Big Grain Harvest Underway

One of the best harvests of small grain produced in this area in a number of years is in full swing throughout the central Texas area. Most of the grain being harvested is excellent quality and good yields per acre are being reported from most areas.

Reports reaching us indicate from 15 to 30 bushels of wheat per acre is being harvested, and oats run all the way from about 20 bushels to better than 50 bushels.

Pierre Rowe, manager of the Co-op Elevator, said the grain was the best grade of grain he had seen produced in this area in a good many years. The wheat is testing mostly between 60 and 65 and the oats are testing between 30 and 38, which indicate good quality grains.

We have not been informed of any particular large yield of any one person's entire crop. A number of small areas have been reported to have exceptionally large yields, but other areas on the same farms yield smaller amounts, to bring the average down.

The rain that fell in this area early Tuesday morning slowed the harvest in the area around Santa Anna to the east and north. No rain was received in the Shield and Rockwood areas, and the harvest continued in full swing. Combines are operating mostly around the clock if employees can be found to keep them running.

The principal part of the harvest is expected to be completed by the end of next week.

F. Q. Blount Buried at Haskel Wednesday

Funeral services for Frederick Quincy Blount, 82, were held in the chapel of the Hosch Funeral Home at 10:00 a. m. Wednesday, June 8. Jack Hale, minister of the North Side Church of Christ, was the officiating minister. Graveside services were held at 3:30 p. m. at the Willow Cemetery in Haskel, with Jim Pennington, minister of the Haskel Church of Christ officiating. Interment was in the Willow Creek Cemetery, under the direction of Hosch Funeral Home.

Mr. Blount was born in Hamilton County October 22, 1877, and was married to Maggie N. Buffington May 25, 1905 in Cass County. They came to Santa Anna about four years ago from Terry County and have made their home here since. A retired farmer, he was a member of the Church of Christ.

Mr. Blount died at his home about 3:00 p. m. Monday, June 6, after an illness of several months.

Survivors include his wife of Santa Anna; four sons, G. T. Blount of Plains, Ernest Blount of Brownfield, Freddie Blount of Bangs, and George S. Blount of Midland; one foster son, Ted C. Williams of Brownfield; one daughter, Mrs. Lena McClintock of Santa Anna; one brother, L. C. Blount of Arkansas; two sisters, Mrs. Mattie Hamblen of Greenville and Mrs. Nettie Ewing of Sulphur, Okla.; 18 grandchildren, 13 great-grandchildren and three foster grandchildren.

Winnie McQueen To Return to Homemaking Dept.

Mrs. Winnie McQueen, head of the Homemaking Department of the Santa Anna High School for nine years, from 1945 through 1954, will return to Santa Anna about August 1 and assume her old duties again. She was employed by the Santa Anna School Board at a regular meeting Tuesday night.

Mrs. McQueen went to Post, Texas in 1955 and for the past four years has been in the Homemaking Department of the Ballinger Schools. She will live in Santa Anna and would like to rent a nice house. Anyone having one for rent might leave word at the school house.

She has a son that will be in high school.

Other routine business was taken care of at the board meeting.

Mrs. Jimmy Watson returned home Monday, after visiting her daughter, Mrs. H. H. Chennault in Berryville, Ark.

Smith Wins Sheriff Race; Dibrell Wins District Judge

A total of 3,279 persons went to the polls in Coleman County Saturday and elected W. J. Smith as the Democratic nominee for Sheriff of Coleman County for the next four years, beginning January 1, 1961. This is the third time Smith has sought the office, each year gaining more popularity among the county voters. Smith defeated H. F. Fenton Jr., who, when his term expires at the end of this year, will have served in the office 14 years. When first elected, Fenton was known as one of the youngest persons ever to be elected as a Sheriff in the State of Texas.

Smith received a total of 1,809 votes in the Second Primary, as compared with 1,426 for Fenton. In the First Primary Fenton received 1,474 votes, just four more than in the Second Primary, and Smith received a total of 1,004 in the First Primary. A total of 3,938 votes were cast in the First Primary in the Sheriff's race.

In the race for District Judge, 35th Judicial District, Joe Dibrell of Coleman won over William O. Breedlove of Brownwood by a considerable majority. Dibrell polled a total of 5,192 votes in the 3-county district, while Breedlove polled 4,295 votes. The big vote in Coleman County was the deciding factor in the race. In Coleman County Dibrell received 2,270 votes while Breedlove received 925 votes. In Brown County Dibrell received 1,815 votes and Breedlove received 2,335 votes. McCullough County was just about even with Dibrell receiving 1,107 while Breedlove received 1,035 votes. In the First Primary Dibrell led the ticket with 5,533 votes and Breedlove received 4,417.

In the only other race on the county ballot, Judge W. T. McDonald of Bray was leading the incumbent Lloyd W. Davidson by more than 35,000 votes at the last count. Davidson has no chance of pulling much closer to McDonald in the final tabulation.

Fenton carried Santa Anna, as he has in all the times he has sought re-election. In the boxes here, Smith polled 91 votes in the South Ward and 64 in the North Ward. Fenton polled 98 in the South Ward and 83 in the North Ward.

In the other races, Dibrell polled 100 votes in the South Ward and 80 in the North Ward; Breedlove received 87 in the South Ward and 62 in the North Ward. In the State race, McDonald received 109 votes in the South Ward and 95 in the North Ward, while Davidson received 73 in the South Ward and 47 in the North Ward.

SUNDAY SINGING

The regular Second Sunday Singing will be held at the North Side Baptist Church Sunday, June 12, from 2:00 to 4:00 p. m. Everyone is invited to attend.

Mrs. Albert C. Herndon, Mr. and Mrs. Bobby Crowell and daughter, Sandra, returned to their home in Tuscaloosa, Ala., after visiting in the home of her son and brother, Mr. and Mrs. Cliff Herndon.

Pioneer Resident Buried Here Thursday, June 2

Funeral services were held at Stevens Memorial Chapel in Coleman Thursday, June 2, for Paul J. Van Dalsem, 83, who died at 4:00 a. m. Wednesday in the Holiday Hill Rest Home, where he had been a patient the last ten months. The Rev. Ben H. Moore pastor of the Santa Anna First Presbyterian Church, was the officiating minister, assisted by Rev. Henry Jonguna of Austwell, Texas. Burial was in the Santa Annan Cemetery under the direction of Stevens Funeral Home of Coleman.

Mr. Van Dalsem was born November 12, 1871 in Nimrod, Arkansas. He came to Coleman County as a young man and has made his home in the Santa Anna area since. He was married to Miss Nannie Boyd December 28, 1904 at Santa Anna. Mrs. Van Dalsem preceded him in death 19 months ago.

A retired farmer, Mr. Van Dalsem had been a member of the Cumberland Presbyterian Church since 1897.

Survivors include four nephews, N. D. Van Dalsem of Coleman, Curtis H. Van Dalsem of El Indio, Texas, Harry and Paul Van Dalsem of Perryville, Ark.; four nieces, Mrs. Nora Hays of Nowice, Mrs. Eula Hays of Plainview, Mrs. Ruth Shoemaker of Whittier, Calif. and Mrs. Louise Beardon of Snyder.

Pallbearers were C. F. Campbell, W. L. Campbell, S. K. Moredock, Emzy Brown, Harry Crews and Floyd Reynolds.

Grass Fires Begin to Plague Fire Dept.

Grass fires are again beginning to be a menace to the area. Everyone is urged to be extremely careful about letting burning trash or other small fires get out of control.

The local fire department has been called out two or three times already this year to put out grass fires. This is one of the many duties of the department, and they want you to call them when a fire gets out of control, but they urge you to use every caution to keep the fires from getting away from you.

Most grass and other places where vegetation is dense is beginning to dry out. With the hot, dry weather we are now having it will not be long before all the vegetation that is not watered will be a dangerous fire hazard.

If you plan to burn off a vacant lot or just a small patch, it is a good idea to request one of the firemen to bring a truck and stand by while it is burning. If this is not possible at the time, wait until one is available if possible. If deciding to go ahead, be sure to take every precaution possible to be able to keep the fire under control and before you leave the spot burned off, be sure every bit of the fire is out.

Drivers are urged to make use of the ash trays on your autos at this time of the year also. Many field and pasture fires are started each year from cigarettes being thrown from vehicles. These kind of fires are dangerous and very costly to property owners. Many of them require many hours of work to be brought under control. Your cooperation is urged.

Guthrie's Kill Rattle Snake Saturday Night

M. L. Guthrie Jr., killed a rattle snake that was about 5 ft. long just after midnight Saturday night, just under the eyes of his car port at their home south of town.

The Guthrie's son, Les, woke up and heard the snake rattling. He woke his parents, and upon investigation they found one of their cats apparently had the snake charmed, as he was coiled ready to strike and his rattles going full strong. The cat was standing on two feet, perfectly still facing the snake.

Guthrie killed the snake with a shot gun, in a spot where another was killed about a year ago. They have also killed one other snake this year.

Harper Hunter of Pampa, was a weekend visitor with his mother, Mrs. Ora Hunter.

Newman and Horne Win County Wool Show Titles

Jackie Horne, son of Mr. and Mrs. C. M. Huckabee of Coleman and a 4-H Club member, exhibited a 12 pound, 13 ounce, registered Delaine yearling ewe fleece for championship honors of individual junior entries in the Third Annual Coleman County Wool Show Saturday.

Identical award for the adult division was presented to Lester Newman of Santa Anna, exhibitor of the first place registered Rambouillet aged ram fleece which weighed 15 pounds, 3 ounces.

One of the more interesting junior contests was the commercial ewe lamb class. These sheep were shorn and then graded along with their fleeces to determine winners. They showed by trials. Championship award went to Paul and Scott Beavers of Talpa. Their three half-blood fleeces weighed 40 pounds, 7 ounces.

Bill Gardner, son of Mr. and Mrs. Jim Gardner of Coleman and a member of the 4-H, had the champion bag of wool in the junior division, weighing 141 pounds. It was from the famous Finewool aged ewe ewes.

Champion adult bag of wool was exhibited by Hemphill Ranch, south of Valera, operated by Wade and Jimmy Hemphill. The 132-pound bag consisted of finewool yearling ewe fleeces.

A judging contest was held along with the wool show. Jackie Horne, Ben Scott, Donald Turner, and Bob Hart, members of the Coleman County Senior Wool and Mohair Team, took first place.

Les Guthrie, Rudie Carrido, Paul Beaver, and Scott Beaver of the local junior team took second.

Third went to Coleman FFA's team composed of Don Allen, Doyle Glasson, and Bill Gardner. Guthrie was named high point individual after scoring the highest on placing of two classes of wool, two of mohair and grading of 20 samples each of wool and mohair. Allen followed him. Scott was third.

Travis Herring, assistant county agent, coached the 4-H teams. Stanley Blackwell, vocational agriculture teacher, coached the FFA group.

Winner of the 4-H girls' exhibits, set up in the recreation building in the rodeo grounds here, was Talpa-Centennial's club with a model house showing wool usage in a "dream house" Model sent to 4-H was second with an exhibit on "Wood Makes Your Clothing Dollars Stretch." Santa Anna's third place exhibit showed wool usage in the living room. Novice Club's senior girls won fourth with a exhibit.

Coleman FFA had an attractive "We Wear Wool" exhibit. Silver Valley, Gouldbush, Coleman Independent, and Leaday-Voss Home Demonstration Clubs all set up exhibits. The Leaday-

Wading Pool Has First Session Monday

Mrs. John Wells, chairman of the Wading Pool Committee of the Summer Recreation Program, said there was 20 youngsters present for the first session at the pool this year. Mrs. Wells stressed the fact that every child going in the pool should have a guardian of some kind with them during the time they are in the pool, and that no one is allowed in the pool before the time scheduled.

Some of the children did not have guardians with them Monday, and some went in the pool before the scheduled time. Mrs. Wells requests that this does not happen again.

The pool is in good shape this year. No weeds are close to the pool and the shade put up by the Junior Chamber of Commerce last year is still in good shape. In fact, more tin has been put on the back of the rack this year, which makes more and better shade.

All children from 10 years down are invited to participate in the wading pool activities. Pool hours are from 4:00 to 6:00 p. m. each Monday and Friday afternoons. All children at the pool are suppose to have someone with them to act as guardian.

Attend church regularly.

Voss exhibit included a dress once worn by Miss Day Padgett of San Antonio, "Miss Wool of Texas", a former resident of Coleman County. There were several commercial firms represented, and a HD-sponsored exhibit from Eldorado.

Coleman County 4-H girls and leaders prepared and served lunch for some 100 persons-eating at the show grounds.

The show, sponsored by Lions clubs of Coleman, Santa Anna and Talpa, was judged by Fred and Armour Earwood, Sonora woolmen. Jim Gray of San Angelo, extension sheep specialist, set up the contest. County Agent Jim Williams was in charge of local proceedings.

Williams said the show is held to promote better wool on better sheep for more profit to producers of the area.

Saturday offered perfect weather for the event.

Drought Affects

Whitewing Area

South of Border

Austin — The white-winged dove nesting area of northeastern Mexico is very dry, although there appears to be a normal population of doves, according to a recent preliminary tour made by biologists who went from the border to Tampico.

Four men, including two Texas biologists, one from Mexico and one from the U. S. Fish and Wildlife Service, spent considerable time in Mexico checking nesting conditions. They reported drought conditions over most of the area, with little rain having been received since last December.

Another spot check will be made shortly after the birds begin their laying. As soon as the hatch can be expected, the workers will go back into Mexico to band the nestling birds.

Birds will be banded in their nests on both sides of the Rio Grande. From such field work the biologists will secure information on the movement of whitewings across the Texas-Mexico border this fall.

If there are indications of an ample crop in Texas, a season will be recommended later in the summer by the Game and Fish Commission.

Whitewing shooting has been permitted in Texas under a modified plan for the past three years.

A study compiled by The Travelers Insurance Companies shows that speed was responsible for 12,980 traffic deaths in 1929 — more than 43 percent of the total.

New Pension Law Goes Into Effect July 1

The new pension law for veterans and their dependents becomes effective July 1, 1960, and all pensioners being placed on the rolls from that date will be governed entirely by its provisions. P. J. Mims, Manager of the Veterans Administration Regional Office in Waco said today.

However, those veterans or dependents already receiving pensions may stay under the old law or elect to come under the new law. The choice is solely that of the pensioner.

Once a pensioner recipient selects the new law, he or she can never return to the old law, but the pension recipient can delay his selection of the new law for as long as he wishes.

An instruction pamphlet and an election card has been sent by VA to each pensioner. If, after careful study of the pamphlet, the pensioner decides to remain under the old law, the card should not be returned.

If the VA does not receive the card, payments will automatically continue under the old law.

However, should a pensioner prefer the new law and want the full advantage of higher payments from the effective date of the law (July 1, 1960), he or she should send the completed card as soon as possible Mr. Mims said.

Assistance may be obtained from any VA office.

THAT OLD DEVIL SUN

The sun, one of nature's most awesome and vital gifts to Man and his environment, can be magic medicine or slow poison. It can soothe or sizzle, rejuvenate or age, bring despair with its harsh embrace one day and on the next cause a greater bleakness of the spirit by its absence.

It is but one of many, many suns and little more than a candle's glow in a boundless universe say our scientists. And so it may be, but it is our sun and the only one we know. The trouble is that we don't know it as well as we should; what it can do for us — and to us.

Today the delights, as well as the hazards, of sunshine are, for most Americans, assuming a greater significance than ever before. Family income is mounting, and the hours for leisure are rising with it. The average wage earner has 3,700 free hours a year besides time for sleep — the equivalent of two hundred and thirty 16-hour days. This means millions of hours more of sunshine in the life of millions more people, who though adjusting to the situation with typical American aplomb, may not realize that their bodies, and especially their eyes, have an adjustment to make as well.

About Your HEALTH

A weekly public service feature from the Texas State Department of Health. HENRY A. ROLLE, R.S.D., Commissioner of Health.

Cancer and heart diseases set a grim new record last year, accounting for almost half the 73,754 total deaths in Texas during 1959.

Final tabulation of State Department of Health death statistics shows 24,629 deaths from heart disease and 11,086 from cancer.

The cancer death rate in Texas is still well below the rate for the United States as a whole. Texas registered 117 deaths from the disease for each 100,000 population compared to the national cancer death rate of close to 150 per each 100,000 population.

Texas has a younger population, which probably accounts for the disparity between the Texas and national cancer death rates. Cancer strikes most frequently at people past 45 years of age. Of the 11,000 cancer deaths last year, 9,768 were past 45.

Heart diseases are demonstrating a significant increase. Three years ago there were 22,888 deaths from heart disease — a rise of 1,741 for 1959 over the number registered for 1956.

Most of the increase is in the older age groups. Of the total heart disease deaths, 23,519 were past 45 years of age. The heart disease rate for all ages during 1959 was 261 per 100,000 population.

As life expectancy increases, more and more people are going to fall victim to heart diseases and cancer by virtue of living into the ages when they are more vulnerable to the ravages of the twin menaces.

Here is a simple four-point regimen for general good health:

1. Eliminate excessive weight that taxes your heart. Do not overeat.
2. Ask your family physician about a plan of exercise suitable for you. A non-strenuous hobby is beneficial.
3. If you must smoke, do it in moderation. There is strong evidence linking excessive smoking to increases in lung cancer.
4. Above all, see your family physician at least annually for a thorough physical examination.

Extension Economist in Farm Organization Resigns

College Station - Robert W. Cooper, economist in farm organization since 1956 for the Texas Agricultural Extension Service, is resigning June 15 to accept a position with a Central Texas cooperative.

Robespierre, French Revolution leader who had thousands guillotined, finally was guillotined himself.

RECOGNITION OF A VITAL INDUSTRY

This is their month, the time of year when we pay tribute to what is perhaps our most vital farm industry because of its essential health-giving products. The saying 'milk is nature's most nearly perfect food' here are some interesting facts about milk and milk products.

Milk is Food Bargain, Nutritionists Agree

College Station - Nutritionists agree, says A. M. Meekma, extension dairy husbandman, that if you were to duplicate the food elements in a quart of milk by purchasing other products, it would cost you about 43 cents.

Meekma points out that studies of consumer food expenditures show that 18 to 20 percent of the family food budget is spent for milk and milk products. However, he states, the American family gets 23-26 percent of their protein, 75-84 percent of their calcium, 59-76 percent of their riboflavin, 35-39 percent of their Vitamin A, 18-19 percent of their thiamin, and 5-6 percent of their iron and niacin for this money.

In terms of today's factory wages, the 'real' price of a quart of milk is the lowest in history, according to the U. S. Bureau of Labor Statistics. Back in 1890 it took 26 minutes of factory work to pay for a quart of milk selling at the average price of 68 cents. Today it takes less than 7 minutes to earn the price of a quart of home-delivered milk figured at 25.2 cents per quart.

Guar is Good Summer Legume

College Station - Guar, a drought resistant dual-purpose summer legume is well adapted to the climate of Texas, said R. D. Staten, assistant agronomist of the Texas A & M College System. Staten said that three varieties of guar - Texsel, Groehler and Mesa - are all excellent summer legumes for the State.

Staten also said guar is resistant to cotton root rot, is a dependable producer of high yields of forage and seed, is a valuable livestock feed and increases yield of the crop which follows it.

Texsel and Groehler guar consistently produce high yields of seed and are used more frequently than for forage. Mesa produces large yields of vegetative matter and is valuable as a green manure crop or for silage.

Extension

Further information on guar may be obtained by writing the Agricultural Information Office, Texas A & M College, College Station, Texas, and requesting Leaflet L-482.

Nitia Daniell Circle Met Tuesday Night

The Nitia Daniell Circle of the First Methodist Church met in the church parlor Tuesday evening, June 7, for their regular meeting. Mrs. Mildred Galloway opened the meeting with a prayer.

The devotional, "High Mountains", with scriptures from Matthew, Psalms and Romans, was given by Mrs. Martha Belle Thompson.

The program, "Send Ye Forth With Joy," a missionary skit, was given by the program leader, Mrs. Avis Hays, assisted by Mrs. Lolette Curry and Mrs. Lillian Herndon.

After the business meeting, Mrs. Herndon presented Mrs. Eva Nell Benge a cradle board, a gift from the organization.

The group retired to the basement of the church where home made ice cream was served the above-mentioned and Meses. Dorothy Watson, Wilma Welch, Gwen Rowden, Hattie Scarborough and Miss Pauline Eubank.

Mrs. Minnie Krueger Buried June 2

Funeral services for Mrs. Minnie Krueger, 74, were held at Fisk Thursday, June 2. Mrs. Krueger died in Coleman on Wednesday. Rev. Eugene Traylor was the officiating minister. Burial was in the Brown Ranch Cemetery.

Mrs. Krueger was born in Nebraska January 19, 1885 and was married at Ballinger in 1905 to Mr. August Krueger. She had lived in the Fisk area for 17 years, and was a member of the Lutheran Church.

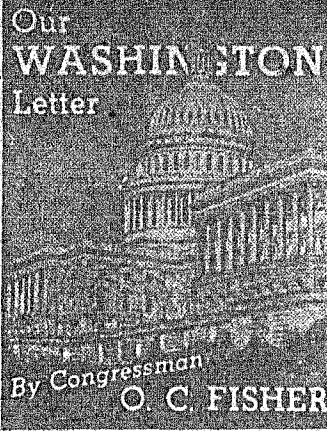

Survivors include one son, Paul of Coleman and one daughter, Miss Edna Krueger, also of Coleman.

Burial was under the direction of Stevens Funeral Home of Coleman.

SUN PLUS BOOKS EQUAL TROUBLE

Don't take that best-seller or exciting paperback to the beach with you. Culture begins at home, and that's where it should stay when the bright rays are dazzling the sands and water of your favorite sunning spot. Reading in the sunlight—or even in the shade of a beach umbrella—is hard on the eyes, report researchers for the Murline Company. Dark glasses are no help, either, even though they may give the illusion of comfort. This same rule goes for any other form of "close" work, such as knitting or doing crossword puzzles.

Carbon paper and sales pads at the News office.

MISS DAY PADGETT of San Antonio and Leaday (Coleman County) was the center of attention in Washington last week-end as the Texas State Society, aided by the Texas Sheep and Goat Raisers' Association, put on a barbecue and round-up that attracted upwards of a thousand people — mostly Texans.

As Miss Wool of Texas, Miss Padgett played her part so well everybody seemed to want to wear more wool and eat more lamb.

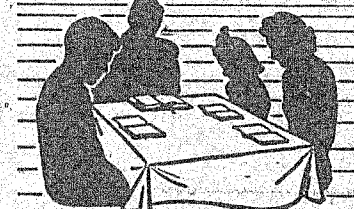

Texas here for the event included Mr. and Mrs. L. M. Stephens of Lometa; Mr. and Mrs. R. O. Sheffield of San Angelo; Mrs. Adolph Steller of Comfort; Miss Carol Agopin of Houston; and Tom Wallace, Secretary of the Sheep and Goat Raisers' Assn.

LAST WEEK I reported on efforts to advance the plans for the fight against blow fly in the Southwest. In response to my inquiries, Dr. E. F. Knipling, Director of Entomology Research Division, USDA, informs me there being over 100 different species of the horse fly in the U. S., and due to their long life cycles, it is not considered feasible to apply the sterile male fly technique to their elimination.

But there is some hope of eventually doing something about the horn flies and stable flies.

"In the future," he reports, "we hope to study, in the laboratory, the possibility of using the sterile male technique through irradiation of male horn flies and stable flies. With these two insects, the difficulty is primarily that the males are also blood suckers and must be exercised so as not to increase the problem by release of blood sucking males. However, it may be that releases of comparatively small numbers in the early spring might not create much added distress to livestock and could conceivably depress the native population sufficiently so as to obtain good control." The phenomenal success achieved by our scientists in completely eliminating the blow fly from Florida and southeastern United States has aroused hope that the same technique can be applied in the Southwest — and possibly applied to pests other than the blow fly.

Today's MEDITATION from The World's Most Widely Used Devotional Guide

The Upper Room

Read Philippians 1:12-20. I know that this shall turn to my salvation through prayer, and the supply of the Spirit of Jesus Christ. (Philippians 1:19.) The famous preacher Charles H. Spurgeon was fond of this story. Some children were being taught the Apostles' Creed. Each child repeated a clause. Thus they proceeded through the Creed.

One day the minister came into the classroom and asked the children to repeat the Creed to him. All went well for a time. Then there was an awkward pause. "Well," said the minister. "What is wrong?" A little boy replied, "Please sir, the boy that believes in the Holy Spirit isn't here today."

Someone has said that the Holy Spirit is the lost chord of the church. How little is known of His working in the heart! Yet we need Him so much. He is the One who brings conviction of sin, accomplishes His saving work in the heart, reveals the things of Christ to us into all truth. Happy indeed is the man blessed by the Holy Spirit.

PRAYER: Almighty God, grant unto us to know and experience the power of the Holy Spirit in our lives. Convict us of sin, purify our hearts, grant us wisdom in living as Christ would have us live. In His holy name we pray. Amen.

THOUGHT FOR THE DAY: "As many as are led by the Spirit of God, they are the sons of God."

June is a big month for food savings!

Everyone Should Know About Traffic Safety

Little-known facts about traffic safety.

Three times as many traffic deaths occur in rural areas (including towns with less than 2,500 people) than in urban areas.

Reason for this, according to the Texas Safety Association: the abundance of driving done on open roads, which most often are in rural areas, and increased speed.

In many fatal auto accidents, only one car is involved.

Expressways have fewer traffic fatalities, based on number of miles driven, than rural roads. The average mileage death rate recently was a third as high as the rate for rural roads.

Males are involved in almost eight times as many fatal accidents as females. Naturally, they drive a lot more than the girls do.

Driving too fast for conditions accounts for more than half of the rural, fatal accidents in Texas.

Saturday — not Sunday — is the most dangerous day of the week for drivers. About one out of every five traffic fatalities occurs that day. Sunday is second most hazardous.

Safety men say the new interstate highway system can save as many as 3,500 lives a year, and that use of seat belts could

save an additional 5,000 lives annually.

While few slow drivers ever run afoul of the law, they're still a highway hazard. Driving too slow can cost a life — your life, or the life of a motorist who takes a chance and passes you when he shouldn't. Keep pace with traffic.

Odds are that if your car isn't up to snuff, safetywise, the fault will lie with the rear lights, brakes, front lights or exhaust system. When a hazard is found at vehicle safety checks, those four problems are the ones that crop up most often.

TAX-MAN SAM SEZ

The fact that Internal Revenue collects 97% of our taxes without any enforcement effort on the part of Internal Revenue is one of the finest compliments to the American citizen that could be paid. The tax folks believe that most American taxpayers want to do what is right. They also want IRS to see that other folks do what is right. None of us want to pay any more than we owe but we are willing to do our share if the other fellow is made to do his share.

State Capitol NEWS

Austin — In a period of deep gloom about state finances, Texans had to pinch themselves to believe the good news.

U. S. Supreme Court ruled that Texas does indeed own its tidelands for 10 1/2 miles out — just as Texans have been claiming for 115 years.

Financially, it's a long-range gain at best. But as a moral victory for Texas principles, it's the biggest thing since the Battle of San Jacinto.

Revenue from the publicly owned land will go into the permanent school fund. Problem of Texas' bankrupt general fund is unchanged.

How much money comes to the school fund will depend on how much oil is under the submerged lands and how good is the market. Money going into the permanent school fund — from mineral leases, royalties, bonuses, etc. — is invested, and only the income from these investments may be used for current school spending.

Thus far, the oil yield from Texas tidelands has been far from spectacular. There have been only 24 producing oil wells and 47 gas wells in 22 years.

But if conditions are promising, oil men undoubtedly will keep trying. As an immediate effect the state will get some \$29,000,000 in mineral payments that accumulated while the issue of state or federal ownership was being thrashed out.

POLITICKING VACATION

Gov. Price Daniel will spend his vacation politicking for U. S. Sen. Lyndon B. Johnson.

First stop will be the National Governors Conference in Montana June 26-29. After that, said the governor, he'll vacation and visit around with other governors where he feels he can do the Texas favorite son's cause the most good.

And after that, he will go on to the National Democratic Convention in Los Angeles July 11.

Daniel predicted Johnson would lead on the first ballot at the convention.

ANTI-INCOME TAXERS

Voters who oppose the federal income tax and the United Nations will find a haven in the Constitution Party.

Like the Republicans and Democrats, the Constitution Party will hold a state convention June 14 to name delegates to a national convention.

At a preliminary meeting in Austin, delegates were selected and instructed to work for a ticket headed by J. Edgar Hoover for president and Tom J. Anderson of Nashville, Tenn., for vice president.

Constitution Party also nominated candidates for all statewide offices except governor. Gubernatorial nominee was omitted, because if he should receive 200,000 or more votes in a general election, state law would require the party to go to the expensive primary nominating route next election year.

HOSPITAL NEEDS GROW
Deficit or no deficit, the State Hospital Board says the hospital system has increased money needs that must be reckoned with.

Board has voted to ask the Legislature for a \$107,000,000 appropriation for the 1961-63 period. This would be \$34,000,000 more than the present allocation.

Part of the extra funds, about \$2,000,000 a year, would go to hire extra people so present staffers could change from the present 44-hour week to a 40-hour week. Board has recommended this change to put hospital employees on equal footing with those of other state agencies.

But the main problem, says the Board, is that the hospital system is getting more and more patients and needs more money to take care of them. In addition, it has the problem of caring for many oldsters who are not really mentally ill.

YOUTH NEEDS CITED

Another state agency with a story of urgent need for more state support is the Texas Youth Council.

Youth Council has the responsibility for trying to stem the tide of rising juvenile delinquency and also to provide homes for children who have none of their own.

For this task in 1961-63 the Council is asking for a \$13,695,436 appropriation — up by \$3,500,000 from the present.

Some of this would be used for new construction at the Gatesville Training School for Boys, Gainesville Training School for Girls, a state home for orphaned Negro children and for additions to the Waco and Corsicana State Homes for orphans.

It also would enable the Council to set up a parole supervision staff to follow up on the rehabilitation of youngsters released from training schools.

SHORT SNORTS

E. W. Killian has been named by the State Hospital Board to be superintendent of a new state school at Denton which will care for 1,050 mentally retarded patients. Killian has been superintendent of the Austin State School.

Rep. Frank McGregor of Waco withdrew from the race for Speaker of the House with a prediction that Rep. Wade Spillman of McAllen would win. McGregor said his poll indicates Spillman has 67 pedges with good prospect to get the nine more needed to win.

Some of Texas' potential

statements of the 1970's will gain early experience in practical politics when 565 senior high school boys come to Austin for a five-day Boys State meeting ending June 11. Group is divided into "political parties" and elects state officials from the governor down. American Legion sponsors the "laboratory in citizenship" for "outstanding teenagers."

James N. Ludlum has left his post as first assistant attorney general to go into private law practice with Jake Jacobsen, former administrative assistant to Governor Daniel.

Texas farm prices, by mid-May, were down two percent from a month ago and 10 percent from a year ago. U. S. Dept. of Agriculture noted that livestock and livestock products had the biggest drop — 7 percent from a month ago and 11 percent from a year ago.

**Farm Bureau Plans
Goodwill Tour of
Mexico in July**

Waco — Plans have been completed for an 11-day Texas Farm Bureau Goodwill Tour to Mexico July 11-24, according to an announcement by J. H. West, president of the state farm organization.

Included in the tour will be

visits to places of agricultural interest, sight-seeing in and around Mexico City (including a bullfight), visits to the Floating Gardens of Xochimilco, the fabulous mountainside spa of San Jose Purua, the Pacific resort of Acapulco, plus stop-overs in quaint and historic towns such as Taxco, Cuernavaca and Morelia.

The Texans will fly to Mexico City July 14 and return to Texas by air on July 24. Touring in Mexico will be by either automobiles or air-conditioned motor coaches. Most of the land tour will be in the cool and scenic mountains and valleys of Mexico.

A royal welcome can be expected in Mexico for those who sign up for the tour. Sr. Julian Rodriguez Adame, Minister of Agriculture of Mexico, has extended, through West, an official invitation to Texas Farm Bureau members to visit Mexico this summer.

Anyone desiring information about the Goodwill Tour should contact the Texas Farm Bureau, Box 489, Waco, Texas.
