

# Lend-Lease Bill Drafted

## Act Carries No Figures, Say Farmers

WASHINGTON, Jan. 9 (AP)—A tentative draft of a bill granting the government board powers to lend ships, tanks, guns and planes to Great Britain and other "democracies" has been completed and may be ready for congress tomorrow.

Administration lieutenants said that the measure was entirely new legislation and did not involve amendments to any existing laws, such as the neutrality act or the Pittman law of last June authorizing assistance for Latin American nations engaged in defense programs.

Whatever the ultimate cost of the lease-lend plan — estimates ranged from \$2,000,000,000 to \$10,000,000,000 over a period of years — the bill as now drafted will carry no sums, one leader said.

Any outlays would supplement the 1941-42 domestic budget submitted yesterday calling for \$17,485,282,048.

Administration lieutenants were expected to confer on the lease-lend legislation with Mr. Roosevelt — perhaps today — before introducing it in congress.

It was learned afterward that efforts were being made to complete the bill for simultaneous introduction in both houses tomorrow.

Speaker Rayburn promised prompt house action, saying "speed is of the essence."

HUNGER STRIKER CARRIED TO BOAT—This Devil's Island escapee, ordered deported with seven others from Miami, Fla., had to be carried aboard a coast guard cutter there. Immigration Inspector W. B. Thomas said the man, Louis Jay, went on a hunger strike in protest. Carrying him is Charles Wilson, immigration guard.

### British To Train Younger Pilots

LONDON, Jan. 9 (AP)—Sir Archibald Sinclair, secretary for air, announced today the establishment of a training plan designed to open the Royal Air Force to boys of 16 and older "to meet a growing demand" for pilots.

There are about 700,000 boys between 16 and 18 to whom the training will be open. "We are making a broad way into the RAF which will open to young men who have had every kind of educational experience, even those who have abandoned their education at an early age," Sir Archibald said.

The plan includes special educational facilities, formation of university air squadrons and short university courses for air crew candidates.

### 'I Am' Leader Denies Charge

LOS ANGELES, Jan. 9 (AP)—The denial of one of nine leaders of the "I Am" movement being tried on mail fraud charges that he had

ever asked money from his followers was before a federal court jury today.

William J. Cassiere, known as "Brother Bill" to "I Am" students throughout the nation, testified he received only "love gifts," and said he was forced to supplement them at times from his earnings as a printer and his soldier's bonus.

### Goebels Asserts Germans Working

BERLIN, Jan. 9 (AP)—German offensives "run off with the regularity of a clock because preceding them have been intervals of most careful preparation," Propaganda Minister Paul Joseph Goebbels told foreign correspondents.

He cautioned correspondents therefore not to regard the present apparent lull in operations as meaning that Germany does not know what to do next.

"The present pause is creative and is only apparent," he said. "German leadership knows exactly what it wants and how to do it and it is a fatal mistake not to realize this," Goebbels declared.

### Mrs. Hayworth Dies At Moore

Mrs. Sallie Hayworth died at the home of a daughter, Mrs. M. L. Rowland, at Moore, Wednesday night.

The body will be sent to Granbury by train tonight, and burial will be made there Friday afternoon.

Mrs. Hayworth was born in Alabama, July 20, 1858. She had been a member of the missionary Baptist church many years.

Survivors include the daughter and seven sons, Allen of Granbury, Bill of Stanton, Monroe of Llan Morris and Dennis of Big Spring, Jake of Corpus Christi and Horace of California; and a brother, John Wheeler, of Strawn.

### US Rejects French Plan Of Migration

WASHINGTON, Jan. 9 (AP)—The United States has rejected a French proposal that the two governments undertake a special project for the migration of refugees from France to the western hemisphere.

A note from Secretary Hull said: "Present world conditions operate to cause governments in many instances to forego the free exercise of their authority and the essential requirements for a constructive solution of the fundamental problems of migration and resettlement do not prevail."

The French proposal was intended primarily to solve the problem of refugees of German origin, mainly Jewish, now in unoccupied France.

### Reynolds Loans To Democrats Told

WASHINGTON, Jan. 9 (AP)—Senator Tobey (R-N.H.) told the senate campaign committee today that R. J. Reynolds, wealthy tobacco man, had loaned \$275,000 to democratic groups during the fall political campaigns.

Reynolds recently was named treasurer of the democratic national committee.

"I don't know Mr. Reynolds but we all know it's human nature to expect something in return," Tobey told his fellow members of the senate committee. "Mr. Reynolds appears to have been the good angel of the democratic party."

### Governor Gets Flock Of Sheep

AUSTIN, Jan. 9 (AP)—Mutton should be plentiful at Governor W. Lee O'Daniel's inaugural barbecue Jan. 21.

Ralph Moore of San Marcos pledged two sheep to the larder today and announced his community would provide at least 20 head.

Between 10,000 and 20,000 persons are expected to partake of barbecue after the governor takes his second oath of office.

The barbecue committee will purchase 5,000 pounds of dressed meat but has invited donations on the hoof since all animals will be butchered and dressed here.

### New Influenza Vaccine Found

CHICAGO, Jan. 9 (AP)—The accidental discovery of a new vaccine against influenza was hailed by medical authorities today as one of the most promising practical leads in research of recent decades.

The journal of the American Medical Association places this evaluation on the preventive inoculation and reported that it "gives scientists some radically new ideas about immunity against disease."

### Mexican Sailors Ask Pay Raise

MEXICO CITY, Jan. 9 (AP)—The Mexican navy today petitioned President Avila Camacho to grant its personnel pay increases equal to those recently approved for the army.

Government sources expressed the opinion the president would approve the request.

The army's pay increases ranged from ten centavos (about 2 cents U. S.) a day for privates, corporals and sergeants to one peso (about 20 cents U. S.) in all officers' brackets.

### Firebug Turns In Alarm For Self

CHICAGO, Jan. 9 (AP)—Detectives Thomas Edwards and Stanley Paukowski, grabbing a snack in a restaurant, perked up when they overheard a patron, using a coffee cup as though it were a microphone, drop these words:

"Car 178—calling car 178—go to fire at 10401 Avenue L."

They seized the "announcer," marched him to the address mentioned and found a fire.

They said the man admitted starting not only that blaze but nine others in the past two years. Explained he: "I don't like dogs so I started the fires to smoke them out."

### Harry Hopkins Reaches London

LONDON, Jan. 9 (AP)—Harry Hopkins, special representative of President Roosevelt, arrived in London by special train tonight ten minutes after the capital's air raid sirens began screaming their first nocturnal warning since Sunday.

"I had a good trip and I'm feeling fine," Hopkins told newspaper men.

He climbed into a limousine with Brendan Bracken, secretary to Prime Minister Churchill, who had met him at the English town where a plane had brought him from Lisbon, Portugal.

He was smiling when he came into an illuminated area way from the blackout.

### Volunteer Labor Boards Requested

HARRISBURG, Pa., Jan. 9 (AP)—Citizens of Pennsylvania, whose vital industries are at work on millions of dollars of national defense contracts, were urged today to form "voluntary labor boards" to keep the wheels turning.

Lewis G. Hines, 53-year-old veteran labor mediator who is the state secretary of labor and industry, calling in industrial and union representatives for an informal conference, declared:

"There never was a strike that couldn't be settled and we're going to sit down and figure out the best way we can to see that they're settled quickly."

### Here And There Naval Bomber Takes Off From Corpus Christi

White the flu epidemic may be on the wane, many school children are still absent. Tuesday the high school booked 94 absences and Wednesday the figure was 97. In addition, some others had to go home during the day. Elementary attendance is holding up well considering conditions.

Another oil field adult evening school class is to be organized at Coahoma on Feb. 11, according to W. T. Wynn, who has served as instructor of two completed courses. What the course will be and who will be instructor remain to be decided in the initial meeting.

Thieves, who specialize in rifling cars of their contents, made a big haul off Mrs. F. B. Clifton at 606 Nolan street. They relieved Mrs. Clifton's car of about \$25 in cosmetic products.

### Mexican Petroleum Negotiations Break

MEXICO CITY, Jan. 9 (AP)—The petroleum workers commission, which has been cooperating with the government oil administration toward reorganization of the industry, today suspended conversations with the government representative.

Without specifying their objections to Aureliano Belloc, the government's spokesman, the labor representatives petitioned General Manager Grain Buenostro of the oil administration to replace him. Buenostro informed commissioners he would confer with them Saturday.

### Naval Bomber Takes Off From Corpus Christi

CORPUS CHRISTI, Jan. 9 (AP)—A PBV-5 naval patrol bomber took off from Corpus Christi bay today for Pensacola, Fla., its original destination, after a delay of seven days when it landed last Thursday on a South Texas ranch pond to escape a West Texas snowstorm.

In the ship were Lt. J. Murray Hanson, pilot, Ensign Robert B. Clark, co-pilot, Robert Brooks, mechanic, and Edward Alwyn, radio operator, who volunteered to serve as a crew for the officers after they lifted the 13-ton bomber from the shallow pond's improvised runway.

Lieutenant Hanson and Ensign Clark are the remaining members of a seven-man crew which ran into a snowstorm in West Texas last Thursday. One man was killed when the five enlisted men bailed out in the storm. The other four died on a California mountain top when their rescue plane, returning them to San Diego, Calif., crashed, killing them and seven companions.

### LEAHY SEES PETAIN

VICHY, France, Jan. 9 (AP)—Admiral William D. Leahy, United States ambassador to France, was received by Chief of State Marshal Petain today for what was believed to be a discussion of the general situation.

### Greeks Capture Supply Of Guns

ATHENS, Greece, Jan. 9 (AP)—A "whole company of mortars" and more than 200 prisoners were captured by the Greeks in restricted local fighting along the (snow-covered) Albanian battlefield yesterday, the Greek high command announced.

Greek warplanes bombed and machine-gunned battlefield areas and shot down three Italian planes, a communiqué said. In the Klisura sector, Greek patrols were said to have made minor gains.

### Mineral Wells Camp Sabataged?

MINERAL WELLS, Jan. 9 (AP)—A German alien was held in jail at Palo Pinto today while federal agents investigated a possible sabotage attempt at the government's \$6,000,000 army replacement center under construction at Camp Wolters.

Major Dott Smith, the camp Wolters police chief, said the man had a quantity of highly inflammable chemical when arrested on a liquor sale charge.

Smith also said the man, described as a resident of Waco, had attempted to obtain work at the camp, once giving an assumed name.

Film Star To Be At Lyric In Person Churchill Praises Lord Halifax As 'Momentous Mission' Nears

One of Hollywood's versatile men, despite the fact that he gained a reputation as a western player...

LONDON, Jan. 9 (AP) — Prime Minister Churchill told a luncheon of the Pilgrims here today "It is our fervent hope that Lord Halifax, British ambassador to the United States, may prosper in a mission as momentous as any that the monarchy has entrusted to an Englishman in the lifetime of the oldest of us here."

human progress would be lost and might never return. "We stand—all of us—upon the watchtowers of history and have offered to us the glorious opportunity of making the supreme sacrifice and exertions needed by a cause which it may not be irreverent to call sublime," Churchill cried.

# Utilities Magnate Draws 17 5-Year Prison Sentences

## Hopson Once Headed Huge Corporation

NEW YORK, Jan. 9 (AP)—Howard C. Hopson, who created a vast utilities empire which finally toppled and collapsed of its own weight, was sentenced today to five years imprisonment on each of the 17 mail fraud counts on which he was convicted Dec. 31.

The terms were to run concurrently. Federal Judge Alfred C. Cox, who presided during the eight weeks of Hopson's trial, disregarded a plea for mercy by Hopson's lawyer, Fred A. Ironside, Jr., who contended that business standards were different in the days of Hopson's operations from what they now are.

Hopson stood beside his lawyer, during the trial, his hands clasped behind his back. He dropped them to the side as the court pronounced sentence. He gazed steadily at the judge, his face expressionless.

The one-time head of the billion-dollar Associated Gas and Electric system, now a broken, feeble man, was charged by Assistant U. S. Attorney General Hugh Fulton with perpetrating one of the largest frauds, if not the largest, in financial history.

The government charged that Hopson defrauded stockholders and various units of the intricate, pyramid Associated Gas and Electric set-up of approximately \$20,000,000.

His two co-defendants, Attorneys Charles M. Travis and Garrett Brownback, who were accused of aiding Hopson in his kaleidoscopic fiscal manipulations for a number of years, were acquitted. Hopson was acquitted on a single count of conspiracy.

NAZI MOSQUITO BOAT LOADS, SPEEDS OFF TO HARASS BRITISH — A Nazi speedboat (top photo), one of the fleet of small but deadly "mosquito boats," loads a torpedo on an unnamed port for an attack against British ships in the English channel. In the lower photo, a fleet of the torpedo-carrying boats, their motors thundering, moves away from the home base to wage war on enemy warships and merchant shipping. Bulkhead at right appears to be damaged.

BRITISH PUT ON SPEED AND POWER IN THE DESERT—The British, with Bardia in their hands, hammered at the defenses of Tobruk and British military circles said that the speed and power of their mechanized cavalry made the situation precarious for Marshal Graziani's troops unless they began a retreat toward Benghazi immediately. The British occupied Tobruk's airport, El Adem, and thrust at other points in the 75-mile defense circle ringing Tobruk as the navy and the R.A.F. pounded at the fort from the sea and in the air. The advance took British columns toward Derna and along the road toward Benghazi. The British claimed the road west of Tobruk was commanded by their patrols. Inset shows the area from Bardia to Tripoli. The R.A.F. bombed Tripoli, the Rome communique said, killing four and injuring 10.

### High School Debate Classes Organize

The high school debate class, under the direction of Eloise Haley, has started practicing for tryouts as members of the high school debate team, which will participate in debate tournaments throughout the state.

A boys and girls team will be chosen within the next two weeks so that the group may attend the tournament at Abilene January 20. Subject for high school interscholastic debating this year is: "Resolved that Texas should increase taxes on natural resources."

The class has organized a speech club which will give a dance the last week in January to raise funds for financing debate trips during the spring.

### French Indo-China Forces Withdraw

HANOI, French Indo-China, Jan. 9 (AP)—The French acknowledged today a general withdrawal of five to 10 miles inside the Cambodian frontier with Thailand (Siam).

That patrols pressed concerted attacks on two main fronts—one 100 miles long and the other 95. These were on the borders of the provinces of Cambodia and Laos.

The French said their troops were withdrawing to previously prepared lines because border terrain in those areas was strategically indefensible.

### ANOTHER NAPOLEON?

Dispatches from Nyon, Switzerland, said Bonaparte supporters were negotiating with the Vichy government for return to France of Napoleon's great-grandnephew, Louis Napoleon Jerome Victor Emmanuel Marie, 36, (above), also known as the Count of Montfort. Bonapartists hope he will become ruler of Modern France, it was reported.

### Demand Declared Great For Latin Instruction

KENT, Ohio. (UP)—Latin, often considered a "dead" language, nevertheless is so popular in colleges that the demand for teachers far exceeds the supply, according to Dr. Lester H. Munzenmayer, of Kent State university.

"Surveys show that if a student can succeed in Latin or in science he probably will make a success of his entire college program and will do a thorough job of educating himself," said Dr. Munzenmayer, director of teacher placement at the university.

### Langley Field School Graduates Army Cooks

NORFOLK, Va. (UP)—Forty-eight "knights of the kettle" have been graduated from the training school for many cooks at nearby Langley Field after a two-months course that covered everything from setting up a field kitchen in a driving rainstorm to figuring a close kitchen budget.

Among other things, the student cooks were taught the art of feeding soldiers on as little as 41 cents a day. Most of the first "graduates"—now designated mess sergeants, first cooks or second cooks—soon will be on their way to stations in Puerto Rico or other air bases.

Comets travel about the sun in orbits millions of miles from the earth and consist of gas and swarms of particles loosely held together by gravity.

### Kiwanians Plan 1941 Activities

In a meeting that was given over largely to problems in general—and a wholesale outlining of plans for the forthcoming presentation of Rubinfoff and company—Kiwanians gathered at noon today for their first meeting under the 1941 administration.

Programs for at least the next month are to be in charge of Kiwanis Education committee, and today's speaker was Merle Stewart.

Special music was furnished by a club "trio," composed of Walter Wilson, Frank Boyle, Hershel Summerlin and H. C. Headley. "This makes four, but Walter and I are half sick, so we still have just a trio," Summerlin said.

A special meeting of both the directors and membership committee was held following today's luncheon, and an extensive drive for new Kiwanians is expected to get underway early next week.

"Our goal is 10 for the new year," President Boyle said, "but with the cooperation of all members we should be able to double that figure."

### Chicago City Employees Strike

CHICAGO, Jan. 9 (AP)—Traffic lights were darkened in many parts of the city today and elevator service in municipal buildings was suspended as more than a dozen unions of city employees struck in protest against proposed pay cuts.

The full effects of the walkout were not immediately apparent, since some union men showed up for work, apparently delaying strike action until after an emergency conference between union and city officials in Mayor Edward J. Kelly's office.

Some city employees not affiliated with unions reached higher floors of offices by using the elevators on the county side of the building.

### Firemen Feted for Service

HUDSON, Mass. (UP)—After firemen saved his house from burning, John A. Miller showed his appreciation by serving a banquet to Chief James Coleman and his men.

## Are You A Hit-and-Run Shopper?

Hit-and-run drivers are known as a national menace. Hit-and-run shoppers are almost as dangerous—but only to themselves!

Hit-and-run shoppers act on impulse, without plan or purpose. They rush through miles of aisles, pause, pass on, back-track and buy.

They pay too much and get too little. They waste time and squander energy. And a lot of their pointless purchases wind up in a dark closet with the rest of the family skeletons!

Smarter, shrewder shoppers chart their shopping trips in advance—in the advertising pages of this paper. They compare products, prices, values. They learn exactly where to find what they want. Then they go and get it.

Read the advertisements regularly. It's a simple system. But it saves time, temper, tramping. And it makes every dollar do double duty!

FORT WORTH, Jan. 9. (AP) — The American National Livestock association prepared to wind up its convention business today with J. Elmer Brock of Kaycee, Wyo., slated for reelection as president. Salt Lake City was considered the chief bidder for the 1942 meeting.

Four speakers were scheduled for the final session. They were Eugene J. Hayward, Cimmaron, N. M.; Dr. W. E. Cotton, Auburn, Ala., faculty member of Alabama Polytechnic Institute; G. A. Eastwood, Chicago, president of Armour and Company, and Chester H. Gray, Washington, director of the National Highway Users conference.

Five hundred delegates are attending the convention.

**Piano Disappears In Texas Tornado**

MADISONVILLE, Jan. 9. (AP)—A tornado which demolished the George Franklin home near here two weeks ago, killing Mr. and Mrs. Franklin and a daughter, carried the piano away. It still is missing although the piano stool has been found.

Part of the furniture was blown two miles. A wood stove was borne 100 yards from the home and set down on its legs, the fire still burning.

**Here And There**

Joe Ince of California, in Big Spring to brush up on his flying with local CAA courses, has the opinion that Father Time is a rather peculiar customer. Ince, a Britisher by birth, was flying across the battle lines of Europe in 1918 but now is taking instruction under Bill Edwards, born in 1921.

Originally in the infantry, Ince was wounded during the last war and transferred to the Royal Air Service when he got out of sick bay. Since then he has flown on different parts of the globe, but let his license lapse a few years back. Now he has to start from the bottom before he can get in the air again.

Speaking of flu remedies, Jim Winslow tells how cowhands used to handle it—or in grippie, it was known. There was no going to a doctor, so when a man came down, they gave him a big dose of table salt solution. If it was an upset stomach, the cause came up. A strong black pepper solution was the dope for the "flu," and a night under heavy cover went with it. Next day men were supposed to be up on their feet.

Other ailments were treated in home-spun fashion. Once Ray Stout caught a finger between the horn and rope with a cow on the other end. It was crushed, and after a day or so of suffering, cowboys held him down just like branding a steer. He squealed and screamed, but they calmly told him: "We know this is going to hurt, but we have talked it over and know it's best for you." So they used the meat saw to take off

the finger. Days later they got to Lubbock and a doctor had to do it over, the bone had protruded. But Stout got all right.

J. C. Kuhn, district citizen pilot training supervisor, flew down from his base in Amarillo to make a routine CAA inspection Wednesday. Kuhn gave flight tests to secondary trainees and instructors and checked flights by primaries and instructors.

Kuhn was flying one of the new Ercoups, a practically fool-proof light plane with an underslung wing and tricycle landing gear.

Dr. and Mrs. O. E. Wolfe returned Wednesday night from San Angelo where they attended the state veterinary association's semi-annual meeting. Dr. Wolfe, who is on the State Board of Veterinary Medical Examiners, was at the session from Monday through Wednesday. Mrs. Wolfe said those at the meeting claimed it the best session they ever attended. The veterinarians and their wives were entertained Wednesday at the Dwin Hughes ranch, 20 miles west of San Angelo, with a chuckwagon supper, barbecue and Hughes exhibited his Tennessee walking horses and Herefords. Dr. and Mrs. Paul Borick of Port Arthur, accompanied the Wolfes here and spent Thursday with them before going on to Pinalview.

WICHITA FALLS, Jan. 9. (AP)—John Robert Morgan, 85, who came to Texas at the age of 14, the son of a pioneer physician who settled near Austin, died here Wednesday.  
A trail driver and early day cattleman, Morgan was known for his colorful stories of early episodes in the history of the state and a chapter in J. Frank Doble's latest book, "Mustangs and Cowhorses," recounts his experiences.  
Morgan is survived by his widow and 10 children, nine of whom were born to a former marriage. He was a charter member of the Masonic lodge at Austin.

**Bill To Enlarge Congress Offered**

WASHINGTON, Jan. 8. (AP)— Legislation to reappoint the house of representatives in 1942 with an increase of fifteen members under the 1940 census was proposed yesterday by Representative Rankin (D-Miss.).  
Under Rankin's bill (HR 1519), California would pick up three seats and Texas, among others, would gain one. Kansas and Oklahoma would lose one seat each.

A survey made at the University of Toledo shows the average college student reads 24.8 books each year.

School Board Asks Defense Project Here

Application for a vocational training project in cooperation with the national defense program is being made by the Big Spring school board.

Submission of the application does not mean the district will get or can go through with the project, but it does signify the board's interest in securing educational defense funds if possible.

Under terms of the arrangement, the district would be called upon to furnish minimum housing standards, and a limited amount of "hand tools." Heavy metal tools, machines, etc. would be furnished out of federal funds as well as instructional, utilities, janitorial, and other costs. The application will be submitted to Pascal Buckner, district vocational educational supervisor, on his return from Austin Thursday.

Miss Laneous Notes

By MARY WHALEY

Pride is an indefinable thing and yet it is responsible for every thing we do. Pride is what makes us different from each other. For each of us is proud about something in our lives.

Some put their pride in a appearance and others who don't care, label it vanity. Some take pride in their money, and others call it being stingy. But the labels do not make the article different.

All our actions can be traced to pride in someone or somebody. In something or someplace. We all have bristly edges of pride that others must walk around.

Fear of insults and slights make us do a lot of stupid things. We imagine actions that couldn't be and then creep into our little shell and pull our pride up close around us. That way we imagine we don't feel the chill.

Fear of not being one of the crowd makes us keep on when we have had enough. But it isn't natural badness, it is just pride in wanting to keep up. Some folks frown at these playboys, but it's just that their pride runs in a different channel.

In the little five letter word contained all the human emotions that make us what we are. Either gay or sad, kind or disagreeable.

Did you see that writup in the weekly paper? There's a barn raising at Ed's place today. That's where all the cars were going this morning.

Before the fire was out, one of the neighbors brought up the subject of a barn raising to help Ed out. Everybody agreed it was a mighty fine idea. They'd do it in a day, after Ed got his mind set on how he wanted it built.

It goes without saying that Ed is mighty grateful about the whole thing. He knew he had good neighbors and this proves it. His pa's folks and their neighbors did the same thing right in the same county for a good many years, and Ed would be the first to lend a hand if one of his neighbors got burned out too.

Mitchell County 4-H, FFA Prize Winners Named

COLORADO CITY, Jan. 8. (Sp.)—Winners of the annual Mitchell county 4-H and FFA prize production contest sponsored by the FFA chapter of Westbrook high school were announced this week by C. V. Cox, vocational agriculture teacher at Westbrook.

The contest is based on the writing of an essay on "Selection and Feeding of a Barrow." Eight girls are given as prizes.

First place winner of the 1940 contest was Junior Jordan of Westbrook, with Chas. Candler of Westbrook in second place. Each of these two boys received two girls, one a Duroc-Jersey, one a Poland-China.

One girl piece went to each of the following boys: James Stewart of Westbrook, Hogan Fowler of Hyman, Dale Northcut of Spade, and Wayland Roberts of Lorraine.

RAF Planes Unchallenged In Wide Area

By the Associated Press

British warplanes hammered a series of blows at the axis last night and early today, raking half a dozen cities from the north coast of Germany to Italy's dwindling empire in North Africa.

RAF bombers rode the skies virtually unchallenged in raids that included Naples, Italy; Palermo, Sicily; Wilhelmshaven and Emden, Germany; and Bengasi and Tripoli, North Africa.

Premier Mussolini's high command said RAF raiders, striking in waves, blasted Naples with "numerous" bombs, killing five persons and wounding 30.

A fascist communique listed damage to 15 buildings and a hospital ship in the harbor, but declared that most of the bombs fell "in the sea."

No damage was reported at Palermo.

Hitler's high command cited 11 killed and 14 wounded by British raiders showering high-explosive and incendiary bombs over northwest Germany—attacks identified by the British as centering on German naval bases at Wilhelmshaven and Emden.

A London air ministry communique said the Wilhelmshaven raid was marked by "many explosions... large fires" while more than 20 fires were started in docks at Emden.

RAF attacks on Bengasi and Tripoli were described by the Italians as having caused "slight damage," with three killed at Tripoli.

Other British planes harassed the Italians in Somaliland and Eritrea, East Africa.

On their part, the fascists reported a heavy bombing assault on the Greek port of Salonika "with evident effectiveness" and declared that Italian warplanes had strafed Greek troop concentrations, and bombed bridges and artillery on the Albanian battlefield.

Symbol Of New Economy

An Associated Press man figured it at \$554 per second for a year—every second of every day and night. It means something like \$14 for the year for every man, woman and child of every age in the United States.

So they decided to make him president of the senate, and ever since then the senators have been saying: "What's the big idea—the executive branch coming up here to the legislative branch and handing us a presiding officer? They don't treat the house that way. Those little two-year men get to elect their own presiding officer. Why can't we? Oh, we know it's in the constitution, but that certainly was a slip on somebody's part and don't think we won't get even."

Man About Manhattan

University President's Salary Highest

AUSTIN—The highest salary paid by the state goes not to Governor W. Lee O'Daniel or any state department official. It is received by Dr. Homer P. Rainey, president of the University of Texas. The figure is \$17,500 a year.

testing or complaining Wednesday. Maybe big figures have dulled his reactions, or maybe he's ready and willing to pay. Maybe he sees some consolation in the president's observation that the national income for the year will reach a new peak of \$87,000,000,000—which is seven billions more than that now-fantastic year, 1929. Maybe he realizes that when income goes up, taxes are easier to pay.
