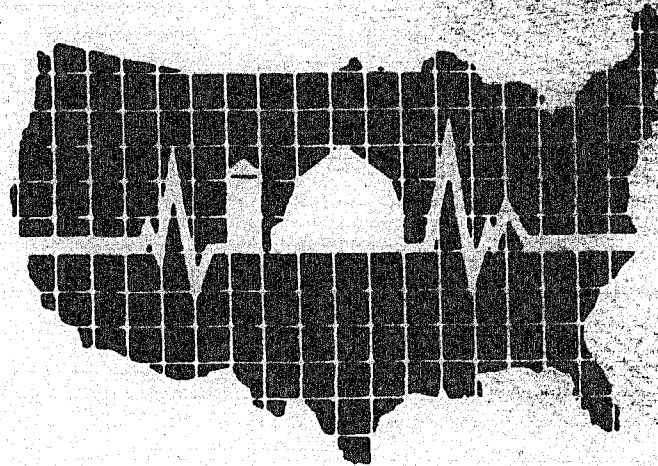

As gross payment from retail food prices the farmer receives (1984 annual average):

*34 cents per \$1 spent in grocery stores for U.S. farm-grown food.
*58 cents per \$1 spent for choice beef.
*43 cents for eggs selling for 80 cents per dozen at retail.
*4.3 cents for the wheat in a 54-cent loaf of white bread.
FOR THEIR LABOR, CAPITAL AND MANAGEMENT TO THE FARM:
*138.7 billion in gross sales of crops and livestock. Their net return for family resources was \$34.6 billion.

AGRICULTURE America's Heartbeat Vital to Us All

Americans get more food For their money today

Not only have food prices risen comparatively little in the past few years, family income buys considerably more food today partly because agriculture has become much more efficient and partly because consumer incomes have risen faster than food prices. For example, here's what the average U.S. worker could buy with an hour's pay in 1950 and in 1984.

Food Item	1950	1984
White bread.....	10.1 lbs.	15.4 lbs.
Frying chickens.....	2.5 lbs.	10.3 lbs.
Milk.....	8.0 qts.	14.8 qts.
Potatoes, fresh.....	32.7 lbs.	34.4 lbs.
Eggs.....	2.4 doz.	6.3 doz.
Pork.....	2.7 lbs.	5.1 lbs.

Our diets are more varied. The American consumer is eating 35 percent more poultry but eight percent less beef per person than 10 years ago. And eating more fresh vegetables (18 percent) and more fresh fruits (13 percent).

ON AN ACRE OF LAND... Farmers produce 80 percent more crop

American farmers today produce over 80 percent more crop output on an acre of land than did their fathers. Today, one hour of farm labor produces 16 times as much food and other crops as it did in the 1919-21 period.

One farmworker now supplies enough food and fiber for 79 people. Only 10 years ago, the farmworker was producing enough for 59. Because of the farmer's efficient output, we can enjoy a satisfying quantity and variety of food.

In 1984, for example, Americans consumed an average of 144 pounds

(retail weight) of beef, veal, pork, lamb and mutton; 68 pounds of chicken and turkey; 88 pounds of fresh fruits; 75 pounds of fresh vegetables; 308 pounds of dairy products and 73 pounds of potatoes.

Farmers produce not only enough for us, but also enough to make large quantities of farm products available for international trade.

We export more farm products than anyone else in the world.

In 1984, production from one-third (111 million acres) of America's cropland

went overseas.

Until recently, farm exports had set successive records, reaching a peak of \$43.8 billion in fiscal year 1981. Because of lower prices and reduced foreign demand, however, exports in fiscal year 1984 totaled \$38 billion and were declining further in 1985.

Even so, farm exports still contributed a net of \$19.1 billion to our balance of trade in 1984, which is another way of saying we got over twice as much for our food and fiber exports as we paid out for food and fiber imports.
