### GUL" REFINING COMPANY PUTS NEW DEAL IN **OPERATION**

Here's one of the most remarkable stories, as well as one that is of special interest to all the people of Texas. Three years ago the Gulf Refining Company engineers made a discovery of revolutionary importance to the oil industry. A discovery so advanced, so significant, that it made possible a finer, long-lived motor oil than the industry had ever seen.

This discovery was an utterly new refining process-the nowfamous Alchlor process; exclusive with Gulf. The oil made by it is called Gulf Pride.

At first it was possible to produce only limited quantitles of tion of August 26. this new remarkable oil. But so amazingly outstanding was its quality that it cmae into universal demand whereever the finest ceive between \$250,000,000 and motor lubrication was sought \$300,000,000 for reconstruction. Gulf Pride is now in demand in all corners of the earth and

The current extensive advertis-ing campaign of the Gulf Refin-ing Company now appearing in this state would be equal to a four million bale cotton crop at ten cents a pound."

He commented on the deficit Gulf stations sell three different prices, ranging from the buying consider finances, power of the motorist who wants a low priced gasoline or oil, but wants the most possible value for the money to the motorist who wants the very best regardless of cost.

# HENRY FORD ENDORSES

Our hats are off to Henry Ford, the world's largest independent and individual manufacturer of Automobiles. Mr. Ford in the last general election, supported Mr. Hoover and made the only radio political talk of his career in Mr. Hoover's favor. But Mr. Ford has been quick to realize that in Roosevelt we have a leader who is not afraid the tail end came in with a J. D. Howard. to lead. One who realizes there groan. is no back up for the American people and that the only way out is forward. Therefore he quite a few people do not find Monday. purchases a space in every news-lit necessary to lie to the tax aspaper, both large and small, in sessor now.

the land, and gives Mr. Roose elt direct credit for the present business revival. His advertisements are enlightening, instructive and encouraging and we hope and trust every one of our readers will read them closely and catch the spirit of this great industrial leader and each and everyone will do their part toward the general and local recovery of our nation from the most gloomy financial depresworld.

## SPECIAL SESSION

IN FALL LIKELY

AUSTIN, June 3. (AP)—James E. Ferguson said today Governor Miram A. Ferguson likely would ments will be made Sunday. convene the legislature in special session next of all to consider state finances.

Mr. Ferguson pointed out that it would be necessary for the legislature to pass enabling legislation in event the \$20,000.000 unemployment relief bond issue is authorized in the special elec-

He said should the president's industrial rehabilitation program be carried out, Texas would re-

"Austin will be the busiest place in Texas within a few shipped to all points from Port weeks," Ferguson predicted," Ex-Arthur, Texas, where it is manu-penditures of that much money in this state would be equal to

He commented on the deficit Texas newspapers is stressing in the state treasury and intithis oil and, too, the fact that mated the legislaure might be asked to return in September to

## TOUGH LUCK

About the toughest luck we have read about recently was carried in the Lockney Beacon last week, wherein Rev. Osborn, one of the Lockney pastors, had PRESIDENT ROOSEVELT lost his sermon note book.

The news item states that the book is very valuable to the \*\*\*\* owner but has no value to anyone else.

That's tough. Now the preacher will have to go to work and sermons.

It may be a "Century of Pro- non Penny, Mr. and Mrs. Willfress," as Chicago calls it, but ard Powers, and Mr. and Mrs

WOMEN'S CONTRIBUTION TO THE MOTOR CAR

There is some doubt that people care to hear very much about what goes on under the hoods of their cars.

The driver knows that "driving qualities" are not accidental; they are put there. How the manufacturer creates or evolves those results may not interest him. He judges entirely by the results he gets in

Well, it is not essential to talk "shop"; let us talk Results. Smoothness. Drive the Ford V-8 and you will find that the engine runs with surpassing smoothness, due to its design and the extra precise methods of its manufacture.

Power. There it is, 75 horsepower (we could say 80) at the driveshaft for the driver's use. With less weight to pull around, the mettle of this car--its life-like response--is rather remarkable.

Economy. Our V-8 develops more power on a gallon of gasoline than any car we have made. Mileage is partly a matter of individual driving, but under average conditions the Ford V-8 does 17 to 20 miles a gallon. Of course, car economy is not only a matter of fuel. Ford V-8 has that too, but it is also economical in the complete sense-initial cost, operation, maintenance.

Appearance. This is woman's contribution. The motor car must not only be useful, but also good-looking. View the Ford V-8 and you will not need our comment on its fine appearance.

Comfort. This also is woman's concern. In 30 years she changed the motor car from a wagon to a coach. Comfort is a quality made up of numerous ingredients. There is no comfort without a quiet, smoothrunning engine. We have all the other ingredients too, --- color, good taste, quality, ease, safety, roominess and convenience.

BROWNWOOD, TEXAS

WHITES REAN VERMIFIEE lar Expelling Worms TURNER'S DAUG STORE

Price of **Metallic Caskets** 

We have had so many inquiries in the last two months regarding the price of Metallic Caskets that we feel this word of explanation is necessary. Steel, copper and bronze caskets were very expensive several years ago before the cheaper methods of quantity production were discovered and especially so since they were made only in the northern and eastern states. These caskets, being much heavier than wood, carried an excessive freight rate.

A complete line of metallic caskets is now manufactured in Texas, and as their representative we are enabled to sell at a very reasonable price.

The casket shown here is a metallic casket which represents our \$225.00 complete funeral service, including this casket, embalming, care of remains and all funeral service
