# Thoughts From Our Pastors John Howze

Full Gospel Fellowship Pentecostal Church Of God

JUSTIFIED OR CONDEMMED BY OUR WORDS

Justification is remission of sin, (or cleansing from sin), and absolution from guilt or punishment. Condemnation is the state of being convicted: pat 25 years. She was a homemaker the act of condemning; the judicial act of declaring one guilty, and sentencing him to punishment.

The words that come out of your mouth, come from the heart, for God's word declares, "from the abundance of the heart the mouth speaks."

In Matthew 12:36,37, Jesus said, "but I say unto you, that every idle word that man shall speak they shall give account thereof in the day of judgement. For by thy words thou shall be justified and by thy word thou shall be condemned." Man's heart must be changed, not just his mind. Our minds are often changed for different reasons, but our hearts can only be changed by God. Old things must pass away and all things become new. This is the born again experience, or the washing and regeneration and renewing of the Holy Ghost.

Titus 2:8 speaks of sound speech that cannot be condemned. "If we walk after the flesh we will die, but if we walk after the spirit we will

James 5:12 leads us into sound speech, "but let your yea be yea, and your nay be nay, lest ye fall in condemnation."

James 1:26 declares, "If any man among you seems to be religious and brideth (controls) not his tongue, but deceiveth his own heart, that man's religion is in vain." We deceive ourselves if we don't control our tongue through the power of God.

Proverbs 10:19, "In the multitude of words there wanteth not sin, but he that refraineth his lips is wise." Ecclesiastes 12:14, "a fool also is full of words". There is an old saying, it is better to be thought a fool than to open the mouth and remove all doubt.

Proverbs 25:11 - Here is wisdom, " a word filthy spoken is like apples of Gold in pictures of Silver."

It is easy for us to be idle and become busy bodies in the affairs of others, but to pray for them is another thing. Oh that we could learn to speak only those things which are good. We get into so much trouble by opening our mouth to speak wrong things.

I Peter 3:10 gives us a solution, "For he that will love life and see good days, let him refrain his tongue from evil, and his lips that they speak no guile, (bitterness).

#### Library Notes Check It Out

by Alice Anna Spillman

Have you noticed the flowers in front of the future library building? Two very special people have provided and nurtured the those flowers. Charlotte Moseley and Dorothy Dillingham are responsible.

Mrs. Dillingham kept the rose alive that the Chamber of Commerce had provided several years ago. She carried water from the bank every few days. Mr. and Mrs. Luther May planted all the roses in the boxes.

Charlotte has been watering some of the other boxes to - all summer. Consider the labor involved. Most downtown businesses have no water supply except restrooms. So water must be transported from elsewhere in covered containers and sometimes even loaded in and out of cars. I have not seen it, but I am told Charlotte devised a hose contraption. Still - she has spent 2-4 hours week attending to the flowers after most people have gone home for the day.

Do you remember that last summer the Pathfinders Club provided and maintained marigolds in the planter box in front of the library building? I wonder who worked on the other boxes in the downtown area? And don't you want to know who put the boxes there in the first place?

The planter boxes give our downtown area a special quality. People who pass through believe that we are a town where someone

Last Year at this time we wrote of the splendid sportsmanship displayed by the Mighty Mountaineer Band at the football game in Menard as they saluted the Yellowjacket Band for having advanced to the regional marching competition while they themselves received a 1st Division rating at district competition, although not given the opportunity to advance. Those who were in attendance that night were never prouder of the band than at that moment.

Then we come to this past Friday night when the Menard Band followed their football team to Santa Anna. Once again the Mountaineer Band had received a 1st division in the UIL District contest and the Yellowjacket band had advanced to regional where they placed third in competition.

The two bands took the field together at Friday's halftime and gave the crowd of spectators something to remember when 100+ strong they played several rousing numbers. They then each marched to their respective sides of the field to perform their school alma maters for their fans.

The fans as well as the band members will long remember the comradeship between the two groups as they displayed their admiration for each other and their accomplishments.

Just another reason to be proud of Tom Stroud and his crowd!

And how about those Mountaineers! Picked in pre-season to finish no more than fourth in district, they now hold the District 15-A crown. Coach Doug Dallas and his staff, Montie Jones, Kirk Chastain and Dean Bass, had told us all season that if "we can get the Mountaineers to believing in themselves, they will shake up the district."

After a rough non-district schedule and several injuries that finally had time to heal, the Mountaineers took on Miles in the first district game and proved then and there they were for real as district contenders. The rest is history as they now face Hico Friday night for the Bi-District title and taking with them a 5-0 district record. The Mountaineer defense has allowed 14 points to be scored against them in district play and the offense has racked up 84 points against the opponents.

Osiel was in Austin with his Mertzon High-School band who ended up with a third place in the state marching contest Monday. He suffered an aneurysm while helping his band set up for their performance. He was rushed to the hospital where he died later in the day. His band members, thinking he may have received an electrical shock while setting up some of the equipment, went ahead with their performance

and did themselves proud. Osiel Hernandez will be remembered here as the band director who took the Mountaineer to state marching competition where they, too, were awarded third in the state of Texas for Class A-bands.

However, he will also be remembered as a fine person, who taught his students some important lessons of life along with instilling in them musicianship and a sense of pride.

The crocodile is one of nature's high powered predators. The reptile's cavernous mouth and powerful jaws leave little to chance. But despite being well endowed with teeth, crocodiles can't chew. International Wildlife magazine reports their long, sharp teeth serve mainly as survival weapons and clamps. A crocodile can eat only what it can swallow whole.

Rockwood Methodist Church

# Farewell, Little Church

By Gladys Hunter

As we come to say "Farewell" to our beloved little Rockwood Methodist Church, we think of the courage of all the Young men and women who heard the call "Go West, young man," and so many stopped under the Oak trees along Camp Creek, with their families and their family Bibles, in the 1880's.

After several exciting years, the name of Rockwood was accepted and the little community grew further West, still north of Cap Creek. A cemetery was marked off further West, going to the road out of Rockwood which is present parking space for the cemetery.

The Rockwood Methodist Church was probably organized around 1888. The Baptist Church was built on the east side of the cemetery, the Methodist on the west side, facing each other. The Methodist congregation bought three acres of land, Coleman County School land, block 11, of survey no 90, about where the McCarrell home still stands. Paying \$7.00, it was deeded

1901 to the trustees of the Methodist Church South, Northwest Conference, Rockwood, for worship services. Trustees were M.L. McFarland, J.P. Richardson and M.S. Ussery.

A small plank building was built and slowly seats were provided. A Sunday school was soon organized and had very good attendance for some twenty odd years.

AS the community grew, it spread across to the south side of Camp Creek. We have notation of Mrs. Vise giving a deed to lot 1, block 9, of Lankford addition, for the Methodist Church, deeded August 3, 1921. John and Gladys Hunter and Fannie Bryan joined the Methodist Church at this building in 1928. Mrs. Vise was the first member recorded in the Methodist Church of Rockwood, in 1893.

After another twenty some years of wonderful service to the community, the little church was again moved, or razed, and taken to the south part of town on Main Street. There it was rebuilt and rocked and was formally dedicated in Part of the Rockwood Methodist

Church will live on in Santa Anna. Members of the church presented a cherished picture of "Christ in the Garden" to hang in the sanctuary of the Methodist Church in Santa Anna. The picture had hung for many years behind the pulpit area of the little Rockwood church, being placed there by Mrs. Fannie Bryan and Mrs. Euless (Bulah) Maness in memory of their children, Mary Tom Bryan who died in 1943 at the age of 23, and James Earl Maness who died in 1941 at the age of 21.

We are indebted to Goldie McCarrel Milberger for cherishing the old historical deed and other history she has lived.

May, 1940, during the pastorate of Rev. Luther Nelson.

Later Rockwood joined the Santa Anna Parish and had a wonderful 50 years of service with that connection until the church closed with the last service in June of 1989. After 100 years of wonderfully serving our Lord, with changing times and the economy of the world, we prayerfully closed the

#### Two From Coleman Aressted In Drug Raids

Coleman—Two Coleman men are facing drug charges following arrests on Tuesday of last week.

Two raids made simultaneously in the county netted a pair of drugrelated arrests, said Coleman County Sheriff Wade Turner.

Thirty-eight-year-old Donny Merryman of Coleman was arrested at one location and charged with possession of amphetamines and misdemeanor possession of marijuana. At a second site, Patsy Karen Slayton, 38, of Coleman was arrested and charged with possession of methamphetamines with intent to deliver.

The sheriff said "sizable quantities" of what appeared to be methamphetamines were discovered during the raids. Bond was set at \$20,000 for the

amphetamine charge and \$1,000 for the marijuana-related charge. Slayton's bond was set at \$25,000. Turner said Merryman made bond

Thursday morning. Slayton remained in the Coleman County jail at the end of the week.

The drug busts were conducted by members of the Coleman County Sheriff's Department, Coleman Police, Department of Public Safety and members of the West Texas Interlocal Crime Task Force. Turner said the raids were the result of an "extensive investigation."

#### ars Lynn Loyd and Patrick Kleman. JV Closes Season With Win Over Menard

The Santa Anna Junior Varsity Mountaineers closed out the season in Menard last Thursday night. The Mountaineers lost a statistical battle to the yellow jackets, but won where it counts-on the score board, 13-12.

After an early score by Menard, Armando Mata went 70 yards for a TD and Vicente Frausto put Santa Anna up to stay with an extra point kick bringing the score to 7-6.

In the 3rd quarter of play, Vicente Frausto raced 69 yards to score another TD and a pass from Frausto to Simmons was no good, making the score 13 for the JV Mountaineers and 6 for Menard.

Menard scored again but missed the extra point try and the Mountaineers hung on to win.

The Mountaineer JV rushers were: Armando Mata (9-92, one TD). Vicente Frausto (10-83, one TD), Chris Simmons (6-9), Chris Bryce (6-13).

The Mountaineer defense was led

The new pill is appropriately called the "fat-magnet" pill because it breaks

into thousands of particles, each acting

like a tiny magnet, "attracting" and trapping many times its size in undi-

gested fat particles. Then, all the trapped

Within 2 days you should notice a change in the color of your stool, caused by the fat particles being eliminated. "Automatically" Lose Fat

cannot be absorbed.

According to one of the inventors, Dr. William Shell, heart specialist and associate professor of medicine at UCLA medical school, "the new fatbonding process is a "lazy way" to lose weight because the pills alone "automatically" reduce calories by eliminating dietary fat. It is 100% safe and not a drug."

The fat-magnet pills are already sweeping the country with glowing reports of weight loss from formerly overweight people in all walks of life who are now slimmer, trimmer and more attractive again.

Now Available to the Public

If you are trying to lose 20, 50, 100 pounds or more, you can order your supply of these "no-risk" highly successful fat-magnet pills directly from the doctors' exclusive manufacturer only (includes optional calorie-reduction plan for even better results). Send \$20 for a 90 pill supply (+\$3 handling), or \$35 for a 180 pill supply (+\$3 handling), to: Fat-Magnet, 9016 Wilshire Blvd., Dept. W869, Beverly Hills, CA 90211. ## Time For Those Flu Shots

HOUSTON-November, 1989 -- Inluenza season is on the way and the flu strain considered most likely to appear this year is one that frequently brings a higher mortality rate, according to researchers at the national Influenza Research Center of Baylor College of Medicine in Houston.

Particularly susceptible to possible complications from this A-Shanghai strain of flu are older people, reports Dr. W. Paul Glezen of the Flu Center.

There is good news, however, because this year's flu vaccine covers A-Shanghai, as well as A-Taiwan, considered the second most likely strain to make an appearance

will be much influenza B this year, in large part because it has appeared the past two years, lessening the chance of an immediate recurrence.

But, he cautions that a new strain of influenza called B-Yamagata has appeared in Asia and could make its way to the United States: however. it too, is covered by this year's

#### Arbor Foundation Offers Free Guide For Pruning Trees

During winter dormancy is a popular time to prune trees, and a free booklet is available from the National Arbor Day Foundation to show you how.

The illustrated, easy-to-follow guide called "How To Prune Young Shade Trees" has been prepared for homeowners.

The How to Prune guide includes step-by-step illustrations showing how proper pruning in the early years of a tree's life can save money in the long run and result in safer, more beautiful, healthy, easy-tomaintain trees.

The booklet is filled with illustrations showing you how to make a pruning cut....how to prune for desired form....how to strengthen your tree by removing certain branches....how to maintain the tree's health by removing trouble spots...when to leave temporary low-er branches, when to cut them.

The booklet even shows how to hold a pair of pruning shears and how to make pruning cuts at the proper angle.

You'll learn how to shape and guide a shade tree when it's young so that it's tall, straight, strong, and healthy when it's old.

The design of the booklet makes it easy to browse through to pick up
