Stempel Mfg. vice president Phil Huggins, at the right, is shown here with Lyn Taylor who is contracting some of the building improvements at the location of the company's new expansion project. The loading ramp has been constructed by Montie Guthrie, Contractor.

Stempel Expanding To S.A.

Stempel Mfg. of Coleman is expanding some of its operation to Santa Anna and will be located in the building known here as the old tile plant building.

According to Phil Huggins, vice president of manufacturing, and a Santa Anna native, the plant here will be fabricating tops of office furniture and assembling components of furniture that arrive here from their plant in Monterey, Mexico. The company manufactures office furniture such as folding tables and computer furniture. From here the items will go to the plant in Coleman to be

shipped on company trucks to its customers nationwide. According to Hugh Stempel, owner of the company, Stempel Mfg. markets to office product buying groups, individual stationers and the new breed of "super stores" such as BizMart, Office Depot and others.

A large ramp has been built at the rear of the building for loading and unloading and other work is going on inside the building to ready it for the new operation.

Mr. Stempel stated that a large number of Santa Anna people are employed in his operation, and they have been given the opportunity to transfer to this plant if they so

desire. If there are vacancies to fill, they will be offered to "anyone who wants to work." Applications will have to be made at the Coleman office.

The only other facility belonging to the manufacturing firm located outside of Coleman is situated in Mexico.

Hugh Stempel first established his manufacturing business in Dallas in 1946, a "20-job" company. He moved it to Coleman in 1969 and has grown to an operation of approximately 150 employees at Coleman and 100 in the Mexico plant.

The facility here is expected to open in a couple of weeks.

Santa Anna's Recycling Project Named 'SACHET'

Other Recycling Information And Tips Given

Santa Anna's recycling project has been very well received and pending final okay from the State, a name for the recycling center has been chosen. The name "SACHET" stands for Santa Anna Citizens Helping the Environment Together.

Texas Recycling Oil & Gas out of Brownwood is the collection company for SACHET. The Santa Anna organization was the first to initiate such a local program when it contacted Texas Recycling Oil & Gas.

Since opening for collections on May 11, the organization has collected the following: Aluminum - 68 pounds; steel - 206 pounds; glass - 729 pounds; plastic - 126 pounds; and newspaper - 2,882 pounds. Pounds on the cardboard collected is not known at this time.

The organization has had a lot of support from businesses and has expressed their appreciation to Bradley Lumber Co., Simmons Feed & Seed; H & H Food Mart, Western Auto, Holt General Store and Coleman County Telephone Cooperative. They also appreciate the donations from Montie Guthrie and Tex Wright.

A special thanks goes to all those in Santa Anna who have contributed their recyclable items to the center. You are encouraged to continue your support and ask your friends and neighbors to join in. All funds raised from the project are to be used in some area of community development.

Mary B. Pritchard and Lori

Kernes are the two environment conscious ladies spearheading the project and they can use some help in the form of volunteers. You may contact Mrs. Pritchard at 348-3873 and Mrs. Kernes at 348-3101 during the daytime or 348-3202 in the evenings.

The Citizens of Santa Anna owe a debt of gratitude to the two ladies for their efforts in helping to clean up the environment and to aid in alleviating some of the many thousands of pounds per week that are needlessly dumped at the City Landfill. We can increase the pounds contributed to the recycling effort while also helping save our landfill if everyone in the community would become as concerned as those who have already joined the "recycling crowd".

A recent report received by the newspaper office states that it takes at least 100 years for a tin can to decompose and turn to dust. Aluminum cans take 500 years; glass bottles 500 years or more; and they are not sure how long it takes for plastic milk jugs and plastic fast food containers, which in fact may never decompose.

Another recycling tip is not to bag lawn clippings and send them to the landfill to take up needless space.

According to a recent study across the state, in the spring and summer months, solid waste increases as much as 20 to 35 percent because of grass clippings. This results in more work for city crew members hauling the clippings plus the fact

that much unnecessary fill is dumped at the city landfill.

In "recycling" your clippings by leaving them on the lawn and allowing them to work their way into the soil, you will produce a beautiful green lawn. Examples of this are athletic fields, golf courses and park and recreation facilities which take the "don't bag it" approach and allow the clippings to help build an attractive turf. The procedure also cuts down on water usage as the thicker turf holds in the moisture.

Never Bag Again!

The "rule of thumb" for mowing home lawns is not to remove more than one-third of the leaf surface at any one time. If you use the following mowing schedule, you will no longer need to bag your grass clippings.

Grass type	Mower setting	When to mow
Common Bermuda	1.5"	2.25"
Tif Bermuda	1"	1.5"
Buffalo	2"	3"
St. Augustine	2.5"	3"
Tall Fescue	2.5"	3.75"
Zoysia	2"	3"

Grass clippings left on your lawn will not contribute to thatch, but will return valuable nutrients to the soil. They usually contain about 4 percent nitrogen, .5 percent phosphorus and about 2 percent potassium, as well as all the necessary minor elements plants need.

Grass clippings also make an excellent compost for gardens. Compost use is the best way to improve garden soil because it returns nutrients to the soil and improves the soil's physical characteristics.

Saturday's Elections May Be Most Confusing In Texas History

The special elections to be held Saturday across the State of Texas, may, in the terms of some, may turn out to be the most confusing election in Texas history.

There will actually be two elections held that day - a state constitutional amendment election and a school district election.

The state election to be held locally at the Telephone Cooperative from 7 a.m. to 7 p.m., will involve two constitutional amendments.

The County Educational District (CED) election will be held locally at the Santa Anna School District Administrative Office, also from 7 a.m. to 7 p.m. The school districts of each county in Texas will conduct a local option on behalf of the county education districts concerning issues addressed by Proposition 1 of the state constitutional amendment election.

Both the elections are a result of the school finance bill, passed in the last session of the state Legislature, which drastically alters the way school property taxes are collected and distributed.

Proposition 1 in the constitutional amendment election deals with certain property tax

homestead exemptions, and also the taxation of certain personal property by the CED. If proposition 1 of the constitutional amendment election fails, the school district election, (whereby the voters authorize the CED to grant exemptions), will be null and void. However, the governing body of the CED might adopt these exemptions under existing provisions of the Constitution.

Voters can authorize exemptions in the school district election by voting yes on Proposition 1 and 2 and yes in the statewide constitutional amendments election,

Proposition 1. Proposition 3 in the school district election deals with taxation of non-income producing property such as boats, RV's, cars, etc.

According to Harold Skelton, chairman of the Coleman County Educational District board, "The CED board did not favor the taxation of personal property in Coleman County." It was the consensus of the board that taxing personal property would create significant problems for the county tax office and be difficult to administer in a fair and equitable manner.

Community Services Group Meets Thursday At Telephone Building

The Santa Anna Community Services organization will meet Thursday, August 8, at 7:00 p.m., at the Coleman County Telephone Cooperative building. Purpose of the meeting is to discuss the possibility of the use of the Senior League Field by the school during the coming school year. Although there has been no official school discussion or commitments as yet, there is some interest in the formation of a baseball program at the high school and if a decision is made to that end, they may need the use of the field until they can make permanent arrangements for a field of their own. Use of the field will require approval by the Community Services organization.

Delta Omicron Community Calendars Now On Sale

Good News-Bad News For Coleman Hospital

An optimistic report was released last week by William E. Hisey, president of Noravex, Inc., the firm which is leasing and operating the hospital.

One announcement was that another doctor will be opening a practice at the hospital on August 15. Dr. Orhan Oral of Comanche will have an office on the second floor of the hospital in what is generally known as the Morris Building. Considerable renovation is planned for the area with partitions to be installed in the hall to enclose the suite of rooms. Entrance to Dr. Oral's office will be through the main entrance of the hospital and then up the elevator to the second floor where signs will give further directions.

The report on the first week of operation shows that five people were admitted to the hospital, two admitted to skilled care and one to inn care. As of the middle of last week, the patients numbered 13, including hospital, skilled care and inn care.

Plans were also revealed to eventually change the name of the hospital to Coleman County Community Hospital and Professional Building.

Hisey reports he is pleased with the progress at the hospital and states the cafeteria is doing well and they may make plans to expand the seating area there.

Doctors from West Texas Medical Association in San Angelo will continue to be in Coleman on a regular basis. Dr. Hear was to be there on August 7, Dr. Hughes will be there on the 15th and Dr. Korte on the 27th. Dr. Cook and Dr. Gibson will announce their schedules at a later date.

Hisey adds that the staff expresses appreciation for the warm response during the transition period, and, with this continued cooperation, they see a bright future for health care in Coleman County.

Thoughts From Our Pastors

Waide Messer
First Baptist Church

In a daily devotional book published by the Radio Bible Class, I read this story: "A young mother and her two little girls who went for a walk along the top of some very high cliffs. The mother grew tired and wanted to rest, so she sat down under the shade of a tree while the children ran over the fields picking buttercups and daisies. Before the little ones left, she said, 'I will not call you a minute before I want you, but you must instantly obey the moment you hear me.' After a time, as the youngest was stooping to pick a flower, a beautiful butterfly flew over it. The lovely winged creature flitted just above her head enticing the child to follow. On and on she went. Suddenly the frightened mother noticed that the little tyke was very near the edge of the steep cliff. Loudly she cried out the one word, 'COME!' In response to the shouted warning, the child instantly returned, saying, 'O mother, I nearly caught him, but I knew I must come the moment you called!' The mother led her daughter to the edge of the cliff and said, 'If you hadn't stopped immediately, you would have fallen and been dashed to pieces on the rocks below.'"

Beware of the beautiful butterflies of this world that will lead only to disaster. Jesus is calling out to you "Come, and follow me" (Matt. 19:21). It is only as you place your faith in Jesus Christ and allow him to be your Lord and Savior that you can avoid stepping off the steep cliff of eternity and be forever separated from God. I invite you to make a commitment today to allow Jesus Christ to be your Lord and Savior. I also encourage you to be involved in your local church and live for Jesus.

Around & About

Mrs. Mildred Howard of Powhatan, Ark. has been visiting in the home of her sister, Mrs. R.C. Smith. During her visit, they attended the play, "New Moon" in Abilene, presented by the Abilene Opera Company. Also attending was Lori Kernes. Mrs. Smith and Mrs. Howard took a trip to the Brenham area, touring the Blue Bell Creamery, Ellison's Nursery and Antique Garden.

Ryne Smith, grandson of the R.C. Smiths, celebrated his 5th birthday recently with a party here at the home of his grandparents. Attending were Ryne's other grandparents, Mr. and Mrs. Charles Wetsel of Cisco, Mr. and Mrs. Mike Wetsel, Michelle and Crystal of San Angelo, Mr. and Mrs. Jimmy Kernes of Santa Anna, Mrs. Mildred Howard of Powhatan, Ark., his parents and sister, Mr. and Mrs. Dick Smith and Dana of Wimberley, and the hosts.

Mr. and Mrs. Gary York were in Amarillo last week for the Texas Ag Teachers' Conference. The conference was held at the Amarillo Convention Center where Mr. York attended workshops and other in-service sessions for the state's agricultural instructors. Of special interest were bus tours of several interesting sites around Amarillo including a visit to Cal Farley's Boys' Ranch where Mr. York was

on the teaching staff a number of years ago.

A & A
You have heard the old saying, "When it rains it pours." It rained in San Angelo Sunday night and along with that a sudden downdraft wind did some considerable damage to one section of the city, the section where this editor's son, Doug, lives. In fact, the apartment complex where he resides lost part of its roof in the wind, and some of that roof that went flying off, landed on top of Doug's car, knocking out the back windshield and a door window along with crushing the hood of the vehicle.

As Doug rushed to the porch to see what the commotion was, he noticed a flicker of the lights in his apartment and realized he had just lost a couple or three hours work on a research paper he had been struggling with at his computer. He soon was to find out that eight or ten others in the complex had experienced similar damage to their vehicles but didn't hear of any other computer mishaps. After a call home for reassurance and a word of encouragement from his dad and I, he went back to work on his paper so he can move forward to his graduation on the 16th. The insurance company will take care of the problem with his car. Luckily he lives just across the street from Angelo State University so will have no problem getting to his class but may be riding back and forth to work with a friend for a few days.

A & A
D.H. Moore called Saturday morning, August 23, at 7 a.m. from Germany to wish the Edd Hartman's a happy 50th anniversary. They also received a call from Jennie B. (Conley) DeShay of Amarillo.

Thanks to everyone who has visited, called, sent cards, gifts, food and for all other expressions of love and concern while I was in the hospital and since I have returned home.
May God Bless Each Of You

Library Notes

Reading Club meetings for boys and girls are over for this year - but, please help the children continue going to the library to check out and read books. School teachers can spot those children who have read over the summer.

Five new books for the youngest and beginning readers continue the idea of camping.

The Berenstain Bears Go to Camp and *The Berenstain Bears and Too Much Vacation* are fun books and include the whole family.

More books that were given by Chuck Weith of Abilene are appropriate for Junior High to adult readers.

Abigail Adams by Angela Osborne is a biography of the wife of the second President of the United States. She was a dedicated wife and mother. She was also a defender of women's rights in an age when women had no legal rights.

AMELIA EARHART by Nancy Shore - Biography. Amelia Earhart piloted a small plane across the Atlantic Ocean in 1932. She was the first woman to make this flight alone. She broke many aviation records and became the most famous female flyer in the world.

Wilma Rudolph is a biography by Tom Biracree. Wilma Rudolph's first battle was for survival. She was born prematurely in 1940, the 20th of 22 children in the family. At that time health care was limited, especially to poor black families in Tennessee. Wilma was crippled by polio at the age of 4 and could not walk without a leg brace until she was 12 years of age. She became a high school basketball and track star and made the U.S. Olympic Team in 1960. At the 1960 Olympics in Rome, she became the first American woman ever to win three gold medals in track. This book contains many photographs of Wilma and her accomplishments.

Frederick Douglas by Sharman Apt Russell is another biography.

Stork Report

Douglas was born a slave in Maryland. As he grew up he learned to read and write and eventually escaped to the north and freedom. He became one of the foremost leaders of the abolitionist movement, which fought to end slavery throughout the United States in the decades before the Civil War.

Nat Turner by Terry Bisson, also a biography about a man born a slave in Virginia in 1800. He became a fiery preacher and militant leader. On August 22, 1831, he led a slave uprising which left a trail of death and terror. The uprising was stopped 24 hours later. Turner was finally captured and hanged. The uprising, though short and unsuccessful succeeded in dispelling a widely held myth that blacks were content as slaves. The book contains many illustrations.

Joe Dimaggio is a biography by Marty Appel. Proclaimed by many as the greatest center fielder in baseball history, he played for the New York Yankees from 1936 to 1951, with 3 years out to serve in the U.S. Air Force during World War II. During this time, New York won 10 American League pennants and 9 World Series titles.

Dimaggio was named MVP in the American League twice and voted to the All-Star Team 11 times. He was elected to the Baseball Hall of Fame in 1955.

County Will Advertise For Ambulance Service Bids

A large group was on hand last week when the Commissioners Court met on Wednesday to consider the question of subsidized ambulance service within the county.

After considerable discussion, the commissioners made the decision to authorize advertisement for bids for the service. The current contract with Ed Freeman runs out August 31. The County will "serve the right to reject any or all bids, and to consider any alternatives."

One citizen spoke in favor of the County owning its own ambulance service. She stressed the importance of the service to the county residents.

Commissioner Max Horne pointed out that the County had had an ambulance service for four years, at least the county had been subsidizing such a service. He added, "We would like for someone else to take it over."

Ed Freeman agreed that ambulance service should be a "community affair", indicating that everyone needs to be involved. He said his service had been making an average of 10 calls per week.

Alisa LeSuer, acting administrator of the reopened Overall-Morris Memorial Hospital, pointed out that an ambulance service is necessary, and that the hospital has even considered involvement with volunteers. She said, however, there is some problems with working on a volunteer basis with having trained personnel. She went on to say that as a last resort, the hospital would operate an ambulance service, but they too, would need a subsidy.

A report was given on a volunteer operation in San Saba, which apparently is doing quite well. They have about 65 volunteers who take turns on shifts. The Ambulances are owned by the City of San Saba.

Richard Reynolds with AMCARE of San Antonio spoke at length on services provided by his organization, expressing interest in making a proposal for service. He also referred to MCI units (mobile intensive care units), and the use of paramedics on ambulance runs.

Mrs. Dorothy Eisenhower was present to represent Amstar EMS of Santa Anna. She and her husband, Jimmy, also operate Santa Anna Funeral Home. She stated they had operated for seven years with no subsidy, and they would continue their operation. She said they receive calls from all over the county. She explained that she and her husband do not draw a salary for the ambulance operation.

Lana Korzenewski, owner of Stevens Funeral Home in Coleman, stated they lost money when they operated an ambulance service and she was glad to be out of it.

Donnie Herferson, owner of Henderson Funeral Homes in Santa Anna and Coleman, stated his organization operates an ambulance service facility, serving only the Santa Anna area, but that it was a no-profit operation.

Judge Skelton discussed an ambulance tax district. But if approved, it would not provide funds until the fall of 1992. Such a plan is still under consideration. He emphasized the fact that the County does not have funds for an ambulance subsidy.

Something New To Be Added To Homecoming, Oct. 4-5

By Mary Lee Ford Fields, Entertainment Chairman

There is something that has always been remembered by me about the people who live in Santa Anna and that is they love sharing.

The previous two years we have tried to assist the P.T.O. and the Booster Club by asking them to serve evening meals, helping them to make money for their projects. They have made some money but not enough for all the trouble and expense they have encountered. So this year I have another plan. I would like for all out-of-town alumni to clean out their closets and attics and bring something that

can be sold at a big garage sale which has already been approved by the P.T.O. and we are waiting for a commitment from the Booster Club.

There will be a designated place for the items to be taken. The location will be announced later. The club, or clubs, will have the garage sale on the date of their choosing.

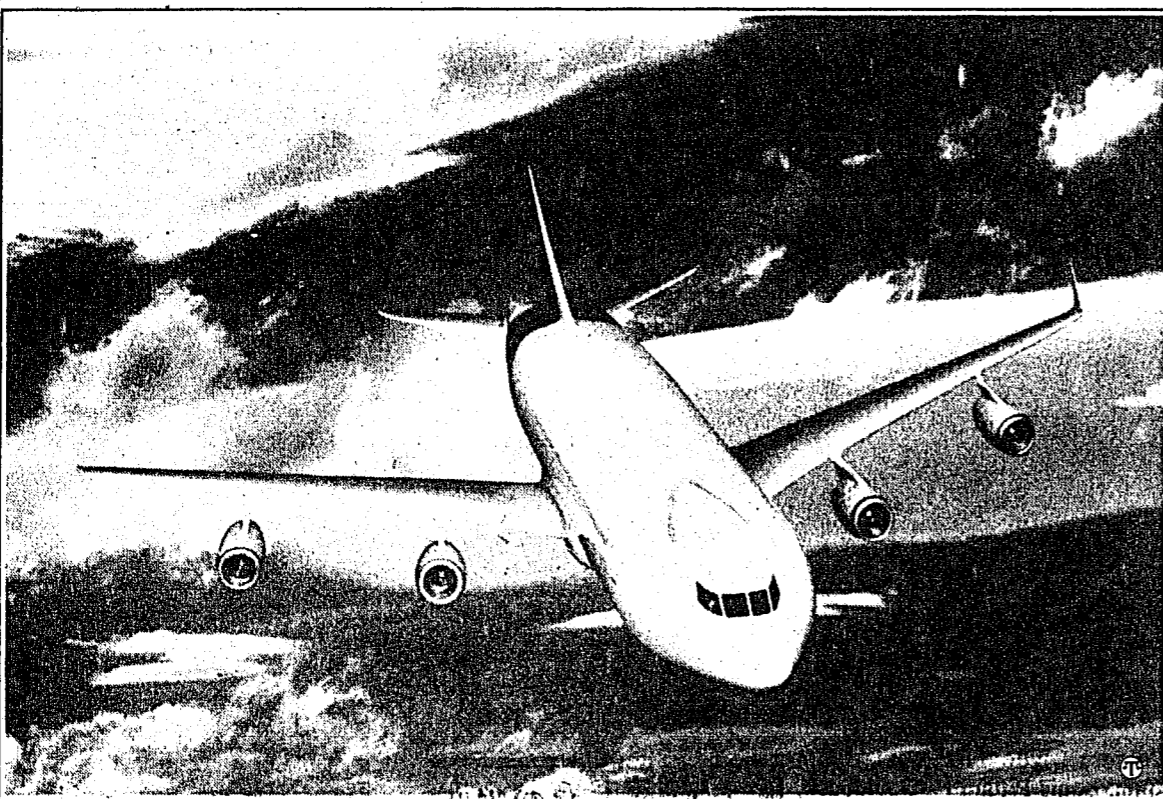

This project will not be a part of the entertainment committee but...Mary Lee Ford Fields will assist the clubs in this new project. It is very important that these school clubs have their money making projects and this is a great way that alumni can be a part of something called "SHARING".

This project can also include anyone who would like to participate, even guests of alumni.

There will be more information...but please start getting your "stack of things" together and they will be happy to accept anything that is sellable.

Our driest state is Nevada. Its annual rainfall averages 8.8 inches.

As airports and air traffic become more and more congested, one day we may be flying on huge airplanes carrying more than 600 people. Airbus Industrie, the European aircraft manufacturing consortium, is researching the need for ultra-high capacity aircraft, such as the concept illustrated above, which would be capable of flying at least 7,000 nautical miles. If a market is confirmed and Airbus Industrie decides to produce such an aircraft, it is unlikely to do so before the end of the century.

Coleman Hospital — Continued From Page 1

According to a report published this week, the reopened Coleman Hospital suffered what Administrator Alisa LeSuer described as a "major setback" last week after a visit from Medicare and Medicaid officials.

On Wednesday, Medicare and Medicaid determined that until certain regulations are met, payment for hospital services would be declined. Prior to the hospital's closure, Medicare and Medicaid patients accounted for 70 percent of the patient admissions, LeSuer said.

The hospital, formerly Overall-Morris Memorial Hospital, closed on July 9 citing financial difficulties triggered by inadequate Medicare and Medicaid reimbursements, small patient loads and a large number of charity cases and debts. The hospital was operated through private

endowments and donations. The facility, which reopened July 22, now has another hurdle to cross.

"The hospital is being classed as a brand new facility instead of one that has been in business for 67 years," the administrator said in an interview by Harriette Graves on Monday. "Unfortunately that exposes us to rules that the old hospital was not subject to. This development was totally unexpected," she said, adding that it will take three to six months to comply with the new regulations.

The majority of non-compliance items consist primarily with laboratory equipment for proficiency testing, LeSuer said.

"The old Overall-Morris Memorial Hospital, because they were in existence 67 years, did not have to comply with some of the regulations put in place by Medicare and Medicaid because of the "grandfather clause," she said, explaining that when new rules are established, those already involved can be the exception and those who come after the regulations are made must follow the new rules.

In the interim, the hospital will

not accept patients who depend on Medicare and Medicaid for payment of services but will accept non-Medicare and private insurance patients.

"If it's an emergency, we will accept them. If not, we will ask the patient to agree to make payment before they are admitted," she said.

"We had a very good first week and were taken off guard by Medicare and Medicaid. More than ever we need the support of Coleman County citizens. We have a full staff and are fighting the unexpected ruling."

Earlier this year, officials with Overall-Morris Memorial Hospital, struggling to survive, had pinned their hopes for saving the facility on the creation of a taxing district. The proposition was defeated with a margin of slightly over 200 votes.

Following the defeat of the taxing district proposal, the hospital closed for 12 days. On July 22, the 48-bed non-profit hospital began receiving patients again as part of the Florida based Noravex Medical Group. LeSuer was named temporary administrator by Gene Hisey, head of the new board of directors.

STEP FAMILIES

Tips for Strengthening Stepfamilies

(NU) - The nation today is filled with "blended" families. Everyday, 1300 new stepfamilies are formed, yet 75 percent of these relationships will break up. A major cause: issues related to children.

Stepfamilies need to make ongoing adjustments when kids become members of two households.

Here are some tips to help blended families get through some of the more difficult times ahead:

1. Accept the stepchild or step-parent "as is." Build a relationship around sharing interests, talents or skills.

2. Set aside specific time for each family relationship to receive attention. Allow the relationship to define itself and improve over time.

3. Develop activities for couple enrichment. Arrange to spend time alone both for pleasure and problem solving away from the fray.

4. Join a support group or parenting class tailored to the needs of the remarried. Kids can benefit from a support program for children of divorce, too.

5. Know that holidays will be "hot spots." Work towards a flexible and practical plan to cope with the emotional and financial strains. Allow your children to set some of their own priorities around visits and celebrations.

6. Give children some time to adjust before and after a visit or phone conversation with their other parent. The unnecessary loss of closeness with either parent can be very upsetting to children.

As a public service, the Independent Order of Foresters disseminates useful pointers for parents. Known as the Family Fraternal, the IOF also distributes educational booklets and films to support effective parenting and prevent child abuse. To learn more about these, call the IOF's toll-free number: 1-800-828-1540.

Bill Would Increase Funds To Hospitals

AUSTIN: Lt. Gov. Bob Bullock on Sunday applauded Senate passage of a bill designed to bring almost \$40 million in federal money to rural hospitals across the state in the next two years.

The legislation, which is a result of a three-year study performed under Bullock's direction as State Comptroller, will overhaul funding procedures to tap the federal government's Medicaid Disproportionate Share Program for an estimated total of \$996 million in the

1992-93 budget period for rural and urban hospitals who treat Medicaid patients.

"I've seen what the cynics and detractors called 'pie-in-the-sky'

become reality in the Texas Senate and I couldn't be more pleased", Bullock said. "Texas taxpayers have been shortchanged at the federal level for far too long. Now in one fell swoop we've lassoed almost a billion dollars in federal funds for hospitals participating in the Medicaid program and it won't cost the state another dime."

The Disproportionate Share Program rewards qualifying hospitals who carry more than their share of Medicaid patients with additional federal funding to encourage other hospitals to excel with the goal of improving access to medical care for insured and uninsured patients alike.

The bill next moves to the House for consideration.

Family Outreach Reps Attend Workshops

Coleman County Family Outreach representatives met in Abilene at the Department of Human Services July 17 with representatives of Abilene, Brownwood, San Angelo, and Wichita Falls. An exchange of projects, programs and ideas each one had been working on was discussed. The principle topic was on how to strengthen families and how to fund programs. Attending from Coleman County were Kathy Dudley, Sarah Dudley, Yvonne Chandler, Jo Benson and Edwina Hopper.

On July 25, a board meeting was conducted over a Brown Bag lunch in the Coleman County Family Outreach office at 401 W. Fifth St. Plans were made to prepare the office to be opened to the public on August 5. Attending were Kay Bouse, Sue Sturiale, Yvonne Salas, Kathy Dudley, Ann McDonald, Jo Benson, and Zona Marshall.

Kay Bouse met with Sue Sturiale, Zona Marshall, Jodi Salas, Jo Benson, Regina Payne and Ann McDonald on July 26 at the office

to begin plans on forming a Mothers Offer Mutual Support (MOMS) program for mothers to share with and have leadership in building family strengths. Plans were discussed to form another program, "Mother Care" for teenaged mothers. The formulation of "Parenting" classes was also discussed. This would be a nine week course open to parents with classes in systematic training for effective parenting and nurturing. A training for interested Volunteers was planned to be in September with dates, time and place to be announced later.

All persons interested in learning more about Family Outreach are asked to come by or call the office beginning August 5. Office hours will be 9 a.m. to noon and 1 p.m. to 3 p.m. on weekdays. The telephone numbers are 625-2434 in Coleman or 348-3867 on the Coleman County Cooperative lines.

Please come by our office at 404 W. 5th Street and let us share with you and assist you.

Most of the activity in the First Special Called Session of the Texas Legislature this week has been in committee hearings the naming and meeting of the Conference Committees - as they make an effort to hammer out the differences between the House and Senate legislation.

The House Appropriations Committee is making a presentation, and will answer questions, on the General Appropriations Bill for House members, Saturday afternoon, August 3, beginning at 4 p.m. I will attend this session and will gain some insight into the issues prior to floor debate on the bill, which will start Sunday, August 4, before the full House. It is very likely that the Appropriations Bill will consume Sunday and Monday in the Texas House. After action on the Appropriations Bill, the rest of next week will be spent in making final decisions on

restructuring/reorganization of state government legislation - other aspects of Comptroller Sharp's Plan - and figuring out how the budget will be funded.

It appears now that the state lottery issue will come up for debate and a vote about mid-week. Keep in mind that the First Special Called Session can only last 30 days and must end by August 13th at midnight. In my honest opinion, there seems to be a vast difference of opinion between the House and Senate, and I don't feel that any real conclusion or any solutions are near.

Many of the proposals for cuts - consolidations and the elimination of services and agencies are things that we in the 65th District feel impact our rural area in a big way. A concentrated effort is being waged to eliminate off road fuel tax exemptions - cut, or eliminate funding for the Animal Health Commission - Animal Damage Control (predator loss service) - and most likely an effort will be made

to broaden the state sales tax base to eliminate at least part of the exemptions we currently know (such as services or advertising or agricultural and industrial input items). I urge you to make an effort to stay on top of these items through your trade and professional organizations.

The session is very hectic, at best, and difficult decisions face us in the next few days. Due to these major legislative decisions it was necessary that I forego attending a national committee meeting in Chicago on Rural Health Care. I regret this, since I feel that health care is a major issue, both in Texas and the United States.

We welcome your input and interest, and thank you for your letters, phone calls and personal visits during this Special Session. Feel free to call an my staff or I at any time. Our Austin office number is (512)463-0644. Please feel free to call collect.

total nutrition

"She eats like a bird!"

If you're a parent, a grandparent or just a curious observer, you may have puzzled over teenagers' eating habits, notes Mary Helen Gunkler, staff nutritionist and registered dietitian for Total cereal. There seems to be little balance in many teens' diets, with pizzas, fast-food burgers, fries and other high-fat, high-calorie foods in great abundance. For teen girls, the dietary approach is often to eat as little as possible rather than to eat healthfully.

While you can't control their diets completely, you can encourage good eating habits at home. Stock the kitchen with nutrient-dense snack foods, such as fruits, yogurt and sandwich makings. Establish family meals as a regular part of your routine. Include foods that supply nutrients especially important for teens, such as calcium from dairy products; protein from red meat, poultry and fish; plus iron from red meat and iron-fortified cereals.

Baked Fish Fillets with their crunchy coating of dill-seasoned Total cereal team important nutrients with great taste that will appeal to teens and adults alike.

Baked Fish Fillets

- 1 pound fish fillets
- 2 tablespoons margarine or butter, melted
- 2 tablespoons lemon juice
- 1/2 teaspoon salt
- 1/4 teaspoon pepper
- 1/4 teaspoon dried dill weed, if desired
- 2 cups Total cereal, crushed*

Heat oven to 350°. Grease square pan, 9x9x2 inches. If fish fillets are large, cut into serving pieces. Mix margarine and lemon juice; reserve. Mix salt, pepper and dill weed. Dip each piece of fish in margarine mixture. Sprinkle both sides with salt mixture; coat with cereal. Place in pan. Bake uncovered 25 to 30 minutes or until fish flakes easily with fork. 4 servings.

*Place cereal between waxed paper, crush with rolling pin. Or crush in blender or food processor.

High Altitude Directions (3500 to 6500 feet): Bake 30 to 35 minutes.

In the 3rd century B.C., the courtiers of the royal court in China were required to carry doves in their mouths in order to sweeten their breath when addressing the emperor.

Some examples of taxable services include pool vacuuming, acid washing, filter cleaning, balancing the chemicals and shocking and winterizing.

TAX FACTS

by JOHN SHARP
TEXAS COMPTROLLER
OF PUBLIC ACCOUNTS

Vacations can be taxing

If you've got the time, energy and cash for a final end-of-summer vacation, remember the outing could be taxing. For example, be prepared to pay sales tax if you take a guided excursion or tour.

Tax is also due on the admission price to theme parks, water slides and private for-profit zoos and museums.

You should also plan on paying tax for your meals, drinks and souvenirs on these outings.

Vacation fun that isn't taxable includes admission fees to state campgrounds and camping areas. And those of you who enjoy fishing will be glad to hear that there's no tax on any charge to use a private or a public fishing pier.

Stay afloat on sales tax matters

Texas has an abundance of lakes and rivers that are perfect for swimming, canoeing, fishing, skiing or just floating. When you pay to swim in a river, lake or other public waterway, no tax is due.

However, you do owe tax if you pay to swim in a private lake, swimming hole or pool.

Add tax when you rent

Rentals are subject to the sales tax. That means that you'll pay tax when you rent golf carts, canoes, roller blades and scuba gear.

Plan ahead for boating fun

Add tax to the charges to repair, remodel or perform routine maintenance on pleasure or sport-fishing boats, including parts, labor and any charges for moving your boat, or for mailing parts or supplies. Tax is also due on extended warranties and service policies.

Add tax to swimming pool services

Tax is due on the charges for cleaning and maintaining swimming pools and related equipment.

IT PAYS TO ADVERTISE

I hate to be a kicker;
I always long for peace;
But the wheel that does the squeaking
Is the one that gets the grease.

It's nice to be a peaceful soul,
And not too hard to please;
But the dog that's always scratching
Is the one that kills the fleas.

I hate to be a kicker . . .
Means nothing in the show . . .
But the kickers in the chorus
Are the ones who get the dough.

Let me not put any notions
That are harmful in your head,
But the baby that keeps yelling
Is the baby that gets fed!

Trickham News

By Anna York

Rev. Sam Bowden, the Baptist pastor from Bangs preached at our church Sunday and brought a good sermon. His scripture text was taken from James, chapter 5, 15-16 verses, and the title of his message was "The Power of Prayer."

Mrs. Joyce Kirk was a Saturday luncheon guest of Mrs. Annie Lou Vaughn.

The quilting club women met Tuesday at the community center and finished a quilt for Mrs. Russie James and won't meet again until the second Tuesday in September.

Janet Thompson and children of Abilene spent the weekend with her mother, Mrs. Natalie McIver and Mrs. McIver.

Mrs. Kathy Oloff and children Josh and Amanda of Odessa were visitors with her brother and family, Jim and Sherrie Blake and Megan, last week. On Tuesday the ladies took the children to the Abilene Zoo, which they enjoyed very much.

Sara McFessel spent the day Saturday with her great-grandmother, Mrs. Gertrude Martin.

Visitors during the week with Florence Stearns were Annie Lou Vaughn and Anna York. R.C. Stearns of Cross Cut visited with her Sunday afternoon. Mrs. Francis Fleming and her son Chris returned to their home at Alice on Wednesday and she called her mother Saturday after taking Chris to her doctor there and reported he was feeling fine and the doctor found his lung to be almost inflated, after collapsing two weeks ago. That is good news.

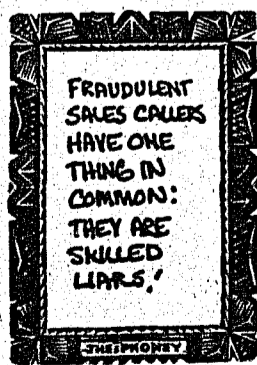

There were 21 present on Thursday night for the 84 party hosted by Annie Lou Vaughn.

Betty and Damon Miller of Austin and James Mock of Abilene and a cousin, Edwin Gossett of Ida Lou spent the weekend with Mrs. Mary Lea Mitchell.

Mrs. Mary Crawford of Goldthwaite spent Friday night and Saturday with her daughter, Betty and Felton Martin.

Mr. Freddie Henderson of Odessa visited one morning last week with his brother, Hilburn Henderson and Mrs. Henderson. Mrs. Daisy McClatchy visited with them Sunday afternoon.

Mr. Russie James visited in Bangs on Monday with Mrs. Zeda Young and Mrs. Kathleen McKenney. On Thursday, she visited in Brownwood with her sister, Mrs. Yette Cole and Friday she visited in Santa Anna with Mrs. Gladys Hunter.

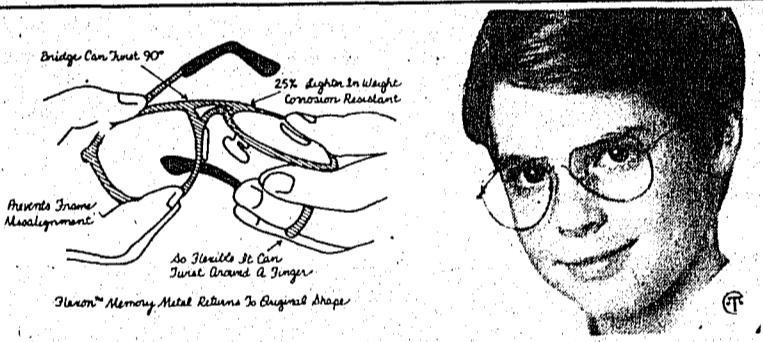

Mrs. Daisy McClatchy was a recent visitor with Mrs. Gertrude Martin.

Mrs. Earlene Dockery and Mrs. Annie Lou Vaughn visited in Coleman Saturday with Earlene's parents, Mr. and Mrs. S.H. Johnson.

Mrs. Jean Jackson of Hico came one day last week and spent the night with her sister, Mrs. Mary Lou Jones and Mr. Jones. The two of them picked up another sister, Mrs. Betty Davis of Odessa and they went to Riudosa, N.M. on a vacation. They reported a grand time and returned home on Wednesday.

Pointers For Parents

A Parent's Dream—Flexible Eyeglasses For Children

Eyeglass frames made of Flexon can survive the rough handling and rough-housing of youngsters. The amazing "Memory Metal" will return to its original shape even after repeated bending or twisting.

There's good news for parents with the introduction of a bendable, flexible frame for children called, Flexon. Flexon is a metal alloy so elastic that when bent or twisted, it "remembers" its original shape. Regular use will not require your children to bend the bridge in half and twist it 90 degrees, or to bend the temple arms around their finger, but if they did the glasses would instantly return to their original shape.

During these recessionary times, parents will be happy to know Flexon reduces frame replacement costs considerably. Besides saving many trips to their eye doctor, parents may well acquaint themselves with the other advantages of fitting their child's prescription in flexible frames. For instance:

Children will enjoy wearing their glasses. Unlike other metal or plastic frames, Flexon frames won't slide down the nose or rest unevenly on the face.

Frames always stay in shape. Tree climbing, a rough game of touch football or soccer will not result in a

Tailorbird weaves elaborate nests

Without needle or thread, the tailorbird works relentlessly to prepare the perfect house for its young.

As its name implies, the tailorbird is an accomplished seamstress. It punches holes around the edges of leaves, and ties them together with strands of plant fibers.

After threading the plant through a hole, it carefully loops and knots the "thread" before proceeding to the next hole.

"There are nine species within this genus," said Mickey Hunt, manager of the International Wildlife Park in Grand Prairie, Tex. "All reside in the Old World."

One of the most prevalent species is the long-tailed tailorbird, which weaves its way from India to southern China and Java.

Contest Seeks "Regular Guys"

Yuppies need not apply. Here's a search for the most regular of Regular Guys—the jeans and flannel shirt, pizza and ball game, help out around the neighborhood kind of guy. You know, the type who uses Aqua Velva rather than those pricey designer after shaves.

Know one?

You or a guy you know can join Bill Cosby and Peter Jennings, named recently in a Gallup poll as America's favorite Regular Guy celebrities, by entering the Aqua Velva/Good Housekeeping Search for the Regular Guy, a nationwide search for the down-to-earth Man of the 1990s.

Contestants should send a 100 word statement explaining why they or someone they know is a Regular Guy. There are four categories: Single Guy, Family Man, Guy on the Job, and Fifty Plus Guy. Finalists will be flown to New York City for an all expense paid weekend for two and final judging by a panel of Regular Gals and Monday Night Football's Dan Dierdorf (a Regular Guy himself).

The Grand Prize winner gets an all expense paid trip for two to Super Bowl XXVI and season tickets to his local sports team. Mail entries to: Aqua Velva/Good Housekeeping Search for the Regular Guy, Times Square Station, P.O. Box 2660, New York, NY 10108. Deadline is September 9.

and will be visiting his parents for 10 days and then returning to Camp Pendleton.

On Thursday afternoon, Mr. and Mrs. Darwin Lovelady's son, Mr. and Mrs. Randall and Rhonda Lovelady and daughters, Stephanie, Melanie and Alicia of Brownwood visited with Mr. and Mrs. Darwin Lovelady before the family left on vacation to Durango, Colorado. They keep in touch with Randall's parents and report they are having a wonderful vacation.

Mr. and Mrs. Floyd Morris drove to Elm Grove Saturday night and attended a Junior Rodeo. They reported a real good little rodeo. In the grand entry was 100 horses with big, little, old and young risers. Some were very small. They also went to the Bar-B-Q supper served before the rodeo and it was really good food. They really enjoyed seeing some of their close friends, and also friends of yesteryears, Mr. and Mrs. Morris lived at Elm Grove in years past.

My daughter and her husband, Mr. and Mrs. Bob Smith of Abilene were in Dallas on Friday for Patsy to see the eye doctor. We are so thankful for the real good report she received. She is not well, but improving real well. She asks me to say a big "THANKS" from her and her family for the nice cards

she has received and also the telephone calls. When people are going through stress and troubles, it makes everyone feel better when others care. "Thanks".

Visiting with Mrs. Darwin Lovelady on Monday afternoon of the past week were Loucille Sorrells, Doris Stearns, Betty Bearden of Brownwood and Mrs. Bearden's daughter, Erin Bequette of Wisconsin, Juanita Minica and Juanita Jones. We are sorry to say Billie Lovelady is still not feeling too well and is carrying out the doctor's orders in bed or chair.

Mr. Janie Morris enjoyed a nice telephone visit from her brothers, Mr. William Perkins of Coleman and Mr. Cecil Perkins of Cisco, on Sunday.

My son, Mr. Hilary Rutherford of Coleman was with me on Saturday and Sunday afternoon.

Mr. Barbara Morgan of Brownwood and her granddaughter Laticia of Wichita Falls was a guest of Mr. Morgan's aunt and uncle, Mr. and Mrs. Floyd Morris on Monday night of last week. They were also in town greeting friends and were here on Monday and Tuesday.

Mr. Darwin Lovelady visited Mrs. Elva McDaniel in Brownwood on Thursday.

Mr. Watts visited with Floyd Morris on Sunday morning.

Mr. Rolan Deal visited Mr. and Mrs. Floyd Morris Friday morning. Rolan stopped one morning and chatted with me for a while.

Thanks, Rolan, for the very good canteloupe.

When replacing your old worn out air conditioner, ask your Cooling & Heating Dealer about the DUAL-FUEL HEAT PUMP!

The DUAL-FUEL Heat Pump allows you to use your present gas furnace, duct system and electrical wiring. It replaces your old worn out air conditioning unit, but does much more -- it cools and heats. The heat pump provides the most efficient heating for your home during normal winter weather and uses your existing gas furnace to assist during extremely cold conditions if needed.

As a WTU customer you can qualify for
