## A Comeback For Co. Fair

The Coleman Chamber of Commerce has made the decision to drop the Fiesta de la Paloma and to reactivate the Coleman County Fair this fall.

From a report received, the directors feel the Fiesta has "run its course," having been held the past ten years, and the popular County Fair will be held on Saturday, October 1, 1988.

The fair will be in downtown Coleman, and one of the highlights will be a Fajita Cook-off, with many contestants expected. Participants will be allowed to set up the night before.

There will be a Miss Coleman County beauty pageant, with the winner eligible to compete in the Miss Texas contest. It is understood

the pageant will be open to all high school girls in Coleman County.

A fair dance is planned, to be held at the armory in Coleman, with music by Southern Cross.

Concessions and exhibits will be operated in the downtown area of Coleman.

There will be a fiddler's contest, with many age groups, offering prizes and trophies. Pete Stack of Brownwood will be in charge of this feature. There will be square

dancing, with groups from Brownwood and local people joining in the fun.

Many other announcements will be forthcoming about the 1988 Coleman County Fair. Directors stress it will be "new and different"

## Safe Fourth Of July Calls For Caution With Fireworks

### Fireworks Not Allowed In City

Have a safe and happy 4th of July but remember that it is unlawful to set off fireworks inside the city limits.

A city ordinance bans the keeping and using of fireworks inside the city limits of Santa Anna. Violators are subject to a fine of up to \$200.

Every year, the same story unfolds. A child setting off fireworks at the family's Fourth of July picnic is brought to the local emergency room for medical treatment.

Numerous cases of hand or facial burns, eye injuries and even hearing loss will occur throughout Texas

this summer as a result of unsupervised and careless firework handling.

If you are outside the city limits to use fireworks, there are a few safety tips to remember:

- \* The best thing to do is to watch a professional fireworks display from a distance.

- \* Do not use fireworks near dry grassy fields or shrubbery.

- \* Always wear safety goggles or glasses when setting of fireworks.

- \* Always read and follow label instructions.

- \* Ignite fireworks outside only.

- \* Make sure an adult is present whenever fireworks are used.

- \* Have a bucket of water at hand in the event of a fire and for dousing apparent duds.

- \* Never try to relight a firework that does not go off.

- \* Never carry fireworks in a pocket and never throw them.

- \* Light only one at a time.

- \* Do not set off fireworks in a glass or metal container.

- \* Know what you are buying in terms of firepower and the appropriate safety measures for igniting the firework.

QUAIL DOBBS is returning another time to the annual Coleman Rodeo. He is a rodeo clown, has specialty acts and is a barrel man. He has given up bullfighting to the younger men.

## August Date Set For Fiddler's Contest & Flea Mkt./Garage Sale

The Santa Anna Chamber of Commerce has begun plans to once again sponsor a Texas Old Time Fiddler's Contest. Preliminary plans were made at the regular meeting of the Chamber Board of directors. August 20 was chosen as the date for the sanctioned contest which will award prizes in categories for all age groups of fiddlers as well as for best guitar picker.

Along with this year's contest which will be held "under the shade" downtown, the chamber board has planned to sponsor an open-to-the-world city garage sale and flea market. Plans are being made to sell booth space to any and all who have trash or treasure to sell. Booths will be set up along main streets in front of vacant buildings or stores. They will be limited to ten-foot frontage but persons seeking more space may buy

additional spaces.

During the day burgers and hotdogs as well as soft drinks will be sold from a chamber operated refreshment stand set up "under the shade".

All private individuals or groups

of any kind are urged to gather your trash or treasure, come downtown and be prepared to hear some fine fiddling on August 20.

Watch the Santa Anna News for further information or check with Chamber president Charles Weisell.

## Most Businesses To Be Closed July 4th

SANTA ANNA NEWS CLOSED MONDAY

The Santa Anna News will be closed Monday, so bring your news today (Thursday) or Friday, (by noon if possible). The only news received Tuesday with assurance of appearing in the paper will be the news received from our outlying community correspondents that normally arrives on Tuesday.

Classified and display advertising will be accepted til noon Tuesday.

According to a quick survey of businesses in Santa Anna we found that most will be closed Monday in observance of Independence Day.

Food stores, some service stations, restaurants and video rentals will be open.

The Bank, Post Office, City Hall and most business establishments will be closed.

## Roping Club Organizing

A group of local people interested in riding and roping have met during the past weeks to make plans to construct a riding arena to be used by all local and area horsemen.

Meeting to discuss the project were about 15 local men and women who have an interest in roping and riding, and to promote the sport among local young people and adults. There has been enough interest to obtain an option on about ten acres of land west of town on the San Angelo highway, and plans are being made to construct an arena.

Among organizers are Billy Don McCrary and Joe Ed Wise. No officers have been elected, but plans have been discussed to form the group using the basic organization of the former Santa Anna Rodeo Association. Pledges of membership of \$200 are being collected toward the project, with donations of labor and materials to also be solicited when construction gets underway.

A riding arena would provide activities for all ages who are interested riding or training horses, with special emphasis to be made toward involving the youth of the community who would like to improve their riding skills or train their horses.

Another meeting is planned within a week or two, and anyone interested in becoming a member or pledging their support is asked to contact McCrary or Wise. The next meeting will be announced so that all may attend to learn more of the project.

Santa Anna had a large and active Rodeo Association for many years, and the present group hopes to revive the community spirit, entertainment and recreation that the old organization provided.

## FLAG CAMP 6-8

Santa Anna High School Band Director Lonnie Baker has announced there will be a flag camp at the local high school July 6, 7 and 8. The clinician will be Boyd

## Coleman Rodeo July 7-9

The 51st Annual Coleman Rodeo is to start Thursday, July 7 and run thru Saturday, July 9.

The producer for this year's rodeo will be Mesquite Rodeo Company, under the direction of Neal Gay.

An added attraction will be the Wrangler Bull Fight, according to Jay Davis, president of the Coleman Rodeo Association. Three clowns will be fighting wild Mexican bulls for \$5,000 in prize money.

Quail Dobbs, longtime favorite in Coleman, will return as a clown to this year's rodeo. He will be joined by bullfighters Jimmy Anderson of Dublin and Gary "Roach" Hedeman of El Paso. Anderson was the 1987 Wrangler Bullfight cham-

pion at Salt Lake City, Utah and Sikeston, Missouri. Hedeman is also active in bull fighting working such rodeos as the All World Bull Riding Championship in Scottsdale, Ariz. and The Super Bull in Del Rio.

Jody Nix of Big Spring will once again provide the music for the rodeo dance.

The rodeo announcer will be Wayne Wise from Fort Collins, Colorado. Wise began his career as announcer in 1987. He was previously a bull rider and hopes to share his "in-the-arena experiences with the audience.

The rodeo parade will be Saturday, July 9, in downtown Coleman.

## Vacation Bible Schools Planned For July 11 - 15

Children of the community may take their choice of two vacation Bible Schools to be held starting Monday, July 11 and running through Friday July 15.

The Methodist/Presbyterian joint vacation Bible school will be held each morning that week from 9:00 to 11:45 a.m. at the Methodist church.

Children from the ages of 3 years through the 6th grade are invited to participate. Theme for the sessions is *Jesus, Our friend and Teacher*. Cathy Ellis is director.

Activities will include music, crafts, refreshments, fun & games, worship & Bible study, service projects.

The Vacation Bible school held by the First Baptist Church will take place at the same time, however the precise time of day had not been set at press time.

Activities there will include music, crafts, Bible study, activity period, refreshments, and a joint worship service.

Children ages 3 years through 6th grade are invited. Janet Neff is director for the First Baptist Church

Rowden of Sante Fe High School. A fee of \$30 will be charged for the camp. For information, contact Lonnie Baker.

Summer band for 7th and 8th grade band students will begin August 1.

High School students will begin practice on August 8.

Bible School. The theme will be *Living for Jesus*.

## We Goofed!

### "Only Human?"

You know how the standard excuse for a mistake is "I'm only human". Well, we proved we are "only human", not once, but twice! In printing a correction to the garbage schedule last week, we sure did goof!

Because we had earlier been told there would no longer be garbage collection on Friday's, we just couldn't seem to get that out of our heads. However it seemed we received the wrong information on that point and now knowing that, proceeded to print the wrong schedule anyway!

We are sorry for any inconvenience caused by our mistake and especially apologize to city administrator Max Eubank for any problems caused.

So we will try it again..... after all "The third time is a charm".

Garbage is picked up *Monday, Wednesday and Friday*. The schedule is as follows:

MONDAY - The north side of Wallis Ave. and all areas north of Wallis.

WEDNESDAY - The south side of Wallis Ave. and all areas south of Wallis and north of Bowie.

FRIDAY - Bowie Ave. and all areas south of Bowie.

There will be no change for those requiring daily garbage collection.

## Wind Unroofs Gin

The storm that blew into the area Monday afternoon brought much needed and welcome rainfall, anywhere from 2 to 4 inches, but it was accompanied by strong winds which did considerable damage throughout the city.

As you can tell by the picture above, the roof was taken from one

building at the Santa Anna Co-op Gin. Gin manager, J.T. Avant told us he was sitting in the office at the

gin when he heard what he thought was a train passing through.

Shortly after he realized the roof had been blown off the building.

Twisted sheet iron was in piles at various locations on the gin lot. Avant also reported several windows broken.

In other parts of town many reports of broken tree limbs and damaged out-buildings, etc. were reported.

### Letters To The Editor

Thanks for the delightful home town news paper that you and the citizens of Santa Anna publish weekly. I reap loads of news and information each week. My roots run deep in the clay of Coleman County and especially Whon and Santa Anna. Memories of Mr. Howell Martin and his teachings, Mrs. Carol Kingsbery, Mrs. Bruce and Many, many more too numerous to mention...and the days in Santa Anna High.

Each time I return to this area makes life renew its early dreams and wishes. With so many people touching me to make it all work. Dr. Charles Henner who gave me hope and courage to continue my education, and pick up the pieces after a death in my family. Then my beloved parents, Elgin and Lena Talley who lay in eternal rest in your/my city.

The mountains come alive with scenes that will never cease as long as my mind and body live.

Mrs. Warnock, I read in the paper a few weeks ago about the Coleman County cemetery books that some one was publishing. However we left immediately on an extended vacation and that paper was misplaced. Would you please send me the name and address of the person publishing the book.

Thanks again for everything.  
Mydena (Talley) Brown.  
San Antonio, Tex.

EDITOR'S REPLY - Thank you very much for those kind words. We are always happy to hear from our readers and especially so when they tell us they enjoy the News.

The Coleman County Historical Commission under the leadership of Ralph Terry of Coleman, is publishing the Coleman County Cemetery Book. You may write to them in care of Mr. Terry at P.O. Box 948, Coleman, Tex. 76834.

#### More Voter Registration Cards Received

By this time most county residents have probably received a voter registration card in the mail from Congressman Charles Stenholm's office.

County Assessor-Collector Billie Baker points out that if you already have a white voter registration card, you are already registered and need not complete the new form received in the mail. However, if you have not previously registered to vote, now is a good time to do so and be prepared to vote in the fall general election.

### Thoughts From Our Pastors

Linwood E. Bishop  
Northside Church of Christ

#### WHY STUDY THE BIBLE?

It has long been a cause of real concern to me that since the Bible is so readily accessible to all of us here in America and especially in our area, which is known as the "Bible Belt", why is it that so relatively few people ever really study the Bible. Perhaps many might be amazed to know just how few that number might be: yet, the Bible is the most important book ever written. In fact, it is so important that our eternal destiny depends upon our attitude and response to its teachings. I should like to challenge you with our question - Why Study The Bible?

Jesus said, "Search the Scriptures: for in them ye think ye have eternal life: and they are they which testify of me." (John 5:39). One of the primary reasons why the Jews did not recognize their long expected Messiah and Redeemer was because they had not really studied the scriptures. The same is true of so many unbelievers today. One should study the Bible to learn about God and His great power. To learn about the creation of man, his origin, duty and destiny.

One should study the Bible in order to learn about the fall of man and the introduction of sin and its terrible consequences. To learn how God, in his infinite mercy and love, instead of completely destroying man forever, devised a plan whereby forgiveness, redemption and salvation could be extended to all mankind through the sacrifice of His begotten son. To learn how God promised and foretold in great detail the coming of the Redeemer and Saviour of the world, and to learn how Jesus came and fulfilled every promise and every prophesy concerning Him in the Old Testament (Luke 24:44).

One should study the New Testament scriptures to learn God's plan of salvation offered to all mankind through Jesus Christ and clearly revealed in the scriptures. The great Apostle Paul said, "Study to show thyself approved unto God, a workman that needeth not to be ashamed, rightly dividing the word of truth" (II Timothy 2:25). The only way any man can know what God approves is to have His word on it: but we can have His word of approval in the Scriptures. Therefore, we need to study His word to show ourselves approved unto Him.

We need to study the Bible because the Bible unstudied is like a gold mine unworked, or an oilfield undeveloped. One might own a mountain of gold, but it remains unprofitable as long as it is still in the ground. It must be dug out. The great spiritual treasures of God and of Christ are in the Scriptures: but for those treasures to become ours we must dig them out and apply them to our lives.

One should study the Bible because we shall have to face it in the judgement. (John 12:48; Revelation 20:11-15).

#### Grand Jury Indicts Two From Santa Anna

Two Santa Anna 17-year-olds were indicted by the Coleman County Grand Jury last week for burglary of a vehicle. A juvenile from Santa Anna was also indicted and turned over to juvenile authorities.

#### Congratulations On 50 Years!

Thelma and Charlie Fleming observed their 50th wedding anniversary this past weekend when family members and friends joined them for a weekend at Port Aransas.

They were married June 30, 1938 in Coleman County and have been residents of the Santa Anna area all their lives.

### NEWSWORTHY TRENDS

#### Hearing Tips

Just as eyeglasses are worn by millions of Americans not so they can see—but to see better, millions of Americans are turning to hearing aids not to hear, but to hear better. Here's why.

Twenty million Americans are hearing-impaired; only twenty-five percent wear hearing aids. Some people may think hearing aids are the clunky, whistling devices of the past. In fact, today's aids are small and streamlined and custom built to correct many kinds of hearing loss. Some are so small they fit entirely within the canal of the ear. If you hear, but don't always understand, a hearing aid may help. Modern hearing aids can help many, even those told they have "nerve deafness." Here are four tips from the experts at the Beltone Hearing Aid Company to help you get the proper hearing aids.

1. Before you buy hearing aids, have your hearing tested by a qualified specialist like a certified hearing aid dispenser. If your hearing loss is sudden, or if you notice a discharge from your ears, see your physician first.

2. Ask if there's a trial period or

return policy. Many aids are custom built, so there may be a charge. Discuss the manufacturer's warranty and service plan before you buy.

3. Don't be fooled by "hearing aid resonators" at inexpensive prices. The resonator magnifies sound much like a seashell, and cannot be adjusted to a person's hearing loss. They aren't true hearing aids.

4. Once you've gotten your hearing aids, if they are uncomfortable or not working properly, contact your hearing aid specialist immediately. Don't put them in a drawer and give up.

### Holiday Death Toll Estimate At 36

The Texas Department of Public Safety has estimated that 36 persons will die as the result of traffic mishaps in the state during the 78-hour Fourth of July weekend.

According to DPS director Leo Gossett, there is a greater potential for accidents during the summer months because of the increases in the number of vehicles and miles driven on Texas roadways.

"We appreciate the recognition of this potential by the careful Texas drivers who observe the laws," Gossett said. "Our troopers and local officers hopefully will be getting the attention of careless motorists through enforcement of these statutes."

The DPS counting program for traffic fatalities begins Friday, July

1 at 6 p.m. and ends at midnight on Monday, July 4.

During the 1987 July 4 period, also 78 hours in length, there were a total of 37 traffic deaths which occurred. Three additional fatalities were reported later from critical injuries suffered during the holiday program.

A total of 58 percent of the fatalities occurred in accidents where speed or driving while intoxicated was listed as a contributing factor.

Gossett said the DPS is cooperating with the Texas Coalition for Safety Belts program to support the goal of a "deathless day" during the 101 driving days of summer. The last deathless day on Texas roadways was on Jan. 5,

1977, he said.

Along with the usual duties, the DPS will be working in Operation CARE (Combined Accident Reduction Effort) with the Louisiana state police, Arkansas state police, Oklahoma highway patrol and New Mexico state police to reduce drunken driving and speeding along interstate highways during the July 4 period.

reduce fatal accidents as part of the Operation CARE program. Dorbandt also serves as the CARE regional president with Texas and the four neighboring states.

According to DPS Lt. Charles Dorbandt of DPS Austin headquarters, available troopers in Texas and these four states will be increasing their cooperation to

### Applications To Service Academies Being Taken

WASHINGTON, D.C. Charles W. Stenholm is currently accepting applications from young men and women who are interested in attending one of the United States Service Academies.

Eligible applicants will be at least 17, but not past their 22nd birthday, and will have graduated from high school by July 1, 1989. Competitive applicants will be in the top 20 percent of their class and have SAT scores above 500 Verbal and 550 Math, or ACT scores of 22 English and 26 Math. Involvement in extra-curricular activities, including school and community organizations and sports, as well as full or part-time employment is also in the applicant's favor.

Individuals who wish to attend the Air Force Academy at Colorado Springs, Colorado, the Military Academy at West Point, N.Y., the Naval Academy at Annapolis, Md. or the Merchant Marine Academy at Kings Point, N.Y. and who wish to serve as a commissioned officer are strongly encouraged to contact Susan Goulat in Congressman Charles Stenholm's Washington, D.C. Office. Any individual wishing additional information should call (202) 225-6581 or write to 1226 Longworth H.O.B., Washington, D.C. 20515.

### Engagement Announced

Mr. and Mrs. Melton Cummings of Coleman are proud to announce the engagement and approaching marriage of their daughter, Shelly, to David Robinett, son of Mr. and Mrs. Robert Robinett of Santa Anna. Shelly is attending Cisco Junior College and David is a Texas Tech University graduate with a degree in Geology Geophysics. A July 30th wedding at 6:00 p.m. is planned at the First Baptist Church of Santa Anna.

### Trickham News By Mrs. O.R. Boenicke

The Baptist minister Rev. F.E. Suttle will preach at 11:00 a.m. Sunday morning, July 3.

The Goodgoon reunion was a big success. There were 85 present. All had a good time, so many came from long distances. I enjoyed seeing so many I knew. Floyd Goodgoon and family were here from Tennessee. They had it at the Trickham Community Center and it will be there again next year the 4th Sunday in June. They had a program while I was there. It was good. This was the Homer Goodgoon family and the Horace Goodgoon family, also other Goodgoon families.

I went to Bangs to church with Sylvia and Doug Perkins and came back by the Kirks and had dinner with them and several from here attended the reunion.

Visitors with Lou Vaughan were Viletta Plasket from California and Harve Goodgoon visited Lou Saturday afternoon. Elmer Woods and Lesley and Dan Dockery visited Lou Sunday evening. Frank and Lois Wallace from Palmer visited Lou Vaughan.

Missy Cothran of Brookesmith visited Tona Kirk and me Sunday

afternoon. Sherrie and Jim Blake visited Rankin and Natalie McIver Sunday evening.

Yevie Cole and Roberta McShan and Russie James attended the Tackett reunion in Floresville. About 75 members were there. They went Sunday for the day. Viletta Plasket of California and Harve Goodgoon visited Russie James Saturday.

Saturday night Royce and Wanda McIver visited Genia McIver. Sunday Genia visited May McIver and Lois Sheehan also Ethel Mathews and Carol and she visited Irene Durham at brownwood. Nikki York visited Genia.

Margaret Barton was hostess for the bridge game this week and Mildred Ruggles and Kelley Bilbrey were co-hostesses. Natalie McIver and Lou Vaughan completed the foursome.

Kieth Bilbrey of Waco was in Trickham Wednesday afternoon and Kathy Bull of Goldthwaite visited Saturday with the Bartons.

I got a little rain Saturday and Sunday night. 5 tenths of an inch in all and looks like rain this Monday night.

ter replied, "What is a mop?" A distressed young man rushed into a tavern, went up to the bartender and said, "How do you stop hiccups?" The bartender reached down quickly, and slapped him across the face with a wet rag. The guy was very indignant. "Yeah, but you haven't go the hiccups any more, have you?" said the bartender. "I never did, my girl friend out in the car, she's got 'em."

A man fishing on the bank of a river, was asked by a passing stranger if he'd had any luck. "Have I," said the fisherman. "I caught twenty three catfish, thirty one pickerel and fifteen bass." "Very interesting," said the stranger. "Allow me to introduce myself. My name is Jones, the toughest game warden in the county." "My name is Smith," gulped the fisherman, "the biggest liar in the state."

### Fannie's Funnies

Contributed by Fannie Gilbert

The Sunday-school teacher spoke at length on the beauties of heaven. "Now," she said, "all you children that want to go to heaven raise your hands." All hands shot up except one little boy. "Why ain't you ready to go to heaven John?" the teacher asked. "Well," he said, "when I left for Sunday School, Mom was making apple pie."

A boy's mother was trying to explain to him that the dog was a good dog and wouldn't bite. "Well, if he did eat me up, would I go to heaven like a good boy?" the child asked. His mother said that of course he would. "Well then," the boy said after a moments thought, "wouldn't the dog have to go too."

A father angry at his daughter for being too modern in manners and appearance, stormed, "You girls of today don't mind if your hair looks like a mop." To which the daugh-

### Fleming Family Reunion

The Fleming family reunion was held Saturday June 18, at Charlie and Thelma Fleming's picnic ground.

Those present enjoyed visiting, picnic lunch, taking pictures and playing games.

Towns represented were Brownwood, Coleman, Santa Anna, Bangs, Carbon, Austin, Stephenville, Athens, Fort Worth and The Dallas, Oregon.

Opal Barnett was the oldest present. Jeremy Seaton, 8 months old, was the youngest. The Bob Boyet family, from Oregon, came the greatest distance.

Several from the group visited Mrs. Bula Fleming in the Ranger Park Nursing home.

Officers elected were; Eddie Dil-

### Celebrate Anniversary

Mr. and Mrs. Derriell Warnock took a weekend trip to Del Rio in celebration of their wedding anniversary. They did some sightseeing and visiting in Del Rio and points between here and there.

They spent one day of shopping in Ciudad Acuna, Mexico.

Derriell and Polly Warnock were married in the First Methodist Church of Santa Anna, June 25, 1950.

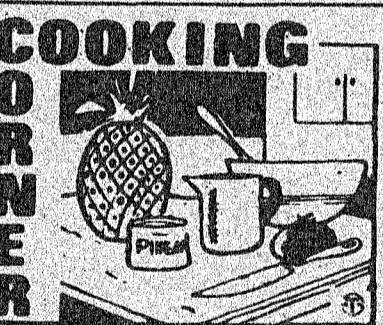

Cattle branding was practiced 4,000 years ago. Old tomb paintings show Egyptians branding their cattle.

### Attend TFB Citizenship Seminar

Two Coleman County High School Students were among 400 junior and senior high school students attending the Texas Farm Bureau Citizenship Seminar in San Angelo June 13-17. Ken Brixey (left), son of Mr. and Mrs. Ken Brixey of Santa Anna and a student at Santa Anna High School and Ed Wilson, son of Mr. and Mrs. Billy Jack Wilson and a student at Panther Creek High School represented the county at the training camp held on the campus of Angelo State University. In the 26 TFB sponsored seminars since 1962, more than 9,500 students completed the training course designed to give a better understanding of their American heritage and the capitalistic free enterprise system.

Local Boy Enjoys Birthday Celebration

Casey Wade Herring, son of Dale and Carol Herring, celebrated his fifth birthday last Saturday, June 25.

On Friday, June 24, Casey took an "All" birthday cake with him to Kare-A-Lot Day Care in Bangs where all the children in attendance had birthday cake after lunch.

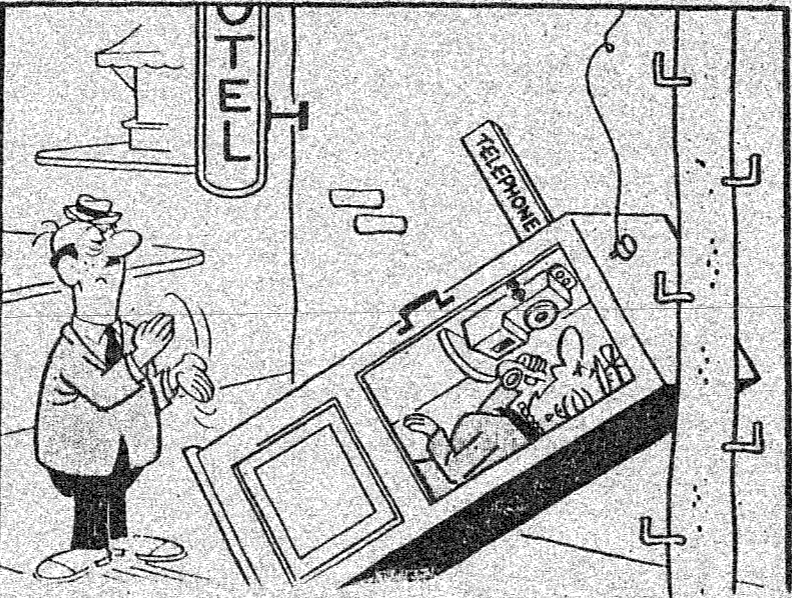

On Saturday afternoon, Casey celebrated at Burger King in Brownwood where the children enjoyed playing on the playground, eating hamburgers and french fries, cake and ice cream. Children who attended with Casey were Mathew Stephens, Bobby and Misti O'Neal, Misti Doud, Alyson Levisay, Tiffany Quick, and Derek Little.

Adults who attended the occasion were Mike and Leesa Stephens,

plant. The plant also may shed buds and small fruit. Spider mites can completely defoliate a plant if not controlled.

Control of spider mites is often difficult and requires two to four applications of insecticide at five-day intervals. Plants should be checked frequently for spider mites since the pests can build up rapidly.

Insecticides registered for controlling spider mites in gardens are diazinon, kelthane, malathion, ethion and sulfur. However, do not use sulfur on cucurbits (cucumbers, squash or melons) as severe plant change could occur.

Business Opportunities: the Old Come-On

If you're looking through the classified section of your newspaper, sooner or later you're sure to run across an ad that reads something like this:

"Business opportunity! New firm expanding into this area needs distributors for national products. No selling required. Earn \$20,000 a year working part-time! Proven investment returns. Call Mr. Wonder."

THE PITCH

If you respond to this or similar ads, there's a chance you could become the object of a misleading sales pitch for a less-than-profitable distributorship.

Mr. Wonder comes to your house or sends a sales representative to explain the distributorship investment opportunity. The product to be distributed may be anything from film to children's books to vending machines that dispense freeze-dried coffee or soup.

Very likely, you will be shown lavish colored photographs and brochures of the product designed to impress you with the fact that large amounts of money can be made with little effort.

"But let's be conservative," he may say. "Suppose it sells only 10 units a day. Even at that, you can make \$1400 a month if you purchase 10 machines and they earn 50 cents on each sale."

After describing the profitable machine locations provided by the company, the salesman will urge you to sign a contract immediately to take advantage of the "fantastic" offer for only \$2000.

Later, when you survey the locations, you may find that your soup dispensing machine is located in the back of a beauty salon or service station where there is little public traffic.

If you complain to the company, you may be told that an attempt will be made to sell your distributorship to someone else. Chances are good, of course, that you will never get your money back.

Experiences such as this may be an exception, for there are many reputable firms engaged in the sale of distributorships, but they are occurring frequently enough that they have become a matter of concern for Attorneys General in all states.

GUIDELINES

My consumer protection attorneys advise taking these precautions before investing any money in a distributorship:

Find out who the principal investors are in the company. Ask for a list of other investors and contact them to learn what experiences they have had in dealing with the company.

Don't rely on the representations made to you by salesmen for such companies about investment returns, product quality, or anything else—verify these things yourself or ask others.

Don't be high-pressured into signing a contract immediately—think about the offer for a few days or even weeks, and have your lawyer look over the contract.

Check with your local Better Business Bureau to find out if any complaints have been filed on the company.

FOR MORE HELP

Our offices in Austin, Houston, San Antonio, Dallas, McAllen, Lubbock and El Paso are continuing to investigate consumer complaints concerning false advertising and numerous other consumer matters. If you have a complaint about a consumer matter, feel free to contact the nearest regional office and ask for a complaint form. The Attorney General's Office is the people's law firm. We're here to help you.

Texas

It's Like A Whole Other Country.

Calvary Cemetery in Marlin, Falls County, boasts some unusual tombstones. One is in the shape of a double bed and includes a large, ornate headboard. Another is in the form of an electric light pole, complete with insulators on the wires. It's above the grave of a lineman. A photo on the stone shows him stringing wire.

San Jacinto Battleground was private property for almost 50 years after Sam Houston's army won Texas independence there on April 21, 1836. It was not until 1883 that the state bought 10 acres of the site and dedicated it to public use. Texas began administering the park in 1907, and in 1936 the present San Jacinto Monument—the tallest in the country—was erected.

### Public Notice

#### PUBLIC NOTICE

This notice is required under Section 1417 of the Federal Safe Drinking Water Act, as amended in June 1986.

Public drinking water supplies are regulated by the Safe Drinking Water Act, under which the Environmental Protection Agency (EPA) sets drinking water standards. The EPA has determined that lead is a health concern at certain levels of exposure. There is currently a standard of 0.050 parts per million (ppm). Based on new health information, EPA is likely to lower this standard significantly.

Part of the purpose of this notice is to inform you of the potential adverse health effects of lead. This is being done even though your water may not be in violation of the current standard.

EPA and others are concerned about lead in drinking water. Too much lead in the human body can cause serious damage to the brain, kidneys, nervous system, and red blood cells. The greatest risk,

### Public Notice

even with short-term exposure, is to young children and pregnant women.

Lead levels in your drinking water are likely to be highest:

- if your home or water system has lead pipes, or
- if your home has copper pipes with lead solder, and
- is the home is less than five years old, or
- if you have soft or acidic water, or
- if water sits in the pipes for several hours.

Generally, if lead is present in your drinking water it has entered AFTER the water leaves the utility treatment plant. The most likely source for contamination is the home or residence and the most common cause is corrosion - the reaction between water and lead pipes and fittings or lead-based solder.

Lead pipes were commonly used for interior plumbing in the U.S. through the early 1900's. Beginning in the 1930's, copper pipe came into general use. Until 1986, however, lead-based solder was often used to join copper pipes. Lead-free solder, pipes, and fittings are now required by

federal law in new household plumbing and repairs.

Dissolved lead cannot be seen in water. Therefore, the only reliable test is by a competent laboratory. This utility can provide such information. The EPA estimates that a test should cost \$20 and \$75. Testing is especially important to apartment dwellers because flushing pipes may not be effective in high-rise buildings that have lead-soldered central piping.

When water stands in residential pipes for hours without use, run the cold until it gets as cold as it is going to get before each use. This could take up to several minutes. However if there has recently been major use, such as showering, bathing, flushing toilets, or doing laundry with cold water, flushing pipes should take only 5 to 30 seconds.

Use only the cold water faucet for drinking. For cooking and preparing baby formula, use cold water heated on the stove or in a microwave.

have been used in your plumbing that provides tap water. A home test consists of scratching the pipe with a sharp metal object. Lead pipes or fittings will scratch easily and be shiny when scratched. The following steps have been taken by the City of Santa Anna utility system to mitigate lead content:

- A. Revise plumbing code to prohibit lead content.
- B. Run periodic test sample on lead content in system.
- C. Plan to eliminate all known lead in piping in system.

**HOW NOW, BROWN COW?** Despite their ordinary appearance, gaur cattle are very exotic and are involved in a struggle for survival. The endangered bovine, which are native to Southeast Asia, are thriving at the International Wildlife Park in Grand Prairie. Two calves were born over the winter months.

## Cow Look-Alikes Battle for Life

**GRAND PRAIRIE** -- The axiom, "don't judge a book by its cover" can also have a corollary extending to animals. "Don't judge a rare or endangered animal by its appearance."

A woman who recently toured the International Wildlife Park in Grand Prairie stopped at the administration offices and asked to speak with wildlife manager Ray Sutton.

"I was just curious," she began with hesitation. "Why do you have cows like those black brahmas in the section where we saw the rhinos? They aren't exotic are they?"

To Texans accustomed to seeing all types of cattle, perhaps the herd of nine gaurs (pronounced *gawrs*) look a bit out of place with giraffes, zebras, springbok and other flashy-looking animals. However, these wild bovine are classified as endangered in the Red Data Book.

"Gaurs live in small herds in the mountain forests of India, southeastern Asia and the Malay Peninsula," Sutton explained. "They were once plentiful throughout much of South and Southeast Asia, although their numbers dropped to only a few thousand by 1980."

Agricultural development, war, hunting, hydroelectric dams, human settlements, logging and disease transmitted by feral cattle

threaten to eradicate the few that are left.

"They are considered the largest of all wild cattle species," he continued. "Bulls frequently attain heights of six feet at the shoulder and weigh up to 2,000 pounds."

Because of their large-humped shoulders, some think they resemble bison while others compare gaurs to brahmas.

Their size dwarfs and intimidates most humans, and gaurs carry a fierce reputation in the wild as being untamable.

"Ours have adjusted well to human presence," the wildlife authority said. "They thrive in an inhospitable climate in Asia where domesticated livestock would die."

"From flooding rains and searing droughts to swarming pests and parasites, these wild bovine have proven their adaptability to almost everything except human encroachments," he said.

Inside the protective confines of the International Wildlife Park, two gaur calves were born during the winter months. Facilities like the tourist attraction may be the only obstacle standing between gaur cattle and extinction.

"Some scientists are involved in embryo transplants utilizing Holstein cattle," continued Sutton. "This program looks very promising."

## Barbecue Made Better With Crispy Corn Meal Waffles

Most true Southerners will vow that barbecue is at its best when served on a hot corn cake, no matter what time of year. For variety, try serving that Southern favorite on corn meal waffles.

Corn meal waffles are based on the same recipe as corn cakes, except the waffles are slightly higher in the amount of oil and milk called for in the recipe. This is what helps give the waffles their crisp texture in the waffle iron.

### Corn Meal Waffles

- 1 egg
- 1 1/2 cups milk
- 1 1/2 cups Martha White Self-Rising Corn Meal
- 1/4 cup vegetable oil
- 2 tablespoons sugar (optional)

Preheat waffle iron according to manufacturer's directions. Break egg into bowl and beat. Add remaining ingredients, beat until smooth. Bake in hot waffle iron. Serve hot with butter and syrup or topped with barbecue or creamed chicken, if desired. Makes eight 4 1/2-inch waffles.

Even though gaur may not have the "exotic" appeal as many other animals, they are involved in a

waffle irons can prove to be tricky to operate at times. Here are a few suggestions to help you get perfect results every time.

- Lightly grease the waffle iron using a pastry brush to help reach every spot on the surface.
- The heat of the waffle iron must be right and just enough batter used to fill the iron.
- One key to telling how done the waffles are is to watch the steam escaping from the iron. When the steaming stops, the waffles should be done.
- If the waffle iron is opened before the steaming stops, the waffle may be limp and may stick to the surface of the iron and pull apart.
- Waffle irons are made in such a way that a large surface of the batter is exposed to the heat and thus, the waffle becomes crisp.

If you don't want to wear a safety belt, then suit yourself. But the fact is over 40,000 people injured in car accidents last year would give the shirt off their back for a second chance to buckle up. Stop making excuses and start buckling your safety belt.
