## Gary Patterson Named Citizen Of The Year

Gary Patterson was introduced as "Citizen of Year" at the chamber of commerce banquet Saturday evening by last year's honoree Alice Anna Guthrie Spillman.

He was born in Gorman, Texas in 1935 and lived in Comanche County until moving with his parents to Santa Anna at the age of

Patterson attended school in Santa Anna graduating with the Class of 1953, participating in football, basketball and track. He was starting center on the football team for three years and was named all-school favorite his junior year. He was always interested in art, which included designing the picture of the Santa Anna Mountaineer mascot.

Following graduation in 1953,

Patterson served two years in the Marine Corps. Upon completion of his tour of duty, he enrolled in Howard Payne College to study commercial art and history. After four years with Santa Anna Silica Sand, he worked for 3-M in Brownwood and other jobs in the

Having inherited the carpentertalent from his late father and combined with his artistic abilities, he began his career in construction in the 1970's. Since that time he and his employees have built over 20 homes in the area, including the historic the old Santa Anna Ice House, the Day Ranch house at Ivie Reservoir, the Arvil and Verna Bolton home at Trickham and a historic home on the Harvey-Secker Ranch near Camp Colorado. As contractor for the recent remodeling

historic home on the Harvey-Secker Ranch near Camp Colorado. As contractor for the recent remodeling of the Santa Anna National Bank, he designed and built the front facade. As time permits, Patterson enjoys painting with several large works on display, including a number hanging at Santa Anna High School and the City Library. He is also an artist with wood, designing and constructing with his carpentry projects. His current project is remodeling and restoring the old

Bailey Lumber Company building in downtown Santa Anna. This building will be used as his cabinet shop for his construction business.

One of his colleagues was quoted as saying he is a master cabinet and furniture maker, unsurpassed by anyone in this area. He is a perfectionist with both wood and canvas.

Patterson is a very quiet and unassuming individual, who makes his home with his mother. For the past 20 or so years, he has provided continuous employment for several men with his contracting business. Of greatest merit is his ability to train young men to be dedicated to the art of custom wood working, which insures that his creative ability is being passed on for future generations to enjoy.

Jackie Smith, vice president of the Santa Anna Chamber of Commerce served as master of ceremonies for the event with Lois Harper's third and fourth grade music classes provided the evening's entertainment.

Paul Ellsworth, manager of Heartland Mall in Brownwood, was guest speaker for the evening, COC offices and directors were introduced and door prizes awarded at the close of the program.

# Bank Break-In Still Under Investigation

The Santa Anna National Bank was illegally entered early Sunday morning by person or persons unknown. It was first believed to be an act of vandalism after a passing motorist noticed glass in the west door broken out.

According to Santa Anna Chief of Police Carlos Torres he was notified at approximately 7:38 a.m.

The alarm system at the bank was not activated because the vault was not tampered with. The investigation is continuing with the Texas Rangers and FBI assisting Torres. Film from the surveillance cameras are being reviewed and fingerprints are being analyzed on

an iron pipe found at the scene.

In an unrelated break-in the previous Sunday, Holt's General Store's front glass door was broken and merchandise removed from inside. According to Torres 28-year-old suspect has been arrested in that incident:

The same weekend as the Holt's break-in several buildings on the Santa Anna ISD campus were entered. Similiar school break-ins were reported in some Brown County schools this same weekend, however; at this time there is no evidence that this incidents are related. Investigation into this case is continuing with no suspects reported at this time.

## No Parking On Wallis Ave. During Road Construction

J. H. Strain and Sons, Inc. of Tye, Texas along with the Texas Department of Transportation will begin constructing on US 67-84 in Santa Anna on Wednesday, march 26, weather permitting, Construction should last approxi-

mately two weeks. Work will be from the cotton gin to the turn-off for Highway 67. It will consist of planing the existing pavement and overlaying with a new pavement,

## Henderson **Completes Basic** Military Training

Army Pvt. Rodney L. Henderson has graduated from One Station Unit Training (OSUT), at Fort Knox, Radcliff, Ky. The training combined basic military training and advanced individual training.

The first eight weeks of initial entry training (IET) include drill and ceremonies, weapons, map reading, tactics, military courtesy, military justice, first aid, and Army history and traditions. During the advanced individual

training (AIT), soldiers learn to serve as a member of an armor unit in defensive and offensive combat operations. In addition to basic combat training, the soldier was taught to drive the armored weapon. load and fire the weaponry, perform ammunition supply duties and to process intelligence and operations

Henderson is the son of of Donnie and Christina Henderson of

His wife, Becky, is the daughter of Rodney W. Simpson of San Angelo. The couple are the parents of a son and a daughter.

He is a 1993 graduate of Coleman High School.

## Social Security Representative To Visit Coleman

A representative of the **Brownwood Social Security Office** will be on the second floor of the courthouse on Wednesday morning, April 2 from 9 to 9:30 a.m.

The list of the nominations for the BlueBonnet Awards is out. These are books for children. Encourage your children to read each and make his selection for the best book. This library does not have the books but the school probably will and Coleman may have them.

Picked up at Dyess Air Force Base a magazine stressing the library and education. If you'd rather your child be addicted to books than to television, help them. Start as soon as he's born. Reading to him. Let him see you reading. Discuss what you and he read. Send him to Summer Reading Club.

Haven't we had the most beautiful weather the last few days. I for one would like to see that for a while, the farmers are anxious to get some field The rains were wonderful and now it is time to go to work,

Rev. Clyde Majors, the Baptist pastor from Brownwood, brought a good sermon when he preached Sunday morning at church.

Terry and Helen McIver took Ben to Waco on Saturday where he played in a ball tournament. They visited with some friends Jim Salyer and Kallie also while there.

Colonel Tom Ritchie from Abilene visited on Saturday with Felton Martin. Sunday visitors were Francis Cox of Roswell, New Mexico, Helen Williams of Lovington, New Mexico, Mrs. Mary Crawford, Maxine Keller, Jerry Tongate, Justin Keller, Danny Lynn Keller and children, all of Brownwood and Mr. and Mrs. Danny Keller and Paul Martin and Colt of Santa Anna.

Kit Dean and Jennie of Comanche spent the weekend with Mr. and Mrs. Ray Dean and Wyndham.

Britt McIver of Buffalo Gap spent Thursday with his parents Royce and Wanda McIver and helped his dad with some work. Terry and Helen McIver and Ben visited a while with Royce and Wanda on Friday.

## SAISD To Begin Career Pathways Program Eighth Grade Class To Pre-Register April 10

On April 10, parents and eighth grade students will meet at 6:30 p.m. in Room 106 of the high school building. Members of the administration and faculty will be present to explain the new requirements for graduation, programs available, degree plans and the Career Pathways program.

Career Pathways is a plan for all students, regardless of their interests, abilities, talents or desired levels of education. It provides all students with areas of focus, along with flexibility and a variety of ideas to pursue as they make decision regarding the selection of courses for their high school years.

It is believed that students who decide on career directions early are less likely to drop out of school.

Thare no specificed requirements other than those required by the state for high school graduation.

The Texas Education Agency recommends seven Career Pathways. School districts across Texas design their own pathways ranging from five to fifteen in number.

A brief introduction to the Career Pathways follows:

#### **BUSINESS AND** MARKETING

Careers in the Business and Marketing Pathway include entrepreneurship, sales, marketing, computer information systems, finance, accounting, personnel, economics and management. Some students already are working in this pathway if they have started their own businesses or have participated in sales or management. The Business and Marketing Pathway offers many entry-level positions that need a wide range of abilities. Like all the pathway options, this one provides many opportunities for advancement with continuing education and work .

U.S. SENATOR KAY BAILEY HUTCHISON

## Taking the Bite Out of Crime

ust when you think you've heard every last method of scamming Uncle Sam, along comes news of another way that leaves you breathless. Item: Last week the General Accounting Office reported that thousands of convicted criminals nationwide have continued to participate in the federal

food stamp program despite being confined to jail or prison. In its study of four food stamp programs across the country, the GAO determined that 12,138 inmates or their families fraudulently received \$3.5 million in food stamps during fiscal year 1995; that year. \$1.5 million in food stamps were erroneously granted to 5,690 inmates in Texas prisons. Talk about double-dipping. Prisoners who already receive free room and board are, in effect, dining twice at public expense.

This is an especially pernicious practice, given that it has been so hard to enact entitlement reform to ensure that people who truly need help can receive it. The food stamp program provides a badly needed safety net for millions of desperate people.

We must not allow fraud to undermine the entire program.

As outrageous as prisoners receiving food stamps may be, I am proud to report that Texas has taken the lead in ferreting out and eliminating this abuse. Since January, our state has been cross-checking the names of individuals receiving food stamps with the names of convicts in Texas prisons.

In addition, Texas authorities now require food stamp recipient families to verify the number of people in their households every three months rather than every six months, as was the case the in past.

Earlier this month, I introduced legislation to encourage all states to follow Texas' lead and initiate procedures to end this fraudulent practice

Currently we reward states that take steps to recoup food stamp overpayments that occur as a result of fraud or error — such as payments to prisoners. My bill would reduce this reward system for states that do not cross-check food stamp rolls with prison records, the way Texas is doing. . . .

I am happy that Texas took the initiative on this matter, pointing the way for other states to do the same, without waiting for the federal government to act. Cross-checking prison records with food stamp eligibility lists is an inexpensive, non-intrusive method of determining whether families receiving food stamps are accurately stating the size of their households. American taxpayers, who are footing the bill, deserve no less.
