There are a large number of

books, both paperback and hard-back, and magazines left over from the last book sale. These will be given away.

Everyone is urged to stop in, look around, enjoy punch and cookies and select as many books as you would care to have. Donations for the building renovation fund will be accepted on a voluntary basis.

Young and old are invited to attend the open house and choose free books.

On To Basketball For Santa Anna Mountaineers Hang Tough In Playoff Loss

The football season ended for the Mountaineers last Saturday at Colorado City and they will now be found on the basketball courts for the next couple of months. However the Black and Gold did not give up without a battle and Garden City knew they had been challenged for the Area title by the time the final second ticked away. The Bearkats earned their victory the hard way.

Saturday's victory advances the Bearkats to this week's regional round against Axtell, a 12-6 winner over Throckmorton.

The fifth-ranked Garden City Bearkats opened the contest with an 80-yard scoring drive and closed it with a game clinching touchdown march as they defeated the Mountaineers 21-14. James Soles scored on a 34-yard run to chalk up that winning TD for the Bearkats with 5:09 left in the game.

Santa Anna was hampered in the second half by an injury to ace Herbert Jackson, who was limping on a sore ankle and knee.

Garden City's winning drive came two possessions after a Mountaineer scoring bid was stopped at the Garden City one-yard line. The Mountaineers had marched to the Bearkat goal line after recovering a

Garden City fumble at the Bearkat 22.

The game was 13-0 in favor of Garden City before the Mountaineers got untracked. Garden City scored on its first possession. James Soles had a 49-yard run for Garden City that keyed an 80-yard scoring drive capped by Mario Aguiler's three-yard TD run just 2:29 into the game.

The Mountaineers took the kickoff and were driving at midfield when Auguiler grabbed a fumble in mid-air and raced 46 yards into the endzone to give Garden City a 13-0 lead.

But Santa Anna came back to dominate the rest of the first half with hang-tough football that would give them a 14-13 lead at halftime intermission.

The Mountaineers' first score came at the end of a 70-yard drive. Quarterback Charles Dixon got the TD on a two-yard run with 10:57 left in the half. Brady Rice added the extra point to cut Garden City's lead to 13-7.

After the staunch Mountaineer defense forced Garden City to punt on its next possession, Santa Anna began its next possession at its

own 19-yard line. A procedure penalty and a clipping call on a nice run by Dixon left the Mountaineers facing first and 18 from their own 11.

Santa Anna managed to get out of the hole with a 29-yard run by Jackson and then Phillip Hernandez, Jackson and Dixon carried the ball to the Garden City end of the field. Jackson scored from the Bearkat four-yard line on third down to tie the game at 13-13. Rice again connected on the point after kick to give the Mountaineers a 14-13 lead with 1:43 left in the half.

It was enough time for Garden City to punch the ball to the Mountaineer goal one more time before the half ended. The Bearkats drove to the Mountaineer 10 before Santa Anna's Charles Dixon came up with the defensive play of the day as he intercepted Shae Scott's pass in the endzone.

"That gave us a big boost going into halftime," said coach Mike Permenter. "I was standing on the sideline trying to think what to tell the players with us behind. But Dixon made a great play for us."

Mary Edwards Walker

Continued From Page 1

In 1916, a government review board requested that her medal be revoked because no documentation of it being awarded existed in the War Department Archives. Walker ignored the revocation and continued to wear the medal until her death in 1919. Walker was vindicated in 1977 when Secretary of the Army Clifford L. Alexander officially restored her medal posthumously. And in 1982, she was honored with a special commemorative U.S. postage stamp to mark the 150th anniversary of her birth.

The Medal of Honor

The Medal of Honor is the highest military award for bravery that can be given to any individual in the United States, notes The World Almanac. Prior to World War I, the 2,625 Army Medal of Honor awards up to that time were reviewed to determine which past awards met new stringent criteria. The Army removed 911 names from the list, most of them former members of a volunteer infantry group during the Civil War who had been induced to extend their enlistments when they were promised the medal.

KAY YANCY

Winner Of Shopping Spree

Area Mary Kay beauty consultants held their first annual Christmas open house Monday night, November 19, at the Santa Anna High School homemaking cottage. Ladies from around the area attended. Door prizes were drawn throughout the evening and those winning these prizes were: Kay Yancy, Lois Harper, Jo Jones, Frances Williams, Missy Bryce, Angie Hernandez, and Fredna Horner.

At the end of the evening, a drawing for a pink shopping spree was held. The winner of the \$50 shopping spree was Kay Yancy, pictured above.

Director and pink car driver, Joli Dockery of Whitharral, Texas, was present at the open house. She demonstrated festive glamor looks for the holiday season as well as a live makeover. Fredna Horner was the makeover model.

Organizers were pleased with the turnout for the affair and expressed appreciation to all who helped make it a successful open house.

Butter Hints

Whipped butter taste great as a topper, and its spreadability is a real asset. Because of the air that is incorporated, however, whipped butter should not be substituted for regular butter in recipes.

To make your own whipped butter. Cream slightly softened chunks of butter at medium speed of an electric mixer until lighter in color and somewhat fluffy, about two minutes. Then turn the mixer to "high" and whip for an additional three to four minutes.

Winston Churchill

November 30 marks the birth of the first man to be made an honorary citizen of the United States, Sir Winston Churchill. The British author, orator and statesman was born in 1874. A military college graduate, Churchill entered politics in 1900 when he won a seat in Parliament.

Throughout the next several decades he held a number of government positions including Cabinet member and Admiralty member. One of the earliest to warn of the menace of Hitler, he was installed as prime minister of Great Britain in 1940 three days after Germany invaded the Low Countries. With Franklin D. Roosevelt and Stalin, Churchill helped shape the Allied Forces' victorious strategy in World War II. Despite his personal popularity, he was swept from office in 1945 when his Conservative Party was ousted by a Labour Party landslide.

In 1946, once again ahead of his time, Churchill gave one of his most famous speeches warning of Soviet foreign policy and the "iron curtain" descending on Europe.

Churchill served as prime minister a second time from 1951 until 1955, when he retired due to ill health. Winston Churchill died in 1965.

By the time you read this Harry and Margaret Crews should be back at home in Santa Anna, according to their daughter, Dixie Aylor of San Angelo. The couple had a harrowing experience over the weekend. They had returned to San Angelo for Harry to have a medical checkup on Monday as a followup of recent surgery. They were in an auto accident just as they were entering San Angelo and Harry spent some more time in the hospital for observation. He received a cut on the head in the accident and also a hairline fracture of the shoulder. He was dismissed from the hospital on Monday, but was to have another checkup on Tuesday before returning to Santa Anna. Margaret escaped injury in the accident.

Mr. and Mrs. Derriel Warnock and Mrs. Othal Warnock were in Lake Jackson over the Thanksgiving holidays visiting with their children there, Ron and Liz Warnock and Tiffany; Mike and Angela Warnock and Brian, and Burl and Wanda Spurlock. Doug Warnock of San Angelo accompanied them on the trip. Don and Wanda Warnock, Dwayne and Tina Warnock, all of Houston, joined the family group in the home of the Ron Warnocks for Thanksgiving dinner and visiting over the weekend. Other Thanksgiving dinner guests were Mr. and Mrs. Bill McElhenny of Lake Jackson, parents of Liz Warnock, and Tina Warnock's parents, Mr. and Mrs. Ron Streetman of Houston.

Library Notes

Check It Out

By Alice Anna Spillman

Last week you learned about some children's books that Mrs. Church Weeth of Abilene sent to the Library by way of Betty Key. I failed to mention a couple. Follow the Sleigh is an unusual mixture of The Night Before Christmas, Rudolph and the real Christmas spirit. Passover, is an explanation of this event written for children.

There are 52 books for adults. To help parents: The Joyful Child—activities for the developing child; Backyard Adventure—How to Build Outdoor Play Areas, gives plans and building instructions; Teach Your Children To Swim, very clear photos and drawings; Fun-To-Make Wooden Toys, patterns and plans; Father/Son Book—How to be A Father, activities, sports, etc. for sons to six years; Clearing the Bases, stories of players and events from the 30's to present.

Books on politics: Chamberlain and the Lost Peace, the author believes it was a mistake for England to go to war with Germany; Wind over Sand, another author who blames Roosevelt for mistakes in America's foreign affairs; On the Brink, more information about the Cuban missile crisis—from both American and Russian sources; Reagan as President, a study from over 100 articles and essays; Tianamen Square, two reporters who were there and reveal the true story of the Chinese search for democracy; Freedom of Speech, gives both sides of the story—too much or too little individual freedom.

Irving Berlin & Ragtime America—its the 100th birthday of this man who gave popular music to America, his story from Russia to Broadway.

The Elvis Files—Was His Death Faked? This book gives more information but the question is still there—see what you believe.

There will be more next week.

Someone pointed out that local people could not come to the library open house during Homecoming, as they were busy helping with their activities, so come by to see us Friday, December 7. We still have books to give away. Check out the Christmas parade and then visit your future library!

FAMILY HEALTH

Old Age: Fulfilling And Enjoyable

In his seventy-ninth year, renowned psychologist B.F. Skinner described old age as "rather like another country. You will enjoy it more if you prepare yourself before you go."

Ideally, that preparation begins long before we cross the border of that other "country." Health care professionals recommend a lifelong regimen that includes a nutritious low fat diet, regular exercise, and low stress to ensure a pleasant, fulfilling journey into your later years. Here are some other ways to help make old age a full and enjoyable place to be:

- Stay in touch with the world. Mental and social stimulation are extremely important in keeping the mind alert and communications skills sharp. For people living alone, social contacts are more than just welcome company; they can be a lifeline. Many communities have networks sponsored by county offices for the aging, to insure that elderly people living alone are checked up on regularly.

- See your family physician regularly. Many elderly people wait until an illness is fairly advanced before telling anyone or visiting a doctor. Medical experts recommend that people between the ages of 65 and 75 see a doctor at least once every two years. People 75 and older

Simple measures such as rough-soled shoes and a slower pace can turn an afternoon walk from a challenge into a pleasure.

should visit a family physician annually.

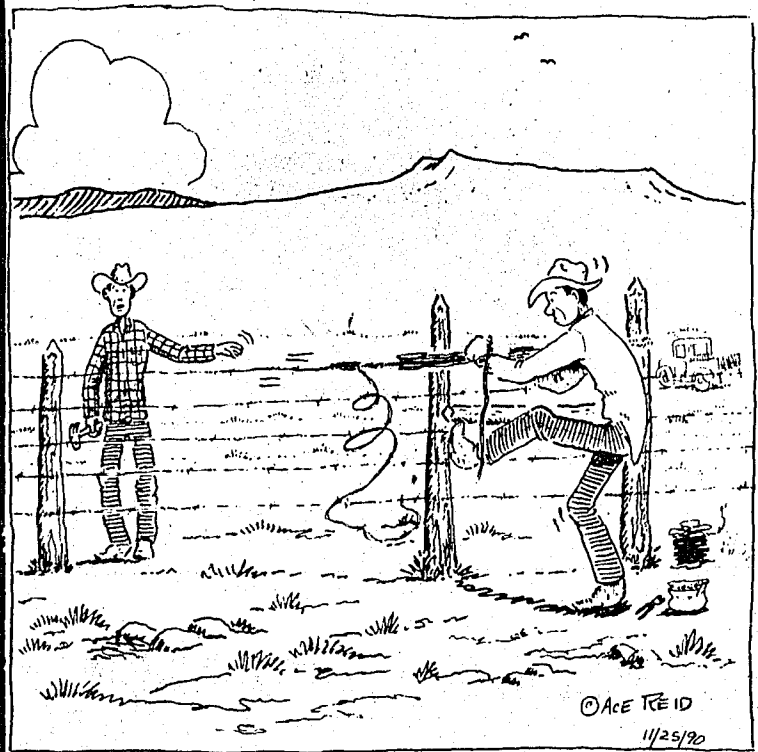

- Stay in shape. It's never too late to take up a healthy lifestyle. Safe, gentle exercise to improve mobility—walking, stretching, dancing, easy aerobic exercise—is extremely beneficial for people in the latter part of life. Swimming is also an excellent activity. It's wise, however, to consult your family physician before undertaking any new exercise regimen.

For further information or a list of family physicians in your area, write Communications Division, American Academy of Family Physicians, 8880 Ward Parkway, Kansas City, Missouri 64114. List your zip code and two others adjoining yours.

Mountainside Viewpoint

By Polly Warnock

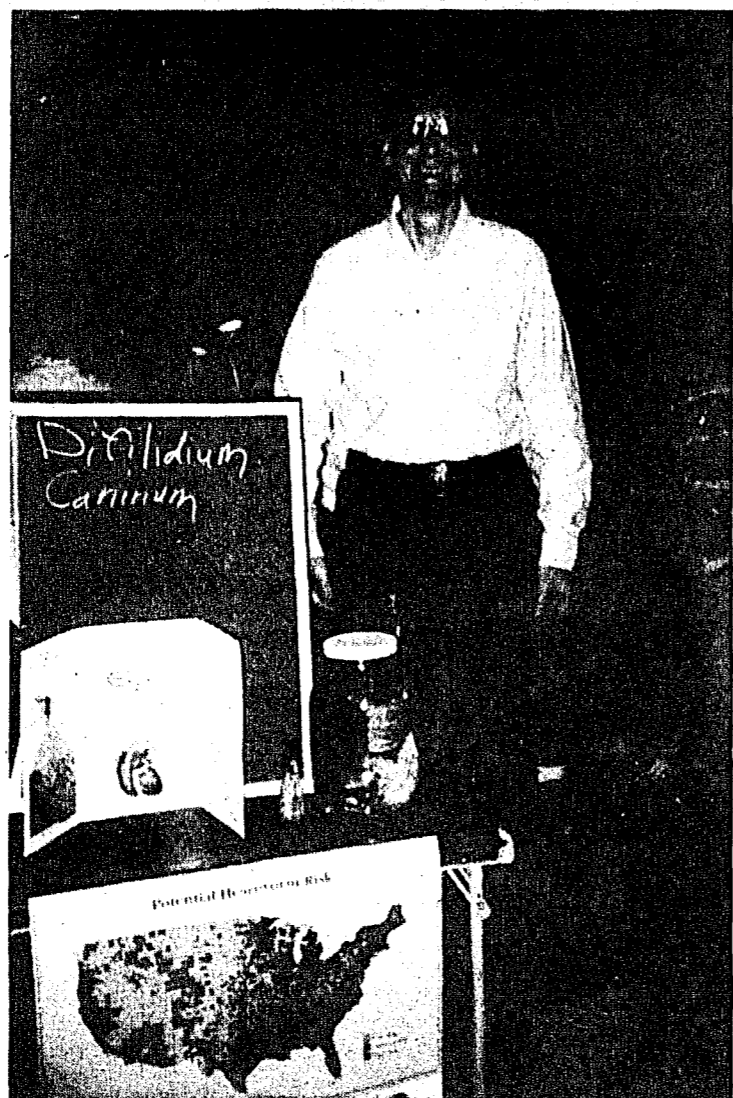

The 1990 Census has by now been completed and preliminary results have been released in recent months. Some of us wondered at the questions asked and why it was anybody's business other than our own. However many polls taken across the nation at one time or another ask a wide variety of personal questions that people seem to be willing to answer just to be included in a poll.

The following statistics taken from "100 Percent American" are compiled by Daniel Evan Weiss using such sources as the Gallup and Harris polls.

- 1 percent of Americans say Tuesday is their favorite day of the week.
- 9 percent of us say we don't watch enough TV.
- 10 percent of truck drivers are women.
- 14 percent have used a credit card within the past 24 hours.
- 15 percent of married men say they do most of the cooking.
- 20 percent of sixth graders can't locate the U. S. on a world map.
- 21 percent of babies are born to unwed mothers.
- 27 percent of teen-age girls use bubble-bath.
- 30 percent of us smoke cigarettes.
- 31 percent of women think the man should pay for every date.
- 32 percent of 17-year-olds do not know what the Declaration of Independence was for.
- 34 percent of households have microwave ovens.
- 38 percent of us die of heart disease.
- 41 percent of women do not own a skirt.
- 42 percent of women do not own a girdle.
- 47 percent wear eyeglasses.
- 50 percent of marriages do not last seven years.
- 58 percent of runaways are female.
- 64 percent of teen-age girls own a telephone.
- 68 percent of 17-year-olds do not know when the Civil War took place.
- 69 percent of public-school teachers are women.
- 70 percent of men who earn \$70,000 a year or more cheat on their wives.
- 83 percent of companies have fewer than 20 employees.
- 86 percent of men use deodorant.
- 87 percent of us prefer not to work around those who do not use deodorant.
- 92 percent of women use deodorant.
- 99 percent of teen-age girls use deodorant.

High Risk Persons Need Flu Shot

With flu season near, officials at the Texas Department of Health (TDH) have urged anyone who may be at high risk of infection to seek immunization.

People most at risk of the potentially deadly disease, are those 65 or older, persons with chronic respiratory, or heart problems and children weakened by disease.

Influenza, which occurs most often from December through April, kills about 20,000 individuals in the United States each year--most of them in high-risk categories," said Robert D. Crider Jr., director of TDH's Immunization Division. Crider said that persons 65 and older constitute one of the risk groups hardest-hit by influenza and its complications.

"Fewer than 30 percent of Americans in high-risk groups receive the recommended annual injection of influenza vaccine," he added. "We believe that one reason older people fail to be vaccinated is their unfounded fear that the vaccine can actually cause influenza. The truth is that a vaccinated person may still contract some strain of flu, but not from the vaccine. If that happens, though, the vaccine usually helps lessen the severity of the case."

High-risk categories include the following people who are most likely to develop complications from influenza:

- *Persons 65 years old and older.
- *Residents and employees of nursing homes and other facilities treating chronically ill patients of any age.
- *Adults and children with chronic heart or lung disorders, including children with asthma.

*People under medical care for chronic metabolic diseases, kidney or blood problems or weakened immune systems.

*Children, 18 and younger, who are receiving long-term aspirin therapy, which can place them at risk of developing Reye syndrome after influenza.

"We strongly recommend influenza vaccinations for all people in these high-risk groups, especially if they are pregnant women or international travelers," Crider advised. "People infected with the human immune-deficiency virus (the virus which causes AIDS) also may be at increased risk for flu complications."

In addition, physicians, nurses and other health professionals should be immunized against influenza to avoid spreading the disease to their patients, according to recommendations from the Centers for Disease Control.

Crider explained that all unimmunized residents of chronic-care facilities, such as nursing homes, should be immunized immediately. In addition, high-risk persons who

are hospitalized any time from now through March and members of their households are encouraged to be vaccinated, he said.

He added that influenza vaccination is necessary yearly, because immunity declines with time. Also, since flu strains and vaccines

"TDH and the American Lung Association already have reminded health professionals and others in close contact with high-risk people to be immunized, both for their own protection as well as for others," Crider said.

"As early as July we advised physicians to offer vaccine to their patients during routine clinic visits, beginning in September and throughout the influenza season--typically December through April," he said.

against them differ from year to year, only the vaccine for the current season should be used.

The vaccine for the 1990-91 season is designed to combat the A/Taiwan, A/Shanghai and B/Yamagata strains.

TIPS ON STAYING SAFE AND SOUND WITH NATURAL GAS.

For more than 80 years, Lone Star Gas has been providing safe, dependable energy to Texans. Our customers trust gas and take comfort in the impressive safety record we've compiled. By following a few simple rules, you can help keep that record intact.

Always have qualified service people install and maintain all gas appliances, following the manufacturer's instructions for installation and operation. And always use a gas appliance only for its intended purpose. An oven, for example, should not be used to heat a room.

Natural gas itself is odorless. Its strong smell is added for your protection. If you ever smell gas in your home, follow these rules: Do not switch anything electrical on or off. Do not use your own telephone (telephones use small amounts of electricity). Do not strike a match, and do not do anything that might cause a spark. Have everyone leave the house immediately, leaving the doors open for ventilation. Go to the nearest telephone and call Lone Star Gas Company. Wait until we have found the cause of the gas leak before returning to your home.

Since gas lines run underground, you should also take precautions against disrupting

these lines, particularly if you plan to:

- Put in a new fence.
- Install an underground sprinkler system.
- Perform any major landscape renovation.

Before you dig,

call your local Lone Star Gas Office. If you smell gas while you're outside, contact Lone Star Gas immediately.

In our continuing effort to provide better, safer service, local Lone Star Gas offices are ready to answer any questions that contractors may have concerning the location of gas lines in their areas.

Our safety record proves that when you follow these simple guidelines, you and your family can stay safe and sound with natural gas. Energy you can trust.

Don't Compromise. Demand Gas.

half, Aguilar fumbled on the Bearkat 22 and Mountaineer Dan Benton recovered.

Santa Anna moved down to the 3-yard line before it stalled, facing fourth-and-goal from the 3. The Bearkat defense stiffened and stopped Jackson at the 1-yard line, turning the ball back to Garden City.

"The turning point of the second half was that series," Permenter said. "We got into our power set down there and didn't get in. Then they turn around and get out of the hole."

"I'm disappointed. But we told our kids all year that they had to realize that sometimes life isn't fair and nobody will give you anything," Permenter said. "But were are just thankful we had the opportunity to play for the area championship."

Despite his injuries Jackson car-

ried the ball 24 times for 138 yards. Soles for Garden City, accounted for 208 yards on 27 carries.

The Mountaineers finish their season at 9-2. Santa Anna made the state's top 10 charts the same week that players Byron Dowdy and

Wesley Baugh died in a truck-train wreck. The Mountaineers lost their district opener that week to Eden, but battled back to make the playoffs as the 11-A runnersup.

Seniors are going to be faced, once again, with changes in their Medicare Coverage. These changes will also affect their Medicare Supplement coverage and premium rates.

For example, Medicare's Part A (Hospital Insurance) deductible for 1991 will be raised from \$592 to \$628. This means that for each hospital confinement that is separated by 60 days, the Medicare patient will be responsible for the \$628 deductible.

The Part B (Medical Insurance) deductible will be raised from \$75 to \$100. This will remain an annual deductible.

Let us help you evaluate your insurance coverage.

CREATIVE COOKING

Embellish A Relish With Raisins

Even the simplest of meals becomes holiday festive when you add a tasty relish. But make sure your relish is colorful, eye-appealing and bursting with tantalizing good taste.

One quick and easy choice is Raisinberry Relish, a basic cranberry relish embellished with raisins. Raisins add fruity-sweet flavor, good color, chewy texture and some nutrition, too. The addition of raisins also reduces the amount of sugar needed.

Raisinberry Relish complements traditional roast turkey, ham or other meats. But even more modest pork chops or baked chicken pieces can be turned into a holiday meal with this delectable accompaniment.

To make Raisinberry Relish, just simmer together golden raisins, cranberries, orange juice and a few other ingredients. It's that easy.

Storage is a snap, too, since Raisinberry Relish can be kept refrigerated for up to one month. But just see if you will last that long! You'll find yourself reaching for this relish to serve with all sorts of leftovers, sandwiches and cheeses.

Raisinberry Relish is as beautiful as it is tasty. With deep amber color, shades of cranberry and dashes of orange, this relish makes an attractive and welcome gift. Pour into clean glass containers to show off its glistening hues, dress with pretty ribbons, and present to family and friends at holiday parties and family gatherings.

Raisinberry Relish adds holiday cheer to traditional main dishes.

Raisinberry Relish

- 2 1/4 cups (about 12 ounces) golden raisins
 - 2 cups orange juice
 - 1 cup water
 - 3 tablespoons lemon juice
 - 1/2 cup sugar
 - 3 cups (12 ounces) fresh or frozen cranberries
 - 2 teaspoons finely grated orange peel
- In 3-quart saucepan combine raisins, orange juice, water, lemon juice and sugar. Bring to boil over high heat, stirring to dissolve sugar. Reduce heat and simmer 10 minutes. Add cranberries. Return to boil; simmer 5 minutes. Add orange peel; simmer about 5 minutes until liquid barely covers solid ingredients. Cool. Store refrigerated in container up to 1 month. Makes about 4 1/2 cups.

Send U.S. Soldiers A Taste Of Home

As the holidays approach, concerned groups and individuals are gearing up to send baked goods to the soldiers in Saudi Arabia.

Here are some delicious, "desert safe" recipes from the Nestlé Kitchens to give the soldiers a taste of home. According to David Klug, Assistant Director of Nestlé Chocolate Research and Development, the following guidelines should be followed when making cookies for shipment to the troops.

- All ingredients should be made with non-pork by-products (Kosher).
- No vanilla extract or other alcohol based flavorings should be used. Saudi Arabia is a very strict Muslim country that strongly forbids use of alcohol.
- No allspice or nutmeg should be used. There are cultural prohibitions against the use of these products in Saudi Arabia.

A card should be included with the package stating that the products were made following the above guidelines. This will facilitate passage into the country.

Other tips from Klug to ensure that the baked goods will withstand the high desert heat are:

- No butter, margarine, peanut butter, or nuts should be used. These fats will go rancid too fast in the high heat. Butter flavored vegetable shortening is a better idea.
- No brown sugar, corn syrup, honey, or molasses should be used. These products will cause the baked goods to be too soft and possibly become moldy. White table sugar

BACKGROUND ON BUSINESS

See About SAWS

There could be good news for employers of Special Agricultural Workers (SAWs). These temporary employees will become permanent residents of the United States on December 1, 1990.

It is important, however, that they file Form I-90 with the U.S. Immigration and Naturalization Service (INS) so they can be issued permanent resident ("green") cards. As their employer, you can advise them of these changes and requirements. You can also assure them that there's no educational requirements or tests and no medical examination. There is, however, a \$35 fee and a recent photo must be submitted.

After the I-90 has been approved, SAWs will be scheduled for individual appointments at INS offices to be processed for their permanent resident cards. When this procedure is completed, you and your workers need no longer worry about their work authorization expiring or their having difficulty getting back into the United States if they travel abroad.

To learn more about this, you and your workers can contact a local INS office or call, toll free, 1-800-755-0777.
