Mountaineers to Battle Bangs Dragons Friday

Friday the Mountaineers will face the Bangs Dragons on the Bangs field in their third conference game of the season.

As the Dragons will be fighting to avenge their last defeat by the Mountaineers, and the Mountaineers to make up for their last two defeats, by Cross Plains and Ballinger, respectively, this may prove to be a close game.

Pep Squad girls are planning a formation for the game Friday. There will be a pep rally at the high school building Thursday night.

Armistice Day

This issue of the Santa Anna News is dated November 11. Well do we remember November 11, 1918, just fourteen years ago, when there were millions of our most able-bodied young men on foreign soil, fighting for a principal. Regardless of the whether or not, all those men knew what cause they were fighting for. They were fighting and mothers, fathers, sisters, brothers, friends and many more who had no direct kind in the service were praying to God most continuously to hasten the end of such bloody activities.

It was one morning between the hours of ten and eleven o'clock, the writer was seated at his desk writing an article for our weekly paper, (The Rising Star X-Ray) when the telephone rang and we were called to answer a long distance call. It was from a member of the county board, who were directing the war activities, wishing to advise us that the Kizer had abdicated and all activities were ordered to cease.

That was among the most welcomed messages we ever received over the telephone.

In record time the little town of Rising Star was celebrating in due and ancient form. The writer was Mayor of the town, and always tried to be a good sport, and those who knew him had no fear. There was no danger of any one being called down for making a noise, for the louder the noise the better it sounded.

It was a great day in the world. But little sleeping was done that night. The celebrating was just getting under way when night-fall overtook us, and fresh recruits joined in.

We hope we will never have to endure another such conflict as was experienced in 1917-18.

It has been fourteen years since the beginning of the closing of the war, and a large number of the men who saw service during the war still wonder what it was all about, but to this writer, it was a happy event when the activities ceased.

Important Notice

Some discussion has gone about the County regarding whether the Commissioners Court should keep a County Agent and Home Demonstration Agent for another year. The expense to the County this year will be as follows: County Agent \$1,000.00; Home Demonstration Agent \$1100.00. The cost next year will be almost if not this amount.

In order that the Commissioners Court may have the sentiment of the tax-payers of the County on this question, I am submitting the following questions which I trust will be answered by each tax-payer interested in this proposition:

Are you in favor of keeping a County Agent? Ans. _____

Are you in favor of keeping a Home Demonstration Agent? Answer _____

Reasons: _____

TAX-PAYER

If you do not have one of these forms you may send in your answer on another sheet. Your answer to these questions will be appreciated. They should be addressed to me.

A. O. NEWMAN, County Judge, Coleman, Texas.

C. H. Brannan Has Bad Accident

C. H. Brannan, who lives on his good farm northeast of town a few miles, suffered a very unusual and painful accident last Sunday afternoon.

According to the reports, Mr. Brannan was out about his chores, got tripped in a bunch of tumble weeds and fell and broke the bone in his right hip. He rolled, crawled, and managed to get to the porch of his home, but was unable to make his way farther into the house. He was alone, and spent the night there before he was found, suffering considerably.

Monday morning, his son, U. S. Brannan went to the home of his father and found him lying there on the porch unconscious. He called the Sealy Hospital, who sent the Hoshch Brothers ambulance for him at once.

Mr. Brannan was treated, placed in a cast and is reported recovering nicely.

Liberty School Teacher Marries

Miss Mary Merle Polk, daughter of Mr. and Mrs. E. W. Polk of the Liberty community, and one of the teachers in the Liberty school, surprised her friends last Saturday by getting herself married to one Carl Childs of Cross Plains.

Mr. Childs, a driller for an oil company, succeeded in winning the heart and affection of Miss Polk and they drove to Brownwood Saturday evening where they were married.

Rev. A. E. Prince, pastor of the First Baptist Church, officiated.

Mr. and Mrs. Childs are now living in the Marshall apartments here in Santa Anna, the young bride continuing to teach in the Liberty school.

Mrs. Childs is a member of the Santa Anna High School of 1929, being the honor graduate of her class. She attended Simmons University in 1930 and was honored by the trustees of the school in her home community by being elected to a place in the school there this year.

We have no line on the lucky man who won her for his future life's companion, but wish them the best things in life while drifting down the stream of time.

Well-to-do Candidates

George Washington was the wealthiest man in the United States when he was elected President in 1788. A good many other Presidents have been men of considerable means, and a good many of them have been poor men.

Theodore Roosevelt had the largest personal fortune of any President since Washington, when he entered the White House. President Hoover at the beginning of the war was worth several million dollars, but had spent a great deal of his capital in Belgium relief work and other philanthropies, and lost more of it through investments, before he became President, according to the interesting and expensive magazine called "Fortune," which sells for \$1 a copy.

Mr. Hoover started in life with nothing and was making \$100,000 a year as a mining engineer when he was thirty, according to Fortune, which estimates that he was worth something over \$4,000,000 in 1914 and now has left about \$700,000, mostly invested in bonds, which bring him an income of about \$35,000 a year from his salary.

Franklin D. Roosevelt, the Democratic candidate for President, has an income of about \$17,500 a year apart from his salary as Governor of New York, says Fortune. About \$12,500 of this is from investments made by himself and his wife of money which they inherited. Governor Roosevelt's big magnificent home at Hyde Park, New York, is owned by his mother, who is estimated to be worth about half a million dollars.

We do not see that it makes much difference whether a Presidential candidate is rich or poor. Even Norman Thomas, the Socialist candidate, who presumably represents the poor, married a considerable fortune. Perhaps, on a whole, the country is better served by putting in office men who do not need the jobs, but who are economically independent and are able to devote their lives to public service.

Straw Vote Requested for County Agents

In this issue of the News, County Judge A. O. Newman places an advertisement calling for a straw vote, just for an expression from the tax payers of the county, relative to the County Agent and the Home Demonstration Agent.

As we see it, the County Agent and Home Demonstration Agent are two valuable assets to the people of the county and we will cast our vote in favor of keeping them both. May we urge that each reader of the Santa Anna News respond to the request of the County Judge and either mail or send him your reply.

Baptist State Convention to Meet in Abilene

Executive officers of the Baptist General Convention of Texas are preparing reports to be submitted to the State Convention Meeting in Abilene November 16. Representatives of nearly half a million Baptists are expected to number more than 5,000 when the convention is called to order by President L. R. Scarborough of Fort Worth.

Important business to come before the convention includes reports on the \$600,000 Every-member Canvass Campaign, Missionary Emergency Funds, and the Co-operative Program. Every agency of Texas Baptists will be represented at the gathering, and the South-wide Boards of the denomination will send representatives.

Dr. T. B. Ray of Richmond, Va., will represent the Foreign Mission Board, and the following missionaries will represent their respective stations:

Rev. and Mrs. E. J. Gregory of Mexico, Miss Cynthia Miller, China, Mrs. W. Eugene Salee, China, Miss Mary D. Williford, China, Rev. and Mrs. V. L. David, Spain, Rev. and Mrs. R. S. Jones, Brazil, Miss Effie Baker, Japan, Rev. E. O. Mills, Japan, and Miss Naomi Robertson, Africa.

Presidents of Baylor University, Baylor College, Howard Payne College, Simmons University, Wayland College, College of Marshall, Decatur College and San Marcos Academy will make reports of the condition of their institutions, and the manager of Buckner Orphans Home will present his report.

Local committees at Abilene announce that the city is prepared to care for the large gathering and all railroads are offering reduced fares during the convention.

Pastors and Laymen will meet in conference on Monday, November 14, at the same time that the Woman's Auxiliary meets. Both these gatherings will adjourn on Tuesday and the General Convention will meet at 10 a. m. November 16.

Baptist Church

We had a fine day last Sunday with increased interest in every department of the church had about 90 in B. T. S. and are striving to reach the 100 mark.

This week we are having a splendid B. T. S. Training School with about 50 enrolled up to Wednesday night.

All regular services next Sunday. The pastor will preach at both hours. We invite the heart-hungry to come with us to the house of God.

HAL C. WINGO, Pastor.

Methodist Church

Regular services next Sunday as follows:

9:45 a. m. Sunday School with classes for all ages.

11 a. m. Morning worship. Subject: "Say It With Flowers."

7:15 p. m. Evening worship. Subject: "Is Thy Heart Right With God?"

G. A. MORGAN, Pastor.

ASSOCIATIONAL B. T. S.

The Coleman County Associational B. T. S. will meet at the First Baptist Church in Coleman next Sunday afternoon. The program will center around the Study Course Work.

Mrs. Andrew Shreiber and Miss Ruby Harper visited in Eastland Sunday.

Lions Club Banqueted Election Night

Tuesday night the wives of the members of the Lions Club, responded to an invitation from the Lions to be their guests and furnish the eats in a splendid manner. The several committees performed well the duties assigned them and a real turkey feed with the trimmings was enjoyed.

Rev. Forrester, pastor of the First Christian Church at Coleman was the principle speaker, and brought a wonderful, patriotic message for the occasion.

The program was both comical and interesting, due to the loud speaker arranged after the manner of a broadcasting station. Several numbers were furnished for the amusement and entertainment of the audience.

Election returns were read at intervals, and the usual wit and humor prevailed. Out of town visitors were Rev. Forrester and R. R. Browning of Coleman and two Lions from Junction.

Walker's Pharmacy Installs New Fountain

A new, frigid system, sanitary fountain was installed at Walker's Pharmacy last week, which adds considerably to the appearance and service at their outfit.

Mr. and Mrs. Walker, owners of the drug store, are alert to the times, and believe in keeping their place of business up to the highest point in efficiency and service. Visit their place and refresh yourself with a cold drink from their new fountain.

LET'S ACT THE PART

The election is over. The people have named their choice for the presidency for the next four years. Those who are on the winning side are jubilant. Those who lost their votes must abide by the result as becomes good and loyal citizens of this country.

It is doubtful if ever a campaign was waged with more bitterness than the one just closed. Harsh statements have been made about men who do not deserve all that has been said about them.

The votes have been counted, the result has been announced and now it is time for all of us to forget the past and its unpleasantness and turn our every effort toward improving economic conditions and relieving the sufferings of those millions who need but have not.

Not a thing is to be gained by harboring the ill will that has been engendered in this campaign.

We are all Americans—let's act the part.

Mrs. Frank Mills and children spent Monday in the home of her parents, Mr. and Mrs. J. M. Smedley.

Mr. and Mrs. Farry Williams of Coleman spent Sunday in the Ozro Eubanks home.

Producing Turkeys to Meet Market Demands

(By J. M. Blinion)

Consumers of turkeys have begun to demand smaller turkeys. As a result the turkey producer has to solve the problem of supplying them. Of course it will take time but turkeys that are ready to go on the Thanksgiving market at 17 or 18 pounds can be produced.

Two essential things must be considered by the producer, namely; breeding and management. They must breed for a long breasted bird with a short drumstick and short shank. This type of bird will mature quickly and put on the proper finish at a low feed cost. It requires only four pounds of feed to put one pound of flesh on this type of bird up until it is six or seven months old. After that age more feed is needed to produce a pound of flesh. The breast, thigh, and shank should all be approximately the same length or in other words in proportion. They should also be deep through the body and wide through the heart girth.

If this type of turkey is hatched off about May 1st to 15th it will have about six months to develop and finish out for the Thanksgiving market.

Remember that the man who produces must produce that which satisfies consumers. Also the time never was and probably never will be when a producing free man can tell a consuming free man what to buy. Folks are just not made that way.

Welcome When You Pay

Mussolini opened his mouth the other day and emitted a long drawn out wail—"cancel the war debts."

But that is nothing new. We have heard it before—morning, noon, at night time, on week days and Sundays, from all points of the compass. In some of those countries they must be repeating the refrain in their sleep.

But nothing doing, Mussie, old boy. You may be a whale in Italy, but you're a mighty little tadpole in this country when you preach cancellation of war debts. You'll be welcome when you pay up.

MAYO LONGVIEW CLUB

The club members met Tuesday November 1st with Mrs. Brown. There were five members present and one visitor. We made out our report for the year, after which Miss Brent gave a very interesting and helpful demonstration on crystallization of the citrus fruit peel.

We will not have another meeting this year.

Democrats Elected in Landslide

In the general election Tuesday Governor Franklin D. Roosevelt and John N. Garner, democratic nominees for president and vice president, were elected by the largest electoral vote ever given any candidates in the history of the United States.

Out of 531 electoral votes Mr. Roosevelt received 472 and Mr. Hoover received 59 votes, the democratic victory being almost 10 to 1. Conn., Delaware, Maine, Nevada, Penn., and Utah with a total of 59 votes went to the republicans, all others went democratic.

This landslide is not considered so much a victory for the democrats as it is a repudiation of the present administration.

Mrs. Miram A. Ferguson won the governor's place over her republican opponent, Orville Bullington by about a 3 to 2 vote.

Democratic governors, congressmen and senators were swept into office throughout the country in a great way. Several of the old stand-pat republicans who have been in office for years and are seasoned in the work, who thought they had a cinch on their places, were defeated by the democrats in their respective places.

Tuesday was a real day for the democrats in the United States, and they have a wonderful opportunity confronting them. If they succeed in bringing about better conditions, which is possible, the future for the democrats will be much brighter. However, unless considerable improvement is made, the G. O. P. will soon have the reins of government back in hands again. Here's hoping the democrats success and it is possible.

With the rapid approach of winter, caring for the needy becomes doubly important. They must have food, and clothing, and a place to sleep. If there is work to be had, they must have it. If there is none, then those who have must share with those who have not. The heart of America is not callous.

As We Sit and Think
(Sometimes Just SIT)

This is a hard day to think, however it is not a difficult matter to sit. This is Tuesday, election day, and that some-what accounts for the difficulties in trying to think.

However, the election is not all there is to think about. For instance, the turkey market is an item that very much concerns many people in this country just now.

The market opened last Friday, as was promised, but opened lower than was expected, and most people are holding out for better prices. Just what the ultimate outcome will be is a matter of speculation.

We would like to advise in the matter, but we fear our advice would not be worth the time required to read the simple admonition. In fact, we are at sea when it comes to giving advice on anything this year. Some think the Christmas market will be higher than the Thanksgiving market, but have nothing to base their belief upon. The only argument in favor of the Christmas market we can think of is, the few pounds growth on turkeys not yet finished and ready for the market. There is absolutely no demand for them that we can find, that will justify one to believe the Christmas market will offer higher prices than the Thanksgiving market.

So we are lost for an inkling to offer, and the best we can suggest is that you use your own judgment, and if you win you are that much ahead and if you lose you have just used poor judgment again. It seems to us that whatever you do here of late it proves to be disappointing or what may be termed poor judgment.

We hope, regardless of who is elected to office today, conditions will improve, but that is just a hope of ours. Many others are also hopeful and here's hoping they win.

We may see fit to extend this article later, following the election. But for the time being we will ring off and wait for the returns.

What Price Death?

ODESSA, Tex., Oct. 31 (AP) What price death?

One hundred and fifty and some odd years ago Patrick Henry fixed the equivalent or alternative—as one chooses to construe his restricted selection—at liberty.

Time, perhaps, has modified the uncompromising demand of the revolutionary forefather. At any rate, out in Ector county where the wide open spaces have reserved a measure of the frontier spirit of initiative, there is an apparent willingness to consider another value.

A prisoner, unable to raise a thousand dollar bond, imposed after examining trial, voiced firm prejudice against further residence in the local jail. Throwing his broad-brimmed hat on the floor of the courthouse hallway, he stated with emphasis that he would not go back to the brig.

"You'll have to shoot me first! I'd rather be shot than go back to your empty-ump jail!"

"Well, if you've got five dollars . . ." the sheriff suggested hesitatingly and at the same time fingering his ivory-handled gun reflectively . . .

"But I've only got two. Maybe we . . ." interrupted the prisoner who was a stranger to West Texas and it's diplomatic ways.

"Then" continued the sheriff, "I can't afford to shoot you. Five dollars is my regular price for shooting folks and if I let the price down, now that the depression is on, I'd be worked to death in a week."

The momentary distraction at the failure of negotiations was enough for the officer to collar the objector and guide him back to his cell without further protest.

Better Purposes

Just imagine the feelings of those high hatted railroad officials who wanted to borrow a wad of money from Uncle Sam and the brutal and inconsiderate Interstate Commerce Commission wanted to know how much the high hatters were drawing in salary!

Just think of it! Asking the big wigs of a railroad how much they were lifting from the road's treasury in the guise of salaries. A high hatter is entitled to all he can squeeze from a lemon. He may even swipe the hide and pulp, but it must come under the head of "salary."

We recently heard of one road that is losing money hand over fist and back again. And the high hat of that road is reputed to be drawing \$165,000 a year in salary.

Earn it? He just takes it. We fear the Interstate Commerce Commission is losing its proper respect for high hats. If somebody doesn't throw a few wrenches into the machinery the commissioners may soon become so callous as to use the high hats for stools.

And at that, the hats might serve better purposes than those to which they are now put.

Mr. and Mrs. W. A. Brandon and two sons, Alton and Elsworth visited in Brownwood Sunday.

Many are contributing to the great fund for the unemployed. But not all are cheerfully giving. The community chest canvassers just squeeze it out of them.

Looking Ahead

We like to look ahead, to visualize what is likely to happen in the near future. It is an interesting pastime, and affords relaxation for a brain weary from the day's work.

We have been looking ahead in the economic situation, studying the barometer from day to day. We see more of hope than of distress. We see no sudden change, but just a gradual climbing of the rough and rugged mountains which lead to better business and a greater degree of stability.

A straw in the wind shows the direction of that wind. It is so in the business world. The slight gains that are recorded in the daily press, that are reported by chambers of commerce and the various bureaus and organizations, are but straws in the wind of trade and commerce. They are all being blown in the same direction, onward and upward toward the top of the mount of prosperity.

The way is long and the climb is wearisome, but the goal is worth it.

The above scene is a graphic representation of the homes of two housewives—just before guests arrive for the evening meal. The woman at the left has been working in a hot kitchen all afternoon . . . nothing has gone off well . . . she is nervous, tired, irritable . . . and looks it. But the modern home-manager at the right is cool, fresh, lovely and unburied. She has been away from home all afternoon, yet is ready to take a delicious, savory and attractive meal from her oven. Her meal will be an unqualified success . . . the success of the other housewife's dinner-party is extremely doubtful.

The difference is that the modern home-manager, at the right, has an Electric Range. . . The other housewife still cooks by old-fashioned methods!

You, too, should profit by the many advantages and superiorities of modern Electric Cookery. With one of the new General Electric Horpoint Ranges in your kitchen you'll save money, work, time and food. You'll serve better, more healthful and more attractive meals. You'll be happy, cheerful and energetic. Take advantage of special prices and terms . . . TODAY! See one of our salesmen NOW. He will be glad to tell you the interesting and valuable story of Electric Cookery. There's no obligation, of course.

FORMER SANTA ANNA BOYS LEAD ABILENE HIGH HONOR ROLL

Abilene high school started the year with an honor roll of 23 students averaging 90 or more for the first six weeks. The list was headed by E. M. Rainey, a sophomore, whose grade was 98 1-4. Three other students averaged 97 or more. They are Sarah Elizabeth Clark, freshman, 97; Nan Pearce, sophomore, 97 1-2; and Hibbard Polk, junior, 97 1-4. The high ranking senior was Phillip Hampton, averaging 96 1-2.

MOUNTAINEERS LOSE TO BEAR CATS

Last Friday the Mountaineers went to Ballinger to try their hand at defeating the Bear Cats. We feel like the Mountaineers would have dealt them a little misery had it not been for the rain.

About the time the game started the rain started also and of course that handicapped the boys. About all that they could do was tackle, hang on and take a ride. Those Bear Cats were plenty capable of dragging them in the mud alright. The Mountaineers made some short passes but little gain on end runs and line plunges.

Next will be a conference game and we hope to win by a wide margin.

SOPHOMORE NEWS

This week the Sophs have two new members, John W. McKenzie has moved back to Santa Anna and is one of us again. We are glad to have him back. The other new member is Truett Werner. We are glad to have him and are sure he will prove to be co-operative and have the spirit of team work as the rest of the Sophs do.

We are making Friendship Booklets in English. We have been studying Friendship and Neighborliness for quite a while and these booklets should be good enough to "cap the climax." Reporter.

WHO'S WHO

Freshman girl: Blond hair, pleasing disposition and is rather timid.

Freshman boy: Little, too timid to answer questions when asked.

Freshman boy: Tall, brunette and is in love with well-known Sophomore girl.

Freshman girl: Grown up, likes all the small Freshies

Freshman girl: Small, with brown curly hair. Known by, "I don't understand this Algebra problem."

Freshman girl: Blond hair, is known by, "Now what did she say, I didn't hear her."

A Freshman.

The Athlete

He is the man who struts about the campus sporting a big yellow "S" on the front of his sweater. He is proud of his fine physique, and takes great pleasure in being honeyed. He thinks that because he has the ability to throw things around, including the first person singular of the personal pronoun, he can manage the whole business.

ARMISTICE DAY—1932

"Just fourteen years ago the cannons boomed A last "farewell to arms" and war and death, And countries that had once been sadly doomed Renewed their courage gladly; And the breath Of freedom penetrated distant lands.

Oh, may we eulogize each fighting man Who has confirmed the trust, released the bands Of tyranny. And we may praise again

The glory brought by courage, true and strong; But let us not forget the streaming blood, The horrid cost of war, the woe-filled wrong, The men who suffered hell and died in mud.

Oh, let our greed for marital glory cease, Our vows not be mere platitudes for peace!"

Marion McElroy, Athens.

SPANISH CLASSES BUSY

Spanish classes are busily engaged in the process of learning to read and speak Spanish. The first year class has been concentrating on the mechanics of spoken Spanish while the second year class is struggling courageously with the more intricate points of grammar in order that they may learn to read more accurately.

Despite the fact that there is an element of difficulty in the mastery of Spanish, the course is popular this year if the size of the classes is decisive. At present there are thirty-two in the class of Primer Espanol and twenty-three in Segundo Espanol.

ARMISTICE MESSAGE

The student bodies of High School and Ward School met in the High School auditorium Monday morning to listen to a talk by Sergeant Leonard, a Canadian World War Veteran. Sergeant Leonard has been across the seas and served in the World War for five years. He told us of his own experiences that we should not have to go through, and of the awfulness of war. We should try to avoid war and live in peace but we cannot accomplish this unless everyone lives a Christian life and sees the Christian way.

There were several visitors in the assembly and all present enjoyed this Armistice message from one of high rank.

WHAT IF

The Freshmen had a party. Maxie didn't chew gum while playing football.

Creighton didn't make perfect in Algebra notebook.

Mary Lee Ford didn't talk in the first period study hall.

Evant didn't buy chewing gum for the girls.

NEW SPANISH BOOKS

The different book companies with which the school has been connected have given sample copies of their texts. These texts have been kept in the Spanish room until last week, when they were transferred to the library. This adds fifteen different Spanish texts which will be very useful to the students.

 Vernon: Three seats away.

DON'T SUFFER ANOTHER DAY

Sufferers from rheumatism need more than the mere temporary relief that comes from the use of pain relievers. The system must be freed from the poisons of this agonizing disease.

When your throbbing swollen joints begin to subside, when aching nerves and muscles begin to relax, when poisons begin to dissolve and drain from the system, you will know beyond a doubt that the RU-NO-MA prescription is removing the cause of the trouble. RU-NO-MA acts quickly and thoroughly—contains no opiates or narcotics—absolutely harmless. Ask your druggist about this amazing prescription. Read the guarantee on every box—don't suffer another day.

Thanks to those friends who came in with their subscription money during the past week—they were welcome. We'll thank the others when they come—and they'll be equally welcome.

The solicitude exhibited for the farmer by our swarm of candidates is really touching, but that is not proof positive that they will cease "touching" the farmer if they get into office.

The war sent the prices of all commodities up until, in 1920, it cost just about twice as much in rents, fuel, food, clothing and the other essentials of life, to say nothing of luxuries, as it had cost for the same thing seven years before. In ten years two-thirds of this increased cost has been lopped off, so that today the general average of living costs is only about a third greater than it was in 1913.

The period of high commodity costs was, however, the period of our highest national prosperity. From 1922 to 1929 prices maintained a fairly even level of about 70 per cent more than in 1913. Everybody was busy, everybody was earning more money than we had ever earned before, more goods were being produced and sold at profitable prices than ever before, and the people of the United States were in a happy and contented frame of mind. Then the sudden drop in commodity prices began and we have had hard times, business depression and unemployment ever since.

It seems to us that here is conclusive proof that prosperity is dependent upon high prices. All of the statesmen, economists and financiers of the world agreed that is true. An intensive and widespread effort is being made to find a way of restoring and increasing commodity prices. An international committee is to meet shortly in Geneva to prepare the plans and program for a world-wide conference of governments in the effort to find some way to solve this problem. In the meantime, the upward trend has begun in many commodity lines, and the whole outlook seems to be toward better prices, which means, in the long run, the resumption of production and the restoration of prosperity. Exchange.

AND SUCH AS THESE

In one of our moderate sized cities a large family has been provided with food from the community chest for many months.

In that family are three husky and healthy men. The managers of the chest found temporary employment in a near by town and proposed sending them there. The men refused the employment on the ground that "it was not the kind of work they wanted."

No matter how worthy their women may be, such men do not deserve charity or consideration of any kind or from any person. The man who is not willing to work should be allowed to go hungry.

A THOUSAND TIMES WORSE

Speaking at Cleveland Saturday night in defense of his record, President Hoover declared: "We present to the world a record unparalleled in any other nation. . . . Yet some say that things could not be worse. Had these actions not been taken they would be a thousand times worse."

On which a reader of this paper comments:

"Oats are now bringing 13c a bushel. What would they be selling for if conditions were a thousand times worse?"

"Colorado farmers are getting 21c a hundred for potatoes, while the railroads get 76c for freight. What would the price be if it was a thousand times worse?"

"Idaho farmers are averaging potatoes. How could that be a thousand times worse?"

There are tenant farmers right here in central Texas who spent the entire returns from their two-thirds of their grain crop to pay for the cutting and stacking of their landlord's one-third. But President Hoover says it could be a thousand times worse."

To which might be added the recent report of the U. S. Department of Agriculture that farm wages average only \$1.19 a day for the whole country—the lowest in over thirty years. But Hoover says it could be a thousand times worse.

For the first time since 1898 there are less than 1,000,000 men employed by the first class railroads of America. Just think how much worse it might be says Hoover.

The U. S. Department of Labor declares that 11,000,000 men in this country are wholly unemployed. To which President Hoover answers that it could be worse.

There are schools all over the nation which are closed down, or running on part time, or not paying their teachers.

We are taxed on our letters and taxed on our checks, taxed on gas and oil and tires, when we ride, taxed with a tariff on shoes when we walk. But President Hoover, who gave a moratorium to France and Germany, tells us it might be worse. The Federal Farm Loan Banks put on extra help to foreclose farms, but it might be worse, says Hoover.

Business and prices reached their low point in June, right after the Republicans renominated President Hoover. After Roosevelt and Garner were nominated, business men began to

improve. Although every speech of President Hoover since then has been followed by a sinking spell in prices, encouragement from the hope of electing a Democratic administration has very nearly counterbalanced the bad effects of the president's utterances.

In a sense President Hoover is right. It might be worse—possibly a thousand times worse, just as he says—

BUT IT'S NOT GOING TO BE WORSE!

For President Hoover's re-election in November is what it would take to make things worse, and there is no chance of that. Franklin D. Roosevelt will be elected on his promise of a new deal, and the present tenant of the White House will be free to return to his home in England where he can figure out for himself just how "it might be a thousand times worse!" (Goldthwaite Eagle)

Your Home Paper

Your own home paper is the only one that labors 52 weeks in the year for YOUR personal welfare.

We could not even suggest that you should not read a daily newspaper. We recommend it. You need the news of the ever changing world. The daily market reports are valuable.

BUT the daily paper is NOT laboring for YOUR personal and individual welfare. Its FIRST and PRIME interest is the welfare of its OWN business firms, of its OWN people.

Your interests are secondary. Your home paper, The Santa Anna News, places YOUR interests and welfare FIRST, the interests of OTHER sections SECOND.

It labors faithfully to enhance the welfare of all of the people and business interests of this Santa Anna community, to bring the people of THIS community together in one happy family, each interested in the welfare of the other.

Is such a policy worthy of support? Are YOU a subscriber to this paper?

Are You, Mr. Business Man, an advertiser in its columns? SANTA ANNA NEWS

I will re-open my Gift Shop at my home, first house south of Ward School, with an informal tea Saturday November twelfth from two 'til six o'clock. MRS. JODIE E. BAKER

A DANGER SIGNAL

Little things sometimes lead to great and momentous events.

Our forefathers, weary of oppression by the British king, dumped a load of His Majesty's tea into Boston harbor. Partly as a result of that act we have the United States of America, the world's greatest nation. The oppressive king is long since dead—and almost forgotten.

The oil producers of Oklahoma were being rapidly strangled to death through inability to secure a fair price for their crude product. Governor "Alfalfa" Murray used the National Guard to AID the producers and force a fair price for oil. The oil men say they are now enjoying banking.

Governor Sterling of Texas followed suit, and Texas oil now brings a better price.

Sloux City business men have been clamoring for the employment of the Iowa National Guard to halt the farm strike for better prices for farm products. Apparently they do not care to AID the farmer—their prefer to CRUSH him. The governor wisely denied their request.

The farm movement is spreading steadily. It is reaching out into many states, is being adopted up in Canada.

Other commodities of daily use and necessity are bringing prices at which producers can make a fair profit—and live. The farmer and stock raiser can NOT continue at present prices and live.

If the National Guard is to be used for any purpose, it should be in AID of the farmer, and NOT for his destruction.

A prolonged production holiday by the farmer might lead to untold misery in this country—might reach even to the brink of famine. But who could blame the farmer if, with his back to the wall, he should resort to even that extreme measure?

Bloody wars have been fought over causes less just.

The danger signal is out. Wise men see it. Foolish ones do not.

3. Characters: (a) Adriana—a true wife or a shrew? (b) Are the Dromios entirely alike in character?

3. Interpretation: (a) Stigmatical in making, worse in mind; (d) A fellow all in bluff; (e) A hound that runs counter, and yet draws dry-foot well (f) I am pressed down with conceit; (g) The picture of old Adam new-appareled; (h) Bespeak a long spoon.

3. Topics for further study.

1. Elizabethan cures for madness—Barnes.

2. Shakespeare's other madman—Ollie Weaver.

3. The Courtesan in Plautus and in Shakespeare—Annie.

This country is becoming so small we can't step out of doors without tramping on some other country's toes.

Safe Pleasant Way TO LOSE FAT

How would you like to lose 15 pounds of fat in a month and at the same time increase your energy and improve your health?

How would you like to lose your double chin and your too prominent hips and at the same time make your skin so clean and clear that it will compel admiration?

Get on the scales today and see how much you weigh—then get a bottle of Kruschen Salts which will last you for 4 weeks and costs but a trifle. Take one-half teaspoonful in a glass of hot water before breakfast every morning—cut down on pastry and fatty meats—go light on potatoes, butter, cream and sugar—and when you have finished the contents of this first bottle weigh yourself again.

Now you will know the pleasant way to lose unsightly fat and you'll also know that the 6 salts of Kruschen have presented you with glorious health.

But be sure for your health's sake that you ask for and get Kruschen Salts. Get them at any drug store in the world and if the results one bottle brings do not delight you—do not joyfully satisfy you—why money back.

BIG BUSINESS ROARS

Big business has been roaring mightily because the American Legion voted almost unanimously for immediate payment of their bonus certificates, and many of the satellites of big business have been responding to the lash and joining in the chorus of roars.

Government has been pouring money like water into the coffers of big business—the banks, the railroads, insurance companies and other corporations. In theory this money was to have been used for constructive purposes, to put idle men to work. In practice it is being used to pay debts to banks, to continue the enormous salaries of high officials of the corporations, and for similar purposes. It is NOT going into circulation, and only a smattering of the unemployed are being put to work.

The \$2,300,000,000 asked by the bonus men in payment of their certificates—an obligation the government has acknowledged—would go into almost immediate circulation. It would reach out to every nook and corner of the land. The grocer, the butcher, the clothing merchant, practically every line of business would profit from putting it into general circulation. The smallest country stores would feel the benefit. Even this newspaper would get some of it, in payment of overdue subscriptions, or new ones.

Big business didn't go across the water and into the jaws of death. It profited while the bonus men did the fighting.

WE DO NOT AGREE

Says Arthur Brisbane: "Two dead gangsters are picked up in Chicago, sent to a better world by fellow gangsters for the latter's good," etc.

We do not agree with the world's most noted writer. If there is a place in the hereafter worse than hell, that is where gangsters will be found, shaming him who presides over that depraved place of final abode.

A "better world," as we understand it, is a place where good people go—people who do not consort with gangsters of the underworld.

Brother Brisbane can not convert us to the belief that this world of ours is on a par with hell, or worse.

Roy Golston of Tyler visited here Friday.

An economist contends that poor people with families should be exempt from taxation, but he's crazy. If such a law were in effect every rich man in the country would be preaching poverty to the tax assessor.

CITATION BY PUBLICATION

W. M. Riley, Jr. vs Mike Johnson. No. 2356.

IN THE COUNTY COURT, COLEMAN COUNTY, TEXAS.

The State of Texas to the Sheriff or any Constable of Coleman County—GREETING:

YOU ARE HEREBY COMMANDED, that by making publication of this Citation in some newspaper published in the County of Coleman once in each week for four consecutive weeks previous to the return day hereof, you summon Mike Johnson, whose residence is unknown, but who is alleged to be a citizen of the State of Texas, to be and appear at the next regular term of the County Court of Coleman County, to be held at the Court House thereof, in the City of Coleman, on the first Monday in February A. D. 1933, the same being the 6th day of February A. D. 1933, then and there to answer a petition filed in said Court on the 26th day of October A. D. 1932, in a suit, numbered on the Docket of said Court, No. 2356 wherein W. M. Riley, Jr. is plaintiff, and Mike Johnson is defendant; the nature of plaintiff's demand being substantially, as follows, to-wit:

Suit upon a joint and several note executed by defendant Mike Johnson and one C. B. Guyger and delivered to plaintiff, bearing date of August 1, 1928 and thereby promised plaintiff to pay him or his order on November 1, 1928 the sum of \$500.00 with 10 per cent per annum interest thereon from said date and 10 per cent attorney's fee upon the principle and interest if placed in the hands of an attorney for collection or suit should be brought thereon after maturity; that said C. B. Guyger is notoriously and hopelessly insolvent and that said Mike Johnson with the exception of the credits of \$100.00 paid to plaintiff on March 20, 1930 and \$20.35 paid on February 25, 1931, has refused, failed and still refuses to pay said note; and that plaintiff has turned over said note to his attorney for collection agreeing to pay him 10 per cent upon the principle and interest due upon said note.

HEREIN FAIL NOT, but have you before said Court on the said first day of next term thereof this writ with your return thereon, showing how you have executed the same.

Given under my hand and seal of said Court, at office in the City of Coleman, this 26th day of October A. D. 1932.

WITNESS, L. Emet Walker Clerk of County Court in and for Coleman County, Texas.

By V. Rawlins Gilliland Deputy. (Issued same day.)

THE HOUSE OF VALUES

LOCAL HAPPENINGS

Mr. and Mrs. Leslie Griffin have returned to their home here after spending the past two months in Roswell, New Mexico.

Mr. and Mrs. W. H. Thate and Mrs. T. R. Sealy returned Monday from Austin where Mr. and Mrs. Thate attended a Piggly Wiggly meeting and Mrs. Sealy visited her daughter, Miss Velma, who is a student in the State University.

New metallic turbans at Mrs. Shockley's.

J. W. Golson of Coleman, Representative-elect, was a Santa Anna visitor Friday.

Sam L. Dryden of Abilene was a business visitor here Thursday. Elmer Haynes of Trickham was a Santa Anna visitor Tuesday.

A big reduction on our Fall Coats. Mrs. G. A. Shockley.

Judge S. J. Pieratt of Coleman was a visitor here Wednesday.

Rev. and Mrs. Hal C. Wingo and Mrs. T. J. Lancaster attended the Coleman County Workers meeting at Trickham Thursday.

Mr. and Mrs. Hardy Blue and children and Miss May Blue left Thursday for Dallas.

Mrs. Emily Brown spent last week-end in Dallas with her sister, Mrs. Black.

Miss Alice Jean Hooper of San Angelo came last Friday for an indefinite visit with her grandmother, Mrs. M. L. Hooper.

Miss Alice Perry, daughter of Mr. and Mrs. W. W. Perry and Mr. Melvin McCreary, son of Mr. and Mrs. Jim McCreary, all of the Plainview Community, were quietly married last Friday evening at the Christian Parsonage, with Rev. E. H. Wylie reading the ceremony. The young couple will make their home in the Plainview community, where they are very popular.

A big reduction on our Fall Coats. Mrs. G. A. Shockley.

Recent weddings about which we have very little data are Miss Daisy Louise Hoyt and Mr. Vernon Buse, both of Santa Anna; J. D. Brown of Santa Anna and Miss Chloe Sewell of the Coleman Junction community; Miss Wilma Stacy of the Mayo community and Mr. Ben Vinson of Santa Anna.

MRS. HARDY BLUE ENTERTAINS

The Hardy Blue home was transformed into an amateur hospital Tuesday night when Mrs. Blue, assisted by Mrs. Tom Mills, entertained the Victor Wesley Class of the Methodist Church. Decorations were patent medicine posters conspicuously placed about the rooms. Chairs and divan were made comfortable with sofa pillows of Epsom Salts sacks.

Dr. Quack, in the person of Mrs. Will Mills, very competently diagnosed the case of each patient in her well equipped Clinic, and successfully performed any operation with the assistance of her very capable nurse, Mrs. Clifford Verner. Every person's temperature was tested with a candy thermometer which he was allowed to keep, and his pain relieved by candy pills. Many alarming ills were discovered by Dr. Quack, but all were quickly relieved by her skillful operations. Mrs. Morgan's trouble was found to be a broken knee. When she returned to her seat, she found that Dr. Quack and her nurse had bound it up with beautiful material for a silk crepe dress, presented by the class.

Prize winners were Mrs. Jodie Baker for writing the best patent medicine testimonial, and Mrs. Jodie Mathews for determining correctly ten bottles of medicine through the sense of smell.

Refreshment plates consisted of salad wafers, congealed salad and cookies and beverage in bottles labled poison; also some very suggestive mints that were left untouched on the plates. Plate favors were sample packages of pills and face powder.

Guests who declared that they had received so many laughs they would not need to see a doctor for many a long day were Mesdames G. A. Morgan, Jodie Baker, Roger Hunter, Jim Harris, Lloyd Burris, Ethredge, Minnie Pinney, Andrew Shrieber, Jodie Mathews, Sherman Gehrett, and Misses Grace Mitchell, Bettie and May Blue.

A Pittsburg professor says the day is advancing when an entire house or mansion will be lighted by but one electric bulb. That would be fine, but we're more interested in how to operate a radio on the expense of a single bulb. That would be great.

Alliances and Alliances

These are days of alliances, both matrimonial and international.

But we believe the greatest of all alliances, barring matrimony, is the alliance between the home town merchant or other business men and the local community consumer.

International alliances are formed for mutual protection and other advantages. They require concessions on the part of each party to such an alliance.

It is the same with the community alliance between business man and consumer. Each must make concessions for the good of both. The business man must sacrifice his desires for high prices and big profits. He must sell at a close margin of profit and equal the service of competing city dealers.

The consumer must sacrifice the allure of the catalogue house and the blazing store windows of the large city, and remember that when he trades at home he is aiding himself and his community as well as the merchant with whom he spends his money.

That is the spirit that makes for local prosperity. Any other attitude is the forerunner of depression and despair, of which we have had entirely too much.

What is your attitude in this town, Mr. Merchant and Mr. Consumer?

Do we progress, or do we bust?

THE MANTLE OF CHARITY

Now that the pestiferous political campaign is out of the way let's cast off the pall of charges and countercharges, of gloom and uncertainty, and inject a little more humanity into our daily lives that the drabness of today may be converted into roses and sunshine of tomorrow.

We have not believed one-fourth of what has been said of either Mr. Hoover or Mr. Roosevelt. It seems that in a modern political campaign the greatest effort is placed upon denouncing the opposing candidate, holding him up to the scorn of the world in order to destroy his chances of election.

We do not believe in such mudslinging. The successful candidate in every election has a hard enough time in living up to the requirements of his high office without having to spend the rest of his life cleansing himself from the political filth that has been hurled at him.

And it is even worse for him who goes down in defeat. No matter how honorable and upright he may be, he can never hope to completely rehabilitate himself in the hearts and minds of mankind. People are prone to forget the good that has been said of him and cherish that which is evil.

We can not make this a better world in which to live by simply working upon others. We must begin with ourselves.

Let's begin now, and throw the mantle of charity, forgiveness and silence over all that has linked us in the campaign.

Let's lift up our hearts and our minds and unitedly strive for the restoration of our country to normalcy and future prosperity.

It is the least that we can honorably do.

DON'T LOSE FAITH

Faith is a great thing, a wonderful restorer of confidence. It drives out despair when all seems to be lost. It converts gloom into cheer, fear into hope.

Regardless of what we have suffered during the past three years, there is no reason for despair, there is every reason for hope.

This is a great country, founded upon sound principles which are engraved in the hearts of our countrymen.

We have our ups and our downs, but the application of those principles to existing conditions always lifts us from the mire and restores us to a sound footing. It has been so in the past and it will be so in the future.

Faith is God given, but it is for all mortals who will embrace it. And YOU are mortal.

Tighten your belt and have faith. It will carry you a long way, and your country with you.

Well, it's all over now, the people have spoken and regardless of whether or not you were on the winning side, the only thing to do is to accept the consequences and submit for another two years, and by that time we will have another political mess ready for your consideration. Tuesday was a great day in the United States and the democrats will soon be in charge. We hope and do believe that conditions will improve during the coming year.

New metallic turbans at Mrs. Shockley's.

LET'S SWAP

One low pitch B-Flat Clarinet in good condition to trade for anything of equal value. Jesse Goen.

Pop corn to trade for honey. Mrs. W. E. Vanderford.

6 room house, all city conveniences, good fence, garden, chicken house and yard, 7-12 acres of land for cattle, hogs, horses, feed and implements. J. K. Harrison.

Model T Ford and milch cow to trade for 1927 Chevrolet Coupe. Nolan Parsons.

Nice Jersey heifer about 15 months old to swap for second-hand piano. Drew Vinson.

Two full blooded light Bramah roosters to swap for two others. Mrs. Fred Rollins.

Hot-dog! If the people of the United States did not hand the present Republican administration a package in Tuesday's election, I don't know what you would call it. Mr. Roosevelt carried almost ninety percent of the total electoral vote and was elected by the largest majority any president ever received in the history of the United States.

In Cripple Creek Colorado, famous gold mining town high up in the Rockies, a poolhall proprietor made the mistake of selling drinks to prohibition agents. A federal judge gave him his choice of going to jail or going to church every Sunday for a year. He agreed to listen attentively to fifty-two consecutive sermons, if he can find a minister who will stand sponsor for him and not roast him too much. No bottles allowed.

Worth All It Costs

There is a purpose, or reason behind all things.

Many people think that fate has been cruel to the world in the depression that has been inflicted upon us. But is it true?

Here in America, following the war, the people went on a spending orgy. Money flew like water. The word "saving" was almost unknown. People simply lost their heads, refused to make proper use of the brains God gave them.

The crash of 1929 will never be forgotten. Neither will the depression that followed it.

Something was needed to put sense into our heads, to return us to the ways of sanity.

That something was the depression.

It will be worth all it has cost us.

YOUR RED CROSS NEEDS YOU

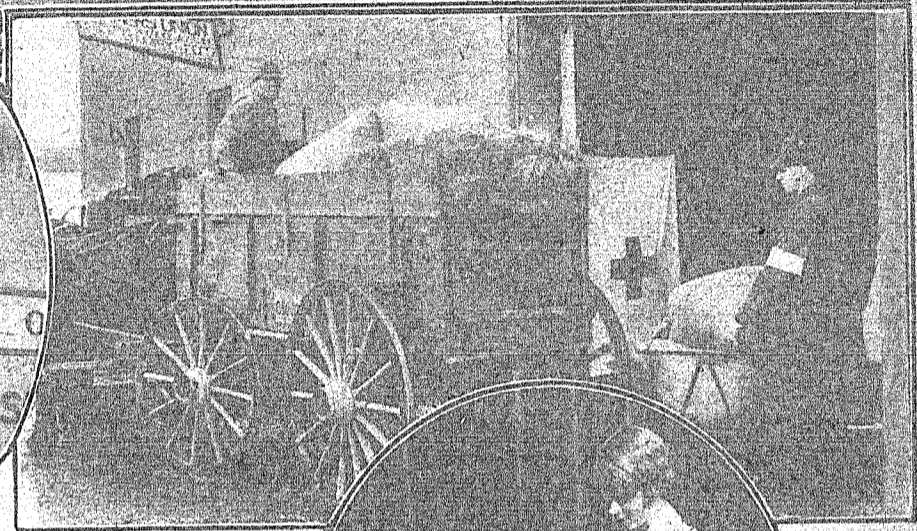

RELIEF WORK of the AMERICAN RED CROSS

Student nurses are taught Red Cross first aid and water safety methods.

Use of trucks was donated and unemployed men distributed free Red Cross flour in many counties.

A quarter million tons of free feed was given to save the livestock of the northwest.

By-products of Farm Board wheat given Red Cross—first, flour; second, bread; third, a dress for the little girl, made from the sack.

The American Red Cross gave unemployment relief to 3,000,000 families during winter, spring and summer of 1931-1932.

This relief included:
Red Cross flour made from Farm Board wheat, distributed free to more than 2,500,000 families.
Garden seeds to plant a quarter acre, given free to more than 315,000 families.

Food, clothing, medical aid, school lunches and milk for children and other necessities to 380,000 families, including aid in mining communities.
2,200 Red Cross Chapters participated in unemployment relief.

More than 400,000 war veterans and their families were aided by 3,118 Red Cross Chapters.

750 Red Cross public health nurses made 1,335,000 visits to aid the sick and teach health methods. Thousands of unemployed are dependent upon Red Cross nurses in times of stress.

Red Cross volunteers made 336,000 new garments for the needy.

The Red Cross also gave relief in 60 disasters during the year—several of major proportions, including floods in Mississippi and Louisiana where 50,000 persons were fed and a tornado in southeastern states where 368 persons were killed and aid was given 2,050 injured. More than \$250,000 was expended by Red Cross in tornado relief.

In addition to these extraordinary demands upon its resources:

7,000,000 school children were enrolled in Junior Red Cross.

72,000 persons were enrolled as Life Savers.

69,000 persons received First Aid certificates.

36,000 persons took Home Hygiene courses.

Aid was sent in 22 disasters in insular and foreign countries.

Volunteers made 3,700,000 surgical dressings; transcribed 300,000 pages of Braille; served 129,000 persons in canteens and made 54,000 motor calls.

Your membership in the annual roll call—November 11 to 24—will support this work.
