Sophomore class with a 95.93 average; and James Hartman, highest ranking student in the Junior class with an average of 97.

Speaker for the commencement was Dean Bass who challenged the class to become the very best they can become but never become so "big or busy" to extend a helping hand. He also asked them to consider faith in God as their guiding hand through whatever life holds for them.

Lions Club Elects Officers; **Plans Fish Fry**

Friday, June 17th as the date for their annual fish fry. The all-youcan-eat affair will raise funds for the club's eyeglass project for needy children. Catfish fillets, hush puppies and fries will be served at the price of \$4.00 per plate, from 5 - 8

p.m. at the Lions Club building. Officers for the 1988-89 year have been elected by the Lions Club. Leading the group in the coming year will be Jack Burns, president; Claude Davison, 1st vice-president; Danny Wheatley, 2nd vicepresident(2nd term); Gary Absher, sec.-treas(4th term); and Monte Guthriee, tail twister(2nd term).

The Lions Club's major project is to purchase glasses, frames and octical examinations for needy children. The club has established certain criteria to determine the inability of parents to purchase glasses before the club intervenes with financial assistance. A special committee has been formed to screen elegibility for the financial assistance.

The club has four annual fundraising projects in order to support their benevolent causes. They are: pan-

been asked time and again as work progressed on the building at Wallis and 4th street.

Marty and Terri Warnock have now opened the new business as of Monday, May 30. To answer the question "what is Uncle Arthur's", it is a convience store featuring all those items normally found at a convience store, only, as the owners say, cheaper than other convenience stores. They are the dealer for Gulf gas and other car care products in Santa Anna.

Marty and Terri wish to emphasize the fact their business is locally owned and operated. Store hours will be from 7 a.m. to 9 p.m. seven days a week.

Santa Anna's Future **Great Inventors?**

Great inventors of the future just may have gotten their start right here in Santa Anna in the past few weeks during the INVENTION CON-VENTION held in the fourth grade science classes of Betty Moore and Janet Neff. The students were studying famous inventors and as a culmination of their studies and as a year end assignment each student spent three weeks preparing a report on a famous inventor and then set about doing some inventing of their own. Last week the students showed their inventions to the class and made a presentation explaining what it was and how it worked.

Perhaps one of the most ingenius inventions was that built by Johnie Lawhon. His was a "New Improved Bird House and Bug Killer". Built in the design of the capitol building, the

bird house nad an inside bug attracting light. Johnie explained that not only did the birds find a home, but also found food.

Another was Dawna Snipe's Rainbrella". For her invention, Dwana attatched a large, heavy garbage bag to an umbrella in order to shelter her entire body from the rain. A hole large enough for the user to see out of safely was cut in the bag at face level. When the umbrella was folded the bag folded inside.

Bobby Malear lashioned "relacers" from foil

wraped around the ends of shoe strings to replace the old worn tips, in order to make the strings more laceable.

Others were every bit as clever, but these just happen to be the ones this reporter best remembered.

Saturday Bike-a-thon To Benefit Children's Hospital

At a place called St. Jude, tonight a precious child will die; the parents stand beside the bed and sadly wonder why.

Why must a child so lovely, whom no harm has ever done, never again pick a flower or in the sunlight run?

Why must a disease so dreaded and feared by one and all, entwine this tiny body 'til it in death does fall?

Full of hopes and dreams of things to be, this life so very young... why must it end now its song is only just half sung?

Yes, some still die but many live, because there are folks like you, who give of your time, your energies, your dollars and dimes, year after year, and time after time.

There's no way to measure the worth of a child with eyes that glow and lips that smile.

So till a cure is found our work is not done, the job is not finished...only just begun. The above poem, "To The

Workers For St Jude" was written to workers in the cause, but certainly can also be to the riders in Saturday's bike-a-thon and to those who contribute financially for the St. Jude Children's Hospital benefit project to be conducted locally by the Delta Omicron Sorority at the football field Saturday.

Dreaded childhood diseases are killing many thousands of childrn each year and only medical research provides hope of discovering the still unknown causes of leukemia and other childhood cancers, muscle disorders, rare blood diseases and other illnesses that strike the young.

St. Jude Children's Hospitl, founded by entertainer Danny Thomas, is the only research center in America devoted soley to basic and clinical research in these castrophic disease

St. Jude Children's Reaserch Hospital depends upon public support for this vital work. Delta Omicron Sorority of Santa Anna has for many years been a part of the

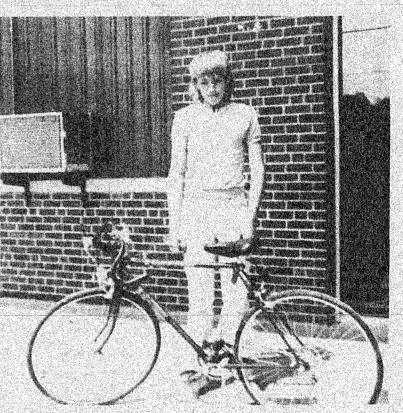

fundraising projects for St. Jude and have helped to raise thousands for the reasearch center.

Mayor Thelma Brooker has signed a proclamatin designating Saturday, June 4, 1988, St. Jude Children's Research Hospital Day in Santa Anna. She urges all citizens, churches, businesses, and organizations to give this worthwhile project their support and cooperation.

The ride starts at 9:00 a.m. If you haven't been asked to sponsor a rider, but are interested, please call 348-3394 after 5:00 p.m. and a rider will contact you.

Each rider gets a lap card at registration. Every time the rider passes the checkpoint, the card is initialed. At the end of the ride the card is checked to show that the rider earned what the sponsor pledged. Riders return to the sponsors to collect pledges.

Riders can still get sponsorship forms at Coleman County Telephone Coop. Some participants who are unable or do not wish to ride a bike are planning to walk the course for the fundraiser.

BIKE TO BE GIVEN FOR MOST PLEDGES OBTAINED IN BIKE-A-THON. Paul Morris shows the Western Flyer bike some lucky participant in the Bike-a-thon will win.

The inventions were judged on a scale of 1 - 5, with 1 being satisfactory and 5, superior, in seven areas

of judging. Those areas were: 1) Reflects original, creative thought. 2) Has practical use. 3) The inventor has provided sufficient evidence to show that no similar process or product exists. 4) The inventor is knowledgable and enthusiastic about his or her invention, 5) The invention is carefully designed and or constructed. 6) The inventor has made wise use of available materials and resources to control costs. 7) The inventor has promoted his or her invention effectively with eye-catching and creative promotional materials.

I have written the chairman of the State Board of Insurance, the chairman of the House Committee on Insurance and my state senator for help in reversing the trend for rural insurance.

I have suggested to them that a rural home owner's insurance pool be established similar to the pools for high risk automobile drivers or workman's compensation coverage. If a policy holder does not file any claims for some period of time - say five years - the premiums could be reduced as an incentive not to abuse the insurance coverage.

With the insurance industry's position on rural coverage, I would not build a new home in a rural area and will advise anyone else not to do so. They may insure a new home now, but they are presently free to drop coverage whenever they think the risk is too great.

I urge all rural residents to write Austin in support of the insurance pool or suggest your own ideas to improve the rural insurance dilema. Two important adresses are:

Dear Editor,

I would like to personally thank the good people of Santa Anna who have helped support the Lion's Club during the past year.

Our club has had many burdens to bear and only through the support of the people has it been possible for us to overcome them.

I hope our community will continue to support the Lion's Club and the new president, Jack Burns, in the work we do in Santa Anna.

It has been an honor for me to serve as many men have for over fifty years.

Thank You, James Pelton, Santa Anna Lions Club.

Thanks To Santa Anna

Thoughts From Our Pastors James Ford

AN OPEN DOOR

Assembly Of God

Revelation 3:8. I know thy works; behold, I have set before thee an open door, and no man can shut it: for thou hast a little strength, and hast kept my word, and has not denied my name.

As we awoke this morning we were faced with an open door, a time that none of us have been in before. We sometimes make plans as if we knew all about today but it is new for all of us. We set our plans for what we would like to happen and what we expect to happen but it is all new for we have not been this way before. We may plan to do the same thing we did yesterday and the day before but today may be different. Our plans must be made for now. We cannot live in the past nor can we live in the future but we live in the now. The now is an open door that we must go through. We cannot just stand and look at it. Time goes on. We cannot stop nor would we want to if we could.

Now as we stand and start to enter in we realize how much we need a guide to go with us and be our leader.

If we lean on man they are also unproven. If we lean on Jesus. He will never fail us. Think what that means to have one guide us that has never failed and will never fail. He has set before us an open door. It is up to us and us alone to enter in and find His way for our life. His way is not hard nor sad but is full of happiness and joy. When we enter the door with Him we are not alone but we know that He will always be there. It is such a blessing to me to enter that door with Jesus every day and I hope you will, too. Just go with Him all the time for the rest of your life.

A small boy attemped to make a telephone call, but the operator couldn't understand the number he wanted so she asked him to repeat it several times. Final' the kid exploded; "You operators are dumb!" Central cut him off. Fifteen minutes later a soft spoken lady called the operator and said,"Just a moment", and put her nine year old son on the phone, "My mother wants me to apoligze for what I said", the boy said humbly. The operator accepted the appology and connected him with the number he wanted. A half hour later the boy called the operator and said, "My mother just left the house. I still think you're dumb".

Tiny Tim..."Mama, I just saw a man who makes horses". Mother..."Are you sure about that?" Tiny Tim...Yes, he had a horse nearly finished when I saw him just nailing on the back feet,"

Willie's younger sister called to her mother in sudden alarm. When the mother came to the window to learn the trouble, the little girl cried, "Mama, come quick, Willie is taking off his clothes. He will soon be barefooted all over.!"

"I tell you, I won't have this room", protested the old lady to the bell boy conducting her. "I'm not going to pay my good money for a closet with a measley little folding bed in it! If you think that just because I'm from the country....." "Get in, lady, get in," the boy cut in wearily, "this isn't your room. This is the elevator".

A rough cow hand six feet tall under his ten-gallon hat was sauntering around a large department store during one of his infrequent trips to the big city. The sales girl asked politely if there was anything she could help him with. "No thank you, ma'am. I reckon not. I never saw so many things I could do without"!

Don's Diary

By Don Rutharford

Mom has told me of some of your inquiries about Don's Diary begining again,

I have thought of you often :-- id more than once sit down to begin to write again. Today I sat down with the determination to start again. And with that in mind I would like for us to look at a man in the new testament who had to begin again.

This man was very sucessful and yet he failed so miserably that he wanted to leave it all and never look back.

This man was a Rising Star, He had Character, he was courageous, self-sacrificing and a deep spiritual thinker. This man not only had character but he was one of the twelve chosen by Jesus to continue His work on the earth. In fact this disciple was called friend, disciple, and apostle by Jesus.

His name means a stone and he was living out his name, he was a leader and a man that anyone could rely on.

He was such a friend to Jesus that he along with James and John were considered the inner circle of the twelve. These three men were privileged to see some miracles that the others were not, such as the miracle of Jaris' daughter, the transfiguration of Jesus and the deep agony of Jesus in the garden just before His death.

He was indeed a Rising Star. He was a leader, a successful man and had a good track record towards fullfilling his career goals.

But something happened to him. In Luke 22:62 the Scriptures say "he went out and wept bitterly". What happened to him? A man solid as a rock, a leader, a disciple; weeping

Clarinda Menges Honored On 100th Birthday

By Gladys Hunter

Clarinda Menges, 100 years of age, May 26, 1988, was honored by her grandchildren with a party at 2 p.m. Sunday at the Mountain City Community Center in Santa Anna. Clarinda is the daughter of the late

James and Samantha Taylor, Born in Gillespie County, near Fredericksburg, she was blessed with five brothers and seven sisters. She and Edmund Menges were married in 1907 when she was 18 and he was 19. They moved to Coleman County where she has spent most of her years. They had one son, Earl Menges, who died in 1936, leaving a wife and three children.

The birthday party was a great tribute to a great little lady. There were some sixty grandchildren present from long distances, coming from Midland, Carthage, Sundown, Snyder and Coleman. Murrell Menges of Snyder, age 61, was the oldest grandchild, the youngest about 4 months old. Murrell Menges led the Happy Birthday song and offered a special prayer. Elroy Dietzel entertained with musical selections.

The table was covered with a lace cloth and the beautiful cake, along with coffee and punch, was served to the assembled family. Visiting, taking pictures and seeing so many special people was a happy way to cross the century line, with best

Gasey Herring Roasted

Saturday, May 28, 1988 was a big day in the life of Casey Hering. He was roasted in honor of his upcoming birthday by family and friends of many years at the Cupps family picnic grounds.

After a meal of bar-b-que and all the fixings followed by ice cream and cake all those in attendance gathered around Casey and roasted him with memories of the past, some complimentary and some humorous. Tears and laughter were seen and heard as events were remembered.

Casey was remembered as husband, daddy, grandad, cousin, inlaw and friend and it was asked what all would have done without him.

He was roasted with memories of school days and growing up, married life, jobs he held during all those years, his religious life amd many humorous parts he had played in the lives of his many grandchildren. Those attending the roast and

In Texas last year, 286 motorcyclists were killed in traffic accidents. Over 75 percent of those were not wearing helmets. Many of these deaths could have been avoided if the rider of the motorcyles had been wearing a helmet at the time of the crash. The most common reason for motorcycle accidents is that the automobile driver simply did not see the motorcyclist.

The key to traffic safety for both motorists and motorcyclists is understanding and respecting each other and learning to share the road.

The residents had a wonderful church service, conducted by the Seventh-Day Adventist School students and their teacher Kathy Weigand Tuesday morning. Tammie Starr played the plano for Anna Pearce, Matthew Weigand, Kathy Watrus and Scotty Dowty to sing. They all read Bible scriptures. The topic of the service was the "Second Coming". This service is still talked about by the residents.

The Melody Makers sang gospel songs and hymns Tuesday afternoon for the residents.

The May birthday party was sponsored by the Presbyterian Church ladies Thursday afternoon, May 26th. This was the 100th birthday of Clarinda Menges. Others observing birthdays in May were Thelma Bollinger, Hattie Whitehead, Mary Boenicke, Jimmie McGregor, Bula Fleming and Elwin Jerger. Pat Dewitt played piano selections and Fannie Gilbert (Aunt Samantha) read funny sayings. A group sang favorite songs for the honorees. The Volunteer Fire Department Auxiliary gave birthday cards and gifts to each one having birthdays. Louise McCoughan, Sandra Guthrie, Mary Frances Williams, Gail Stewardson and Lera Guthrie baked cakes. Lera decorated hers with roses and 100, that was very pretty. Mary B. Pritchard and Betty Lewis brought angel food cakes from Delta Omicron Sorority. Nell Myers, Jeannette Brock, Jean Caldwell, Dorothea Johnson and Peggy Johnson served refreshments to the honorees, residents and a host of friends and guests.
