The south side clean-up will be Saturday, November 11. The clean-up is set for picking up trash that is too heavy or too large for regular collection and for yard brush, etc.

Raise the Flag For Veterans

Americans will be raising their flags on Saturday, Nov. 11, in recognition of Veterans Day, a day to honor all who served in U.S. wars.

Originally called Armistice Day, the holiday was first recognized in the United States, Great Britain and France on Nov. 11, 1918, to celebrate the ending of World War I. After the armistice, it became a day of remembrance for all war casualties from those countries. In 1945, the observance was expanded to include World War II casualties.

With the end of the Korean War in 1954, the day officially was proclaimed Veterans Day in the United States. However, from 1971 to 1977 it was observed on the fourth Monday in October. This date, which separated the holiday from the original anniversary of the armistice, proved unpopular. The official observance of Veterans Day was returned to Nov. 11 in 1978.

Traditionally, the day is filled with parades and tributes to servicemen and women. Also, a national commemorative service is held at Arlington National Cemetery, Arlington, Va. 11

Menard Here Friday For Last District Game Mountaineers Clinch No. 1 Playoff Berth

JUBILATION!! A dejected Longhorn looks the other way as the Mountaineers celebrate after Jackson scores the last TD of the game in last Friday's 19-0 shutout of Bronte. The Mountaineers claim the first outright district championship title since 1981. (News staff photo)

It's a long drive to Bronte from Santa Anna but the fans who made the trip last Friday night didn't mind at all. The enthusiastic crowd cheered their Mountaineers to a 19-0 victory and the first District Championship Santa Anna has held since 1981 when the Mountaineers defeated Goldthwaite in a zone playoff on a cold icy night in Brownwood Lions stadium. The Mountaineers were co-champions in 1985, but the 1981 team was the last clear-cut district championship for Santa Anna.

Santa Anna, now 4-0, will meet Menard here Friday night for the last district game of the season. Menard holds a 1-3 district record with their only win being over Rochelle, their first game of district play. However, Coach Doug Dallas warns that Menard can be a team to be reckoned with. They have lots of talent, some of whom have been on the injured list and should be ready to play in this game. They are big and aggressive. He says to watch for #19, who is an especially exciting runner. According to Dallas, if the Mountaineers can contain him, they can beat Menard.

Picked to end up fourth in the district before the season began, the Mountaineers have fooled everyone but themselves and their coaches who knew they had it in them to win district. Dallas commented that the working out on weights that he started when he came here is paying off. He says, "when you see the guys driving people five yards down

the field when they hit, they are feeling the results of pumping that iron, because we are not that big." He also adds, "I just can't say enough about my staff of coaches. We work well together and have confidence in the kids, and in turn they have confidence in us." And it shows, coach.

The victory over Bronte settled the issue in an impressive fashion as the Mountaineers shut out the Longhorns. The two teams entered Friday's showdown with identical district records of 3-0. The win clinched the first-place play-off berth for Santa Anna, which can lock up a clear cut championship by defeating Menard Friday.

Coach Dallas once again emphasized the importance of the fans in their victory over Bronte. He had hoped for a good turn out of fans and they would be vocal in their support. He got his wish when the Santa Anna fans outnumbered the Bronte fans. And the Santa Anna crown never let up in their cheering for the Mountaineers. And, Dallas says we need that again this week and then especially so through the playoffs.

Santa Anna will face Hico in the bi-district game to be played next Friday night. Time and place has not yet been confirmed, but Dallas is hoping for the site to be Eastland where he feels the Mountaineers can draw added support. Other possibilities are Early and Comanche.

Public Invited To Attend 4-H Club Will Host Speaker From Stacy Dam Project Tuesday

The Santa Anna 4-H Club will meet Tuesday, November 14 rather than on Monday which is the usual meeting day. The program will be held this time only at the Lions Club building on Wallis Ave.

Glen Lawhon has arranged for

Bob Laurensen, a project manager for Brown & Root, contractors at the Stacy Dam project, to speak to the group.

Mr. Laurensen will be a guest of the Lions Club for supper and the 4-H program will follow at 6:30

p.m. The Lions and the Chamber of Commerce will join the club for the program.

The public is invited and encouraged to attend the program and hear this informative presentation on Stacy Dam.

Johnny Joe Wright, at the left in the picture, and Bobby J. Beal spent Monday, and Tuesday of last week speaking to students in the Santa Anna School about the dangers of drug and alcohol abuse. The

students were very attentive during this session with junior high students. The two recovered addicts have been through the Dublin Recovery Center which sponsored their appearance here. (News staff photo)

Recovering Addict Says It Wasn't A Very Good Life

While it has been said that a person's experiences make them what and who they are, Bobby Beal says he would never wish any of his experiences on anyone else. Beal is a recovering drug and alcohol abuser.

He and Johnny Joe Wright, both of the Dublin Recovery Center, were at the local schools last week to speak about drug and alcohol abuse.

Although his drug and alcohol problems did not start then, Beal

says the accident which left him crippled from the waste down at the age of 20 was the beginning of a turn for the worse.

During a trip to California in 1980, a friend who "was doing dope" fell asleep at the wheel of the vehicle they were travelling in and ran into the rear of a parked car. Beal was thrown out as the vehicle turned over several times. He received a broken neck and that injury resulted in his being paralyzed from the waist down. He spent the first year and a half

after the accident regaining his motor skills and getting out of the wheel chair and onto his feet again.

However, he was given a sizeable insurance settlement, and according to Beal, that wasn't a good thing for him at the time as he spent most of it on drugs and alcohol.

In the months to come drugs began to make more and more problems in personal relationships and as the problems mounted, Beal turned even more to drugs, to the point of selling to support his

habit. He is quick to say, he at least is proud of the fact, he never sold to anyone but adults. "I never sold to kids," he says.

"It wasn't a very good life. I lived from month to month on my insurance checks, never gaining anything," Beal said. "It was low class, very low class. My family didn't want me and I didn't care about anything."

Although he had been arrested as many as seven times in the past few years, he says he owes his

gratitude to the police departments and the Texas Department of Public Safety for saving his life more than once.

After receiving treatment in six different centers, he ended up at the Dublin Recovery Center on July 16 of this year and feels he is on his road to recovery this time. And he is telling others "If I can have a daily reprieve from my addiction, through the help of my higher

Thoughts From Our Pastors

Jasper McClellan

GOOD NEWS AND BAD NEWS

The Bible tells us clearly that it is a fearful thing to fall into the hands of the living God. Heb. 10:31. What does it mean to be a FEARFUL THING? Checking various translations I find these other words used instead of fearful things: a terrifying thing; a dreadful thing; a formidable thing; or a terrible thing. It does not take long to realize that this is bad news, but of course, there is good news as well.

The good news is that mankind does not have to FALL into the hands of the living God. Because of the Good News of redemption in Jesus Christ, man can have a meaningful personal relationship with a loving God. For those who continue to reject the saving grace of Jesus, then the fearful, dreadful, terrible, and terrifying thing awaits them as they will someday FALL into the hands of the living God.

The Bible uses many figures of speech and frequently uses anthropomorphisms. An anthropomorphism is the attribution of human characteristics to non human beings, which in this case, is God. God does not literally have hands, but He does keep us either in His care or in His righteous judgement. Being in His care is definitely a privilege and good news, while facing His judgement is a terrible thing, or dreadfully bad news.

Recently, during a Bible study session, the relationship between two extremes was brought into focus by a dear person who willingly shared a quote she heard from a friend. The best I remember, it went something like this, "Yes, it is a fearful thing to FALL into the hands of the living God, because God already HOLDS US IN HIS HANDS." That, my friend, is GOOD NEWS, and the Bible assures us of its reality for it says, "Fear nothing, for I am with you, be not dismayed, for I am your God; I will strengthen you, I will uphold you with My victorious right hand." (Isa. 41:10).

Dear Editor

I would like to personally take this opportunity to thank each and everyone for their support and many kind words that were expressed to me with regard to my new assignment as SOCIAL CHAIRPERSON for the 1989 Homecoming and I hope any of you that missed this special event will not do so next year.

For the ones of you that volunteered to help in the future, your assistance will be greatly appreciated and you will be contacted...although not all of you at the same time...but a few each year. If you did not receive a questionnaire or failed to fill one out or if you have further comment you would like to express, my mailing address is Mary Ford Fields, 819 Praetorian Bldg., Dallas, TX 75201. Phone 214-741-4511. I am particularly anxious to add names to my list of volunteers. We do appreciate all the work the local alumni have done all these many years to make our homecomings so eventful but we must remember this is not 100% their responsibility as has been in the past, but all of our responsibility.

For those of you who did not attend the hospitality room, we had

an excellent attendance with lots of visiting and snacking. The golf tournament was a huge success with about 12 or more participating and they have requested this be made an annual event on each Friday of future Homecomings. There were 10 different classes that held reunions and the open house for all the alumni who graduated before 1940 had an excellent attendance. The PTO served chili and beef stew before the game on Friday and the Booster Club served hamburgers and fries on Saturday night. The Band mothers club was responsible for the delicious lunch of spaghetti and chicken, etc. after the business meeting on Saturday. We appreciated all their efforts for making it possible for us to have a place to eat and visit and it also gave each organization an opportunity to make money for their different school projects.

I would also like to thank the Santa Anna News for all the publicity they gave the homecoming.

Check It Out

by Alice Anna Spillman
Some of us have told local farmers we are going to start charging them when we have a book sale. Seems both times we had a sale, it brought real good rains. Maybe that will make readers of some folks!

One hundred eighteen dollars was raised for the library building fund through the last sale. We still have books and magazines available.

Several folks brought in books and magazines for us to sell. Mrs. Bob Pearce and Dick, Mrs. Ruth Dean Maynor, Mrs. Helen Haynes, Mrs. Howard Norris, M.L. Guthrie, and Mrs. Gail Horner.

Usually I don't mention Library Board members and their work, but this time we couldn't have set up without David and Betty Key and Jim Spillman. David Guthrie provided the pickup to move tables and helped with the set up and removed everything afterward. The Key's daughter and family, Linda and Gary Miller, Alisha, Jeremy and Michelle of Snyder, helped with the clean-up. Mrs. Pearce, Dick, and Dale Cole of Brownwood came to buy books, but helped set up because they arrived early. Mrs. Joann Allen worked all day at the sale.

Others who helped during the sale were Mrs. Eula McCary, Mrs. Cathy Ellis, Mrs. Mary Lela Clifford, Mr. & Mrs. Joe C. Barnes, Mrs. Earlene Scott, Mrs. Gale Brock, and Mrs. Grace Short.

Gifts were given by Mrs. Dorothy Dillingham, Mrs. Ruth Maynor, and Lewis Miles Guthrie. Almost everyone rounded out the price of their purchases and we are most grateful to all. If we failed to recognize anyone, please remind us. It takes all of us working together to raise enough money to move our library.

Oh! One couple who made three trips to make purchases were Mr. and Mrs. James Claiborne. Now, that's good customers!

There are new paperbacks in the library this week. Our friend Carol Herring has once again shown her generosity.

Last week I presented some questions posed on tests offered by the Immigration and Naturalization Service for those seeking permanent residence in the United States, through the current amnesty program. News For And About Santa Anna Mountaineers

Gold Fever-Catch It!

Mountaineers Clinch Playoffs Continued

In talking with a couple of the Mountaineers about last week's game and their upcoming game with Menard, here is what they had to say.

Scotty Anderson, senior G/LB—"We were real pleased about our win over Bronte. We were feeling pretty confident and things just started going our way. They tried to stop our outside run but were not able to. Our defense is getting better each game. We have really just now meshed as a team. Menard is going to be tougher than people might think. They are a real solid team. They scored 21 points on Eden and we only scored 12 against them. That tells us something about how tough they can be."

Ken Brixey, senior G/NG—"We had a great game against Bronte...real good hitting...aggressive. We just played better than they did. In fact, we played they way we should have been playing. Menard is going to play us a real good game. We better not think too big! We need to keep our heads screwed on tight and get ready for Menard before we start thinking about the playoffs."

Last Friday's win was same song—second fourth verse for the Mountaineers as they punished the Longhorns with a rock-ribbed defense and a powerful ground game. Santa Anna rushed for 279 yards

while limiting Bronte to 55 on the ground and 71 in the air.

The Mountaineers scored single touchdowns in the first, third and fourth periods of play.

Tough running by Byron Dowdy accounted for the first TD as he punched the ball to paydirt after helping to move it to the one-yard line scrimmage point. That turned out to be the only cushion the stubborn Mountaineer defense needed to control the game.

However, Santa Anna increased the lead in the third period with a drive covering 82 yards in 11 plays. Herbert Jackson raced in from the five yard line to bring the score to 12-0.

Johnny Betts set up the final blow to the Longhorns when he intercepted a pass in the fourth quarter. Brady Rice moved the ball on a 39-yard lightning fast run and Herbert Jackson scored on a five-yard pass from Betts. Michael Betts added the final insult as he kicked the extra point to bring the final tally to 19 points for the Mountaineers.

Jackson led all rushers with 101 yard on 20 carries. Byron Dowdy carried the ball 14 times for 60 yards and Brady Rice raced for 63 yards all toll on 5 carries. Johnny Betts added 46 yards with 10 attempts and Michael Betts 11 for 3 runs.

Scotty Anderson again led the Santa Anna defense with 10 tackles while Alonzo Hernandez was close behind with 9.

Largest Number Yet Registers For 1989 Homecoming Business Meeting

According to Association officials, the largest group in many years, if not the largest ever, registered when the Santa Anna Ex-Student Association met October 28 for their annual business meeting. Whon News

By Mrs. Tom Rutherford

Mrs Wimpy Watson of Brownwood called me this last week and told me of the death of their daughter-in-law, Mrs Hilton (Reba) Sherrod of Austin. Mrs Sherrod's memorial service was in Austin, burial was there also. She has been in failing health for several years. Her immediate family was her husband, 3 sons, 2 grandchildren and 2 daughters-in-law. Our deepest sympathy to the bereaved family.

My grandson Todd Rutherford had lunch with me Sunday. His dad, Loyd Rutherford, called me Sunday night that Todd shot a nice buck Sunday afternoon.

Mr and Mrs Darwin Lovelady visited with their son, Mr and Mrs Randel Lovelady and girls in Brownwood Monday morning. The Randel Lovelady family moved to a new location in Brownwood Monday.

Mr and Mrs Floyd Morris and grand daughter Janet Morris drove to Stephenville with the little grand daughter that spent last week with them. They met Lejae's parents, Mr and Mrs Jamie Lee Morris of Arlington. Lejae returned home with her parents. They all ate lunch together before departing to their homes.

Mr Leon Carter visited his sister Lorene Black in Brownwood on Sunday.

Mr Neil Fitzpatrick of Odessa was with his parents, Mr and Mrs Graham Fitzpatrick over the weekend, returning home Sunday afternoon.

Janet Morris attended Homecoming at Cisco Junior College on Saturday.

My son, Mr Hilary Rutherford of Coleman was with me on Monday. We checked cattle and he also did some plowing. He was also with me Saturday.

Mrs May McFarlin reports she is slowly improving at her home in Santa Anna. Visiting with her Sunday afternoon was Birdie Miller and Letha Martin. Mrs McFarlin has been sick for some time now.

We all wish her a soon complete recovery.

Billy Lovelady visited her Aunt Myrtle Robertson, at Ranger Park

Inn on Thursday. Mr Douglas Avant of Brady was on the Avant farm Saturday afternoon and later visited his mother, Mrs Pearl Avant in Santa Anna and enjoyed supper with her.

Billy Lovelady and Juanita Minica attended graveside serviced for Mr Truett Davis in Santa Anna Cemetery Thursday afternoon. Mr Davis was the brother of Mrs Fay Gill of Coleman. Mr and Mrs Truett and Arthel Davis and 2 sons were members of our community and the boys attended school at Whon in years past. Also in long years past, Mr Davis wife attended school at Whon, (I was in school here also at that time.) She is a cousin of Mrs Darwin Lovelady and also has other cousins in Santa Anna. Our deepest sympathy to the bereaved in their loss of Mr Truett Davis.

Although I wasn't here, My daughter Mr and Mrs Bob and Patsy Smith of Abilene came down Friday and did some nice work for me. "Thanks"

Mr Jeffery Morris was with his grand parents, Mr and Mrs Floyd Morris during the week end.

I can not contact Mrs Amon Ous tonight. She told me Friday that she, her son Yancy and her father, Mr Leon Griffin, were going to Fort Worth Sunday and bring her mother, Mrs Billy Griffin, home following being with her mother who was ill and in the hospital. She is reported to be home and doing well at this time.

TIME-SAVING TIPS

Here are some hurry-up hints for homemakers:

• To quickly remove the core from a head of lettuce, hit the core end once against the countertop sharply. The core will then twist out. This method prevents unsightly brown spots which result when you cut into the core end.

• When browning any piece of meat, the job will be done more quickly and effectively if the meat is perfectly dry and the fat is very hot.

• Club soda will shine up stainless steel in a jiffy. Spots on stainless steel can be removed quickly with white vinegar.

• To quickly remove rust from tin pie pans, dip a raw potato in cleaning powder and scour.

DR. GENE NICHOLS

THICK TOENAIL (ONYCHOGRYPHOSIS)

Thickening and/or discoloration of a toenail is not a normal condition or development, and it will not go away by itself. Though the cause may be either a fungus infection or an injury, it will require treatment.

While most often not painful, it is an extremely unattractive condition which should not be ignored. The toenail can turn from a dirty yellow to a brown color, with occasional blackened areas. There is usually a white or yellow crust that flakes off the toenail, and under or around the nail a cheesy substance with a strong odor may be present.

Your podiatrist may suggest long-term medication therapy or permanent removal of the toe-

nail. This is a simple procedure done under local anesthetic with almost no discomfort or disability. Chances are you will walk out of the office just as you walked in, and will have a full-functioning foot within a very short time.

"Remember, Your Feet Don't Have To Hurt"

This year Wendell Sparkman and Eddie Lou Coulter planned the dinner and took care of the arrangements. The group had a nice catered dinner in the CLC building of the First Baptist Church.

After dinner and a time of visiting, those who were going to the football game, left while others moved to the home of Mary Lela Clifford for more visiting.

Those class members present were, Bernie Vinson Davis, Gene Watkins, Wendell Sparkman, Garrett Slaughter, Odis Fowler, and Mary Lela Clifford. Welcomed guests were Hester Watkins and Glenda Williamson O'Dwyer. Eddie Lou Coulter, Emma Straighter, Janie Fowler, and Rev. John Stanislaw.

Make your plans now for the 60th anniversary!

Ranger Park Inn By Phyllis Bradley

A big thank you to Janice Reece, Annie Mae Brimer, Pat McFadden, Peggy Johnson, Della Wristen, Billie Guthrie for all their help while I was in the hospital.

Monday we had exercise with Janice Reece. Pat McFadden led the Bible study. Playing "42" with residents were Peggy Johnson and Lucille Wylie.

Tuesday Janice Reece called Bingo and she and Della Wristen helped with exercises. Pat McFadden led the Bible study. In the afternoon, a Halloween party was held. Peggy Johnson and staff served the residents. The staff costume judging revealed that most original went to Teddy Ballard; scariest, Lorie Williford; ugliest, Angie Brooks. The Melody Makers entertained the party goers.

Wednesday, Mae Brimer called Bingo, led exercise and played the piano while Northside Baptist Church sponsored the devotion. Present from the church were Brother and Mrs. McFadden, Robert and Magie Robinett Fannie Gilbert and Minnie Perkins. Ceramics were an afternoon activity.

Wednesday evening Annie Brimer was honored with a dinner at the Golden Corral in Brownwood. She was given an album made by Ray Tucker, burgundy velvet with ecru lace. Present for the dinner were the honoree, David Tucker, Sydney and Melinda Tucker, Mathew and Lila Tucker, Billie Wheatly, Teddy Ballard, Jeanice Reece, Vicki and Joe Green, Johnnie Van Pelt and Phyllis Bradley.

Famous Bear Really Existed

Q. Was there really a bear named Smokey? Just Wondering - Ennie, Tex.

The famous fire-fighting bear was much more than a cartoon character. He was discovered in Lincoln National Forest in New Mexico in 1950.

"Smokey had been orphaned and badly burned in a forest fire," said Dave Richtman, senior bear handler at the International Wildlife Park in Grand Prairie, Tex.

"Veterinarians were able to save his life, and he lived in a zoo until his death in 1976."

Q. How long can a beaver hold its breath under water?

A. According to our sources, beavers can stay underwater on one breath for up to 15 minutes.

"Their dams can be as long as a football field and up to 12 feet high," said Ray Sutton, wildlife manager of the International Wildlife Park in Grand Prairie, Tex.

If you have a question about wildlife you would like to see answered in this space, write to GNUS YOU CAN USE, 601 Wildlife Parkway, Grand Prairie, Tex. 75050.

Plans For Coleman Detention Center Well Underway

Members of the Coleman City Council reached an agreement last week with L.V. Ruffin and associates to build a detention center in Coleman. Three legal instruments were signed, all subject to cover letter which was prepared following the meeting.

The cover letter pointed out that a number of specifics needed to be ironed out and will follow shortly in a continuation of sessions between attorneys and the Council.

Ruffin is president of a new corporation, Contract Inmate Services, Inc., and expects to have financing

shortly through the WRI Group.

At the meeting last week, there was no discussion of a site, but indications are that more than the originally discussed 25 acres are desired, as the contractors plan to build more than one unit in Coleman. The was indication that construction could get underway within the next few months.

The unit will be built for maximum security although medium security inmates are expected to be housed there. The first unit will be a 568 inmate facility.

Your Gallbladder: An Efficient Organ Until Gallstones Cause Trouble

Tucked deep within the abdomen just under the liver is a small, sac-like organ, the size of a small pear, called the gallbladder. It is an organ most of us don't pay much attention to unless gallstones form. Symptoms of gallstones range from slight indigestion to nausea, vomiting, and severe abdominal pain. More than 25 million Americans have gallstones. In addition, over one million more are diagnosed each year, a figure that is expected to increase as the population ages.

The function of the gallbladder is to concentrate and store bile, which is produced in the liver and used to digest fats. One of the smaller organs in the human body, the gallbladder is an efficient workhorse, regulating the delivery of bile into the small intestine as needed to digest foods.

People can function with gallstones for many years; it is only when the stones enlarge or migrate and block one of the ducts connecting the gallbladder to surrounding organs that incapacitating pain may develop. In these cases, the traditional treatment has been surgery to remove the gallbladder.

That operation is called a cholecystectomy and it requires removal of the entire gallbladder. Over 500,000 cholecystectomies are performed each year, making this procedure the second most frequently performed operation in the U.S.

However, for some patients, surgery may not relieve the symptoms of gas, pain, bloating or nausea.

Increasingly, Americans are becoming more aware of treatment options that may enable them to

avoid surgery. Many people can now be treated with an oral medication called Actigall™ (ursodiol) and, in this way, often avoid the emergency stage of gallstone disease that requires removal of the gallbladder.

Actigall dissolves small-to-medium sized cholesterol-based gallstones, the most common type of gallstone, and generally requires six to 24 months of treatment.

The drug is well tolerated, with only rare cases of mild, transient diarrhea reported.

It is extremely important that anyone who may be experiencing persistent abdominal pain see a physician. Early detection of gallstones helps patients keep their gallbladder and avoid an unpleasant and potentially life-threatening operation as well as a lengthy recuperation.

power (whom I call God) and a 12-step program, you can do it too." "I am a walking miracle—twice," he says. "I got on my feet again after the accident and then again as I began my rehabilitation from drugs. I don't take any of the credit, I owe my sobriety today to God."

Johnny Wright, 27, has spent the majority of his life looking for "some place to fit in." That search began after a natural gas explosion left his body scarred at the age of eight and has led him through a 19-year battle with drugs, alcohol and crime.

He won the battle, but he is still fighting the war today.

Wright says he knows his addiction problems began when he was exposed to alcohol at an early age. His parents were both bartenders who occasionally allowed him to sample a drink.

But it was the accident which which left him badly burned that caused him to seek out the people whose influence would eventually land him in jail. After being in the hospital for almost a year after the explosion, his appearance made him feel insecure around other people when back in society. Especially around girls. Because he felt like a

social outcast, he began to look for a place "to fit in". He found the only people who would accept him were those involved in the drug

culture.

He went from being arrested repeatedly for public intoxication to a purse snatching incident at the age of 17 that sent him before the judge and a resulting one year's probation.

On his 18th birthday, he received a large insurance settlement from the explosion accident and then drugs certainly became a way of life as he eventually ended up buying and selling. He finally was given an option of 10 years in the Texas Department of Corrections or entering a rehabilitation program. After spending two years on the program, he was back on the streets with his "old friends" once more. He was arrested again, and this time was given no alternative. He served 18 months of a ten year sentence, and was released on good behavior. He again returned to the same environment and habits.

After being in and out of prison another time or two and being in another treatment center that "didn't really help," he finally ended up at Dublin Recovery Center where he feels good about his chances for complete rehabilitation. After being there a number of months he is now a member of the staff.

He too, says the introduction of a "higher power" into his life has been the turning point in his recovery and his feeling good about himself.

Daniel Boone: Legend, Hero

November 2 marks the birthday of one of America's legendary frontiersmen and explorers, Daniel Boone.

Born in 1734, in Berks County, Pa., Boone emerged as a national frontiersman after he and 28 others blazed a trail through the Cumberland Gap from western Virginia to the interior of Kentucky in 1775. Named the Wilderness Road, it eventually became the first major thoroughfare to the West.

Boone was a courageous man and an adventurous leader. He survived many ambushes during his travels, but was captured by the Shawnee in 1778. He spent five months as the adopted son of Chief Blackfish before he escaped.

Other Boone expeditions included surveying the Ohio River and trapping in the Louisiana territory.

Diet Pills Sweeping U.S.

Doctors Invent 'Lazy Way' to Lose Weight

U.S. Gov't Approves Patent Claims for New Diet Pill

BEVERLY HILLS, CA (Special)—An amazing new weight loss pill called "fat-magnet" has recently been developed and perfected by two prominent doctors at a world famous hospital in Los Angeles that reportedly "guarantees" you steady fat loss and calorie reduction by simply taking their tested and proven new pill.

The U.S. government has just approved the doctors claims for a hard-to-get patent that confirms "there has never been anything like their fat-bonding pill process before." It is a totally new major scientific breakthrough and is revolutionizing the weight loss industry.

You Can "Eat Normally" Best of all, "you can continue to eat your favorite foods and you don't have to change your normal eating habits. You can start losing fat and reduce calories from the very first day, until you achieve the ideal weight you desire without exercising."

Flashes Fat Out of Body The new pill is appropriately called the "fat-magnet" pill because it breaks into thousands of particles, each acting like a tiny magnet, "attracting" and trapping many times its size in undigested fat particles. Then, all the trapped fat and calories are naturally "flushed" right out of your body because they cannot be absorbed.

Within 2 days you should notice a change in the color of your stool, caused by the fat particles being eliminated.

"Automatically" Lose Fat According to one of the inventors, Dr. William Shell, heart specialist and associate professor of medicine at UCLA medical school, "the new fat-bonding process is a "lazy way" to lose weight because the pills alone "automatically" reduce calories by eliminating dietary fat. It is 100% safe and not a drug."

The fat-magnet pills are already sweeping the country with glowing reports of weight loss from formerly overweight people in all walks of life who are now slimmer, trimmer and more attractive again.

Now Available to the Public

If you are trying to lose 20, 50, 100 pounds or more, you can order your supply of these "no-risk" highly successful fat-magnet pills directly from the doctors' exclusive manufacturer only (includes optional calorie-reduction plan for even better results).
