"He Profits Most Who Serves Best"

SINGLE COPY 25 CENTS

THURSDAY, SEPTEMBER 6, 1990

These flags are placed here to show support for our U.S. Armed Forces

Santa Anna received 1/2 inch of much needed rain on Saturday afternoon and another 1/2 inch on Sunday afternoon for a weekend total of one inch. The Saturday rainfall was accompanied by some high winds that broke a few tree limbs around town and did some considerable damage in Coleman and outlying areas. Area fields and yards were certainly needing the moisture and we were also grateful for the relief from the heat of the past couple of

#### Days Of Marathon

The week of September 2-9 marks the anniversary of the first marathon, which dates back to 490 B.C. According to Greek history, on Sept. 2, Phidippides was sent from Marathon to Sparta, a distance of 26 miles, to get aid for the Athenians against the invasion

of the Persian army. Because religious law prohibited the Spartans from giving aid until after the next full moon, he was forced to return to Marathon on Sept. 4. Five days later, the Athenians

defeated the Persians at the Battle of Marathon, without help from the Spartans, and Phidippides ran to Athens with the good news. Legend has it that the hero died as he spoke these words, "rejoice, we are victorious."

In 1896, the marathon was revived at the Olympic Games in Athens to Comemorate Phidippides' heroism. Since 1924, the standard length has been 26 miles and 385 yards, a

close distance to the "marathan" that Phidippides ran more than 2,000 years ago.

The oldest marathon in the United States is the Boston Marathon, which has been run every year since 1897.

#### Well Said

Children who know all the answers live with parents who don't know the right answers.

# Thanks To People Who Care, Angela Has New Outlook On Life

Most of the time when you or I are watching a television commercial, we are really not at all interested in what we are seeing. We turn our minds off for the time being, or, considering some we see now-a-days, are thinking how inappropriate we believe them to be. But that winter evening when Brenda Barker saw the commercial for Texas Shriners asking to be informed of children needing the services of Scottish Rite Hospital For Crippled Children, she began to listen intently. She knew someone who certainly needed their help. In fact, that someone was Jim and Brenda Barker's 2 1/2 month old daughter.

Angela was born with what the doctors diagnosed as a "true club foot", the most severe type of that particular affliction, and Brenda suddenly felt her prayers may have been answered for the otherwise healthy, bubbly baby girl when she saw the commercial

She later mentioned what she had heard to Don and Wanda Bible who became interested in trying to find help for the wide

eyed little tyke. They started the ball rolling by contacting some Shriner friends who sent an application for Brenda to fill out. Wendell Rice became a part of the cause when he was asked to help with some paper work, being a local Mason who could verify that Angela was indeed a candidate for needed medical treatment.

In the matter of only two weeks, Angela and her mother visited the offices of Dr. Johnson at the Scottish Rite Hospital in Dallas where Angela received her first medical evaluation of her problem. After several more trips back and forth to Dallas, an operation was performed on July 17 to lengthen the ligaments in the side of the little foot and in the lower calf of the leg. and a pin was placed in her foot.

Angela was a patient in the hospital for about a week before coming back to Santa Anna for recuperation. Her leg and foot were in a splint for about two weeks and then was put into a cast for further healing. On Tuesday of last week Angela was

returned to Dallas for removal of the pin and the cast you see in this picture. A smaller, straight cast was put on which will make for better mobility for the now 8 month-old. However, she was doing quite nicely, thank you, even in the more confining cast; crawling around on the floor and pulling up to tables as I carried on a conversation with her mother. She even attempted to walk, so will probably be able to do so in no time at all with the straight cast. Angela will be wearing the second cast about 10 weeks and then will be fitted with a special shoe which will have a brace attached. In fact, she will be back in Dallas on September 25 to be fitted for her very first pair of matching shoes. How long she will wear the shoe brace, Brenda doesn't know, but says, "However long it takes will be just fine as long as she will be able to walk normally." And she is assured that will be the case, When all is said and done, Angela's foot will be only a little

See Shriners' Baby, page 8.

shorter than the other, according

SHE'S NOW A "SHRINERS' BABY"

## Mountaineers Will Host Cross Plains In Season Opener

Junior Varisty Will Play Stephenville Thursday

The SAHS Mountaineers with new head coach Mike Permenter at the helm, will face off against the Cross Plains Buffaloes Friday night at Mountaineer Field for the 1990 season opener. Game time is 8:00 p.m. Cost of admission is \$3 for adults and \$2 for students.

New head coach Mike Permenter built a playoff team at Cross Plains a couple of years ago and then moved to Crosbyton for a year's stay before returning to Central Texas as coach at Santa Anna.

He believes Santa Anna has a more established program to build with after logging a 7-5 record in 1989 and winning District 15-A championship with a 5-0. They also won a playoff game before being felled 13-0 by Rotan in the second round.

The Mountaineers will be operating in District 11-A this season and seem to be intent on another trip to the playoffs. Seven offensive and eight defensive starters return, including all-district picks Herbert Jackson, Byron Dowdy, Scott wide receiver Grady McIver are also Valdez, and Wesley Baugh. The of-returning lettermen. Sophomores fense also looks good to Permenter, although, he says the lack of depth, as is most often the case in Class A, could be a problem. "We are blessed with four fine running backs and a sound offensive line," says Permenter, "and we will be

fine if everyone stays healthý." Offensive players expected to make a difference for the Mountaineers are Jackson, a 5-10, 180pounds with 4.4 speed in the 40; Brady Rice (165) and Dowdy (200)

who all return to the backfield. Baugh (195), Valdez (200) and Charlie Morris (250) are veterans in the offensive line.

Defensively, Baugh and Morris are the only returning starters on the line. But veteran linebackers returning for the Mountaineers include Rice, Valdez, Dowdy and Phillip Hernandez. In the secondary Permenter has veterans Jackson and Charles Dixon.

Lineman Tommy Williford and

who are expected to greatly contribute to the team are Rusty Fleeman (6-1, 190) and Charles Betts (5-9, 175).

The rest of the Mountaineer schedule includes games with Rising Star, Robert Lee, Baird, Gorman, Eden, Water Valley, Irion County, Menard and Miles. Eden with 20 lettermen and 13 starters from last year's team, is expected to give the Mountaineers the greatest challenge for the playoff berths.

The Junior Varsity is scheduled to go against the Stephenville freshmen Thursday evening at 6:00. That game will also be at Mountaineer Field. Since the coaches were not sure early on that there would be enough to play a junior varsity schedule, that is still being worked out and we will have to try to inform you week by week who and where they will be playing.

The Junior High schedule is not yet complete and we will also let you know later on that.

#### -Local News Briefs-

#### Cheerleaders To Sponsor Reserve Seat Sales; General Admission Price Set

The SAHS Cheerleaders are in charge of reserve seats sales this football season. Those who held reserve seats last year will have first choice on the same seats again this year. You may contact cheerleader sponsor Shiela Ogden at the high school during her conference period, from 10:20 a.m. to 11.10, room 108 or call 348-3136 to reserve your seating location at the football stadium. Reserve seats are \$2.50 each for the season. This does not include the price of admission which is paid at the gate for each game.

There will be no reserve seat sales at the football games. Admission price to the Mountaineer Varsity games will be \$3 for adults and \$2 for students. Junior Varsity and Junior High game admission will be \$2 for adults and \$1 for students.

#### Class Of 1955 Plans Homecoming Reunion For 35th Graduation Anniversary

The SAHS Class of '55 is planning a series of exciting events on the weekend of the 12-13th of October in celebration of the 35th anniversary of their graduation. The first of these events will be after the Friday night football game at the home of Lois (Shields) Harper

(first house north of the high school, west side of the street). The evening meal and get-together Saturday at the home of Jasper and Jean McClellan will begin at 5:00 p.m. til..... The McLellan home is located at 1302 Ave. A and will be known by most graduates as the former Ford Barnes home.

Organizers of the get-togethers are in need of addresses and phone numbers of any or all members of the Class of 1955. Please respond to Box 864, Santa Anna, TX 76878.

#### Deadline Extended For Returning Soccer Registration Forms

Late word is that those who have not returned their Coleman County Soccer Association registration forms, have until Friday, Sept. 7, to return them to the proper persons. The deadline was originally Tuesday of this week but has been extended to Friday.

#### We Salute Our Volunteer Fire Dept

The following is another in a series of articles saluting members of the Santa Anna Volunteer Fire Department and the Ladies Auxiliary. Both perform a valuable service to our community and we take this opportunity to salute them for a job well done.

Donald Strickland has been a faithful member of the Santa Anna Volunteer Fire Department for 21 years and is presently Fire Chief of the Dept. He has earned

badges for 5 years service, 10 year, 15 years, 20 years and a 20year plaque.

He says he chose to become a fireman because that was a way to be of service to the community. He has made time to

DONALD & JANETTE **STRICKLAND** 

be of such service to Santa Anna while also being employed with 3M Company in Brownwood for the past 23 years.

Rather than stating a most memorable incident while serving with the Dept., he says his "most memorable experience has been working with such a fine group of firemen, past and present, and being elected to the office of Chief for the past 17 years."

Donald's wife, Janette, has been a member of the Ladies Auxiliary of the SAVFD for about 17 years and says her main purpose for joining was to be of

support to the firemen. She is employed as HCR carrier for the United States Postal Service.

## County Fair Plans Told

The Coleman Chamber of Commerce has announced some of the booths and events you will be able to find and enjoy at the annual Coleman County Fair Saturday, October 6.

Plans are being made for food booths, arts & crafts, all kinds of exhibits, and flea market. Fun events will include horseshoe pitching, back seat driver contest, diaper derby, bubble gum blow-off, lollipop lick-off, ugliest face contest, stick horse rodeo, horse

apple drop, weight lifting contest and hog calling contest.

There will be continuous music throughout the day provided by a variety of musical groups from the surrounding area. A car show will

be of interest to car buffs. A parade will begin at 10:00 a.m. The Coleman Chamber of Commerce is currently seeking parade entries. Theme of the parade will be "Texas Heritage." In the parade, the people of Coleman

# Our Pastors

Thoughts From

John Stanislaw First Baptist Church

> CAN A PERSON EVER BE LOST? PART 2

I am amazed at the folks who teach that salvation is something that is earned. That it is something that is rewarded for doing good works. That salvation depends on human effort of the flesh. While the Scriptures teach that salvation is given to us as a gift when we accept Christ as our Lord and Savior. (Romans 6:23) It is a gift, not a reward or wages paid for doing something. Good works come as a result of being saved. We bear good works because we are Christians. We are not Christians because we have good works. An apple tree is not an apple tree because it bears apples; it bears apples because it is an apple tree.

Friend, it is not the scriptures, nor doing good works, or observing the Lord's Supper, or even anything in ourselves that keeps us saved. It is God's power as Father, Son, and Holy Spirit that keeps us from falling. Read 1 Peter 1:4-5, which says it is God's power that keeps us from losing our inheritance. Then read 2 Corinthians 1:21-22; 5:5; Ephesians 1:13-14; and Ephesians 4:30. These verses teach that when we get saved we receive the Holy Spirit who is the guarantee of our inheritance of heaven. He is the down payment, the earnest. And God doesn't go back on His promises. Then we find the icing on the cake in John 10:28. Jesus says that we are kept by his hand and he will never let go. And that no one, not even us are able to take us out of his hand. Whose hand are you going to trust, His or yours?

The New Testament is written in the Greek language in which there are several tenses. The Aorist tense means action that is taken once and for all at a certain point in time. For you and me it is when we accept Christ at a certain point in time. A couple of verses written in the Aorist tense is Acts 16:31 and Ephesians 2:8-10. It is being saved at a certain point in time and go on being saved forever. That brings us to the truth that the believer has everlasting life already. It is a present profession of the believer. And you can't cease something that is everlasting. Read John 3:36; John 5:24 and John 6:47.

There is the positional approach, which means our position is IN CHRIST. We are in union with Him. Read Romans 8:1; Ephesians 1:3-6; and Jude 1. A doctor may not be a good doctor, but positionally he is still a doctor. You may bot be a good Christian in practice but that doesn't affect your position. We are born into God's family and can't be born out of it. Read John 1:12 and Galatians 3:26. Salvation by works is the doctrine of men. Religion says we earn salvation by our fleshly efforts. Christianity is not a religion and its way is of grace.

It amazes me how the religious crowd always quotes the verses that seemingly teach that a person can lose their salvation. See John 15:6; 2 Peter 20-22; Hebrews 6:4-6; 10:26-29; Matthew 12:43-45; Revelation 22:19; Matthew 24:13; Phillipians 2:12 and 1 Cor. 9:27. Now see John 1:12-13; 3:16-18, 36; 5:24; 6:47; 10:28-29; Acts 16:31; Romans 3:20, 28; Romans 4; 10:9, 10,13; 1 John 5:12-13, and there are many more. If you will research the Bible for the verses for salvation by grace and by works, the grace verses will outnumber the

Friends, we must weigh all the Scripture in the Bible, not just a few. Why don't we ever see any of the other scripture quoted? Aren't they inspired by God too? Now 2 Peter 2 is talking about a saved person. Notice the escape was through the knowledge of Christ. It does not say that these trusted Jesus. It is a person who has learned about Christ and how to be saved, and has perhaps even been influenced by the lives of Christians, but then rejects the truth and returns to his sin. It does not indicate that they ever walked in the truth. God never calls his people dogs or hogs, they are symbols of the unsaved. His people are called sheep. My salvation does not depend upon my goodness but upon the righteousness of Christ and His faithful promises. And what better security can we have?

When you watch the Miss student at Eastern New Mexico America Pageant Saturday night at University. Eric and Dorothy 8:00 on NBC, be sure to keep your eye on Miss New Mexico, Jana McCoy. Jana, whose talent is singing, is the great-niece of Dorothy Lomax. Jana attended high school at San Saba where her -parents are still teaching. Jana is a Mae Blue, have recently returned

main dish for this week's gettogether. Others attending will furnish the "trimmings". Everyone is invited to be there about noon and join in the fellowship and enjoy a good meal together.

Lomax recently attended a reception in her honor and you can bet come Saturday night they will be seated in front of that television.

Library Notes Chock It Out

By Alice Anna Spillman

Santa Anna schools began last week, son most adults are considering ways to encourage children. I encourage all parents to read articles in the September issues of The Readers Digest and Family Circle mágazines.

Family Circle called in experts in the educational field for a conference. There are 19 pages of their suggestions. A list of 50 Ways to Help Your Children Learn sounds like the recipe for a successful happy childhood. The list starts with "Read to your child!" #11 "Review your children's text books. #14 "Make a chart of your child's week so you'll know what to expect." #19 "Limit Tv watching". #33 "Visit school and get to know your children's teachers". #34 "Find out what your child will be learning during the year." #44 "Vote for your local board members". All of the other ideas are just as important as these. At the end of this article is a list of booklets that you can order free or at a small cost.

Give Your Child An Edge by Edwin Kiester Jr. and Sally V. Kiester may surprise you. Turn to page 103 in the September issue of Readers Digest.

"Studies have shown that carefully assigned and graded home work has a greater influence on your child's academic success than any other factor, including family income, socioeconomic status of family educational background." Two thirds of U.S. high school students study less than an hour a night. A California study found that 8th graders who did 2 hours of home work scored 84 points higher than those who did none.

Parents role in homework is critical. Start in Kindergarten even if the child has no assignments. Set aside 10 to 20 minutes for reading or discussing the days

"Homework can be the great equalizer." A child can catch up with or pass contemporaries simply by studying at home!

#### Off To College

Rose Garza, daughter of Mr. and Mrs. Ike Garza, has returned for her second year at Howard Payne University where she is a music education major and will be performing this year with the Yellowjacket Band.

#### Nitia Daniell Circle Meets

The Nitia Daniell Circle met in the annex of First United Methodist Church August 27th. Coyita Bowker opened the meeting with a prayer for giving.

During the business meeting the group voted to support the fund for "The Gathering" to be held in the fall, and the aftergame fellowship to be hosted by the youth group. Minutes were read and the treasurer gave her report.

Earlene Scott was program leader with the program topic "Caregiving: A Ministry of Wholeness." The group sang, "Savior, Like a Shepherd Lead Us." cemetery in which many of her Using the story from the Bible of Mary, Martha and Lazarus, the importance of caregiving in all its aspects was presented to the group. Laura Carpenter and Hettie Scarbrough assisted with the

> Punch and a dessert plate were served by Hettie Scarbrough and Laura Carpenter to the fourteen members present.

Much has been said and written

teens face in today's world and what

came across my desk last week that

especially parents trying to cope

with those problems in the lives of

maybe parents will be the least

startled by the facts, as many of

them have already been faced with

some of the items listed. The

figures represent incidents occurring

each day across our nation as

printed in a report put out by the

Children's Defense Fund and titled

"Children 1990". Some of the

report reads as follows....One Day

In the Lives Of American Children:

17,051 women get pregnant.

2,795 of them are teenagers.

272 teenagers miscarry.

1,295 teenagers give birth.

2,556 children are born out of

689 babies are born to women

who have inadequate prenatal care.

birthweight (less than 5 pounds, 8

129 babies are born at very low

birthweight (less than 3 pounds, 5

67 babies die before one month

105 babies die before their first

30 children are wounded by guns.

135.000 children bring a gun to

27 children die from guns.

6 teenagers commit suicide.

7,742 teens become sexually

623 teenagers get syphilis or

437 children are arrested for

1,512 teenagers drop out of

1,849 children are abused or

3,288 children run away from

1,629 children are in adult jails.

2,989 see their parents divorced.

# Stenholm Funday Sat. At Ericksdahl

Local friends of Congressman about problems that children and Charles Stenholm have the picnic grounds ready at Ericksdahl for the 12th annual FUNDAY, Saturday, can be done to help them cope. "Far September 8, 1990, beginning at 4:30 be it from me" to pretend that I p.m. Charlie and Cindy Stenholm know the answers. Some statistics look forward to returning each year to this community which has been would startle most anyone and home for three generations of Stenholms. You are invited to join friends from far and wide for an their youngsters. And then again, old-fashioned political picnic.

Each year, colleagues of Charlie are invited from Washington. This year guests will be Sonny Montgomery of Mississippi, Billy Tauzin of Louisiana, Jim Slattery of Kansas, Tim Valentine of North Carolina and Texas Congressman Pete Geren of Ft. Worth,

Montgomery has represented the third district of Mississippi since 1966. He is chairman of the Veterans' Affairs Committee. He is a veteran of World War II and Korea. He was largely responsible for passage of the G.I. Education Bill in

Pete Geren, a life-long resident of Fort Worth, fills the seat formerly held by Jim Wright. A Georgia Tech

## Dear Editor

The Santa Anna News, along with the help of a Santa Anna resident, Gwendolyn Walker, has opened doors that have enriched the lives of two California residents.

Gwendolyn, who was in the Santa Anna graduating class of 1937-38 with Dorothy Tillery, has kept up with her classmate through the years and when she read some of the articles I. Verna Blair Hamon LaMadrid, have submitted to the paper she took the time to write to me and send Dorothy's address and phone number.

Dorothy and I were very close in early years as Clebert Willis was Dorothy's half brother and Blanche Willis is my sister.

After more than fifty years the two of us have had a lot of catching up to do, reminiscing about our childhood days and laughing over the many times we tried to outwit our active young nephew, Eugene Willis. Gene was the owner of a baseball and bat and the only way we girls could use it was to allow

Eugene to do all the batting. After graduation from Santa Afina High School, Dorothy married Troy Hawkins in 1940. Mr. Hawkins passed away several years ago. Dorothy has one son, Troy Gene, who lives in Tucson. She has two grandchildren and one great-

Besides recalling the happenings of long ago, we two former Coleman County residents find we share other interests. Both enjoy reading, especially history, going to the theatre, and joining in a game of "Texas 42".

# Grandparents To Be Honored Sunday

most Americans, they are living symbols of cultural traditions, family history and moral values passed along through the centuries. But, they're more than just symbols. Recent social changes are bringing today's grandparents back into the mainstream of life as workers,. providers, child-rearers, and political leaders.

National Grandparents Day, which will be celebrated September 9, gives Americans a chance to honor their grandparents for all of their contributions, both traditional and current.

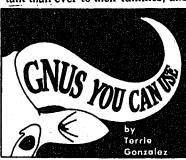

National Grandparents Day has been an official national day of commemoration since 1978, but it hasn't yet achieved the public recognition of Mothers or Fathers Days. According to Texas Department on Aging spokesman, Allen Baca, that is beginning to change.

"A special day for grandparents is an idea that appeals to nearly everyone," Baca said. "We began promoting the holiday heavily when we first heard about it five years ago, and the response to a special day for grandparents just like crazy.

"I've noticed that a lot of greeting card sections in variety stores and supermarkets are featuring special Grandparents Day sections, which is really gratifying to us."

Baca said the recognition is overdue for older men and women whose contributions to society continue long after retirement and their children's establishment of their own families.

"Grandparents are more important than ever to their families, and

#### **Baby Koalas Hide 6 Months Inside** Protective Pocket

After a gestation period of just 35 days, baby koalas measure barely 3/4 of an inch at birth.

"Koalas are marsupials and the

Grandparents have always been to society. Many of them are taking valued for sentimental reasons. For care of grandchildren for their working children. A significant number of grandparents end up with custody of grandchildren after their

children's marriages dissolve." The role of seniors in the economy and workforce has also changed in recent years, Baca said.

"It takes an increasing amount of family income to maintain a decent standard of living these days, so a lot of grandparents are rejoining or · staying in the work force after they turn 65. They do it to supplement their own income, or to help support their adult children, or sometimes

The truth is, most grandparents are far from the burden on their families they're sometimes thought to be. Their contributions are important - and often essential - to their families' economic survival."

Most people, though, would probably say their grandparents' greatest contributions are gifts of themselves like good advice, love, emotional support, and a sense of family

"We're urging everyone with living grandparents to take time to get in touch with them, and to let them know they're appreciated," Baca said. "This can be done individually, or by groups such as schools, civic groups, local governments, nursing homes, or senior centers. We've found that intergenerational activities - those that give young people and seniors a chance to be together have been especially successful.

'It's very easy for the elderly to feel forgotten or taken for granted. National Grandparents Day is a perfect time to show them that we remember, and that we care."

#### **Booster Of** The Week

During the era of the Texas Republic, land promoters advertised it was cheaper to raise a cow in Texas young quickly hide inside their than a chicken. It was . . . because of mothers' protective pouches," said the hardy characteristics of the Texas Ray Sutton, wildlife manager of the Longhorn. She needed no government International Wildlife Park in trapper to guard her calf from wolves. Grand Prairie, Tex. "By six months In times of drought, she could walk of age, they are approximately seven many miles from water to grass. If inches long and ready to take their there was no grass, she could eat brush first real peek at the world around and prickly pear. The Texas Longhorn became the foundation of the Baby koalas stay very close to American cattle industry and there their mothers and can be observed may never be another animal which hitching rides atop their backs. By has had a greater influence on the one year of age, they are usually culture and economy of a people.

## Coleman Hospital Affliates With West Texas Medical Associates Four Specialities To Be Offered

COLEMAN-The Board of the town becomes devastated econ-Directors of Overall-Morris omically and may not recover. In-Mmorial Hospital has approved an affiliation with West Texas Medical Associates of San Angelo, nearby. The CEO added, "Essenaccording to Glen D. Bunn, Chief tially this makes keeping our hospi-Executive Officer.

West Texas Medical Associates is a group of over 40 specialists and has physicians in virtually every specialty. The first four specialties to be offered at the hospital will be gastroenterology, cardiology, general and vascular surgery and urology. Other specialties will be added in the future.

, Dr. Mike Edington, Board Chairman, said, "We are attempting to keep our patients at home instead of going out of town. With these specialists we will be able to increase the number of procedures done in the hospital". He added, "We are very fortunate to have excellent family practitioners and the specialties added will compliment our efforts."

Dr. Edington said that both the hospital and Dr. Pope have a physician recruitment program underway for more full-time physicians in Coleman

Bunn said that the bottom line is that if a small town hospital closes,

end of my relationship with Raoul.

had given me a "do."

those years!

someone new.

Hair Today, Gone Tomorrow

If you are a male, read no further. At the risk of sounding like a female

chauvinist, I doubt you could comprehend the agonies described herein.

I had my hair cut today. Always an occasion for stress, today's session

was excruciating because I went to a new stylist. It marked the official

Raoul (not his real name) and I had been together for 10 years. At first

the relationship was pleasant and satisfying. But over the years it

The crowning blow was the day my hair turned green right after Raoul

At first I thought the greenish cast I saw in the mirror was my

others began to notice.

remarked the butcher.

"Your hair is green," my mother

"Your hair is green," noted my

"Your hair looks a little greenish,"

Theories abounded—from overperming

to chlorine—but the exact cause was never

determined. Whatever the cause, it took

I didn't exactly blame Raoul for my new

over a year's worth of cuts to resolve.

imagination, the result of a bad night out with my bridge club. But then

observed.

dried-up lawn look. Rather, it was his nonchalance about my hair, so

My requests for advice were greeted by mumbo jumbo, something

about high-quality color rinses he used versus over-the-counter stuff. I

suspected he wanted me to spend hundreds of dollars to correct a

problem for which he was not entirely blameless. Betrayed after all

It wasn't until today, sitting in the chair of a stranger, that I began to

have second thoughts. My new cutter, Camille, was highly recom-

I thought about all that Raoul and I had been through. The births of

my children. His divorce. All the idle chatter that occupied 40-minute

sessions every few months. The thought of starting up a new relation-

And, despite the fact that I liked my new "do," I was nearly overcome with guilt as I left the shop: I had not even told Raoul that I had found

Susan Baker is a writer who lives in Kentucky with her husband and daughters.

But I stop feeling guilty every time I see the color green. Id

mended, but I worried about the speed with which she was snipping.

faithfully placed in his care, that caused my distress.

So it was that I made the painful decision to leave him.

It wasn't just my new haircut that had me worried.

ship with Camille was a little disconcerting. .

deteriorated, marked by bangs that were too short, perms that frizzed.

dustry is not willing to take the liability of not having a hospital tal open an economic issue for the whole county rather than just an issue of being able to provide good medical care."

Spokesman for the West Texas Medical Associates, Dr. Pat Gibson, said that his group is excited about serving the Coleman area. He said OMMH is fortunate to have a Board, Medical Staff and Administration that works together and that

together have a common goal. Bruce R. Heare, M.D., is a gastroenterologist. He specializes in the problems of the gastrointestinal tract, such as stomach problems, bowel problems, gallbladder problems, etc. He will be able to do endoscopic procedures of the stomach and colon at OMMH. He will also bring the capability of removing retained gallbladder stones after cholecystectomy.

Doctor Heare is a graduate of Lamar University and completed his internship and residencies at Scott and White and the University of Texas at Galveston.

Stephen Korte, M.D., is a cardiologist and has had extensive training in cardiac catheterization and all problems of the heart. He has done over 500 coronary angioplasties and numerous angioplasties and peripheral blood vessels.

Doctor Korte will be able to do treadmills in Overall-Morris and offer many services which are not currently available in Coleman.

Doctor Korte is a graduate of the University of Kansas and completed his internship at Scott and White with residencies at Scott and White and Brooke Army Medical Center.

Donald Cook, M.D., urologist, specializes in problems with the urinary tract including kidney, ureter and bladder. At Overall-Morris he will be able to do cystscopies and other diagnostic procedures.

He has extensive training in urologic tumor surgery and is able to do many procedures not currently in our region including continent urinary diversions. Many patients have ileal loops where their ureters are connected to the bowel after having extensive surgery for bladder tumors. Doctor Cook also has an interest in pediatric urology.

Doctor Cook is a graduate of the University of Southern California where he also completed his internship and residency.

Patrick E. Gibson, M.D., a Baylor University graduate is a general and vascular surgeon. His subspecialty training is in blood vessel reconstruction. In San Angelo he is going to be doing laparoscopic cholecystectomies or band-aid gallbladder surgery. Doctor Gibson said that Coleman

is fortunate to have Dr. J. P. Jones because he is well trained in general surgery and most towns less, than 6,000 population do not have a general surgeon. He also said that Coleman is fortunate in having Dr. Donald Pope and Dr. Morris Mann.

Doctor Gibson completed his medical education at Southwestern Medical School in Dallas, his internship at Parkland. His residencies were completed at Parkland and Baylor Medical Center Vascular

The administrator said that the days and times the specialists will be available will be announced in the near future.

You get a 1/4 pound 100% beef patty, served with fresh lettuce. tomatoes, pickles, and onions.

Taking it Easy: No, this is not some far away campground, in fact, the picture was taken at Santa Anna's own Lake Sealy. With the recent clean-up and repair of some of the picnic facilities, the area has become a favorite spot for family and group outings. Of course, there are no RV hook-ups, but if you take your own water and can make it without electricity, it makes for a nice overnight camping area also. Fishing at Lake Sealy and Lake Santana has been reported to be fair to very good of late.

Other weathermen take a more down-home approach:

"My air conditioner frequently

#### Having Trouble Beating The Heat? Weathermen Give Tips For Cooling Off Thermometers in our area have breaks down during the summer, important for everyone to take extra been recording temperatures in the and I don't like sitting in my hot steps to avoid being beaten by the

upper 90's and even in the triple house waiting for the repairman to heat. digits in the last couple of weeks and persons in this part of Texas are trying to find ways of beating the heat. We are often warned about the dangers of heat and have been told many times how to avoid heat stroke. The inch of rain that fell in Santa Anna over the weekend did wonders for our spirits but we are told the return of hot weather is

once more upon us. Did you ever wonder what meteorologists - experts at understanding and predicting weather patterns — do to beat the heat? The makers of Gatorade surveyed meteorologists from select areas throughout the country to find out how they keep their cool.

All stressed the importance of drinking fluids before, during and after physical activity in hot weather to prevent dehydration. However, each had their own secret method to beat the summer heat: Cool Advice

When it gets really hot, Roger Evans, meteorologist at KGAN-TV in Cedar Rapids, IA, coasts down a hill on his bike to create a cool breeze. "It's almost like creating your own wind chill factor," he

Evans also works longer hours at the air conditioned television station to keep cool.

When Greg Soulje, meteorologist at the Central Weather Service in Wheeling, IL, must relay unbearably hot weather reports to broadcast weather forecasters, he is often told to go "jump in a lake" . . . which he actually does to beat the

fix it," said Gifford Ely, meteorologist at the National Weather Service office in Fort Worth, TX.

"So I wet an old T-shirt in ice water, put it on and sit on the back porch. It's like taking a dip in the lake," Ely explained.

Ed Phillips, meteorologist at KPNX-TV in Phoenix AZ, finds relief in wearing a minimal amount of light weight clothing and sitting by the pool.

Jumping in a pool or sitting by an air conditioner are effective ways to beat the heat, but they can't beat dehydration - a danger associated with excessive sweat loss. Medical experts stress the importance of replacing body fluids lost through sweat, the body's main cooling mechanism.

"You can never drink too many fluids in hot weather," says Robert Anzinger, M.D., president of the American College of Emergency Physicians. "Thirst isn't a reliable indicator of dehydration, so it's best to drink before, during and after any physical activity."

Optimally-formulated sports drinks, such as Gatorade, speed fluid absorption in the body, provide energy for use by working muscles, help maintain proper fluid electrolyte balance and encourage voluntary consumption through lightly-flavored taste.

Meteorologists, the first to know of dangerous weather temperatures, are aware of the importance of keeping cool during the hot summer months. Heat illness, including heat cramps, heat exhaustion and heat stroke, can occur as a result of dehydration and elevated body temperature from increased physical activity during hot, humid days. It is

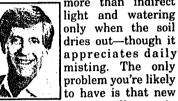

QUESTIONS ANSWERED

Philodendron: A Plant To Love

Q. What plant do you recommend for the beginning home gardener?

A. Try the philodendron. It's one of the most dependable plants. In fact, it's my favorite. It needs little more than indirect

growth will come in Rapp growth will come in smaller and smaller. To correct this, feed your philodendron with a qual-

Philodendrons come in hundreds of varieties that look like totally different kinds of plants.

ity fertilizer such as Miracle-Gro at least once a month during spring and summer. More sunlight can

A northern exposure is fine for my variety of philodendron and its avorite temperature range is between 50 and 70 degrees.

An African Violet, given enough food and light is likely to reward you with beautiful blooms all year

The best location for an African Violet is either a sunny windowsill with a western or southern exposure or under artificial light for at least 12 hours a day. Keep the soil moist, watering from below and mist it with tepid water. It does best in rooms kept between 65 and 85 degrees.

· Joel Rapp, best-selling author, gardening editor of Redbook, and radio show host, is among America's best known gardening experts.

#### Whon News By Mrs. Tom Rutherford

Mr. Graham Fitzpatrick reports he and Mrs. Fitzpatrick had a wonderful surprise on Sunday when his stepbrother, Mr. Sam Wright of Brady and son Lexic of San Angelo and son Norris of Grand Prairie came and had a nice visit.

Mr. and Mrs. Darwin Lovelady visited with their son, Mr. and Mrs. Randall Lovelady and girls in Brownwood during the week.

Mrs. Janie Morris was transacting business in Brownwood one day last week. Enroute she stopped in Bangs and visited with Mrs. Margie Watts for a time. Then to Brownwood, called at her niece's home, Barbara Morgan, and visited with her daughter Loraine since her mother was not at home. Also on to Brownwood and met up with a dear friend, Zelma James and enjoyed a time of visiting together.

I have not been able to contact Mr, and Mrs. Amon Otts, at this une. On Tuesday afternoon I drove down and visited for a time with their new son who is very precious and small. Not unusually small for a new baby. They were doing well and he is a pretty little baby boy.

Mrs. Pearl Avant's granddaughter Miss Jacky Lynn Avant of Midland surprised her by stopping by briefly on Friday, enroute to Brady to visit her parents. Mr. and Mrs. Douglas Avant. She will return to Midland Monday afternoon.

Mrs. Darwin Lovelady was to the Veteran's Hospital on Wednesday for an appointment checkup and reported all seemed to be doing

Mr. Floyd Morris visited with

Community Sunday afternoon,

A nice surprise came my way Sunday when my grandson Barry Smith of San Angelo and friend Windy Dunning also of San Angelo came by for a brief time with me. Barry is a member of the "Rebel Heart" musical band of San Angelo who were playing at Early Saturday

Betty Bearden of Brownwood visited in Santa Anna on Wednesday with Mrs. Darwin Lovelady and Mrs. Lovelady's sister

Mr. Jamie Lee Morris of Arlington was with his parents, Mr. and Mrs. Floyd Morris from Friday to Sunday. A friend accompanied him here to visit.

Mr. Tommy Stansberry visited with Mr. Graham Fitzpatrick on

Mr. and Mrs. Don Fitzpatrick of Abilene were with his parents, Mr. and Mrs. Graham Fitzpatrick on

Brady was on the Avant farm here Saturday and visited his mother Mrs. Pearl Avant in Santa Anna in the late afternoon.

My sons, Hilary Rutherford of Coleman and Loyd Rutherford have been with me seem after working hours during the past week and

During the past 10 years, Texas

#### Our Texas

#### Old cemeteries: cultural time capsules

Almost every community in Texas has an old graveyard near the center of town. Seldom visited, except perhaps by local youths on a Halloween rampage, it may be overgrown with the tangle of unchecked weeds and bushes. Its neglected limestone or marble headstones and sculpted monuments are stained black by mildew and lichens. It has become the community eyesore that most people, at least those who notice, wish would go away.

An old cemetery, however, is a

cultural time capsule; it is a vital and tangible link to a community's past and it should be protected, according to Cindee Langdon, historic cemetery expert with the Texas Historical Commission. An old cemetery can be an open record about pioneers and community leaders, lawmakers and lawbreakers, war veterans, and other local residents. It also can provide a wealth of information about religions, historical events, life-styles, epidemics, burial customs, and settlement patterns.

"All this data is a valuable cultural, historical, and artistic resource that should be prized by each community," Langdon said. "It all helps make up the identity of a com-

Although Texas laws exist to protect these valuable resources, many historic cemeteries are in danger of being destroyed. The danger comes from neglect, vandalism, and land development. Once a cemetery is destroyed or its historical integrity is damaged, valuable information is lost forever. Simply passing laws is not enough to save them.

Langdon offers several suggestions for preserving our historic cemeteries. Simple maintenance, such as trimming the grass and shrubs from around gravestones and cutting dead tree limbs, can effectively help preserve eroding

gravestones. Leveling tilted gravestones before they fall over will prevent cracking and breaking. Perpetual maintenance plans should be considered to insure continuous

Vandalism is a difficult crime to deter. Fencing and lighting, however, can discourage potential misdeeds. Contacting home and business owners located nearby and asking them to report suspicious activities to the police or sheriff also is effective. Police often are willing

to assist in creating a crime prevention plan, and upon request, they may increase patrols of cemetery grounds. When vandals realize that people care about a cemetery, they leave it alone.

Mr. Bill Williams in the Cleveland

Juanita Minica.

They returned home on Sunday.

Saturday.

of hay baled in the field.

has experienced a tremendous real estate boom. Developers have purchased large rural tracts of land with the hope of building large residential subdivisions, shopping centers, or industrial parks. Sometimes these tracts of land contain neglected family or pioneer cemeteries hidden within their boundaries. Some unscrupulous developers

have destroyed tombstones in order to avoid the red tape and expense of dealing with a historic site. Others have followed legal channels and

have had remains and tombstones moved to modern perpetual care

In one North Texas town, the community rallied to support the preservation of a pioneer cemetery that was threatened by a residential subdivision. Through a media cam-

paign and petition drives, the cemetery was saved. It is now an integrated part of the subdivision as a reminder of the rich heritage of the area, and as an example of what a community can do to preserve that

(A message from the Texas Historical Commission.)

## Shriners' Baby

**Continued From Page 1** 

to her doctor, but the leg will be the sante length as the other.

Mrs. Barker was told by the doctors that Angela is now part of an elite group known as "Shriner's babies." She will continue to receive yearly checkups until the age of eighteen since it is possible for the problem to reoccur. If that should happen, there will be another surgery, but after seeing some of the problems other children at the hospital faced, the family feels very lucky even at that possibility.

In the meantime, the Barkers are so very appreciative of Don and Wanda Bible, and Wendell Rice who went out of their way to lend a helping hand and help make it all possible. Of course Angela's grandmothers, Jean Culpepper and Sandy Deal, join in the thanks to these and to the Scottish Rites Hospital and staff who never charge a dime for their services. In fact, as they told Mrs. Barker, "That's what we're here for ... to help the children."

#### **Continued From Page 1**

in a variety of ways. All groups are invited to enter a float or other entries including individual vehicles, horses, tractors, etc. Antique cars are also sought for the parade.

Miss Coleman County will be chosen during the day.

A Brisket and chili cook-off will take place with prizes awarded being \$50 and trophy for first place and trophies for 2nd, 3rd and showmanship.

A downtown street dance will take place beginning at 8:00 p.m. with music provided by "Southern

ADDRESS

NAME

In 1892, New York became the first state in the nation to authorize voting machines.

# Practice electrical safety around the home, business and farm

- Keep electrical tools or appliances in good condition. Replace or repair worn or damaged cords.
- Avoid overloading circuits, and protect children by covering unused outlets with plastic caps.
- Avoid hitting underground power lines by calling WTU before digging or excavating. Stay clear of overhead power lines look up when using heavy equipment or

tools like ladders or tree trimmers.
