## Capacity Enrollment Expected For CAP By First Day Of School

A maximum of 75 students, ages 15 to 21, can be accepted for the 1988-89 school term at the new Cooperative Alternative Program at Centennial. As of Wednesday of last week, 65 prospective students had enrolled for the program. It was expected that the total capacity enrollment will have been reached by the time classes begin Thursday, Sept. 1.

Jettie Winston, the director/supervisor, says that the enrollment capacity can be expanded to 120 when all areas of the physical plant have been adapted to the needs of this innovative program which is a "second chance" for the educational system as well as for the students.

Several 21 year-olds have registered. Since a number of the stu-

dents have children, a child care center is provided with the program, along with instruction in parenting skills.

Every school district in Coleman County is a full partner in the project. The Ballinger School district is also a partner in the undertaking. The Winters school district will be sending students to the C.A.P. on a contract basis. There is no tuition cost to the student nor will bus transportation be a cost to them.

Jettie Winston is amazed at how quickly a top flight staff has been brought together. Officials are also amazed at the response from students that had already dropped out of school and want to return through this program. Another amazement came when it was found out how much funding was available for the

program.

Dirk Lemkuil, one of the faculty at the new opportunity center, described the whole effort in two words: "Can Do". That may well become the slogan which best describes the program. It is certainly the attitude of the faculty and staff which includes Mrs. Winston, Director and supervisor; Wayne Langford, Counselor; Stephen Baird, English/Social Studies; Sheila Anderson, CVAE Food Prod. Mgt. and services; Dirk Lemkuil, CVAE Bldg. maintenance; Kenneth Lemons, CVAE Bus. Office Service; Gwen Lewis, Special Education Resource/English/Life Mgt.; Larry Weise, Math/Social Studies; Pam Lindsey, Teacher/Coordinator child Care/Parenting; Billie Wardlow, Secretary.

The Alternative school will provide a second chance to succeed for not only those students who have already dropped out of school, but also for those who are at the risk of dropping out, for slow learners for whom the regular high school curriculum is too difficult but who are not eligible for special education classes. It will benefit those having attendance problems, those whose family financial difficulties necessitate the student being gainfully employed. It will help those who have developed unacceptable behaviors because they can not cope with the standard curriculum.

Credits will be earned toward a high school diploma in many cases. Others will prepare for a G.E.D.

There will be an emphasis on vocational training, except for vocational agriculture classes which are not included. Under supervision, students will maintain the buildings and grounds and prepare their own meals. The wood working and print shops will be run on a model of such facilities in the business world. The print shop, for example, will eventually provide printed matter for the member school districts.

Funding for CAP comes from federal and state educational funds and grants. Also grants from such agencies as Texas Department of Mental Health/Mental Retardation and from grants made from private foundations as well.

## Today's Labor Day A Far Cry From 100 Years Ago

By Congressman Martin Frost

During a speech before a group of citizens celebrating Labor Day in 1903, President Theodore Roosevelt said, "far and away the best prize that life has to offer is the chance to work hard at work worth doing." It is in the spirit of President Roosevelt's address some eighty-five years ago that we continue to celebrate Labor Day.

As Texans, we appreciate the satisfaction that comes from an honest day's work, whether it be on the cattle trails of our early history or on the oil rig, in the trucks comprising our vast network of trade, or at a local cafe or grocery market. Texans have supported the concept of Labor Day since it was established as a national holiday in 1884.

On the first Labor Day, the United States was in the midst of a great industrial revolution. Throughout the State of Texas, people were beginning to move to the cities from the farms...to find jobs and steady incomes. The machines in the tool companies and the desk jobs with insurance firms were offering employment that rivaled traditional life on the farm. Our state was actively taking part in the Nation's transformation from an agricultural-based to an industrial-based economy.

However, not all the news during those times was good. Workers labored for long hours and at low wages. There was no Social Security or pension benefits. No unemployment benefits were available for workers laid off due to a bad

economy. Workers hurt on the job did not collect disability compensation. Many workers were forced to endure hazardous working conditions as well.

Proper health and safety conditions of our plants and factories, which we take for granted today, were unheard of when Labor Day was first commemorated. But today, business and government leaders work hand-in-hand to ensure that this nation's most valuable labor asset, its labor force, is preserved and protected.

Texans have played an important role in the prosperity of this nation, and we have shared in its progress. Our state has developed a more balanced economy because of industrial growth. Today, more than four million Texans are employed in factories, mills, offices, stores and other establishments.

I salute our labor force and thank them for their contributions to productivity and the manufacturing of quality products.

## City Hall, Post Office & Bank Closed Monday

The City Hall, the Post Office and the Bank will all be closed Monday in observance of the Labor Day holiday. The school will also observe it's first holiday of the new school year.

No businesses have advised the newspaper of any closings, so you may want to check before planning a shopping trip.

## Area Again Plagued By Grass Fires

Wednesday, August 24, the Santa Anna Volunteer Fire Department was called to put out a grass fire 6 miles east of Santa Anna near the Liberty Community. One truck with two firemen easily extinguished the flames. That situation was probably aided by the shower received on Tuesday night.

However during the next few days, the weather was dry and hot and the wind was high causing the grass to completely dry out.

Then on last Friday at about 4:00 p.m. the fire department was called to another grass fire about three miles west of town on highway 67 on the Raymond Harold ranch. The fire which, according to one fireman, appeared to have been deliberately set from the highway, burned off about 30 acres. Two trucks from Santa Anna and one from Coleman were needed to put out the blaze.

Saturday afternoon at about 3:00 the fire fighters answered a call to a fire on the Hot Springs Ranch 6 miles south of Santa Anna on the Rockwood highway. The fire, which was started as hunters were welding on a deer stand, was in rough brush country. Two trucks from the Santa Anna Fire Department and 2 from Coleman along with assistance by a truck from Voss and a bulldozer furnished by Don Baber worked to contain the fire in the brush and save to good

pasture land. That one took about three hours to contain.

A fireman states that "everything is very, very dry and the fire danger is very, very high". We are all cautioned to be very cautious about circumstances that could attribute to a grass fire. Seems the conditions are almost worse than last spring when a rash of fires kept firemen busy for weeks in the area.

## City Notes

By Max Eubank

As you know, a number of years ago, the City Of Santa Anna received the National Guard Armory building. Over the years some repairs must be done to keep this facility for our use.

The Park Board has challenged the other organizations of the community with a donation to be used for repairs. At this time the roof needs some attention and any money received from organizations or individuals citizens will be set aside for this purpose.

On another matter concerning the citizens of Santa Anna, a continual problem seems to be the "allowance of some" to allow their dogs to run loose in the community. City ordinance forbids this practice and will be dealt with by the City Ordinance passed 7-10-86.

City residents are also cautioned about burning trash. There have been several instances when concerned people have reported trash fires that could be potentially dangerous. Several were known to have been burning this past weekend when the high wind and dry conditions could have contributed to a disastrous fire getting out of hand.

The ordinance reads, "The animal control officer or a police officer of the city may cite any owner permitting a dog to run at large, and he, the owner, if convicted in Municipal Court, shall be fined not more than \$200.

## Pork Referendum Set For September 7-8

Pork producers in Coleman County will have an opportunity to vote in a special referendum September 7-8 as authorized by the Pork Promotion, Research and Consumer Information Act of 1985.

Purpose of the referendum is to determine the continuance of the 100 percent checkoff program which provides funds for pork research and promotion and to enhance the pork industry, said Kerry Kropshire, County Agent with the Texas

Agricultural Extension Service. The checkoff is at the rate 25 cents per \$100 on all hogs and pigs as well as on all imported hogs and pork products.

Voting will be conducted in the County Extension Office during normal business hours Wednesday and Thursday, September 7 & 8.

All pork producers, pork importers, 4-H and FFA and other youth who have owned porcine animals, are eligible to vote in the referendum.

Contact the County Extension Office for more information.

### Thoughts From Our Pastors

First Baptist Church  
John D. Stanislaw

#### JUST MEET THE BALL

Every Baseball player gets the idea now and then that he can force himself to hit homeruns. Players call it "swinging for the fence". When they do it, they promptly go into a slump.

Their coaches remind them, day after day, "just meet the ball". The players know the fundamentals: if they simply meet the ball with their own natural rhythm, they will hit safely often enough. If they have power, home runs will follow. Otherwise, nothing will. All of us have experienced this tendency to "force" results, even in our worship. Many times we find ourselves fretting because we cannot make some sweeping gesture on behalf of our Lord. But He wants us to serve Him where we are, with what we are. We have been trained in His church, we have His word to study, we have all of life around us. All He asks is our best. Nothing less, but nothing more.

It is in church every week that we can learn, study, and worship. You may be one of those who believe that they don't need the Church. Being in church every Sunday doesn't guarantee that you will "meet the ball" in your every circumstance. But it sure doesn't hurt.

I would like to also remind you that Jesus established the church, he died for the church, and he is coming back for the church. So the church is very important to Christ Jesus. Also, Hebrews 10:25 says "Forsake not the assembly of ourselves together, as the manner of some is..." The rest of the verse says we are to encourage and build up one another. Personally, I believe when you do not assemble with other believers you are disobeying God's Word unless you are providentially hindered. I pray that you will make church part of your life this coming Sunday and have a better chance of "Just meeting the ball".

### Around & About

Sharon Greenlee, Joan Jones, Janet Neff, Frank Gray, Jack Burns and Gerald Brister, faculty members and administrators of the Santa Anna schools, were recently in Kerrville where they attended several days of in-service pertaining to the gifted and talented program.

Emma Lee Pool, 5 year-old daughter of Mr. and Mrs. Randy Pool is back in Children's Hospital in Fort Worth receiving treatment for complications arising after recent heart surgery. She had spent about a week at home before having to return to the hospital, but was much improved Tuesday.

Mr. and Mrs. Kirk Newman of Houston were recent visitors with Lucile Wylie and Madora Gilmore, stopping in Santa Anna while on their way to New Mexico on a vacation trip.

A note from Roxie Allison of Eden reports that Benji is back in the rest home. He had surgery in San Angelo recently. She says he is not feeling well and would like for all their friends in Santa Anna to offer prayers on their behalf. The Allisons were longtime members of our community before moving to Eden a few years ago. Roxie says they miss everone in Santa Anna and that they will always consider this as home.

Louise Taylor and Dorothy Alsobrook made a trip to Washington state recently. Driving to Washington, they also made trips into California and Oregon to visit friends and relatives. Dorothy reports it was quite "an experience seeing mountains galore" in Washington. In Oregon they visited fish hatcheries and saw salmon from "tiny babies to 5 foot long". She described "beautiful falls coming out of the mountains." Mount St. Helles and others were covered with snow caps. According to the ladies, it was cold in Washington, "got down to 33 degrees at night and not above 64 degrees in the daytime." The ladies enjoyed the trip but sure were glad to get back to Santa Anna.

This word comes to us from Verner Blair LaMadrid (former Verner Blair Hamon)....A few former Coleman County residents met recently at the home of Laura and Henry Wilson in Poway, California to read the Santa Anna News and to play a few games of Texas Forty Two.

Laura Wilson is the former Laura Fox of Talpa, Tex. Also present

Recent visitors with Grace Short were her cousin, Maurine Richardson and husband Ralph, of Kingston, Tenn.

Have you had visitors or been somewhere? Call us at 348-3545 or come by the office with the information. We would like to have your news and everybody enjoys reading about what others in the community are doing.

Weekend visitors with Mr. and Mrs. Harry Crews were their daughter and husband, Dixie and Bill Aylor of San Angelo.

Mrs. Delinda Smith recently spent a week visiting with her granddaughter and family, Sonja and Wayne Doucet, of near San Angelo. Mrs. Smith reports she even got to help haul hay. It brought back pleasant memories of her days on the farm.

A Special Thank You  
I would like to take this opportunity to thank everyone who sent flowers, called checking on my condition and prayed for me during my recent stay in the hospital. I will always remember your kindness.  
Sincerely,  
Carol Herring

were other former Coleman County residents.

Fay Laguna and her husband, Fabian; Roger and Verner Blair LaMadrid from San Diego and the Wilson's son Henry, and his wife, Jan.

Fay Laguna was once a nurse at the Sealy Hospital in Santa Anna before she married Leslie Sackett of Coleman.

Laura and Fay are the daughter of Matt Fox and his wife Ola (deceased).

As always when these people get together the reading of the Santa Anna News is the highlight of the day.

Every now and then there is the exclamation, "Oh I remember her...or him!"...and suddenly there is recollection of names and locations of people and places that will never be forgotten.

Jake McCreary is doing well after heart surgery in a Dallas hospital last week. In fact, he is expected to be at home by the time this edition of the Santa Anna News is out.

Martha Bell Thompson had surgery at Brownwood Regional hospital last week and was released to return home on Sunday. She is recuperating at home and feeling quite well.

Mr. and Mrs. Larry Rutherford, Stacie and Jackie, of Anson spent the weekend with his parents, Mr. and Mrs. Pete Rutherford.

Doug Warnock and Amy Kieth, both of San Angelo, were guests of Mr. and Mrs. Derrill Warnock Sunday afternoon for a picnic and boating at Hords Creek Lake. Doug and Amy are both students at Angelo State University.

Recent visitors with Grace Short were her cousin, Maurine Richardson and husband Ralph, of Kingston, Tenn.

### Frank McCary Honored On 80th Birthday

Frank McCary was honored Sunday, August 21st with an 80th birthday reception given by his daughters and son-in-law, Neva and Tom Hooton, Betty and Monte Wootton, JoAnn and Benny Bridges. The reception was held in Odessa in the home of Neva and Tom Hooton from 3 to 5 p.m.

This was also a special occasion for the Hootons as they celebrated their 40th wedding anniversary.

The table was covered with a mauve cloth accented with lace. The cakes were baked and decorated by a granddaughter, Vickie Hooton. The birthday cake was chocolate with the year 80 formed. The anniversary cake was three tiered, white decorated with mauve and dark purple. They were both very beautiful and special due to the granddaughter's contribution.

Pineapple sherbert punch, coffee, mints and nuts were served. The plates and napkins were dark mauve to accent the cake.

Jana McDonald, a granddaughter, and Betty Wootton, a daughter, served at the reception table. Guests were greeted at the door by JoAnn Bridges who also served at the register table.

Approximated 50 guests attended the party. Old friends from years back came to help celebrate both the special occasions. Several grandchildren and great-grandchildren were present.

The afternoon was spent remembering "old times, old friends and old places". It was enjoyed by all.

The junior high and high school youth of the First Baptist Church went on a "back to school swim party" Saturday, August 27. There were 28 present. Those going were Brandi Horner, Jeffery Hartman, Scotty Anderson, Kathy Hudson, Scott Valdez, Jody Patterson, Jackie Smith, Ray Jones, Darla Jones, Rusty Bryce Jr., Jody Purcell, Missy Bryce, Chris Bryce, Michael Powers, Lawrence Langford, Shera Lewis, Karen Lewis, Dan Benton, Robby Pritchard, Glen Donham, Shelley Carter, Shawn Kerr. Adult sponsors going were Brother John, Eddie and Joe Jones, Gene and Betty Moore, and Becky Moore. It was a time of fun, food, and fellowship.

# Soldiers Acquiring Land For Roadrunner 89

Soldiers from Fort Hood are in the area contacting landowners in order to acquire land for an upcoming exercise. The exercise, known as Roadrunner 89 will take place in late January 1989. Fort Hood officials stress, however, that the exercise hasn't been approved yet and that the land leases are being acquired in anticipation of approval. Plans are for the contacts being made with landowners to be completed by September 2. We understand several local people have been contacted by the Fort Hood personnel.

The exercise is tentatively planned to include 23 counties. Not all counties will have a large presence of military personnel. However, Coleman County is included in the several counties in which the entire county will be used in the exercise. Other counties to be used in entirety are Brown, San Saba, Lampasas, Mills, Hamilton, Coryell, and McCullough.

Only parts of 15 other counties are included in the exercise area. They are: Bosque, McLennan, Bell, Williamson, Burnet, Llano, Mason, Menard, Concho, Runnels, Taylor, Callahan, Eastland, Comanche and Erath.

The basic outline of the exercise area runs from Fort Hood in the east to the vicinity of Ballinger in the West. The area's northern

boundary runs along a line from Goldsboro to Meridian in the north and from Mason through Llano to Bertram in the south.

To the maximum extent possible, the same soldiers who are contracting the land will be the same people who will clear the property with the landowner in the conclusion of the exercise.

## Don's Diary

By Ben Rutherford

We come this week to a great hope for the believer. A Hope that is beyond this life. This article could be entitled "The believers...Anticipation" (Phil 3:20-21).

Down through the ages these words have provided their consolation into many weary hearts by the open grave.

Many a person has watched the valiant fight of a loved one struggling against the ravages of a disease in vain.

In a way every death is a defeat. But it has a glorious destiny in the eyes of the Lord. Art His coming again death will be fashioned anew and brought under His control. Death will be swallowed up in victory. This is the believers Anticipation!!!!

But as we live and move about now, what should be our reactions and actions.

The word conversation is a very interesting word in this verse. It can be interpreted as "Citizenship", "commonwealth", "behavior" or "colony of heaven".

In one man's words this verse could read "We have our home in heaven but here on earth we are a colony of heaven's citizens."

Paul in this verse indicates this double allegiance of the Phillipian Christians. As Roman subjects they were citizens of the far distant city of Rome, where the Emperor made his residence. As servants of "another" king they are citizens of that capital city where the King of Kings had His palace. Here on earth

they are resident aliens who dwell temporarily in a foreign country but have their citizenship elsewhere.

Men of faith like Abraham looked for this city "Whose builder and maker is God" (Heb. 11:10) Christ has prepared rooms for the believers within this city which God has built for His Own (John 14:2-3). Peter charged that Christians have an "inheritance in corruptible and undefiled and that does not fade away, reserved in heaven". (1 Peter 1:4).

As believers we can look for Him because of who He is and what He has done. The word look stresses a earnest longing, and eager anticipation and an anxious waiting. Our hope is built on nothing less than what He has already done.

As believers we have a hope that the non-believer does not understand nor wants to understand. But as believers we also have the responsibility as citizens of a far away city to live the kind of life that would invite the non believer to a better understanding of that hope which we have.

Yes, we do have that "Pie-in-the-sky", but we also have that meat and potato responsibility of Christlike living now.

Paul said it so well, I press towards the mark of the prize of the high calling." Paul's highest goal was to press onward and upward for Christ.

No, he had not reached perfection not will we, but we can strive to do the best we can.

I recall reading about a man and his son. It seems that the son has just failed his first piano recital. The man was known throughout the land for his temper. The crowd was very disturbed as the man went toward his son! Then with loving arms around his sons shoulders he said "You did your best".

The day will come when Christ will put his arms around you and say "Well done thy good and faithful servant".

The believers...Anticipation. Christlike living now and heaven in the future.

P.S. Earth has no sorrow that Heaven cannot heal. (Thomas Moore)

**BETTY TUCKER IS A WINNER!** Betty Tucker says she "never won anything in her life" before a week ago when she received a call from Abilene to come pick up her new Dodge Dakota pickup. Mrs. Tucker had registered for the free pickup, given away by the Ben E. Keith Company, while attending a food show in Abilene a couple of weeks ago. She

is manager of the Santa Anna School Food Services and was attending the function in that capacity when she placed the winning card in the container for the drawing. Congratulations, Betty! We apologize to Betty for spots on the picture caused by developing chemical. (Photo by Polly Warnock)

# Mountaineers Tie Eagles In Scrimmage

## At Bangs Friday Night For First Game Of Season

The Mountaineers came home from Goldthwaite last Friday with a tie of 1-1 from the controlled scrimmage played with the AA Eagles. Goldthwaite had just the week before beat AAA Burnet by 5-1. The Mountaineers had lost to Early 2-0. Early is expected to be a contender in their district as are the Eagles who have for years had a strong tradition of winning.

The Eagles scored first against the Mountaineers on the first series of downs, according to Coach Sandy McSpadden, "just like Early did last week...we let them throw a long pass behind us and they scored a touchdown at the end of the initial drive on a 40 yard pass play."

Santa Anna came back to score in the second varsity series. A pass from James Hartman to Herbert Jackson netting 55 yards placed the

ball on the Goldthwaite 10 yard line. Hartman threw again, this time to Alonzo Hernandez, who caught the ball in the end zone for the TD.

McSpadden says the bright spot in the scrimmage was that "the defense bent a little but never broke." On the other hand "the offense scored when they had to". They showed a tremendous lot of character and desire, according to McSpadden, and there was no doubt in their minds but what they would score although "we didn't improve offensively as much as we wanted to", said McSpadden.

McSpadden felt that the offensive blocking was not as crisp as he would like for it to be but the Mountaineers played a good, crisp defensive ball game. He says the ability is there, it's just a matter of

concentrating on the job. Offensively Santa Anna is adjusting to a new (multiple) offensive and its just taking some time to get used to it.

In the first 15 plays, the Mountaineers fumbled 4 times, received 3 penalties and had one pass intercepted. Overall they fumbled 7 times, but recovered 5 of the 7. Goldthwaite fumbled once with Santa Anna recovering.

Hernandez looked good at tailback as did Reece McIver. McSpadden says its great to have two back of that caliber...just need to figure out where to play them". Jackie Duquett is still hobbling and was only able to go about 50% of the time during the scrimmage. He was used on defense and had a real good game. He is just not ready to go both ways as yet because of his injured foot.

McSpadden was impressed with Zane Keeney who had worked hard to earn a spot on varsity and then had some bad luck. He received a broken finger, and will be out for a week or so. Keeney played back up at offensive center and has been moving real strong defensively. Will probably end up playing as a back up as defensive end.

The head coach says that James Hartman came into his own last Friday night at Goldthwaite. He was moving with more confidence. He threw the ball well and ran well.

Buddy Hardin, as back up quarterback also looked good, says, McSpadden. However, he was sick with the flu and just got to play one quarter.

Bobby DeLeon "did an excellent job" on down field blocking, both offensively and defensively. He and Alonzo Hernandez were about the most improved, according to Coach McSpadden. He adds that Bryan Dowdy is coming on strong as a

line backer.

The Junior Varsity played a "tremendous effort" against the Eagles. "They really believe they should have won that one", says McSpadden. "They played really outstanding ball and had to play hard to just stay in the ball game" he added. When you have only 13 on the squad, you just have to put out some special effort and seems they did just that.

Looking toward this Friday night when the Mountaineers meet the Bangs Dragons at Bangs at 8:00 for their first game of the season McSpadden comments that the Dragons are big. They have lots of young men back from last year. They are big and aggressive. They had a good game scrimmage against Abilene Wylie last week and will be very hard to beat. In the end, it will be which team wants it the most, according to McSpadden. "We will just have to avoid the first game jitters" Bangs is a thirteen point favorite in that game.

## Hartmans Chosen Boosters Of The Week

## Guidelines Are Announced For Free And Reduced School Lunch

The Santa Anna School serves nutritious meals every school day. Students may buy lunch for 75-85 cents and breakfast for 40 cents. Children from households that meet Federal Income guidelines are eligible for free meals or reduced-price meals at 40 cents for lunch and 30 cents for breakfast. To apply for free or reduced-price meals, an application must be completed and returned to the school food service director.

### FOOD STAMP AND AFDC HOUSEHOLDS:

If you currently receive Food Stamps or "Aid to Families with Dependent Children" for your child, you only have to list your child's name and food stamp or AFDC case number, print your name, and SIGN the application. Since you have already given income information to the welfare office, the school can confirm your eligibility.

### ALL OTHER HOUSEHOLDS:

If your household income is at or below the level shown on the enclosed scale, your child is eligible for either free or reduced-price meals. To apply for meal benefits, you must provide the following information and SIGN the application: (1) List the names of everyone who lives in your household. Include parents, grandparents, all children, other relatives and unrelated people who live in your household, (2) list the social security number of each adult age 21 or older. If an adult does not have a social security number print "None". (3) list total monthly income and amount of income (Before deductions for taxes, social security, etc.) each person received LAST month and where it is from, such as wages, retirement, or welfare. If you have a household member for whom last month's income was higher or lower than usual, list the person's expected average monthly income.

### VERIFICATION:

The information on the application

may be checked by school officials at any time during the school year.

### REPORTING CHANGES:

If you list income information and your child is approved for meal benefits, you must tell the school when your household income increases by \$50 or more per month (\$600 per year) or when your household size decreases. If you list a food stamp case number or AFDC number, you must tell the school when you no longer receive food stamps or AFDC for your child.

### FOSTER CHILD:

Your foster child may be eligible for meal benefits. If you wish to apply for meal benefits for a foster child, contact the school for help with the application.

### NONDISCRIMINATION:

Children who receive free or reduced-price meal benefits are treated the same as children who pay for meals. In the operation of child feeding programs, no child will be discriminated against because of race, sex, color, national origin, age

### Options for Health

by Dr. Scott White

**Q. I have fair skin that burns and freckles easily as well as blond hair. A friend of mine said I'm susceptible to "melanoma." Can you explain what melanoma is and what are its warning signs?**

**A.** With your skin type and hair color, you are susceptible to melanoma as are people with red hair or people with relatives who've had melanoma. Melanoma is a type of skin cancer that may begin in or near a mole or dark spot on your skin. Although it's less common than other forms of skin cancer, it is currently the second fastest growing form of cancer in America. Because melanoma can spread to other parts of the body, it's also considered one of the most dangerous forms of cancer. However, when caught in time, it is easily cured.

**Warning Signs**  
Moles that may be potentially dangerous can usually be identified by:

- They look different than other moles. A normal mole is an evenly colored brown, tan or black spot on the skin. It can be round or oval, and is usually about the size of a pencil eraser. High-risk moles are often larger and may have a rough surface, appear to be inflamed or scaly, and may bleed easily.
- They are often multicolored. Shades of tan, brown and black are present. Red, white, blue and even pink or lavender may give these moles a multicolored appearance.
- They have irregular borders. The edges are ragged, notched or blurred.

The best way to protect yourself is to keep your exposure to the sun at a minimum. If you must be in the sun, use a 15 SPF-rated sunscreen. Examine yourself monthly. See your doctor as soon as possible if you have a suspicious looking mole or notice a sudden or continuous change in a mole's appearance.

### TEXAS TRIVIA

Fort McIntosh, established near Laredo in 1949 and originally named Camp Crawford, served as an active military establishment until the end of 1946. During the Civil War, it protected Confederate supply routes into Mexico. During the Spanish-American War, the garrison included two squadrons of black soldiers who remained in the area and established Laredo's black population. The fort reverted to the city in 1947 and is now the site of Laredo Junior College, Laredo State University and parts of the popular Nuevo Santander Museum complex.

### DAIRY TIP

Give your favorite summer time creamy salad a nutritional boost as well as an extra tangy flavor by substituting lowfat plain yogurt for the traditional mayonnaise. Yogurt is lower in calories than mayo plus it's a good source of calcium.

Lucille Sorells of Coleman visited with Mrs. Darwin Lovelady Sunday afternoon.

Mr. and Mrs. Larry Rutherford and boys of Brownwood have been here today assisting with farm work with and for Mr. and Mrs. Lee Abernathy, Mrs. Rutherford's parents.

Before another news article, the 1988-89 school term will be going on. We do trust everyone have a good school term. Time seems to be passing double fast. Seems such a short time since school was out. But don't we all wish the hot weather for this summer is in the past.
