SANTA ANNA, COLEMAN COUNTY, TEXAS, FRIDAY, DECEMBER 2, 1960

NUMBER 49

We Urge You To Vote Friday

One of the most important things qualified voters of the Santa Anna Independent School District can do Friday, December 2, is to go to the polls and vote your conviction on the proposal to increase the school tax. We urge you to vote FOR the proposal.

The voting box will be located at the City Hall in Santa Anna. The election is being held on Friday because it is felt more people will have the opportunity to vote that day, with less inconvenience, than any other time in the year. This is the day of the Christmas Opening in Santa Anna and also the day of the annual Lions Club Pancake Sale. Sometime during the day most every resident of the school district will be in town, and while you are here, you are urged to take the five or ten minutes necessary to cast your ballot. The polls will be open from 8:00 a. m. to 7:00 p. m.

There is little we can say about the proposal that has not already been said. Our school is operating at a deficit and it cannot continue to do so. Either the school program must be curtailed, or more money must be forthcoming for its operation. The tax increase is the most convenient method for everyone concerned. It will furnish the school the needed money for its operation, and will permit the school to offer some courses that cannot be offered under the present conditions. Badly needed are courses in foreign languages and higher mathematics, as well as some smaller classes for teachers that are overloaded with students. Also maintenance to the buildings has been allowed to decline, simply because money was not available to properly maintain the school plant.

Anyway you look at it, this is false economy. It will cost more in the long run to let property deteriorate rather than maintaining it in a good operating condition.

It is also false economy to think some of the badly needed subjects are not necessary in the school system. Students who want to go into various colleges to study their chosen professions, must make up the courses missed in high school, and in some fields it is almost impossible to get admittance to some college unless the student has foreign language and higher mathematics in high school. Many students in over-crowded classes are not getting the personal attention they need and require for normal advancement.

This proposal is for the benefit of everyone in the district, regardless of whether you have children in school or not. Naturally, of primary importance right now, is the present students and those who will be students in future years. Every opportunity should be extended them in order for them to acquire the best education possible. Each year the need for a good education increases, and if our students of today are to be useful citizens of tomorrow they must be afforded the opportunity for a good education.

To those citizens who do not have children in school and possibly never will have, it is also to your advantage that a good school is nearby. The value of your property could decrease considerably, due to the failure of the school system not having the proper amount of money to operate on.

And speaking of the value of

County Savings Bonds Reach 93.9% of Goal

October E and H Savings Bonds sales in Coleman County totaled \$51,140 according to Mr. Robert I. Bowen, Chairman of the county Savings Bonds Committee.

Sales for the first ten months of 1960 were \$441,216 which represents 93.9% of the county 1960 goal. First ten months sales in Texas were \$129,501,248 or 78.2% of its 1960 goal of \$165,500,000.

"Savings Bonds are an investment in the future. For years the Treasury Department sold bonds as a doorway to opportunity — a new home, college education, retirement, or some other dream of the future. But today the future itself is threatened. With the dawn of the missile age, the world is suddenly aware that one more war could be the last. The hope of the age is for peace — for some guarantee that there will be a future to look forward to. We must have PEACE POWER — the strength to keep the peace; the knowledge to make it lasting. Savings Bonds, in building economic stability, help strengthen America's peace power," Mr. Bowen concluded.

Buy Toys That Are Safe

Parents, uncles and aunts are being urged this year to buy safe toys for children — toys that are not likely to cause fire, shock or explosion.

The National Board of Fire Underwriters points out that miniature rockets, airplanes and automobiles that use kerosene, gasoline, or carbide for fuels, may be hazardous for the very young.

Parents should supervise all play with electrical toys, or those using fuels and chemicals, the National Board advises.

Visitors during the Thanksgiving holidays and having dinner in the Mark Davis home were: Don Davis and Linda Denny of Childress; Mr. and Mrs. Earl Irick Sr. and family, Mr. and Mrs. Earl Irick Jr., and family, Sparks Whetstone and Mrs. Jennie Whetstone, all of Santa Anna; Charles Jetton and family of Coleman; Mrs. Winifred Stark and Brice of Brownwood; Rex Stark and family of Abilene; and Mrs. Tom Bryan of Rockwood.

property — not one piece of property in the school district is rendered on the county tax rolls in the proper amount. All are rendered low as compared with their present values. In order that your property may continue to be rendered at the low figure it is today, and for our schools to have the proper amount of money needed to operate on — it is imperative that this tax election carry.

Again, let us urge you to go to the polls and vote your conviction — and let us urge you to vote FOR the tax increase. Anyone who does not have transportation to the polls is invited to telephone 310 and transportation will be furnished you by the Junior Chamber of Commerce.

Basketball Games This Week

Basketball games are scheduled for Thursday and Friday nights of this week in the local gym. The high school girls and boys will play in both games.

On Thursday night Rising Star will be the visiting teams, and on Friday night Early will be the visiting teams. Games will begin at 7:00 p. m. both evenings.

The Rising Star girls won over the Santa Anna girls in three of the six games lost by the local team last year.

Mr. and Mrs. W. W. Sudderth and children of Eldorado spent the weekend with her parents, Mr. and Mrs. Amos Taylor. Mrs. Sudderth remained for a longer visit. Mr. and Mrs. Ollie Catwell of Brownwood and Mr. Hill Blanton of Owen were visitors in the Taylor home Sunday.

Visitors with Mrs. H. M. Smith during the weekend were Mr. and Mrs. R. O. White and Mr. and Mrs. Lewis Jordan and children of Odessa. They also visited the Gene Ray Griffins in Killeen on Thanksgiving Day. The group brought a complete turkey dinner with them, then during the remainder of the week built Mrs. Smith a concrete back porch and concrete steps on her front porch.

Mr. and Mrs. A. G. Weaver and family of Dallas were weekend visitors with his mother, Mrs. Burgess Weaver.

Mrs. Dan Wristen returned recently from a visit in New Mexico.

Letters to The Editor

Dear Citizens: Our school system must have additional revenue! Every business has higher operational costs today than it did fifteen, ten or even five years ago. There is nothing unique or different in a school system which makes it exempt from rising costs. Our school board and school administrators are doing an excellent job in the economical operation of the school district. Indeed, if they had not been so efficient, this increase would have been necessary several years ago. The only possible way to meet these higher costs is to increase tax revenue or reduce educational standards. The proposition on which we will vote Friday is the simplest, most economical, and most practical means of providing the modest increase in funds which is required.

As we all know, the retention of our school system is essential to the well being and even the existence of our community. We cannot afford to reduce our educational standards. Instead, we desperately need to raise them. The quality of instruction in our school is good in the courses being offered. This has been shown by recent standard achievement tests. However, many important courses are not available to our students because of a lack of funds. Our graduates are even denied admission to some college divisions because of lack of required courses in high school. Others are seriously handicapped by lack of high school background in certain fields. With increasing college enrollments and increasing competition for college admission, this problem will become even more serious unless steps are taken to correct it now.

The cost of this increase will amount to less than ten dollars per year for the average property owner. Don't handicap today's children in their competition for tomorrow's opportunities. Vote for better education. Vote for the future. Vote for Santa Anna. Allyn W. Gill, President Santa Anna Jaycees

Dear Friends and Fellow Taxpayers:

Friday, December 2, each of us will be given the opportunity to do something really worthwhile for our children's future and for the civic and economic future of our entire school district.

The cost will be minor, only a maximum one-third more than the school tax we are now paying.

Let's all vote Friday FOR the School Tax Amendment, which will mean so much to all of us. Your fellow citizens, Pat and Jewel Hosh

TFB Asks Decrease In Govt. Regulations

Waco — (Sp1) — Texas recommendations to the national convention of the American Farm Bureau Federation call for a gradual elimination of government regulation of individual farming operations.

Voting delegates from Texas and 48 other state Farm Bureaus will consider recommendations for national policies at the 42nd annual meeting of the AFBF Dec. 11-15 in Denver. Texas Farm Bureau state policies and recommendations to the AFBF were adopted by 678 voting delegates to the TFB meeting Nov. 9-12 in Dallas.

On the subject of a national farm program, the TFB delegates approved a recommendation which said: "Price supports should take account of competitive conditions, supply and demand, and market trends." The resolution added that price supports should neither be based on arbitrary formulas nor left completely to the discretion of the Secretary of Agriculture.

In this same field, the delegates said that:

1. We reaffirm our desire to move as rapidly as possible to programs which will more effectively serve the interests of farmers at a greatly reduced cost to taxpayers.

2. Where price support and adjustment programs are used they should be designed to facilitate orderly marketing rather than to guarantee unrealistic prices.

3. With less interference from government, the marketing system will be freer to operate effectively and efficiently. This will encourage the expansion of market outlets and the production of quality products in line with market demand. Thus we can better meet competition at home and abroad and gradually eliminate government regulation of individual farming operations. We are opposed to any effort to license agricultural products.

Increased Pork Production Might Be Profitable in Texas

College Station — During 1959, Texas ranked 15th in pork production in the United States. The 400 million pound production figure was far short of the total consumption of pork in the state, says Lloyd Bergsma, extension livestock marketing specialist.

During the period 1945-49, Texas hog growers produced an average annual pig crop of 2,248 thousand head, which accounted for 2.6% of the total U.S. pig crop. During the period 1955-59, however, Texas accounted for only 1.8% of the total U.S. pig crop. The average annual pig crop for this period was 1,715 thousand head. This is a 24 percent cut-back in the annual state pig crop in a 10-year period, explains Bergsma.

It is somewhat surprising that Texas producers would reduce hog production to this extent when feed supplies are so abundant, the specialist observes. Grain sorghum production in the state during 1959 was more than twice the 1948-57 average. The estimated grain sorghum supply on October 1 of this year was in excess of 9 million tons, or 60 percent of the grain sorghum stocks in the United States. For the first 8 months of 1960, grain sorghum prices have averaged 82.5% that of corn.

With the huge feed reserve and the large shipments of pork coming into the state, expanded hog production may offer a good potential for expanding incomes of Texas farmers, Bergsma concludes.

Miss Darlene Mercer, student nurse in San Angelo, spent the Thanksgiving holidays with her parents, Mr. and Mrs. John Gregg and family. The Greggs, accompanied by Mr. and Mrs. Scott Cole and family of Coleman, took her home Sunday evening and visited in the home of Mr. and Mrs. Bryan Blevins.

Holiday visitors with Mrs. J. J. Gregg and other members of the family were her daughter, Mr. and Mrs. J. B. Jones and Buddy of Bishop and her son, Mr. and Mrs. R. B. Gregg and children of San Antonio.

M/Sgt. and Mrs. W. C. Spencer and boys of Abilene visited last week with her parents, Mr. and Mrs. Tom Mills.

Mrs. L. D. Ladd spent the weekend in Fort Worth with friends.

Christmas Opening Set For Friday With Parade

Aunt Jemima Pancake Sale To Be Friday

The annual Lions Club Aunt Jemima Pancake Party will be held in the old variety store building Friday, December 2. The pancakes will be served from 11:30 a. m. to 1:30 p. m. and from 3:30 p. m. to about 8:00 p. m. More than 1,000 advance tickets have been sold by members of the club.

The pancakes will be cooked and served by members of the club. To be served with the pancakes will be bacon, milk or coffee, Parkay Margarine, and Kimbell's Syrup. Everyone who eats the pancakes is entitled to all you can eat for only 50 cents.

There will also be about 80 door prizes given away during the final half-hour of the party. All who attend are requested to write your name and address on the back of your tickets, and you do not have to be present to win one of the door prizes.

W. R. Mulroy Is Top Ticket Seller for Lions

W. R. (Bill) Mulroy, Lions Club Tail Twister, was the top ticket seller of admission tickets to the Aunt Jemima Pancake Sale, to be held Friday, December 2, in the old variety store building. Mulroy sold 98 tickets.

The ten men selling the smallest number of tickets, and who are supposed to be in the annual Christmas Opening Parade at 2:30 p. m. Friday are: Bill Cupps, Douglas McArthur, Tom Stewardson, Douglas Moore, Raymond Jones, Harry Crews, Jimmy Boggus, Cullen N. Perry, Fred Murray and Ford Barnes. (Those men are to be dressed as women and be a part of the parade.)

The club sold a total of 1,028 tickets during the month of November. This is the most advance tickets ever sold for one of the Pancake Sales.

Wool Promotion Financing Announced

Funds for market promotion on wool and lambs will be deducted from National Wool Act payments earned during the 1960 marketing year at the same rate as in previous years of the program, Vernon Bullard of the Coleman County Agricultural Stabilization and Conservation Committee announced November 28, 1960.

Deduction rates for the year April 1, 1960, through March 31, 1960, will be 1 cent per pound from shorn wool payments and 5 cents per hundredweight from payments for unshorn lambs. The funds will be used for advertising, promotion, and related activities designed to increase the market for wool and lamb.

The wool and lamb producers' self-help promotion program is carried out under an agreement between the Secretary of Agriculture and the American Sheep Producers Council. The present agreement was approved by producers in a referendum in the fall of 1959.

Assembly of God Announce Christmas Program Dec. 14

The young people of the Assembly of God Church will present a Christmas Program Wednesday, Dec. 14, beginning at 7:00 p. m.

The church extends a cordial invitation to everyone to attend the program, entitled "The Birth of Christ."

ROBERT FRITCHARD ON ALL-DISTRICT TEAM

Robert Fritchard, son of Mr. and Mrs. Bill Fritchard, was placed on the All-District football team in his district recently. He attends school at Southland between Post and Lubbock. They play 8-man football.

The Christmas Shopping Season will open in Santa Anna Friday, December 2, with a downtown parade that will have a number of floats and bands participating. Santa Claus will also be in the parade and will have candy for all the children of the area.

Most of the display windows in the business area are taking on the season's dress, and will be unveiled on Friday.

The parade will form on Avenue B, west from North 1st Street. They will parade to North Lee Street, then south to Wallis Avenue then west through the main part of town to North 5th Street, then back through the business area, then south on North 1st Street, around the block and will disband between the bank and hotel buildings.

Thus far it is known that both the Santa Anna Bands, the Howard Payne College Band and the Coleman Bluecat Band will participate in the parade. Some others have been invited and may be here. It is not known at this time how many floats will be in the parade, but several have indicated they would have floats. Also there will be several members from the Lions Club dressed as women, representing those who sold the least number of admission tickets to the Lions Club Pancake Sale, being held the same day.

Also in the agenda for the day is the proposed tax election for the Santa Anna School District. Plans are for a full day of entertainment for everyone in the entire Santa Anna area. All are invited to be in town throughout the day for the big event.

Both Present For Merchandise Coupons Saturday

Both names called were present for the \$25.00 in merchandise coupons at the weekly Santa Anna Merchants Christmas Program the past Saturday. Names called were Mrs. Joe Guerrero on a ticket from Piggly Wiggly and Mrs. B. K. Riggs on a ticket from Bosch Grocery.

This Saturday four names will be called for \$25.00 each in merchandise coupons. The program will be held at 3:00 p. m. in the old variety store building. Everyone is invited to be present.

You'll be happier if you are necessary to somebody.

Proposed School Tax Increase

Study the chart below and you can see for yourself that the proposed tax rate would not be an expensive item — keeping in mind that the new tax rate is based on your present valuation and would not affect your other State and County taxes.

Your State & County Assessed Valuation is	Your School Tax Now is	Under the proposed rate the Maximum tax would be	Maximum Increase
\$ 500.00	\$ 7.50	\$10.00	\$ 2.50
1,000.00	15.00	20.00	5.00
1,500.00	22.50	30.00	7.00
2,000.00	30.00	40.00	10.00
2,500.00	37.50	50.00	12.50
3,000.00	45.00	60.00	15.00

All the increase would go to the local schools for operation and maintenance for the buildings. None of the increase money would be used to increase teacher salaries.

State Capital NEWS

Austin — New efforts to change Texas' "scratch method" of voting are in prospect as a result of disagreement growing out of this year's close general election.

As the law now stands, voters using paper ballots are required to scratch out the names of all candidates for an office except the one for whom they are casting their vote.

In this year's election, thousands of voters scratched either the Republican or Democratic candidates but didn't notice or bother to scratch the small lists of candidates from the Prohibition and Constitution parties. Some election judges threw out these ballots. Some went ahead and counted them.

Republican leaders contend that they might have won Texas, instead of losing by a thin margin, if the same rule had been applied on all these carelessly marked ballots.

Further, the GOP chiefs charge, the scratch method was designed to encourage voters to vote a straight party ticket.

Actually, scratching is the old, traditional way of voting in Texas. For a time during the fifties the law was changed so that a voter could either scratch out the names he didn't want or put check marks by the ones he did want. But this either/or approach was even more confusing, both to the voters and ballot counters. So the legislature changed back to the scratch-out method.

Republican leaders failed to convince an Austin district court or the state canvassing board (Gov. Price Daniel, Sec'y of State Zollie Steakley and Atty. Gen. Will Wilson) that there was any evidence of fraud in the way ballots were counted this year.

But since the Legislature hardly ever has a session without doing something to the election code, the GOP will have another inning.

House General Investigating Committee will study the merits of holding a veterans land bond sale Dec. 5.

Veterans Land Board has scheduled sale of \$12,500,000 in bonds for that date, but Jerry Sadler, due to become land commissioner Jan. 1, says the sale should wait until next year. Sadler said that, because of the upcoming change of federal administrations, interest rates might be lower next year. This would enable the state to sell the bonds at a lower rate, paying less for the money it borrows.

Voters, by approving a constitutional amendment Nov. 8, authorized the Land Board to pay up to 3.5 percent interest on the bonds. Previous ceiling had been 3 percent — too low to find takers in recent months.

In a rare turnaround, the State Supreme Court reversed its previous decision on an insurance case that construed shock from watching a fire to be "accidental death."

In the case, an accountant died from a blood clot on the brain about a month after having watched fire destroy his office records. Two lower courts held that the beneficiaries of the accountant's insurance policies were entitled to the double indemnity provided for accidental death.

Several months ago the Supreme Court issued a 5-to-4 decision upholding the lower courts. On motion for re-hearing, it reversed this and held, again 5-to-4, that the case was not "accidental death."

More than usual interest will center on Governor Daniel's appointment of a new chairman of the conflict-torn State Board of Insurance.

Motorists will lose an outspoken friend on the Board when Penn J. Jackson leaves to return to his old post as district judge in Cleburne.

Jackson has resigned the insurance post effective Jan. 1. He has been in open disagreement during the past few months with the other two board members over the so-

called merit rating plan for auto insurance. He favors scrapping the present controversial plan and letting companies set up their own basis.

Board Members Robert W. Strain and Ned Price want to continue the controversial plan, at least for a time.

Public indignation over the new program has been high. It ups auto insurance rates about 30 percent on drivers who must pay the high penalty for receiving traffic tickets, regardless of their accident records. Only other recourse is to do without insurance.

Jackson's resignation means there will be two insurance board appointments to be confirmed by the Senate next session. Price was appointed last spring and has not yet come up for Senate approval.

Merit rating has stirred up strong feelings, pro and con, among legislators and undoubtedly will be a factor in the behind-closed-doors discussion of Board appointees.

State Finance Advisory Committee will recommend a payroll tax, borne equally by employers and employees, to bolster the state's sagging treasury.

Commission plan calls for a 1 percent tax, half to be taken from the employee's wages, half to be paid by the employer. It would raise an estimated \$100,000,000 to \$110,000,000 a year. Even this would not cover all the state's new money needs if the legislature attempts to meet demands for school improvements and medical care for the aged.

Payroll tax, actually an income tax on both businesses and individuals, is certain to meet the objection that it is not graduated according to ability to pay.

Another money-raising proposal that is already stirring up sand is a proposed \$50 a year raise in tuition for state colleges.

Commission on Higher Education voted to recommend this increase to the Legislature, saying it would bring in an additional \$5,000,000 a year for college support.

It would mean the tuition for a nine-month term would go up from \$100 to \$150.

Tuition increases, when they have come before the Legislature before, have set off hot debates. Opponents charge that it "keeps the poor boys out of college."

Commission also voted to ask

the Legislature to admit the University of Houston to the state college system — provided, among other things, that it will not cut down on support of existing state colleges.

Beginning Jan. 1, private clubs in Texas can operate only if they meet the following requirements set by the Liquor Control Board: (1) Provide food service. (2) Meet basic operating expenses from dues and fees rather than from liquor sales. (3) Be managed by officers elected by the membership. Rules are designed to prevent operation of open saloons under the guise of private clubs.

Fire Losses Heavy In Winter Months

Fire losses during the Winter months are the heaviest of the year, and the National Board of Fire Underwriters urges home owners to help keep down the fire toll by following these suggestions:

• Right now, check the basement or furnace room. Remove any paint pails, oily rags, old newspapers, broken furniture or other rubbish that may be near the heating plant.

• If your gas or oil heating equipment has been functioning erratically, call your service man now to inspect it and put it in proper running order.

• Your flue pipes, vent connections, gas vents and chimneys should have been inspected at the beginning of the heating season. If you have not had such an inspection made, have it done now.

• Make a check to be sure walls, ceilings and partitions near boilers, stoves, furnaces and heating pipes are protected by noncombustible insulation.

• If you are using portable oil or gas heaters, always turn them off when you retire at night.

Coastal Oyster Crop Affected By Heavy Rains

Rockport — Recent rains and the floods on some Texas rivers are lowering prospects for the oyster season this year, according to Howard T. Lee, director of the marine division of the Game and Fish Commission. Rivers are emptying tremendous loads of fresh water into the bays, thus lowering the salt-to-water ratio which in many cases is becoming too fresh for the survival of bay oysters.

Particularly hard hit is the San Antonio-Espiritu Santo Bay area, which last year produced 600,000 pounds of oyster meats, comprising 48 percent of the State's local production. Floods on the Guadalupe River, which empties into San Antonio Bay near Seadrift, have virtually turned the bay fresh. The oysters have already begun to bloat and die. In addition to the direct effects of the lowering of the salinity, the oysters are being weakened by an epidemic of fungus parasite which thrives in fresh water.

Some workers have lots of "get-up-and-go" when it's time to get up and go home. Yes, sir, they're the ones who get "fired with enthusiasm."

Time to Check Heating Equipment

College Station — Fall is heating equipment "check-up" time, says W. S. Allen, extension agricultural engineer. It will pay to make sure that all of your heating equipment is checked out and ready to give continuous service for the rest of the winter.

If you have a central heating system, make sure that the filter is clean. Replace it if necessary. Clean off any accumulation of soot and dust, and check the gas and electrical connections. Oil the fan motor unless it is of the sealed unit type, and make sure the fan belt is not worn and unserviceable, Allen continues.

Space heaters should be checked for faulty connections and dirty burners. They should be located so that they cannot overheat any nearby equipment or materials.

If you have a wood-burning fireplace, an annual check of this equipment is in order. Be sure that there are no cracks in the brick. Such cracks might allow sparks to get to wood or other combustible materials, and this could cause a fire that you don't want. Make any repairs necessary.

No matter what kind of heating equipment you have, it normally requires some maintenance and an annual check-up. Look over yours now, and if there is any question of serviceability of any part of your equipment, repair it or obtain the assistance of a competent service man.

"A few minutes now could prevent some uncomfortable times this winter," concludes Allen.

Dried Honey Developed By USDA Engineers

College Station — Dried honey, a new product resulting from a drying process devised by U. S. Department of Agriculture research engineers, gives bakers and candy makers an opportunity to use this wholesome sweetener to a greater extent than ever before.

When reconstituted with water, dried honey has substantially the flavor of fresh liquid honey, and its free-flowing granular form provides new convenience and economy in handling. This product is expected to increase the use of honey, especially in baking. The stickiness of liquid honey and its tendency to crystallize have so far limited its use by bakers. Dried honey may also be used

in packaged baking mixes, for extra sales appeal and to give homemakers a convenient means of using honey in baking. Honey adds to the flavor, color, texture, aroma and keeping quality of baked goods.

The process used to dry honey is essentially the same as that for preparing full flavor fruit juice powders. It consists of vacuum-dehydrating liquid honey rapidly in a mechanically agitated thin-film evaporator, to yield a molten mass nearly free of water. This molten material is then fed between two chilled metal rollers, which squeeze it into a thin sheet while cooling it to room temperature.

The sheet is taken from the chilling rolls in the form of brittle flakes, which are ground into a coarse powder suitable for packing in sealed containers. Because the drying process requires only a few seconds, most of the original honey flavor is retained.

Storage tests show that dried honey will retain its flavor and color for a year at normal room temperature. Caking occurs at higher temperatures, but it can be retarded by mixing sugar with the honey before drying or by keeping moisture low with a desiccant in the package.

Honey "essence," a byproduct, is obtained by condensing and collecting the water removed from the honey, then distilling from it a liquid with highly concentrated flavor. In making fruit juice powders, the essence is added to the powders to restore full flavor, but since dried honey has adequate aroma and flavor, the honey essence can be sold separately as a natural flavoring material.

Recognize Oat Yellow Dwarf Disease

College Station — Yellow dwarf disease of oats is likely to be seen in northern and central Texas during the fall and spring and in southern Texas during the winter. Yellow dwarf infected oat plants range in color from yellow to red. Sprouting of several shoots from a single seed is reduced. Diseased plants may reach half their normal height. Heads (panicles) may fail to completely form or set seed. Root systems are also dwarfed and may be unable to reach or absorb sufficient water to maintain growth of the infected plant. Wheat and barley also are susceptible to the disease.

The yellow dwarf virus is carried from infected to healthy plants by greenbugs, English grain aphid, corn leaf aphid,

apple grain aphid, rose grass aphid and the bluegrass aphid. Wild grasses serve as a source of infection, for the oat plants.

Damage by the disease is most severe when the plants are infected while young. For example, if plants are infected while in the three leaf stage, up to 94 percent yield reduction may occur. If plants are infected just before heading, yields generally suffer very little.

The breeding of resistant oat varieties appears to be the only practical means of control.

Varietal differences have been noted but no adapted resistant varieties are now available. No effective nor economical method of insecticidal control of the aphids which spread the virus has yet been developed.

Contact your county agent for more information. Ask for a copy of L-465, "Diseases of Oats."

Marvin Richardsons Observe Golden Wedding Saturday

Mr. and Mrs. Marvin Richardson of the Rockwood community, observed their Golden Wedding anniversary in their home Saturday afternoon, between the hours of 2:00 and 4:30 p. m. About 100 guests called during the hours.

Sponsored by their eight children, out of town guests were present from Bangs, Brady, Abilene, Midland, Fort Worth, Rhame and Bishop. Mrs. D. S. Milligan greeted

guests at the door and Mrs. S. E. Richardson poured tea. Mrs. C. E. Richardson served cake squares, decorated with golden wedding bells and the numerals "50".

The serving table was covered in lace over gold, centered with gold and bronze mums and flanked by gold candles.

Granddaughters Cynthia Phenix of Crane and Arnette Cooper of Snyder assisted in the dining room. Another granddaughter, Betty Richardson of Coleman, played piano music throughout the afternoon. Mrs. Edgar Shelton presided at the register. Others in the house party were

Mrs. J. E. Richardson and Mrs. Mary Milligan of Coleman, Mrs. R. A. Milligan and Mrs. Marcus Johnson of Rockwood, Miss Ruth Milligan of Abilene and Mrs. Tom Newman of Midland.

Mrs. Richardson wore a corsage of yellow rose buds on a green costume suit. Party rooms were decorated with yellow, gold and bronze mums and yellow rose arrangements.

Engagement Announced

Mrs. E. W. Hanks of Woodville, Texas, announces the engagement of her daughter, Mary Alice, to Mr. Robert Earl Lancaster, son of Mr. and Mrs. Lige Lancaster of the Trickham community. The couple plan to marry in the Ebenezer Baptist Church in Woodville, February 11th.

The bride-elect is an employee of the Woodville telephone company and Mr. Lancaster is an employee of a tile company in Woodville.

FARM INCOME FORECAST

For what it is worth, the outgoing U. S. Department of Agriculture administration of Secretary Ezra Taft Benson has prepared and released a forecast of farm income for 1961, which will be the first year of the new Democratic administration.

According to the forecast, farm income for next year should continue at about the same level as 1960, taking no account of any new Kennedy-Johnson Democratic farm programs.

Programs affecting most 1961 crops, of course, will have been set before the new administration gets well under way, and there would not be time before the planting season for sharp changes to be made. The forecast anticipates relative stability in cash receipts, farm cost rates and net farm income.

In summary, the forecast predicted about as follows:

"Relative stability in cash receipts, production expenses, and net income will likely continue in 1961. Reflecting record farm output this year, the volume of farm marketings is running about three percent above 1959 and may increase further in 1961 if growing conditions are average or better.

"Livestock production will

likely increase in 1961. Cattle prices in 1961 probably will continue to decline under the impact of larger marketing and result in some further decline in cash receipts from cattle.

"Marketings of hogs will continue below a year earlier well into 1961, reflecting the reduced pig crops this year, and prices are expected to remain relatively high well into 1961.

"Prices for dairy products and eggs are expected to hold above a year earlier well into 1961. But egg marketings in the last half of 1961 are expected to rise above a year earlier and prices may be lower. Prices for most crops so far in 1960 average about the same as a year earlier, and they probably will continue fairly stable in 1961."

President-elect John F. Kennedy has pledged to sponsor a broad program aimed at boosting farm income by various means, including higher price supports, stricter production controls, and an intensive program for disposing of farm surpluses which tend to hold prices down.

The USDA forecast was included in a farm income report prepared for a department outlook conference with government farm economists, state extension leaders and others taking part.

About Your Health

It may have seemed tough to think of many things to be thankful for last week during these ominous times, but a look at Texas' vital statistics show plenty to be thankful for. For instance:

Over a half-million babies were born during the two year period between September 1958 and August 1960. That equals almost 700 new babies each day.

During the same time period there were 152,000 deaths—a ratio of three births per death, certainly something to be thankful for.

These records were disclosed from figures compiled for the latest biennial report from the Records and Statistics Section of the State Health Department.

As a result of the birth to death ratio, Texas' population increased by 350,000 plus newcomers from outlying states, bringing the current total population to more than 9,500,000.

Filing birth and death certificates makes up the major portion of the Section's workload which totalled 800,000 records and amendments.

This brought the over-all re-

records on file at the State Health Department to a big 12,130,000 items.

Since 1936, deaths—during the first year of life—have dropped from 71 per one thousand and births to about 20 per thousand today. The maternal death rate has been cut 94 percent since 1936.

The amount of work needed to keep that many records and files accurate and up-to-date continues to grow.

Each certificate received is carefully reviewed, and for each error or omission noted, a query is forwarded to the person responsible for the mistake. During the last two years 25,000 such queries were mailed.

Adoptions are reported to the State Registrar and a new birth certificate in the name after adoption and showing the adopted parents as the natural parents of the child is filed.

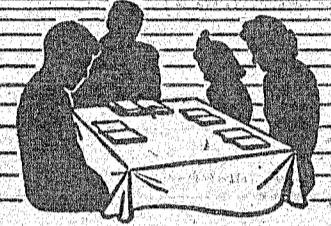

The original birth record and the certificate of adoption are placed in a sealed file. Over 19,000 reports of adoption were received from district courts.

Amendments for change of names were attached to more than 1,000 birth certificates based on court orders. (A weekly feature from Public Health Education; Texas State Department of Health.)

Mr. and Mrs. Clifford Stephenson spent the Thanksgiving weekend in Claremore, Okla., with their daughter, Mr. and Mrs. Charles Scarbrough and family.

Mr. and Mrs. J. V. Browning and family of Oklahoma City, Okla., spent the Thanksgiving weekend with her parents, Mr. and Mrs. J. W. Parker and other relatives.

Read Romans 8:35-39. He healeth the broken in heart, and bindeth up their wounds. (Psalm 147:3.)

Years ago a marvelously skillful craftsman worked in a tiny shop in one of our cities. He specialized in the restoration of what appeared to be hopelessly broken things. When a patron brought a ruined vase, a shattered statue, a shivered glass to him, there was no hope until it was entrusted to his care!

With loving, patient care, he would slowly fit together the fragments. By his clever skill, the broken thing would be made whole again. Years of the most patient, careful, persistent toil had gone into the mastery of his skill. No other possessed it; it was this man's alone!

The comfort of God is like that! It is God's skill, and no human has ever acquired it—and never will! As long as our broken and sinful lives are left in our hands, they remain broken. Only by placing them in God's hands can they be restored.

PRAYER:
Eternal God, nearer to us than breathing and closer than hands and feet, we commend ourselves anew to Thy keeping. In all the experiences of life, we pray for Thy continuing favor and the consciousness of Thy presence; through Jesus Christ, our Redeemer. Amen.

THOUGHT FOR THE DAY
The secret of having God's comfort is in placing things in His hands.

**A Hard Look at
Hard Liquor for
Christmas Party**

A hard look at hard liquor at Christmas office parties is being urged this year by the Texas Safety Association.

J. O. Musick, General Manager of the Texas Safety Association, said, "There is no doubt that many highway accidents during the pre-Christmas holiday season can be traced right back to the office party and its flowing bowl."

"It is rather incongruous that the happiest time of the year—the year-end holiday season—is the saddest time of the year for many families who have had their loved ones killed or maimed in highway accidents.

"We have no desire to dampen the traditional holiday spirit—rather we are trying to bottle up the source of a great deal of grief," Musick said.

Religious beliefs and faith hold the answer to the serious problems facing our country at every hand, but from a traffic point of view belief and faith without action result in tragedy.

"If we can find the key to translating these concepts into active love for our fellow man to preserve the life and safety of others, this year's holiday season can be one of the

**Your Baby Sitter
Should Know Rules
Of Fire Safety**

Baby sitters have become an American institution, and if you're having one in during the coming Christmas holiday period be sure the sitter is competent. The National Board of Fire Underwriters offers these suggestions, designed to keep your Christmas merry:

- Know the sitter.
- Be sure the sitter is adequately trained, and has a sense of responsibility and likes children.
- Be sure the sitter has met the children and any pets, especially the watch dog.
- See to it that the sitter understands that in case of fire she should get the children out of the house, call the fire department and notify the parents, IN THAT ORDER.
- Show the sitter all exits, and give instructions as to how to get the children out of the house in case of fire.
- Instruct the sitter to keep the children out of the kitchen, if possible, and be sure that she knows matches, electric cords, and appliances are not playthings.
- Provide sitter with flashlights to use in case of light failure.
- Parents should come home at the hour agreed upon, or telephone if unavoidably delayed.
- Make suitable arrangements for seeing the sitter home.

**Survivors of Pre-1940
Deaths May Now Get
Social Security Cash**

Social Security benefits may now be paid to survivors of workers who died before January 1, 1940, if the worker had at least a year and a half social security work after January 1, 1937, when he died, says Don Austin, Field Representative for this county for the Social Security Administration.

Before the social security amendments of 1960, no monthly benefits were payable to the survivors of a worker who died before 1940.
