Citizens Are Warned Of Possible Scam Operation

Local and area people are advised to be aware of a possible scam operation in the community. It is reported that at least one local lady may have been a victim of a scam if she had cooperated with a telephone caller.

The local citizen received a telephone call last week telling her she had won \$10,000 dollars in a give-away of some sort. The caller asked the lady if she had a certain amount of money in the bank. She replied, "Maybe". The caller then told her that she would be given the \$10,000 upon his receipt of \$400 from her. The woman then hung up on the caller. The caller had given her

some sort of identification at the onset of the conversation, but she was unable to remember what the name of the individual was or if had stated the name of a company or organization.

You are reminded that legitimate give-aways, or contests in which you win large amounts of money or other items, do not require a cash investment from you. You are urged to try to obtain as much identification as possible from any such caller and report any such calls to Police Chief Carlos Torres, at 348-3147. Even though any identification given is probably false, it may lead to a clue.

Seminars Available For Drivers Required To Have New Commercial License

A visit last week from Wendell Rehm of the Texas Department of Public Safety brought us the following information on seminars to be held for Texas bus and truck operators who now have to qualify for a commercial driver's license by satisfactorily passing a series of tests relating to the operation of their vehicle. As of September of 1990 the DPS began uniform testing for all currently licensed commercial and bus drivers. The Big Country Safety Association is holding seminars in Abilene designed to assist drivers to pass the CDL testing. Through a series of video tapes, the instructor takes drivers through the commercial motor vehicle drivers handbook which is provided to each participant. The Big Country Safety Association is a non-profit trade association that promotes safety in the business world. For information about the seminars, call 915-698-

0981. Arrangements can also be made to conduct seminars at other locations if as many as 20 participants sign up for the class.

All commercial drivers who operate vehicles in excess of 26,000 pounds or transport hazardous materials that require the vehicle to be placarded are required to have a commercial driver's license (CDL) by April 1, 1992. Bus drivers, including school bus and church bus drivers, who drive buses designed to carry 16 or more passengers, including the driver, will also be required to obtain a CDL by that date.

Exempt from the CDL requirements are farmers, when they are driving within 150 miles of their farm, military personnel, recreational vehicle operators, and fire fighters when operating fire fighting vehicles or equipment.

Commercial drivers who must carry the new CDLs cannot renew their current licenses due to expire before April 1, 1992. They should plan to visit the DPS Driver license offices for CDL testing at least one month before the expiration date.

Free handbooks are available at all the Drivers License offices. The CDL fee is \$40, less \$4 for each year of validity remaining on current Texas drivers license. The Texas DPS is urging all drivers required to obtain the new CDLs to take the testing in plenty of time to avoid penalties.

CONTENDING FOR THE FAITH

The book of JUDE is a synopsis of the Christian life. It challenges all Christians everywhere to earnestly contend for the faith once for all delivered to the saints. In order to do this Jude tells Christians who they are, who the enemy is and also who God is.

Who are Christians? They are the ones CALLED and CHOSEN by God. They are LOVED by God eternally and they are KEPT in Christ, by Christ and for Christ, forever. God's grace, mercy and peace are theirs.

Who is the enemy? Those who do not continue to earnestly contend for the faith. Those who have seen the goodness of God, tasted His mercy and experiences His blessings yet failed to give the glory to God consistently. Jude cites examples of such people as a warning to all Christians. They are immoral people like those of Sodom and Gomorrah and surrounding cities. They are scoffers, grumblers, loud-mouthed boasters, worldly people devoid of the Spirit.

Who is God? God is the ONLY One who can save and keep us. He is the ONLY One to whom belongs glory, majesty, dominion and authority before all time, now, and forever and forever.

What's the lesson for us? We need to be constantly aware of this extremely good news that God has CALLED us for His purposes, LOVES us with everlasting love, and KEEPS us in Jesus Christ forever. God has a good and meaningful purpose for all His people even when society seems to have none. God loves all His people even when they are unlovable and unloved by society. We are kept by Jesus Christ, not by any efforts or works on our part. With gratitude to God, let us respond to His calling, loving, keeping, in such a way as to bring glory to Him! In Christ Jesus, we will be presented to God, blameless (not sinless), and all glory, majesty, dominion and authority belong to God forever.

Maranatha!
Jasper

Library Notes

Check It Out

By Alice Anna Spillman
This article will conclude information about books given to the library by Chuck Weath of Abilene. Our special thanks to him for his generosity. The librarians will be hard pressed to find display room for these beautiful new books.

There were travel books: *The Outback of Australia*; *Chile & Easter Island*; *Italian Islands*; *Guide to Museum Exhibitions*; *The Shogun's City* (Tokyo); *A Place Called Hiroshima* with photos from the atomic bomb - almost too much to look upon; *Families of the World* by Helen Tremberly who lived with 33 families from tents in Mongolia to refugee camps, slums of Manila and a royal palace. You really should read this one. High school students could use it for reports.

Greek Americans is another interesting study of people who came here and why. There are twelve books to learn a language, French or German. These are for people visiting those countries - very practical with special facts about buses, banks, food, clothing, etc. - with humor. If you read Spanish, You can read the story of Nixon or *Martin Luther King*.

Health: Alzheimer's Disease; Sleep and Dreaming; Manual of Natural Therapy from acupuncture to herbs. *Abuses* is about recovery for adults who suffered child abuse.

There is even a book about *Arafat* based on personal interviews with the man and his family.

Books arrive recently from our "San Antonio Connection", Lila Jordan who always remembers us. Her friend, Dr. Adrienne Linton, gave these books. How can we thank her? Each person who reads a book does that! Enjoy *Great Unsolved Mysteries of North America* - more about Big Foot, unsolved murders, and UFOs. *The Detectives* from the first police forces to what to expect in the future. Photos of some of the best detectives and infamous criminals.

Any age can learn *How to Draw* animals, people, landscapes, letters. And finally a favorite for girls and boys, *Black Beauty*. Keep this and all the 60 or more new books for children in mind.

Christmas holidays are near with the freedom to read a good book!

Mrs. John Richard Hunnicutt Jr

Former Santa Anna Resident Wed In Ozona

Miss Shannon Dockery became the bride of Mr. John Richard Hunnicutt, Jr., in an eleven a.m. ceremony on Thanksgiving Day, November 22, 1990. The wedding ceremony was performed by Rev. Tim Brewer, pastor of Ozona United Methodist Church.

Parents of the couple are Mrs. James Dockery and the late Mr. Dockery, and Mr. and Mrs. John R. Hunnicutt, all of Ozona.

Mr. and Mrs. James Dockery will be remembered here as "Dilly" and "Doc". The family resided in Santa Anna a number of years ago before moving to Ozona.

The bride wore a cocktail length dress of eggshell silk brocade. The dress was highlighted with a lace bodice and a peplum flounce on the skirt. She carried a cascade bouquet of ivory roses, gerber daisies and eucalyptus with wheat, touched with peach tea roses. She wore eggshell accessories and pearls.

Maid of honor was the bridegroom's daughter, Lacey Hunnicutt. She wore a floral chintz dress of autumn colors topped with an ecru collar edged with lace. Her bouquet was a spray of peach and ivory gerber daisies with eucalyptus.

Flower girls were Kaytee Collins and Limerly Bean. Their dresses were of navy denim featuring ecru sailor collars edged in lace.

Cody Hunnicutt served his father as best man. Ushers were Wesley and Ryan Bean. The bridegroom and his attendants were dressed in jeans and shirts of autumn colors with coordinating jackets.

The ceremony took place before an arched gateway entwined with English ivy and eucalyptus, native grasses and flowers. Pots of bronze mums and crotons surrounded the yard, while wreaths of barbed wire with eucalyptus, wheat and bows of autumn colors decorated the fence and entryways.

A traditional Thanksgiving dinner followed the ceremony in the home. Tables were centered with cornucopias of indian corn, pumpkins, fruit, nuts and autumn leaves. The mantle was decorated with small bales of hay, indian corn, antique guns, bows of autumn colors and grapevine hearts.

The three-tiered pumpkin cake was frosted in white and decorated with fresh fall flowers. A terra cotta

turkey holding coral iris and candles was topped with a corn husk bride and groom.

The bride is a graduate of Ozona High School and Texas Tech University. She is employed with Crockett National Bank. Her husband is a rancher. He is also a graduate of Ozona High School and attended Texas Tech. Following a trip

to Las Vegas, Nev., the couple will be at home in Ozona.

The bride was feted with several pre-nuptial parties in the weeks prior to the wedding. Local people attending a gift brunch were Gail Stewardson and Kim Hubbard.

BETHLEHEMS IN TEXAS

Yes, Bethlehem is in Texas. It's a hamlet in Upshur County. Bethlehem also survives as the name of sites in Angelina, Bowie, Cass, Collin, and Marion counties, while Bethlehems in Smith, Van Zandt, and Milam counties have disappeared.

O TANNENBAUM!

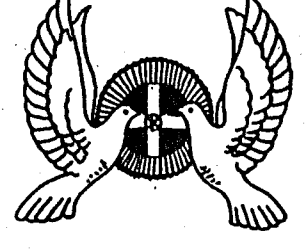

German immigrants brought the Christmas tree concept to Texas. In 1845, settlers in Prince Carl of Solms-Braunfels' new colony trimmed native cedar trees as they had decorated fir and spruce in Europe. The next year, when some 120 moved on from New Braunfels to found Fredericksburg, the tradition was continued there.

News For And About Santa Anna Mountaineers

Basketball In Full Swing

Santa Anna basketball is now in full swing and following are results of last weeks games.

Panther Creek defeated the Junior High Girls 38-19 last week. Catrina DeLeon was the leading scorer for the Santa Anna girls with 7 points. Katrina Tomlinson followed with 6, Amy Miller, 4, and Bertha Frausto 2. Debbie Jones is coach for the junior high girls.

Junior High Boys

Coach Dean Bass' junior Mountaineers defeated the Cross Plains junior high team on Monday, November 19, by a score of 34-23. Bobby Diaz was top scorer for Santa Anna with 15 points. Manuel Frausto had, 8 points, Johnny Diaz, 7, Charles Williford 3 and James Balderas 1.

defeated by Panther Creek, 40-26. Bobby Diaz again led the pack in scoring, this time with 18 points. Charles Williford had 3, Manuel Frausto 2, Tom Guthrie 2, and James Balderas 1.

Please note a change to the schedule previously published. All games start at 6:30 rather than 6:00.

MONDAY NIGHT GAME

The Junior High boys played a tough, close game with Panther Creek on Monday night of this week, but the Panthers were victorious, 33-28.

Leading the scoring for Santa Anna once again was Diaz with 10 points. Williford accounted for 8,

Frausto 6, Balderas 2 and William Loyd 2.

High Point for Panther Creek was Hale with 11 points.

SAHS Girls

Coach Debbi Jones' varsity girls were defeated on November 28th by the May girls, to the tune of 46-21. Lori Castillo led the Lady Mountaineers with 8 points, followed by Candi Daniel with 4, Julie Dean, 3, Patricia Frausto, 2, Becky Simmons, 2, and Christi Beal with 2 points.

Coach Jones comments that the ladies played fairly well on defense; however, the offensive game was weak. "We lost by 25 points and missed 23 free throws. We will have to do better than that for a win."

JUNIOR VARSITY GIRLS

The junior varsity girls won their tilt against May on that same evening, 24-20. Sandi Watson led the Santa Anna junior varsity with 8 points. Elisha Blanton, was next with 6 points, Missy Bryce 4,

Darla Jones 4, Lana Harvey 2.

Coach Jones commented that "The girls played a very good defensive game. We led the entire ball game and really worked hard for the win...lots of hustle."

VARSITY GIRLS AT ZEPHYR TOURNAMENT

On Thursday, November 29, the SAHS varsity girls defeated Mullin in their first round at the Zephyr tournament, by a score of 38-32. Julie Dean was high point scorer for the Santa Anna girls with 12 points. Becky Simmons had 6, Christie Beal 5, Lori Castillo 5, Candi Daniel 4, Marxia Longoria 3, MArtha Frausto 2, and Betsy McIver 1.

Says Coach Jones, "The girls played a pretty good defensive game and they were much improved offensively. We started out strong and then lost momentum. We have to

be able to keep our momentum going once it's established."

The Girls were defeated in their second game of the tournament, 52-

21 by Zephyr. Becky Simmons claimed top scoring honors for the SAHS girls with 8 points. Others were Longoria 4, Dean 3, Castillo 3, Watson 2, and McIver 1.

In their try for third place in the tournament, the girls lost to May, 32-28 in what Coach Jones describes as their best performance so far this season. She commented the

girls worked together both offensively and defensively.

Julie Dean led with 7 points. Others were Castillo 6, Beal 5,

McIver 4, Simmons, 2, Longoria 2, and Daniel 2.

Local Adventists Help Fund Rose Parade Entry

Not all in Santa Anna will watch the Rose Parade this year with the same amount of pride that local Seventh-Day Adventists will share.

For the first time in the Church's history, Seventh-Day Adventists have ordered the 50,000 roses and five tons of flowers and plant materials such as seeds and bark to cover their float. Five animated 15-foot Hummel-style children representing differing world cultures playing in a garden will be joined by a child representative from each of North America's nine territorial divisions.

Supporting the parade theme which is "Fun and Games," the Adventist float will proclaim, "Children of the World Together in Peace."

"In so far as possible, we are trying to get flowers and plant materials from the 185 countries of the world in which we have a pres-

ence," says Harvey Komegay, pastor of the local congregation.

"Although the Luthern Laymen's League has been in the parade for years, this is the first time Seventh Day Adventists have been chosen to sponsor a display," he says. "Because we are a worldwide church, we can add an international dimension like few others."

"Our congregation has helped to underwrite the cost by helping pay \$2 per rose for the 50-foot-long float after being on the waiting list for years," Komegay adds.

Spearheading the fundraising have been the church's Pathfinders around the world, since the parade is seen by an estimated 400 million people in many parts of the world. Pathfinders are the Adventist's Scout-like co-ed organization.

Helpful Tips and Ideas To Help You or a Loved One Quit Smoking—

Smoking: Don't Be A Statistic

Even if you smoke just one pack of cigarettes a day, you're inhaling 73,000 puffs of smoke each year! Here are some other statistics on smoking you should keep in mind—and some healthy hints to help you stop.

- Over 50,000 studies document cigarettes' devastating health effects—heart disease, cancers of the lungs, mouth and other tissues—yet 54 million Americans continue to smoke.

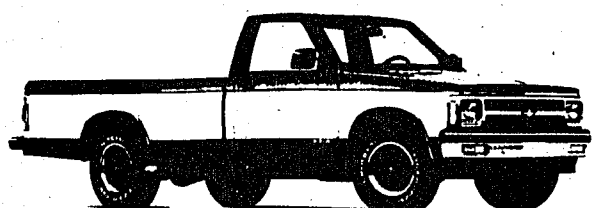

- Every year, 360,000 Americans die as a direct result of smoking related diseases. Cigarettes cause more deaths than AIDS, alcohol, cocaine, heroin, fires, automobile accidents, homicide and suicide combined.

- The reason quitting smoking is so difficult, the most recent Surgeon General's Report found, is because cigarettes contain nicotine, an addictive substance. Many people who want to quit smoking—more than 17 million try each year—find it's much easier when they use a medication, available by prescription only, that helps curb nicotine withdrawal symptoms that may prevent you from kicking the habit.

Taking Flight

"Don't swing so high!"
"Not so fast!"
"Not so hard!"

These are the phrases I find myself screaming as autumn paints the land.

Our 3-year-old daughter has decided, literally, to spread her wings. The child is fearless. No swing goes fast enough, no sliding board reaches high enough to satisfy her sudden thirst for ... danger? Adventure?

She cannot be trusted five minutes alone on her backyard swing set. Left unattended, she goes higher and higher, until her toes almost touch the lower branches of the adjacent redbud.

The first time it happened, I screamed. "Emily, you'll fall!"

"No. I won't. Mommy," she shrieked, going ever higher. Convinced of her immortality, she laughed at my silly fears.

This is not a new phenomenon. Once, when she could barely walk, she managed to climb up four feet or so to the top of a mountain of pillows her big sister had built. I watched helplessly, too far away to catch her, as she tumbled off the other side, did a flip in midair and came up laughing, ready to try again.

I feared for her — and worried about my own response.

On my bathroom wall is a small plaque that proclaims: "There are only two lasting bequests we can give our children. One is roots; the other is wings."

What a wonderful sentiment. I thought, as I watched my tiny baby sleeping peacefully — and safely — in her bassinet.

When I thought then of wings, I envisioned Emily growing up secure yet free, ready, one day, to leave the nest and soar over all the obstacles in her path.

Now, I have nightmares about hang gliding.

Still, each time I tell her not to swing so high, I feel as if I'm saying, "Don't reach for that star; it's too dangerous."

I worry that my efforts to keep her out of casts or traction will somehow stifle her willingness to take chances, to climb every mountain.

Am I already clipping her wings?

Today it's the tallest tree, the fastest merry-go-round.

What about tomorrow? I do not expect this element of her nature to change when she's 16.

I guess it is a parent's plight to reconcile these clashes, to find a delicate balance between freedom and foolishness.

I wonder where I can find a giant foam-rubber pad to fit under the swing. **■**

'Hunters for the Hungry' will aid poor, food banks

(AUSTIN)—"Hunting is one of mankind's oldest food gathering methods, and modern-day Texas hunters now have the opportunity to follow in the tradition of their pioneer forefathers by donating their surplus venison to needy neighbors," Deputy State Agriculture Commissioner Mike Moeller said. "Those concerned hunters can now make a meaningful contribution to poor Texans by participating in the new 'Hunters For the Hungry' program.

"The 'Hunters For the Hungry' program is a collaborative effort of several state agencies and organizations, including the Texas Department of Agriculture, the Texas Parks and Wildlife Department and the Texas Department of Health. Under the terms of this program, a hunter can take legally tagged deer carcasses to a participating meat processor who grinds the meat into two-pound packages. The hunter pays a prearranged \$15 fee per animal to cover the cost of processing the venison," Moeller said.

"The donated packages of venison will then be distributed to one of 17 different food banks across Texas. These food banks play a valuable role in serving many of the 3.1 million Texans now living below the federal government's official poverty level. Only four in 10 Texans eligible for food stamps are receiving this federal assistance, and nearly one-third of all Texans living in poverty receive no government assistance at all. Texas food banks help fill this gap by distributing more than 62 million pounds of food in 204 counties. But food banks can use all the help they can get in bringing nourishing meals to our state's poor citizens," Moeller said.

"Donated items like venison represent a valuable contribution to the diets of low-income Texans who spend anywhere from 30 percent to 45 percent of their disposable income on food. Many of these low-income consumers are not served by large grocery stores, and they often have to shop at convenience stores where prices are usually high and food quality and selection are limited. Inadequate nutrition has been linked to seven of the 10 leading causes of death in Texas, and several studies indicate infant mortality rates in Texas are above both the national average and rates in some Third World nations.

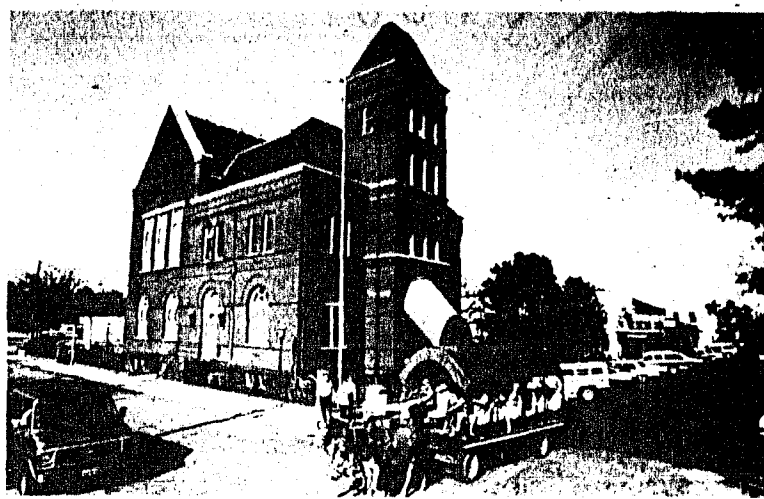

"Our nation's hunger problems often appear too great for any one individual to make much of an impact. But the 'Hunters for the Hungry' program is just the latest in a series of practical, simple initiatives that allow the average Texan to combat hunger directly. Two years ago, TDA, working with the U.S. Department of Agriculture, began assisting farmers markets in becoming certified to accept food stamps. Today, 35 TDA-assisted farmers markets are accepting food stamps at 55 market sites," Moeller said.

"In addition, Texas is now one of only 10 states receiving federal funds for a three-year-old program which allows participants in the Women, Infants, and Children (WIC) program to use coupons to buy farm-fresh produce at selected farmers markets. Last year, some 57,000 low-income mothers benefited from this unique program, based on legislation sponsored by Texas Congressman Mickey Leland.

"Last year, Commissioner Hightower launched the Share Our Surplus (SOS) program to bring together the collective resources of farmers, food banks, transportation companies and churches to create an efficient network for getting surplus crops from the fields to the needy. The SOS program, which is supported by a grant from the Texas Department of Community Affairs, has generated more than 348,000 pounds of donated food for the needy just during the past five months.

Other groups and individuals supporting the Hunters for the Hungry program include Mike Hughes of the Broken Arrow Ranch, the Texas Association of Meat Processors, the Texas Wildlife Association, the Texas Association of Second Harvest Food Banks, the Texas Young Lawyers Association, Texas House Speaker Gib Lewis, Mary Barden Keegan of the End Hunger Network, the Exotic Wildlife Association, the Texas Game Wardens Association, Sportsmen Conservationists of Texas, Inc., Frank Horlock of the Rio Paisano Ranch and Dr. James 'Red' Duke of the University of Texas Medical School in Houston.

TDA has also established a toll-free hotline for hunters who wish to find out more about the Hunters for the Hungry program. The toll-free phone number is 1-800-9929-SOS.

Old meets new as a van makes room for a mule-drawn surrey on Main street in Jefferson. The Northeast Texas town was at one time a major port of entry into the state. Jefferson still bears a remarkable resemblance to many towns of the Old South, and has numerous historical features such as the Excelsior House and the House of Seasons. Whon News By Mrs. Tom Rutherford

We are very glad to report that Mrs. Imogene Fitzpatrick went to her doctor in Abilene on Monday of last week and did get the cast off

that she had been wearing for some time, when she had the accident cracking her knee cap. She is now free of the cast and the doctor was well pleased that her knee was fine.

Seems like it didn't seem like a long time with the doctor, but it was a long uncomfortable time for Imogene. Mr. and Mrs. Graham Fitzpatrick were in Abilene on Monday, November 26th.

Stephanie and Alicia Lovelady of Brownwood were Saturday night guests with their grandparents, Mr. and Mrs. Darwin Lovelady in Santa Anna.

Mr. Floyd Morris was in Coleman the past Wednesday and while there visited with his brother and sister-in-law, Mr. and Mrs. William Perkins.

costs, which came to three percent of total donations.

Unpaid volunteer solicitors, who are properly credentialed, will distribute brochures containing detailed information regarding the use of funds raised. To avoid the chance of fraud ask for identification.

"Our congregation usually gives more than enough to match what we receive in solicitation," said Komegay. "The money donated by Santa Anna residents will make a lasting difference in the world around us."

Mr. Douglas Avant of Brady was on the farm here on Saturday and on to be with his mother, Mrs. Pearl Avant in Santa Anna for a time before returning to Brady.

Mrs. Janie Morris visited Tuesday morning of the past week with Mrs. Dorothy Jones in Santa Anna and reported such a nice visit. These ladies were also friends in yesteryears.

Mr. Amos Otts' grandmother, Mrs. Dorothy Jones was here with the family from Thanksgiving until the past Thursday of this week. The Otts family took her to her home at Lake Whitney on Thursday.

Friday, Mr. and Mrs. Amos Otts and boys Yancy and Griffin went to Throckmorton where they visited with relatives until late Sunday afternoon, reporting a very nice time, but being rather tired on arrival home Sunday night.

On the past Tuesday, Mr. and Mrs. Sam Wright and son of Brady visited with Mr. and Mrs. Graham Fitzpatrick.

Mr. and Mrs. Randall Lovelady and girls of Brownwood were Sunday dinner guests with his parents, Mr. and Mrs. Darwin Lovelady. Stephanie and Alicia returned home with their parents following a night with their grandparents.

Mr. Hilary Rutherford of Coleman was with me on Saturday doing some farm work. Mostly cattle this time. Mr. Loyd Rutherford was with me Sunday.

Mr. Darwin Lovelady was at the Veterans Hospital at Kerville on Monday of the past week and reports a real good report from his doctor there.

SDA Ingathering

Benefiting the homeless, helpless, hungry and sick in 186 countries of the world, volunteers from the Seventh-Day Adventist Church are currently visiting bot residential and business sections of Santa Anna for their annual humanitarian appeal.

Out of the more than \$7 million that was collected in 1988, over \$3 million was spent in 1989 for medical, educational and community projects in developing nations.

Mrs. Sadie Bryan and Mrs. P.L. Ulstad of Brady went to Granbury Monday to spend the day with their sister, Mrs. Arlie Davis.

Over \$1 million was spent for local community service programs, state community services, and disaster relief programs. Another million went to church operated schools.

"Last year inner city projects, camps for underprivileged children church youth camps, and health screening vans benefitted from over \$1 million that communities such as Santa Anna gave to Adventist Humanitarian Appeal," according to Harvey Komegay, local SDA pastor and director of this congregation outreach.

Remaining portions were used to fund other programs and fundraising

Keep Kids Safe in the Kitchen New Test Developed For Diagnosing A Heart Attack

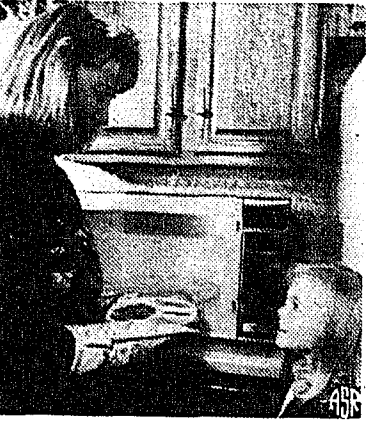

Quick, clean, with no open flame or hot coils to burn little fingers, microwave ovens are considered one of the safest kitchen appliances. Many parents allow their children to use a microwave oven but not a conventional gas or electric range. But as safe as microwave ovens are, parents should supervise young children when they cook and teach them procedures for future safe microwave oven use.

"The microwave oven is a safe way to cook foods when it is used properly," says Joyce Kenneally, director of microwave cooking and food appliances at the Good Housekeeping Institute. "Parents allow children to use microwaves because, in general, they are safer than conventional ovens. But we strongly recommend adult supervision when young children use the microwave oven."

Parents should keep the following microwave safety facts in mind:

- Use potholders — dishes heat up even if the microwave doesn't.
- Test the temperature of the food, on the inside and on the surface, before serving it to your child.
- Watch for fillings in jelly donuts and sweet rolls, which get hotter than the outside.
- Pierce or slash baked potatoes and hot dogs to prevent bursting during cooking.
- Vent cooking dishes. Remove plastic wrap and lids so that steam escapes away from face and hands.
- Do not heat baby bottles with disposable plastic liners — the liners may burst. If heating glass baby bottles, stir the contents to distribute the heat and then test the temperature before feeding the baby.

Burn-prevention experts attribute microwave-related injuries to children to age, height and a child's inability to understand heating

Instructions. For example, children tend to reach up into a microwave, sometimes spilling hot liquid over themselves.

"Parents must take the initiative to ensure that their children are able to read and follow directions on microwave use," says Matthew P. Maley, director of risk management for the Shriners Burns Institute in Cincinnati.

Manufacturers and advertisers of microwave oven-prepared products can also take the initiative to help ensure kids' safety when using microwave ovens.

HOUSTON - Doctors can now determine more quickly if a patient suffering chest pains has had a heart attack using a new test developed by researchers in The DeBakey Heart Center of Baylor College of Medicine and The Methodist Hospital.

Until recently it could be more than 12 hours before a diagnosis could be confirmed with a blood test that detects an enzyme released by injured heart tissue.

Dr. Peter R. Puleo, assistant professor of medicine, said the test he developed with colleagues Dr. Robert Roberts and Dr. Benjamin Perryman provides a reliable heart attack diagnosis after only four hours. It is 100 percent accurate after six hours.

Tests used previously are less than 50 percent accurate after five hours and may require 12 hours or longer to match the accuracy rate of the new test, Puleo said.

Having a positive diagnosis sooner not only enables doctors to prescribe appropriate therapy, but also saves patients money if the test shows they have not had a heart attack.

"We could then stop administering the expensive clot-dissolving drugs given to help prevent heart damage," said Puleo, director of coronary care at Ben Taub General Hospital. "Patients also can be transferred from cardiac care or emergency room beds to other less costly care areas."

When a heart attack is suspected, doctors act quickly to start medication that dissolves the clot blocking blood flow to the heart muscle, thus minimizing damage. Patients are placed in specialized care units for observation and monitoring with sophisticated equipment while physicians wait for test results.

"Waiting 12 hours for results is expensive," Puleo said.

The new test provides accurate results faster because it detects two forms of the enzyme MB creatine kinase, which is released by injured heart tissue. The amount of the enzyme in the bloodstream increases gradually for as long as 18 to 30 hours after a heart attack begins.

"If a patient with symptoms has not actually had a heart attack, we want to know it as quickly as possible so that we can determine the problem and then treat it," Puleo said. "Everyone who arrives in the emergency room with chest pain benefits from this new test."

Farm Bureau Head Says Perry Win Major Victory For All Texans

"Mainstream agriculture and consumers across the state of Texas won a major victory with the election of Rick Perry as Agriculture Commissioner," said Texas Farm Bureau President S.M. True.

Perry has outlined a program for the agriculture department called the Five M's—More research; More value-added processing; More jobs; More exports; More cooperation. "Farmers and ranchers statewide

True is also president of the Texas Farm Bureau Friends of Agriculture Fund (AGFUND), which endorsed Perry in May.

Farm Bureau and every other major agricultural organization in the state, with a few exceptions, threw their support behind Perry and his challenge of Two-time incumbent Jim Hightower.

"When Rick Perry takes over the leadership at the Texas Department of Agriculture he will be a commissioner for all the people of Texas," True said. Texas agriculture will again prosper as we head toward the 21st century. We now have a commissioner who will work with the farmers and ranchers for agriculture."

Perry, a fifth generation farmer/rancher from Haskell and a three-term state legislator, won the race with approximately a 46,000 vote margin.

Microwave Appetizers With Crunch

The microwave oven is especially well suited for appetizers. Prepare several plates ahead of time and heat them as they're needed.

These two recipes for quick-and-easy appetizers are appropriate for the holidays or any special occasion. Both use Triscuits, a cracker that is particularly well suited for microwave use because it stays crisp and crunchy in the microwave.

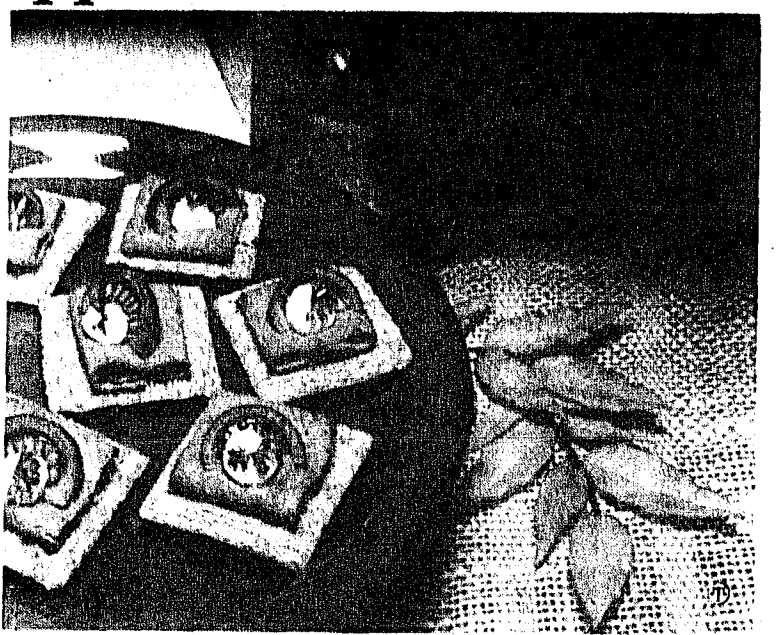

Prepare by the dozen, and in 15 to 20 seconds, they're piping hot and ready to enjoy.
