Funtier Day Plans Are Under Way Scheduled For May 13th

The directors of the Santa Anna Chamber of Commerce met Wednesday, April 5 in regular session with Funtier Day as the number one item on the agenda. Funtier Day general chairman for this year was present at the meeting along with the Ice Cream Freeze-off chairman, Kelly Simmons and Pat Smith and Lori Smith who are working on another project.

Plans as announced are for a parade to begin the day at 10 a.m. originating at North Lee and Wallis Ave. Charles Wetsel and Monty Guthrie will be parade directors. Those interested in entering the parade should contact them as soon as possible.

Fort Concho of San Angelo will furnish a Color Guard.

The tractor show will take place on Saturday and Sunday this year. Clint Day and Bill Garrett are in

Local Sales Tax Rebate Still Down

State Comptroller Bob Bullock said last Friday that statewide sales tax rebates for the first four months of 1989 are up by 13.4 percent over last year's tax allocation for the same period.

"The economy is in good shape, which is being reflected in our state and local sales tax collections," Bullock said.

Last year's sales tax rebates through April; were up 6.5 percent over 1987 rebates for the same time period, while 1987 rebates through April actually fell 6.3 percent compared to the same period in 1986, Bullock said.

Bullock warned that the monthly

SAHS One-Act Play Ends Successful Run

Even though the cast gave one of their best performances last Saturday at the Area One Act Play competition in Abilene, SAHS's "Limbo" was not selected to advance to regional competition. They were, however, well represented in the all-star honors with Laurie Powers receiving honorable mention and James Hartman, Scotty Anderson and the off stage ensemble of Missy Bryce, Rhonda Fleeman, Shirley Taylor, Ray Jones, and Martha Frausto named to the all-star cast.

Chosen to advance were Ira, "They Dance Real Slow in Jackson" and Rotan, "The Girl In the Mirror", which Santa Anna did for competition last year. Other schools competing were Baird, Eula, and May.

During the OAP competition, Santa Anna's "Limbo" has been performed at three levels: Zone, District and Area. The cast includes 13, all of whom received all-star honors at one or more of the three levels, a feat which is outstanding in itself.

Throughout the competition, judges have complemented the strength of the entire cast, as has been proven by each of the thirteen receiving honors. Nine of the thirteen had been in previous plays. Certainly, they should be commended for their hard work and talent.

The crew composed of Rhett Guthrie, Garry Keas, and Charles Dixon, did an outstanding job each

charge of arrangements for the show.

Entertainment for down town will consist of music, square dancers, May pole dance, skits and more still in the planning stage. There will again be a sand pile for the youngsters. There will be exhibits of handwork by local citizens up and down the streets.

A bicycle group from Abilene will be on hand again to thrill the young and the young at heart.

The Fire Department will again be selling hamburgers and all the fix'ens. The Chamber is already receiving requests for booth space and more arts and crafts exhibitors are needed.

There are many things in the wind for this fun day and we will be letting you in on them as soon as plans are complete.

Make your plans now to have a good time in Santa Anna, Saturday, May 13!

comparisons in this report are skewed because merchants collected and reported an extra day's worth of sales tax in Feb. of 1988, which was a leap year. "One day may not seem like much, but its enough to throw the numbers off", Bullock commented.

April's checks represent taxes collected by monthly filers in Feb. and reported to the Comptroller's office by March 20.

Here in Santa Anna the picture did not look as good as the statewide picture did as the City of Santa Anna received a rebate of \$982, making the year's total to date \$7,643, down from last year's total at this time of \$9,094, which reflects a decline of 15.95%.

Coleman is showing an 8% increase.

time the play was presented. Much work goes on "behind the scenes" and these young men were responsible for the smoothness of the performances...the lighting, the music, curtains, and props in working order and in the right place at the right time.

The play was directed by Kay Gray and Orabeth McIver. Mrs.

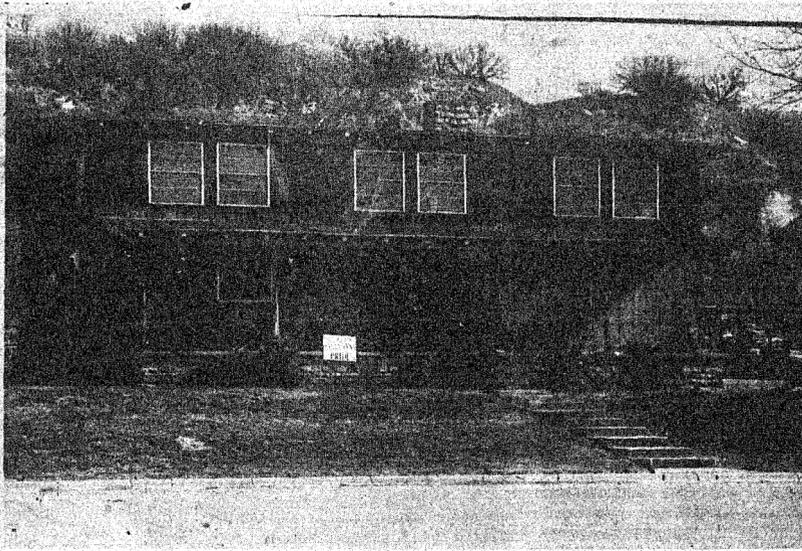

Gray is a veteran in this area, having directed one-act-plays for five years. She is a very talented director, and according to Mrs. McIver, Mrs. Gray would definitely be named all-star director if such an award were given.

In Zone competition, Scotty Anderson was named best actor and Laurie Powers and Rachel Phillips were named to the all-star cast. Honorable mention went to Belinda Deal and Michael Powers.

In district competition, Reece McIver and Shera Lewis were named best actor and best actress. Rachel Phillips and James Hartman were named to the all-star cast. Honorable mention went to Missy Bryce and Belinda Deal.

Correction

In last week's article about the called meeting for City council, the number of gallons of water purchased by the City of Santa Anna from the Brownwood Water District should have been 50 million per year. Gee! If 50 million per year is more than we use, think what that much per month would be! Our mistake.

Santa Anna's Pride Of The Month

The home of Byron and Gale Brock has been chosen as this month's Santa Anna Pride. Located at the foot of the mountain on Ave. A., the surroundings always reflect a sense of pride with the neat, well kept yard and adjacent vacant lot. The simple landscaping

seems to blend beautifully with the mountain as a backdrop. Another fine example of Pride In Santa Anna. The selection each month is made by a committee of the Chamber of Commerce.

County Water Supply Corporation Takes Action That Will Mean Savings Phase 5 Complete, Phase 6 In Planning Stage

According to a report made public last week, Coleman County Water Supply has elected to buy out the Farmers Home Administration loan, refinancing through Coleman banks, and with the buy-out discount offered FmHA, will realize a savings of at least \$980,000 and perhaps more.

Depending on interest rates and if the corporation is able to pay off

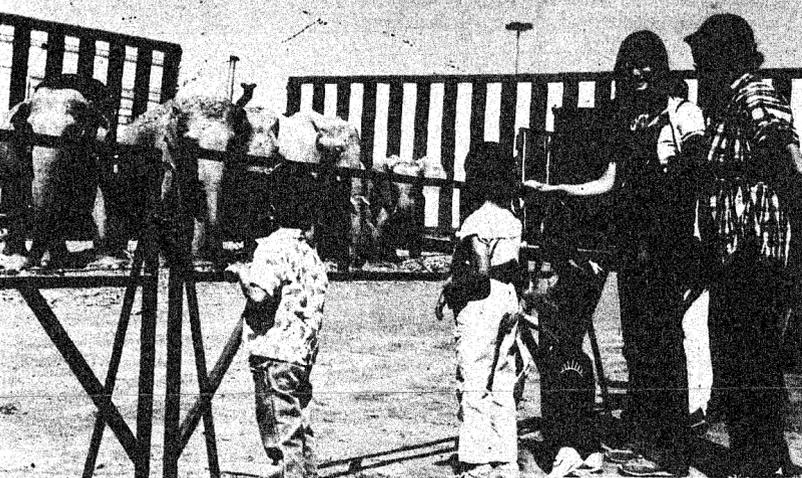

the new loan early, in 15 years, a much larger savings would be realized. The FmHA loan has 29 years left on the payout schedule.

The FmHA loan was for \$2,226,000 and the refinanced loan is for \$1,240,000. The report on the loan buy-out was explained at the annual meeting in Coleman last Tuesday afternoon.

Three directors were elected for new terms. Ralph Allen and

Howard Macdgen were re-elected, and Charles Green of the Rockwood community was elected to the post vacated by Pete Skelton who is retiring from the board.

In the business session, reports were made. It was explained that Phase 5 is completed, and that the system now serves 1280 meters and has 455 miles of water line. It was also reported that Phase 6 is in the planning stage.

Children of all ages are invited to watch as Carson & Barnes big 5-ring circus sets up on Monday at the Coleman Rodeo grounds. Pictured are some who watched as the circus set up last year in Brownwood.

They are Jeremy, Alisha and Michelle Miller and their mother Linda, all of Snyder and grandmother Betty Key of Santa Anna.

Carson & Barnes Big Top Circus At Coleman Monday Young & Young At Heart May Watch Set Up

Monday, April 17, is the day when many Santa Anna area youngsters will talk of running away with the circus.

Here's a tip on how to discourage them: Early in the morning take them to the Coleman Rodeo grounds to watch some 300 employees and several of the 20 elephants in the mammoth task of erecting the "Biggest Big Top on Earth" for the 4:30 and 8:00 p.m.

performances of the "Raucous Roaring 20's" edition of Carson & Barnes Circus.

It isn't an easy job--totally lacking in the glamour and glitter that is found later during the big show. It occurs virtually every morning for 230 days, on hot weather and cold, rain or shine, just as it has for the more than 50 years that this giant circus has been traveling throughout the world.

The first units of the 80 vehicle caravan should be arriving about an hour before dawn and they will continue to file in most of the morning. The 400 stakes, 134 poles and several miles of cable and ropes will be laid out and prepared and the crew of men and trained elephants will push, pull and lift the shining polyvinyl tent 40 feet into the air.

Meanwhile, trucks and trailers

Donations Received For City Library Building Fund

Several recent donations have been received for the Library Building fund. The donations, totaling \$600, bring the fund close to the present goal for the possibility of putting a new roof on the building sometime this summer.

One donation was made by Mrs. Vivian Phillips of Fort Worth in memory of her mother, Mrs. Dovie Chapman. According to her daughter, Mrs. Chapman was an avid reader and loved good books. For a time she served as librarian in Santa Anna, a title she wore with pride.

Another sizeable donation comes from a person who is a member of a book loving family and asks to be called "Mr. Anonymous" Every donation is greatly appreciated and brings the new location of the library closer to a reality.

Letters Go Out To Parents For Nominations To Local Gifted And Talented Program

Santa Anna Elementary School Principal, Jack Burns, announced Monday that letters have been sent to local parents regarding the Gifted and Talented program to be initiated in the kindergarten through 6th grade classes next fall. Accompanying the letter is information on how to nominate a child for the program if parents want their child to participate. He asks you to please remember that not all those nominated will be accepted for the program.

Copies of the letter are available from Mr. Bum's office if any interested parent did not receive one. The nominations are to be returned to the school by April 28.

carrying the huge Carson & Barnes menagerie will be moved into position, steel-mesh pens will be erected, and the 200 wild, exotic and domestic animals will be unloaded, watered and fed. This is the only big circus zoo in America and it is shown free in the morning and also to all patrons with tickets for the performances. In addition to the huge elephant herd, species in the million dollar collection include giraffe, hippo, and a rare white rhino, among others. All of this makes a colorful setting for area

Alva Lee Cullins

COMANCHE—Services for Alva Lee Cullins, 71, of Comanche were held Wednesday, April 5, at 10:00 a.m. at Hall & Chaney Funeral Home with Tommy Johnson officiating. Burial was in Gardens of Memory.

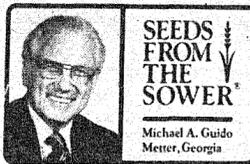

Mrs. Cullins died Monday, April 3, in Rockport.

Born in Coleman, he moved to Comanche eight years ago from McCamey. He was manager of C.J. Morrison Company in Monahans and was a member of Pearl Street Church of Christ.

Survivors include his wife, Mary Lee Cullins of Comanche; a daughter, Shirley Caddell of Rockport; two brothers, Omer Cullins of Santa Anna and George Cullins of Coleman, and a grandchild.

Thoughts From Our Pastors

Due to the illness of his wife, Linwood Bishop was unable to furnish us with an article at this time. We pray for her speedy recovery and look forward to the next time he will be our guest columnist for "Pastor's Thoughts". In the meantime we hope you enjoy the following substitution.

A boy asked a visitor, "How do you like my police dog?" "He doesn't look like a police dog to me," came the reply. "Of course not," explained the boy. "He's in the secret service."

While the government needs men and women in the secret service, God doesn't. There's no such thing as a secret disciple. Either the secrecy destroys the discipleship, or the discipleship destroys the secrecy.

We're suffering today from a religion that's as dry as dust, as cold as ice, as pale as a corpse, and as silent as the grave.

But the Bible says, "Has the Lord redeemed you? Then speak out! Tell others He has saved you."

Little Nancy was glad, but her grandpa was gloomy though godly. Wandering out to the barn Nancy spotted a mule with a sad look. "Poor donkey," she sob-

bed, "you've got grandpa's religion too."

But not God's. His is one of joy, and of it Jesus said, "No one can rob you of that joy."

The Devil can't, for the Bible says, "Submit yourselves to God, resist the Devil and he will flee from you." Sin can't, for the Bible says, "Sin need never again be your master." Trouble can't, for "I can do all things through Christ who strengthens me." Death can't, for "I shall dwell in the house of the Lord forever."

Want joy? Take Jesus, won't you?

Mary had a funny doll. It was made of cloth and stuffed with corn, but she loved it.

One day while she was playing with it, she bumped into Jimmy who was making a boat. The jar caused him to drop it and break it.

"I'll get even with you," he cried.

He stole her doll and buried it in the garden. As he walked away he grinned, "That's the end of her doll."

But one day, after a rain, the mother saw a spot of fresh greens. She walked over to it, and there in the shape of a doll were green blades of corn growing.

The hidden sin was uncovered.

Like the Living Bible says, "You may be sure that your sins will catch up with you."

Blanche Willis calls from San Diego, California to report that her sister, Verna Blair LaMadrid has recently been a patient in a San Diego hospital as the result of a cerebral hemorrhage, but is doing well now.

We send our best wishes for good health to Mrs. LaMadrid. Both ladies are former residents of Santa Anna and attended the Santa Anna Schools. They are also members of the "California Fan Club of the Santa Anna News". From time to time, we hear from various former Santa Anna people now living in different areas of Calif. Seems they get together on a regular basis to play "Texas 42" and talk about what they have read in the NEWS.

Mrs. LaMadrid has contributed several articles about her fond childhood memories of Santa Anna and its people.

Several Santa Anna ladies, on a trip with the local Self Culture Club, were visiting in the Toy Museum in Fredericksburg last Saturday. While there they noticed an announcement of the Santa Anna Frontier Day celebration on the bulletin board. Seems the son of the owner of the museum shows antique farm machinery and was in Santa Anna for the show last May. He plans to be back for the Frontier Day festivities and antique farm equipment show, May 13 and is telling others about it also.

Members and sponsors of the Methodist Youth Fellowship (MYF) were in Brownwood Sunday afternoon for a district youth rally of the United Methodist Youth Fellowship. After the rally, they were treated to dinner out.

Mrs. Jasper (Jean) McClellan has been in Abilene the past week staying with their daughter, Jene' who is recovering from surgery. Jene' is doing well.

Marty Warnock of Rockwall, visited with his parents, Mr. and Mrs. Derriel Warnock, Sunday night and Monday. His daughter, Stephanie visited Monday evening.

Tex and Patsy Wright had as visitors Sunday afternoon, Ruth Adams and Ethlyn Jones of Fort Worth. The ladies are Patsy's aunts.

Coats have been very much in fashion this week in Santa Anna as the temperature took a dip and the wind let us know it was around and about. Although here in town, the morning low on Tuesday did not dip to the freezing point as had been expected, one person who resides near the Plainview community reported some ice on her bird bath and new growth on shrubs looked rather limp.

All I can say, is I may never trust another mesquite tree! But, might have known, because the scissor tails aren't back yet!

Members and sponsors of the Methodist Youth Fellowship (MYF) were in Brownwood Sunday afternoon for a district youth rally of the United Methodist Youth Fellowship. After the rally, they were treated to dinner out.

Library Notes

Check It Out
Are you looking for THE BEST BARGAIN in town? If you read paperbacks, go to the library. There are hundreds of books and they cover every subject. You will find westerns, mysteries, spy romances, detective, adventure biography, autobiography.

Now consider the cost of these books when you buy a copy. The least expensive would be \$3.95 and most are \$5.95. If you read one book a week for a year, that totals \$312. Double or triple that is you are a heavy reader. So the BEST BARGAIN IN TOWN has to be all those free books at the library. Go look through the boxes - just have a seat and enjoy the search.

Mrs. Norval Wylie and her daughter, Nancy, cleaned out their book shelves and are holding a great number for the library book sale. Our good friend Carol Herring delivered another sack. There are a number of Gothic Romances and Agatha Christie mysteries in these and also among those Diane Wetsel had previously delivered.

Income Tax Due April 17

The 1988 Income Tax deadline is Monday, April 17. Income tax forms that are mailed MUST be postmarked by that day to avoid a penalty for late filing.

Letters mailed inside the Post Office before 4:00 p.m. will be postmarked that day. Mail placed in the outside box between 4 and 5:30 p.m. will be picked up and taken to Abilene. It is probably postmarked before midnight. The main Post Office in Abilene will be open until midnight on Monday, April 17 to accommodate late filers.

To be on the safe side, Santa Anna post office officials recommend mailing your Income Tax inside the Post Office before 4:00 p.m. on April 17.

Athletic Boosters Meet To Plan Sports Banquet

The Santa Anna Athletic Booster Club will meet Monday, April 17 at 7:00 p.m. at the Junior High building. The purpose of this meeting is to plan the All Sports Banquet and the Junior High Hamburger Supper.

All interested persons are encouraged to attend.

Friendship Luncheon

(Contributed)

Twenty people showed up for the Friendship meal on Thursday, thus making an interesting table of food, pot-luck style.

Pat DeWitt was back at the piano, broken toe and all. Madora Gilmore was present with her companion, Louise Taylor.

Frank McCary offered the prayer. Our Coleman friends were present. All the men joined in on the kitchen duties, as usual.

Birthday Party Honors Phillip & Amy Wristen

A birthday party was held for Phillip and Amy Wristen in March at their aunt's home. Phillip observed his 5th birthday and it was Amy's first. Parents of the two are Ted and Suzette Wristen of Lampasas, formerly of Santa Anna.

The birthday cakes, a large cake and a smaller one, were both Teddy Bear cakes. The guests were also served ice cream and cold drinks. The children opened their gift which included clothing, toys, money, and, of course, toys.

Those attending besides the honorees were their mother and father; Grannies, Marie Wristen and Janet Cozart; Great Granny, Carmen Donham; Aunts, Michelle Morgan, Nikki Donham, and Uncle Bobby Morgan; cousins, Bo and Tye Morgan; Steven, Michael, and Glenn Donham; James and Brandi Wristen; and friends, Anita Beal and Frances Coblentz. A good time was enjoyed by all.

Sending gifts but unable to attend were Great Granny, Ollie Wristen and Aunts, Mike and Cindy Sparicino and Sarah and Sandy Deal.

Jefferson Remembered

Thomas Jefferson, third president of the United States, was born on April 13, 1743, at Shadwell, the Jefferson family farm in Albemarle County, Va. During his distinguished political career he served as minister to France, secretary of state and as vice president under John Adams.

President from 1801-1809, Jefferson's political perspective centered around his ideal of a nation living under as little government as possible, what has become known as "Jeffersonian democracy." Fearing a too

powerful central government, he urged Congress to repeal a number of laws he believed were harmful to the nation, notably excise taxes, which Jefferson regarded as unconstitutional.

Jefferson, who died on July 4, 1826, at his Charlottesville, Va., home "Monticello," may best be remembered by the words of the epitaph he wrote for himself: "Here was buried Thomas Jefferson, author of the Declaration of American Independence, of the Statute of Virginia for religious freedom, and Father of the University of Virginia." **II**

Coleman Air Show Saturday

Coleman's 8th annual Air Show is rated as "the biggest and best ever". It is scheduled to take place Saturday at the Coleman Municipal Airport.

The show will begin at 10 a.m. and will continue until about 5

p.m. Food and drink concessions will be open throughout the day and operated by members of the Coleman Aviation Club which is sponsoring the show.

Dewey Wilson is president of the

aviation club and Bill Laws is show chairman. They urge everyone to come out to the show and spend the day.

Included in the display will be a large number 'warbirds', including those from the Coleman Warbird Museum. Others will be from

Midland, Breckenridge and Big Spring. Some of these are from the Confederate Air Force.

Several Acrobatic planes will put on a show, including one flown by Brownie Seals, formerly of

Coleman. Parachute jumpers will be there from Austin and there will be helicopters from Fort Hood.

Guard dogs from Dyess Air Force Base in Abilene will be used in a demonstration. There will be a flour bombing contest and flying radio controlled model planes will also be part of the day's program.

Those attending the show will also have the opportunity to view the expanded airport complex and runway, and the taxi area improvements that have been made.

\$1,250,000 Highway Project Due For Coleman County

About \$6 million will be pumped into District 23 area highways as part of a statewide program to rehabilitate Texas roads. At its March meeting, the highway commission approved the \$400 million statewide program.

"More than 50 miles of roadway will be improved in our area", said Brownwood District Engineer Wes Heald. "There are ten separate projects, including a \$1,250,000 plan to rehabilitate 4.1 miles of US 67 in Coleman County."

Heald said that the 4.1-mile section of US 67 west of Coleman, from SH 206, west to 0.75 miles east of FM 503 at Valera, would be widened and strengthened and all the culverts would be rehabilitated to the latest safety standards.

On a statewide level, Heald said, 497 projects involving about 2,500 miles of roadway in Texas would be restored in the next few years.

"This is a major program to protect our highway investment", said Heald. "By rehabilitating and

restoring the roadways we have, we can gain the maximum benefit for the taxpayers' money."

"In addition to protecting the taxpayers' investment, we're also protecting their lives", said Raymond Stotzer, engineer-director of the highway department.

"By improving the roadway, we improve its safety at the same time", Stotzer said. "When we add shoulders to narrow, two-lane highways, we also widen culverts and bridges, and strengthen the roadway. That makes them safer."

"On roads that carry at least 1,500 vehicles a day, there are 36 percent fewer accidents when those roads have adequate shoulders", Stotzer said.

The Public Housing Authority of the West Central Texas Council of Governments is accepting applications for the Section 8, Existing Housing Program. This program is designed to offer expanded opportunities for rental assistance to very-low-income families by utilizing existing private housing units. The program is tailored to meet individ-

ual needs of families by offering them freedom of choice in locating suitable housing units that meet their individual needs. It is possible that these families could receive assistance in housing units they presently occupy. WCTCOG will offer the Section Certificate Program only in areas where no program currently exists.

Romance Novel Has Santa Anna Area Setting

A new romance novel by Barbara Catlin is set in the Santa Anna Area. Ms. Catlin, a resident of the Texas Hill Country has informed us the paperback novel "Mr. Right" is just off the press and should be in book stores and discount stores soon. This is her third book, the other two having settings in the hill country near Bandera, where the author makes her home with her two teenagers.

The book, published by Silhouette, tells of the romantic searchings of a lady real estate developer, who after thirty-five years of successful prioritized living, admits something is missing in her life and makes her way to a fictional guest ranch north of the Santa Anna Mountains to begin her search for romance.

The author was in Santa Anna almost a year ago to try to find a

DON'T MISS IT! DON'T MISS IT! DON'T MISS IT! BIGGEST CIRCUS IN 52 YEARS COMING

Monday, April 17 is circus day, sponsored by the Coleman V.F.W. # 8875.

The largest herd of performing elephants, horses, camels, llamas, lions, tigers, and a host of performers take possession of the Coleman Rodeo Grounds when the gigantic Carson & Barnes 5 - Ring Circus under the "Biggest Big Top on Earth" spreads its magic city of tents for ONE DAY ONLY, shows at 4:30 & 8:00 P.M.

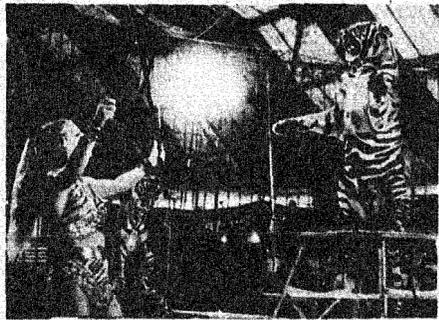

The 5-cent beer and the dollar steak may be things of the past, but if you remember them you'll be glad to know that elephants still help erect the Big Top and that Carson & Barnes Circus is a show for all ages.

Be at the showgrounds early to delight in seeing more than 200 wild, exotic and domestic animals unloaded, fed and watered. Then see the elephants push and pull the Big Top into the air. It's all part of the "Grandest Day of the Year", Circus Day, when everyone is a child and proud to admit it.

Revel in the spectacular performance of the nation's last big traditional circus - - the largest tent show to visit here in more than fifty years. Long noted for outstanding elephant, wild animal and horse displays, Carson & Barnes is famed for its large cast of top-flight human performers from many nations.

See America's last big traveling zoo at no additional charge - - with a giraffe, massive white rhino, hippo, 20 African and Asian elephants, Patricia White's Nubian lions and Siberian tigers and many more - - 25 species in all.

Inflation and the high cost of maintaining a quality show raise questions of how much longer a huge 5 - ring circus under a big top can continue to operate. Indeed, fuel prices already have dictated a reduction in distances between traditional one-day engagements and has given opportunity for residents of smaller cities and towns to again see a massive, traditional circus - - just like the good old days.

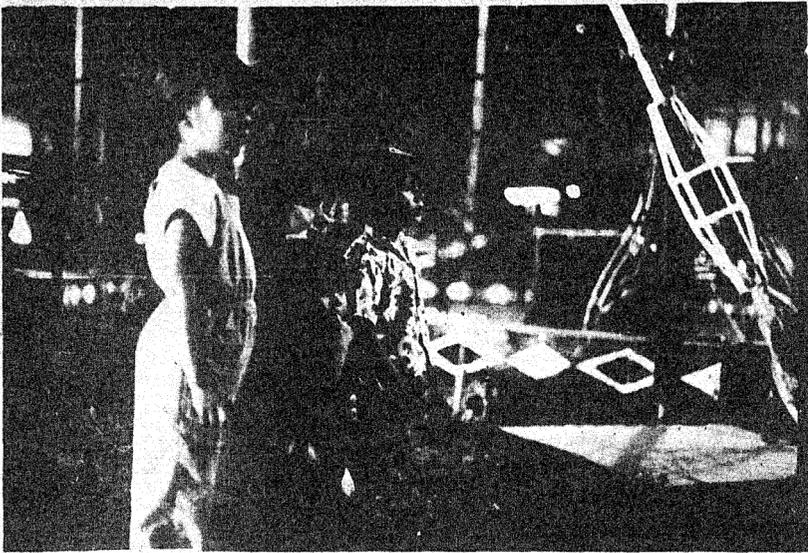

Patricia White's Lions & Tigers are among features of Big Circus

Hurry! Hurry! Hurry! Only a few days left to buy advance tickets - only \$6 adults & \$4 child.

Tickets \$1.00 Higher on Circus Day. Visa & M/C Accepted at Circus Box Office Only. Advance tickets on now at: Shoppin Basket Food Center, Bill Kerr Sporting Goods, Waynes Western Wear, Owl Drug Store, Phillips Drug in Santa Anna, West T Go in Winters, Buy Rite Shoppett in Cross Plains.

photographers. Those wishing to attend the circus shows may purchase tickets at the grounds. Of course, there is no charge to witness the morning activity.

In America today, this edition of the Carson & Barnes circus, is the only big tented circus which manages to maintain the traditional demanding schedule of one-day stands.

Sponsored in Coleman by the VFW Post #8875, the show has a variety of acts, all described by circus management as "center ring caliber". Featured is Patricia

White's mixed group of Nubian lions and Siberian tigers. You'll thrill to the sight of the Carson & Barnes elephants performing in all five rings at the same time.

Stellar new attractions include the comedy bareback riding act of Loyal-Repensky troupe; multi-ring teeterboard displays; Israel Portugal in a sensational high wire display at the apex of the big tent; head balancing on the high swinging trapeze; a brilliantly costumed grand march; and a 40 person aerial ballet. Clowns, horses and daring trapeze acts are featured, too.

Midway attractions open an hour before each show.

Tickets can be bought on the circus grounds on the day of the performance as late as showtime. Each ticket purchased before showday is \$1.00 less than at the boxoffice. Tickets are available at Phillips Drug in Santa Anna and in Coleman at Shoppin Basket, Bill Kerr Sporting Goods, Waynes Western Wear, Owl Drug. In Winters tickets may be purchased at Wes-T-Go and at Buy-Rite Shopette in Cross Plains.

How can I claim my mother's unclaimed property?

Is there a formula to use in deciding how expensive a home a person can afford?

Most budget counselors suggest that monthly house payment should not be more than 25 to 35 percent of your net total income. While that is one formula, there are other important factors to keep in mind when trying to determine your house-hunting budget.

For example, you should know what your monthly expenses are. Don't guess at them. Make a list. Do not forget to add regular expenditures, such as household bills and groceries. Remember, with a house and a lawn to care for, you may have higher water and wastewater bills.

With this completed you have a better idea how much money you have for mortgage and related expenses.

It may be wise to talk with a credit counselor at a consumer credit bureau in your area. Services are often free or offered for a nominal fee. A professional credit counselor will look over your budget to help you determine a house payment you can afford.

My mother's name appeared on the list in our newspaper of people with unclaimed property. Since my mother is deceased, who can claim her property?

Even though your mother is deceased, her legal heir may claim the property at any time. If there is a will, its provisions will be followed. Without a will, state law establishing heirship would determine the distribution of her estate.

Legal documents are required by law to prove the claimant is entitled to the property.

SAHS Boys Tennis Doubles Teams Are 1 & 2 In District

Will Advance To Regional Tournament, 26th & 27th

The Santa Anna High School Boys tennis doubles teams will both advance to the regional tournament April 26th and 27th at McMurry College in Abilene. Cousins James Hartman and Jeffrey Hartman defeated their teammates Bradley Wise and Dennis Absher 6-4, 6-4, in the finals of the doubles event in the district tournament played here last Wednesday and Thursday. Coach Betty Coffey reports a close, exciting match.

In the boys singles, Reggie Brown of Cross Plains defeated Toby Absher, Santa Anna, 3-6, 6-3, 6-3, for third place. Toby won his first match, but then lost to Chad Bagley, the eventual winner in the boys singles division.

Also in singles, Jody Patterson played a good match against the

eventual third place winner, Reggie Brown of Cross Plains.

Overall, the Santa Anna boys tallied the most team points of the 8 teams in the boys division with 35, followed by Cross Plains with 20.

The two boys doubles teams will be the only Santa Anna tennis players to advance to the regional tournament.

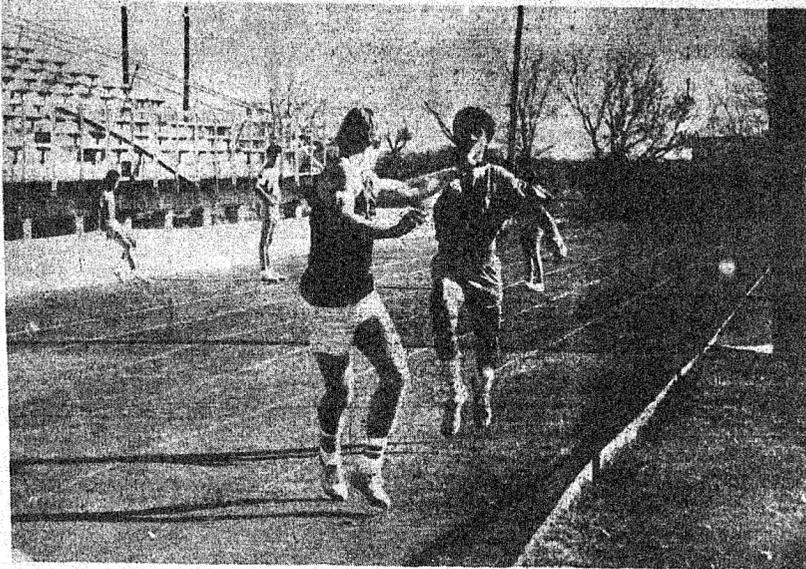

In the girls division, Ruth Garza of Santa Anna defeated Pam Glover of Cross Plains, 6-2, 6-1, to take third place in girls singles. Ruth had won her first two matches and then was defeated by Jeannie Barclay, the girls' singles champion before coming in to play for third place.

Liz Longoria and Eva Frausto defeated Cheatham and Vinyard of Sidney, 6-1, 6-4, for third place in the girls doubles event. According to the report, they had previously beaten teams from Gustine and Novice.

Also in doubles, Kim Gunter and Rachel Phillips won their first match but lost their second to the tough second place winners from Cross Plains.

Shera Lewis won her first match, but lost a heartbreaker to Amy Perkins Zephyr, second place winner, in her second match.

The Cross Plains girls were first in the tournament with a total of 50 team points. Santa Anna was second with 15.

Jody Purcell and Bobby DeLeon were recently caught by the camera as they practiced a relay handoff. The SAHS boy's relay teams have put in some stellar

performances this season and are ready for Friday's district track meet at Cross Plains.

Junior High Track Teams In Best Performances Yet

According to Coach Dean Bass, the Santa Anna Junior High track teams turned out their best performances of the years Friday and Saturday at Lometa.

Magellan is out exploring again—and this time the journey is truly out of this world.

One of the most unusual—and most important—spacecraft ever built will soon be beaming back to earth amazing facts and figures about earth's "sister planet," Venus.

Named for the 16th century Portuguese explorer, NASA's Magellan spacecraft will orbit Venus, sending back data to be processed into photograph-like images of the planet's surface. Magellan will use an advanced radar to penetrate Venus' thick clouds, producing the most detailed map ever made of the planet's surface. For the first time, scientists will be able to study detailed images of Venus like those formed by wind or flowing liquid, craters and large landforms. This will provide new understanding of the origin, evolution and present state of the planet that's so much like earth in size, density and gravity, yet so different in other respects such as surface temperature, which on Venus reaches 900 degrees Fahrenheit, sufficient to melt lead.

Built in Denver by Martin Marietta Corp. for its April launch from the space shuttle Atlantis, the Magellan spacecraft uses technologies and off-the-shelf components from other NASA spacecraft. A 12-foot diameter, high-gain antenna from Voyager will be used for both radar mapping and data transmission. From its launch, the spacecraft will take 466 days to reach the planet. Once in orbit, the mapping mission will conclude in 243 days.

EDITORS NOTE: A friend brought this by the newspaper office the other day. We thought you would enjoy it.

BREAKFAST:
 1/2 grapefruit
 1 slice whole wheat toast
 8 oz. skim milk

LUNCH:
 4 oz. lean broiled chicken breast
 1 cup steamed zucchini
 1 oreo cookie
 herb tea

MID-AFTERNOON SNACK:
 rest of package of oreos
 1 qu. ice cream
 1 jar hot fudge

DINNER:
 2 loaves garlic bread

large pepperoni, mushroom, olive, anchovy and sausage pizza
 large pitcher of beer
 3 candybars
 entire frozen cheesecake, eaten directly from freezer.

DIET TIPS
 1. If no one sees you eat it - it has no calories.
 2. If you drink a diet soda with a candy bar they cancel each other out.
 3. When eating with someone else, calories don't count if you both eat the same amount.

4. Food used for medicinal purposes NEVER counts; such as: hot chocolate, whiskey, brandy, toast, sara ice cheesecake.
 5. If you fatten up everyone else around you; then you look thinner.
 6. Television related foods don't count because they are simply part of the entertainment experience.
 7. Water contains no calories and when mixed with whiskey it neutralizes the caloric intake.
 8. Cookies and potato chip pieces contain no calories. The process of breakage causes caloric leakage.

Q. What kinds of records do I need to keep to substantiate the business use of an automobile?

A. To substantiate the business use of an automobile, good documentation is required. This generally includes a record of the dates of business trips, customers visited, purpose of the trips, number of miles traveled during the year on business, and total number of miles the vehicle was used overall during the year.

Q. I am an active participant in an employer-maintained retirement plan. My wife and I have a combined adjusted gross income of over \$50,000. May I contribute \$2,000 to an IRA for 1988?

A. Although you may contribute \$2,000 to an IRA for 1988, the contribution itself would not be deductible. Nevertheless, for individuals who are not active participants in an employer-maintained retirement plan or who meet certain other income limitations, a similar contribution to an IRA in 1988 might be deductible.

Q. I have spent money on meals and lodging, away from my home area, to carry out my duties as a volunteer for the local cancer society. May I deduct my expenses as a charitable contribution?

A. Possibly. Your expenses are deductible as a charitable contribution only if there is no significant element of personal pleasure, recreation, or vacation involved with the away-from-home trip. Charitable trips disguised as vacations are clearly not deductible.

Tick Transmitted Lyme Disease Becoming A Real Concern In Texas

COLLEGE STATION--A tick-transmitted human health problem called Lyme disease has been reported recently in Texas and 31 other states.

Dr. J. W. Stewart of Uvalde, an entomologist with the Texas Agricultural Extension Service, said about 30 cases have been reported in Texas, making incidence still relatively low in the state but a concern, nevertheless. Stewart said one of the "hot spots" is Northeast Texas.

"It is causing concern because it's also popping up randomly all over the state. We don't know what it's going to do," Stewart said.

He said the disease, transmitted by certain ticks, is now more common than Rocky Mountain Spotted Fever. Stewart said the disease was identified in Sweden initially in 1909, and still exists there. In the United States, it was identified first in 1975 in Lyme, Conn.

He said school children and adults living at Lyme complained of symptoms resembling rheumatoid arthritis. Dr. Allen Steere of Yale University Medical School investigated the cases and named the new disease "Lyme arthritis."

Stewart said early symptoms include profound fatigue, stiff neck, flu-like symptoms, headache, chills, fever, and muscle aches. Without treatment, during the second stage which can occur within weeks to months, it may affect the heart and nervous system. The third or chronic arthritic stage can begin up to a year or more after a bite.

People who have been bitten by a tick should watch that spot for several weeks," Stewart said. "If a rash appears, they should call their physician immediately."

He said other precautions include not handling sick deer or rodents. "Don't try to treat a sick deer," he said. "Call the game warden or animal control officer."

Stewart said all ticks should be removed only with tweezers or small forceps. "Grasp the tick as close as possible to its mouth, or the part that's sticking into the skin." "Pull the tick out in a smooth, steady upward motion," he said. Stewart said after the tick is removed, the bite should be treated with rubbing alcohol or iodine.

He said ticks can be disposed of in alcohol or by flushing down the drain.

Whon News

By Mrs. Tom Rutherford

When giving the Whon Picnic report the last week I failed to mention Mr and Mrs Bob and Patsy Smith of Abilene furnished the candy suckers for the children (and grown ups if wanted) at the picnic. This is a tradition Mr Curtis Colbins developed long years past when the picnic first started. For a few years Mr Wilburn Bible furnished the suckers and others have also, whom I don't know just now.

Mr and Mrs Darwin Lovelady visited with her sister, Mrs Elva McDaniel, in Brownwood Sunday. And also with their son, Mr and Mrs Randel Lovelady and girls, before returning home.

Mr and Mrs Floyd Morris were transacting business in Coleman on Wednesday and while there they visited with Mrs Morris Brother, Mr and Mrs William Perkins.

Mr Neil Fitzpatrick of Odessa was with his parents, Mr and Mrs Gregha Fitzpatrick, Saturday and Sunday. The men assisted Tommy Stansberry with his cattle. Tommy was Saturday dinner guest in the Fitzpatrick home on Saturday. And following the work and other activities of the day Mr Amon Ots joined the family for a mid-night lunch following attending roping at the Gouldbusk Arena.

Mrs May McFarlin and her daughter Mrs George Daniel Wheatly attended memorial services for Mrs Byrl (Dorothy) Brown of Cross Plains, in the Stevens Funeral Home Memorial Chapel one day the past week. Mrs Brown passed away very suddenly in her home at Cross Plains. Mrs McFarlin reports she and her late husband and Mr and Mrs Brown have been close friends for thirty two years. When they, Mr and Mrs McFarlin, moved to a joining ranch where they were employed for quite a time. Our sympathy to all who are in sorrow.

Mrs Floyd Morris and grand daughters Janet and Jennifer visited with Mr and Mrs Norman Floyd Morris in Brownwood Saturday afternoon as they returned home following attending the birthday party for Lejac Morris of DeLeon. Mr Norman Floyd came out and was with Mr Floyd Morris on Saturday. Mr and Mrs Elec Cooper of Rockwood visited with Mr and Mrs Darwin Lovelady last Saturday afternoon.

Mr Danny Wheatly was dinner guest of his grandmother Maye

McFarlin today (Monday).

Mrs Jamie Lee Morris took Janet Morris to Dallas on Friday to a dentist. Janet spent Friday night with Mr and Mrs Jamie Lee Morris. Mrs Floyd Morris and grand daughter Jennifer Morris were at DeLeon Saturday attending the Birthday Party of the Daughter of Mr and Mrs Jamie Lee Morris. Janet returned home with her grandmother Saturday afternoon.

Mrs May McFarlin and Mrs Birdie Miller ate out for lunch on Sunday and afterwards drove to Trickham and visited Mrs Lou Vaughan.

My son Hilary Rutherford of Coleman and son Loyd Rutherford were with me Saturday. Loyd had lunch with us and assisted with some work. We talked with my son Thomas Saturday and also daughter Lynda of La Grange and Patsy of Abilene before my bed time. All well. Loyd came over and had lunch with me Sunday.

Mrs Floyd Morris visited this Monday morning with Mrs Imogene Fitzpatrick at the Whom Post Office.

Mr Douglas Avant of Brady was with his mother Mrs Pearl Avant in Santa Anna Saturday.

Thanks to Mr and Mrs James Avant of Coleman for stopping for a short chat Saturday morning. They drove out to the Avant farm.

Mr Leon Carter visited with his sister Lorene Black in Brownwood Sunday.

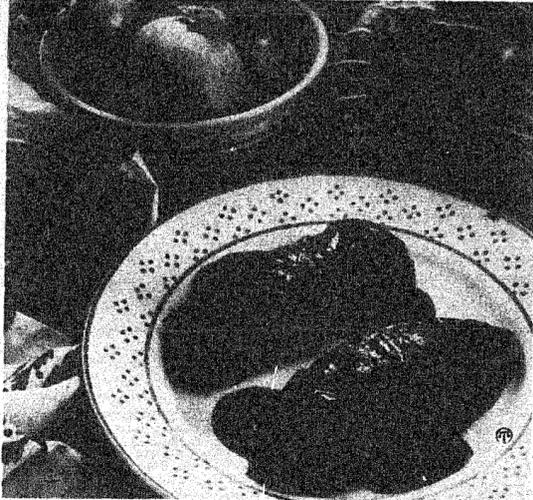

Mrs Lorene Wynn of Coleman and her son Herschel Wynn of Granbury visited with Mrs Pearl Avant in Santa Anna Tuesday afternoon. Herschel was with his mother a few days while on vacation during the past week.

I failed to get in touch with Mrs Amon Ots to get her news. But she told me first of week she was going to entertain the Gouldbusk Extension Club in he home the past Thursday afternoon. Mrs Ots is a member of the Club.

Thanks for your news. I could not carry on without your help. Plan to be with you this time next week.

Loyd Rutherford reports he talked with his daughter in Lubbock tonight. Was sure pretty cold there tonight (Monday) but no show there as predicted for Monday night.

Comfort Foods Comfort Us

America is witnessing an upsurge in traditional American recipes associated with the country's Heartland, the Midwest. Some call it comfort food, farm food, or just real food. Whatever the name, it is being gobbled up by a grateful public.

Join in the salute to America's Midwest with Cabbage Rolls, a blend of Italian sausage, ground turkey, rice, Campbell's zesty tomato soup/sauce and three Heartland vegetables: onion, spinach and cabbage. An easy, flavorful sauce made with Campbell's zesty tomato soup/sauce, water and vinegar tops off this main dish. Serve with salad, fresh bread and a glass of skim milk for a simply delicious meal—Midwestern-style.

CABBAGE ROLLS

- | | |
|--|--|
| 1/2 pound sweet Italian sausage, casing removed | 1 package (10 ounces) frozen chopped spinach, thawed and drained |
| 1/2 pound ground turkey | 1 cup cooked brown rice |
| 1 medium onion, chopped | 1 head cabbage |
| 1 can (11 ounces) Campbell's Condensed Zesty Tomato Soup/Sauce | 1/2 cup water |
| | 2 tablespoons vinegar |

1. In 10-inch skillet over medium heat, cook sausage and turkey with onion until meat is no longer pink, stirring to separate meat. Spoon off fat. Stir in 1/4 cup of the soup, spinach and rice; set aside.
2. In 4-quart saucepan in 6 cups boiling water, add whole head of cabbage. Cover; simmer 2 minutes or until leaves are softened. Carefully remove 8 outer leaves. Save remaining cabbage for another use.
3. Spoon 1/2 cup of the meat mixture into center of each cabbage leaf. Fold in sides, roll up from stem end to form a bundle. Place cabbage rolls seam-side down in same skillet.
4. In small bowl, combine remaining soup, water and vinegar. Pour over cabbage rolls. Cover; simmer 45 minutes or until cabbage is tender. Spoon sauce over rolls. Makes 4 servings.

AGRICULTURAL MILESTONES

ALTHOUGH BEEF CATTLE are not native to Texas, they have been here throughout most of our recorded history. There has been speculation that our earliest cattle came here on their own from a land grant South of the Rio Grande. In any case, we know that cattle were brought in with groups establishing the early missions. Nearly 300 years ago, in 1690, the founders of the early Spanish missions in East Texas may have brought cattle to Texas. A recorded introduction was made in 1716, in East Texas.

By 1731, a dozen missions had been established in East and South Texas with cattle raising listed as one of the leading industries. In this hostile land, cattle were a source of food for strongly constructed missions and the forts built to protect them against the native inhabitants.

The Texas cattle population in 1830 was estimated at about 100,000 head. There were 382,873 head of cattle assessed for taxes in 1846, the first year of statehood. And by 1860, cattle numbers had increased to 3,786,443 head, while the human population was only 604,215.

The tough, hardy Longhorns were able to thrive and multiply so rapidly because they could protect themselves and their young against most predators including bear, cougars, or wolves. Able to walk long distances to water, if need be, the Longhorn was also disease- and insect-resistant and could do well on very rough forage.

This wealth of cattle was the most saleable renewable resource Texas had, in the disastrous aftermath of the War Between the States. Even earlier, from about 1840, there was some trail driving of cattle out of Texas. But from 1866 to 1895, an estimated 10 million head of Longhorns, valued at \$200 million, were driven to rail and range markets in the North, Northwest, and West.

Today, beef cattle are still our leading agricultural commodity. Most years, returns from the beef cattle industry are about half of the Texas' total agricultural returns, which amounts to about \$10 billion per year.

Research goals include improved feeding practices and enhancement of nutritive value of forages and feeds, as well as basic research to learn how forage and feed are converted to muscle and fat, how each is deposited during the growth and development processes, and how they relate to consumer acceptance.

Pattern Your Turkey Gun

The amazing comeback of the wild turkey is one of modern wildlife management's brightest success stories. Only three or four decades ago, wild turkey populations were dwindling and the outlook was dim.

Today, there are huntable populations and seasons in 47 of the 50 states, and the national wild turkey population exceeds 3.8 million birds.

This means an ever-growing number of sportsmen now have the chance to hunt wild turkeys in areas where turkeys were scarce or non-existent not so long ago. Most hunts are spring season for gobblers only, this being best to protect the turkeys from over-harvest.

Spring gobbler hunting is not a wing-shooting sport. The shot is taken at a bird on the ground and preferably standing still. If that sounds un-sporting, consider that a mature gobbler might weigh 20 pounds or more and is remarkably tough to bring down. Body shots are not reliable and neither is shooting a flying turkey in "the all over." Wounding a turkey truly is un-sporting.

Shotguns are preferred, but for spring turkey hunting they are used like rifles. The hunter takes deliberate aim on the vulnerable head and neck of the gobbler. Multiple pellet hits to the brain and spine area are necessary for a clean, humane kill.

In deference to the turkey's large size, most hunters prefer a large gun. A 12-gauge, 3-inch magnum with a full choke is considered optimum. Some turkey hunters opt all the way up to the big 10-gauge. Whatever gun one selects, it should throw a lot of lead to the right place.

Since a turkey gun is used like a rifle, it should be "sighted in" like a rifle. That is, you should know where and how far it throws a turkey-taking pattern.

To verify your turkey gun's performance, you will need large sheets of paper, "turkey head" targets (available from several ammunition companies and call manufacturers) and a safe place to shoot.

Check your center of impact; not all guns shoot exactly where they "look." Shoot at a turkey head target or other aiming point on a large sheet of paper at about 30 yards. If your pattern is hitting right where you're aiming, well and good. If not, consult a competent gunsmith about correcting the situation.

Next, to determine pattern density, start placing the turkey head targets farther and farther away. From this you can ascertain how far away your gun delivers a pattern of adequate density to cleanly harvest a gobbler. You want several pellets in the head and neck every time. That single "golden BB" at 60 yards should not be relied upon when the chips are down.

Failing to properly pattern my gun almost cost me the first gobbler I called up. That lesson taught me that no matter how well you hide, call and do everything else, you must make your shot count to be successful.

"Coleman County Telephone Co-operative, Inc. has filed with the Federal Government a Compliance Assurance in which it assures the Rural Electrification Administration that it will comply fully with all requirements of Title VI of the Civil Rights Act of 1964 and the Rules and Regulations of the Department of Agriculture issued thereunder, to the end that no person in the United States shall on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination in the conduct of its program and the operation of its facilities. Under this Assurance, this organization is committed not to discriminate against any person on the ground of race, color or national origin in its policies and practices relating to applications for service or any other policies and practices relating to treatment of beneficiaries and participants including rates, conditions and extension of service, use of any of its facilities, attendance at and participation in any meetings of beneficiaries and participants or the exercise of any rights of such beneficiaries and participants in the conduct of the operations of this organization.

"Any person who believes himself, or any specific class of individuals, to be subjected by this organization to discrimination prohibited by Title VI of the Act and the Rules and Regulations issued thereunder may, by himself or a representative, file with the Secretary of Agriculture, Washington, D.C. 20250, or the Rural Electrification Administration, Washington, D.C. 20250 or this organization, or all, a written complaint. Such complaint must be filed not later than 90 days after the alleged discrimination, or by such later date to which the Secretary of Agriculture of the Rural Electrification Administration extends the time for filing. Identity of complainants will be kept confidential except to the extent necessary to carry out the purposes of the Rules and Regulations."

Adapting to Life With Arthritis

Some people tend to give up when they find out they have arthritis. They believe that there is nothing that can be done about the disease. But the evidence shows they are wrong.

It's true that arthritis is the most prevalent crippling disease in the United States. Ninety-seven percent of all people over age 60 have enough arthritis for it to be detected on x-rays, and at least one member of every three families in the U.S. today requires treatment for the disease.

But although arthritis isn't yet curable, it most definitely is treatable. And, adapting to life with arthritis need not be as difficult as you might think.

Because the forms of arthritis vary so, the physician will develop a comprehensive individual treatment plan. This generally includes exercise, rest and medication targeted specifically to alleviate specific arthritic symptoms.

Exercises help build muscle strength and increase the mobility of affected joints and limbs. The doctor will prescribe a regimen of full range of motion exercises to be done at home on one's own or, if necessary, with the help of a physical therapist. Over time, patients who keep to their prescribed programs of exercise will find physical movement much easier.

Rest is another vital component of arthritis treatment. Too much activity can result in inflammation and pain. On the other hand, too much rest can lead to stiffness and immobility. The doctor can help determine the proper balance.

Medications are a major part of arthritis treatment, aspirin being one of the most commonly prescribed for its effectiveness in reducing pain and inflammation. Aspirin belongs to a group of drugs called non-steroidal anti-inflammatory medications.

In learning to adjust to life with arthritis, it's important to become a full partner in your own medical care. If you have arthritis, learn as much as you can about the particular type you have. Arthritis is really a general term for over 100 different but related disorders, each re-

quiring a specific treatment.

Be open and honest with your physician. Keep your doctor informed of any other medications you may be taking. "Listen" to your pain. Carefully describe your symptoms and those activities that tend to cause symptoms to flare up.

If you find that arthritis is impeding your routine and keeping you from the tasks you're used to doing regularly—cooking, working, hobbies or sports—let your doctor or physical therapist or other health professional know about it. They may be able to provide you with strategies or mechanical devices to help you continue with your daily activities.

Sometimes people with arthritis report that family or friends change their attitude toward them. This in turn can affect the patient's own sense of self-esteem and well-being. Discussing specific needs or problems openly can help not only oneself but everyone concerned to adjust to life with arthritis.
