## Mountaineers Shoot Down Elks - Panthers Here Friday - JV, Junior High Travel Thurs. **!Go Mountaineers!**

The Santa Anna Mountaineers showed the Evant Elks how to play football last Friday evening at Evant. Santa Anna defeated the Elks 26-14 with a show of strong defense in the second half. Evant was held to no first downs in the second half of the game.

The offense machine of the Mountaineers rolled up 370 total yards. Anthony Thomas led the way with 189 yards on 29 carries. He also scored twice on runs of 5 and 10 yards and caught a 27-yard bootleg pass from Quarterback Robert Murry.

Manuel Frausto added six points to the scoreboard on an 18-yard run. Thomas ran the ball in for two points following Frausto's TD.

The Mountaineers had three TD's called back due to penalties. Evant had four first downs in the first

half.

Head Coach John Smith said LB Mark Yancy made the hit of the game sacking the Evant quarterback. Smith also had high praise for tackles William Loyd and Tom Guthrie and defensive ends Clifton Blaine and Lee Keeney.

SAHS is 3-5 for the season and 2-1 in district play. This week they face Gorman who is also 2-1 in district play. This game could very well determine the winner of the second place berth in the playoffs with Cross Plains leading the district for 1st place.

All fans are encouraged to come out Friday evening at 7:30 p.m. to watch the Mountaineers in their last home game of the season.

Santa Anna and Gorman are tied for second place at 2-1 making this a decision-making game for a

playoff bid. Gorman is coming off a 14-13 loss to Cross Plains.

The Santa Anna Mountaineers will play their last home game of the season this Friday evening at 7:30 p.m. at Mountaineer Stadium. The game will see the Mountaineers taking on Gorman.

The football beau and sweetheart will be announced at the pep rally on Friday afternoon, and band beau and sweetheart will be announced at the game.

Thursday evening the junior high Mountaineers will travel to Gorman. The game will begin about 5:45 p.m. with fifth quarter play. The "A" team will play immediately following the fifth quarter.

The junior varsity will be in Rising Star for a game on Thursday evening beginning about 7:30 p.m.

## Mountaineer Parents' Night Fri.

The Santa Anna Booster Club will be honoring the parents of all varsity players with a coffee Friday evening beginning at 6 p.m. in the Varsity Lounge.

The coffee will be followed by an introduction of parents at 6:45 p.m. on the field at Mountaineer Stadium.

The Booster Club is encouraging everyone to wear black and gold on Friday to show their support of the team. Friday game against Gorman could settle the 2-1 tie in district stands for a play-off berth.

All fans of the Mountaineers are encouraged to come out and fill the

stands on Friday night and cheer the boys on to a win and a chance at the playoffs.

At presstime a spirit parade was still being planned for Friday. Those wishing more information on the parade should contact Gay Abernathy.

## Stenholms Visit Thursday

Charlie and Cindy Stenholm are coming to town again. During 1993, Charlie visited everyone of the 32 counties in the vast 17th Congressional District an average of more than five times.

You have another opportunity to visit with your representative during the current bus trip planned for Thursday, October 27 at 5:05 p.m.

Stenholm has often said he was elected to represent the people of

the area. This cannot be adequately done without visiting often and listening. One reason for the annual picnic at Ericksdahl is to give everyone a time and place they know they can visit with their elected representative.

Make plans now to take advantage of this, another chance to be close and personal with Charlie and Cindy.

## U-Turns Illegal In Front Of Santa Anna Post Office

The Santa Anna Postal Service and the City of Santa Anna have completed a safety program to reduce accidents and increase pedestrian safety.

A double (no crossing) line was placed in front of the post office to prevent illegal "U" turns. NO U TURN signs have also been posted

on both sides of the street. Santa Anna Chief of Police Carlos Torres will begin enforcing the No U-Turn immediately. Both automobile and pedestrian accidents have resulted from illegal U-Turns.

Postmaster Gary Absher recommends that postal patrons use the parking lot which is more than adequate for Santa Anna's needs.

## Funding Being Sought For Predator Control Program

The Coleman County Livestock & Wildlife Protection Association currently coordinates animal damage control efforts with two local trappers. These trappers are funded by the County Commissioners Court and contributions from individuals and organizations. These funds are rapidly diminishing and the future of animal damage control in Coleman County is at risk. One of these trappers must be funded through contributions, and these funds were depleted on Oct. 1, 1994. Without contributions, Coleman County may lose one of its trappers.

Animal damage control is extremely important. In the first three months of 1994, 99 gray foxes were reported in 13 counties, with McCulloch county reporting

55 of these. In Coleman County, between January and June of 1994, 7 confirmed cases of rabies had been reported. Control of varmint animals is necessary to curb the outbreak of rabies.

The National Agriculture Statistics Service reported 27,000 sheep and 80,000 lambs valued at \$4.39 million were lost to predators in 1990. In that same year, 70,000 Angora goats and 40,000 Spanish goats valued at \$4.78 million were also lost to predators. This survey also reported 3,000 cattle and 23,400 calf losses valued at \$9.87 million in 1991. These statistics clearly illustrate the need for predator control.

In Coleman County Alfred McCrary and Gary Castleberry serve

## Classy Lassies of 1915

Shown here posing in front of the old Santa Anna High School building known as "the college", are the 1915 girls basketball team. Perched inside the basket on the backboard is Annie Phillips, a forward on the team. Center left is Cora Stockard, center, and Camille Shield, a forward and team captain. Standing are Gertrude Baker, center, and Anzo Perry and Mosslyn Martin, both guards on the team. A quote from the 1915 Mountaineer Yearbook, from which the picture was copied, reads: "When we stop for a moment and look back over the girl's basketball record, we cannot help but being struck with wonder. The year '14-'15 has undoubtedly never been equaled in basketball at S.A.H.S., but fate decreed that we should not be entirely victorious. Our only defeat came at the hands of Brownwood High, although we won two out of three games from them."

## Kuykendall Wins Football Frenzy Contest

Wayne Kuykendall was the winner of Football Frenzy for last week's contest with 18 correct guesses. Coming awfully close to the winner's circle were Joey Cheaney, Aaron Guthrie, Jack Watkins, and Jamie Ellerbe, each with 17 correct guesses. Actually everyone in the contest had one free game, due to another schedule goof-up on our part.

Kuykendall also guessed the former Mountaineer, who was Curtis Fellers, a member of the Santa Anna High School Class of 1980. Fellers and his wife (the former Janice Cupps) and children live in Santa Anna where he is employed with Coleman County Telephone, Cooperative. The winner receives a \$5 bonus for his correct guess on the Mountaineer.

Others guessed the former Mountaineer to be Jerry Ellis or R.B. Dillard.

All others who guessed at all agreed with Wayne.

Results of the contest games were as follows:

- San Francisco 41 - Tampa Bay 6
- Dallas 28 - Arizona 21
- Cross Plains 14 - Gorman 13
- Santa Anna 26 - Evant 14
- Rising Star 22 - Lometa 0

### Emergency Numbers For City Utility Problems

To report a city utility emergency call City Hall at 348-3403 24 hours a day.  
The city crew member on call may also be reach by calling the mobile phone 348-7950.

Good News! We think that by the time you are reading this, Ovella Williams will be back. The doctor thinks that she will be able to work half a day. Please help her by filling out your own check out cards. It's difficult for her using only one arm and hand. Many of you have been in to check on Ovella's health. So come check for yourself.

Nell Myers who always volunteers on Friday morning will be at the craft show in Dallas. Each year she takes those beautiful ceramics that she shares with us. Since those people recognize real art, her creations sell well.

The column got too long last week, so you didn't hear about a couple of gifts that came in over homecoming weekend. Do you remember the story about Geneva Garrett bringing her beautiful new granddaughter for her first visit to the library? Well, Cassie brought her mother, Cynthia Philpot in to buy books. Cassie also brought a gift to the children's section. **The Legend of Lone Star Bear—How He Got His Name** is a book, a toy bear and an audio tape. It will fit right into the theme for 1996 reading club. Look for this set if you need a gift for someone from 2-12 years. Frankly I look forward to reading and hearing it. Any family should enjoy the set. Thanks Cassie and Cynthia.

Another gift came from LaRue Morgan. She came to help sell books too. The library has had some of the **White Indian Series** D. C. Porter, but book one was missing. LaRue brought #1 and enough others to fill in thru #21. Thanks LaRue, people enjoy this series.

Last weekend Mr. or Mrs. Anonymous dropped off three boxes of books on the front porch at my home. There is a mixture of gardening, health care, education and fiction. This time I haven't many clues, but thanks to whomever you are.

Rod Musick brought eight hard bound and one paperback book.

## Thoughts From Our Pastors

Mike Efrid  
United Methodist Church

The Crime

Old man Baskum lived alone on his small farm outside of town, except for his dog Bo. Now Bo was like most dogs in that he was faithful, loyal and loved old man Baskum very much. It was quite obvious, to all who knew them, that this love was returned in kind, for when you saw them together they seemed to be saying to each other, "You're all I have, but I am happy for that."

There lived in this town a man named Tom Thom who owned the land on either side of Mr. Baskum. Tom was not particularly admired by the town folk, but he was the richest man around. For whatever that's worth. Now Tom did not like Mr. Baskum because he could not convince Mr. Baskum to sell him his land. By the way, Tom Thom didn't like dogs either.

One day when Mr. Baskum was in town at the feedstore he ran into his friend Big Jim Champion. Big Jim came by his nickname honestly, for he was 6 feet 6 inches tall and no one knew how much he weighed because the scales at the feedstore only went to 350 lbs. Everybody liked Big Jim because he seemed to always be laughing and happy. This particular day Big Jim noticed that Bo was not with Mr. Baskum, and he asked where Bo was. At this Mr. Baskum broke down and began to cry and told Big Jim that he had found Bo very sick just that morning and he thought he had been poisoned. Mr. Baskum said, "I tried to help him but I was too late. Bo just looked up at me, and with a low whimper he died."

Big Jim became so angry that his face turned beet red, and his whole body stiffened to its full 6 feet 6 inches. He knew who had killed Bo, for Tom Thom had poisoned other dogs in the town. But, this was more than Big Jim could take. He left Mr. Baskum standing there and went to find Tom Thom. When Big Jim found Tom Thom he walked up to him and said, "This is for Mr. Baskum and Bo." And with that he drew back his huge fist and hit Tom Thom in the face with all his might. But, Big Jim didn't stop there, for total rage had taken control of Big Jim and he hit Tom Thom again, and again, and again. Until those standing and watching feared Big Jim would kill Tom Thom. Just as several men pulled Big Jim off of Tom the police arrived and took Jim to jail.

Big Jim sat in his cell thinking that he was not sorry for what he had done, because Tom Thom deserved what he had gotten and worse. As these thoughts ran through Jim's mind he suddenly became aware of a man with long hair and a beard sitting next to him on his bunk. Big Jim looked at him and said, "Who are you, and how did you get in here." The man replied, "That's not important, what is, is what happened today." The man told Big Jim that what he had done was wrong, and it was not up to Jim to go about dispensing justice indiscriminately, and as he saw fit. Big Jim had now cooled down and agreed that he should not have done what he did. But the man continued, the real crime committed today was not Tom Thom poisoning Bo, or you beating Tom. The real crime was when you walked away from Mr. Baskum leaving him in his pain and sorrow.

You, Big Jim, should have taken Mr. Baskum in your arms and told him of your love and understanding. Staying with him sharing his burden of grief. As Big Jim raised his head with tears in his eyes the man was gone.

These are adventure types and news. Several of our readers like this kind of book. Rod, thanks.

M. L. Guthrie brought four very old pictures of Santa Anna. These pictures keep showing up. Those who can remember will enjoy identifying the places and people. Take a look.

Some of the visitors who came by last week were Margaret Bruce Robin. She hadn't seen this library. I bet she helped her mother and sisters re-decorated the old library. Like all her family she loves books and couldn't resist buying a few.

Mr. Ron Owens and Mr. Jim Bob Thweatt came in to inquire if the library had any county history books for sale. They both are very active in the county historical society and knew those books usually aren't for sale. They were looking at building that have interesting histories.

We would like to express our deep appreciation for the food, cards, letters, flowers, visits and prayers offered at the passing of our loved one. A special thanks to the Ladies of First Baptist Church who prepared a wonderful meal and to the church for use of the Christian Life Center.

### "Trailride For Rehab" In Sweetwater

The Louise Brooks Ranch near Sweetwater will host several hundred trailriders who will be taking part in the second "Trailride for Rehab" October 29-30 to benefit West Texas Rehabilitation Center. The first trailride was this past April on the historic Chadbourne ranch near Bronte and raised more than \$5,000 for the Rehab Center. "Trailride II" includes a six hour ride by wagon and on horseback on Saturday and a shorter ride on Sunday morning. Lunch will be provided Saturday on the trail, with the evening meal at the central campsite around the campfire. The campfire will be the setting for entertainment and visiting with other trailriders. After a Sunday morning prayer service and breakfast, riders will go on a ride that will end around noon.

As a point of interest, Louis Brooks, Sr. was the all-round world champion cowboy in 1943-44 before retiring to become a successful rancher. The ranch was established by C. E. Boyd and is currently owned by Nita Brooks-Lewallen of Stephenville and operated by her son, Louis Brooks, Jr. of Sweetwater.

Trailriders are asked to make a free-will donation at registration that goes directly to the West Texas Rehabilitation Center in Abilene and San Angelo. For more information and to register, call Pat Clayton at 915-691-7290.

### McClintock's Great-Grandson Graduates From USAF Security Police Academy

AB Brian H. Hill, great-grandson of Mrs. E. E. McClintock of Santa Anna recently graduated as an Honor Graduate from the United States Air Force Security Police Academy.

This is an extremely prestigious award as the competition is keen among students in each class. The five week training period is highly intensive and demanding, and a 90 percent or higher academic average throughout the course must be maintained.

Hill is the son of Arlena Gordon of Mesquite and grandson of Morris Wallace of Llano and Yvonne Walls of Marlon, Oklahoma.

### The Savior of the Rainforests

Not so very long ago there was a great man who was asked to travel all over the world. He was asked to come to South America. The man's wife had just had a child not three weeks before, and he did not want to leave his wife. So he took his wife and his new baby girl to South America with him.

While flying over the rainforests the plane's engine failed. The plane crashed and everyone was killed. Everyone that is except for the very young baby who landed in the cradling branches of a tree.

But little does anyone know that the rainforests have their own special power. They're magical. The trees talk, and the animals dance and play. The rainforests are alive.

Well, the baby was passed from gentle branch to gentle branch, to the great-grandfather tree. He's the tree that was there before other trees started to grow. Before animals came to the forests. And before man existed. Word was spread that the great-grandfather tree wanted to speak to everybody about the baby. The animals gathered at his feet and the trees bent close to hear.

Then the great-grandfather tree looked down at the baby and said to the other trees and animals, "Friends, we were all once young and helpless. This young human needs our help. We must raise her as a lioness raises her cubs. We must help her to grow to be strong and healthy."

Well, there was this one little monkey who always asked questions. His name was Cibra. And he asked, "Why must we help a human? Humans have never done anything for us!"

The great-grandfather tree turned his massive foliage toward the questioning monkey and said, "That's a good question Cibra. But what have humans ever done to make us not help them?"

So the baby was taken in and was called Feuille, which means leaf. Feuille lived happily with her tree and animal family. She learned how to talk, dance and play like them. Feuille grew to be tall, strong and beautiful.

One day twenty years later Feuille was playing in the river when all of the Feuille felt a nose in her back.

"Hello, Tiba!" Feuille said to her lioness friend. "What are you doing today?"

"The other and I are going to the clearing to dance and play. Would

you like to join us?"

"Sure!" So Feuille and Tiba took off toward the clearing at the great-grandfather's feet.

On the way there Tiba stopped suddenly. "I smell something! Something is not right!"

"And look!" cried Feuille. There was great puffs of smoke in the air. Tiba and Feuille ran fast and hard toward the clearing.

As they broke through the trees, a great yellow monster roared and puffed smoke from its mouth which tore into a tree. Streaks of agony and pain came from trees all over the clearing.

Her family, her friends! "No," Feuille cried. "They're killing the trees!"

Tiba looked at her and said, "Run! Run and save yourself!"

So Feuille ran. She ran hard and fast. She ran until she could run no more. Then she laid down on the banks of a stream and went to sleep.

The sun shone in her face and slowly Feuille sat up. She stretched and looked around. Then she remembered what she'd seen the day before and she slumped back down sad and disheartened. Then a thought came to her mind. She must go and see what had happened to the great-grandfather tree.

So Feuille got up and brushed off and she began to hurry back to the clearing.

When she got to the clearing, she surveyed the land about her. All about were the stumps of trees. She walked further and tears began to roll down her face. All that was left of the great-grandfather tree was the red exposed stump. She sat down before it covered her face and cried.

Then Feuille felt as if she were being watched. She looked up and there stood a human like her. He was calling something to her but she did not understand.

The man's name was Jack Henderson. He was a scientist who was studying native tribal societies. He looked at this girl strong and beautiful.

He called out to her, "Hey, are you ok?" She looked at him in bewilderment. He tried a couple of the native languages but she didn't understand any of them. Jack took

a step toward her and she just stared. He walked toward her and she stood up. He held his hand out as a sign that he wouldn't hurt her. Then he began to unpack his backpack. He set up a tent and started a fire. Then he sat back and looked at the girl.

He thought he'd wait and see if any other people were with her. But none were.

Slowly Jack and Feuille became friends. Feuille soon learned Jack's language. She confided in Jack about how she'd grown up and what had happened to her family and friends.

Jack told her about the world. About the cities and people. He said that she could try to help save other trees by going and telling these people what she'd experienced.

And Feuille did. She went back with Jack and she told people her story. About how trees and animals can think. And they have feeling just like humans.

When people found this out they began to wonder. And eventually they began to believe. Not long after tree-cutting was outlawed.

Feuille went back to the forest in South America where she replanted the trees and convinced her animal

# Kay Bailey Hutchison Working For Texas

### Reducing Government to Strengthen Families and Small Business.

She's voted against higher taxes every time and for the Balanced Budget Amendment. She strongly opposes unnecessary federal regulations that hurt small business.

And she's proposed a new law so homemakers can save with a tax free retirement account, too.

### Already An Effective Leader.

Though we sent Kay Bailey Hutchison to the Senate just last year, she's already making a difference for Texas. She passed a bill to make the federal government — for the first time — pay for some costs of its failure to protect our Texas border against illegal immigration.

Our choice this year is to keep this effective, new conservative leader who puts Texas first... or replace her with a Clinton-style "New Democrat."

### Changing the Way Washington Works.

Kay cut her own Senate office budget 20% — just as she promised last year. Now she's pushed Congress to slash its budget, reduce government overhead by 10%, and trim \$50 billion from 50 programs.

Kay's the sponsor of a bill for a national referendum on term limits and will set an example by only seeking two full terms herself.

Now she's determined to make Congress live under the laws it passes for the rest of America.

### Protecting Our Freedom.

On the Armed Services Committee, Kay is fighting for a strong defense and defending our Texas military bases that are so critical to national security.

She's committed to protecting private property rights and other constitutionally protected freedoms.

She's pushing for tough crime laws that protect citizens, not criminals.

### How Fire Safe Is Your Home?

Taking proper care of your smoke alarm and preparing a family fire exit plan are important ways to prevent fire injuries. But an even more effective way to prevent fire injuries and damage is to prevent fires in the first place. The following checklist from the Texas Commission on Fire Protection shows how you can prevent fires in your home. You should be able to answer "yes" to every question.

#### All Around the House:

Are matches stored out of reach of children?  
Do you avoid overloading outlets or extension cords?  
Do you replace extension cords or other electrical cords when they become worn or frayed?

Do you avoid putting extension cords under rugs or carpets or looped over nails or other sharp objects that could cause them to fray?

Do you closely supervise your children to be sure that they never play with matches or lighters?

#### In the Kitchen:

Do you keep curtains or towel racks away from the stove or range?  
Do you keep flammable liquids (cleaning liquids, contact adhesives, etc.) or aerosols stored away from the range or other heat source? (Remember, even a pilot light can set vapors on fire).

Do you avoid storing attractive or frequently used items above the range where someone could get burned reaching for them (especially small children in search of cookies or other goodies)?

#### In the Living Room, Family Room, Den and Bedrooms:

Do you use only large ashtrays?

(Small ashtrays are too dangerous)  
Do you empty ashtrays frequently (when all signs of heat and burning are gone)?

Is the fireplace kept screened and cleaned regularly?  
Is there sufficient air space around TV, stereo and other electronic equipment to avoid overheating?

Is heating equipment kept three feet away from curtains, furniture and papers?  
**In the Basement, Garage and Storage Areas:**

Do you store newspapers or other rubbish a safe distance from the furnace, water heater or other heat source?  
Do you avoid keeping oily, greasy rags, except when stored in labeled and sealed non-glass containers (preferably metal)?

Do you avoid storing gasoline in the house or basement? (Gasoline should be stored away from the house in an outbuilding and only in safety cans that have flame arresters and pressure-relief valves).

Do you store flammable liquids a safe distance from your workbench and pilot lights? Are flammable liquids stored only in labeled, sealed metal containers? (This includes varnish, paint remover, paint thinner, contact adhesives, cleaning fluids.)

Are all electrical fuses the correct size?  
**Do you have fire-safe habits?**

These guidelines may help your family become more safety aware.  
Do you wear close-fitting sleeves while cooking? (No loose blouses, shirts, blouses or skirts that may catch fire.)

Do you always watch the food

while cooking and never leave cooking unattended?

Do you avoid using gasoline to start a fire in the grill or adding lighter fluid to an already-started fire?

Do you avoid smoking in bed, or in a chair or on a sofa when tired, drinking or taking medication?

Do you avoid spraying aerosols while smoking or near a space heater, range or other ignition source?

Do you avoid smoking while using cleaning fluids, paint thinner or other flammable liquids?

Do you avoid using a cigarette lighter after spilling flammable fluid on your hands or clothing?

Do you always stand a safe distance from your heater or fireplace and resist the temptation to lean against a range for warmth?

Do you avoid lighting a small child blow out a match?

Do you avoid using a lighted match, lighter or candle to illuminate a dark area, such as a closet?

#### Safety Measures:

Do you have these safety items in your home?  
Do you have working smoke detectors on all levels and outside sleeping areas (each story or wing, basement, etc)? Have you tested the detector in the last month? Changed the batteries within the last year?

Do you have an ABC or ABCD fire extinguisher in the kitchen and/or workshop?

Does your family have an emergency exit plan, with two ways out from each room and a meeting place outdoors?

## LEGAL MATTERS

BY TEXAS ATTORNEY GENERAL DAN MORALES

### Rent-To-Own or Owned By Rent?

Many young couples and first-time apartment renters buy into what initially seems like a good deal when they lease rent-to-own items. Under the right circumstances, renting furniture and appliances can be a bargain—many reputable Texas businesses stand ready to serve you. But be sure you read the fine print, and that your rent is worth your while.

Sometimes, when someone advances you credit for a fee, or on interest, it's a loan. Such a loan is covered by state usury laws. Usury refers to the practice of charging too much interest for a loan, which is illegal, regardless of whether a contract is signed. The amount of interest that can be charged is set and regulated by the Office of the Consumer Credit Commissioner.

#### Tax and money

As a smart consumer, you should consider a few things before signing a loan or rent-to-own agreement.

How long is the loan agreement for? A long-term loan may seem to cost less because your monthly bill is low, but over the term of the loan you may actually pay significantly more than the amount of money borrowed. If you pay \$10 a month for 48 months for a \$200 television, you will end paying \$480 at the end of the term. And your TV will be four-years-old.

What's the interest rate? The lower the better, of course, but not all rates are the same. A 12 percent annual interest rate is not the same as a 1 percent monthly rate. The latter is actually a bit higher, when

compounding is factored in.

Interest-free or not? Some places offer interest-free loans for a specific period. If you pay the full amount by six or 12 months, you are told you will owe no interest. While many work just like that, some don't.

For example, some contracts specify that you must pay the principal plus the interest for a certain period of time. However, if you don't pay off the loan within the specified time, you may be liable for the interest rate during the entire life of the loan.

How much will you pay? What's the full amount that you will be liable for? The price tag is just the beginning. Additional costs include interest and fees, if any. All contracts must specify, in writing, how much money you will actually pay over the life of the contract. If you don't see a total amount, ask. You should know exactly how much that refrigerator, car or stereo will cost you over the life of the loan.

#### Shop around

Different rent-to-own stores and department stores may offer different prices, interest rates and loan terms. Ask for all the details before you make your decision.

Consider your debt-to-income ratio. Every month you should pay significantly less than you make. A sound rule of thumb is that installment debt should not exceed 10 percent of take home pay (not including mortgage or rent). In other words, you should pass less than \$100 a month for every \$1,000 a month you bring home. Paying more than 20 percent—\$200 for every \$1,000 earned—can mean trouble down the road.

**For your information**  
If you suspect that you are paying too much for a loan, call the Office of the Consumer Credit Commissioner at 512-479-1285. The office regulates usury in Texas and can tell you whether or not a loan falls under the legal definition of the practice.

For more information on rent-to-own contracts—or other consumer issues—please contact our Consumer Protection Division at 1-800-337-3928.

It isn't so astonishing, the number of things that I can remember, as the number of things I can remember that aren't so.

## Fishing Lake Ivie

By Durwood Strickland

Fishing conditions remain pretty much unchanged from last week. We sometimes tend to think the bites are slow, but most of the time its really a matter of using the right baits. With just a little patience, you can come in with a really nice string of fish. The bass at times seem to be hiding, but they're there and you can catch 'em!

Crappie fishing has picked up a little more in the daylight hours. I'm using minnows in about 15 to 30 feet of water.

We're looking for the cooler weather to bring with it better fishing conditions. So come on out! We'll be looking for you.

Minnie Bray attended Bible study Wednesday night at Jr. and Nell's. Thursday night Minnie attended the Farm Bureau meeting, she won second place for her apple cake. Congratulations Minnie! During the drawing Minnie won a \$25 gift certificate for beef. Friday Patsy Hambricht and Claudia Rutherford attended a Southern Living Cooking School in San Angelo. While there, they had lunch with

Bill Watson, Jennifer Rutherford and Ben and Carla Bradberry.

Tuesday our fourteen-year-old poodle, Killer, gave us quite a scare. He had gotten in with our neighbor's burro and the burro, mistaking him for a predator, gave him a kick to the head and had him in his mouth shaking him. When our neighbor brought him to me, I was pretty sure he would not survive the trip to the vet. Bo had just got in, and when he looked at him and thought he was probably all busted up inside and there was the possibility he would have to be put to sleep. I took him to Dr. Mark and after a thorough examination, he said that Killer would have to stay overnight but that for a blind fourteen year old, he was remarkably well. Killer is home and doing fine. Hopefully he will not be visiting the vet again. Thursday night, I baked my first one-hundred year birthday cake. Friday I was in Coleman to get my flu shot. Thanks Dr. Green. Friday evening Sherry and Ashley Dawes of Tulsa, Oklahoma arrived. Sherry helped me with the cake by make the top since I couldn't find one that had happy one hundredth birthday on it. While we were decorating, Debra, David and Rachel Balch of Cameron arrived. Saturday Bo and I along with others were in Santa Anna at the Armory for Bo's grandmother, Ethel Wilson's one hundredth birthday party. Leslie, Tammy and Wesley Wilson of Forney, John, Tammy, Trey and Cheyenne Casey of Coleman joined us at the armory along with a large crowd to help Maw Maw celebrate her birthday. After the party, Alan and Debra returned home with Bo and I.

Nathan Driehofer of the Brownwood lake spent the weekend with his grandparents Mr. and Mrs. Talmadge McClatchy and Darrel Livenston of Riverside, California is spending a few days with the McClatchys.

## Whon News

By Mrs. Tom Rutherford

Seemingly we will start on weather news. Our little community has received very little rain the past week. We are thankful for the small amount we had during the week. Had much rather be like we are than those who have lost so much in other parts of Texas. The small creeks are mostly all dry and water tanks are getting awfully low even at that we are doing better than lots of people in the high water districts.

Mr. Floyd Morris' grandson Mr. and Mrs. Jeff Morris were with his grandfather Mr. Floyd Morris one day during the past week. Jeff and wife live at Colleyville, Texas.

James Avant of Coleman and Douglas Avant of Brady were with their mother Mrs. Pearl Avant in Santa Anna on Tuesday. This is a day set aside for the boys to come to mother's for dinner. James comes and spends some time with her during the week.

Mike Morris of Brady visited with Mr. Floyd Morris on Monday afternoon. This was a relative of Mr. Morris.

My son Loyd and wife, Linda were dinner guests with me on Saturday. Loyd came by for a while Sunday morning.

Sunday is a day set aside for Leon Carter to visit his sister Lorene Black in Brownwood. Their brother Bert is a patient in the Veterans Hospital at Temple. We are sorry to report Leon is not feeling so well these days.

I had a nice surprise one afternoon last week. A young man in a pickup pulling a trailer with a horse in the trailer. He stopped and started to house. Soon he asked "Is this Whon?" I told him it was, what was left. I had no idea who it

was until he took his eye shades off and this young nice man was Randall Lovelady of Brownwood. Truthfully I don't know when I had seen Randall last. I was so thankful he stopped. Thanks to Randall so much that he stopped to say hello. Randall with his parents, Darwin and Billie Lovelady lived in our little community. Randall rode

my bus to school learning his ABC's. Looks like he had done real well. His parents who at one time lives in our community are now in Brownwood. Randall has a wife and two or three girls. I am not sure.

My son Hilary Rutherford of Coleman was with me on Monday.

Mr. Graham Fitzpatrick of Abilene spent the weekend with his son Mr. and Mrs. Don Fitzpatrick and girls. Reports he is doing well and also his wife, who suffered a stroke a few months back is improving.

Randal Lovelady of Brownwood visited one afternoon with Mr. and Mrs. Don Fitzpatrick.

month in the County Judge's office of the County Courthouse at 9 a.m. as Animal Damage Control trappers. Between Oct. 1, 1993 and Aug. 31, 1994, 257 coyotes, 50 bobcats and 26 red fox were taken in Coleman County. These efforts affect everyone in Coleman County, whether you are a wildlife enthusiast, landowner, businessman or livestock producer.

If you would like to contribute to the Coleman County Livestock & Wildlife Protection Association, you may do so at one of the local banks (First Coleman National Bank, Coleman County State Bank and Santa Anna National Bank). Your contributions will be greatly appreciated.

The association also invites everyone who has questions or comments to attend their regular meetings on the 2nd Monday of each

I am a Conservative Democratic Candidate for the office of County Judge. I believe in fair and impartial judgements in all court related matters whether civil or criminal. There are, however, two considerations in criminal matters; justice for both the criminal and the victim. Justice for the victim is too often overlooked! I will do my best to see that does not happen in Coleman County. I will appreciate your vote and continued support in the upcoming election. Thanks again for your consideration.
