Mailbox Vandalism; Everyone Loses

Editor's note: In recent months, there have been incidents of vandalism to mailboxes in the post office and to rural mailboxes. That done to rural boxes has been for the most part done by persons using vehicles running into the boxes and damaging them and in some cases pushing them to the ground and even crushing them. Since mailbox vandalism has become a problem in the Santa Anna area, these remarks from the U.S. Postal Service Postal Investigator are very timely and should be of concern to all the citizens of the community.

Through rain, sleet, snow, or dead of night the U.S. Mail gets delivered to postal customers across the nation. The elements of nature don't stop letter carriers from getting the mail into a customer's box, but sometimes mailbox vandalism does.

Mailbox vandalism comes in a variety of shapes and sizes from the placement of objects inside the mailbox to the actual theft or destruction of the mail in the receptacle. Letter carriers and customers have reported finding bottles, snakes, snails, food, trash and even small animals inside their

mailboxes. Those items are usually easily removed and do not disrupt the delivery of mail. On the other hand, firecrackers, shotgun pellets, baseball bats, rocks, and even an occasional pickup truck usually do enough damage to cause interruption in mail service until the box is repaired or replaced. Beyond the

damage to the boxes, which costs the postal customer time and money to repair or replace, mailbox vandalism sometimes causes the loss or destruction of valuable and important mail.

U.S. Mail receptacles and the mail inside are protected by Federal law from theft, damage, and destruction. The violations are felonies which carry penalties of between three to five years imprisonment and/or fines between \$1,000 and \$2,000.

Through the years it has been discovered that the vast majority of incidents of mailbox vandalism are the result of juveniles playing pranks. Juveniles, those under the age of 18, cannot be prosecuted in Federal court, so frequently, even though vandalism is a Federal of-

fense, the local sheriff or police are called upon to investigate. They can respond quickly and usually have a pretty good idea which individuals are most likely to be involved. In addition, juveniles can be prosecuted for vandalism of mailboxes under the State law concerning criminal mischief.

The best way to prevent the destruction and vandalism of mailboxes is through education. Parents with young children should take a few minutes to explain the importance of an individual's mail to them. They should also let their older children know that what may be intended as a harmless prank is actually against the law and that everyone involved loses; the prankster who can end up in jail; the customer who has to pay for the repair or replacement of the damaged mailbox and mail; and the community who pays the local sheriff or police to investigate the incident.

It's your mail...protect it! Any act of vandalism or information concerning vandalism of mailboxes should be immediately reported to the local sheriff or police and to your local postmaster.

Chamber Makes Plans For Christmas Opening

The Chamber of Commerce is busy making plans for the Christmas opening to be held December 4, the first Friday in December.

The Chamber will award \$75, \$50 and \$25 prizes for the 1st, 2nd, and

3rd place floats in the Christmas parade. The parade is tentatively set for 3:30 p.m.

The best decorated windows will receive \$35, \$25 and \$15 for the 1st, 2nd, and 3rd places. The Chamber will also have 4 drawings giving

away 25 Santa Anna dollars at each drawing. More details will be forthcoming.

Everyone is encouraged to start making plans to have any entry in the parade or decorate a window downtown.

Santa Anna Area In Wall Street Journal

A front page story in the Thursday, October 22, Wall Street Journal includes information about Coleman County and the Santa Anna area.

Written by a staff writer, Paulette Thomas, the article tells of a visit to the area by Dick Reavis, a former Coleman resident and son of a former Coleman Newspaper publisher and editor.

Reavis, who also writes for the Texas Monthly magazine, is making a tour of the state, attempting to travel each mile of Texas highways during the year of 1987. The Wall Street Journal article related incidents on his visit to our county last month. Reavis and Thomas who is from Houston, headquartered at the Texas Ranger Motel while touring the highways in this area.

Landmarks and roads in the area were mentioned, including Farm Road 1176—the Trickham road, and the interesting sign in that little community advertising an early-day blacksmith shop that had a sideline service with Justice of the Peace, notary public and matrimony.

Juanita Jones, the motel manager, was quoted in the story along with mention of the room rate and extra services available.

Reavis also reminisced about his childhood in Coleman that included some memorable events while attending First Baptist Church there. His search for a childhood friend by the name of Grady was not successful.

Reavis, who now lives in Granger, has been a guest at the Texas Ranger Motel before. It was there

that he interviewed Sheriff H.F. Fenton for a Texas Monthly article about sheriffs of Texas. Fenton is owner of the local motel, with his sister and her husband the managers.

According to Thomas, the trek is supposed to be completed by the end of the year. What started off as a leisurely tour through the state with stops for visiting and photography, the project is now at a literal break-neck speed in attempt to complete it by January 1. Reavis is currently in the San Angelo area traveling roads in the wide west Texas area.

VFD Purchases Equipment

The Santa Anna Volunteer Fire Department met Monday night for their regular meeting and agreed to purchase two new air packs and two extra bottles. Total cost of the items is \$2500. The air packs are breathing apparatuses that the firemen must use when going into a burning or smoke filled building.

Last month the department voted to purchase 4 new back packs which are used in rural fire fighting. They also recently purchased a new generator. The City had earlier purchased for them a high pressure air compressor so they are able to fill their own bottles for their air packs, rather than having to take them elsewhere to be filled.

The fire department will meet next Monday evening to mount two new reels on trucks.

Council Thursday

The Santa Anna City Council will meet tonight (Thursday) in the Mountain City Community Center at 7:00 p.m. The agenda will be as follows:

Mobile Cancer Screening Unit To Be In Town

On Tuesday November 17, a mobile cancer screening unit will be in Santa Anna. The Breast Cancer Detection Unit from the Regional Breast Care Center at the Women's and Children's Hospital in Odessa will be at the Santa Anna Civic Center (Armory).

The Unit is to be sponsored by the City of Santa Anna. Appointments may be arranged by calling 348-3435.

The cost of the mammogram screening is \$50 and payment may be made by cash, check, or credit card (Visa, Mastercard or American Express). The exam takes only 15 minutes and is performed by a female technologist. Participants are requested to wear appropriate clothing to allow easy disrobing from the waist up.

After the examination, the films are returned to the Women's and Children's Hospital where they are interpreted by a radiologist from the Odessa Radiology Group. The

results are then forwarded to the woman's physician.

The physician provides the results of the study. If the person requires further evaluations and receives the evaluations at the Regional Breast Center at Women's and Children's Hospital, the \$50 dollar fee paid for the screening is deducted from the complete study charge.

The mobile unit is being put into use in order to reach more women and to find cancers at the earliest possible stage, thus preventing unnecessary deaths.

From guidelines established by the American Cancer Society for mammography, 35-40 year old asymptomatic women (those who have no symptoms of disease) should have a baseline mammogram; the 40-50 year old asymptomatic should have a mammogram every one to two years depending on breast type and risk factor until age 50; and the asymptomatic woman over the age of 50 should have annual physical examinations and annual mammograms.

According to a spokesperson from the Regional Breast Center, "The

death rate from breast cancer could be drastically reduced if women would have mammograms done before a problem exists."

The spokesperson added, "By using state of the art modern equipment, breast cancers can be found when they are the size of a grain of rice and well before the cancer can be felt. A woman who is diagnosed with breast cancer at this early stage has a 90 to 97 percent survival rate. However, a woman who is not diagnosed until the lump can be felt has approximately a 50 percent survival rate in five years.

According to the American Cancer Society, one out of every ten women in the United States will develop breast cancer sometime during her lifetime.

Be Aware Of Snakes

Rattlesnakes are on the move at this time of the year and several persons have had close encounters with some of the deadly reptiles.

Police Officer Ken Brixey killed a large rattlesnake in the yard of the Harvey Holland home on South Jefferson one day last week.

Craig Terry was bitten last week while working in his yard near the west end of Ave. B. He was taken to the Overall Memorial Hospital in Coleman for treatment and was hospitalized for a couple of days.

Police officers have reported killing other rattlesnakes in the city the past week or so.

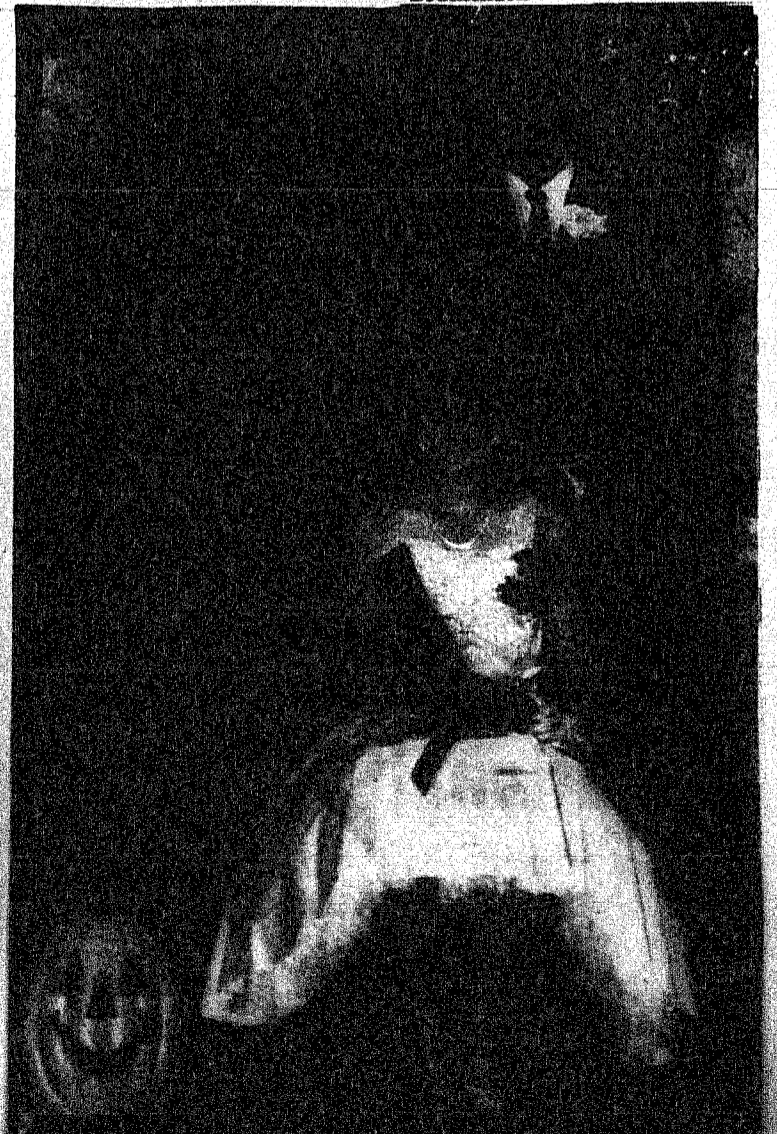

School Halloween Carnival Royalty

Katrina Turlinson was selected elementary school princess during the Halloween coronation event Saturday night. She is the daughter of Mr. and Mrs. Tom Turlinson. Her court was Tammy Gutrie, son of Mr. and Mrs. Lane Gutrie. Katrina and Tammy are fifth grade students in the Santa Anna Elementary School. All school classes from first to the 12th were represented in the coronation ceremony.

Lucas Harvey, daughter of Mr. and Mrs. Ray Joe Harvey, was elected Junior High Princess. She was escorted by Mitchell Gutrie, son of Mrs. and Mrs. Marie Gutrie. Lucas and Mitchell are sixth grade students of Santa Anna Junior High. The coronation of the royalty was followed by the carnival which was held in the cafeteria and in the old gymnasium.

Lee Ann Blalock was crowned High School Princess during the coronation ceremony Saturday night at the High School Halloween Carnival. She was escorted by Alan Hernandez. Blalock is a sophomore at Santa Anna High School. Lee Ann is the daughter of Mr. and Mrs. Shirley Blalock and Alan is the son of Mr. and Mrs. Margaret Hernandez.

Letter To Editor

I believe I speak for the Class of 1937 when I say we are sorry we didn't eat at the school during Homecoming. When we made our plans originally, it was to be at a place with a private room.

That didn't work out and we wound up at Underwoods. Two of our ladies were to meet us there; they had not made it to Santa Anna for the business meeting.

We didn't intend to not patronize the local Band Boosters. I suppose we just didn't think it mattered. Now we know that it does and I don't mind to sign my name.

Library Notes Check It Out

Are you looking for your roots? Libraries are the place to start your search. We have few books here in town, but Mrs. Martin and Mrs. Williams can help you find some sources.

If you want to look at microfilm of census, you will need to go to Brownwood or Abilene. Each of these have nice areas where you can go and look day. A micro film will tell the name of the head of the family and list the age of all the boys, girls and his wife. Some give additional information. Brownwood has the Texas census for most counties from 1850-1880. There are many books of county histories.

The Abilene Library has all this and they can order micro-film from The Church of Jesus Christ of Latter Day Saints in Salt Lake. These are said to be among the best family records. Abilene Librarians in the genealogy section are very well informed and so pleasant. They are members of the local club and write for news media.

You may go and look anytime, but if you need books you will need a library card. There is a fee and you are asked to name someone on town as a reference. Of course if the book can be taken from the library, take the name and file card number, then ask the Santa Anna Library to order for you. There is a copy machine where you can reproduce pages of material. There is a fee for the use of the machine.

WARNING- people say you can't stop once you start looking into geneology.

Methodist UMW Elects Officers

Monday, October 26, the U.M.W. met in the annex of the First United Methodist Church at 3 p.m. Lucile Smith presided at the meeting. She gave a report from the district.

Officers for the coming year were nominated and elected. President-Jackie Davison, Vice-president-Lucile Smith, Secretary, Treas.-Martha Thompson, Nominating Committee-Ethel Williams.

Dorothy Watson had the devotional. The group sang a hymn. Doris Griffin introduced a film strip entitled "Our Pledge". Members were given an opportunity to make a yearly pledge.

Mildred Galloway served open faced sandwiches and cake with punch or coffee. Tables were decorated with the Halloween decor. Members present included Dorothy Watson, Doris Griffin, Hettie Scarborough, Mildred Galloway, Nandell Stiles, LaRue Morgan, Lucile Dean, Carmilla Baugh, Margaret Crews, Grace Short, Mae Blue, Modora Gilmore, Jackie Davison and Lucile Smith.

May The Best Man Win

Finally, a national pageant for men! The first ever Texas U.S. Man of the Year Pageant, the state's official preliminary to the U.S. Man of the Year Pageant, will be held the weekend of November 7 and 8 in San Antonio.

A very new concept in pageants, the Man of the Year Pageant stresses the same characteristics as the Miss America Pageant. Specifically a positive role model for the youth of today. Competition consists of personal interview, which counts for 50 percent of the total score, formal wear (tuxedo) and swimsuit, which each count 25 percent of the total score. Good taste will dictate the attire in Swimsuit competition with no bikini or 'speedo' style suits allowed. Personality, self-confidence, articulation, and goal orientation will be emphasized throughout the pageant. Contestants must be at least 18

Thoughts From Our Pastors

WEATHERING THE STORM

Matthew 14:22-33

Weatherwise, storms can bring turbulence. Storms can be violent. Storms can tear things apart. Storms bring strong winds, lightning, thundering, and heavy rain. Likewise, as we live life on a day to day basis we experience storms. They come in the form of tragedies, emotional hurts, crisis, loneliness, suffering, financial failures, broken marriages, gossip, illness, depressions; and the list goes on.

However we as Christians can weather the storms of life. The Bible tells us we can weather these storms with God's help. In the New Testament Book of Matthew 14:22-33 we have some insights concerning the storms of life.

FIRST, JESUS PUTS US IN THE STORMS: Verse 22 tells us that Jesus forced the disciples to get into the ship. He knew the storm awaited them. As Christians nothing comes to us that the Lord allows it to come to us. There are two kinds of storms. There is the PROTECTING STORM which God puts us in to protect us from more dangerous situations. Then there is the PERFECTING STORM in which we are to learn a spiritual principle that we may be more like Jesus and that his power may be seen more clearly.

SECONDLY, JESUS PRAYS FOR US DURING THE STORM: Verse 23 says he went up on a mountain. And you can be assured that Jesus had them in his sight from the mountain. I believe the disciples were objects of his prayer. When Jesus puts us into the storm to protect us and to perfect us he prays on our behalf.

THIRDLY, JESUS COMES TO US DURING THE STORMS: Verse 25 tells us Jesus came and rescued them in the last hour. It is in the darkest moments that Jesus comes in our situations, when we are cut by the salt of loneliness, disappointments, despair, brokenness, and when we are ready to give up, Jesus comes to us.

FOURTHLY, JESUS SHOWS US OUR NEED OF HIM: Verse 28-32 tells us that without Jesus in our life, it is hopeless. We have to depend on his strength instead of the energies of the flesh. This includes salvation, living the Christian life, and facing life's storms. Let me encourage you to attend a church that preaches and uplifts this Jesus before men. Hebrews 10:25 says we are not to forsake the assembling of ourselves together as Christians in the family of God.

Rockwood Missionary Society Meets Deputy Grand Matron To Visit Eastern Star

Members of the Woman's Missionary Society of the Rockwood Baptist Church met in the home of Mrs. Bill Bryan Monday afternoon for a social meeting and to discuss future plans for their local work. One of the main items on the agenda was planning a social.

Mrs. Bryan led the recreation and served refreshments to Lillie Box, Mary Emerson, Nell Brushenhan, Ella Gray and Minnie Bray.

Fitzpatrick To New Position

Sandra Fitzpatrick has been promoted to a new position with the Texas Youth Commission. She will be Health Service Administrator for the TYC. She and her two children, Brandon and Steffany, have recently moved to Austin where her new office is located.

The daughter of Mr. and Mrs. Charles Hosch, Mrs. Fitzpatrick is a graduate of Santa Anna High School and has been employed with the TYC in Brownwood for the past five years as the director of nurses in the Brownwood area.

A formal called meeting of the Santa Anna Chapter No. 247 of the Order of The Eastern Star will be held at 7:30 p.m. Monday, November 9, 1987. The purpose of this meeting is for the official visit of the Deputy Grand Matron, Mrs. Ruby Ince.

Mrs. Ince is representing the Worthy Grand Matron, Mrs. Sherrill Cain, for the benefit of local officers and members to acquire instruction in their work and create interest in these efforts.

A fellowship hour will follow the meeting with Mr. and Mrs. M.L. Guthrie, Jr. as host and hostess. All members are urged to attend the important meeting.

Baby Boy Wardlow

Mr. and Mrs. Bradley Wardlow of Temple are proud to announce the arrival October 22 of Addison Taylor Wardlow. He weighed 7 pounds, 1 ounce and was 19 1/2 inches long.

Mrs. Gladys Wardlow is the paternal grandmother of the new baby. Maternal grandparents are Mr. and Mrs. Roy Eaton of Belton and Victoria Patterson of Bruceville. Mrs. Josephine Eaton of Temple is a great-grandmother.

Fannies Funnies

THE SQUIRRL

Every day when school was out, me and brother'd stay with Grandma Merle. Goin' barefoot all day long, climbing trees, free as a song.

Then one day he happened to catch himself a squirrl. He stuffed it down in an old shoe box, and pinched a couple of holes in the top. When Sunday came he slipped it into church. He was sittin' way back in the very last pew, showin' it to his good buddy, Hugh, when the squirrl got loose and went totally beserk.

What happened next is hard to tell; some thought it was Heaven and some thought it was Hell. But the fact that something was among us was plain to see. As the choir sang: "I Surrender All" the squirrl ran up Harv Newman's coveralls. Harv leaped to his feet and yelled "some things got a hold of me".

When that squirrl went berserk in that little Baptist Church, it was fight for survival, when it broke out into a revival. People jumping pews and shouting "Hallelujah!"

Harv still in the aisle dancing and screaming, some thought he had religion, some thought he had a demon. Harv thought he had a weed eater loose in his Fruit of the Looms. He fell to his knees pleading and begging. The squirrl got out of his britches leg unobserved to the other side of the room, went all the way to the amen pew where sat sister Bertha, better than you.

She had been watching all the commotion with a sadistic glee. You should have seen the look in her eyes when the squirrl jumped her garters and crossed her thighs. She jumped to her feet and said "Lord, have mercy on me!" As the squirrl made laps inside her dress she began to cry and then to confess to sins that would make a sailor blush with shame. She told about her love life and even started naming names.

Seven deacons and the preacher got saved and \$25,000 got raised and sixty volunteered for missions in the Congo. Heaven inspired!

Even without an invitation, there were at least one hundred rededications and we all got re-baptized whether we need it or not.

We've all heard the Bible story how He parted the waters for Moses to pass and all the miracles God has wrought. But the one I'll remember to my dying day is how He put that church back on the narrow way with a half-crane squirrl. (Coppied)

Help Your Heart

American Heart Association

Creating a Smoke-Free Generation

The high school graduating class of 2000 is the target of a national campaign to end smoking among young Americans. In an effort to accomplish this goal, three national non-profit health organizations, the American Heart Association, American Cancer Society and American Lung Association have formed a coalition to achieve a "Tobacco-Free Young America."

The initial phase of the project is "Smoke-Free 2000," a program geared toward graduates of the year 2000. Currently pre-schoolers, these children will enter the first grade in the fall of 1988. Local tri-agency coalitions throughout the country will begin programs designed for this group of children. For the next 12 years, these children will symbolize the "first tobacco-free class." The children will be informed about the social stigmas and health risks associated with smoking and given encouragement not to start smoking.

"Smoke-Free 2000" focuses on children young enough to be influenced positively by the effort. More than half of high school seniors who currently smoke started smoking during ninth grade or earlier. About 75 percent of adult smokers get hooked

during adolescence.

The tobacco industry targets advertising at young Americans, presenting smoking as a desirable and socially appealing activity. The tri-agency project emphasizes the elimination of these messages through bans or restrictions on tobacco advertising and promotion, including the distribution of free tobacco samples.

Another goal of the "Tobacco-Free Young America Project" is to affect legislation to regulate limitations on smoking in public places. Restriction of smoking in schools is a priority.

Speaking in support of a "Tobacco-Free Young America," Surgeon General C. Everett Koop commented, "We want to help young America become 'tobacco free' by the year 2000. And what's the significance of that goal? If we achieve it, that means... we will have rescued the young people of America from the preventable burden of smoking-related illness and death."

The goal of "Smoke-Free 2000," to prepare young people to make the correct decision regarding smoking, will require much hard work by educators and volunteers. The American Heart Association believes this goal can be achieved.

New City Machine Arrives

A new Caterpillar tractor was delivered to the City of Santa Anna on Friday, October 23. The News photographer, Mayor Thelma Brooker and former Mayor Joe Guerrero were on hand at the scheduled time of arrival. Guerrero was instrumental in obtaining the machine and was serving as mayor at the time

the process was begun. Shown with the machine is city employee John Bolds. Due to a delay in the delivery, the photographer had to make a later trip to the delivery site and the city officials were not available for the picture at that time. The machine is located at the city dumpground where it is to be used. (Photo by Betty Key)

Stenholm To Speak At Symposium

COLLEGE STATION - Marketing and policy issues impacting the Texas livestock industry - those factors outside the direct control of the industry - will be the focus of a symposium at the Austin Marriott Hotel from Nov. 30-Dec. 1.

The symposium, which is being planned by the Texas Agricultural Extension Service, will open with registration and a reception at 6 p.m. on Nov. 30, with the program

getting underway at 8:20 the next morning.

The purpose of the symposium is to increase livestock producers' awareness of marketing and policy issues that affect their well-being,

according to Extension livestock marketing economist Dr. Ernest Davis.

Keynote speakers will be U.S. Congressman Charles Stenholm of Stamford and State Senator Bill Sims of San Angelo.

Travis County Judge Bill Aleshire will give the opening remarks, followed by Dr. Zerle L. Carpenter, Extension Service director, who will introduce Stenholm. Other speakers

will include Dr. John Penson, economist with the Texas Agricultural Experiment Station; Dr. Ron Knutson, Extension Service

economist; James B. Owen with the Texas Beef Industry Council; and Davis.

Among the discussion topics will be federal deficit spending policies, crop policies, livestock and meat distribution, and the beef check-off program.

Cooperating in hosting the symposium is the South Central Texas

Beef Herd Improvement Program, a 17-county educational program of the Extension Service. Further details about the program are available at any county extension office.

The American Cancer Society has established guidelines for mammography in asymptomatic women. (Women who have no symptoms of disease). Those guidelines have been adopted by the American Academy of Family Physicians, American College of Obstetrics and Gynecologists, and The American College of Radiology. Those guidelines are:

- 35-40 years of age - One baseline mammogram.
- 40-50 years of age - A mammogram every 1-2 years depending on breast type and risk factor.
- 50 years of age and over - An annual physical examination and annual mammogram.
- Asymptomatic women under 30 years of age with significant high risk factors should be examined at appropriate intervals. These risk factors include previous breast cancer and family history of cancer.

V. A symptomatic woman should have a mammogram at any age when she experiences a mass, nipple discharge, skin changes or unexplained breast pain.

A screening mammogram is an x-ray of the breast using extremely low dosages of radiation (usually comparable to dental x-rays) and is designed to find very early cancers.

A female technologist who is highly trained in mammography will perform the examination.

The charge for the screening mammogram is \$50.00. The Unit accepts cash, check, Visa, Mastercard and American Express.

Reece McIver (41) and Alonzo Hernandez (36) close in to sack the Rochelle quarterback in Friday night's win over the Hornets. Santa Anna won 40-0.

Virgie Morgan Wins Shootout A Second Time

Virgie Morgan has won again in the Mountaineer Football Shootout. Mrs. Morgan picked the winners of all the contest games correctly with a perfect score of 10 of 10 and will receive a one year subscription to the Santa Anna.

A total of seven persons had picked 9 of the ten games correctly. All entries were declared even on the Blanket and Evant game which ended in a tie. San Saba's defeat of Goldthwaite was the rotten apple in the barrel for the 9 entries with only one miss.

A tie evolved for the second place. Eddie Jones and Marilyn Bryce both picked 9 of 10 correctly and they turned in identical scores of 40-6 for the game of the week between the Santa Anna Mountaineers and the Rochelle Hornets. Santa Anna won that game 40-0.

Jones and Mrs. Bryce will both receive 5 free classified ads in the Santa Anna News for their second place entries. Both have been previous winners.

LeeRay Huggins turned in the third place entry by guessing closer on the game of the week and by picking 9 of 10 correctly. He will receive one free classified ad.

SAHS Citizen Of The Week

Sophomore Lonnie Kirven has been named Citizen of the Week for Santa Anna High school. He was nominated for the honor by teachers Lois Harper and Kay Gray.

Lonnie was chosen because he always puts forth extra effort. He has a positive attitude and is always friendly.

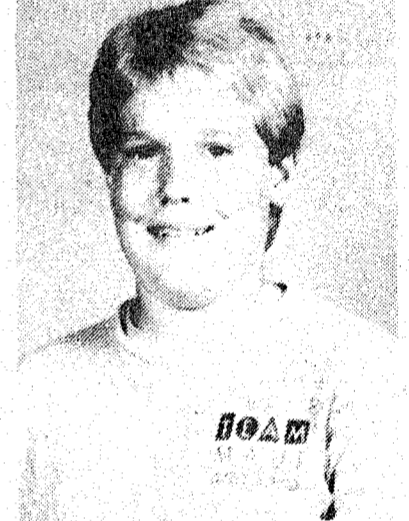

He is the son of Johnnie Kirven of Coleman and Gail Kirven of Santa Anna.

Jr. High Names Sweetheart And Pep Squad Beau

Martha Frausto was selected Football Sweetheart of the Junior High Mountaineers during half-time of the football game last Thursday evening. Jason Dean was named Pep Squad Beau. Both are eighth grade students of Santa Anna Junior High. Jason is a member of the Junior High football team and Martha is a Junior High cheerleader.

Mountaineers Shut Out Hornets

The Santa Anna Mountaineers swarmed all over the Rochelle Hornets last Friday night at Rochelle when they shut out the Hornets to the tune of 40-0. It was Santa Anna's game from the first whistle. The offense roamed almost at will, with 256 yards rushing and 35 in the air. The dominating defense collected 5 Rochelle turnovers.

Along the way, Santa Anna also turned the ball over with 4 fumbles. Rochelle lost 4 fumbles and neglected to cover a live ball on a Santa Anna kick-off for their 5th turnover.

The Mountaineers led 13-0 after the first quarter and 33-0 at half-time. Reece McIver started the scoring for Santa Anna with a 3-yard dash in the first quarter with 6:46 showing on the clock. James Hartman added the PAT.

With 1:38 left in the first quarter, Clarence McDowell raced for 69 yards for Santa Anna's second touchdown. The point conversion attempt failed.

In the second quarter Jacky Duquette joined in the scoring with a 2-yard run from scrimmage and Hartman again added the PAT. Then with 6:01 showing on the second quarter clock, Hartman hit paydirt with a run from 16 yards out. With 2 seconds left in the first half, Bobby DeLeon caught a pass from Hartman and ran 3 yards for his turn at scoring. He also kicked the PAT.

Santa Anna concluded their scoring with 14:44 on the clock in the

third quarter when Eddie Tomlinson took a pass and raced 5 yards to the endzone. DeLeon accounted for another PAT.

The runaway win puts Santa Anna at 5-3 on the season and 3-2 in district while Rochelle slides to 0-7 and 0-5.

Elsewhere in district 8A Baird continues to lead the pack at 5-0 with a 27-0 win over Gorman. Blanket is now 3-1-1 in district after their tie Friday night with Evant. Rising Star is one game away from Baird with a record of 4-1 after thumping Lometa 42-8.

The Mountaineers will host Lometa here Friday night at 7:30.

Everyone is encouraged to be there to show their support of the Mountaineers who could yet gain a spot in the playoffs by winning their last two district games.

Jr. Mountaineers 48-12 Over Rochelle

The Santa Anna Junior High Mountaineers defeated the Rochelle Hornets 48-12 at Santa Anna's annual Sweetheart game. The game was much closer, especially in the first half, then the score might indicate.

Phillip Hernandez got the scoring started by running 80 yards on the first play of the game. He also added the two-point conversion. The Hornets swarmed back and moved the ball to the SA 5 yard line before the Mountaineer defense could stop them. A 52 yard run by Tommy Williford helped to set up a 28 yard score by Vicente Frausto at the start

of the second quarter. One minute into the second quarter, Rochelle fumbled the ball back to the Mountaineers. A 22 yard run by pass from Dan Benton to Vicente and the extra point play by Phillip Hernandez brought the score to 22-0. A good drive by the Hornets was stopped on a pass interception by Vicente. He returned the ball for 54 yards for his third touchdown of the evening.

Rochelle, who never gave up, got back into the game with a 69 yard TD run with 2:50 left in the first half. Twenty-five seconds later, Hernandez broke for 53 yards and another Santa Anna TD. Once again the Hornets answered by scoring on a 47-yard pass play. The score was 34-12 at the end of an exciting first half.

Following an excellent half time performance by the pep squad, Jason Dean was selected as Pep Squad Beau and Martha Frausto was chosen as the Football Sweetheart.

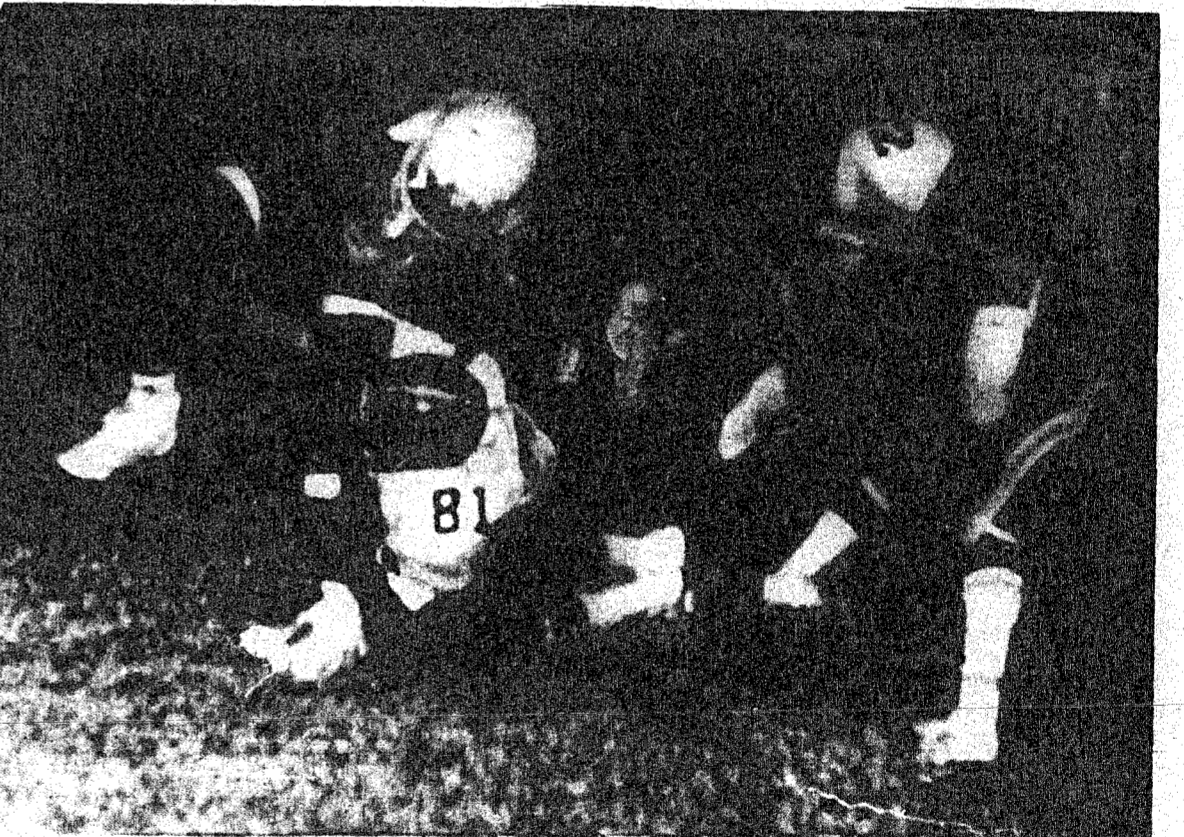

The tempo slowed down in the second half. Pedro Estrada scored on a 8-yrad run in the middle of the third quarter and Tommy Williford added the PAT. In the fourth quarter,

Vicente Frausto got his fourth TD of the game on a 44-yard run. The final score was 48-12.

The offense was led by Vicente with 159 yards and four touchdowns. Phillip had 191 yards rushing and

two touchdowns and Tommy Williford had 75 yards. The Mountie Machine had 443 yards for the evening. The entire defensive team played outstandingly. They allowed a very good Rochelle Team two touchdowns and 268 yards.

After the game, the parents treated the Junior High students with hot dogs and soft drinks. All in all, it was a very exciting evening.

Robby Pritchard (81) puts a leg tackle on the Hornet

ball carrier. Moving in to assist is Jacky Duquette (22). Santa Anna will host Lometa Friday night at 7:30.

RANGER PARK INN

By Annie Mae Brimer

The Melody makers saing for an hour each Tuesday afternoon for the resident's enjoyment.

Everyone enjoyed Halloween this year. Friday afternoon the residents sang old time songs led by Herbert Houser and Lila Tucker. Then they were served cookies furnished by the women of the Presbyterian Church and lemonade by Lorlene Williford and Peggy Johnson and Dorothea Wells.

On Saturday the lunch trays were decorated with plate favors made by Gay Turner of Waco. Saturday night the residents enjoyed the children coming out in their costumes to trick or treat. It was fun identifying Lorlene Williford, Dorothea Wells and Pauline Scott as they were wearing costumes. All in all, this was a real fun time.

Donna Cummings, J. D. and Bea King took Jimmie McGregor and Lena Ingram to Coleman for Mrs. Harbor's 99th birthday on Saturday, Oct. 31, at the High Rise.

The first Sunday service was conducted by Rev. Charles Mitchell and Stena Mitchell. Rev. Mitchell preached a very inspiring message.

The residents enjoyed the 42 games Monday afternoon. It is such fun to have Wilmoth Russell, Lora Russell, Lucile Wylie and Ollie Pembroke help with this time.

We are so happy to have Jim Danell back home from a stay in the hospital.

We are sorry Ivey Sparkman Mary May Smith and Caroline Youngblood are in the hospital. We wish them a speedy recovery.

Myrtle Bruton was buried in Baird, Texas on Friday afternoon. She was loved by all the residents and staff members.

Otis Hale and Dicy Dowe spent a few days in the hospital but are back home now. We are so happy they are doing better.

Mere words seem insufficient to express the love I have for all the wonderful folks of our community.

Your love, prayers, and support during my surgery and stay in the hospital were greatly appreciated. Only in a small community do people seem to rally around a person and their family as you have done.

The cards, calls, visits, food and plants given were greatly appreciated. Your concern lifted our spirits when we were down.

Thank you, friends, for being there for us.

FOUNTAIN OF YOUTH?

While the Fountain of Youth has yet to be discovered, the nearest thing may be an acne drug that seems to reverse premature skin aging caused by too much sun.

"There is no medically proven product available now that will completely reverse the natural aging process or eliminate wrinkles, but there is a glimmer of hope for some people with skin damaged by overexposure to sunlight," said Dr. John Wolf, chairman of dermatology at Baylor College of Medicine.

This "glimmer of hope" comes in the form of a face cream called Retin A, a derivative of Vitamin A that was approved by the Food and Drug Administration to treat acne.

"It's more speculation than research, but there is some clinical and experimental evidence that Retin A improves, prevents and possibly even reverses some aging of the skin caused by sunlight damage," Wolf said.

Retin A seems to have the capability of accelerating the skin's normal tendency to repair itself. It promotes new blood vessel growth, which increases blood supply to the outer and deeper layers of the skin. It may also stimulate regrowth of the epidermal cells on the outer layer of the skin. The end result might be healthier looking skin with more color, better texture, firmness and less sagging.

There are a few facts consumers should be aware of before attempting to purchase or use Retin A.

-It seems to reverse skin damage caused by overexposure to sunlight, but will not improve naturally aging skin or remove deep wrinkles.

-It is available only through a prescription.

-It should not be applied close to the eyes, lips, nose and other sensitive skin areas.

-Possible side effects include irritation and redness of the skin.

-Improvements develop gradually, over a long period of time.

Wolf also cautions that it is difficult to evaluate the beneficial effects of Retin A on the skin since physicians rely heavily on how pa-

Sunlight damages the skin in several ways. It causes a thickening of the epidermis, the outer layer of the skin, as the body tries to repair the damage of burning, Wolf explained. Further exposure causes a thinning and atrophy of the epidermis.

Sunlight damages components in the deeper layer of the skin called the dermis, which allows skin to stretch and then snap back into shape.

Long-term exposure to sunlight also damages blood vessels that supply nutrition to the outer and deeper layers of the skin.

The effects of this damage from sunlight are dry, leathery skin that wrinkles, sags and looks old prematurely.

No Cleveland News This Week

There is no Cleveland New report this week. Clara Cupps, our community correspondent for Cleveland, injured her arm in a fall and was unable to get the news together this week.

She is doing well but just was unable to write at this time. There was no broken bone, however.

The Savings Really Add Up

with
WTU's Energy Saving Plan!

Energy Savings
 Your energy savings will really add up when you qualify your home for WTU's Energy Saving Plan. You'll save money in energy bills for years to come when your home meets the energy-efficiency standards of the Energy Saving Plan.

Resale Value
 An E.S.P. Home will have a better resale value than other homes on the market, because it offers home owners lower energy bills. Energy bills are an important consideration for most families, so your E.S.P. Home will fit into a prospective home buyer's budget easier than a non-E.S.P. Home.

Cash Allowances
 WTU's Energy Saving Plan will now pay you larger cash allowances for installing energy-efficient equipment in your home. Consider a central system electric heat pump:

WTU WILL PAY YOU:
\$500⁰⁰ per home
 With a Seasonal Energy Efficiency Ratio (SEER) of 8.0 and above.

To qualify for the cash allowances, your home must meet the E.S.P. requirements and be served electricly by WTU.

E.S.P. Book
 The new E.S.P. Book clearly outlines all of the programs, cash allowances and requirements of the New and Improved Energy Saving Plan. The E.S.P. Book also has specific information on insulation, air infiltration control, energy-efficient equipment and much more!

Pick up your FREE copy of the new E.S.P. Book at any WTU office, and start adding up your savings today!
