VOTE BLAKLEY SATURDAY

During recent weeks we have not had a great lot to say about the Senate election that will be held throughout Texas this Saturday. Voting will be in the same voting boxes as in the primary several weeks ago, when Sen. William A. Blakley and John Tower were selected as candidates in a run-off to see who would succeed Lyndon B. Johnson in the U. S. Senate.

The Election will be held Saturday and we urge every qualified voter to go to the polls and cast your vote, for the man you think best suited to serve you in the U. S. Senate for almost the next six years.

We are going to vote for Sen. William A. Blakley. We feel he is by far the best qualified man to fill the important place in the Senate. We hope you will do the same, and we could go into many reasons for our stand for Sen. Blakley, but because we have been working under a severe handicap for the past several weeks and the fact that most of this issue of The News is dedicated to the Senior Class of 1961, we will just ask you to cast your ballot...and cast it for Mr. Blakley.

TO THE SENIORS

We would like to join many others in extending our best wishes and congratulations to the Seniors of 1961. We have put forth every effort possible to make this edition of The News one that you will be proud of and one that you will want to keep throughout your life span. In the years to come, just referring back to this issue of The News will bring many fond memories, and as you read through the columns of the activities recorded you will always be proud that you were a member of the Class of 1961.

Best wishes to each of you and may you succeed in whatever endeavor you undertake. The will to do whatever you desire is your greatest asset, and you have that will. Good luck and may God be with each of you as you enter the adult world.

Grain Season Gets Started This Week

The harvest of the annual oat crop in this area got underway during the weekend with the combining of a few fields of early oats. According to reports reaching us, the grain is not making a large number of bushels per acre, but the oats are testing pretty good.

Pierre Rowe, manager of the Santa Anna Co-op Elevator, said the farmers and combine operators should keep a close watch on fields and the operation of the combine. Getting the crop ready to harvest before the combine enters the field is of the utmost importance and having the combine in the proper working order is also very important.

With the crop being ready to harvest and the combine in proper working order, the oats will get a much better test, and the better the test, the better the price the farmer receives for his crop.

Both the local elevators began operation this week and will continue to operate throughout the season. Most of the grain is expected to be harvested within a very short time, weather permitting.

Good Rains Fall Here Friday And Tuesday

The first rain this particular part of the country has enjoyed since about the middle of February fell Friday morning of last week. It was a very welcomed sight and was fairly general in nature. Heavy rains fell to the far west of us, and up to five inches fell in the area south and west of Santa Anna in Coleman County. Just over two inches fell here. The area to the south also received good rains. The Brownwood area received light rains from the same formation.

Early Tuesday morning good rains began falling again, bringing more than 1½ inches to Santa Anna. Reports from most areas of the county seem to indicate this was also fairly general.

The rains will not be of much value to the early oats, but late grain and a lot of the wheat through this area should be helped a lot by the rains.

Legion to Hold Memorial Day Services Tuesday

The Jack Laughlin Post No. 182, American Legion, will hold a Memorial Day service in the Santa Anna Cemetery, beginning at 9:30 a. m. Tuesday, May 30th. The public is invited to attend the service.

The program will be short and is to be conducted by the Rev. Raymond Jones, pastor of the First Baptist Church and Chaplain of the local Legion Post.

Flags will be draped on the graves of all known servicemen early Tuesday morning. Other flags will be on hand to be placed on the graves of any missed, if the Legion officials are informed as to their locations.

Tuesday is Holiday

Most of the business houses in Santa Anna will be closed all day Tuesday, May 30, in observance of Memorial Day. This is one of six holidays observed during the year by local merchants.

American Legion To Meet Monday Night, May 29

All members of the Jack Laughlin Post No. 182 are urged to attend a called meeting, to be held at the City Hall Monday evening, May 29, at 7:30 p. m.

The Legion recently purchased a building here in town, and this meeting is to set the policy for the use of the building, and attempt to make preparations for the remodeling of the building.

It is urgent that all members attend, and others who are interested in the Legion are invited.

Commencement exercises for the 32 graduating members of the Class of 1961 will be held in the high school auditorium at 8:00 p. m. Friday, May 26. The Baccalaureate sermon was delivered Sunday evening by Rev. Walter Allen, pastor of the First Christian Church.

Principal speaker for the evening will be Dr. A. J. Quinn, head of the Department of Religious Education of Howard Payne College. LaQuinn Cooper, daughter of Mr. and Mrs. Jack Cooper of Rockwood, will give the Valedictory address. The Salutatory address will be given by Mary Rehm, daughter of Mr. and Mrs. Tony Rehm of Rockwood. William Brown, president of the School Board, will present the diplomas.

Dora Kirkpatrick Buried Sunday

Miss Dora Anne Kirkpatrick died in the Santa Anna Hospital Saturday morning, May 20th, after an illness of several weeks.

A lifelong resident of Santa Anna, she was born here to Mr. and Mrs. R. D. Kirkpatrick, early settlers of this area.

Funeral services were held at the Presbyterian Church at 3:30 p. m. Sunday, with the pastor, Dr. Ben H. Moore, officiating. Burial was in the Santa Anna Cemetery, under the direction of Hosh Funeral Home.

Miss Dora was a member of one of the early graduating classes of the Santa Anna High School. She later taught in the elementary school. She was a member of the Presbyterian Church.

Survivors include one brother, R. D. Kirkpatrick of Zephyr and one sister, Miss Jettie Kirkpatrick of Santa Anna. Miss Jettie and Miss Dora made their home together.

Pallbearers were Charles Mathews, Joe Eubank, Jasper McClellan, J. D. Kline, C. W. Stephenson and Louis M. Guthrie.

Attention Correspondents

Tuesday, May 30, is a legal holiday and thus no mail will be carried on the rural routes on that day. We request each of our correspondents to get your news letters in the Monday mail.

We also request those who turn in news to the correspondents, to please get them your news items as early as possible.

"GUARANTEED STAND" SEED MAY BE NO BARGAIN

The "whoop-la" bally-hoo gimmicks of big-time advertising have found their way into the important Texas seed market, and many Texas farmers are facing the test of cautious common sense versus the "don't-delay" push of ad agency promotions.

The gimmick in this instance is the drive by large operators to sell "guaranteed stand" seed to farmers at higher-than-normal prices, promising free planting replacement seed if the original seed fails to come up for any reason other than poor farming practices.

Prices on such seed is sometimes almost twice as expensive

as that obtainable from local sources. Under this arrangement, a farmer in effect pays for his planting replacement whether he needs it or not.

Seed-promotion practices of this type have been conducted in other parts of the country for some time but have only recently come into Texas. The primary place in activity in our state presently is in the Plains grain sorghum area, but it could easily become more widespread.

Legal Recourse Doubtful

The Texas Department of Agriculture Seed Laws require that all seed offered for sale in commercial quantities bear a TDA Tested Seed Tag which helps the buyer determine the true value of the seed by furnishing purity and germination information.

Certain seed which bears a TDA Registered or Certified Seed Tag indicates the seed is of exceptional quality and has been proven successful under favorable crop conditions. Although the seed being promoted in these big campaigns must bear the Texas Tested Seed Tag, there is no assurance that it bears either the TDA Registered or Certified tag.

In any event, there is no provision under TDA Seed Laws for any legal recourse against dissatisfaction with "guaranteed stand" seed. Nor is it certain that a buyer would have any recourse otherwise if the seller of such seed decided it was "poor farming practices" instead of an Act of God that prevented the seed from coming up in the first place.

Investigate Before Buying

Before buying any seed, and especially any "gimmicked" seed, the farmer will be best protected if he will:

1. Talk to his local seedsman. He's the man who has to stay in business over the long haul and his advice is to be respected.
2. Check with his experiment station as to local adaptability and variety.
3. See which TDA label the seed bears. The required Texas Tested tag is white. The Registered tag is purple, and the Certified tag is blue.
4. Always compare prices before buying.

Read II Corinthians 4:1-7. We have this treasure in earthen vessels, that the excellency of the power may be of God, and not of us. (II Corinthians 4:7.)

In the little country church where I worship each Sunday morning is an old manually-powered pipe organ, no longer used in our services. To the right of this organ is a small door, just large enough for a person to squeeze through.

For years, the organ boy entered there to pump air into the bellows during the worship services. It was his duty to keep the bellows full of air so that the organist could produce the power and beauty of sacred music.

During the services, I'd find my thoughts wandering to that little door and to the organ boy. They remind me that if we are to live the fullest, we must let the Holy Spirit enter our hearts to give us power — even as He gave it to the disciples on the Day of the Pentecost when He came as a night's rushing wind. It is through Him that we find our faith renewed and guidance given to bring harmony to our needy world.

PRAYER

Our Father, we thank Thee that Thou hast taught us how to pray — alone, without repetition, and in faith believing. We thank Thee that through Christ Thou hast given us the perfect prayer: "Our Father who are in heaven... Amen."

THOUGHT FOR THE DAY
The Holy Spirit makes possible the heavenly harmonies heard in a discordant world.

— Bertha S. Armstrong (New York)

in the next five years. The Senate is now debating the issue. A House committee has approved a bill, and it will soon be debated.

This raises two major issues: First, is this federal intervention necessary, and, secondly, will it likely lead to federal control?

It is claimed by proponents that 600,000 classrooms are needed in the next 10 years. Opponents answer by pointing out that 69,000 classrooms have been built each year for the past five years. At that rate 690,000 more will be built in the next 10 years, without federal aid.

It is contended that school expenditures must double in the next 10 years. Can this be done without federal aid? The fact is that state and local outlays for support of schools have increased 2 times since 1950.

It is maintained that teachers' salaries must increase. But without federal assistance such salaries have increased 72% since 1950.

It is claimed that the pupil-teacher ratio must be reduced. The fact is that the pupil-teacher ratio dropped from 27-1 to 22-1 since 1938.

Thus, it appears very clearly that without Uncle Sam's help the states and local communities have been doing very well in financing their schools, and can be expected to continue to do so.

If the Federal government begins a program of subsidizing teachers' salaries and classroom construction, naturally less effort will be made to meet the problem locally. And, just as sure

as night follows the day, once begun, a federal aid program will lead eventually to federal control. It will come in the legislative act or it will come in the form of riders attached to appropriation bills in the future.

HOW TO INVEST TEN MILLION DOLLARS

These recent photographs show construction progress on the new generating station at Oak Creek Lake, and some of the massive equipment to be used in it. Huge size of the equipment can be seen by comparison with the flat cars which transported it.

Symbol of the Future

Any way you look at it, an investment of \$10 million in future growth is evidence that we are convinced this growth is coming.

The new generating station at Oak Creek Lake — costing in excess of that figure — is showing rapid construction progress.

But it is only one phase of WTU's long range expansion plans. Still another such station is on the drawing boards, as well as major additions to our transmission and distribution system.

This is the way we are preparing for coming growth in our service area — from the Red River to the Rio Grande. It is a **SYMBOL OF THE FUTURE** in the Center of the Southwest.

County Reaches 35.8% of Savings Bond Goal for '61

April E and H Savings Bonds sales in Coleman County totaled \$32,562 according to Mr. Robert I. Bowen Jr., Chairman of the county Savings Bonds Committee.

Sales for the first four months of 1961 were \$160,952 which represents 35.8% of the county's 1961 goal.

"Savings Bonds are an investment in the future. For 20 years the Treasury Department sold bonds as a doorway to opportunity — a new home, college education, retirement, or some other dream of the future. But today the future itself is threatened. With the dawn of the missile age, the world is suddenly aware that one more war could be the last. The hope of the age is for peace — for some guarantee that there will be a future to look forward to. We must have PEACE POWER — the strength to keep the peace; the knowledge to make it lasting. Savings Bonds, in building economic stability, help strengthen America's peace power." Mr. Bowen concluded.

H. F. Fenton Represents Sheep And Goat Raisers

Santa Anna — One of the primary reasons for organizing the Texas Sheep and Goat Raisers' Association forty-five years ago in Del Rio, Texas, was to combat a wave of sheep thefts. Since that time, the TS&GRA has employed field men to control theft problems as the need has risen. The work of the Association's current Field Representative, Frank Fenton, of Coleman, Texas, employed in January of this year, has resulted in three arrests, two indictments, and one three-year suspended sentence. Over 250 lost and stolen sheep and goats have been recovered through Fenton's efforts in co-operation with local peace officers. Fenton, who holds a special ranger commission, has worked on twenty-three cases in ten counties of the Texas wool and mohair production area. In addition to his theft work, Fenton has also signed over 100 new members for the Association, and has represented the Association at numerous county meetings, field days, etc.

FIRST INCENTIVES FOR NOT WORKING

In a previous column we pointed out that the U.S.A. is first among the nations of the world in giving money away. In this short article we would like to draw attention to another unenviable first of Uncle Sam's achievements — being first in giving incentives for not working.

Nikita Khrushchev proudly boasts that because of the communist dictatorial system, Russia is first in putting people to work. The Russian people have no choice — they work at what and when they are told — or else. But here in "free" America workers are free to work at what or when they please. No penalties are meted out for not working. On the contrary our architects of the welfare state bend every energy to create incentives for either not working at all, or for soldiering on the job.

The outstanding of these incentives is, of course, unemployment benefits. No one quarrels with the basic idea of paying wages for a limited period to workers who just can't find employment. The trouble is in the abuse of unemployment benefits. We have carried them almost to the point where it pays a worker to be permanently unemployed.

So chalk up another first for the U.S.A. Let Russia hold to her claim to be the first nation to send a man into space — the U.S.A. is the first in rewarding workers for not working.

ABC'S OF SOCIAL SECURITY

(Continued)
U — Understanding your rights and responsibilities under the Social Security Act is the best way to make sure you don't lose any money that's rightfully yours.
V — Very few people successfully memorize their social security numbers, it's better to play safe and show the card to each new employer.
W — Who gets what and when do they get it is clearly answered by free booklets available from all Social Security District Offices.
X — X is often used for the unknown factor; if you have a social security question, solve the "X" by checking with your social security office.
Y — You shouldn't "guess" about social security; a guess might cost you money.
Z — Zero is what your social security record is worth to you if you don't bother to find out your rights from the Social Security Office, Box 5168, Abilene, Texas.

About Your Health

The greatest public health campaign since Teddy Roosevelt's day is underway across the nation and Texas. This time the enemy is polio instead of "Yellow Jack."

If the same relentless attack is pursued in the eradication of polio, it too may become almost a memory as yellow fever became in a few short years following Dr. Walter Reed's discovery that mosquitoes were the carriers of dread "Yellow Jack."

Vaccination is the key to complete victory over the crippling effects of paralytic poliomyelitis. The Salk vaccine has proven overwhelmingly effective as a preventive against the disease. With the advent of the Salk vaccine, the incidence of paralytic polio has steadily declined in Texas from 816 cases in 1955 to a recent low last year of 118. So far during 1961, paralytic polio cases are running slightly below last year's figures. At the end of the first 18 weeks six cases of polio compared to nine cases during the same period last year and 92 cases in 1955.

However, the fact of the matter is that there is still a huge reservoir of unprotected persons who could fall victim to the disease if a severe outbreak should occur. Especially vulnerable are pre-school age children. Records show most polio cases strike children under five years of age. Also, unprotected young adults — especially parents of young children — are oftentimes stricken. The intensive anti-polio campaign is directed towards "babies and bread-winners."

This slogan is the title of a pamphlet outlining procedures to follow in local campaigns. Step-by-step items for conducting successful vaccination programs are outlined. Program procedures are performed by local authorities. Program advice is available from the State Health Department's

CORRECTION

Some wrong figures were given us in the financial statement of the Summer Recreation Program, published last week, and then we made a mistake in one of the figures also.

Actually, the total expenses amounted to \$398.20 last year, as follows: For use of the Pool, \$100.00; Use of bus, \$15.00; Gas and oil for bus, \$30.60; Bus driver, \$90.00; Mowing lawn at Wading Pool, \$9.00; and gifts to the instructors, \$153.00.

Fishermen Pay Fines for Lack Of Licenses

Austin — Too many fishermen still try to get by without buying a \$2.15 fishing license. As a result, they wind up in court with fines and costs. During April, 138 of the 232 arrests by game wardens were for failure to have a fishing license.

There were also numerous hunting violations, including mostly shooting of game out of season. One man was arrested for dynamiting fish. Four were picked up for using a motor boat while intoxicated.

Capt. Spratt also called attention to the requirement of having a life preserver for each occupant of a boat while on the water. This safety factor frequently is overlooked.

In all, the 232 persons paid fines and costs amounting to \$6,288.40 during the month.

All social events should be reported to The News for publication. Your help will be appreciated.

Johnstown Flood Anniversary Warns Of Disaster to Come

J. O. Musick, General Manager of The Texas Safety Association and Coordinator of the Annual Slow Down and Live Program, makes this comparison. Exactly 72 years ago, a dam on the Conemough River gave way and a vast wall of water 20 feet high roared down on helpless towns at a speed of 20 miles an hour. Within 60 minutes Johnstown, Pennsylvania, a city of 30,000 people was almost completely destroyed and 7 nearby hamlets were wiped out. In that single hour 2,209 men, women and children lost their lives.

The Johnstown flood was one of three of the worst disasters the United States has ever experienced. The Galveston tidal wave in 1900 took 6,000 lives. The Titanic, then the largest ship afloat, took 1,517 people down with her when she struck an iceberg in 1912. These three disasters cost a total of 9,726 lives, according to National Safety Council figures.

By the most macabre coincidence, the exact same number of lives — 9,726 — were taken in traffic accidents in the United States in three consecutive summer driving months — June, July and August of 1958. Three national disasters — three consecutive months' toll in traffic accidents — the total was identical.

There is one major difference, however. The entire world mourned the loss of life caused by "natural" disasters. Yet no one seems to know or care about the man-made disasters which occur on our streets and highways every summer. If the toll continues as it has in the past few years, more than 3,000 men, women and children will be beaten, battered and burned to death by motor vehicles each summer month — this June, this July and this August! Property damage will run into the billions. Someone will die every 14 minutes. Someone will be injured, perhaps crippled for life, every 23 seconds. And the world will little note nor long remember!

The tragic part of this coincidence is that while we could do nothing to prevent the flood, the sinking or the tidal wave, we can prevent traffic accidents. Better laws, better enforcement, better engineering and better vehicles are all part of the solution. However, it is a better driver behind the wheel, a better pedestrian on the street, who can do the most.

Today, the association of State and Provincial Safety Coordinators, an international association of safety officials appointed by the Governor of each State and the Premier of each Canadian Province, launches a campaign to make our citizens aware of our problem and to enlist their support in solving it. The theme of the program, SLOW DOWN AND LIVE will be carried through every known public information media. Law enforcement officers, governmental officials, safety groups and civic clubs are backing the program on an international basis.

President Kennedy and Prime Minister Diefenbaker of Canada have received telegrams from every United States Governor and every Canadian Premier asking their support and endorsement of the program.

Governor Daniel has further announced that Texas and local police officials have been asked to step up enforcement during the next three months when vacation driving makes conditions extremely hazardous. Governor Daniel has also proclaimed May 30 the official starting date for the SLOW DOWN AND LIVE program in Texas and has asked Texans to "Slow Down and Live!"

Brother of Local Woman Buried in Coleman Friday

Funeral services for Harvey Hamilton Odum, 76, brother of Mrs. C. F. Parker of Santa Anna, were held at the Central Baptist Church in Coleman Friday at 2:00 p. m. Mr. Odum died in the Coleman Hospital Wednesday morning.

A retired farmer and employee of the Santa Fe Railway, he had lived in Coleman County since 1917. He was a member of the Central Baptist Church in Coleman.

Burial was in the Coleman Cemetery, under the direction of Stevens Funeral Home of Coleman. Officiating ministers were Rev. Edd Bigham of Coleman and Rev. James Rogers, pastor of the North Side Baptist Church of Santa Anna.

Besides Mrs. Parker, survivors include two sons, two daughters, one brother and seven grandchildren. One of the daughters is Mrs. Bonnie Tatum of Winters, formerly of Santa Anna.

B. K. Riggs Finds Skunk in Dog Pen

B. K. Riggs went to feed his dogs Tuesday evening of last week and much to his surprise, found a skunk trying to get out of the pen. The dogs were doing their best to stay away from the skunk, as they apparently remembered another encounter with one sometime ago.

Mr. Riggs killed the skunk, but in the process was sprayed and was sick most of the night.

There have been other reports of skunks being seen in the city limits recently.

Mrs. Effie Harper and Mrs. Lillian Ennist of Houston were weekend visitors with Miss Alta Lovelady.

Mrs. J. W. Taylor spent the weekend in the home of her daughter, Mr. and Mrs. Edward Roesch at Henrietta.

By MRS. E. S. JONES

A large crowd attended the Saturday night supper at the Community Center. Visitors were Mr. and Mrs. Tom Newman and daughters, Susan and Elaine of Midland, Mr. and Mrs. Lester Newman and Mr. and Mrs. Walter Ferguson of Santa Anna and Mr. Lewis Newman of San Angelo. Glad to have them — visitors are always welcome.

Mrs. Robert Milligan of Eldorado visited this week with Mr. and Mrs. Marvin Richardson, the R. A. and D. S. Milligan families and Mr. and Mrs. Edgar Shelton.

A number from the community attended the Baccalaureate Sermon at Mozelle Sunday evening. Rev. Hazen Simpson was the speaker.

Recent visitors with Mrs. J. L. Stewardson were Mr. and Mrs. Hardy Stewardson of San Saba and Mr. and Mrs. Marlis Barker and girls of Brownwood.

Mrs. Billy Campbell, who recently had surgery in the Coleman Hospital, was dismissed Saturday and is at home and doing nicely.

Sunday was Rev. Hazen Simpson's last service at the Baptist Church. Rev. Simpson will receive his Bachelor of Arts Degree from Howard Payne College, May 26. He and Mrs. Simpson will leave Saturday for their home in Concord, California, where he will enroll in Golden Gates Seminary for the summer semester, to begin work on his Bachelor of Divinity Degree. Bro. Simpson has been pastor of the church about eighteen months. He and Mrs. Simpson will be greatly missed.

Mr. and Mrs. Gaylon Coppinger and Mike and Mr. and Mrs. Chuck Carrell and daughter, Donna, of Pecos visited with the A. D. Eppler family during the weekend.

Mrs. Roy Bledsoe was hostess when the Quilting Club met Tuesday afternoon at the community center. During the business session a quilt was donated to the Abilene State Hospital, and the club disbanded for the summer. The next meeting will be September 5.

Mrs. Leonard Williams and Miss Mabel Williams of Coleman were in Baird Wednesday and attended funeral services for Walter Jones, a cousin of the Williams.

Mr. and Mrs. Cliff Conner of Fresno, Calif., former residents of Shields, having visited a week with relatives, returned home Thursday, accompanied by their son, Herbert and wife of Hawaii, who met them here. The Vance children, Mrs. Lee Tatum of Santa Anna, John Will, Mrs. Adelle Conner and Clyde met in the home of their sister, Mrs. Jesse Ella Stewardson for their

first reunion in eight years. Mrs. Will Bowen at Brownwood, Friday night and Saturday. Other than local relatives were: Travis Cobbs of Stephenville and Mr. and Mrs. Fred Cross and Mr. and Mrs. Sam Cobb of Fort Worth met them there. Mr. and Mrs. Lewis Johnson tonio, Mr. and Mrs. Walker and Susan of Austin visited Tatum and Babs of Winters, Mr. Wednesday to Friday in the and Mrs. Kenneth Vance of home of Mr. and Mrs. Otis Roswell, New Mexico, Mr. and Mrs. Chester McDonald of Vick, Mr. and Mrs. A. State Capital NEWS

Austin — Legislature goes into the final stretch of the regular session with the possibility of a photo finish.

Individual lawmakers alternated between hope and despair about the prospect of getting all-around agreement on a tax plan by May 29. Many expressed fear of home district criticism if matters are allowed to drag through the summer, as happened in 1959.

In the final, chips-down stage, it looked like a Governor vs. Legislature battle. A majority of both houses has gone on record for tax plans which have a fairly general 2 percent sales tax as the major revenue source. Gov. Price Daniel says, in effect, that he doesn't want to be hard to live with but he isn't about to back down now on his 25-year anti-sales tax stand.

Senators re-worked the two major tax bills sent them by the House — the 2 percent sales tax and the all-purpose "loophole

bill" — into a combination package. In the package was a 2 percent sales tax on items of 25 cents and more (with exemptions on food, drugs, etc.), an increase in the natural gas production tax from 7 percent to 8 percent, and a hike in the corporate franchise tax. They also jacked up the driver's license fee from \$2 to \$3.

Senate sponsors estimate that it would raise \$327,000,000 in the next two years.

Sen. A. M. Aikin Jr. of Paris made an effort to get the senate to substitute a bill favored by the governor that would limit new general sales taxes to items costing \$10 or more. It also would have levied selective taxes on motor tools and appliances, building materials, stock sales, restaurant meals, etc.

Senate turned down the governor's substitute, 17-to-14, then gave final passage to its own bill, 19-to-12.

LOAN BILL, DELAYED

Tax matters delayed Senate progress on legislation to regulate the small loan industry.

A re-worked version of the loan bill passed by the House was prepared by a special subcommittee of the Senate State Affairs Committee. In general, the Senate subcommittee's bill appears to allow for higher charges on smaller loans and lower charges on larger loans. It sets up a schedule of "service charges" that are not to be considered interest.

Whatever the outcome, hopes for passing a loan bill that will satisfy interested groups are nil. If charges are low, the bill will be criticized for "putting loan companies out of business so poor people can't borrow money." If rates are high, it "legalizes the sharks."

DRIVER LAW TIGHTENED

House passed on second reading a bill that would put more pressure on drivers who do not carry liability insurance or have the means to pay for an accident.

Reps. Ben Lewis of Dallas and Robert Fairchild of Center, sponsors, pointed out that only about 60 percent of Texas drivers carry insurance.

Among provisions of the proposed bill is one that would cause a driver to lose his license if convicted of two moving traffic violations within a year and he did not carry insurance.

REDISTRICTING APPROVED

Despite disappointments and conflicts, a legislative redistricting bill has passed both House and Senate.

Sen. Jop Fuller carried on a nine-hour filibuster against the Senate portion of the bill. Fuller protested that Jefferson County (Beaumont-Port Arthur) has more than enough population to be a one-county district. In the bill Jefferson is placed in a district with Orange County, as before.

Nor is all good cheer in the House where a number of members face the prospect of running against each other. Many rural areas with dwindling populations were enlarged or combined with other districts.

Rep. Will Ehrle of Childress, who is placed in the same district with veteran Rep. Bill Hearty of Paducah, has announced that he has given up the idea of running for speaker next term.

CLUB REGULATION PASSED

A bill to license and regulate private clubs serving liquor by the drink gained final House passage.

Rep. Tom James of Dallas, sponsor, declared it was a law

enforcement measure needed by the Liquor Control Board in order to halt saloons operating in the guise of private clubs. Opponents declared it would legalize liquor by the drink.

Under the bill, clubs would pay annual license fees ranging from \$500 to \$10,000. James noted it would bring in some \$2,500,000 a year.

"SIT-INS" ARE TARGET

A bill aimed at outlawing "sit-ins" and "stand-ins" has received preliminary House approval.

Rep. Lloyd Martin of Norman is author of the bill. It would provide a fine of \$200 for persons who refuse to leave a business establishment after being asked to do so.

TAX REFUND ORDERED

State must return to several Dallas liquor stores \$89,246 in liquor taxes paid under protest, says the State Supreme Court.

These are taxes paid by the stores on liquor in stock before the effective date of an increased tax passed by the Legislature in 1959.

Not involved in this suit is another \$73,937 in liquor taxes paid under protest under the same circumstances.

DPS EXAMS ANNOUNCED

Young men between 21 and 35 may make application through June 9 to attend the next school for state highway patrolmen. Department of Public Safety has announced that men meeting the patrol's standards will take exams in several cities June 13, 14 and 15. Prospective applicants may write to the Department of Public Safety at Austin for information.

FLOOD OF BILLS

With the clock running out on this session, a large volume of bills is being moved at a swifter pace. Riding in the flood are bills that would:

1. Take the University of Houston into a state-supported college system. Bill finally passed the Senate after nearly a month of delays, but must be passed again in the House.
2. Provide up to \$12 a month for medical, hospital and nursing care for persons on the state welfare rolls. Passed by Senate.
3. Recodify the school laws and cut the number of hours future teachers must spend in courses on how to teach. Passed by the House.
4. Allow for payment of state aid to school districts on the basis of the present year's attendance rather than the previous year's. Passed by the Senate.
5. Outlaw sale of obscene pictures, books, magazines or phonograph records. Passed by House. Penalty for violation would be a fine up to \$2,500, a prison term up to two years or both.
6. Increase the annual barber's license fee from \$5 to \$10 and set up higher requirements for barber colleges. Passed by House.
7. Allow the Veterans Land Board to sell forfeited lands to persons other than veterans. This is a constitutional amendment and would have to be voted on by the people. Sponsors said the measure was aimed at providing a way for the state to get

back money involved in the "block deals" that erupted into the "land scandals." Passed by Senate.

8. Require registration of pest extermination services with the State Agriculture Commissioner. Given preliminary Senate passage.

9. Reorganize the State Water Board as the Texas Water Commission with a three-man board for policy making and a chief engineer to administer the department. Passed by the House.

10. Set filing fees for candidates for state office in general or special elections at 5 percent of a year's salary. Passed by House.

11. Require cities whose firemen are in the state pension plan to contribute more to the pension fund. Given preliminary House passage.

SHORT SNORTS

Texas Railroad Commission has ordered the present eight-day production pattern for the oil industry continued through June. But since June has only 30 days, compared to 31 in May, the daily allowable for June will be up by 48,013 barrels a day for a daily flow of 2,702,699 barrels.

Texas Employment Commission has launched a "hire now" drive in an effort to take up the slack in the Texas labor supply. Employment in Texas has increased in the past few weeks, says a TEC spokesman, but is still lagging behind this period last year.

Billy W. Lowry To Receive BS Degree at ACC

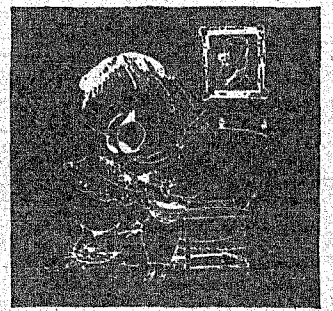

Billy W. Lowry, son of Mr. and Mrs. W. B. Lowry of Santa Anna, will receive his Bachelor of Science Degree in Chemistry from Abilene Christian College May 29. Commencement exercises are scheduled to be held at 8:00 p. m. at the college.

He has been employed by an oil company in Abilene for the past 2½ years as division chemist.

While in school, Billy received the Foster Science Award for outstanding work in the field of chemistry. He was a member of the Science Club and the Texas Academy of Science. He was one of the top eight science students from ACC chosen by the Texas Academy of Science to participate in a trip through the research laboratories of North Texas State College at Denton and the Texas Instruments Co., Dallas.

Billy and wife, the former Diane Williams, daughter of Mr. and Mrs. F. C. Williams, have two daughter, Sheryl, age 3 years and Donna, age three months.

Missed Again!

After 45, most people begin to have trouble doing close, fine work. Can't see distinctly any more.

It's a perfectly natural condition—nothing to worry about. But why put up with poor vision when an expert eyesight examination and a pair of glasses designed for you alone can probably make your eyes as good as new?

Howard Payne College To Become Howard Payne University

Brownwood — Howard Payne College, Texas Baptist school established in this Central Texas city in 1889 and now offering national and international known programs, will become Howard Payne University September 1 and will add to its academic divisions within three years and Academy of Freedom.

The recommendation, which came from the school's administration, headed by Dr. Guy D. Newman as president, was approved by the trustees in their semi-annual meeting Friday in Hotel Brownwood.

In addition to the Academy of Freedom, an outgrowth of the college's national award-winning Democracy-in-Action program, Howard Payne University will include Daniel Baker College, which merged with Howard Payne in 1953, and the four academic divisions of humanities, natural sciences and mathematics, professional studies and religion and philosophy.

Citing the trend to create new Texas Baptist educational institutions at the university level and to change the names of existing state colleges to university, Dr. A. Donald Bell, HPC executive vice president, presented the recommendation to the trustees, Howard Payne, which had an enrollment of 1,845 students this last year, he pointed out, is the third largest Baptist school in a 10-state surrounding area of states having Baptist schools, the third largest Baptist school west of Mississippi, ranking behind Baylor University, with 6,270, and Hardin-Simmons University, with 2,160.

The Academy of Freedom as explained by Dr. McDonald W. Held, acting dean of faculties and chairman of the DIA program, will be an inter-departmental major. The first step toward extending the DIA program into a concrete academic program will come this fall with institution of a three-hour

course to be based on a textbook, "Backgrounds of American Freedom," now being written by the college's faculty. The course is made possible through establishment at the college of the Russell Foundation Chair of Democracy in Action by the Willard Russell Foundation of Houston. It will be taught by Dr. Held.

In other action in Friday's meeting, Howard Payne trustees heard the president's message, full committee reports for the year and,

One. Adopted the administration's proposed 1961-62 budget of \$1,408,369 for the fiscal year starting June 1.

Two. Heard Sterling Hogan of Houston, chairman of the trustee building committee, report that his committee has approved tentative drawn by Frank Dill of Houston, the college's consulting architect, for a men's residence hall and is submitting an application for a government loan to construct the building, an action the board of trustees had earlier approved.

Three. Approved a recommendation of the trustee building committee to award the contract for the proposed new science building at the college to Guyler Construction Company of Lampasas for \$638,461.

Austin — This is snake season. Be careful when you get into the woods or along creek and river banks. This is the warning of Capt. E. M. Sprott, director of law enforcement of the Game and Fish Commission. The poisonous snakes of Texas are rattler, moccasin, copperhead and coral.

Mr. and Mrs. Jim Dunn and Sonja were weekend visitors with Mr. and Mrs. J. C. Howard and family in Post.

Mrs. Arthur Turner spent several days last week in Strawn, visiting the Lee Woodwards.

Mosquitoes Have Their Preferences

Do you often wonder why mosquitoes seem to prefer you over someone else? If you do, you are not alone. Research entomologists in more than one country are trying to find the answer to why mosquitoes and other insects are attracted to man and animals.

If scientists can find precise causes of insect attraction, more effective repellents that would mask the attraction might be developed. Attraction retarding materials might be combined with insecticides. This would result in fewer insects bothering treated individuals, and the more persistent pests would be killed by the insecticides.

Experiments by entomologists at USDA's insect laboratory at Orlando, Florida, illustrate the complexity of such research, however. They dressed a man in a lightweight diving suit that kept water vapor, carbon dioxide and other gasses from escaping to the surrounding environment. He was placed in a small observation room with three man-size dummies and 300 mosquitoes. The subject's breath was drawn outside the room through a hose.

Mosquitoes showed no preference between the man and the dummies. When carbon dioxide was discharged above the man's head, however, he attracted more mosquitoes. The pests also were attracted when a cloth suit was put over the man's diving suit — regardless of the presence or absence of carbon dioxide.

Researchers exposed the man's face — no increased attraction. But when his hands were uncovered, the mosquitoes were attracted. These mosquitoes prefer the body, but another species showed marked preference for the face.

This shows that different types of mosquitoes aren't necessarily attracted to man and animals for the same reasons. Other insects don't respond alike either. For instance, one study showed that horse flies preferred red cattle to white ones. Perhaps scientists will find the answer some day, but until they do, the hum of mosquitoes will continue to mean discomfort for many people.

Seniors Visit Colorado Springs On Annual Trip

By Weldon Haynes
Class President

Twenty-nine seniors, Mr. Matthews, Mrs. Hays, Mr. and Mrs. Bowen, Mrs. Cupps and Mrs. Watson left Santa Anna by school bus at 7:30 p. m. Thursday, May 11 for Vernon, Texas. We arrived in Vernon at 1:00 a. m. Friday. After a 2½ hour wait, we boarded a Burlington Lines Railway car and headed for Colorado Springs, Colorado. Enroute to Colorado Springs we passed through the northeastern part of New Mexico and then on into Colorado.

We arrived at Colorado Springs at 4:20 p. m. Friday. Five limousines from the National Tours Association met us and took us to McLaughlin Family Lodge at nearby Manitou Springs.

After being assigned to cabins we went for a short swim in the Lodge swimming pool. Friday night we played ping pong, pool, and danced in the Lodge recreation room.

On Saturday morning the cars picked us up at 8:00 a. m. for a day of sightseeing. Just before we left it began snowing and continued for the remainder of the day. The temperature was very cold.

First we went to the Van Briggle Art Pottery. Here we saw how the pottery is made and then went through the gift shop. Some of the members bought their mothers gifts for Mother's Day. This was a very interesting stop.

After we left the pottery, we went to the famous Ghost Town. Here we saw the bullet proof Lincoln auto of President Franklin Roosevelt. Also they had a saloon, jail, barber shop, printing office, residence, and many other settings exactly as they would appear many years ago.

On our way to the Cheyenne Mountain Zoo, we passed the famous Broadmoor District. Here they have a hotel, with rates ranging from \$21 to \$198 a day, per room, a greenhouse, year-round ice skating rink, and many other things.

At the zoo we saw many interesting and unusual animals and enjoyed browsing through the Thundergood House, a gift and souvenir shop.

After leaving the zoo, we went to the beautiful Seven Falls. A few of the more energetic members climbed the two hundred

and ninety six steps to the top. Then we made a short stop at Helen Hunt Falls where the blind poet, Helen Hunt, wrote the famous poem, "Romainia."

Next, by way of the famous Gold Camp Road, we went to the unusual Garden of the Gods. Here, waiting in a cold north wind, we ate a hot chuck wagon lunch. At the Garden of the Gods, we saw many unusual rock formations, including the kissing camels, balanced rock, and the battle ship.

For our last stop we went to the Cave of the Winds. We all enjoyed this because it was warm inside the cave. There were some very interesting features in the cave with one of the amusing ones being the Old Maid's room. In this room there is a superstition that if an unmarried girl or woman will leave a hairpin she will be happily married. There were hundreds of thousands of hairpins in this room. After leaving the cave we returned back to the lodge at 3:30 p. m.

After we got back to the Lodge part of the members went horse-back riding while others played in the recreation room.

Saturday night some of the

members went to a dance for high school seniors visiting Colorado Springs, and others went to a movie in Colorado Springs.

Sunday morning all of the members who wanted to, attended the huge First Methodist Church in Colorado Springs. This is the third largest church in the United States. They have two services each Sunday morning and we attended the second service. There were between 2,000 and 3,000 there.

At 2:00 p. m. we went to the beautiful United States Air Force Academy. While we were there we saw an interesting program in the academy Planetarium.

We left Colorado Springs on the train at 9:30 p. m. and arrived back in Vernon at 11:58 a. m. Monday. We left there on the school bus and got back to Santa Anna about 6:00 p. m. Monday.

3 Managers Needed For Baseball Teams Now

A. D. Donham, manager of the Quarterback Club Summer Baseball program, announced early this week that they must have three more managers before some of the teams can begin their season play. Games are scheduled to begin Monday evening, June 5th, and the managers are needed before that time.

Needed are two managers for minor league teams. These teams include boys up to 10 years of age.

Also needed is one manager for a girl's softball team. This can be a man or lady, as Mr. Donham said, "We just need a manager" and anyone interested or who will take the jobs for the summer are urged to contact Mr. Donham before the end of this week.

The Donham family plans to take a short vacation beginning Saturday and will be back on Thursday of next week. If you can manage a team and will do so, please see him before he leaves.

Academy of Dance Program at High School Sat. Night

Soseña Korda, operator of the Academy of Dance and Related Arts, announces the annual Spring Program of her pupils will be presented in the high school auditorium at 8:00 p. m. Saturday evening. The program will carry the theme of "A Trip Around the World" and dances representing many of the countries of the world will be performed by her students.

Mrs. Korda said she is having considerable trouble with a number of her students, which are mostly pre-school age children, taking various kinds of children's illnesses. However, the program will be presented and where possible, changes will be made in the students participating in the various dances.

She extends a cordial invitation to the general public to attend the program. There is no admission charge.

Bright and Interesting Future Predicted For Class of 1961

By Tommy Pollock

Although it has never been publicly announced, it is generally known that I, Tommy Pollock, Class Profit, possess the remarkable power of projecting myself forward through the years into any given time in which I am interested. Tonight being restless and weary with the cares of the day, I longed for a change of scene and time.

So, closing my eyes and relaxing, I wished myself into the public library of this town, thirty years from now. I found myself in the reference room of a magnificent new building. As I glanced at the shelves, my eye was attracted by a thin red leather volume. Taking it down, I saw the title was "WHO'S WHO AND WHY FROM THE CLASS OF '61". Eagerly I turned the pages and read the preface. When I saw how interesting it was, I fled back into the present bringing the book with me. As I must hurry into the future again in an hour or so, before the book is missed, I shall read it aloud to you. I am certain that you will find it very interesting.

"WHO'S WHO AND WHY FROM THE CLASS OF '61", dedicated to the greatest class ever to graduate from Santa Anna High School.

PREFACE

There are few names in this book, but not few enough. The only entrants who deserve a place on this roll of honor are the members of the Class of 1961, a distinguished and intellectual group. In order to fill up the pages, others names were inserted, but need not be taken seriously.

CHARLES WALKER

"Charlie" had always had a strong desire to be a successful Court Reporter. So at the end of his High School career off he

went to Court Reporting School. Charles was doing a fine job and was at the head of his class when he finally decided that what he really wanted out of life was the chance to work along side of the man that he had long admired and respected. So dropping out of school he returned to Santa Anna and went into business with Mr. John Gregg as a joint editor of The Santa Anna News. Upon Mr. Gregg's retirement Charles carried on the work as best he could and everyone said that the work was so similar, and so good that surely the two must have been related in some way. What do you think???

RAY BARRINGTON

Ray had a great deal of interest in computation and science, so after his graduation he attended Texas A&M and received his degree in civil engineering. At this point I can say no more about Ray without including his business partner, Mr. R. L. (Bob) Markland. Bob attended the same school as did Ray and the two grew to be the very best of friends. After their graduation both returned to Santa Anna and set up their business, the Ray-Bob Engineering Company. Both are now upstanding citizens of Santa Anna. Their latest engineering marvel was an eight lane, super highway between Santa Anna and Shields.

COLLINS STEWARD

Collins, better known as Sony and other unmentionables, made a great success of his life. Sony left for college where he majored in girls, cars, parties, and more girls. Along with his social activities he also carried a full load of studies. Sony had no trouble whatsoever with his classes, he simply found a girl who was smarter than he (which wasn't hard) and let her get his lessons. By lying, cheating and bribing

the teachers, he graduated with honors. At this point, I can tell you no more about Sony without bringing in his lovely wife. **JANE HORNE** wanted to be an elementary school teacher, so naturally she went to college. Jane didn't attend the same school as did Sony, but that didn't change anything, the secret love that the two had shared all through high school still lived in their hearts and souls. After Jane graduated from college she returned to Santa Anna and started teaching the first grade. It was here that they met again after four years of separation. The love that had blossomed so beautifully in high school was still there in spite of the years of separation. They were married on June 7, 1966 in Juarez, Old Mexico. Mr. Horne was gracious enough to retire and leave the managing of the file plant to Sony, so all he has to do is eat, sleep, and make merry. Jane didn't let her marriage interfere with her devotion to teaching. She went right ahead with it and eventually worked her way up to superintendent, the first woman ever to hold that office in the Santa Anna Schools.

MILTON DRAKE

"Goose" wanted to be a school teacher when he was in high school and he would have made it, and would have been a great credit to the class, except for one small detail. This detail happened to be a 5 foot 5 brunette, and a freshman when "Goose" was a senior. When "Goose" graduated from high school he got a well paying job at the Santa Anna Silica Sand Company and began to save his money. On June 10, 1964, he and this "detail" were married in the Double Gates Baptist Church in Shields, Texas. Goose is now the manager of the Sand Company and a pillar of the

community. Personally I think Goose fell just a little bit short of being a successful school teacher.

WELDON HAYNES

Weldon was another who wanted to make a success as a teacher. It seems that Weldon was also destined to fall by the wayside. Weldon decided to work during the summer at Piggly Wiggly in order to make enough to attend college in the fall. He did this and then started to school at North Texas State Teachers College. Weldon returned to Santa Anna each summer and worked in Piggly Wiggly's. He said that he did this because he liked this kind of work. Well, maybe he did, but I happen to know that a certain girl had something to do with it. Weldon decided after graduation from college that maybe teaching wasn't so important after all. He bought a part ownership in the store that he loved so much and got married. Weldon is now a very successful man and the owner of a chain of supermarkets, the A&W Chain. Incidentally his wife is a very sweet girl who talks the thweet that I am thure I need not reveal her name.

TOMMY WATSON

Tommy decided during his senior year that he wanted to be a Geologist. He became quite successful as a Geologist, but he still wasn't satisfied. There was still something that wanted out still something that he wanted out of life. On one of his Geological expeditions in the Blue Ridge Mountains of Kentucky, he ran across the still of an old moonshiner. It took him very little time to talk the old man out of his still. It was simply about \$10,000.00 and it was all his. This desire to become a moonshiner had sprung from his experience in Chemistry. So Tommy vanished from the modern world into a happy, carefree, and illegal life of a Kentucky moonshiner. Since that time Tommy has only been seen twice by people from the outside world, once by the revenueurs and once by myself when I interviewed him for this book.

JIMMY NIELL

I never found out for sure just what "Wheezer" wanted to be in life, but I assume that he is quite happy with the way his life ended. Wheezer and Tommy Watson had been very good friends in high school, so it is only natural that they should in some way be united in business after graduation. When Wheezer learned of Tommy's disappearance he knew at once what was going to happen so he started to work on what promised to be the fastest road car in the entire United States. After the completion of

the car, Wheezer often disappeared for three to four days at a time and it wasn't long until it was rumored around that he was running white lightning across the state line for some unknown Kentucky moonshiner. He was doing fine until he started drinking his share of the profit. Just 12 more years and he is a free man again.

DON McCULLOUGH

Don is one from the Class of '61 that truly made a success of his life. Don wanted to be a Certified Public Accountant and he didn't let anything interfere with his schooling or his ambition to be a success. Don was so set in his determination that he even let the girls alone during college and for three years after. By then he had made a success of his life and he started looking for the girl of his dreams. Unknown by anyone he had been very interested in **LaFOUNDA BLOUNT** ever since the senior play, so after nearly eight years of separation he set out to find her. He knew that LaFounda had always wanted to be a nurse, so he tried to trace her through the Nursing School in San Angelo. He found out through the school that she had gone to New York and was doing a wonderful job as the head nurse in the New York Central Hospital. LaFounda loved her work so much Don had a hard time winning her, but he finally managed it, and they were married. They later returned to Santa Anna and naturally lived happily ever after.

ROBERTA MORGAN

"Berty" graduated from S.A. H.S. and attended college in hopes of becoming a basketball coach. She would have made it if she had just qualified as a basketball player to begin with. So Roberta flunked out of college, and returned to the metropolis Santa Anna. She purchased a farm about nine miles south of Santa Anna, built a brand new house and dairy. Now the only thing necessary is a heard of dairy cattle and someone to milk them. Berty solved both problems by marrying Tex Wayne Tomlinson. Now they are living happily on the Tomlinson Dairy Farm, and are happily raising a herd of young Tomlinsons.

J. C. BIBLE

J. C. is one member of the Class of '61 that we can be extremely proud of. He had such an undying love for the National Guard and Army that he made a career out of it. He worked his way up to a Five Star General, and went from there to politics. His motto was "ALL FOR ONE AND THAT ONE ME." He was three times the governor of the 51st state of Confusion, and finally the President of the

United States of America. It is only natural that we include his lovely wife, the former Miss Dixie Jo Baugh, in his story. Dixie wasted no time in getting her man. In fact, she had captured J. C. even before school was out their senior year. Mrs. Bible has truly had an easy go of life. All she had to do was stay at home and take care of the six kids, and the laundry and the washing and so forth and so on. We can honestly say though, that she is one of the finest first ladies this country has ever seen.

GAYLA McIVER, BARBARA CRAIG & ALICE LOVELADY

We are sorry to say that these three promising young girls, young ladies I should say, took their parts in the senior play a little too seriously. Although each had a very promising future, they all fell just a little short. The last I heard, they were all in the quiet halls of the Berrydale Retreat. Perhaps if they are lucky they may get to visit the Greenvale Nut Factory sometime next year.

PETE WYLIE

Pete wanted to be a Highway Patrolman, and he made a very good one. He went through the Texas Department of Public Safety School in Austin, and then returned to Santa Anna. He was lucky enough to get the strip between Brownwood and Coleman and he was even luckier to get Al Chambers as his partner. Man what a team!!!

MARY REHM

Everyone thought Mary was a sweet and innocent girl in old S.A.H.S., but when she finished school and went out on her own, her true nature came to the surface. She was actually a crafty, double dealing female, who would stop at nothing to get what she wanted. What she wanted out of life was a rich bachelor. Now Mary had enough secretarial work behind her to get a job as a private secretary. She found this job with the afore mentioned Red Barrington. It wasn't long until she had him hooked and down the aisle. Now Mary and Red spend a very happy and carefree life. It looks like his money will soon run out and when it does, I'll bet it's by Red.

JUDY BRYAN

Judy wanted to be a girls basketball coach, so naturally she went to college and majored in physical education. It is a well known fact that Judy had always been afraid of boys. Well lets not say afraid, just ridiculously shy. This proved to be her downfall in college. She was so pretty that all the boys wanted to go with her, and when she refused, because of her shyness

HOWARD STEVEN VOSS

On April 18, 1943, a son was born to Mr. and Mrs. E. P. Voss

in the Sealy Hospital in Santa Anna, Texas. He was named Howard Steven Voss.

At the age of six, he entered school at San Jacinto Elementary in Amarillo. At the end of his first grade year, the family moved to Santa Anna. He attended the second and third grades at Santa Anna, then the family moved to Crosbyton. He attended the fourth and fifth grades there and then the family moved once again to Santa Anna. For the past seven years, he has attended school at Santa Anna.

He has participated in track, the Future Farmers of America, basketball and Number Sense four years. He has participated in football three years. He qualified for Regional in Number Sense his sophomore and junior

years and in track his senior year.

Upon graduation he will serve six months active duty in the Army National Guard's Six-Months Training Program. After finishing the six months training, he plans to attend college at North Texas State in Denton.

ROBERTA ANN MORGAN

On February 25, 1943, a baby daughter was born to Mr. and Mrs. Garland Edward Morgan at Fort Sam Houston Station Hospital in San Antonio, at 3:29 p. m. She weighed 6 pounds, 6 ounces and had black hair and brown eyes. She was named Roberta Ann Morgan.

She lived in San Antonio for six months, then moved to Santa Anna, where she has lived up to this time.

In September of 1949, she started her long climb toward the top of her education. During the seventh and eighth grades, she played basketball and volleyball. In basketball, she lettered both years and was chosen on the All-Tournament team once. In 1957 she graduated from grade school and in the fall of that year started to Santa Anna High School.

During her four years in high school, she was a member of the Science Club for one year, the Future Homemakers of America for three years, the Athletic Club for one year, and the Let-

terman's Club for one year. She was also in the band for five and one-half years. But most of her interest in high school was centered around sports, especially basketball. During her four years of playing guard, she was chosen Honorable-Mention once and All-District twice, and on the All-Tournament team five times. She also played volleyball all four years and was Mistress of Ceremonies at the Senior Play.

After graduation, she plans to marry Tex Wayne Tomlinson, and become a housewife.

JANICE SUE SMITH

On May 26, 1943, a fourth child was born to Mr. and Mrs. O. B. Smith Sr., in Slaton, Texas. The baby girl was named Janice Sue. In 1948 her family moved back to Santa Anna, where she has lived since.

Janice entered the local school in the first grade and has attended the Santa Anna Schools all twelve years.

Janice was active in sports in the seventh and eighth grades, lettering in basketball both years. She was also sub-drum major both years. She was the eighth grade Football Sweet-heart.

During her four years in high school, she has been active in several clubs. She has been a member of the Future Homemakers of America four years, serving on several committees.

She was parliamentarian her sophomore year. She was secretary of the Science Club her

freshman year. Her junior year she was Assistant Editor of the Mountaineer Yearbook. This

year she is Editor-in-Chief of the yearbook.

After graduation Janice plans to continue her education, attending college and majoring in teaching Home Economics.

DIXIE (Baugh) BIBLE

In the Santa Anna Hospital, November 5, 1942, a baby daughter was born to Mr. and Mrs. D. S. Baugh. She was given the name Dixie Jo Baugh. From the hospital Dixie was taken to a farm, four and one-half miles south of Santa Anna, where she has lived until the present time.

Dixie Jo started to the Santa Anna Schools at the age of six and has attended there ever since.

Her freshman year in high school, Dixie was class secretary and treasurer, a member of the Future Homemakers of America, and a twirler for the band.

Her sophomore year, she was secretary and treasurer of the class, drum major of the band, representative to the Student Council, a member of the Solo and Ensemble Club, the Future Homemakers of America, and played basketball and volleyball.

In Dixie's junior year, she was drum major, student conductor and vice president of the band, song leader in the Future Homemakers of America, a member of the Solo and Ensemble Club and junior class representative to the Student Council.

In her senior year, Dixie was drum major and secretary-treasurer of the band, a member of the Future Homemakers of America, parliamentarian of the Student Council, runner-up for Most Popular, senior Class Favorite and Band Sweetheart.

On March 29, 1961, Dixie became Mrs. J. C. Bible. Dixie plans to become a homemaker, and to further her education sometime in the future.

TOMMY WATSON

To Mr. and Mrs. O. H. Watson on November 20, 1942 in Seguin, Texas, a son, Tommy Watson, was born.

He has lived at Trickham for the past 15 years. He attended the Mukewater School until the fourth grade. Then he started to school at Santa Anna, and has been going there since.

He plans to attend college after graduating from Santa Anna High School.

ALICE ANNA LOVELADY

On February 10, 1943, a daughter was born to Mr. and Mrs. Jim Lovelady at the Santa Anna Hospital, and she was named Alice Anna. She has lived in Santa Anna all of her life and is finishing her school career there.

She was active in her church during her school years, and belonged to the G.A.'s and Y.W.A. for about nine years.

In grade school she belonged to the Choral Club and was a Librarian for three years. She was active in sports and lettered in basketball in the eighth grade.

When she was a freshman, she was Treasurer of the Music Club. She was in the Athletic Club her sophomore year and in the Sci-

ence Club her junior year. She has been in the Future Homemakers of America for four years and has served on several committees in the organization. She was elected Future Homemaker of America, and was in the Senior Play her senior year.

After graduation, she plans to enter a school of Nursing in San Angelo to prepare for a career as a professional nurse.

JUDY BRYAN

On August 16, 1943, a baby

daughter, Judy, was born to the Bill Bryan family. This family lived at Rockwood, Texas.

At the age of six she entered school at Rockwood Elementary. At the sixth grade the school closed and she came to Santa Anna Junior High School, to enter in the seventh grade. During her seventh and eighth grade years, she was Cheerleader two years, played basketball and was a member of the high school band both years.

She then graduated to High School. During her high school years she has been a member of the band; cheerleader, 3 years, head cheerleader her Junior year; lettered in basketball four years, on the All-District team three years; second in District Tennis her Senior year; Sweetheart of the FFA her Junior year; Halloween Queen, Junior year; runner-up most Popular Girl, Junior year; Most Beautiful, Senior year; Prom Queen, Senior year and a member of the Athletic and the Slide Rule Clubs two years.

After graduation she plans to attend North Texas University in Denton in the fall.

GAYLA JEAN McIVER

August 2, 1943 a baby girl was born to Mr. and Mrs. Grady McIver. She was born in the Santa Anna Hospital and was named Gayla Jean. Gayla was taken home three miles south of Trickham where she has lived since.

Gayla started to school at Trickham and after her first year, she came to Santa Anna, where she has gone ever since. During school sports has been her main interest. She played and lettered in basketball in

grade school two years and four years in high school. She also lettered four years in volleyball. Gayla was on the All-Tournament team once, Honorable Mention on the All-District team once, and unanimous choice All-District once. She entered the Interscholastic League Literary Meet in poetry reading. She won 3rd place once and 1st place twice.

Gayla was a member of the Librarians Club, Science Club, Athletic Club and Letterman's Club. She was a member of the Future Homemakers of America for four years, was the pianist her junior year and was in the Senior Play. She was elected senior class historian. At an early age Gayla became a member of the Methodist Church at Trickham.

Upon graduation Gayla plans to start June 5 to McMurry College. She is not certain of her major.

PATSY DARLEEN CUPPS

On November 14, 1942, a baby daughter was born to Mr. and Mrs. R. W. Cupps in Midland, Texas. The baby was named Patsy Darleen. Patsy lived in Midland only a short time before moving to Santa Anna. Patsy has lived on a farm 12 miles south of Santa Anna almost all of her life. She is a member of the Cleveland Church of Christ and attends regularly.

Patsy started her education in a country school called Mukewater. She went there through the fifth grade and then was transferred to the Santa Anna Elementary School. In the eighth grade Patsy was a Cheerleader and lettered in basketball.

During her four years in high school, Patsy has taken part in many activities. She has been a member of the Science Club two years, and vice president one year. She has been a member of the Future Homemakers of America four years, secretary one year, attended the Area

Meeting in Stephenville three years and State Meeting in Austin one year. Patsy received a medal for being the outstanding student in Speech, was in the Interscholastic League Speech Play and was placed on the All-District cast in Burnet. She was a class officer of her sophomore class and elected Class Favorite in her junior year. Patsy was crowned Homecoming Queen of 1960 and was in the Senior Play. After graduation Patsy is planning an August wedding, when she and Brownie Brooke will be married. He plans are to be a successful homemaker.

MARY ELLEN LEWIS

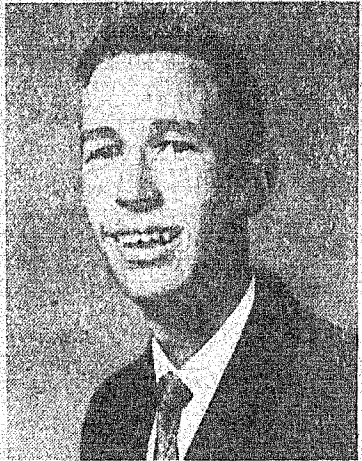

Mary Ellen Lewis, daughter of Mr. and Mrs. W. N. Lewis, was born June 13, 1943, in a Lubbock hospital. Then she was taken to her new home in Sundown, Texas. Ellen soon discovered she had an older sister, Edna.

When Ellen was four, the family left Texas to make their home in Belin, New Mexico. Ellen went to kindergarten and the first half of the first grade. She finished the first grade and part of the second in the Sundown school. She finished her second year in Snyder.

On Ellen's eighth birthday, the family moved to Santa Anna, where she became active in sports, Future Homemakers of America, various clubs and band. During her Senior year, Ellen was in the Senior play, the Interscholastic League one-act play, and represented the school in Declamation.

After graduation Ellen plans

to work and later become a housewife.

CHARLES FLOYD WALKER

In the Santa Anna Hospital, October 24, 1942, a son was born to Mr. and Mrs. Bill T. Walker. He was given the name Charles Floyd Walker.

He began his school career in the Santa Anna Schools. He moved to Coleman for several months, when he was in the second grade, and returned the same year.

During his high school days he belonged to the Science Club, Slide Rule Club, and the Athletic Club. He was in the band four years and played tennis his junior and senior years. He was the reporter for the Senior Class.

After he graduates, he plans to go to a court reporter school in Abilene, Texas, for two years.

Time is that expanse of space between paydays.

PEBBLE LAQUINN COOPER

On Ground Hog's Day, February 2, 1943, at 6:00 a. m. in the Brownwood Memorial Hospital, a black haired, black-eyed baby girl came into the world. Her parents, Mr. and Mrs. Jack Cooper, named their second daughter Pebble LaQuinn Cooper.

She spent the first 18 months of her life in Bangs, Texas, before following her father, who was in the Army, to Washington. When her father went to Germany, she, her mother, and her older sister came to Rockwood to live with her grandfather. She moved about a quarter of a mile north of her grandfather's home upon the arrival of her father from service, and she has lived there to this day.

At the age of six, she started to school at the red brick schoolhouse at Rockwood. There she attended school until the sixth grade, starting her seventh year of school at the Santa Anna Schools. Her eighth grade year was highlighted by her being Cheerleader of the football team and being Valdictorian of her class.

She was promoted to the Senior Band in her eighth year, and stayed in the band until her junior year in high school.

Upon entering high school, she

was honored to be the Freshman Class Favorite. She also received the Scholarship Medal as she did her sophomore and junior years. She has been in the Future Homemakers of America all four years of high school, serving as

reporter her sophomore year, vice president her junior year, and president her senior year. Her senior year she also served as cheerleader of the football squad, business manager of the Annual Staff, and portrayed the

character of Mrs. Ranch in the Senior Play.

She attends the Rockwood Baptist Church regularly. In the fall she plans to attend Tarleton State College, but is not positive of her major.

May this hour remain one of your fond memories.

CHARLES RAY BARRINGTON

Charles Ray Barrington was born July 31, 1943 in the Santa Anna Hospital. He weighed 5

pounds, 8 ounces. He moved to Coleman in 1943, and started to Mrs. Rich's kindergarten in 1943. In 1949 he started his elementary education at South Ward Elementary in Coleman. He completed the fifth grade in 1954, and went to Coleman Junior High for the first half of the sixth grade. Then he moved back to Santa Anna. He left Santa Anna during the seventh grade, and went to school at Dallas, Houston and Weatherford, before settling down in Medford, Oregon. Just before freshman mid-term exams, he moved to Kermit, where he completed his freshman year and was elected parliamentarian for the sophomore class. In 1958 he moved back to Coleman. In 1959 he moved to Santa Anna, where he is presently residing.

Upon graduation he will proceed to the Armed Forces office and join up or go to college. He is presently undecided.

Attend church regularly.

WELDON HAYNES

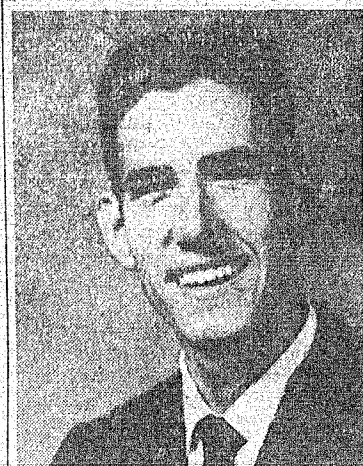

Weldon Haynes was born November 5, 1943 in the Santa Anna Hospital. He is the son of Mr. and Mrs. J. R. Haynes.

He began school at Mukewater, near Trickham, where he attended the first three years of school. At the beginning of

fourth grade, he transferred to Santa Anna and has attended there ever since.

During high school, he belonged to the Future Farmers of America three years, the Athletic Club and Science Club. His freshman year, he was vice president of the Science Club, and is president of the senior class.

After graduation he plans to attend college. His present plans are to enroll in North Texas State College at Denton in September, and major in history education.

COLLINS WISE STEWARD

On November 26, 1943 in the Brady Hospital, Collins Wise Steward was born to Mr. and Mrs. Bill Steward. This dark haired, dark eyed baby was brought home to Rockwood, where he has spent the larger portion of his life.

He began his schooling at Rockwood, where he attended the first through the sixth grades. He then began school at Santa Anna.

As a freshman in high school, he began his four years in Student Council as a Representative, being the Vice President his junior year. His sophomore year, he was Class Favorite. During his junior year, he was Halloween King and lettered in basketball. Again the next year he lettered in basketball, as well as football. His senior year saw him elected Most Handsome, runner-up Most Popular, Prom King and president of the Future Farmers of America.

In Rockwood he regularly attends the Rockwood Baptist Church.

In the fall he plans to enter Tarleton State College and major in chemical engineering.

Santa Anna Hospital

AND STAFF

Prophecy—

(Continued from Page One)

they only wanted to go with her all the more. One day along came a boy who was just as shy of girls as Judy was of boys. It was only natural that the two should become good friends. It wouldn't have been so bad if it had ended right there, but it didn't. One day without any warning at all they discovered they were in love, and the next day they were married. After her marriage, her shyness disappeared completely for some reason and she became a social fiend. She was out every night of the week until the wee hours of the morning at first one party and then another. Her husband (poor fellow) was to weak to keep up with the pace and he was dead in less than a year. Judy has since then gone through four husbands. Either they couldn't take the pace physically or they just couldn't afford it. Judy is know world wide for throwing bigger and better parties than anyone else in the world. (Including the Junior Class of 1961).

LAQUINN COOPER

Quincy wanted to be a Medical Laboratory Technician, but she changed her mind and became a Biological expert. She is very famous throughout the world as an authority on Chromosomes and Gens. In common English these are what determine the color of your eyes, hair, skin and so forth. Naturally Quincy had to make experiments to become an authority, and experiments she made. She crossed a cat with a dog, an eagle with a bird dog and so on. If you think this was bad, you should hear of the one that put her in the nut house. She once crossed a woman with an ant eater and got such a nosey old hag out of the deal that she was driven to insanity. After a long stretch at Berrydale, she retired to a quite chicken farm somewhere in West Texas. The last I heard she was

crossing chickens with chickens and getting little chickens.

JANICE SMITH

As you know Janice was the editor of the 1961 Annual her senior year in high school and she let it go to her head. It is quite true that she got married right after school, but that didn't stop her ambition to one day edit an international newspaper. Well she worked for 20 years on the editing of one international newspaper, which would be printed in 136 different languages. When the paper finally came out, Janice went out too. It seems that you just can't tell about an affair between the Queen of England and the Prime Minister of Russia and get by with it. Such gossip that went on in her annual room, just didn't go to well with the entire world. So Janice is now a resident of the planet Mars, and is quite content with raising a family of Martians.

TOMMY LANE

Tommy had made plans to become a business administration teacher. And believe me he made a good one. Tommy spent 11 years in colleges and universities before he decided he was ready for teaching. Tommy now holds the B.S., A. B., M. A., PH.D., D.D.S., F.O.B., and S.O.S. degrees from 4 different colleges and universities. He is now the Dean of his own college which he founded and built, the Lane Institute, sometimes called the Lovers Lane Institute, by the students. Tommy is a very happily married man with a lovely wife. **LULA HAWKINS** wanted to be a private secretary when she finished high school, so she set out to find a job. It was right at this time that Tommy was in the middle of his college building, and he was in bad need of a good secretary. He hired Lula and it wasn't any time at all until the two were man and wife. Lula is the proud mother of twins and — ahh what's the use, we all know Tommy and Lula are a wonderful pair and are very happy

together.

PEGGY McINTIRE

Peggy was another who had plans to become a secretary. And become a secretary she did. She is now the Secretary of the Treasury for the United States Government. She handled so much money for the Class of 1961 that it seemed to go to her head. All through college where money is so scarce, she longed for the chance to feel the crispness of new bills and the smoothness of shiny new coins. After she graduated from college she decided to find some job at which she could handle great sums of money. She remembered that the president had once been her school mate, so she made her way back to Santa Anna, which is now the Capitol of the United States, and managed to get appointed as Secretary of the Treasury. Any time you want to see her just go to the government vault and you will find her running bare-foot through the money like Scrooge McDuck.

LAWANDA CLARK

There isn't too much to say about Lawanda because she was married before she even finished high school. We can say that she takes an interest in her husband's work. He is employed by the Santa Anna Telephone Company and is president of the entire corporation. Last year the company had a beauty contest, and you can guess who the beauty was that won. That's right, Lawanda. You should have seen her. She was dressed in the most beautiful gown that Paris has ever turned out. The judges had no choice, they had to crown her the Queen of the Telephone Co. We can truly say that she made a lovely Queen.

PATSY CUPPS

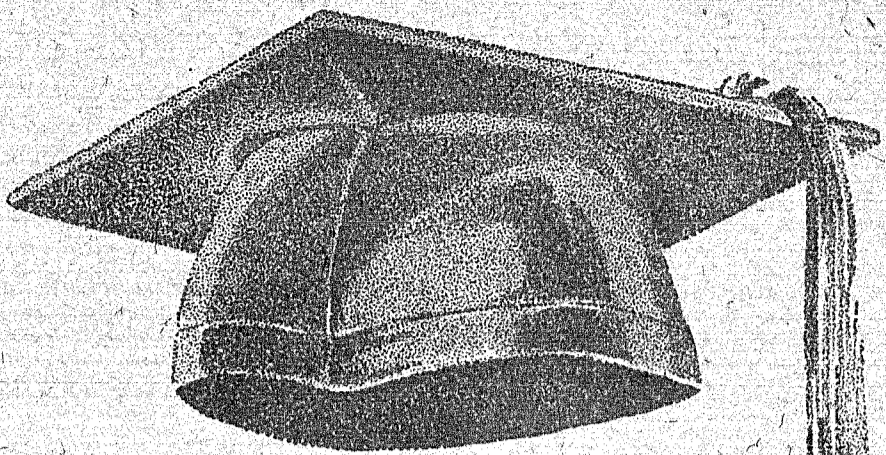

Patsy didn't wait long about finding her mate either. She married just after graduation from high school. Brownie and she left for Denton where he hoped to enroll in North Texas State Teachers College. We are sorry to say that he was certainly surprised. It seems that Patsy is such a poor cook that she can't even boil water without scorching it. You guessed it, her husband ended up in the kitchen and she ended up in college, studying to become a school teacher. What's worse she could out nag any other woman in the entire State of Texas. She is now a dominating old hag in the Santa Anna Public Schools and she reminds me so much of a certain bookkeeping teacher I once had.

ELLEN LEWIS

Ellen decided that she was going to become a movie star, so off she went to Hollywood. As you might know Hollywood is only interested in foreign actresses, so Ellen went to Italy and studied acting. At the same time she learned to speak Latin better than the Italians. After 7 years of hard work and study she returned to Hollywood as an Italian movie star. She was a great smash, mainly because a cattle truck happened to hit her as she was crossing the street. After a lengthy stay in the hospital, she was released. It was quiet evident though that her movie days were over. You see they amputated both her legs, and who ever saw an Italian movie star with no legs. After her dreadful accident Ellen retired to a villa overlooking the sea and became famous as a play write.
